## MEMORANDUM ON THE OBJECTS OF THE HUMAN SCIENCES RESEARCH COUNCIL BILL

### 1. BACKGROUND

This Bill came about as a result of a review of the Human Science Research Council (the HSRC), which was conducted during October 2003 by a panel of local and international experts. Their report recommended a set of public purposes by which the mandate of the HSRC might be expressed and justified.

### 2. PURPOSE OF BILL

2.1 The purpose of the Bill is to repeal and substitute the Human Sciences Research Council Act, 1968 (Act No. 23 of 1968) (the Act), and thereby providing for the continued existence of the HSRC.

2.2 The objects of the HSRC would be to –

- (a) initiate, undertake and foster and undertake strategic basic research and applied research in human sciences, and to gather, analyse and publish data, relevant to the development challenges in South Africa, elsewhere in Africa and in the rest of the world, especially by means of projects linked to public sector oriented, collaborative programmes;
- (b) inform the effective making and monitoring of policy and to evaluate the implementation of policy;
- (c) stimulate public debate through the effective dissemination of fact-based results of research;
- (d) help build the research capacity and infrastructure for the human sciences in South African and elsewhere in Africa;
- (e) foster and support research collaborations, networks and institutional linkages within the human sciences research community;
- (f) respond to the needs of vulnerable and marginalised groups in society by researching and developmental problems and thereby to contribute to the improvement of the quality of their lives; and
- (g) develop and make publicly available new data sets to underpin research, policy development and public discussion of key issues of development and to develop new and improved methodologies for use in their development.

### 3. OBJECTS OF BILL

The Bill will bring the HSRC in line with the research and development strategies of the Government of the Republic of South Africa, as outlined in the 19% White Paper on Science and Technology and the recently approved Research and Development Strategy (approved by Cabinet in July 2002).

### 4. DEPARTMENTS/BODIES/PERSONS CONSULTED

- 4.1 Human Sciences Research Council;
- 4.2 Council for Scientific and Industrial Research;
- 4.3 South African University Vice-Chancellors Association;

4.4 Economic and Social Research Institute of Ireland;

4.5 Policy Coordination and Advisory Services (The Presidency).

**5. FINANCIAL IMPLICATIONS FOR STATE**

None.

**6. PARLIAMENTARY PROCEDURE**

6.1 The Office of the Chief State Law Adviser and Department of Science and Technology are of the opinion that this Bill must be dealt with in accordance with the procedure established by section 75 of the Constitution of the Republic of South Africa, 1996, since it contains no provision to which the procedure set out in section 14 or 76 of the Constitution applies.

6.2 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
