Any copy so made which has been certified by the master of the ship as a true copy of an entry in the ship's Garbage Record Book, shall be admissible in any judicial proceedings as evidence of the facts stated in the entry. The inspection of a Garbage Record Book and the taking of a certified copy by the competent authority under this paragraph shall be performed as expeditiously as possible without causing the ship to be unduly delayed.

FORM OF GARBAGE RECORD BOOK

Name of ship:

Distinctive number or letters:

IMO No.:

Period: From: To:

1. Introduction

In accordance with Regulation 9 of Annex V of the International Convention for the Prevention of Pollution from Ships, 1973, as modified by the Protocol of 1978 relating thereto (MARPOL 73/78) a record is to be kept of each discharge operation or completed incineration. This includes discharges at sea, to reception facilities, or to other ships.

2. Garbage and garbage management

Garbage includes all kind of food, domestic and operational waste excluding

fresh fish and parts thereof, generated during the normal operation of the vessel and liable to be disposed of continuously or periodically except those substances which are defined or listed in other annexes to MARPOL 73/78 (such as oil, sewage or noxious liquid substances).

The Guidelines for the Implementation of Annex V of MARPOL 73/78 should also be referred to for relevant information.

3. Description of the garbage

The garbage is to be grouped into categories for the purposes of this record book as follows:

1. Plastics
2. Floating dunnage, lining, or packing material
3. Ground-down paper products, rags, glass, metal, bottles, crockery, etc.
4. Paper Products, rags, glass, metal, bottles, crockery, etc.
5. Food waste
6. Incinerator ash.

4.1 Entries in the Garbage Record Book

Entries in the Garbage Record Book shall be made on each of the following occasions:

- (a) When garbage is discharged into the sea:
 - (i) Date and time of discharge
 - (ii) Position of the ship (latitude and longitude)
 - (iii) Category of garbage discharged
 - (iv) Estimated amount discharged for each category in m³
 - (v) Signature of the officer in charge of the operation.
- (b) When garbage is discharged to reception facilities ashore or to other ships:
 - (i) Date and time of discharge
 - (ii) Port or facility, or name of ship
 - (iii) Category of garbage discharged
 - (iv) Estimated amount discharged for each category in m³
 - (v) Signature of officer in charge of the operation.
- (c) When garbage is incinerated:
 - (i) Date and time of start and stop of incineration
 - (ii) Position of the ship (latitude and longitude)
 - (iii) Estimated amount incinerated in m³
 - (iv) Signature of the officer in charge of the operation.
- (d) Accidental or other exceptional discharges of garbage:
 - (i) Time of occurrence
 - (ii) Port or position of the ship at the time of occurrence
 - (iii) Estimated amount and category of garbage
 - (iv) Circumstances of disposal, escape or loss, the reason therefor and general remarks.

4.2 Receipts

The master should obtain from the operator of port reception facilities, or from the master of the ship receiving the garbage, a receipt or certificate specifying the estimated amount of garbage transferred. The receipts or certificates must be kept on board the ship with the Garbage Record Book for two years.

4.3 Amount of garbage

The amount of garbage on board should be estimated in m³, if possible separately according to category. The Garbage Record Book contains many references to estimated amount of garbage. It is recognized that the accuracy of estimating amounts of garbage is left to interpretation. Volume estimates will differ before and after processing. Some processing procedures may not allow for a usable estimate of volume, e.g. the continuous processing of food waste. Such factors should be taken into consideration when making and interpreting entries made in a record.

PART 2-MEPC.68(38)

MEMORANDUM ON THE OBJECTS OF THE SHIPPING LAWS AMENDMENT BILL

1. The Shipping Laws Amendment Bill proposes amendments to the Merchant Shipping Act, 1951 (Act No. 57 of 1951), and Marine Pollution (Prevention of Pollution from Ships) Act, 1986 (Act No. 2 of 1986).

Clause by clause analysis

2.1 Clauses 1, 3 to 28, and 31 propose amendments that will facilitate the implementation of the 1995 amendments to the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, 1978, the text of which currently appears in the Fifth Schedule to the Act. The amendments are necessary so as to ensure that the provisions of the Act authorise, and do not contradict, the regulations that will implement the bulk of the Convention with its amendments.

2.2 Clause 2 supplements the amendments adopted last year in the Shipping General Amendment Act, 1997 (Act No. 23 of 1997), by including reference to employees for the purposes of occupational safety on board ships.

2.3 Clauses 29 and 30 repeal two similar provisions of the Act governing the incorporation of technical standards. The provisions are consolidated and reenacted in clause 27(c).

2.4 Clause 33 gives effect to the Schedule to the Bill, which contains two amendments to the 1978 Protocol adopted by the Marine Environment Protection Committee of the International Maritime Organisation by resolutions MEPC.65(37) and 68(38).

Parliamentary procedure

3. In the opinion of the Department of Transport and the State Law Advisers the Bill must be dealt with in accordance with section 75 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996), since it contains no provision to which the procedures set out in section 74 or 76 of the Constitution apply.
