3. FOREWORD BY THE MINISTER

"We have also made progress in improving planning and implementation of policies and programmes. We successfully launched Operation Phakisa in the Ocean Economy as well as in the health sector for the Ideal Clinic."

Mr. Jeff Radebe (MP)

*Minister: Department of Planning,
Monitoring and Evaluation*

I am pleased to present the Annual Report for the financial year 2015/16 for the Department of Planning, Monitoring and Evaluation (DPME). The Annual Report reflects the work that was started in 2009 to improve government's planning capacity, monitoring the implementation of government plans and programmes, and evaluating the impact of government programmes in fighting inequality, poverty and joblessness.

To advance our planning and implementation capacity, in September 2015, we appointed new commissioners to serve on the National Planning Commission for a period of five years following the successful conclusion of the term of office of the first group of commissioners. The mandate of the Commission is:

- (a) to promote and advance the implementation of the National Development Plan (NDP) across different sectors of society;
- (b) undertake detailed planning in a selected number of sectors;
- (c) conduct regular engagements with various sectors of society on all matters pertaining to the long-term development of the country;
- (d) facilitate stakeholder engagements aimed at forging a social compact towards more effective implementation of the NDP;
- (e) take a cross-cutting view, undertake research into long-term trends, analyse implementation of short- to medium-term plans; and
- (f) contribute to the development of international partnerships and networks on national planning.

The main focus of the planning, monitoring and evaluations programmes is to implement the NDP through the Medium Term Strategic Framework (MTSF) 2014-2019.

This entails:

- (a) establishing robust systems, policy and legislative frameworks and processes for planning and monitoring in government as a whole;
- (b) developing requisite institutional capacity for planning and implementing government plans and programmes;
- (c) supporting the development of evidence-based policies and plans that draw on monitoring and evaluation and other data sources;
- (d) ensuring that planning sets the priorities that inform the allocation of resources and
- (e) influencing the planning philosophy of the country, in all spheres.

The Department made progress in implementing the different elements of planning, monitoring and evaluation. In the planning side, the Department has:

- (a) completed a research project in collaboration with the University of the Witwatersrand (Wits) and 10 young researchers focusing on urban innovation. The research results will be published in an edited volume in the course of 2016/17;
- (b) concluded with the study of investigating the feasibility and modalities for a national minimum wage policy.
- (c) continued with the National Income Dynamic Study (NIDS) whose results of the fourth survey will be released in the second half of 2016/17. The NIDS enables us to get a better understanding of the changing income dynamics in our society. It answers the questions related to who is getting ahead and who is falling behind, thus enabling a better targeted policy. The study is continuing and the fifth survey of the study will get underway in the course of the financial year 2016/17;
- (d) the Department is working with the Department of Water and Sanitation (DWS) to develop an integrated water plan as mandated by Cabinet. We aim to finalise the plan in the course of 2016/17;
- (e) the Department has started engagements with the Departments of Rural Development and Land Reform and Cooperative Governance to relocate the spatial planning and land use management functions

The Operation Phakisa initiative which focuses government programmes towards results, is continuing to add value in our planning and monitoring approaches. Substantial progress is being made through the methodology in regard to South Africa's ocean economy, and the Health, Education and Mining sectors.

On the evaluations programme, four provincial departments have developed provincial evaluation plans. Six evaluation reports were produced and eight evaluation improvement plans were developed with the aim of improving programme performance during the 2015/16 financial year.

Our programme of monitoring management practices across the whole of government, using the Local Government Management Improvement Model (LGMIM) and Management Practices Assessment Tool (MPAT) suggests that there is organisational learning, and that many departments find value in the self-assessment methods. The LGMIM programme has enrolled 30 municipalities across six provinces in the past financial year. Similarly, MPAT secured 100% participation (155 national and provincial departments) on the assessment of management practices.

Despite the achievements reported in this Annual Report, DPME still has a lot to do to improve the performance of government as a whole, and to ensure that government plans and programmes respond to the NDP priorities, and that their implementation is closely monitored and evaluated. To this end, DPME has embarked on a strategy review process that also involves the creation of requisite capacity to carry out its work.

I take this opportunity to thank the former Acting Director-General Ms Nolwazi Gasa, the acting Director-General Mr Tshediso Matona, my office, senior management and all officials for their support and in making it possible for the Department to work.

Mr. Jeff Radebe (MP)

*Minister: Department of Planning,
Monitoring and Evaluation*

4. DEPUTY MINISTER STATEMENT

"The analysis of the results of the follow-up visits shows that in over 65% of the cases, facilities managers have acted on the recommendations for improvements"

Mr. Buti Manamela (MP)

*Deputy Minister: Department of
Planning, Monitoring and Evaluation*

In financial year 2015/2016, the National Youth Policy 2020 (NYP 2020) built on the five key pillars of the enabling economic participation and transformation; facilitating education, skills development and second chances; health care and combating substance abuse; facilitating nation building and social cohesion, and optimising the youth development machinery was approved by Cabinet.

The policy is being implemented and monitored at the highest level of government. In June 2015, the President established the Presidential Working Group on Youth comprising of Deputy Ministers to monitor and drive the implementation of the NYP 2020. Work streams, comprising of business, civil society, and government departments were set up in each of the five priority areas. These partners act as catalysts in ensuring that the NYP 2020 is implemented and monitored. Implementation is gaining momentum and indeed every sector of society is beginning to understand that youth development is everyone's business. Progress on the five pillars is as follow:

- (a) On education, skills development and second chances: A sector plan for the introduction of second chance programmes for all learners that have not succeeded in Matric or Grade 12 is being implemented; a policy to ensure that there is articulation between schools, community colleges, TVET colleges and universities is being finalised in the 2016/17 financial year. Since the inception of the National Skills Accord in 2011, State Owned Enterprises have collectively trained young people in various scarce and critical skills.
- (b) On economic participation: Since the advent of the Youth Employment Accord, employment of young people in agriculture increased to 418 360, increase in employment of young people in construction is 158 000 and government has employed an additional 126 000.
- (c) Health care and combating substance abuse: The building of substance abuse treatment centres is ongoing with funds availed to ensure that each province has a treatment centre. Seven centres are operational and two centres in the Northern Cape and Free State will be complemented in next two years. The Drug Master Plan is being reviewed to ensure consistency in policy approach to substance abuse and funding being sourced for research to ensure that the war on drugs is informed by evidence.
- (d) Nation building and social cohesion: Initiatives are to be implemented to foster nation building and social cohesion through the National Youth Service Programme. We intend to work towards enrolling one million young people in the National Youth Service Programme by 2020. Through this initiative, we hope that the youth will discover their common humanity. They will use their energy to build our nation and provide valuable services to communities.
- (e) National Youth Service Programme: A draft National Youth Service Programme framework has been developed and a process of nation-wide consultation on the draft framework will be rolled out during 2016. We hope to submit the framework to Cabinet for approval during 2016.

DPME implements programmes to assess the experience of citizens with service delivery, such as, the Presidential Hotline, unannounced visits and citizen-based monitoring.

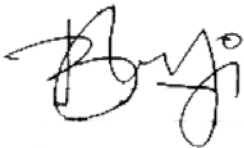

The Presidential Hotline provides a channel for citizens to seek redress when service delivery fails. The Hotline logs an average of 2 000 cases per month. The cumulative resolution rate for Hotline cases stands at 98%.

Our work demands that we are visible in service delivery sites, beyond interacting with departments to monitor their plans and programmes. In the past year, we assessed over 100 facilities and conducted improvement monitoring in 120 facilities.

These unannounced visits also help to highlight various institutional challenges, and enable DPME to advise the relevant departments on measures to be taken to remedy the situation.

In the previous financial year, we completed a two-year action learning process to develop a citizen-based monitoring method. We have published a toolkit for citizen-based monitoring and we will be supporting government departments to implement this method, which puts the citizen experience at the centre of service delivery.

I want to thank the Minister, staff in my office and departmental management for their support in making a success out of our efforts.

Mr. Buti Manamela (MP)

Planning, Monitoring and Evaluation*

5. REPORT OF THE ACCOUNTING OFFICER

"The national macro organization of the state that took place after the general elections in May 2014 has resulted in the merging of the National Planning Secretariat and the Department of Performance Monitoring and Evaluation. These changes resulted in the development of a new Strategic Plan and Annual Performance Plan of the new Department of Planning, Monitoring and Evaluation."

Mr. Tshediso Matona
Acting Director-General: Department
of Planning, Monitoring and
Evaluation

5.1 Overview of the operations of the Department

The Annual Report is an account of the financial and service delivery performance of DPME as outlined in the Annual Performance Plan (APP) for 2015/16. Over and above its APP targets, DPME embarked on a strategy review process out of the recognition that to be effective, planning, monitoring and evaluation needs to be periodically reviewed. The strategy review process is at an advanced stage and DPME plans to start implementing the revised strategy in the 2016/17 financial year onward.

DPME will continuously assess the relevance of its work and the service delivery environment to enhance its impact in monitoring the implementation of the NDP through the MTEF. The Department is also continuously seeking creative ways to do more with limited resources against competing demands. DPME strives to continuously improve the performance and developmental impact of the state on citizens. To achieve this, will require:

- Improved policy coherence and direction
- Seamless and mutually reinforcing planning, monitoring and evaluation systems and practices that clearly spell out the outcomes and targets to be achieved, accountability for the achievement of the targets, rigorous monitoring of progress and evaluation of the impacts
- Effective mechanisms and an enabling environment for coordinated action, collaboration and partnering across departments and with agents outside of government

DPME seeks to contribute to this capacity through the development of planning and monitoring frameworks, systems and capacity development initiatives.

In the financial year 2015/16, DPME was able to achieve an aggregated 80% of its targets. and 99.3% of budget spent We are looking forward to improve on this performance in 2016/17.

5.2 Overview of the financial results of the Department

5.2.1 Departmental receipts

The Department does not provide services for which fees are charged. The Department received R417 000 for recovery of prior year expenditure and administrative revenue for staff parking and the staff bus, interest earned, commission on garnishee orders and the sale of assets.

5.2.2 Programme Expenditure

PROGRAMME EXPENDITURE						
Programme name	2015/2016			2014/2015		
	Final Appropriation	Actual Expenditure	(Over)/Under Expenditure	Final Appropriation	Actual Expenditure	(Over)/Under Expenditure
	R'000	R'000	R'000	R'000	R'000	R'000
Administration	111 872	111 872	-	85 851	80 915	4 936
Outcomes Monitoring & Evaluation	90 087	89 560	527	89 343	83 950	5 393
Institutional Performance Monitoring & Evaluation	60 626	60 626	-	63 466	62 311	1 155
National Planning	75 632	70 736	4 896	81 872	68 661	13 211
National Youth Development Agency	415 983	415 983	-	413 310	413 310	-
TOTAL	754 200	748 777	5 423	733 842	709 147	24 695

The Department spent 99.3% of its allocated budget. Under-expenditure on compensation of employees was primarily due to normal turnover in staff. Under-expenditure in Programme 4: National Planning was due to the end of term of the National Planning Commission in May 2015 and the appointment of the new Commission in September 2015.

5.2.3 Virements/rollovers

No rollovers were approved for the 2014/15 financial year. Net virement of R6.565 million from Programme 4 and R2.237 million from Programme 2 was utilised for Information Communication Technology (ICT) equipment and computer services in Programme 1 (R7.687 million), travel expenses in Programme 3 (R195,000) and sponsorship of the Commonwealth Youth Conference in Programme 5 (R920,000).

5.3 Unauthorised, irregular and fruitless and wasteful expenditure

The Department has effective measures in place to prevent and detect irregular, fruitless and wasteful expenditure.

- During the year under review, the Department incurred R330,000 in fruitless and wasteful expenditure due to cancellations of travel arrangements. Several cases, including one case of R258, 000 is still under investigation
- Irregular expenditure amounted to R146,000 of which R120,000 was condoned. Irregular expenditure was incurred due to officials failing to comply with procurement procedures
- The Department did not incur any unauthorised expenditure

Detailed information on irregular, fruitless and wasteful expenditure is available under Part E: Financial Information disclosure notes to the annual financial statements 2015/16 notes 22 and 23.

5.4 Future plans of the Department

The Department management team under the guidance of the Minister and Deputy Minister identified the need for the Department to shift its focus from an 'arm's length' planning, monitoring and evaluation role to a more 'hands-on' role, given the need to accelerate the implementation of government's apex priorities as espoused in the NDP and to closely monitor the delivery processes. In the guidance that the Minister provided for the strategy review process, he highlighted the following as key areas of focus for DPME going forward:

- Expand on the ground monitoring, intelligence and visibility at service delivery points
- Factoring youth development into the work of the Department as a special constituency because of its increased alienation and marginalisation. This is a top priority for the country to benefit from the demographic dividend of a youthful population
- Monitoring and reporting on the 30 day payment commitment
- Reforming the mining sector
- Ensuring sector plans for strategic sectors are developed and implemented
- Monitoring the performance and effectiveness of Development Finance Institutions and State Owned Enterprises in directing their resources towards the country's development goals and objectives
- Alignment of the National budget to key priorities

Further, the discussions identified as a core problem that despite major investments in services and infrastructure, government is not achieving the desired impact on its citizens. The major challenge in the delivery value chain is that there are duplications, inefficiencies and gaps in services delivered to the citizens.

5.5 Public Private Partnerships

The Department did not enter into or participate in any PPP contracts for the period under review.

5.6 Discontinued activities/activities to be discontinued

The Department did not discontinue any of its activities during the 2015/16 financial year.

5.7 New or proposed activities

The key activities to address the challenges identified in the next five years are as follows:

- Promote the use of evidence in policy making and design of government programmes. There is insufficient use of evidence to inform policy and planning, and thus departmental plans and policies are weak and not likely to achieve the intended outcomes
- Improve planning, monitoring and evaluation. Poor planning, monitoring and evaluation affects the design of what government does, and its ability to learn and improve
- Improve the planning and alignment of government programmes. The degree to which the NDP and MTSF are directing government's work is inadequate
- Improve policy coherence. Fragmentation in policies and implementation across government and thus the need to further strengthen implementation of the Socio-Economic Impact Assessment
- Develop and implement an approach to proactively identify service delivery bottlenecks and proactively tackle them. Problems are not resolved quickly to improve delivery.

- Increase communication of the NDP and MTSF. There is insufficient communication of the NDP and MTSF as guiding frameworks intended to focus government's work
- Improve resource allocation for priority government programmes. Resource allocation is not sufficiently aligned to the NDP/MTSF, and with fiscal constraints we are not sufficiently focusing our resources hence the need to focus in this area in a more co-ordinated and concerted manner
- Co-ordinate and play a secretarial role for the assessment of Directors-General (DGs) and Heads of Departments (HoDs)

5.8 Supply chain management

No unsolicited bid proposals were concluded by the Department. The Departmental Supply Chain Management (SCM) system has matured significantly since 2011 and the Department continues to improve its policies and internal controls to prevent and detect irregular and fruitless and wasteful expenditure. The SCM unit currently does not experience any significant challenges but will require additional capacity if the Department continues to grow.

5.9 Gifts and Donations received in kind from non-related parties

Gifts and donations received from non-related parties are disclosed in the Annexures to Part E: Financial Information.

5.10 Exemptions and deviations received from the National Treasury

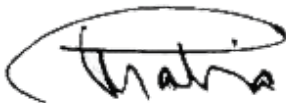

The Department did not request any exemption from the PFMA/Treasury Regulations or from financial reporting requirements during the financial year.

5.11 Events after the reporting date

None

5.12 Conclusion

The Department acknowledges the contributions of Ms Nolwazi Gasa who was the Acting Director-General in the first half of the year. I wish to express my heartfelt appreciation to the Minister and the Deputy Minister for their strategic leadership and guidance at all times and for ensuring that the Department gives effect to the work that the Office of the President has mandated us with. I take this opportunity to say thank you to the DPME team for their contribution to the success of the Department.

Mr Tshediso Matona

Acting Director-General

Date: 22 August 2016

6. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

All information and amounts disclosed throughout the Annual Report are consistent.

The Annual Report is complete, accurate and is free from any omissions.

The Annual Report has been prepared in accordance with the guidelines on the Annual Report as issued by National Treasury.

The Annual Financial Statements (Part E) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.

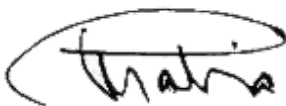

The Accounting Officer is responsible for the preparation of the Annual Financial Statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the Annual Financial Statements.

The external auditors are engaged to express an independent opinion on the Annual Financial Statements.

In my opinion, the Annual Report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the Department for the financial year ended 31 March 2016.

Yours faithfully

Mr Tshediso Matona

Acting Director-General

Date: 22 August 2016

7. STRATEGIC OVERVIEW

7.1 Vision

Improved government outcomes and impact on society

7.2 Mission

To facilitate, influence and support effective planning, monitoring and evaluation of government programmes aimed at improving service delivery, outcomes and impact on society

7.3 Values

A learning organisation

Our values are inspired by our desire to be a learning organisation. We value innovation, partnerships and feedback. We do not do the same things over and over when they are clearly not working

Our staff

We value our employees and therefore we strive to create an environment that allows them to grow and to be innovative. We will create an environment that enables our staff to:

- Act with integrity
- Practice Ubuntu
- Respect self and others

Our customers

We shall at all times be exemplary in all respects. This includes being people-centred and service-oriented.

Our performance culture

Our performance culture is influenced by our commitment to:

- be outcome oriented
- pursue progressive and quality management practices in order to achieve value for money, efficiency and effectiveness
- produce quality outputs
- be compliant with prescripts
- pay attention to the basics, such as:
 - not being late for meetings
 - running meetings efficiently
 - responding to e-mails, phone messages and all other requests timeously
- be accountable and transparent

8. LEGISLATIVE AND OTHER MANDATES

There was no change in the mandate for the current reporting cycle. The mandate of the Department of Planning, Monitoring and Evaluation is derived from section 85(2) (b-c) of the Constitution of the Republic of South Africa, which states that:

“The President exercises Executive Authority, together with other members of Cabinet, by

- (a) Implementing national legislation.*
- (b) Developing and implementing national policy.*
- (c) Co-ordinating the functions of state departments and administrations.*
- (d) Preparing and initiating legislation.*
- (e) Performing any other executive function provided for in the Constitution or in national legislation.”*

This has been given concrete expression by the President in his 2010 and 2011 State of the Nation Addresses as well as various Cabinet decisions; and by the “Policy Framework on Performance Monitoring and Evaluation - Our Approach” document and the “Revised Green Paper: National Planning Commission”, which were tabled in Parliament.

DPME has also been delegated the function of regulating Strategic Plans and Annual Performance Plans by the National Treasury in line with Treasury Regulation and the PFMA.

9. ORGANISATIONAL STRUCTURE

10. ENTITIES REPORTING TO THE MINISTER

The table below indicates the entities, in addition to the Presidency, that reported to the Minister during the financial year under consideration. The Office of the Minister and Deputy Minister were transferred from the Presidency to DPME in July 2015.

Related party transactions are included in the disclosure notes to the Annual Financial Statements (Part E).

NAME OF ENTITY	LEGISLATIVE MANDATE	FINANCIAL RELATIONSHIP	NATURE OF OPERATIONS
National Youth Development Agency (NYDA)	NYDA Act	Transfer payments	Support youth empowerment
Statistics South Africa	Statistics Act, 1999 (Act No. 6 of 1999)	None	The purpose of this Act is to advance the planning, production, analysis, documentation, storage, dissemination and use of official and other statistics

PART B

PERFORMANCE INFORMATION

1. AUDITOR-GENERAL'S REPORT: PREDETERMINED OBJECTIVES

The Auditor-General of South Africa (AGSA) currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives heading in the Report on other legal and regulatory requirements section of the Auditor's Report.

Refer to pages 96-98 of the Report of the Auditor-General of South Africa, in Part E: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 Service Delivery Environment

The overarching outcome that DPME must achieve is to improve the performance and developmental impact of the state on citizens. To achieve this, will require:

- Improved policy coherence and direction
- Seamless and mutually reinforcing planning, monitoring and evaluation systems and practices that clearly spell out the outcomes and targets to be achieved, accountability for the achievement of the targets, rigorous monitoring of progress and evaluation of the impacts
- Effective mechanisms and an enabling environment for coordinated action, collaboration and partnering across departments and with agents outside of government

The DPME was able to achieve most its financial and service delivery targets in the period under review. There is an acknowledgment that to achieve its intended impact on the state, more still needs to be done. For this reason, in the period under review, DPME has engaged in a strategy review process to strengthen its capacity and sharpen its strategies for delivering on its mandate.

2.2 Service Delivery Improvement Plan

The service delivery improvement plan for DPME is work in progress. This requires an injection of financial resources to increase its capacity over the next three years. The Department has completed a service delivery improvement plan based on the current operations. The identified improvement areas have been incorporated into the APP targets for the reporting period under review. The tables below highlight the service delivery plan and the achievements to date.

Main services and standards

2.3 Organisational environment

Organisationally, no major changes took place during the reporting period. However, the Department absorbed the Ministry into the organisational structure of the Department. A number of posts were also added in the organisational structure of the Department to create capacity in areas of need. This resulted in the Department missing its targets of a 10% vacancy rate in its establishment.

2.4 Key policy developments and legislative changes

Since the merging of DPME and National Planning Commission Secretariat resulting in the legislation governing both the National Planning Commission (NPC) Secretariat and the DPME, there were no new developments in the legislative area affecting the work of new DPME.

3. STRATEGIC OUTCOME ORIENTED GOALS

There were no changes in the strategic outcome oriented goals during the financial year under review. Strategy to overcome areas of under-performance

Most targets which were reported as not achieved or partially achieved have either been achieved or in the process of being finalised. Some targets are due to the fact that there was an oversight in keeping records of steps taken and therefore they are only technically categorised as partially achieved. However, the Department has embarked on a strategy review process to increase its capacity to respond.

Changes to planned targets

There were no changes to the planned targets during the financial year.

PART C

GOVERNANCE

1. INTRODUCTION

The Department of Planning of Monitoring commits to upholding good corporate governance as espoused in the King III report and the Public Finance Management Act. We strive to promote good management practices in the areas of Risk Management, Fraud Prevention, Ethics, Procurement and Good Governance as well as to safeguard the department against any kind of misconduct or fraud.

2. FRAUD AND CORRUPTION

The Department has an approved Fraud Prevention Policy, Fraud Prevention and Response Strategy as well as Whistle Blowing Policy. Fraud awareness was conducted by means of screens-popups and integrated into departmental induction programmes. A web-based reporting mechanism for any suspicious or fraudulent activities have been created to provide whistle blowers a platform to report. During the period under review, there were no cases of fraud and corruption reported. Although the Department is not immune from fraud and corruption, the current controls are adequate to detect and prevent fraud and corruption within the Department.

3. MINIMISING CONFLICT OF INTEREST

The Department has established control mechanisms to deal with conflicts of interest. Firstly, all members serving in decision-making committees are required to disclose their interests. This helps to create awareness for members to be honest in their dealing with matters that have the potential to create conflicts of interest. Secondly, appointed members sign a declaration to indicate any conflict of interest that may arise in any matter that they deal with. Thirdly, in awarding tenders to successful bidders, the Department undertakes verification processes to determine if any departmental officials have any association with the service providers, through the Companies and Intellectual Property Registration Office. Members of senior management are required to disclose their business interests and this is verified against the Companies and Intellectual Property Registration Office records. All employees are required to apply to perform remunerative work outside of their employment as per the requirements of the Public Service Act.

4. CODE OF CONDUCT

The Department develops the awareness of all new employees of the Code of Conduct for the Public Service during induction programmes, which happens on a quarterly basis. All employees have signed the Departmental Code of Ethics and Conduct. A SCM code of conduct has also been signed by officials in the SCM unit as well as by all Bid Adjudication Committee members. Processes are in place to address any breaches through the Disciplinary Code for the Public Service, the Fraud and Corruption Strategy and Plan as well as the Whistle Blowing Policy.

5. HEALTH, SAFETY AND ENVIRONMENTAL ISSUES

There is currently no health, safety and environmental issues impacting negatively on the operations of the Department.

6. PORTFOLIO COMMITTEE

During the period under review, the Department appeared before the Portfolio Committee six times as follows:

- On 9 September 2015, the Department presented its first quarter performance report
- On 14 October 2015, the Department appeared before the Portfolio Committee to present its Annual Report 2014/15
- On 4 November 2015, the Department briefed the Portfolio Committee on the departmental frontline service delivery programme
- On 17 November 2015 and 24 February 2016, the Department was invited to brief the Portfolio Committee on MPAT programmes
- On 9 March 2016, the Department briefed the Portfolio Committee on its 3rd quarter performance report
- During its appearances, there were no major issues raised with the performance of the Department. The committee, however, raised concerns about the capacity of the Department to carry out its mandates. The Department was also urged to speed up the process of filling vacancies as they became available.

7. SCOPA RESOLUTIONS

None.

8. PRIOR MODIFICATIONS TO AUDIT REPORTS

There were no matters that gave rise to a qualification, disclaimer, adverse opinion and matters of non-compliance in the previous audit report.

9. INTERNAL CONTROL UNIT

An Internal Control unit was established during the 2014/15 financial year. The unit was unable to fully develop its role in the Department due to staff shortages in the Finance and SCM units and officials from the Internal Control unit having to perform financial accounting and SCM support functions.

10. INTERNAL AUDIT UNIT

The Department has an established and independent Internal Audit Function which reports functionally to the Audit Committee and administratively to the Accounting Officer. Internal Audit is tasked with the responsibility of assisting DPME to accomplish its objectives and to provide reasonable assurance on the adequacy, effectiveness, and efficiency of internal control, risk management, and governance. The Internal Audit function has direct access to the Audit Committee and regular meetings are held with the chairperson of the audit committee.

A co-sourced audit partnership was adopted with KPMG to enhance the internal audit capacity and ensure adequate and effective audit coverage of all critical areas within DPME. The Co-Sourced partnership lapsed during 2015/16 and management was in the process of sourcing a potential service provider during the latter part of the financial year.

The Internal Audit unit successfully completed its approved Annual Internal Audit Plan to the satisfaction of the Audit Committee.

11. RISK MANAGEMENT FUNCTION

The Department has established an effective, efficient and transparent system of risk management as required by the prescripts and legislation. Risk Management Policy and Strategy were approved and implemented throughout the year. Risk assessments were conducted for both strategic and operational risks for all the departmental programmes. Consolidated risk registers were presented to the both Risk Management Committee and Audit Committee for approved and implementation. Quarterly risk management committee meetings were convened to oversee the implementation of improvement plans and escalated to the Audit

However, the External Quality Assurance Review identified the need for the function to be separated from Internal Audit and the appointment of an independent external chairperson of the Risk Committee to strengthen the governance structures in the Department. Executive management resolved that the Risk Committee will be chaired by the Director General as risk management has not matured to the point where an external chairperson is appointed. Currently, the Department is in the process of reviewing its organisational structure to build capacity and the function of risk management will be located to the planning and governance function as recommended by the Executive Management Committee.

12. AUDIT COMMITTEE REPORT

The Audit Committee was established and constituted in terms of Section 77 of the Public Finance Management Act and Treasury Regulations. The Audit Committee has a total of five (5) Non-Executive members, as well as a representative of the Auditor-General South Africa as a standing invitee.

The Audit Committee has during the financial year provided oversight on the expanded mandate of DPME through constant engagements with management. It has encouraged the establishment of clearly documented obligations associated with the expended activities.

The Audit Committee remains concerned over the delayed appointment of a permanent Accounting Officer, since the departure of Dr. Sean Phillips during 2014/15. Further the recent changes in strategy and future mandate has created some uncertainty and may lead to a decline of morale amongst the staff.

Below, a table reflecting the present Audit Committee members.

Name	Qualifications	Internal / External	Appointment Date	Resignation Date / Contract End	No. of meetings attended
Mr. Cedric Boltman (Chairperson)	MBA	External	1 October 2010	30 October 2016	8/8
Mr. Anton Bischof	MBA, CA(SA)	External	1 October 2010	30 October 2016	7/8

Ms. Tantaswa Fubu	CA(SA)	External	1 October 2015	30 October 2021	1/8

13. AUDIT COMMITTEE RESPONSIBILITY

The Audit Committee has successfully discharged its responsibilities as per Public Finance Management Act and the Treasury Regulation. The Audit Committee adopted formal Terms of Reference through its Approved Audit Committee Charter to regulate and govern its affairs.

Evaluation of Internal Controls

The Audit Committee is satisfied that DPME maintains internal controls and systems designed to provide reasonable assurance on the adequacy, effectiveness, and efficiency of policies, procedures, the integrity and reliability of both financial and non-financial information and the safeguarding of assets.

Evaluation of Financial Statements

The committee considered and has satisfied itself that DPME has appropriate and adequate resources within the Chief Directorate Finance. The annual financial statements for the year ending 31st March 2016, has been evaluated and based on the outcomes, the Audit Committee is satisfied that Annual Financial Statements complies in all material respect with the applicable accounting standards.

Evaluation of Risk Management and ICT Governance

The Risk Management Function is currently incorporated into the Internal Audit Function due to capacity constraints. The Audit Committee has however encouraged the establishment of separate and independent structures which will enhance and create a conducive environment for both functions to complement each other without possible conflicts of interest hampering their effectiveness. During the latter part of the financial year, efforts were undertaken to address the committee's concerns in relation to these structural matters.

The committee also reviewed the DPME's Enterprise Risk Management activities and is satisfied that risk management processes are adequate, effective and efficient. Oversight responsibility was also exercised over the adequacy, effectiveness and efficiency of ICT Governance risk within DPME, as per King III code on Corporate Governance requirements.

Auditor General's Report

The Audit committee is in agreement with the findings and matters raised ion the Auditor's report.

Mr. Cedric Boltman

Chairperson of the Audit Committee

1. INTRODUCTION

The information contained in this part of the Annual Report has been prescribed by the Minister for the Public Service and Administration for all departments in the public service.

2. OVERVIEW OF HUMAN RESOURCES

2.1 The status of human resources (HR) in the Department

During the 2015/16 financial year, the Ministerial and Deputy Ministerial functions transferred from the Presidency to the DPME. The transfer of the functions included all staff members including vacant posts, assets and the allocated budgets. This resulted in an increase in the staff establishment of the Department and did have a negative impact on the Department's vacancy rate at the end of the 2015/16 financial year; the Department had 345 funded posts of which 284 posts (83%) were filled (vacancy rate was 18% or 61 posts).

In the 12-month period from 1 April 2015 to 31 March 2016, the Department had an average turnover rate of 15%. The main reason for the exits was officials leaving due to promotions or career opportunities. The Department has an approved Retention and Attraction Policy in place and it is used appropriately.

The employment equity (EE) statistics at the end of the 2015/16 financial year were, with respect to people with disabilities 1.8%, with Africans at 83%, and Women at SMS level at 47.9%. The main challenge experienced was recruiting people with disabilities in the SMS cadre.

The Department entered into a service level agreement with a service provider ICAS to ensure specialised Employee Health and Wellness services are available to the staff in DPME. Regular health screenings were conducted and a health calendar was implemented to ensure acknowledged health related events are celebrated/awareness created, e.g. Breast Cancer awareness, HIV/TB awareness, etc.

The PMDS Policy was implemented in the Department, and assessments for the 2014/15 cycle were finalised and paid during the 2015/16 financial year.

2.2 Human resource priorities for the year under review

The following were priorities for the year under review:

- Ensuring that all vacant funded posts in the Department were advertised and filled without delay
- To provide employees with the relevant skills and competencies
- Providing a supportive workplace which provides relevant assistance to employees who are in need of it
- Achieving 50% representation of females in SMS, and increasing the percentage of people with disabilities employed in the Department, more especially in SMS.

2.3 Workforce planning and key strategies to attract and recruit a skilled and capable workforce

The HR plan for 2015-2018 was developed and approved in June 2015. All positions in the Department were advertised to encourage open competition. Both the newspapers and DPSA Vacancy Circulars are used to advertise vacant positions in line with the Department's Recruitment and Selection Policy. The Department also has an approved Recruitment and Retention Policy in place which is implemented where applicable to attract or retain skilled and capable officials in the Department.

Exit interviews are conducted in order to establish reasons why employees leave the services of the DPME and areas for improvement identified through the exit interviews that can assist in establishing the DPME as an employer of choice, and thereby reduce staff exits. The findings are also presented to Top Management.

The Department provides bursaries and training opportunities to staff members to further their qualifications and improve their skills/knowledge and an Internship Programme is established to provide young graduates with opportunities to gain knowledge and experience in the workplace, in order to be able to compete for jobs in the labour market.

2.4 Employee performance management

The Department has an approved PMDS Policy for all staff. All staff in the Department entered into performance agreements for the period 2015/16. Only 90% of eligible employees submitted the midterm reviews by 31 October 2015. The delay was due to the challenges experienced by former NPC employees (change of reporting lines, new roles which were undefined, etc.). The PMDS assessment for 2014/15 was concluded and the outcome of the assessments was communicated to staff in November 2015. The Department received six cases of appeals against the final results of the annual performance assessments which were addressed. Performance improvement plans for non-performers are being monitored.

2.5 Employee wellness programmes

The Employee Health and Wellness (EHW) programme is fully operational in the Department. Four Wellness Days were organised where the staff are provided with opportunities to undergo Health Risks Assessments (HRA's) which include HIV Counselling and Testing (HCT). The EHW service provider, ICAS continued to provide telephone counselling, face to face counselling and e-care services for our employees. ICAS provides regular reports regarding the uptake of the wellness services provided. The unit continued to provide monthly desk-drops covering different topics as per the health calendar.

2.6 Training and Development

The Department recruited 26 interns in 2015, awarded 17 bursaries and created 314 opportunities for short courses. It should be noted that in this instance, employees are counted according to the number of training interventions they have attended.

2.7 Achievements and challenges faced by the Department

Achievements

- The Ministerial and Deputy Ministerial functions were successfully transferred from the Presidency to the DPME and staff members were inducted and integrated into the DPME with minimum disruptions
- PMDS assessments were concluded for the 2014/15 performance cycle
- EHW services/programmes were implemented in the Department
- Training of staff is being undertaken in line with the WSP of the Department. The target set in the WSP was exceeded. At the end of the financial year, 314 training opportunities were provided in line with WSP. This represents an achievement of 196% against the WSP target of 2015/16.
- 26 Interns were offered internships during this period.

Challenges

- The Department was not able to maintain a low average vacancy rate of below 10%. A 15% average vacancy rate was experienced over the 2015/16 period as a result of the transfer of the Ministerial and Deputy Ministerial functions, as well as an increase in the number of funded posts on the approved establishment due to the increase in the mandate of the DPME. At the end of the financial year, the vacancy rate stood at 16.7% thereby not achieving the goal of a vacancy rate of below 10% as indicated in the Department's APP

- Achieving disability representation in SMS despite efforts to attract disabled candidates
- Retention of staff in corporate services due to job hopping for better remunerations especially at salary levels 9-12 after the restrictions on remunerating staff in Programme 1 in positions at salary levels 10 and 12 was introduced by the DPSA
- Time taken to complete compulsory pre-employment screening that is conducted by the SSA

2.8 Future human resource plans/goals

- Fill all vacant funded posts and ensure that a vacancy rate of 10% or less is achieved and maintained
- Implement of appropriate EHW programmes to support employees
- Continuous compliance to PMDS
- Coordinating and implementing appropriate skills development initiatives
- Achievement of EE targets
- Increase of awareness of diversity/disability/gender issues
- Maintain sound labour relations

3. HUMAN RESOURCE OVERSIGHT STATISTICS

3.1 Personnel related expenditure

The following tables summarises the final audited personnel related expenditure by programme and by salary bands for the period 1 April 2015 to 31 March 2016. In particular, they provide an indication of the following:

- Amount spent on personnel
- Amount spent on salaries, overtime, homeowners allowances and medical aid

Reasons for vacancies not filled within 12 months

- The filling of 1 x Level 1 post could not be finalised within 12 months as no suitable candidates could be identified through the normal recruitment process. Candidates were thereafter sourced through head-hunting, however, again no suitable candidate was identified. The post has since been re-advertised.
- The filling of 2 x Level 14 post could not be finalised within 12 months as no suitable candidates could be identified through the normal recruitment process. The posts have since been re-advertised.

3.4 Job Evaluation

Within a nationally determined framework, Executing Authorities may evaluate or re-evaluate any job in his or her organisation. In terms of the Regulations, all vacancies on salary levels 9 and higher must be evaluated before they are filled. The following table summarises the number of jobs that were evaluated during the year under review. The table also provides statistics on the number of posts that were upgraded or downgraded during the year under review.

Table 3.4.1 Job Evaluation by Salary band

The following table provides a summary of the number of employees whose positions were upgraded due to their post being upgraded. The number of employees might differ from the number of posts upgraded since not all employees are automatically absorbed into the new posts and some of the posts upgraded could also be vacant.

3.10 Leave utilisation

The Public Service Commission identified the need for careful monitoring of sick leave within the public service. The following tables provide an indication of the use of sick leave and disability leave for the period 1 January 2015 to 31 December 2015 (annual leave cycle). In both cases, the estimated cost of the leave is also provided.

I. Report of the Auditor-General

Report of the Auditor-General to Parliament on vote no. 8: Department of Planning, Monitoring and Evaluation

Report on the financial statements

Introduction

1. I have audited the financial statements of the Department of Planning, Monitoring and Evaluation (DPME) set out on pages 99 to 135, which comprise the appropriation statement, the statement of financial position as at 31 March 2016, the statement of financial performance, of changes in net assets and cash flow statement for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting Officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with the Modified Cash Standards as prescribed by National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999)(PFMA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Planning, Monitoring and Evaluation as at 31 March 2016 and its financial performance and cash flows for the year then ended, in accordance with the Modified Cash Standards as prescribed by National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999(Act No. 1 of 1999) (PFMA).

Report on other legal and regulatory requirements

7. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives of selected programmes presented in the annual performance report, compliance with legislation and internal control. The objective of my test was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

Predetermined objectives

8. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information of the following selected programmes presented in the annual performance report of the Department for the year ended 31 March 2016:
 - Programme 2 : Outcomes, Monitoring and Evaluation on pages 30 to 41
 - Programme 3 : Institutional Performance Monitoring and Evaluation on pages 41 to 50
 - Programme 4 : National Planning on pages 50 to 55
9. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned programmes. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's *Framework for Managing Programme Performance Information* (FMPPi).
10. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
11. I did not identify any material findings on the usefulness and reliability of the reported performance information for the following programmes:
 - Programme 2 : Outcomes, Monitoring and Evaluation on pages 30 to 41
 - Programme 3 : Institutional Performance Monitoring and Evaluation on pages 41 to 50
 - Programme 4 : National Planning on pages 50 to 55

Additional matters

12. Although I identified no material findings on the usefulness and reliability of the reported performance information for the selected programmes, I draw attention to the following matters:

Achievement of planned targets

13. Refer to the annual performance report on page(s) 22 to 57 for information on the achievement of the planned targets for the year.

Adjustment of material misstatements

14. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of Programme 2: Outcomes, Monitoring and Evaluation, Programme 3: Institutional Performance Monitoring and Evaluation and Programme 4: National Planning. As management subsequently corrected the misstatements, I did not identify any material findings on the usefulness and reliability of the reported performance information.

Unaudited supplementary information

15. The supplementary information set out on pages 136 to 138 does not form part of the annual performance report and is presented as additional information. I have not audited these schedules and, accordingly, I do not report on them.

Compliance with legislation

16. I performed procedures to obtain evidence that the Department of Planning, Monitoring and Evaluation had complied with applicable legislation regarding financial matters, financial management and other related matters. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

Internal control

17. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. I did not identify any significant deficiencies in internal control.

8. Statement of Accounting Policies and Related matters

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the Department's primary and secondary information. The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the Annual Financial Statements. These are based on the best information available at the time of preparation. Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1. **Basis of preparation:** The financial statements have been prepared in accordance with the Modified Cash Standard.
2. **Going concern:** The financial statements have been prepared on a going concern basis.
3. **Presentation currency:** Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the Department.
4. **Rounding:** Unless otherwise stated, financial figures have been rounded to the nearest one thousand Rand (R'000).
5. **Foreign currency translation:** Cash flows arising from foreign currency transactions are translated into South African Rands using the exchange rates prevailing at the date of payment/receipt.
6. **Comparative information**

Prior period comparative information: Prior period comparative information has been presented in the current year's financial statements. Where necessary, figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

Current year comparison with budget: A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.

7. Revenue

- 7.1 **Appropriated funds:** Appropriated funds comprises of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation). Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective. The net amount of any appropriated funds due to/from the relevant revenue fund at the reporting date is recognised as a payable/receivable in the statement of financial position.
- 7.2 **Departmental revenue:** Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise. Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.
- 7.3 **Accrued departmental revenue:** Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:
 - it is probable that the economic benefits or service potential associated with the transaction will flow to the Department; and
 - the amount of revenue can be measured reliably.

The accrued revenue is measured at the fair value of the consideration receivable. Accrued tax revenue (and related interest and/penalties) is measured at amounts receivable from collecting agents.

8. Expenditure

8.1 Compensation of employees

8.1.1 Salaries and wages: Salaries and wages are recognised in the statement of financial performance on the date of payment.

8.1.2 Social contributions: Social contributions made by the Department in respect of current employees are recognised in the statement of financial performance on the date of payment. Social contributions made by the Department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.

8.2 Other expenditure: Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.

8.3 Accrued expenditure payable: Accrued expenditure payable is recorded in the notes to the financial statements when the goods are received or, in the case of services, when they are rendered to the Department or in the case of transfers and subsidies when they are due and payable. Accrued expenditure payable is measured at cost.

8.4 Leases

8.4.1 Operating leases: Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment. The operating lease commitments are recorded in the notes to the financial statements.

8.4.2 Finance leases: Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment. The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions. Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of: cost, being the fair value of the asset; or the sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.

8.5 Payments for financial assets: Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings and/or under spending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable amounts but an estimate is included in the disclosure notes to the financial statements.

9. Aid Assistance

9.1 Aid assistance received: Aid assistance received in cash is recognised in the statement of financial performance when received. In-kind aid assistance is recorded in the notes to the financial statements on the date of receipt and is measured at fair value. Aid assistance not spent for the intended purpose and any unutilised funds from aid assistance that are required to be refunded to the donor are recognised as a payable in the statement of financial position.

9.2 Aid assistance paid: Aid assistance paid is recognised in the statement of financial performance on the date of payment. Aid assistance payments made prior to the receipt of funds are recognised as a receivable in the statement of financial position.

10. Cash and cash equivalents: Cash and cash equivalents are stated at cost in the statement of financial position. Bank overdrafts are shown separately on the face of the statement of financial position as a current liability. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

11. Prepayments and advances: Prepayments and advances are recognised in the statement of financial position when the Department receives or disburses the cash. Prepayments and advances are initially and subsequently measured at cost and are only expensed when invoices/interdepartmental claims are received.

12. Loans and receivables: Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the Department's Write-off Policy.

13. Investments: Investments are recognised in the statement of financial position at cost.

14. Financial Assets

14.1 Financial assets (not covered elsewhere): A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial. At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.

14.2 Impairment of financial assets: Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.

15. Payables: Loans and payables are recognised in the statement of financial position at cost.

16. Capital Assets

16.1 Immovable capital assets: Immovable capital assets are initially recorded in the notes to the financial statements at cost. Immovable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition. Where the cost of immovable capital assets cannot be determined reliably, the immovable capital assets are measured at R1, unless the fair value of the asset has been reliably estimated, in which case the fair value is used. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1. Immovable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project, unless the immovable asset is recorded by another department, in which case the completed project costs are transferred to that department.

16.2 Movable capital assets: Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition. Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1. Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment. Biological assets are subsequently carried at fair value. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project, unless the movable asset is recorded by another department/entity, in which case the completed project costs are transferred to that department.

16.3 Intangible assets: Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition. Internally generated intangible assets are recorded in the notes to the financial statements when the Department commences the development phase of the project. Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1. All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1. Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment. Subsequent expenditure that is of a capital nature is added to the cost of the asset at the end of the capital project, unless the intangible asset is recorded by another department/entity, in which case the completed project costs are transferred to that department.

17. Provisions and Contingents

17.1 Provisions: Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

- 17.2 Contingent liabilities:** Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department, or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation, or the amount of the obligation cannot be measured reliably.
- 17.3 Contingent assets:** Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the Department.
- 17.4 Commitments:** Commitments are recorded at cost in the notes to the financial statements when there is a contractual arrangement or an approval by management in a manner that raises a valid expectation that the Department will discharge its responsibilities, thereby incurring future expenditure that will result in the outflow of cash.
- 18. Unauthorised expenditure:** Unauthorised expenditure is recognised in the statement of financial position until such time as the expenditure is either:
- approved by Parliament or the Provincial Legislature with funding and the related funds are received; or
 - approved by Parliament or the Provincial Legislature without funding and is written-off against the appropriation in the statement of financial performance; or
 - transferred to receivables for recovery.

Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.

- 19. Fruitless and wasteful expenditure:** recorded, is equal to the total value of the fruitless and or wasteful expenditure incurred. Fruitless and wasteful expenditure is removed from the notes to the financial statements when it is resolved or transferred to receivables for recovery. Fruitless and wasteful expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.
- 20. Irregular expenditure:** Irregular expenditure is recorded in the notes to the financial statements when confirmed. The amount recorded is equal to the value of the irregular expenditure incurred unless it is impracticable to determine, in which case reasons therefore are provided in the note. Irregular expenditure is removed from the note when it is either condoned by the relevant authority, transferred to receivables for recovery or not condoned and is not recoverable. Irregular expenditure receivables are measured at the amount that is expected to be recoverable and are de-recognised when settled or subsequently written-off as irrecoverable.
- 21. Changes in accounting estimates:** Changes in accounting policies that are effected by management have been applied retrospectively in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the change in policy. In such instances, the Department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable. Changes in accounting estimates are applied prospectively in accordance with MCS requirements. Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases, the Department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.
- 22. Events after the reporting date:** Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.
- 23. Agent-Principal arrangements**

When the Department is the principal, it will recognise any payment made to the agent in the statement of financial performance. When the Department is the agent, it will recognise any fees received as departmental revenue in the statement of financial performance.

24. **Departures from the MCS requirements:** Management has concluded that the financial statements present fairly the Department's primary and secondary information and has not departed from the Standard.
25. **Capitalisation reserve:** The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National/Provincial Revenue Fund when the underlying asset is disposed and the related funds are received.
26. **Recoverable revenue:** Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.
27. **Related party transactions:** A related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party. Related party transactions within the Minister's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.
28. **Inventories (Effective from 1 April 2017):** At the date of acquisition, inventories are recorded at cost price in the notes to the financial statements. Where inventories are acquired as part of a non-exchange transaction, the cost of inventory is its fair value at the date of acquisition. Inventories are subsequently measured at the lower of cost and net realisable value or the lower of cost and current replacement value.
29. **Public private partnerships**

Public Private Partnerships are accounted for based on the nature and or the substance of the partnership. The transaction is accounted for in accordance with the relevant accounting policies. A summary of the significant terms of the PPP agreement, the parties to the agreement, and the date of commencement thereof together with the description and nature of the concession fees received, the unitary fees paid, rights and obligations of the Department are recorded in the notes to the financial statements.
30. **Key management personnel**

Key management personnel are those persons having the authority and responsibility for planning, directing and controlling the activities of the Department. The number of individuals and their full compensation is recorded in the notes to the financial statements.

9. Notes to the Annual Financial Statements (R'000)

The offices of the Minister and Deputy Minister were transferred from the Presidency to DPME on 1 October 2015. Historical appropriation and expenditure figures are disclosed in the financial statements of the Presidency.
