

DEPARTMENT OF PUBLIC WORKS

NO. 1197

03 NOVEMBER 2017

AGRÉMENT SOUTH AFRICA
(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 01 June 2016, issued an Agrément certificate, details of which appear in the schedule hereto.

SCHEDULE
Agrément Certificate 2016/511

Subject: Afripanel Modular Building System

Certificate holder: Aboard Group

Description: Afripanel Modular Building System is a single-storey structure that utilises factory produced wall and roof panels.

The design and approval of the foundation are always the responsibility of a registered professional competent engineer.

The external wall panels are typically 2 435 mm x 1 185 mm x 75 mm thick with tongue and groove edges clad with 0.5 mm galvanised chromadek sheeting encapsulating Expanded Polystyrene with a density of 16 kg/m³ and a 12.5 mm inner skin of magnesium oxide board (MgO).

Internal walls are made of the same material as the external walls but clad with MgO on both sides.

Roof panels are made of 75 mm thick expanded polystyrene sandwiched between 0.5 mm chromadek IBR roof sheets.

The panels are delivered on site with factory-fitted window and door frames (steel, aluminium or Agrément approved) and are purposely made to suite the design of the building system.

Plumbing and electrical conduits can be pre-fixed or surface mounted onto the composite panels.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>

Copies are obtainable from: Chief Executive Officer (CEO)
