SECRET

ANNEXURE 1: EXPLANATORY GUIDELINE

1. CONSTITUTION AND LEGISLATION

This aspect highlights constitutional imperatives, obligations, powers and functions of the President relating to the implementation of Ministerial Performance Agreements. It also points out key legislation in this regard.

2. BACKGROUND AND CONTEXT

In October 2019, Cabinet considered and approved the 2019 – 2024 Medium-Term Strategic Framework (MTSF). The MTSF translates the electoral mandate and the National Development Plan into a 5-year programme of government and comprises the 5-Year Implementation Plan and the Integrated Monitoring Framework, containing clear targets, interventions, resource implications and impacts.

In his State of the Nation Address (SONA) on 20 June 2019, the President confirmed the 7 national priorities, based on the electoral mandate, as follows:

- Priority 1:** A capable, ethical and developmental state
- Priority 2:** Economic transformation and job creation
- Priority 3:** Education, skills and health
- Priority 4:** Consolidating the social wage through reliable and quality basic services
- Priority 5:** Spatial integration, human settlements and local government
- Priority 6:** Social cohesion and safer communities
- Priority 7:** A better Africa and world

In his reply during the SONA debate, the President further elaborated on why the above 7 priorities are important and demonstrated that government has a clear plan for the road ahead. The key task is speedy and effective implementation. The new Cabinet has a

central role in ensuring that the commitments made in the SONA are implemented with the necessary urgency and vigour.

To this end the Ministerial Performance Agreements (MPAs) will be based on the commitments in the State of the Nation Address and selected priority actions from the 2019 - 24 MTSF. Each annual MPA contains a set of specific targets backed by measurable performance indicators to be achieved over the 5- year electoral period, the purpose of which is to put the country on a positive path towards our national development goals and objectives.

As you are aware, upon the announcement of the new Cabinet, the President made the following undertaking to the people of South Africa:

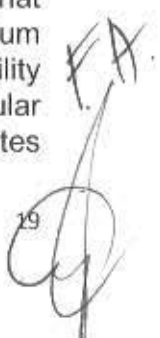

The people who I am appointing today must realise that the expectations of the South African people have never been greater and that they will shoulder a great responsibility. Their performance – individually and collectively – will be closely monitored against specific outcomes. Where implementation is unsatisfactory, action will be taken

It is the aim of this Performance Agreement to give effect to this undertaking.

2. KEY RESPONSIBILITY AREA 1: POLITICAL LEADERSHIP CONTRIBUTING TO THE COUNTRY'S TRIPLE CHALLENGES, NDP PRIORITIES AND MEDIUM TERM STRATEGIC FRAMEWORK (MTSF) 2019 – 2024

This aspect draws directly from the content of the MTSF and SONA and highlights specific responsibilities of the Minister in relation to a particular priority, indicator and target. This will help focus the work of the Minister concerned to the strategic agenda of government. As Minister in the Cabinet you will contribute **individually and collectively** to addressing the triple challenges of poverty, inequality and unemployment and the MTSF 2019 - 2024.

- **Priority:** indicates which of the 7 priorities are directly applicable to the Minister concerned. The Minister is still expected to contribute to the rest of the MTSF as part of the National Executive collective.
- **Target:** provides context to the medium to long-term impact we are seeking to achieve e.g. economic growth.
- **Outcome:** highlights the broad result area we want to make a difference within a year up to 5 years.
- **Indicators, baselines and targets:** are measures that are directly taken from the MTSF.
- **Minister's responsibility:** this column emphasizes the specific contribution that the Minister must make towards delivery of the intervention in the short to medium term. Where a Minister is mentioned as a lead, he or she must take responsibility to convene other relevant stakeholders towards the implementation of a particular intervention. Where a Minister is mentioned as contributing department, it indicates

19

a need for the Minister to take initiatives towards working with Cabinet colleagues and stakeholders to deliver on the specific intervention. The Cluster system will help with further clarification of these roles and responsibilities.

3. KEY RESPONSIBILITY AREA 2: PRIORITY 1: CAPABLE, ETHICAL AND DEVELOPMENTAL STATE

This MTSF priority has a few transversal interventions that apply to all Ministers, hence it must be included in all Ministerial Performance Agreements. Its content also ties in closely with the next key responsibility areas.

4. KEY RESPONSIBILITY AREA 3: INSTITUTIONAL OVERSIGHT OF THE HOD AND DEPARTMENT

Shows how you will **provide strategic leadership, direction and oversight** to own departments through the DG in the following areas:

- Show how you will manage the performance of Heads of Department and Department
- Describe how in executing your role and responsibility you will provide oversight in performing the functions below.

5. KEY RESPONSIBILITY AREA 4: POLITICAL LEADERSHIP AND OVERSIGHT

- Describe how in executing your role and responsibility you will provide oversight in performing the functions below.
- Show how you will actively participate and contribute to the different governance structures, for example, the Cluster/Committee/s system; to Inter-Ministerial Committees and MinMecs.
- Show how you will provide leadership and oversight to State Owned Entities/Agencies that you are responsible for
- The oversight and achievement of departmental strategic goals and annual performance plans and budget
- National Department facilitates public involvement, participation and Service Delivery Improvement Initiatives
- National Department involvement, participation in the District Planning Model

6. IMPLEMENTATION

To improve the likelihood of achieving the targets above, you are advised to ensure that senior managers in your department translate the priority actions and targets in this agreement into a delivery plan with the following elements:

- Formulating the aspiration: A clear statement of goals, outcomes and targets to be achieved for each priority arising out of a rigorous problem analysis, needs assessment and diagnosis;
- A coherent theory of change – articulating the best way to achieve the aspiration based on relevant theoretical literature and research on local and international cases as well an assessment of current policies and whether they are enablers or constraints. If the latter, then they should be revised and amended accordingly. To note is that in many instances policy development is not a problem, implementation is. However, in some cases revisions to policies may be required and in rare situations new policies may be required to enable the achievement of the priority;
- Setting specific milestones to be reached with leading indicators.
- Interventions (addressing inhibitors/constraints and identifying drivers of performance). Agreeing on who is involved and how those involved will go about contributing to the priority and
- A delivery trajectory mapping out the points from current performance (base line) and showing how implementation of initiatives will shift performance towards the set outcome and target. Points along the delivery trajectory will be used to conduct rapid impact assessments to establish whether real improvement is happening on the ground.

The delivery plan therefore essentially specifies what will be achieved (impact, outcome, target), where it will be achieved, who is involved and how those involved will go about achieving the priority.

Where cooperation from and or coordination with other parties (provincial MECs, National Ministers, Executive Mayors) is required to achieve the priority actions and targets, it is your responsibility to seek out this cooperation and bind the other party/parties to the commitments necessary to achieve the targets. In the event that cooperation was not forthcoming, details to this effect as well as how the non-cooperation and coordination failure affected the achievement of the target should be reported on at the bi-annual meeting with President.

Senior officials in your department/s are required to reflect the priority actions and targets in the Strategic Plans and Annual Performance Plans of the Department to ensure they are planned for and properly resourced. Moreover, I also expect that you will enter into a performance agreement with your Director-General that will reflect the priority actions and targets contained in this agreement, in addition to the other key performance areas of the Department.

I expect that you will formally delegate specific areas of responsibility to your Deputy Minister(s) to provide some support to you regarding the priority actions and targets in this agreement, in addition to the other key performance areas of the Department.

SECRET

7. PERFORMANCE MONITORING AND REVIEW

The process of performance monitoring, evaluation and reporting against the targets will be as follows:

- i. The DPME will prepare a report card on progress with the targets in the respective agreements for the benefit of the President
- ii. In preparation of the scorecard, DPME will obtain initial progress reports with supporting evidence from your department.
- iii. The progress report should provide a succinct summary of progress, current and emerging issues, key actions required or key actions taken, early warning of risks as well as decisions or recommendations to be taken forward and any other comment on progress.
- iv. The report and data will be analysed and validated and a draft scorecard will be produced by DPME. This will be discussed with your department to resolve queries before finalisation. Validation will also include random onsite visits by DPME to verify if delivery took place and within the specifications as set out in the agreement.

The DPME will prepare the scorecard which includes key issues affecting delivery, early warning risks and emerging policy issues for the President a copy of which will be sent to you prior.

In the instance where performance is sub-optimal, a meeting between the President and Minister will be convened. The outcome of the dialogue will be an agreement between the President and Minister on areas of improvement (the remedial actions). These will be incorporated in the performance score-card of the next performance review. It is only in the case of under-performance that the President may take any action he deems necessary.

Over and above this Cabinet will closely monitor the overall implementation of the 2019 - 24 MTSF. In this regard you are expected to table bi-annual progress reports to Cabinet on progress with regards to your commitments in the MTSF. It will not be sufficient to state in these reports that a particular action has been implemented. What must also be reported on is what the implementation of the action led to in terms of a result or the likely value it would create for society.

Your officials will need to collect administrative data that will allow oversight on progress and make these available to DPME when requested. DPME will triangulate this data with budget expenditure data and output level indicators, where available, and provide its own progress reports to Cabinet. The bi-annual progress reports will also form the basis of the meetings between the President and Ministers to identify and tackle obstacles to implementation.

8. POLITICAL OVERSIGHT OF THE DEPARTMENT

Beyond the priority actions and targets that you will be responsible for (which is the subject of this agreement), your Ministerial responsibilities also extend to:

1. Ensuring an optimal political – administrative interface;
2. Political leadership and oversight: providing strategic leadership to the department for the implementation of the relevant aspects of the electoral mandate/ oversee implementation of MTSF priorities relevant to the sector;
3. Support international and regional integration programmes and commitments (where applicable); and
4. Support good governance in the department by providing institutional oversight of the HOD and Department.

9. SPIRIT AND INTENT

There is no question that given the prevailing social, political and economic dynamics and environment, our actions require greater urgency and focus. While (and as I have stated before) there are no short-cuts and quick fixes, it is within our grasp to do the important things, to do them well and to do them without delay.

We have a duty to follow-through on our policy promises to the nation and make greater advances in terms of closing the gap between our development vision and the realities on the ground. The spirit and intent of the MPAs is to keep us focused on achieving our important targets.

10. PROFESSIONAL DEVELOPMENT

While the MPAs seek to promote results-oriented performance and accountability, the aim of the performance agreements is also to facilitate the professional development of all Ministers as leaders in government tasked with driving the development agenda of the country. In this regard you are encouraged to pursue programmes and initiatives that will provide you with the necessary competencies and tools to carry out your tasks and responsibilities. The Presidency and DPME will endeavour to provide Ministers with support and technical advice should the need exist.
