**STANDARDS ACT, 1993
STANDARDS MATTERS**

In terms of the Standards Act, 1993 (Act 29 of 1993), the Council of the South African Bureau of Standards has acted in regard to standards in the manner set out in Schedule 1 to this notice.

SCHEDULE 1: REDESIGNATION AND RENUMBERING OF SOUTH AFRICAN NATIONAL STANDARDS

All South African standards that were previously published by the South African Bureau of Standards with the prefix "SABS" have been redesignated as South African National Standards and will henceforth be published by Standards South Africa (a division of SABS) with the prefix "SANS". Various series of SABS standards, such as specifications, mark specifications, codes of practice, standard methods, adoptions of international and regional standards, and others, have been consolidated into one coherent numbered list. Compulsory specifications, recommended practices, rationalized specifications and coordinating specifications, in the "VC", "ARP", "NRS" and "CKS" series respectively, are unaffected.

With effect from the date of this Notice, all new South African national standards that have not previously been published under an "SABS" number will be published under, and designated by, a number with the prefix "SANS".

All existing standards in the list below may be referred to indefinitely, in any context, by either their "SABS" number or by their "SANS" number, both of which will be equally valid.

Physical renumbering of the standards in the list below, and any necessary amendment of references to other standards contained within them, will be carried out by Standards South Africa between the date of this Notice and 31st December 2007, after which all standards in the list below will only be sold bearing "SANS" numbers and containing references to South African national standards under the "SANS" system. In the intervening period, standards sold will, of necessity, bear designations in either the "SABS" or the "SANS" series, and contain references to standards in either the "SABS" or the "SANS" series, or both.

Interested parties can obtain further information from the Standards South Africa contact personnel listed in Schedule 3.

SCHEDULE 2: ADDRESSES OF SABS OFFICES
