Annexure A

Transfers to local government in terms of the Division of Revenue Act, No. 5 of 2004

1. Introduction

This gazette is published to enhance certainty, predictability and transparency of transfers from national government to municipalities. It provides information on three-year allocations and grants-in-kind to municipalities, and other information required in terms of the Division of Revenue Act (No. 5 of 2004) ("the Act") on the framework for individual transfer programme and strategic frameworks for the coordination of various transfers in terms of sections 11 and 13 of the Act.

The Act also requires provincial governments to gazette allocations from their own budgets to municipalities by 1 April 2004, in much the same manner as this gazette does. Read together with the relevant provincial gazette, this gazette allows municipalities to identify the full extent of transfers allocated to them for the current national financial year, and the two subsequent ones.

It should be noted that municipalities are expected to budget for all direct transfers allocated to them. These transfers should be scored on both the revenue and expenditure sides of municipal budgets. Indirect transfers, where there is no transfer of funds, should be treated as "grants-in-kind". These are listed in Schedule 7. Information on the treatment of each grant programme in this regard is included in the grant frameworks in the tables below.

This gazette provides three-year allocations in both the National and Municipal Financial year to benefiting municipalities for each grant programme. This is to enable municipalities to budget effectively and implement three-year budgeting. All municipalities should note that allocations for the outer years (the 2005/06 and 2006/07 financial years) are indicative only. However, these allocations will only be reduced for exceptional reasons.

2. Types of transfers

There are three broad types of transfers provided for in the Division of Revenue Act, 2004, these are the Equitable Share for local government and related transfers (including the R293 Personnel Grant and Free Basic Services i.e. electricity and water), conditional transfers for municipal infrastructure, and conditional transfers for recurrent municipal expenditure (encompassing both transfers for capacity building programmes and for municipal restructuring). The purpose, conditions, measurable outputs, and associated matters are detailed for each transfer programme in the individual grant framework, published in terms of section 11 and 13 of the Act. Allocations to each benefiting municipality are listed in the associated schedule.

2.1 The Local Government Equitable Share and R293 Personnel Grant

The allocations to municipalities from the Equitable Share must legally be made for the financial year of the national government, which runs from 1 April to 31 March. Notwithstanding, allocations based on the municipal financial year (1 July to 30 June) are published alongside these figures in Schedule 3. *All municipalities should use the figures for the municipal financial year for budget purposes in the 2004/05 municipal financial year and beyond.* All Equitable Share allocations will be rounded off and paid to the nearest Rand.

The R293 Personnel Grant and the Free Basic Electricity and Water allocations have been incorporated into the Equitable Share for budgetary purposes, although the allocations for the R239 Personnel Grant to benefiting municipalities will continue to be honoured in terms of existing agreements.

2.2 Infrastructure Transfer to Municipalities

Section 11(2) of the Act requires that infrastructure transfers to municipalities be made in terms of a policy framework approved by the Minister. The frameworks for individual grant programmes included

in this gazette, and the over-arching framework for municipal infrastructure transfers are also gazetted here. These are the Municipal Infrastructure Grant (MIG), the Implementation of Water Services Project (Capital), the Integrated National Electrification Programme and the Building for Sports and Recreation Programme.

The bulk of these transfers are found in Schedule 6A (Infrastructure), with two exceptions i.e.:

- a) The Implementation of Water Services Project (Capital) Programme is found in Schedule 7 (grants-in-kind) as this is primarily an asset transfer.
- b) The Municipal Infrastructure Grant (MIG) has a portion in Schedule 7 for the establishment of support systems for the implementation of the programme.

2.3 Recurrent Transfers to Municipalities

Section 13 of the Act requires that capacity-building transfers to municipalities be made in terms of a framework. The frameworks for individual grant programmes are published here, with allocations published in the associated Schedule 6 (recurrent) and Schedule 7 (grants-in-kind). Recurrent grant programmes are the Local Government Financial Management Grant, the Local Government Restructuring Grant, the Municipal Systems Improvement Grant and the Water Services Operating Subsidy Grant.

The Local Government Financial Management Grant is both a cash transfer and a grant-in-kind and is thus reflected in Schedules 6 and 7. The Water Services Operating Subsidy Grant is a grant-in-kind and is thus reflected only as a Schedule 7 grant. A portion of this grant will move to Schedule 6 as water services schemes are transferred to municipalities and cash grants begin to be made from this programme.

3. Additional matters associated with this gazette

3.1 Budgeting for Grants-in-kind / Indirect Transfers (Schedule 7)

Transfers listed in Schedule 7 will not be received as cash in a municipal primary bank account, and cannot, therefore, be budgeted for revenue. These allocations are thus listed for information purposes and a note to that effect should be included in a benefiting municipality's budget for the next financial years.

3.2 Provincial transfers to municipalities

Transfers from provincial governments to municipalities are not reflected in this gazette. Provincial treasuries are required to publish details of these transfers by *1 April 2004* in a provincial gazette. These gazettes will include information on transfers and grants-in-kind from the Local Government Support Grant.

3.3 Intra-municipal transfers

In terms of section 16(4) of the Act, the receiving officer of a district municipality that intends to transfer to a local municipality, or vice versa, an allocation or portion of it transferred to it in terms of the Act, may only effect such a transfer, provided all allocations are reflected in both municipality's annual budgets by 1 July 2004, or if later, as approved by the National Treasury. Municipalities intending to make such transfers, whether in cash, assets or grants-in-kind and regardless of whether they are received from national or provincial transferring officers, should seek National Treasury approval as soon as possible.

3.4 Reporting requirements

Section 16 of the Act, obligates every municipality receiving assistance from a grant programme to submit monthly reports on each grant. These monthly reports must comply with the provisions of section 16(2) of the Act. These reports must:

- a) be submitted within 10 days after the end of each month to the relevant transferring national or provincial officer;
- b) be submitted in terms of a format determined by that department, which must include information on:
 - the amount received by the municipality in the month reported on and for the financial year up to the end of that month;
 - the amount of funds delayed or withheld from the municipality in the month reported on and for the financial year up to the end of that month;
 - the actual expenditure by the municipality for the month reported on and for the financial year up to the end of that month in respect of allocations set out in Schedule 6;
 - the extent of compliance with the conditions of an allocation and with this Act;
 - an explanation for any material problems or variations experienced by the municipality, regarding an allocation which has been received and a summary of the steps taken to deal with such problems or variations; and
 - such other issues and information as the National Treasury may determine.

The National Treasury intends to enforce strict compliance with the reporting requirements of the Act in 2004/05. All municipalities are thus requested to pay special attention to the timeliness and accuracy of their monthly reports and the budget circular on reports to be sent to National Treasury.

Please be advised that the information provided in this Annexure A does not supersede the provision of the Act. In the event of any deviation between this Annexure A and the Act, the provisions of the Act take precedence. A copy of the Act can be found on www.treasury.gov.za together with an electronic version of this gazette.
