MEMORANDUM ON THE OBJECTS OF THE REGULATIONS FOR SAFETY MEASURES AT PUBLIC SCHOOLS: AMENDMENT

1. Main object

- 1.1 The Regulations for Safety Measures at Public Schools, as published in *Government Gazette* No. 22754 of 12 October 2001, focuses on the safety of learners on the school premises. In terms of section 15 of the South African Schools Act, No. **84** of 1996, a public school is a juristic person, with legal capacity to perform its functions in terms of the Act. By implication, a school is not restricted to its buildings and premises.
- 1.2 Learners who undertake a school tour are deemed to be at school and, therefore, Regulations for Safety Measures at Public Schools ought to apply to them as well. Learners who are on a school tour may not have with them drugs or dangerous weapons, any more than learners who are on school premises **may** do so. If there is reasonable suspicion that learners on a school tour have dangerous objects or illegal drugs in their possession, the principal or his or her delegate may search such children and seize those items.
- 1.3 Given that educators and parents who accompany the learners are on official duty, they may not possess or use alcohol, drugs or any illegal substance containing alcohol. The same applies to learners since they are involved in **an** official school activity.
- 1.4 The safety of learners during school tours does not relate **only** to the absence of dangerous objects and drugs but also to, amongst others, the safety of the means of transport that the school uses to transport the learners **from** one area to **another**.
- 1.5 In the light of the aforesaid, it was necessary to amend the Regulations for Safety Measures at Public Schools so as to cover all safety measures that a school must take.

2. Main features of the Amendment

- 2.1 The Amendment covers a variety of topics – namely, school tours and sporting activities, organisation of a tour, consent, transport, harmful physical activities and emergencies, and an application form for approval for undertaking a **tour**.
- 2.2 A public school must ensure that a vehicle that is used for transporting learners **has** valid insurance and is roadworthy and that its driver **has** both a valid driver's license and a professional driving permit.
- 2.3 A public school may not undertake any tour without the approval of the Head of Department or his or her delegate. The Head of Department will consider applications for approval in cases where full details of the tour **are** given. The most important details relate to the purpose of the tour, names of learners undertaking the tour, names of educators and governing body members who will be accompanying the learners and the type of transport that is used.

3. Financial implications

No additional costs are foreseen in this regard.

4. Legislative procedure

- 4.1 Amendment Regulations must be referred to Senior Management, the Heads of Education Departments Committee, the Council of Education Ministers **and** the Minister for approval before publication in the *Government Gazette* **for** public comment.
- 4.2 Comments **from** the public are incorporated into the Regulations on merit.
- 4.3 The final version of the Regulations is referred to Senior Management, **the** Heads of Educations Departments Committee, the Council of Education Ministers and the Minister for approval.
