

**NOTICE 994 OF 2006****DEPARTMENT OF PUBLIC WORKS  
AGREMENT SOUTH AFRICA**

(Approval of innovative construction products and systems)

Notice is hereby given that Agrbment South Africa has, with effect from 31 August 2005 , issued an Agrbment certificate, details of which appear in the schedule hereto.

**SCHEDULE**

Agrbment Certificate 2005/317

**Name of product:** Quick Sill  
**Certificate holder:** Quick Sill cc  
**Description:** Quick Sill is a prefabricated lightweight window sill. It is a combination internal and external window sill, manufactured from unplasticised polyvinyl chloride. It is white and supplied in widths of 205 mm or 290 mm, with standard lengths of 3 m and 5,8 m.

The installation method uses plastic adjustable Quick Sill jacks which hold the sill in position and hard against the underside of the window frame, until the gap between the wall and the underside of the sill is built up and finished.

The Agrbment certificate contains detailed information on the product and can be accessed at <http://w.agrernent.co.za>
