CHAPTER 1

INTRODUCTION

1. General

- (1) The *National Policy on the Conduct, Administration and Management of the Assessment of the National Certificate (Vocational)* is underpinned by the policy for the *National Certificate (Vocational): Qualifications at Levels 2 to 4 on the National Qualifications Framework (NQF)* as promulgated in *Government Gazette No. 28677* of 29 March 2006.
- (2) The *National Policy on the Conduct, Administration and Management of the Assessment of the National Certificate (Vocational)* governs the implementation of the policy for the *National Certificate (Vocational): Qualifications at Levels 2 to 4 on the National Qualifications Framework (NQF)*.
- (3) This policy is set on norms and standards to which all assessment bodies in terms of *Sections 3(4)(l) and 7 of the National Education Policy Act, 1996 (Act No. 27 of 1996)* and, *Chapters 3 and 7 of the Further Education and Training Act, 2006 (Act No. 16 of 2006)* must give effect.

2. Purpose of the policy document

- (1) The *National Education Policy Act, 1996 (No. 27 of 1996)* allows the Minister of Education to set norms and standards on the National Certificate (Vocational) within the Further Education and Training (FET) band. This is done through this policy, which sets norms and standards to which all assessment bodies give effect.
- (2) This document offers the necessary policy support and assistance in developing, organising, structuring and implementing an assessment framework for the National Certificate (Vocational).

- (3) The document furthermore focuses on policy for both Internal Continuous Assessment and external examinations.
- (4) The document also provides rules and conditions relating to the conduct, management and administration of Internal Continuous Assessment and external examinations. This serves to govern the rights and privileges of all persons involved in the assessment process, which include all officials who are involved in the administration of the assessment, students, parents and institutions that require assessment results.

3. Assessment

- (1) Assessment refers to gathering evidence to make a judgement or describe the status of learning of an individual or group. Assessment should be linked to learning and teaching and shall not be viewed or used in isolation. The aim of assessment is not simply to judge the outcome of learning, but to provide a supportive and positive mechanism that helps students to improve their learning and lecturers to improve their teaching.
- (2) The approach to assessment adopted in this policy is inclusive and also creates opportunities for all students, including students who experience barriers to learning. In line with *Education White Paper 6 on Special Needs Education: Building an Inclusive Education and Training System*, assessment must create the conditions for a true reflection of the actual academic abilities of students irrespective of the barriers which they experience.
- (3) Assessment will comprise an Internal Continuous Assessment and an external examinations component.
- (4) The evidence of Internal Continuous Assessment will be presented in a Portfolio of Evidence and allows students to be assessed on a continuous basis and also allows for the assessment of skills that cannot be assessed under examination conditions. Internal Continuous Assessment includes a variety of assessment practices.

- (5) The external examinations component for the fundamental subjects will comprise a written examination at the end of each year.
- (6) The external examinations component for the vocational subjects will comprise a written examination at the end of each year and an Integrated Summative Assessment Task. The purpose of these components is to provide reliable and fair measures of the achievements of students in the subjects offered.
- (7) Each assessment task should be designed to address the subject outcomes, learning outcomes, assessment standards, content competencies, skills, values and attitudes of the subject, and to provide students, lecturers and parents with results that are meaningful indications of what the students know, understand and can do at the time of the assessment.

4. Quality Assurance Stakeholders

- (1) The following bodies are involved with quality assurance of assessment and have to comply with *Chapter 3 of the General and Further Education and Training Quality Assurance Act, 2001 (Act No. 58 of 2001)*:

 31 - 60 students per venue: 2 invigilators; and
 61 - 90 students per venue: 3 invigilators.

- (4) Under no circumstances should lecturers be appointed to invigilate or even to relieve other invigilators when the subject that they teach is being written. Computer and drawing related subjects are exempted from this requirement.
- (5) Relief invigilators may be appointed for sessions of two (2) hours or longer. The relief may be for a maximum period of twenty (20) minutes during the session.

- (6) No person is eligible for appointment as an Invigilator or Assistant Invigilator if a near relative (son, daughter, brother or sister) is sitting for a specific examination session.
- (7) Where the need exists, private invigilators may be appointed to assist with the invigilation of students. Private invigilators should be persons who are trustworthy and honest, preferably community leaders.

34. Duties of the Chief Invigilator

- (1) The Chief Invigilator is fully responsible and therefore accountable for the examination conducted at the examination centre. He or she must be present at the examination centre for the duration of every examination session. His or her specific examination- related duties might include the following:
 - (a) The Chief Invigilator should select and appoint Invigilators.
 - (b) The Chief Invigilator must train all Invigilators before the examinations begin.
 - (c) The Chief Invigilator should draw up invigilation and relief invigilation timetables and submit these for approval to the Head of the institution.
 - (d) The Chief Invigilator should see to the preparation and readiness of the examination room(s), which includes the following:
 - (i) Students may not sit two (2) at a desk or table;
 - (ii) Students must be seated at least one (1) meter apart;
 - (iii) Subject matter such as drawings, etc. must be removed from the walls;

 - (v) Examination rooms must be sufficiently ventilated and illuminated; and
 - (vi) Ensure that each examination centre display a clock on the wall, visible to all students.

- (e) Before the commencement of the first examination session, the Chief Invigilator should ensure that Invigilators read the instructions relating to the examination and inform students that they could forfeit their results should they contravene any of the instructions.
- (f) The Chief Invigilator should ensure that the students have ten (10) minutes reading time per examination question paper, during which no writing may take place, before the official commencement of the examination over and above the reading of any other instructions that may be necessary.
- (g) Before opening the examination question papers in the examination room, the Chief Invigilator should ascertain that the examination question paper is correct, according to the time and date specified on the examination timetable (e.g. paper number, language, etc.).
- (h) The Chief Invigilator should visit the examination room(s) frequently during each session and make sure that a high standard of invigilation is maintained.
- (i) The Chief Invigilator should draw up a seating plan, indicating the examination room(s) with the desk arrangement and the examination numbers of students. This must be submitted to the Provincial Education Departments for each examination question paper written. If the Chief Invigilator prefers to combine groups in one hall/room, the arrangement should be reflected on the plan.
- (j) The Chief Invigilator should ensure that there are no unauthorised persons in and around the assessment room(s).
- (k) The Chief Invigilator should ensure that all students are advised timeously of requisites such as rulers and drawing instruments to be used in the examination of specific subjects, e.g. Drawings, Setting Out, Quantities and Costing.

- (l) The Chief Invigilator should ensure that the Invigilators complete the absent/present column on the mark sheets correctly.
- (m) The Chief Invigilator should assist with relief invigilation in centres.
- (n) The Chief Invigilator should ensure that scripts are properly batched and packed according to the students' examination numbers once the session has ended. The mark sheet belonging to a certain batch of scripts must be included with that batch.
- (o) The collection of the scripts or the delivery of the scripts to the Examination Centre for marking is the responsibility of the Chief Invigilator.
- (p) Chief Invigilators should ensure that all equipment (e.g. computers, printers, drawing boards, etc.) to be used by students is serviced timeously and is in perfect working condition and available at the examination venue on the day of the examination.
- (q) The Chief Invigilator should collect, check and sign all invigilation claim forms, if applicable.
- (r) The Chief invigilator should submit written reports on all suspected and other cases of irregularities to the Provincial Education Departments without delay.

35. Duties of the Invigilator

The Invigilator is responsible for the examination conducted at the examination venue. He or she must be present at the examination venue for the duration of every examination session. The Invigilator's specific examination-related duties might include the following:

- (1) A student should be seated at least thirty (30) minutes before the commencement of the examination session. The Invigilators should be present in the examination room from the time that the examination room is opened to the students until the end of the session.
- (2) Only in exceptional circumstances may a student be admitted to the examination room after the commencement of an examination, but not after an hour has elapsed.
- (3) A student may not leave the examination room during the course of the first hour, nor the last 15 minutes of the examination session.
- (4) Students may not take a cell phone or any unauthorised electronic equipment into the examination room. Only non-programmable scientific calculators are allowed in to the examination room.
- (5) Only students who have registered for the examination, the Invigilators concerned, the Chief Invigilator and an authorised representative of the Department of Education may be present during an examination.
- (6) Invigilators should open the examination question paper envelopes in front of the students and remain in the examination room.
- (7) Before the examination commences, the Invigilator is to draw the attention of all students to:
 - (a) The main instructions on the examination timetable and on the answer scripts; and
 - (b) All answer scripts or any other answer sheets must be handed in at the conclusion of the examination session. No exceptions will be considered.

-
- (8) After the examination question papers have been distributed to students, the Invigilator must instruct the students to go through the examination question paper, page by page, to ensure that on each page:
- (a) The number of the page is correct;
 - (b) The name of the examination question paper is the same on each page;
and
 - (c) The frame/border around the printed matter is complete.
- (9) Instructions to students must be discussed in detail during an information session before the actual start of the examination and, if necessary, at the start of each examination session. Refer to Annexure B for guidelines that must be read out to students.
- (10) The Chief Invigilator must refer students to the last two pages of the examination script, where the Rules and Regulations for the examinations are printed.
- (11) Invigilators may not, on any account, read aloud to a student any question or part of a question, or draw attention to any error which he or she may have observed in any of the examination question papers unless an errata is included in the examination question paper. Invigilators may not respond to any enquiry from a student in a manner that would be regarded as an explanation of the question.
- (12) In an emergency a student may leave the examination room temporarily but only under supervision.
- (13) Invigilators are to check against a control list (mark sheet) that every student has received the correct examination question paper for the subject the student entered.
- (14) The invigilator should move about continually in the examination room but without disturbing the students.

- (15) Any student contravening the rules and regulations of the examination should be referred to the Chief Invigilator without delay.
- (16) The Invigilator must ensure that the student's examination number, which appears on his or her timetable is written at the top of each examination answer script and at the top of each loose sheet of paper used by that student during the examination.

36. Script Control

- (1) All work, including rough work, is to be done on the script/answer script/papers provided. Students may not be given scripts especially for rough work and all used answer scripts, including spoiled answer scripts, are to be collected.
- (2) Strict attention is to be paid to the instructions, if any, printed at the top of an examination question paper, especially those related to using separate answer sheets for particular sections or parts of an examination question paper.
- (3) Invigilators may not issue a second answer script to a student before they have satisfied themselves that the first answer script is full. Steps are to be taken to ensure that students do not receive more answer scripts than they require. Where more than one answer script is used, every answer script is to be numbered to indicate the number of the answer script and the total number of answer scripts handed in, e.g. 1 of 1 (only one answer script was handed in), 2 of 3 (the second answer script of a total of 3), etc.
- (4) Under no circumstances may the names of students or the names of the institutions where they are enrolled, appear anywhere on their answer scripts.
- (5) Under no circumstances may a student remove either a used or an unused answer script from the examination room.

37. Invigilation

- (1) Invigilators must ensure that students write their correct identity numbers/examination numbers on their scripts.
- (2) Chalkboards must be cleared of all writing, drawings, etc.
- (3) Each session must commence and end at the time specified on the examination timetable.
- (4) An Invigilator may not knit, read, mark or do any work that will hamper the execution duties of an invigilator. Cellular phones must be switched off and may not be used under any circumstances.
- (5) An Invigilator may not sit down, but must move around the examination room without disturbing the students.
- (6) An Invigilator may not help a student with the answering of any examination question or explain any "unclear" part of the examination question paper to the student.
- (7) An Invigilator may not invigilate a subject which he or she teaches at any level except where the subject demands it, e.g. subjects related to the programme: Information Technology and Computer Science.
- (8) Invigilators may not speak to one another, use cell phones or cause disturbance to students.
- (9) Invigilators may not leave the examination room or leave the students unattended.
- (10) An Invigilator must be positioned inside the examination room facing the students and may not invigilate from outside the examination room by looking through the windows.

- (11) Invigilators may not allow students to copy, or assist them in the explanation of a question, or allow students to be assisted by anyone, during the examinations.
- (12) Copies of examination question papers may not be given to anybody outside the examination room nor may they be taken out before the session has ended and the students have left the room.
- (13) Invigilators must adhere to the special examination requirements of certain subjects and Department of Education directives at all times.
- (14) Chief Invigilators and Invigilators must have a thorough knowledge of how to deal with irregularities in terms of Chapter 10 of this policy.

38. Packing of the scripts by the Invigilators after each session

- (1) Invigilators should:
 - (a) Check that those students who were present and wrote the paper are marked present and those who were absent are marked absent.
 - (b) Arrange the scripts, which belong to a specific mark sheet according to the examination numbers appearing on the mark sheet.
 - (c) Place the mark sheet that belongs to a pile of scripts on top of the pile of scripts.
 - (d) Wrap the scripts and the mark sheets and write down the centre number, subject, and the number of scripts on the wrapper.
 - (e) Make sure that all the scripts are handed in to the Chief Invigilator and that each parcel of scripts is accompanied by its relevant mark sheet.

39. Dealing with Mark Sheets

- (1) Mark sheets must be completed correctly by the Invigilators on duty in the examination room. The following should be noted about mark sheets:
 - (a) There must be at least one (1) mark sheet for each subject written at a centre. It is imperative that mark sheets are accompanied by the correct set of scripts.
 - (b) The examination numbers of the students must appear on the mark sheets.
 - (c) The ONLY "writing" which invigilators should include on the mark sheet, is the completion of the "absent/present" columns.
 - (d) All mark sheets must be returned to the Department of Education via the Examination Centres concerned, even if none of the students wrote the particular paper.
 - (e) Under no circumstances should information be added to the mark sheet.
 - (f) Information appearing on a mark sheet may not be deleted or changed.
 - (g) If a mark sheet is not included with the examination question papers, this should be reported to the Department of Education by the Head of the Institution/Chief Invigilator.
 - (h) In instances where mark sheets are not included with the examination question papers, hand-written copies should be completed and submitted.
 - (i) Internal Continuous Assessment, the Integrated Summative Assessment Task and the written examination will each have separate mark sheets to be completed.

40. Relief Invigilation

- (1) All Invigilators invigilating sessions longer than two (2) hours should be relieved for a maximum of twenty (20) minutes.
- (2) The Head of the Institution/Chief Invigilator acts as a relief invigilator for the first six (6) invigilators.
- (3) One (1) relief invigilator may be appointed for each six (6) Invigilators.

41. Information to students

- (1) When students are required to answer only a selected number of questions from those given in an examination question paper, an instruction to this effect should appear on the examination question paper.
- (2) All examination papers that are not in English or Afrikaans must have an instruction page in English as well as the language of the question paper.
- (3) A period of ten (10) minutes before the official commencement of the examination must be allowed for reading of the examination question paper over and above the reading of any instructions that may be necessary, but no writing may take place during this time.

42. Return of scripts

- (1) The return of scripts directly to the Department of Education or any other collection point must be handled with the same care and security as the question papers, and therefore examination centres must follow the procedures determined by the Department of Education in the return of scripts.

43. Monitoring

- (1) The main function of monitoring is to ensure that assessment is fair, valid and reliable and complies with directives issued by the Department of Education and Umalusi in terms of this policy and *Sections (17) and (18) of the General and Further Education and Training Quality Assurance Act, 2001 (Act No. 58 of 2001)*.
- (2) It is the responsibility of Provincial Education Departments to develop and implement a monitoring policy and to implement such a process.
- (3) All Provincial Education Departments must establish a structure to monitor examinations of the National Certificate (Vocational).
- (4) The Provincial Education Departments must determine the composition of the monitoring teams.
- (5) The monitoring must cover all stages of the examination, commencing with the preparatory phase and concluding with the release of the results.
- (6) The monitoring team must visit examination centres while the examination is in progress and report on, amongst others, the following:
 - (a) Security;
 - (b) General management of the examination;
 - (c) Invigilation;
 - (d) Condition of examination rooms;
 - (e) Identification of students;
 - (d) Seating of students;
 - (e) Ten (10) minutes reading time; and
 - (f) Return of examination answer scripts.

- (7) The marking process, inclusive of the memorandum discussion, should also be monitored. The monitoring team should also visit the marking centres to observe the marking process.
- (8) The Department of Education must monitor the implementation of internal and external assessment practices at provincial and college level.

44. Examination practices in subjects that require the use of a computer

- (1) The security measures to be taken in the subjects that involve the use of a computer comprise two phases, namely computer laboratory certification, and the invigilation during the examination sitting.
 - (a) The following measures must be taken into consideration during the computer laboratory certification process:
 - (i) All Colleges offering computer-related subjects must complete a provided check-list that should be certified by the Principal of the College and submitted to the examination body two (2) days prior to the commencement of the examinations.
 - (ii) Two days prior to the examination, the specific centre should be off limits to all students.
 - (iii) All electronic equipment to be used in the examination at the College should be inspected prior to the examination to ensure that it is in good condition and that the electricity cables and wall connections are in good working order. This will prevent a power failure caused by defective electrical apparatus.
 - (iv) The hardware and software to be used in the examination must be serviced to ensure that everything is in working condition.
 - (v) Only approved hardware configurations and versions of software may be used and certified.
 - (vi) It will be the responsibility of the Academic Board to ensure that all computers that are used for examination purposes are 'clean'.

- No programmes or documents, hidden files and/or examples may be stored on the hard disks or network.
- (vii) Security should be in place to prevent students from accessing other computers, folders and/or documents.
 - (viii) Passwords known only by the Invigilators can be used as a security measure during the examination session.
 - (ix) If an examination has to be conducted in two sessions, all computers must be "clean" when the second session starts. This includes emptying the 'recycle bin'. (Students may accidentally store completed questions on the hard disk or network instead of their own disks).
 - (x) Printers must print clearly. Use new cartridges, if possible. The examination centres are responsible to supply sufficient suitable paper for printers.
 - (xi) Ensure that the following settings for each computer are correct:
 - (aa) Date and time; and
 - (bb) Regional settings (South Africa).
 - (xii) The Department of Education will supply each student with two clean formatted disks or relevant media (one for backup) to save his or her work. The responsible lecturer must format these disks or media him or herself beforehand (even if new disks are used). No disks with bad sectors must be used for examination purposes. The disks must be clearly marked. Alternatively where Examination Centres do not work with disks, they can submit all students' files on CD.
 - (xiii) Peer-to-peer networks (e.g. Windows 98 and XP) do not provide the same level of security as server-based networks (e.g. Windows NT, Windows 2000 Server and Novell). Therefore, the use of peer-to-peer networks is discouraged and colleges should disconnect them for the duration of the examination and use the computers as stand-alone machines.

- (xiv) If colleges use network facilities to conduct the practical examinations, the following steps must be taken to prevent possible copying of files by students:
 - (aa) Separate folders must be created for each student on the appropriate network drive. The data files required by each student must be copied into each folder or on a stiffy. It must not be possible for the student to access any other data folders on the network.
 - (bb) A separate user-ID and password must be created for each student and these must be linked to a specific folder. The user-ID and password must differ from those used by the student in the normal course of their practical work. These access codes should preferably be randomly generated.
 - (cc) E-mail and messaging systems between workstations must be deactivated during the examination so that students are not able to send messages or files from one workstation to another.
 - (dd) On some networks, it is possible for a log to be kept of who has accessed which folders. If the network has this facility, it should be activated during the examination and then retained after the completion of the examination in case queries concerning irregularities arise.
- (xv) Only legal copies of software may be used.
- (xvi) There should be at least two additional computers and printers available for backup.
- (xvii) An experienced computer applications lecturer or person must be present during all practical sessions so that he or she can give the necessary assistance when computers are not working well.
- (xviii) One week before the examination commences, colleges will receive a disk or media with the documents for retrieval.
- (xiv) The responsible lecturer must immediately make a backup copy of this media and determine if he or she can access the files.

- (xx) It is the task of the responsible lecturer to save this information on the network or on hard drives of individual computers or prepare individual disks for each student. It is essential that each student's disk is carefully prepared a day before the examination session commences. The lecturer must see to it that each disk or media is clearly marked with the student's examination number and the centre number. Students may under no circumstances have access to these files before the examinations.
 - (xxi) The security process must take place under the supervision of the Chief Invigilator.
 - (xxii) Colleges will be permitted to run a maximum of two consecutive sessions of computer practical examinations per day. Precautions must be taken to prevent communication between students in these two groups.
 - (xxiii) No text scripts, manuals and/or electronic documents are allowed in the examination centre unless specified by the Department of Education.
- (b) During the examination session:
- (i) Invigilators play a vital role in ensuring that no copying whatsoever takes place. Therefore, it is crucial that the minimum supervisory requirements are strictly adhered to.
 - (ii) An additional assistant(s) at the end of the session (last 30 minutes of session) must assist with printing and making sure that no editing or keying in takes place after the examination time has elapsed.
 - (iii) If a power failure occurs during the examinations, the following procedure should be adhered to:
 - (aa) students are to remain in the computer room until the power supply is restored. Students may not communicate with each other while waiting for the power supply to be

restored. The time lost during the power failure should be allowed as additional examination time.

- (bb) If, after two hours, the power supply has not been restored, the examination should to be re-scheduled.
- (cc) The Department of Education should be informed immediately of the power failure.
- (dd) When a power failure occurs, the Chief Invigilator should immediately inform the local authorities. He or she should also ascertain, if possible, how long the power failure is likely to last.
- (ee) The disks with the work completed by the students are to be handed in and submitted to the Department of Education together with the hard copy and the documents.
- (ff) In the case of an examination being postponed because of a power failure, the student should write the backup paper on another date. A technical irregularity needs to be declared.
- (gg) In cases where two examination sessions are scheduled, the above procedure applies to both sessions.
- (hh) In the event of a power failure or network failure, students must be compensated for the time lost, by extending the examination according to the time lost. If the power failure lasts longer than one hour, inform the examination section of the Department of Education or the relevant private examination body.
- (ii) In the event of computer breakdowns, students must immediately be moved to backup equipment. Loss of time must be compensated to the student.
- (jj) No additional time will be allowed for work lost that was not correctly saved.
- (kk) Students must complete the examination paper within the set time. After the time has elapsed, no student will be

- allowed to work on the computers. Only printouts of captured answers will be allowed.
- (ll) Students are allowed to make more than one printout of the answers. These printouts must be handed to the students immediately by the invigilators.
 - (mm) It is recommended that students make printouts during the examination session, as soon as a question is completed, to avoid queuing of printing at the end of the session since each student has to print a number of pages.
 - (nn) Students must only submit one printout per question for marking. All other printouts must be handed in to the invigilator. These printouts must be destroyed after the conclusion of the examination. No printouts may leave the examination room.
- (iv) In cases where two examination sessions per day take place, the following procedure must be followed:
- (aa) The responsible lecturer will divide the students into two groups.
 - (bb) Group 1 will complete the examination in the first session and Group 2 in the second session.
 - (cc) Students in Group 2 must meet at least 10 minutes before the end of the first session. They will be escorted to the computer room before the start of the second session.
 - (dd) In both sessions, no student may leave the examination room before the end of the examination session.
 - (ee) No contact between the two groups during either of the two sessions is permitted.
- (v) Responsibilities of students:
- (aa) Each student must complete the information sheet and folder accompanying the paper including his or her

examination number, the examination centre number and the workstation number.

- (bb) The students must further indicate the software packages that they used in completing the paper.
- (cc) Students must save their work on the disk or media received. These disks or media must be submitted with the printouts to the examination section of the Department of Education.
- (dd) Students must ensure that all relevant files have been printed and placed in their examination folders.
- (ee) After completion of the examination, the students must make sure that each file is stored on the disk and that each file opens from the disk (if applicable).
- (ff) Students must demonstrate sound file-management principles by only submitting the relevant files for marking.
- (gg) Where different students use the same computer and printer to print, it is essential that every student first closes all his or her files on the computer and removes his or her printouts before the next student is allowed to use the computer and printer.
- (hh) The second disk or media should be used as backup by each student.

CHAPTER 5

THE MARKING PROCESS

45. Marking Centres

- (1) The Department of Education will establish and register marking centres in each province.
- (2) The registration of a marking centre will be subject to the following criteria:
 - (a) Registration of a marking centre at a registered educational institution;
 - (b) Suitable venue to accommodate markers, i.e. sufficient parking space and adequate number of rooms for marking;
 - (c) Security of venue to prevent access to unauthorised persons;
 - (d) Clearance in terms of the local health and fire services by-laws;
 - (e) Provision of proper lighting;
 - (f) Availability of water and ablution facilities; and
 - (g) Availability of a strong room or safe for the safekeeping of examination material.
- (3) Marking may be decentralised in terms of geographic regions or groups of subjects. If a subject is marked at more than one venue, special measures must be taken to ensure a common standard of marking.
- (4) Marking Centres are compensated according to a specific formula for cost incurred.

(5) The control section is the heart of operations at the marking centre. The operation of the control section can be divided into three (3) phases, viz.:

(a) Phase one:

This phase entails a stocktaking of all mark sheets and their respective scripts at the marking centre. All unregistered mark sheets/scripts are to be recorded in a specific register.

(b) Phase two:

Chief Markers sign a control list when scripts are issued to them and when they return the scripts. (At this point it is possible to determine exactly how many scripts have not been marked/returned.)

(c) Phase three:

Mark sheets should be kept in a safe place and sent to the Chief Marker as soon as possible. During this phase, copies should be made of the completed mark sheets that have been returned by the Chief Markers. The original copy should be sent for data capturing. Control lists are checked at this stage to see whether Chief Markers have returned all the scripts. Mark sheets could be scanned for security purposes.

46. Appointment of Marking Officials

- (1) Marking Officials will be appointed and remunerated in terms of *Section 4* of the *Employment of Educators Act, 1998 (Act 76 of 1998)* in conjunction with *Personnel Administration Measures (PAM), Chapter E*.
- (2) Persons applying to be marking officials must show proof of registration with the South African Council for Educators (SACE).
- (3) In order to ensure that the information provided by the applicant for the position of a marking official is correct it must be verified by the relevant College Academic Board.

-
- (4) A person applying for the post of marker must be a lecturer currently offering the subject for which he or she applies or a subject facilitator from the Provincial Department of Education or Department of Education.
- (5) All selection panels for marking officials must be chaired by Provincial Education Departments and will make recommendations to the Department of Education for approval.
- (6) The Provincial Education Departments will make recommendations in terms of the following:
- (a) Marking Centre Manager;
 - (b) Deputy Marking Centre Manager (Professional Duties);
 - (c) Deputy Marking Centre Manager (Administrative Duties);
 - (d) Administration Assistant, General Assistants and Controllers;
 - (e) Chief Markers (one Chief Marker for every 10 Deputy Chief Markers)
(A Chief Marker must be appointed per subject regardless of the number of markers);
 - (f) Deputy Chief Markers (one Deputy Chief Marker for every 10 Senior Markers);
 - (g) Senior Markers (one Senior Marker for every 10 Markers); and
 - (h) Markers.
- (7) All persons appointed in the marking process must declare if a near relative (son, daughter, brother or sister) is sitting for an examination in the year of appointment.
- (8) The Department of Education will commence with the appointment of marking officials on or before the end of August each year so that adequate time is available for the verification of information.
- (9) Provincial Education Departments must place additional Markers on a reserve list, in the event of appointed markers failing to report during the marking session.

- (10) The total number of marking officials appointed in a subject will be determined by the total number of scripts and the norm time per script calculated over a marking session not exceeding seven days (inclusive of Saturdays and Sundays).
- (11) The actual number of hours that a marking panel will use for marking will be calculated as follows:
 - (a) Actual number of answer scripts submitted \times norm time in minute's \div 60; and
 - (b) Number of hours per marker = Total hours needed \div number of persons in a marking panel (inclusive of all ranks).

47. Roles and Functions of Marking Officials

The following outline gives the main roles and functions of marking officials. The precise duties of marking officials are determined by the operational needs of the marking process of the specific subject/paper.

- (1) The Chief Markers:
 - (a) The Chief Marker will act as manager of the panel of Markers. Where the subject does not justify the appointment of a Deputy Chief Marker and/or a Senior Marker (Administration), the functions associated with these positions will collapse into that of the Chief Marker.
 - (b) It will be the responsibility of the Chief Marker, with assistance of the Deputy Chief Marker and Senior Marker to finalise the memorandum prior to the marking process.
 - (c) The basic function of the Chief Marker is to standardise the marking procedures and maintain a uniform marking standard amongst markers.

-
- (d) The Chief Marker must train all markers.
 - (e) The Chief Marker must ensure that Markers do not mark the scripts of the students of their own college.
 - (f) The Chief Marker must brief all marking officials on the procedures to deal with/handle all irregularities and special concessions, as well as the administrative procedures regarding batches, scripts and mark sheets.
 - (g) The Chief Marker must moderate the marking.
 - (h) The Chief Marker must keep an accurate record of the hours worked and the number of scripts marked by his or her team.
 - (i) The Chief Marker must ensure that all scripts were marked and the mark sheets are accurately completed.
 - (j) The Chief Marker must submit the Chief Markers' Report, compiled in consultation with all Markers.
- (2) The Deputy Chief Marker must:
- (a) Assist the Chief Marker in the management of the administration of the marking process.
 - (b) Keep a register that will be provided, indicating the time his or her team members commenced and completed marking on a daily basis and return it with the claims to the claims officer.
 - (c) Evaluate each case of irregularity referred by his or her Markers and submit these to the Chief Marker.
 - (d) Assist the Chief Marker with training of novice markers.

- (3) The Senior Marker will be responsible for:
- (a) Moderating the marking of the Markers allocated to the Senior Marker.
 - (b) Distribution and control of the marking of scripts to his or her team of Markers.
 - (c) Ensuring that Markers do not mark the scripts from their own schools.
 - (d) Ensuring the Markers follow the correct marking procedures and marking methodology, including accurate completion of the mark sheets and the use of various documents, such as script replacement forms, irregularity report forms, etc.
 - (e) Ensuring the Markers adhere strictly to the format and the standard of marking required by the Chief and/or Deputy Chief Markers. In this regard, any deviation from the norm must be discussed with the Chief and/or Deputy Chief Markers and the problem must be rectified immediately.
 - (f) Drawing the attention of his or her markers to the reports so that notes may be kept throughout the marking period of aspects to be included in the reports.
 - (g) Ensuring that Markers understand the memorandum prior to marking.
 - (h) Ensuring that novice Markers are properly assisted and supervised, records are kept and a profile of Markers drawn up.
 - (i) Ensuring that Markers understand the ground rules.
 - (j) Addressing training needs of marking officials.

(4) The Marker:

- (a) Mark a number of scripts according to the norms determined by the Department of Education and as organised by the Chief Marker and Senior Marker.
- (b) Mark scripts according to the written memorandum.
- (c) Correctly add script marks and transfer the marks from the script to the mark sheet.
- (d) Ensure that the candidate's examination number on the script corresponds to that on the mark sheet.

- (cc) Where a student who is alleged to have committed an examination irregularity or his or her parent or guardian or representative cannot be contacted, the Principal or Centre Manager of the institution will be required to assist in contacting the student. If the Principal or Centre Manager of the institution is unable to contact the student, he or she must inform the Secretary of the Provincial Irregularities Committee thereof in writing. The inability to make contact with the student concerned or his or her parent or guardian or representative should not delay the processing of the irregularity unnecessarily;
 - (dd) All students suspected of an examination irregularity must be allowed the opportunity to respond to the invitation to attend a hearing regarding the alleged irregularity within ten (10) working days of being notified of an irregularity investigation;
 - (ee) students who do not wish to attend a hearing have the option of making an admission of guilt in the form of an affidavit which must be forwarded to the Secretary of the Provincial Irregularities Committee within ten (10) working days of being notified of an irregularity investigation;

- (1) The Irregularities Committee may impose the sanctions contemplated in these regulations.
- (2) Mandatory minimum periods of sanction may be imposed by the National Irregularities Committee upon finding the offender guilty of an irregularity. The reason for the creation of mandatory minimum periods of sanction is primarily to ensure that irregularities are handled in a uniform manner across all colleges, resorting under the Departments of Education, and secondly to combat and reduce the frequency of irregularities.
- (3) There may be cases where the National Irregularities Committee is of the opinion that the imposition of one of the minimum periods of sanction would, considering the specific circumstances of the case, be very harsh and unjust. The Committee may, however, be freed from the obligation of imposing the minimum period of sanction if there are "substantial and compelling circumstances" which justify the imposition of a lesser punishment than the prescribed one.

(10) Appeals

- (a) A student may appeal to the MEC against the decision of the Department of Education within fourteen (14) working days of the receipt of the written pronouncement of the judgment or sanction, if the student was present at the hearing.

- (c) All appeals must be in writing and must include reasons in support of the appeal.

(11) Reporting of Irregularities

Reporting of examination irregularities is categorised into two components. The first component relates to reporting of the irregularity from the site of identification to the relevant officials within the Department of Education and the second component relates to reporting of the irregularity by the Department of Education or Head of Examinations to the external role players.

(12) Reporting

All alleged irregularities must be reported immediately to the next level of responsibility in the examination process, which then must report to the Chairperson of the Provincial Irregularities Committee. This reporting can be done verbally but must be followed with a written report within twelve (12) hours.

- (13) The Provincial Irregularities Committee will report to the Department of Education, who in turn must report all irregularities to the Director-General of the Department of Education and to the Chief Executive Officer of Umalusi as indicated in terms of *section 18(h) of the General and Further Education and Training Quality Assurance Act, 2001 (Act No. 58 of 2001)*.
