Dear Sirs,

Limited Assurance Report of the Independent Auditor to the Provider/Members/Partners/Directors¹ of [Name of Financial Services Provider] and the Registrar of Financial Services Providers (the “registrar”) in compliance with Section 19(3) of the Financial Advisory and Intermediary Services Act (the “Act”)

Introduction

We have completed our limited assurance engagement of [insert Name of Financial Services Provider] (“the provider”) for the year ended [insert year end date] in order to report to the provider and the registrar in accordance with Section 19(3) of the *Financial Advisory and Intermediary Services Act, 2002* (Act No 37 of 2002) (the “Act”):

- Regarding the amount of money and assets at year end held by the provider on behalf of, clients²;
- That such money and assets were throughout the financial year kept separate from those of the business of the provider, and in the case of non-compliance, the extent thereof; and
- Any other information required by the registrar³.

1 Delete whichever is “Not Applicable”

2 The Registrar requires money and assets held on behalf of clients by the Provider and related liabilities or obligations at the financial year end, to be disclosed in the annual financial statements of the provider, whether included in the Notes to the Financial Statements or by way of a separate Annexure.

3 This requirement is addressed in the form of **Schedule A** and **Schedule B** attached to this Report to be submitted by the auditor of the entity in providing the Section 19(3) report.

Schedule A sets out money and assets at year end held by the provider on behalf of clients. **Schedule B** sets out work performed and our findings in respect the provider's key controls and procedures to meet the objectives of Section 19(3) and Section 10 of the *General Code of Conduct for Authorised Financial Services Providers and Representatives* (the "Code"). We have initialed both schedules for identification purposes.

Provider's Responsibilities

The provider who receives or holds money and assets, including financial products, for or on behalf of clients is required in terms of Section 19 (1)(a) to "*maintain full and proper accounting records on a continual basis, brought up to date monthly*" and in accordance with Section 10 of the Code, "*must account for such products or funds properly and promptly*" as at < insert year end date > and throughout the financial year then ended. Section 19 of the Act, Section 10 of the Code and client mandates set out specific responsibilities of the provider. Consequently the provider is responsible for designing, implementing and maintaining internal financial controls relevant to the administration of such funds that will facilitate the prevention and detection of fraud and error, and establish policies and procedures to achieve compliance with the requirements of the Act.

Auditor's responsibility

Our responsibility is to express our limited assurance conclusion and to report on instances of non-compliance based on our work performed. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements ISAE 3000 *International Standard on Assurance Engagements other than Audits or Reviews of Historical Financial Information*. This standard requires us to comply with ethical requirements and to plan and perform our assurance engagement to obtain sufficient appropriate evidence to support our limited assurance conclusion, expressed below.

The objectives specified in **Schedule B** are those contained in Section 19(3) of the Act and Section 10 of the Code and form the criteria to evaluate the provider's compliance. The Act and the Code do not specify an internal control framework, which provides objective criteria for assessing the design or operation of internal controls to evaluate the provider's compliance.

In order to report our findings on the design and implementation of key internal controls to meet the objectives of this engagement, we have exercised our professional judgement regarding the appropriateness of the internal financial controls implemented, based on our understanding of the provider and its environment, including its internal controls, obtained during our audit of the financial statements for the year ended <insert year end date>. Our audit of the financial statements was not, however, for the purpose of expressing an opinion on the provider's internal controls. Our audit was completed in accordance with International Standards on Auditing and in our auditor's report on those financial statements, dated <insert date>, we expressed an unmodified opinion⁴.

⁴ If the auditor's opinion on those financial statements was modified the auditor indicates whether the opinion was qualified, whether an adverse opinion was expressed or the opinion was disclaimed.

Summary of work performed⁵

We planned and performed our work to obtain all the information and explanations that we considered necessary to provide sufficient evidence for us to express our limited assurance conclusion expressed below. It should be appreciated that in a limited assurance engagement the evidence gathering procedures are more limited than for a reasonable assurance engagement and therefore less assurance is obtained than in a reasonable assurance engagement.

Our summary of work performed and findings as set out more fully in the attached **Schedule B**, included:

- Inquiries, primarily of persons responsible for financial and accounting matters affecting client's money and assets held on behalf of clients throughout the year and inquiries of the provider's compliance officer/s regarding any instance of non-compliance reported to the registrar that may be material to the financial statements or to "trust funds" under management by the provider;
- Analytical and other evidence gathering procedures, inter alia:
 - Inspection of client mandates relating to a sample of transactions selected to determine that they were in accordance with such mandates;
 - Obtaining confirmations of trust account bank and asset balances as at the year end; re-performing bank reconciliations for material balances and tracing outstanding items to subsequent bank statements;
 - Physically inspecting other (non-cash) assets held on behalf of clients, and/or obtaining confirmations of such assets held in safe custody by third parties;
- Obtaining written representations from management regarding matters relevant to this engagement.

We believe that the evidence obtained as part of our limited assurance engagement is sufficient and appropriate to provide a basis for our findings and instances of non-compliance set out in **Schedules A** and/or **B** and our conclusion expressed below.

Conclusion

In our opinion, based on our work performed, nothing has come to our attention that causes us to believe that:

- money and assets held on behalf of clients of the provider at year end are not as reflected on Schedule A;
- such money and assets were not kept separate from those of the business of the provider throughout the financial year ending <insert year end date>; and
- any instances of material non-compliance with the requirements of the Act have arisen.

OR

⁵ The auditor (assurance provider) should amend the *Summary of work performed* to reflect that actually performed. It is not intended to set out full audit programmes, but merely a "Summary"

- with the exception of the extent of any instances of non-compliance with the requirements of the Act identified during the course of our assurance engagement and reported in our findings in the attached Schedule A and / or Schedule B, any instances of material non-compliance with the requirements of the Act have arisen.

Restriction on use and distribution

Our report is presented solely for the purpose set out in the first paragraph of our report and for the information of the provider and the registrar and may not be suitable for another purpose and is not to be used for any other purpose, nor to be distributed to any other parties.

Schedule B

Instructions to auditors:

- A. The objectives are derived from the requirements of Section 19(3) of the Act and Section 10 of the Code.
- B. Briefly document key controls implemented by the Provider to account for such products or trust funds of a client "*properly and promptly*". (The FSB requires such records to be separately identifiable as "*clients' trust funds*" from the Provider's own business accounting records and assets and liabilities).
- C. Brief summary of work performed to assess the appropriateness of the design of the key controls implemented by management and determine that such controls have been implemented by inquiries, primarily of persons responsible for financial and accounting matters affecting client's money and assets held on behalf of clients throughout the year, and performing walkthrough procedures. In addition to the key controls, work performed may also include substantive analytical and other evidence gathering procedures including samples selected for testing of transactions or balances to or from supporting documents, and obtaining confirmations from third parties, to identify instances of material non-compliance. (***Note: procedures indicated in Column C are examples which are not exhaustive and should be modified to reflect the actual work performed.***)
- D. Report findings, including weaknesses in key controls and instances of non-compliance identified during our engagement and recommendations, based on work performed and evidence obtained, or that no exceptions or material weaknesses / non-compliance were identified.
- E. Insert provider's management comments on weaknesses in internal controls and any instances of non-compliance identified by the auditor.
