MEDICAL SCIENTISTS

Medical Scientists 2009

DRAFT NATIONAL REFERENCE PRICE LIST FOR MEDICAL SCIENTISTS WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS

GENERAL RULES

101	Each practitioner must acquaint him-/herself with the provisions of the Medical Schemes Act, as amended, and the regulations promulgated under the Act and shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars	05.03
	- The name and practice code number of the referring practitioner. - The name of the member. - The name of the patient. - The name of the medical scheme. - The membership number of the member. - The nature of the treatment. - The date on which the service was rendered. - The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.
