
GOVERNMENT NOTICE

DEPARTMENT OF HEALTH

No. 1369

24 December 2008

NATIONAL HEALTH ACT, 2003 (ACT NO. 61 OF 2003)

REGULATIONS RELATING TO THE OBTAINMENT OF INFORMATION AND THE PROCESS OF DETERMINATION AND PUBLICATION OF THE REFERENCE PRICE LIST 2009

REFERENCE PRICE LISTS 2009

The Director-General of the National Department of Health has, in terms of regulation 8 of the Regulations Relating to the Obtainment of Information and the Process of Determination and Publication of the Reference Price Lists, determined the Reference Price Lists for 2009 in the Schedule.

MR T.D MSELEKU
DIRECTOR-GENERAL: HEALTH

SCHEDULE

List of Contents

1. Acupuncture and Chinese Medicine
2. Ambulance Services
3. Biokinetics
4. Chiropractors
5. Clinical Technology
6. Dental Practitioners
7. Dental Technology
8. Dental Therapists
9. Dieticians
10. Hearing Aid Acousticians
11. Homoeopathy
12. Hospice
13. Medical Practitioners
14. Medical Scientist
15. Medical Technology
16. Mental Health Institutions
17. Naturopathy
18. Occupational And Arts Therapy
19. Optometry
20. Orthoptist
21. Osteopathy
22. Physical Rehabilitation Centres
23. Physiotherapy
24. Phytotherapy
25. Podiatry
26. Private Hospitals
27. Psychology
28. Psychometry
29. Radiography
30. Radiology
31. Registered Nurses In Private Practice And Nursing Agencies
32. Social Workers
33. Speech Therapy And Audiology
34. Sub-acute Facilities
35. Tissue Transportation
36. Unattached Operating Theatre Units

ACUPUNCTURE AND CHINESE MEDICINE

Acupuncture & Chinese Medicine 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY ACUPUNCTURE & CHINESE MEDICINE PRACTITIONERS WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

RULES

01	All accounts must be presented with the following information clearly stated: - name of the practitioner - qualifications of the practitioner - BHF practice number - Postal address and telephone number - Date on which the service(s) were provided - Applicable item codes - The nature of the treatment - The surname and initials of the member - The first name of the patient - The name of the medical scheme - The membership number of the patient - The name and practice number of the referring practitioner	09.00
02	When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately.	09.00
03	Not more than two separate techniques may be charged for at each session.	09.00
04	The maximum number of acupuncture treatments per course to be charged for is limited to ten. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient.	09.00

ITEMS

1.	Consultations				
	Consultation encompasses consultation, history taking, patient examination and assessment, side room diagnostic tests, counseling and/or diagnosis				09.00
Code	Description	Ver	Add	Chinese Medicine & Acupuncture	
				RVU	Fee
1100	Consultation (up to 15 mins)	09.00		10.000	93.80 (82.30)
1101	Consultation (16-30 mins)	09.00		22.500	211.10 (185.10)
1102	Consultation (31-45 min)	09.00		37.500	351.80 (308.60)
1103	Consultation (46-60 min)	09.00		52.500	492.50 (432.00)
1110	Consultation, each additional full 15 mins beyond 60 mins	09.00		15.000	140.70 (123.40)
2.	Treatments				
3100	First treatment (needles, plus maximum of two speciality therapy techniques)	09.00		39.524	370.70 (325.20)
3200	Follow-up treatment (needles, plus maximum of two speciality therapy techniques)	09.00		36.145	339.00 (297.40)
3.	Speciality Therapy Techniques				
4010	Moxibustion	09.00		22.770	213.60 (187.40)
4020	Cupping	09.00		19.493	182.80 (160.40)
4030	Dermal needle therapy (plum-blossom or seven-star)	09.00		18.184	170.60 (149.60)
4040	Auricular therapy (micro acupuncture)	09.00		32.146	301.50 (264.50)
4050	Scalp acupuncture	09.00		27.308	256.10 (224.70)
4060	Shilao (diet therapy)	09.00		23.712	222.40 (195.10)
4070	Tui-Na (massage/pressure)	09.00		34.226	321.00 (281.60)

Ambulance Services

Ambulance Services 2009

NATIONAL REFERENCE PRICE LIST FOR AMBULANCE SERVICES, EFFECTIVE FROM 1 JANUARY 2009		
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. ALL PRICES ARE VAT EXCLUSIVE.		
Preamble		
It is recommended that, when such benefits are granted, the following should be clearly specified in the scheme's rules:		
· The limitation, if any, for such benefits.		
REGULATIONS DEFINING THE SCOPE OF THE PROFESSION OF EMERGENCY CARE		
GENERAL RULES		
001	Long distance claims (items 111, 129 and 141) to be rejected unless distance travelled by patient is reflected. Long distance charges may not include item codes 100, 103, 125, 127, 131 or 133.	04.00
	Long distance claims (items 112, 130 and 142) to be rejected unless the distance is reflected. Long distance charges may not include item codes 100, 103, 125, 127, 131 or 133.	
002	No after hours fees may be charged	04.00
003	Item code 151 may only be charged for services provided by a second vehicle (either ambulance or response vehicle) and shall be accompanied by a motivation.	04.00
004	Guidelines for information required on each account : · Name of service · BHF practice number · Address · Telephone number · Pre-authorisation number · The name of the member · The name of the patient · The name of the medical scheme · The membership number of the member · Diagnosis of patient's condition · Summary of medical procedures undertaken on patient and vital signs of patient · Summary of all equipment used · The date on which the service was rendered. · Name and HPCSA registration number of care providers · Name, practice number and HPCSA registration number of medical doctor · Response vehicle: Details of vehicle driver and intervention undertaken on patient · The code number of the procedure used in the National Reference Price List.	04.00
005	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
006	A BLS service (Practice type "51200") may not charge for ILS or ALS, an ILS service (Practice type "51100") may not charge for ALS. An ALS service (Practice type "51000") may charge all codes.	05.04
Definitions of Ambulance Patient Transfer		
	Basic Life Support - A callout where patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Basic Ambulance Assistant whilst patient in transit.	04.00
	Intermediate Life Support - A callout where the patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Ambulance Emergency Assistant (AEA). (e.g. Initiating and/or maintaining IV therapy, nebulisation etc.) whilst patient in transit.	
	Advanced Life Support - A callout where patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Paramedic	

Code	Description	Ver	Add	Ambulance Services	Ambulance Services	Ambulance Services				
				: Advanced Life Support	: Intermediate Life Support	: Basic Life Support				
				RVU	Fee	RVU	Fee	RVU	Fee	
	(CCA and NDIP) whilst patient in transport. This includes all incubated neonatal transfers. NOTES: Incubator transfers require ALS trained personnel in accordance with the HPCSA ruling. · If a hospital or the attending physician requires a Paramedic to accompany the patient on a transfer in the event of the patient needing ALS intervention the doctor requesting the Paramedic must write a detailed motivational letter in order for ALS to be charged. · If a hospital or the attending physician requires a Paramedic to accompany the patient on a transfer in the event of the patient needing ILS intervention the doctor requesting the Paramedic must write a detailed motivational letter in order for ILS to be charged. · In order to bill as an advanced life support call, a registered advanced life support provider must have examined, treated and monitored the patient while in transit to hospital. · In order to bill as an intermediate life support call, a registered intermediate life support provider must have examined, treated and monitored the patient while in transit to hospital. · Where an ALS provider is in attendance at a callout but does not do any interventions at an ALS level on the patient or ALS monitoring and presence is not required, the billing will be based on a lower level dependent on the care given to the patient. (e.g. Paramedic sites IV line or nebulises patient with a B agonist - this falls within the practice of an AEA and thus is to be billed as an ILS call not an ALS call). Where an ILS provider is in attendance at a callout but does not do any interventions at an ILS level on the patient or ILS monitoring and presence is not required, the billing will be BLS. · Where the management undertaken by a paramedic or AEA fall within the scope of practice of a BAA the call must be at a BLS level. Please Note : · The amounts reflected in the NRPL for each level of care is inclusive of any disposables (except for pacing pads, heimlich valves, high capacity giving sets, dial a flow, intra-osseous needles) and drugs used in the management of the patient, as per attached nationally approved medication protocols. · Haemaccel and colloid solution may be charged separately. · Claims for patient discharges home will only be entertained if accompanied by a written motivation from the attending physician who requested such transport - clearly stating why an ambulance is required for such a transport and what medical assistance the patient requires on route.									
DEFINITION: RESPONSE VEHICLES										
	Response vehicles only - Advance Life Support (ALS) A clear definition must be drawn between the acute primary response and a booked call. 1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should a response vehicle be dispatched to the scene of the emergency and the patient is in need of Advanced Life Support and which is rendered by ALS Personnel e.g. CCA or National Diploma, the respective service shall be entitled to bill on item 131, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ALS rate under items 131 and 133. Furthermore the ALS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ALS services rendered. 2. In the event of a service rendering ALS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ALS bill under items 131 and 133. Since the ALS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider, which will be levied at a BLS rate. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ALS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ALS services rendered.									04.00

				RVU	Fee	RVU	Fee	RVU	Fee
				RVU	Fee	RVU	Fee	RVU	Fee
3. Should a response vehicle go to a scene and not render any ALS treatment then the said response vehicle may not levy a bill. 4. Notwithstanding that, item 151 applies to all ALS resuscitation per the notes in this schedule. Response vehicle only - Intermediate Life Support (ILS) A clear definition must be drawn between the acute primary response and a booked call. 1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should an ILS response vehicle be dispatched to the scene of the emergency and the patient is in need of Intermediate Life Support and which is rendered by ILS Personnel e.g. AEA, the respective service shall be entitled to bill on item 125, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ILS rate under items 125 and 127. Furthermore the ILS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ILS services rendered. 2. In the event of a service rendering ILS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ILS bill under items 125 and 127. Since the ILS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ILS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ILS services rendered. 3. Should a response vehicle go to a scene and not render any ILS treatment then the said response vehicle may not levy a bill.

	BY ARRANGEMENT WITH MEDICAL SCHEME								04.00
Rotorwing Rates									
	Definitions: 1. Helicopter rates are determined according to aircraft type 2. Day light operations are defined from Sunrise to Sunset (and night operations from Sunset to Sunrise) 3. If flying time is mostly in night time (as per definition above), then bill night time operation rates (type C) 4. Call out charge includes Basic Call Cost plus other flying time incurred, Staff and consumables cost can only be charged if a patient has been treated. 5. Flying time is billed for minimum of 30 minutes and thereafter in 15 minute increments. 6. A 2nd Patient is transferred at 50% reduction of Basic Call and Flight cost, but Staff and Consumables costs remain per patient. (Only if aircraft capability allows for multiple patients) 7. Rates are calculated according to time; from throttle open, to throttle closed. 8. Group A - C must fall within the Cat 138 Ops as determined by Civil Aviation. 9. Hot loads restricted to 8 minutes ground time and must be denoted.								04.00
	AIRCRAFT TYPE A (RA): HB206L, HB204 / 205, HB407, AS360, EC120, MD600, AS350, A119 AIRCRAFT TYPE B (RB) & Ca (DAY OPERATIONS) (RC) BO105, 206CT, AS355, A109 AIRCRAFT TYPE Cb (NIGHT OPERATIONS) (RC) HB222, HB212 / 412, AS365, S76, HB427, MD900, BK117, EC135, BO105 AIRCRAFT TYPE D (RESCUE) H500, HB206B, AS350, AS315, FH1100								04.00

Fixed Wing Rates									
	DEFINITIONS: 1. Group A must fall within the Cat 138 Ops as determined by Civil Aviation. 2. Please note that no fee structure has been provided for Group B, as emergency charters could include any form of aircraft. It would be impossible to specify costs over such a broad range. As these would only be used during emergencies when no Group A aircraft are available, no staff or equipment fee would be advised. The definition of use of these aircraft needs to be narrowed down further to eliminate abuse. 3. Staff and consumables cost can only be used if patient has been treated. 5. 2nd patient transferred at 50% reduction of Basic Call and Flight Cost, but Staff and consumables costs remain per patient. 	Registered Basic Ambulance Assistant Qualification · Oxygen · Entonox · Oral Glucose Registered Ambulance Emergency Assistant Qualification As above, plus · Intravenous fluid therapy · Intravenous dextrose 50% · B2 stimulant nebuliser inhalant solutions (Hexoprenaline, Fenoterol, Sulbutamol) · Soluble Aspirin Registered Paramedic Qualification As above, plus · Oral glyceryl trinitrate, activated charcoal · Ipratropium bromide inhalant solution · Endotracheal Adrenaline and Atropine · Intravenous Adrenaline, Atropine, Calcium, Hydrocortisone, Lignocaine, Naloxone, Sodium bicarbonate, Hetaclopramide · Intravenous Diazepam, Flumazenil, Furosemide, Hexoprenaline, Midazolam, Nalbuphine and Tramadol may only be administered after permission has been obtained from the relevant supervising medical officer. · Pacing and synchronised cardioversion require the permission of the relevant supervising medical officer.								04.00

BIOKINETICS

Biokinetics 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF BIOKINETICS WITH EFFECT FROM 1 JANUARY 2009				
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.				
GENERAL RULES				
002	The consultation code may be charged only once at the same consultation or visit. Consultation includes history taking, guidance, education, health promotion and/or consultation			04.00
003	A maximum of three diagnostic procedures may be charged at the same consultation or visit. Diagnostic procedures include the full range of diagnostic and evaluation procedures within the scope of practice of the biokineticist, including for example: anthropometric / body composition assessments, ergological testing evaluations and perceptual motor evaluation.			05.06
004	A maximum of three treatment procedures may be charged at the same consultation or visit for any single diagnosis. This limitation shall be inclusive of a maximum of one group treatment procedure (code 12), where applicable. Treatment procedures include the full range of rehabilitative or preventive treatment or care procedures within the scope of practice of the biokineticist, including for example: hydrotherapy, callisthenics exercises and programme prescription for individuals with CHD.			04.00
005	After a series of 12 treatments in respect of one patient for the same condition, the practitioner concerned shall report to the scheme as soon as possible if further treatment is necessary. Further continuance of treatment should only be considered if recommended by the medical practitioner(s) and others involved in the rehabilitation of the patient.			04.00
010	Every biokineticist must acquaint himself with the provisions of the Medical Schemes Act, 1998, and the regulations promulgated under the Act in connection with the rendering of accounts. Every account shall contain the following particulars : · The name and practice code number of the referring practitioner . · The name of the member. · The name of the patient. · The name of the medical scheme. · The membership number of the member. · The date on which the service was rendered. · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered			04.00
011	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.			04.00

933	Programme prescription for an individual with CHD health risks including hyperlipidemia, metabolic disorders, Low-Back pain/ Lumbago etc.	06.01			
934	Group exercise sessions, per patient	06.01		8.800	37.40 (32.80)

CHIROPRACTORS

Chiropractors 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY CHIROPRACTORS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

001	All accounts must be presented with the following information clearly stated: · name of chiropractor; · qualifications of the chiropractor; · BHF practice number; · postal address and telephone number; · date on which service(s) were provided; · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered; · the surname and initials of the member; · the first name of the patient; · the name of the scheme; · the membership number of the member; · a statement of whether the account is in accordance with the National Reference Price List; and · the name and practice number of the referring practitioner, if applicable.	04.00
002	The consultation code may be charged only once at the same consultation or visit. Consultation includes history taking, guidance, education, health promotion and/or consultation.	04.00
003	A maximum of three diagnostic procedures may be charged at the same consultation or visit. Diagnostic procedures include physical examination, neurological examination, orthopaedic examination, ergonomical analysis, postural analysis and radiological examination	05.06
004	A maximum of three treatment procedures may be charged at the same consultation or visit for any single diagnosis. Treatment procedures include, inter alia: spinal or extra-spinal manipulation, acupuncture, cold applications, non-heating modalities, deep heating radiation, soft tissue manipulation, superficial heating therapy and therapeutic exercises (other than in relation to preparation or fitting of appliances).	05.02
005	After a series of 12 treatments in respect of one patient for the same condition, the practitioner concerned shall report to the scheme as soon as possible if further treatment is necessary. Payment for treatment in excess of the stipulated number may be granted by the scheme after receipt of a letter from the practitioner concerned, motivating the need for such treatment.	05.03
006	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	05.03

	In the case of items 146 and 148, routine outpatient dialysis includes dialyser, bloodlines, acetate dialysate, priming set, sodium heparin anticoagulant, saline infusion, dressing pack, fistula needles/catheter dressing, syringes and needles, cleaning materials, equipment set-up, up to 5 hours treatment time, equipment rental	05.03			

Code	Description	Ver	Add	Clinical Technology	
				RVU	Fee
147	Peritoneal dialysis, per day	04.00		16.800	141.10 (123.80)
	The global fees for Continuous Ambulatory Peritoneal Dialysis (CAPD) (Item 176) and Automated Peritoneal Dialysis (APD) (Item 177) include: consumables; cost of machine and machine disposables; professional fee; initial training; in-centre follow-up visits; and home visits. However, they exclude Tenckhoff catheter and insertion thereof; and disposables required for a transfer set change (usually 6 monthly). These fees are chargeable for each 30 day cycle in which CAPD or APD is provided. If CAPD or APD is provided for less than a 30 days in any one cycle (for example due to complications or death of the patient): a. if the period of treatment is 26 days or more in that cycle, the full fee applies; b. if the period of treatment is up to 25 days in that cycle, the fee should be prorated according to number of actual treatment days. Modifier 0001 should be quoted, and number of treatment days specified.	05.03			
176	Global fee for Continuous Ambulatory Peritoneal Dialysis (CAPD), per 30 day period.	05.03		1700.00 0	14281.70 (12527.80)
177	Global fee for Automated Peritoneal Dialysis (APD), per 30 day period.	05.03		2360.00 0	19826.40 (17391.50)
149	Treatment procedure per 1 hour (excluding acute haemodialysis, chronic haemodialysis and CRRT)	04.00		33.400	280.60 (246.10)
150	Acute haemodialysis	04.00		317.200	2664.80 (2337.50)
	Emergency dialysis treatment in hospital; includes dialyser, bloodlines, acetate/bicarbonate dialysate, priming set, equipment set-up, up to 5 hours treatment time, equipment rental	05.03			
151	Treatment procedures for CRRT up to 6 hours or part thereof provided that such part comprises 50% or more of the time	04.00		24.800	208.30 (182.80)
152	Treatment procedure for CRRT up to 12 hours or part thereof provided that such part comprises more than 6 hours of the time	04.00		49.700	417.50 (366.30)
154	Treatment procedure for CRRT up to 18 hours or part thereof provided that such part comprises more than 12 hours of the time	04.00		74.500	625.90 (549.00)
156	Treatment procedure for CRRT up to 24 hours or part thereof provided that such part comprises more than 18 hours of the time	04.00		99.300	834.20 (731.80)
153	Patient training in centre for dialysis, CPAP training and problem-solving, home ventilators and nebulisers, per 30 minutes (to maximum of 24 hours)	04.00		16.600	139.50 (122.30)
155	Patient training or follow-up at patient's home, for dialysis, home ventilators and nebulisers, per 30 minutes (to maximum of 24 hours).	04.00		29.100	244.50 (214.40)
Reproductive Health					
	As schemes will not necessarily grant benefits in respect of some items below, they fall into the "By arrangement with the scheme" category				04.00
159	Post Vasectomy semen analysis.	04.00		10.000	84.00 (73.70)
161	Complete semen analysis.	04.00		31.700	266.30 (233.60)
163	Semen wash for A I.	04.00		30.300	254.60 (223.30)
165	IVF, GIFT, PROST with semen and serum preparation including ovum and embryo handling and transfer	04.00		368.700	3097.40 (2717.10)
	Cannot be used with items 161, 163, 167 and 169	05.03			
167	Ovum and embryo freezing.	04.00		131.300	1103.10 (967.60)
169	Semen freezing.	04.00		30.300	254.60 (223.30)
Miscellaneous					
171	Travelling per km in excess of 16km (in own car).	04.00		0.675	5.67 (4.97)
173	Equipment hire (By arrangement with scheme).	04.00		-	-
175	Medication / Material	04.00		-	-
	The amount charged in respect of medicines and scheduled substances shall not exceed the limits prescribed in the Regulations Relating to a Transparent Pricing System for Medicines and Scheduled Substances, dated 30 April 2004, made in terms of the Medicines and Related Substances Act, 1965 (Act No 101 of 1965). In relation to all other materials, items are to be charged (exclusive of VAT) at net acquisition price plus - * 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; and * a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands.	05.03

DENTAL PRACTITIONERS

Dental Practitioners 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY DENTAL PRACTITIONERS, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

The existence of a code in this publication does not mean that the procedure will be reimbursed by medical schemes. Medical schemes have the right to limit the scope, the frequency and/or combinations of dental procedures that is covered or reimbursed. It is the responsibility of the patient to know what procedures are covered and what are excluded from his/her dental benefit plan, and not that of the dental office. Certain medical schemes may require predetermination for particular procedures and/or when charges are expected to exceed a certain amount.

The schedule includes procedures and services for use by Oral Health Care Providers for purposes of keeping accurate patient records, reporting procedures on patients, and processing oral health care related insurance claims. The procedures are those performed by general dental practitioners, oral pathologists, prosthodontists, periodontists, orthodontists, maxillo-facial and oral surgeons and dental therapists.

The procedures codes listed in the schedule have, for the convenience in using the schedule, been divided into categories of services, based on the branches of clinical dental practice. The procedures are grouped under the category of service with which the procedures are most frequently identified and should not be interpreted as excluding certain categories of Oral Health Care Providers from performing such procedures. Individual procedure codes consist of a procedure code, procedure description (nomenclature), and when necessary, a descriptor, that provides further definition and/or guidelines to clarify the intended use of the procedure code.

I.	INTRODUCTION	
A.	Administrative and invoicing rules	
001	Invoices:	05.02
	a. A practitioner shall render a monthly invoice for every procedure which has been completed irrespective of whether the total treatment plan has been concluded.	05.02
	b. An invoice shall contain the following particulars:	05.02
	i. The surname and initials of the member; ii. The first name of the patient; iii. The name of the scheme; iv. The membership number of the member; v. The practice number; vi. The date on which every service was rendered; vii. The code number, description and fee/benefit of the procedure or service; viii. The name of the dentist rendering the service; ix. The name of the general dental practitioner/specialist assistant (when applicable); x. The appropriate ICD-10 code(s) for the procedures performed.	06.03
	Note: Photocopies of original invoices shall be certified by way of a rubber stamp or the signature of the dentist.	05.02
002	Cost of direct materials: The expenses incurred for direct materials identified in the Schedule may be billed in addition to the procedure code. These expenses are limited to the net acquisition cost of the materials and a handling fee. The price of the materials should be VAT inclusive. Use Modifier 8025 for handling fee.	05.02
003	Dental laboratory services:	05.02
	Manual submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by reporting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code. The technician's invoice shall be certified by the dentist (or a person appointed by the dentist) for correctness by means of a signature. The original invoice of the dental technician (or a copy thereof) shall accompany the invoice of the dentist and a copy (or the original) shall be filed by the dentist for record purposes.	05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	Electronic submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by submitting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code on the date on which the dental procedure was rendered. The laboratory fee shall be submitted for payment on the date on which the procedure code is submitted for payment, and the appropriate dental laboratory service codes shall be reported on the lines following code 8099. The technician's invoice shall be certified by the dentist (or a person appointed by the dentist) for correctness by means of a signature. The original invoice of the dental technician shall be filed by the dentist for record purposes.									05.02	
005	Procedure accompanied by unusual circumstances: In exceptional cases where the proposed fee/benefit is disproportionately low in relation to the actual services rendered by a practitioner, such higher fee as may be mutually agreed upon between the dental practitioner and the patient/medical scheme may be billed. Use Modifier 8011 with a narrative description. Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances a lower fee may be billed. The service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.									05.02	
B.	General coding rules										
006	The schedule does not prescribe the scope of practice of a particular category of Oral Health Care Provider; neither does it confine the performing of procedures or services to a registered speciality. Fees listed within a column of a particular category of Oral Health Care Provider are customary fees, should the procedure or service be rendered by that provider category. Specialists are however encouraged to confine their practice to the speciality or related specialities in which they are registered. Specialist may charge fees for procedures or services which usually pertain to some other speciality, if such procedures or services are also recognised in their speciality, and if it is carried out only for their bona fide patients. Such fees shall not be higher than those charged by general practitioners for the same procedures or services (HPCSA, Rule 25). Fees for procedures or services not listed within the column of dental therapists that do fall within the field of dental therapy in terms of their scope of practice are regarded as being "by arrangement" until such fees are listed.									06.03	
007	Procedures not listed in the Dental Schedule									05.02	
	When a procedure is performed that is not listed in the schedule, an appropriate procedure code, listed in the NHRPL for medical practitioners may be reported.									06.03	
	Unlisted procedures. Any procedure that is neither described in the schedule, nor in the medical schedule, should be reported using code 9099 - Unlisted dental procedure or service. The fee for an unlisted dental procedure or service should be based on the fee of a comparable procedure. Code 9099 codes should not be used to report procedures where the fee is determined "by arrangement" with the patient and/or medical scheme.									06.03	
C.	Services rules										
008	Oral evaluations and completion of treatment plans: Oral examinations include an examination, diagnosis and treatment planning (when treatment is required). No further fees/benefits shall be levied for an oral examination (code 8101) or comprehensive examination (code 8102) until the treatment plan resulting from these type of examinations is completed. The completion of a treatment plan effected from an oral examination and/or comprehensive examination should be indicated by reporting code 8120 – Treatment plan completed. Oral diagnosis defined. The determination by the dentist of the oral health condition of an individual patient achieved through the evaluation of data gathered by means of history taking, direct examination, patient conference, and such clinical aids and tests as may be necessary in the judgement of the dentist. Treatment plan defined. The treatment plan is the sequential guide for the patient's care as determined by the dentist's diagnosis and is used by the dentists for the restoration and/or maintenance of optimal oral health									06.03	
009	Surgery guidelines:									05.02	
	1. Follow-up care for therapeutic surgical procedures: The fee/benefit for an operation shall, unless otherwise stated, include normal post-operative care for a period not exceeding four months. If a practitioner does not him/herself complete the post-operative care, he/she shall arrange for post-operative care without additional charges. A fee/benefit for post-operative treatment of a prolonged or specialised nature may be charged as agreed upon between the practitioner and the scheme.									05.02	
	2. Multiple Procedures (Maxillo-facial and oral surgery): The fee/benefit for more than one operation or procedure performed through the same incision shall be determined as the fee for the major operation plus fee/benefit for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (Modifier 8005). The fee/benefit for more than one operation or procedure performed under the same anaesthetic but through another incision shall be determined on the fee/benefit for the major operation plus: 75% for the second procedure/operation (Modifier 8009), 50% for the third and subsequent procedures/operations (Modifier 8006). This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee/benefit of the operation. If, within four months, a second operation for the same condition or injury is performed, the fee/benefit for the second operation shall be 50% of that of the first operation (Modifier 8006).									05.02	

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	3. Assistant Surgeon (Maxillo-facial and periodontal surgery): The fee payable to a specialist assistant is determined as 1/3 (of the fee of the practitioner performing the procedure (Modifier 8001). The fee payable to a general dental practitioner assistant is determined as 15% (of the fee of the practitioner performing the procedure (Modifier 8007). The patient must be informed beforehand that another dentist/specialist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient.										05.02
	4. Surgical team (Maxillo-facial and oral surgery): The additional fee to all members of the surgical team for after hours emergency surgery shall be calculated by adding 25% to the fee for the procedure or procedures performed (Modifier 8008).										05.02
010	Orthodontic guidelines:										05.02
	The documentation and first invoice to the patient/medical scheme regarding orthodontic services will include the following information: a. The treatment plan and type of treatment (treatment code number); b. A diagnostic code (ICD-10) and c. An orthodontic payment plan indicating the following: i. The total fee that will be levied for the treatment; ii. The total months of orthodontic treatment (retention period excluded); iii. The initial fee payable by the patient (approximately 20% of the total fee); and iv. The monthly payments of the balance of the fee.										06.03
	2. The fee for orthodontic treatment does not include a clinical oral evaluation and necessary diagnostic services. The fee for corrective therapy (i.e. codes 8861 to 8888) is an inclusive fee and no additional fees may be levied for intra-operative oral evaluations and preventive services. A pre-orthodontic treatment visit, an orthodontic retention, and an oral evaluation on completion of the treatment plan (retention phase included) are excluded and should be reported in addition to corrective orthodontic treatment as separate procedures (Code 8803 x3). Intra/post orthodontic treatment records consisting of radiographs/diagnostic images (limited to a cephalometric film and 5 oral/facial images) and diagnostic casts may be levied when a corrective orthodontic treatment plan is completed (retention phase included).										05.02
	3. The fee for 'Fixed appliance therapy' (codes 8861 and 8865 to 8888), as determined by the individual practitioner, will be levied on a monthly manner over the treatment period (retention phase excluded).										05.02
	4. When partial fixed appliance or preliminary orthodontic treatment (codes 8858, 8861, 8865 or 8866) is followed by full fixed appliance orthodontic treatment (codes 8873 to 8888) provided by the same orthodontist, the fees levied for the partial fixed appliance therapy or preliminary treatment will be deducted from the fee quoted for the full fixed appliance orthodontic treatment.										05.02
	5. The total fee for multiple phases of full fixed appliance orthodontic treatment provided by the same orthodontist may not exceed the most recent fee (determined on commencement date of the final stage of full fixed appliance treatment) for the appropriate full fixed orthodontic procedure.										05.02
	6. When the patient transfers to another practitioner during treatment, or treatment is terminated for any reason, the original treating practitioner must report the number of treatment months remaining and determine the balance of the fee by applying the following formula: Total payment (for treatment only) minus 20% of the total fee (for banding - when applicable) multiplied by the percentage of treatment remaining. For example, if the practitioner was paid R 10,000.00 for a 24-month treatment plan and 18 months of treatment were completed. The balance would be R 2,000.00 (or R 10,000.00 - R 2,000.00 x 6/24). The length of the treatment plan from the original request for authorisation will be used to determine the number of treatment months remaining. The practitioner continuing treatment will provide the information stipulated in paragraph 1 above. Report code 8891 (Orthodontic transfer) with the fee that will be levied for continuation of the treatment in addition to the appropriate orthodontic treatment code. The fee for continuous treatment is subject to prior authorisation by the patient's medical scheme.										05.02
	7. When an established orthodontic patient requires re-treatment, the information stipulated in paragraph 1 above and the cause(s) for re-treatment will be provided. Report code 8892 (Orthodontic re-treatment) with the fee that will be levied for re-treatment in addition to the appropriate orthodontic treatment code. Orthodontic re-treatment is subject to prior authorisation by the patient's medical scheme.										05.02
011	Dento-legal fees: Practitioners are entitled to remuneration if they are present at Court at the request of an advocate or attorney. Use code 8111 (Dental testimony) to report dento-legal work. The code is listed in the adjunctive general services sections in the code lists.										05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
D.	Modifiers										
012	Modifiers: Modifiers should be used with procedures identified throughout the NHRPL. Modifiers provide the means by which the reporting practitioner can indicate that a service or procedure that has been performed has been altered by some specific circumstance but not changed its definition or code. The sensible application of modifiers obviates the necessity for separate procedure listings that may describe the modifying circumstance. Modifiers may be used to indicate to the recipient of the report that: a. A service or procedure was performed by more than one practitioner. b. A service or procedure has been increased or reduced. c. Only part of a service was performed. d. An adjunctive service was performed. e. A service or procedure was provided more than once. f. The fee/benefit was altered due to a financial agreement.										06.03
8001	Assistant surgeon - specialist (1/3 of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8001 to the usual procedure code(s) – See Rule 009.										06.03
8003	Minimum assistant surgeon The minimum fee/benefit for surgical assistant services is identified by adding Modifier 8003 to the primary procedure code – See Rule 009.	06.03	144.33 (126.61)	144.33 (126.61)		144.33 (126.61)					
8005	Maximum multiple procedures (same incision) - MFO surgeon When multiple surgical procedures through the same incision are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The maximum fee/benefit for each additional procedure should be identified by adding Modifier 8005 to the additional procedure code.	06.03	224.08 (196.56)	224.08 (196.56)		224.08 (196.56)					
8006	Multiple surgical procedures - third and subsequent procedures (50% of the appropriate benefit) See Modifier 8009.										06.03
8007	Assistant surgeon - general dental practitioner (15% of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8007 to the usual procedure code(s) – See Rule 009.										06.03
8008	Emergency surgery - after hours (PLUS 25% of the appropriate benefit) When emergency surgery is performed after hours, such surgical procedures can be identified by adding Modifier 8008 to the procedure codes by each participating member of the surgical team.										06.03
8009	Multiple surgical procedures - second procedure (75% of the appropriate benefit) When multiple procedures (under the same anaesthetic but through another incision) are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The additional procedures should be identified by adding the appropriate modifier (M8009 or M8006) to the additional procedure codes.										06.03
8010	Open reduction (PLUS 75% of the appropriate benefit) When an open reduction is required for surgical procedures indicated in the schedule, the open reduction should be identified by adding Modifier 8010 in addition to the usual procedure code. TEMPORARY NOTE: Modifier 8010 applies only to codes 9035 and 9037. Two codes for "Open Reduction" was introduced so that the use of this modifier can be eliminated.										06.03
8011	Procedure accompanied by unusual circumstances (Benefit PLUS X % as determined by the practitioner and agreed upon by patient/medical scheme) When the service provided by a practitioner is greater than that is usually required for the listed procedure, it may be identified by adding Modifier 8030 to the usual procedure code – See Rule 007.										06.03
8012	Reduced services (benefit MINUS X % as determined by the practitioner) Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances the service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.										06.03
8013	Multiple modifiers										06.03

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Under certain circumstances two or more modifiers may be necessary to completely delineate a service. In such situations Modifier 8013 should be added to the basic procedure and the other applicable modifiers may be listed as part of the description of the service.										
8023	Fabrication of inlay/onlay (PLUS 25% of the appropriate benefit)										06.03
	When the direct technique is used to provide resin based inlays/onlays (see codes 8381 to 8384), laboratory costs do not apply. An additional fee may be levied by adding Modifier 8023 to the appropriate inlay/onlay codes.										
8025	Handling fee - direct materials (26% of material cost to a maximum of R26.00)	06.03		-	-		-	-			
	When listed direct dental materials are provided by the practitioner, a handling fee may be levied by reporting Modifier 8025 in addition to the appropriate direct material code – See Rule 002.										
E.	Explanations										
	Tooth identification and designation of areas of the oral cavity:										
	Tooth identification and designation of areas of the oral cavity is compulsory for all invoices rendered. Tooth identification is applicable to procedures identified with the letter (T), and other designation of areas of the oral cavity with the letter (Q) for a quadrant and the letter (M) for the maxillary or mandibular area in the mouth part (MP) column of the Dental Coding. The International Standards Organisation (ISO) in collaboration with the FDI designated system for teeth and areas of the oral cavity should be used. For supernumeraries, the abbreviation SUP should be used.										04.00
	Treatment categories:										
	Treatment categories (TC) of dental procedures are identified in the TC column of the Dental Coding as follows: Basic dentistry - designated as (B) in the treatment category column Advanced dentistry - designated as (A) in the treatment category column Surgery - designated as (S) in the treatment category column										04.00
	Abbreviations used in Dental Coding										
	DM Direct Material Column +D Add fee/benefit for denture +L Add laboratory fee +M Add material fee										05.02
	MP Mouth Part Column M Maxilla/Mandible Q Quadrant S Sextant T Tooth										05.02
	TC Treatment Category Column A Advanced dentistry B Basic dentistry S Surgery										05.02
	Practice type codes: 25400 General Dental Practitioner 26200 Specialist Maxillo Facial and Oral Surgeon 26400 Specialist Orthodontist 29200 Specialist in Oral Medicine and Periodontics 29400 Specialist Prosthodontist 29800 Specialist Oral Pathologist 39500 Dental Therapist										06.03
F.	Guidelines to medical schemes										
	Age of a Child. The determination of a child or adult status of the patient should be based on the clinical development of the patient's dentition. Where administrative constraints preclude the use of clinical development so that the chronological age must be used to determine the child or adult status, the patient is defined as an adult beginning at age 12 with the exclusion of treatment for orthodontics or sealants.										05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Frequency of benefits. The South African Dental Association recommends to medical schemes, where considered necessary and appropriate, that contract limitations on the frequency of providing care for certain services be stated as "twice a calendar year" rather than once in every six months.										05.02
	Radiographs and records. Radiographs should be taken only for clinical reasons as determined by the treating dentist. Postoperative radiographs should only be required as part of dental treatment. When a dentist determined it is appropriate to comply with a third-party payer's request for radiographs, a duplicate set should be submitted and the originals retained by the dentist. Any additional costs incurred by the dentists in copying radiographs and clinical records for claims determination should be reimbursed by the third-party payer or the patient.										05.02
	New vs. established patient. A new patient is one who has not received any professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. An established patient (patient of record) is one who has received professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. In the instance where a dentist is on call for or covering for another dentist, the patient's encounter will be classified as it would have been by the dentist who is not available.										05.02
II. DENTAL PROCEDURES AND SERVICES											
A. DIAGNOSTIC SERVICES											
	The branch of dentistry used to identify and prevent dental disorders and disease. Includes all services/procedures available to the dentist for evaluating existing conditions and determining any further dental care that may be required.										06.03
CLINICAL ORAL EXAMINATIONS											
	The purpose of oral examinations is to observe and record pertinent information, past and present, necessary to arrive at a diagnosis and treatment plan (when treatment is indicated). A treatment plan is a list of procedures or services the dentist proposes to perform on a dental patient based on the results of the examination and diagnosis. Often more than one treatment plan is presented. Oral examinations may require the integration of information that is acquired through additional diagnostic procedures, which should be reported separately. The oral examination, diagnosis, and treatment planning are the responsibility of the dentist. The collection and recording of some data and components of the oral examination may however be delegated. Oral examinations and consultations include the issuing of prescriptions where medication is required.										06.03
General Dental Practitioner											
Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8101	Oral examination	06.03	126.70 (111.10)								B
	An assessment performed on a patient to determine the patient's dental and medical health status involving an examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. This procedure is also used to report a periodic examination on an established patient to determine any changes in a patient's dental and medical health status since a previous periodic or comprehensive examination. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008).										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8102	Comprehensive oral examination	06.03	204.60 (179.50)								B
	An assessment performed on a new or established patient (patient of record) to determine the patient's dental and medical health status involving a comprehensive examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's past and current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. A comprehensive examination includes treatment planning at a separate appointment where a diagnosis is made with information acquired through study models, full-mouth x-rays and other relevant diagnostic aids. It includes, but is not limited to the evaluation and recording of dental caries, pulp vitality tests of the complete dentition, plaque index, missing and unerupted teeth, restorations, occlusal relationships, periodontal conditions (including a periodontal charting and bleeding index), hard and soft tissue anomalies (including the TMJ). The patient shall be provided with a written comprehensive treatment plan, which is a part of the patient's clinical record and the original should be retained by the dentist. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008)										
8104	Limited oral examination	06.03	61.40 (53.90)								B
	An assessment performed on a new or established patient (patient of record) involving an examination, diagnosis and treatment plan, limited to a specific oral health problem or complaint. This type of assessment is conducted on patients who present with a specific problem or during an emergency situation for the management of a critical dental condition (e.g., trauma and acute infections). It includes patients who have been referred for the management of a specific condition or treatment such as the removal of a tooth, a crown lengthening or isolated grafting procedure where there is no need for a comprehensive assessment. Comment: This code should not be reported on established patients who present with specific problems/emergencies which is part of and/or a result of the patients' current treatment plan, e.g., recementation/replacement of temporary restorations, pain relief during root canal treatment, etc.										
8189	Re-examination - existing condition	06.03	61.40 (53.90)								B
	An assessment performed on an established patient (patient of record) to assess the status of an untreated previously existing condition involving an examination and evaluation, limited to the previously existing condition. This type of assessment is conducted on patients (1) with a traumatic injury where no treatment was rendered but the patient needs follow-up monitoring; (2) requires evaluation for undiagnosed continuing pain after a limited oral examination and diagnostic tests did not reveal any findings; and (3) with soft tissue lesions such as a leukoplakia observed on a previous visit that require follow-up monitoring of pathological changes. Comment: (1) A re-examination is not a post-operative visit.										
8176	Periodontal screening	06.03	106.70 (93.60)								B
	Periodontal screenings include but are not limited to a periodontal charting of the complete dentition; plaque index and bleeding index. The findings should be recorded, is a part of the patient's clinical record and should be retained by the dentist.										
8190	Consultation - second opinion or advice	06.03	126.70 (111.10)								B

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	A consultation is a diagnostic service rendered by a dentist, other than the practitioner providing treatment, whose opinion or advice for the purpose of determining the patient's dental needs and proposing treatment regarding a specific problem is requested. A consultation requires and includes a written report to the practitioner or patient who requested the consultation. It involves an examination, diagnosis and treatment proposal. The dentist may initiate further diagnostic or therapeutic services (oral examinations excluded). Comment: A referral is the transfer of the total or specific care of a patient from one dentist to another and does not constitute a consultation. When the consulting dentist assumes responsibility for the continuing care of the patient, any service rendered by him/her will cease to be a consultation, and an appropriate oral examination code should be reported. Code 8106 (special report) may not be reported in addition to this code										
Maxillo Facial Surgeon											
8901	Consultation - MFOS	04.00		161.40 (141.60)							S
8902	Consultation - MFOS (detailed)	06.03		422.50 (370.60)							S
	Detailed clinical examination, radiographic interpretation, diagnosis, treatment planning and case presentation. Code 8902 is a separate procedure from code 8901 and is applicable to craniomandibular disorders, implant placement and orthognathic and maxillofacial reconstruction.										
8840	Treatment planning for orthognathic surgery - ALL	06.03	364.50 (319.80)	546.90 (479.70)	546.90 (479.70)					+L	S
	In the case of treatment planning requiring the combined services of a Prosthodontist and/or Orthodontist and/or a Maxillo-Facial and Oral Surgeon, Modifier 8009 (75%) may be applied to the fee charged by each specialist.										
Orthodontist											
8801	Consultation - Orthodontist	04.00			161.40 (141.60)						A
8803	Consultation - Orthodontist (subsequent, retention and post treatment)	04.00			94.00 (82.50)						A
8837	Diagnosis and treatment planning - Orthodontist	04.00			75.00 (65.80)						A
Periodontist/Oral Medicine											
	Codes 8701, 8703, 8705 and 8707 cannot be charged at one and the same visit.									06.03	
8701	Consultation - periodontist	06.03				161.40 (141.60)					A
	A periodontal consultation comprises a reasonably detailed examination and presentation and explanation of the findings to enable the patient to make a decision as to future treatment.										
8703	Consultation - Periodontist (detailed)	06.03				422.50 (370.60)					A
	Detailed clinical examination, records, radiographic interpretation, probing, percussion, diagnosis, treatment planning and case presentation for periodontal and/or implant cases. Code 8703 is always a separate procedure from code 8701 and comprises inspection, percussion, probing and other diagnostic procedures and the systematic recording of every important feature in order to permit correct treatment planning.										
8705	Re-examination - Periodontist	04.00				126.30 (110.80)					A

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8707	Periodontal screening - Periodontist	06.03				126.30 (110.80)					A
	A periodontal screening consists of the measurement and recording of a plaque index, a bleeding index, probing depths, a periodontal disease index, a microbiological assay and/or gingival crevicular fluid assay.										
8781	Consultation - Oral medicine (simple)	06.03				126.30 (110.80)					S
	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain-dysfunction - Straight forward case										
8782	Consultation - Oral medicine (complex)	06.03				222.20 (194.90)					S
	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain dysfunction - Complex case										
8783	Consultation - Oral medicine (subsequent)	06.03				94.00 (82.50)					S
	Subsequent consultation for same disease/condition.										
Prosthodontist											
8501	Consultation - Prosthodontist	04.00					161.40 (141.60)				A
8507	Comprehensive consultation - Prosthodontist	06.03					259.20 (227.40)				A
	Examination, diagnosis and treatment planning.										
8506	Detailed consultation - Prosthodontist	06.03					422.50 (370.60)				A
	Detailed clinical examination, records, radiographic interpretation, diagnosis, treatment planning and case presentation. Code 8506 is a separate procedure from 8507 and is applicable to craniomandibular disorders, implant placement or orthognathic surgery where extensive restorative procedures will be required. Note (Applicable to prosthodontists only - SADA's Dental Coding): In the case of treatment planning requiring the combined services of a Prosthodontist and/or Orthodontist and/or a Maxillo-Facial and Oral Surgeon, Modifier 8009 (75%) may be applied to the fee charged by each specialist - See code 8840 for all other providers.										
Oral Pathologist											
9201	Consultation - oral pathologist	04.00						161.40 (141.60)			
9205	Consultation - oral pathologist (subsequent)	04.00						94.00 (82.50)			

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
RADIOGRAPHS/DIAGNOSTIC IMAGING											
	Diagnostic radiographs/diagnostic images include interpretation. Radiographs/diagnostic images should only be taken for clinical reasons as determined by the dentist and practitioners should comply with the Regulations concerning safe radiological practice and take the necessary precaution to minimise radiation of patients. Radiographs/diagnostic images are part of the patient's clinical record, should be of diagnostic quality, properly identified and dated. The dentist should retain the original images and only copies should be used to fulfil requests made by patients or third party funders. A complete series of intra-oral radiographs/images for diagnostic purposes is required once per treatment plan only. A second series may be required in exceptional cases e.g., following periodontal surgery. The same applies to panoramic films, where additional films may be required for follow-up/re-evaluation purposes. Diagnostic radiographs/diagnostic images preceding endodontic treatment, periodontal treatment, the surgical extraction of teeth or roots and fixed prostheses are fundamental to ethical clinical practice.										06.03
8107	Intraoral radiograph - periapical	06.03	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)				B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.										
8108	Intraoral radiographs - complete series	06.03	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)				B
	A complete series consists of a minimum of eight intraoral radiographs, periapical and or bitewing, occlusal radiographs excluded.										
8112	Intraoral radiograph - bitewing	06.03	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)				B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.										
8113	Intraoral radiograph - occlusal	04.00	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)				B
8114	Extraoral radiograph - hand-wrist	06.03	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
	Use to report extraoral radiographs such as hand-wrist radiographs.										
8115	Extraoral radiograph - panoramic	04.00	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8116	Extraoral radiograph - cephalometric	05.02	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8118	Extraoral radiograph - skull/facial bone	05.02	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8121	Oral and/or facial image (digital/conventional)	06.03	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)				B
	This includes traditional photographs and digital intra- or extraoral images obtained by intraoral cameras. These images should only be reported when taken for clinical/diagnostic reasons and shall be retained as part of the patient's clinical record. Excludes conventional radiographs.										
OTHER DIAGNOSTIC PROCEDURES											
8117	Diagnostic models	06.03	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)			+L	B
	Also known as study models or diagnostic casts. Models used to aid diagnosis and treatment planning. Diagnostic models should be retained as part of the patient's clinical record and may only be used for diagnostic purposes. Includes diagnostic models mounted on a hinge articulator.										
8119	Diagnostic models mounted	06.03	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)			+L	B
	See code 8117. Report this code when models are mounted on a movable condyle articulator.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8122	Microbiological studies	06.03									B
	Studies performed to determine pathological agents. May include, but is not limited to tests for susceptibility to periodontal disease. Report per visit. A perio risk assessment report must be made available at no cost when requested.										
8123	Caries susceptibility tests (By Arrangement)	06.03	57.30 (50.20)								B
	A caries susceptibility test is a diagnostic test for determining a patient's saliva pH with a litmus strip to evaluate the patient's propensity for caries. This code should not be used for a caries detectability test (cariou dentine staining), which is performed to determine if all the caries has been removed. A caries risk assessment report must be made available at no cost when requested.										
8124	Pulp tests	06.03	15.10 (13.30)								
	Diagnostic tests to determine clinical pulp vitality and/or abnormality. Includes traditional pulp testing methods such as thermal and electronic pulp testing as well as the use of optical devices to detect the blood supply of the pulp. The tests involve multiple teeth and contra-lateral comparison(s), as indicated. Report per visit.										
8503	Occlusion analysis mounted	04.00	172.70 (151.50)				259.20 (227.40)				A
8505	Pantographic recording	04.00	250.70 (219.90)				376.00 (329.80)				A
8508	Electrognathographic recording	04.00	268.40 (235.40)				402.60 (353.20)				A
8509	Electrognathographic recording with computer analysis	04.00	445.60 (390.90)				668.40 (586.30)				A
8811	Tracing and analysis of extra-oral film	04.00	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)				B
8839	Diagnostic setup (orthodontics)	04.00	105.80 (92.80)		158.60 (139.10)						A
B.	PREVENTIVE SERVICES										
	Services/procedures intended to eliminate or reduce the need for future dental treatment.									06.03	
DENTAL PROPHYLAXIS											
8155	Polishing - complete dentition	06.03	77.80 (68.20)			107.20 (94.10)	77.80 (68.20)				B
	A polishing involves the removal of stains and plaque from the clinical crowns of natural teeth, and making the surface smooth and glossy, to help minimise the loss of enamel and decrease the possibility of damage to restorations. Includes the complete primary, transitional or permanent dentition. This code should not be used concurrent with codes 8159 or 8160. See code 8157 in the restorative section for the re-burnishing and polishing of restorations.										
8159	Prophylaxis - complete dentition	06.03	152.90 (134.10)			215.60 (189.10)	152.90 (134.10)				B
	A prophylaxis involves a series of procedures whereby calculus, stain, and other accretions are removed from the clinical crowns of teeth. A prophylaxis includes, but is not limited to a scaling and polishing of the complete primary, transitional or permanent dentition. Code 8159 should not be used concurrent with code 8155 or 8160.										
8160	Removal of gross calculus	06.03									B
	This procedure is used when profuse bleeding prevents immediate polishing. May not be used concurrent with any other prophylactic procedure on the same day.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M	P	Lab	T	C
8179	Polishing - complete dentition (periodontally compromised patient)	06.03	89.30 (78.30)										B
	A periodontally compromised patient is defined as a patient presenting with either chronic adult periodontitis, juvenile periodontitis or rapidly progressive periodontitis, confirmed by a CPITN index of 3 or 4. The diagnosis is made with information acquired from at least a periodontal screening (code 8176) and CPITN index, or a comprehensive oral evaluation (code 8102). This diagnosis must be reviewed within a period of three years by means of a periodontal screening (code 8176).												
8180	Prophylaxis - complete dentition (periodontally compromised patient)	06.03	166.10 (145.70)										B
	Comment: See code 8177 descriptor; Include codes 8155 (Polishing – complete dentition), 8159 (Prophylaxis – complete dentition) and 8179 (Plaque removal – periodontal compromised pst). Code 8180 should not be used concurrent with codes 8179.												
TOPICAL FLUORIDE TREATMENT													
	Topical fluoride treatment procedures involve the professionally application of topical fluoride within the dental office. Excludes fluoride application as part of prophylaxis paste, fluoride rinses or "swish." For application of desensitising medicaments, see codes 8166 and 8167 in the supplementary section.												06.03
8161	Topical application of fluoride - child	06.03	77.80 (68.20)			77.80 (68.20)	77.80 (68.20)						B
	To be used for treatment of complete dentition to prevent dental decay. Report code 8167 in the miscellaneous section when fluoride is used as desensitising medicament. Should not be used concurrent with code 8167. A patient is defined as an adult beginning at age 12.												
8162	Topical application of fluoride - adult	06.03	77.80 (68.20)			77.80 (68.20)	77.80 (68.20)						B
	See code 8161.												
SPACE MAINTENANCE (PASSIVE APPLIANCES)													
	Passive appliances are designed to prevent tooth movement.												06.03
8173	Space maintainer - fixed, per abutment	05.02	144.40 (126.70)								T	+L	B
8175	Space maintainer - removable	04.00	186.10 (163.30)									+L	B
OTHER PREVENTIVE PROCEDURES													
8149	Nutritional counselling	06.03											B
	Involves a dietary habit and food selection analysis, and providing of advice and guidance to the patient and/or patient's family on dietary habits and food selection as part of treatment and control of dental decay and periodontal disease. Comment: (1) The need for nutritional counselling must be confirmed by a caries/perio risk assessment (See also codes 8122 and 8123). (2) A dietary habit analysis and food selection programme must, on request, be made available at no charge. (3) Certain funders do not provide benefits for nutritional counselling for the control of dental disease.												

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8150	Tobacco counselling	06.03									B
	Involves the providing of advice, guidance and support services to the patient on tobacco cessation to prevent and control the development of tobacco related oral diseases and conditions and improve prognosis for certain dental treatments. Limitation: (1) The need for tobacco counselling must be confirmed by a caries/perio risk assessment (See also codes 8122 and 8123). (2) If requested, a tobacco prevention and cessation services programme must be made available at no charge. (3) Treatment should be reserved for those persons who are not able to quite using tobacco by using basic intervention methods. Persons are only eligible for this treatment if a documented quit date has been established. Tobacco cessation is limited to 10 services. (4) Certain funders do not provide benefits for tobacco cessation treatment interventions.										
8151	Oral hygiene instruction	06.03	77.80 (68.20)			155.70 (136.60)	155.70 (136.60)				B
	The dental knowledge of the patient/parent to prevent oral diseases should be evaluated before oral hygiene instructions is provided e.g., do they know what is dental plaque, how can it be removed, what is fluoride, how does fluoride work to prevent dental caries, how can fluoride be used and what is a dental sealant. An oral hygiene instruction may include, but is not limited to: Plaque control information, e.g. instruction pamphlets or leaflets; Dietary instructions; Explanation and demonstration of plaque control (brushing and flossing); Self-practice session in the mouth under professional supervision; Use of special aids such as disclosing agents; and Scoring of plaque levels (plaque index). The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction. Oral hygiene instructions to a child should take place in the presence of a parent and/or guardian.										
8153	Oral hygiene instruction - each additional visit	06.03	57.00 (50.00)			75.00 (65.80)	75.00 (65.80)				B
	Report code 8153 when additional oral hygiene instructions is required as part of the treatment plan. No other preventive services may be reported at the same visit. See code 8151										
8163	Dental sealant	06.03	51.30 (45.00)				51.30 (45.00)		T		B
	Also known as pit-and fissure sealant. This procedure involves the mechanical and/or chemical preparation of an occlusal enamel surface and placement of a material to seal decay-prone pits, fissures, and grooves of a tooth. A preventive resin restoration is distinguished from a sealant in that in a restorative the decay penetrates into dentin. If the caries is limited to the enamel, it is still considered a sealant. Limitation: Certain funders limit benefits for sealants to two teeth per quadrant.										
8169	Occlusal guard	06.03	299.00 (262.30)							+L	B
	A removable intraoral appliance that is designed to cover the occlusal and incisal surfaces of the teeth of a dental arch to minimise the effects of bruxism (grinding) and other occlusal factors.										
8171	Mouth guard	06.03	90.50 (79.40)							+L	B
	A flexible intraoral appliance that is worn during participation in contact sports to reduce the potential for injury to the teeth and associated tissue. Limitation: Benefit by arrangement.										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8177	Oral hygiene instruction (periodontally compromised patient)	06.03	117.80 (103.30)								B
	A periodontally compromised patient is defined as a patient presenting with either chronic adult periodontitis, juvenile periodontitis or rapidly progressive periodontitis, confirmed by a CPITN index of 3 or 4. The diagnosis is made with information acquired from at least a periodontal screening (code 8176) and CPITN index, or a comprehensive oral evaluation (code 8102). This diagnosis must be reviewed within a period of three years by means of a periodontal screening (code 8176). Comment: The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction. Includes code 8151 (Oral hygiene instructions)										
8178	Oral hygiene instruction - each additional visit (periodontally compromised patient)	06.03	63.60 (55.80)								B
	See code 8177.										
C. RESTORATIVE SERVICES											
	The branch of dentistry that deals with the reconstruction of the hard tissues of a tooth or group of teeth, injured or destroyed by trauma or disease. Restorative services/procedures intend to restore the function of a natural tooth. Anterior teeth include incisors and canines. Posterior teeth include premolars and molars. The number of tooth surfaces restored, i.e. mesial, occlusal (or incisal), distal, lingual, or vestibular (buccal or labial), is used to determine the appropriate procedure code. A one surface restoration for example, involves only one of the surfaces, while a two-surface restoration extends to two of the five surfaces. With a four-or-more-surfaces anterior restoration involving four tooth surfaces and the incisal angle is involved. Limitations on amalgam and resin-based composite restorations: (1) The reporting of two separate restorations of the same material (e.g., a MO and DO amalgam restoration) on the same tooth is appropriate. Some medical schemes however, have a clause in its dental plan(s) that restricts coverage of the same tooth surface, such as an occlusal, twice on the same day and may require the reporting of a MOD restoration instead of a separate MO and DO restoration. (2) The current NHRPL rates include direct pulp capping (code 8301) and rubber dam application (code 8304).										06.03
AMALGAM RESTORATIONS											
	All adhesives, liners, bases and polishing are included as part of the restoration. If pins are used, they should be reported separately. See codes 8345, 8347 and 8348 for post and/or pin retention.										06.03
8341	Amalgam - one surface	04.00	154.80 (135.80)						T		B
8342	Amalgam - two surfaces	04.00	190.80 (167.40)						T		B
8343	Amalgam - three surfaces	04.00	232.60 (204.00)						T		B
8344	Amalgam - four or more surfaces	04.00	259.20 (227.40)						T		B
RESIN-BASED COMPOSITE RESTORATIONS											
	Resin restorations refer to a broad category of materials including but not limited to composites. Report these codes when glass ionomers/compomers are used as restorations. The procedures include acid etching, adhesives (including resin bonding agents) and curing part of the restoration. Resin restorations utilise the direct technique. For the indirect technique, see "Resin inlays/onlays" If pins are used, they should be reported in addition to these codes - See codes 8345, 8347 and 8348 for post and/or pin retention.										06.03
8350	Resin crown - anterior primary tooth (direct)	06.03	337.70 (296.20)						T		B
	This procedure involves the full coverage of an anterior primary tooth with a resin based material.										
8351	Resin - one surface, anterior	04.00	169.90 (149.00)						T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8352	Resin - two surfaces, anterior	04.00	213.70 (187.40)						T		B
8353	Resin - three surfaces, anterior	04.00	255.40 (224.00)						T		B
8354	Resin - four or more surfaces, anterior	06.03	284.90 (249.90)						T		B
	Use to report the involvement of four or more surfaces or the incisal line angle. The Incisal line angle is the junction of the incisal and the mesial or distal surface of an anterior tooth.										
8367	Resin - one surface, posterior	06.03	184.20 (161.60)						T		B
	This is not a preventative procedure and should only be used to restore a carious lesion or a deeply eroded area into a natural tooth. See also code 8163 - sealant.										
8368	Resin - two surfaces, posterior	04.00	227.90 (199.90)						T		B
8369	Resin - three surfaces, posterior	04.00	275.40 (241.60)						T		B
8370	Resin - four or more surfaces, posterior	04.00	296.20 (259.80)						T		B
GOLD FOIL RESTORATIONS											
8561	Gold foil class I or IV	04.00	450.70 (395.40)				676.00 (593.00)		T		A
8563	Gold foil class V	04.00	527.30 (462.50)				790.90 (693.80)		T		A
8565	Gold foil class III	04.00	663.30 (581.80)				995.00 (872.80)		T		A
INLAY/ONLAY RESTORATIONS											
	Temporary and/or intermediate inlays/onlays, the removal thereof and cementing of the permanent restoration are included as part of the restoration. The cusp tip must be overlaid to be considered an onlay.										06.03
Metal Inlays/Onlays											
	Use these codes for single metal inlay/onlay restorations. See the Fixed Prosthodontic Service section for metal inlay/only bridge retainers. Metal components include structures manufactured by means of conventional casting and/or electroforming. The benefits provided by some medical schemes for metal inlays on anterior teeth (incisors and canines) may be subject to pre-authorisation.										06.03
8361	Inlay - metal - one surface	04.00	236.40 (207.30)				466.20 (409.00)		T	+L	A
8362	Inlay/onlay - metal - two surfaces	04.00	345.60 (303.20)				676.00 (593.00)		T	+L	A
8363	Inlay/onlay - metal - three surfaces	04.00	576.30 (505.50)				1048.20 (919.50)		T	+L	A
8364	Inlay/onlay - metal - four or more surfaces	04.00	696.90 (611.30)				1048.20 (919.50)		T	+L	A

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodontic s	Oral Pathology	M P	Lab	T C
Porcelain/Ceramic Inlays/Onlays											
	Use these codes for single porcelain/ceramic inlay/onlay restorations. See the Fixed Prosthodontic Service section for porcelain/ceramic inlay/only bridge retainers. Porcelain/ceramic inlays/onlays include all indirect ceramic, porcelain and polymer-reinforced porcelain type inlays/onlays. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. TO BE CONFIRMED: When computer generated (CAD-CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration.										06.03
8371	Inlay - porcelain - one surface	05.02	284.90 (249.90)				563.10 (493.90)		T	(+L)	A
8372	Inlay/onlay - porcelain - two surfaces	05.02	420.60 (368.90)				810.90 (711.30)		T	(+L)	A
8373	Inlay/onlay - porcelain - three surfaces	05.02	693.10 (608.00)				1260.00 (1105.30)		T	(+L)	A
8374	Inlay/onlay - porcelain - four or more surfaces	05.02	839.40 (736.30)				1260.00 (1105.30)		T	(+L)	A
8560	Cost of ceramic block	06.03	-				-		T		A
	Applicable to computer generated prosthesis only. See Rule 002 and Modifier 8025.										
8570	Fabrication of computer generated ceramic restoration	06.03							A		
	This procedure involves the fabrication of a computer generated (CAD-CAM) ceramic restoration by the dental practitioner. Report code 8560 for the cost of the ceramic block in addition to this procedure.										
Resin-based Inlays/Onlays											
	Resin based inlays/onlays usually utilise the indirect technique. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. When the direct technique is used, laboratory costs do not apply. An additional fee may be levied by reporting Modifier 8023 in addition to these codes.										06.03
8381	Inlay - resin - one surface	05.02	284.90 (249.90)				563.10 (493.90)		T	(+L)	A
8382	Inlay/onlay - resin - two surfaces	05.02	420.60 (368.90)				810.90 (711.30)		T	(+L)	A
8383	Inlay/onlay - resin - three surfaces	05.02	693.10 (608.00)				1260.00 (1105.30)		T	(+L)	A
8384	Inlay/onlay - resin - four or more surfaces	05.02	839.40 (736.30)				1260.00 (1105.30)		T	(+L)	A
CROWNS – SINGLE RESTORATIONS											
	Use these codes for single crown restorations. See the Fixed Prosthodontic Service section for crown bridge retainers and the Implant Services section for crowns on osseointegrated implants. Porcelain/ceramic crowns include all ceramic, porcelain and porcelain fused to metal crowns. Resin crowns and resin metal crowns include all reinforced heat and/or pressure-cured resin materials. Metal components include structures manufactured by means of conventional casting and/or electroforming. Temporary and/or intermediate crowns, the removal thereof (provisional crowns included) and cementing of the permanent restorations are included as part of the restorations. TO BE CONFIRMED: When computer generated (CAD-CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration.										06.03
8401	Crown - full cast metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8403	Crown - 3/4 cast metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8404	Crown - 3/4 porcelain/ceramic	05.02	839.30 (736.20)				1260.00 (1105.30)		T	+L	A

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8405	Crown - resin laboratory	06.03	839.30 (736.20)				1260.00 (1105.30)		T	+L	A
	Refers to all resin-based crowns that are indirectly fabricated. All fiber, porcelain or ceramic reinforced polymer materials/systems are considered resin-based crowns. Targis®/Vectris® crowns should be reported as resin crowns.										
8407	Crown - resin with metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8409	Crown - porcelain/ceramic	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8411	Crown - porcelain with metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8410	Provisional crown	06.03	172.70 (151.50)			172.70 (151.50)	259.20 (227.40)		T	(+L)	A
	The intended use of a provisional crown is to allow adequate time (of at least six weeks duration) for healing or completion of other procedures during restorative treatment and should not to be used as a temporary prosthesis. Comment: Code 8410 excludes provisional pontics (code 8425) and provisional crown retainers (code 8447), which are listed in the Fixed Prosthodontics Section.										
VENEERS											
8355	Veneer - resin (chair-side)	06.03	269.70 (236.60)				269.70 (236.60)		T		B
	Involves direct layering of material over tooth. No laboratory processing.										
8552	Veneer - porcelain (laboratory)	06.03	596.80 (523.50)				895.30 (785.40)		T	+L	A
	Involves an impression being taken and laboratory processing. Porcelain/ceramic veneers presently include all ceramic, porcelain, and polymer-reinforced porcelain veneers.										
8554	Veneer - resin (laboratory)	06.03	596.80 (523.50)				895.30 (785.40)		T	+L	A
	Involves an impression being taken and laboratory processing.										
TEMPORARY RESTORATIONS											
8137	Emergency crown (chair-side)	06.03	266.80 (234.00)				266.80 (234.00)		T	(+L)	A
	A temporary crown, usually made of resin and in the surgery, which is fitted over a damaged tooth for the immediate protection in tooth injury. Includes emergency crowns manufactured for the replacement of previously fitted, lost or damaged permanent crowns. Comment: This code should not be used as an interim restoration during restorative treatment and should not be reported on the same day on which an impression is taken to replace a previously fitted lost or damaged permanent crown.										
8357	Prefabricated metal crown	06.03	158.60 (139.10)				158.60 (139.10)		T		B
	Includes all preformed metal crowns e.g. stainless steel, nickel-chrome and gold anodised crowns, with or without resin window.										
8375	Prefabricated resin crown	06.03	158.60 (139.10)				158.60 (139.10)		T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Includes all preformed non-metal, non-strip- off crown forms e.g., resin and polycarbonate crowns.										
OTHER RESTORATIVE PROCEDURES											
Pin Retention and Cores											
8345	Prefabricated post retention, per post (in addition to restoration)	06.03	152.90 (134.10)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups) Remuneration excludes cost of posts – See code 8379										
8347	Pin retention - first pin (in addition to restoration)	06.03	76.90 (67.40)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups).										
8348	Pin retention - each additional pin (in addition to restoration)	06.03	71.20 (62.40)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups). Limitation: A maximum of two additional pins may be levied.										
8366	Pin retention as part of cast restoration (any number of pins)	05.02	114.90 (100.80)				155.70 (136.60)		T	+L	A
8376	Core build-up with prefabricated posts	06.03	423.40 (371.40)				423.40 (371.40)		T		B
	The direct build-up of a mutilated crown around a prefabricated post to provide a rigid base for retention of a crown restoration. This procedure includes posts and core material. Remuneration excludes cost of posts – See code 8379.										
8379	Cost of prefabricated posts	06.03	-				-		T		A
	Applicable to pre-fabricated noble metal, ceramic, iridium and titanium posts – see code 8345 and 8376. Comment: See Rule 002 and Modifier 8025 for direct material costs.										
8391	Cast core with single post	06.03	178.60 (156.60)						T	+L	A
	Report in addition to crown.										
8392	Cast post (each additional)	06.03	106.30 (93.20)						T	+L	A
	To be used with 8391 for each additional cast posts on the same tooth.										
8397	Cast core with pins (any number of pins)	06.03	284.90 (249.90)				370.30 (324.90)		T	+L	A
	The cast core with pins is intended to be used on grossly broken down vital teeth. Report in addition to crown.										
8398	Core build-up with or without pins	06.03	345.60 (303.20)				345.60 (303.20)		T		B
	The direct build-up of a mutilated crown to provide a rigid base for retention of a crown restoration irrespective of the number of pins used. This code should not be reported when the procedure only involves a filler to eliminate any undercut, concave irregularity in the preparation, etc.										
8581	Cast core with single post	06.03					263.90 (231.50)		T	+L	A
	See also GDP code 8391										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8582	Cast core with double post	06.03					376.00 (329.80)		T	+L	A
	See also GDP code 8392										
8583	Cast core with triple post	06.03					466.20 (409.00)		T	+L	A
	See also GDP code 8392										
Unclassified Restorative Procedures											
8133	Recement inlay, onlay, crown or veneer	06.03	77.80 (68.20)				98.70 (86.60)		T	+L	B
	Use to report the recementation of a permanent single inlay, onlay, crown or veneer. See code 8514 in the Fixed Prosthodontic Section for the recementation of a bridge retainer. Comment: This code may not be used for the recementation of temporary or provisional restorations, which is included as part of the restoration.										
8135	Remove inlay, onlay or crown	06.03	154.80 (135.80)				154.80 (135.80)		T	+L	A
	This procedure involves the removal of a permanent inlay, onlay or crown. Report code 8516 for the removal of a permanent bridge retainer. Comment: This code may not be used for the removal of temporary or provisional restorations, which is included as part of the restoration.										
8138	Remove retention post (prefabricated or cast)	06.03	101.60 (89.10)						T		B
	This procedure involves the removal of an intact prefabricated and/or cast posts intended for retention purposes. Report per post. See code 8330 in the "Endodontic Section" for the removal of endodontic posts or instruments.										
8146	Resin bonding for restorations	06.03							T		A
	Applicable to any metal restorations, crowns or conventional bridges, per abutment except Maryland type bridges. Limitation: Benefits by arrangement.										
8157	Re-burnishing and polishing of restorations - complete dentition	06.03	77.80 (68.20)								B
	Not applicable to restorations recently done.										
8349	Carve restoration to accommodate existing removable prosthesis	04.00	31.30 (27.50)						T		B
8413	Repair crown (permanent or provisional)	06.03	172.70 (151.50)				172.70 (151.50)		T	+L	A
	This procedure involves the repair of a permanent crown (e.g. facing replacement). Excludes the removal (8153) and recementation (8133) of the crown. See code 8518 in the Fixed Prosthodontic Section for the repair of a bridge. This code may also be reported for the repair/replacement of a provisional crown (8410) after a period of two months. This code may not be used for the repair/replacement of a temporary restorations, which is included as part of the restoration.										
8414	Additional fee for provision of crown within an existing clasp or rest	04.00	51.30 (45.00)						T	+L	A
D. ENDODONTIC SERVICES											
	Services/procedures intended to treat diseases of the dental pulp and their sequelae.										06.03
PULP CAPPING											
	These codes should not be used as a base or liner under a restoration. Certain funders (medical aids) may restrict the placement of the final restoration during the same visit.										06.03

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8301	Pulp cap - direct	06.03	103.50 (90.80)						T		B
	This procedure involves the covering of the exposed dental pulp with a protective material to stimulate repair of the injured pulpal tissue. Excludes the final restoration.										
8303	Pulp cap - indirect	06.03	103.50 (90.80)						T		B
	This procedure involves the covering of the nearly exposed pulp with a protective material to protect it from external irritants and to promote healing. Excludes the final restoration.										
PULPOTOMY											
8307	Pulp amputation (pulpotomy)	06.03	101.60 (89.10)						T		B
	This procedure involves the removal of a portion of the tooth's pulp and the placement of a medicament to fix or modify the superficial pulp tissue. Excludes the final restoration. This code should not be used as the first stage of root canal therapy and may not be reported with other root canal therapy codes on the same tooth. Report code 8304 (application of a rubber dam) in addition to this code.										
8132	Pulp removal (pulpectomy)	06.03	127.20 (111.60)						T		B
	This procedure involves the removal of the complete pulp from the pulp chamber and root canal(s) for the relief of acute pain prior to root canal therapy. The code is intended to be used for the emergency treatment of acute pain and should not be reported as the first stage of scheduled endodontic treatment. The practitioner reappoints the patient for complete root canal therapy at a later date. Report code 8304 (application of a rubber dam) in addition to this code.										
ENDODONTIC THERAPY											
	Includes endodontic therapy on primary teeth. Does not include diagnostic evaluation and necessary radiographs/ diagnostic images. Limitation: Intra-operative radiographs/ diagnostic images are limited to three on a single canal tooth and five on a multi-canal tooth for each completed endodontic therapy. Report code 8304 (application of a rubber dam) in addition to these codes.								06.03		
Preparatory Visits											
8332	Root canal preparatory visit - single canal tooth	06.03	77.80 (68.20)						T		B
	Limitation: A maximum of four visits per tooth may be charged.										
8333	Root canal preparatory visit - multi canal tooth	06.03	109.10 (95.70)						T		B
	Limitation: A maximum of four visits per tooth may be charged.										
Obturation of Canals											
	Codes 8328, 8335, 8336 and 8337 (obturation of root canals at a subsequent visit) are intended to be used in conjunction with codes 8332, 8333 and 8334 (endodontic preparatory visits and re-preparation of previously obturated canal).								06.03		
8335	Root canal obturation - anteriors and premolars - first canal	04.00	353.20 (309.80)						T		B
8328	Root canal obturation - anteriors and premolars - each additional canal	04.00	144.40 (126.70)						T		B
8336	Root canal obturation - posteriors - first canal	04.00	486.10 (426.40)						T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8337	Root canal obturation - posteriors - each additional canal	04.00	144.40 (126.70)						T		B
Complete Therapy											
	Codes 8329, 8338, 8339 and 8340 (endodontic treatment completed at a single visit) may not be used with codes 8332, 8333 and 8334 (endodontic preparatory visits and re-preparation of previously obturated canal).										06.03
8338	Root canal therapy - anteriors and premolars - first canal	04.00	540.30 (473.90)						T		B
8329	Root canal therapy - anteriors and premolars - each additional canal	04.00	180.40 (158.30)						T		B
8339	Root canal therapy - posteriors - first canal	04.00	742.40 (651.30)						T		B
8340	Root canal therapy - posteriors - each additional canal	04.00	180.40 (158.30)						T		B
8631	Root canal therapy - first canal	06.03					917.20 (804.60)		T		B
	Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
8633	Root canal therapy - each additional canal	06.03					230.70 (202.40)		T		B
	Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
ENDODONTIC RETREATMENT											
8334	Re-preparation of previously obturated root canal	06.03	114.90 (100.80)				138.60 (121.60)		T		B
	This procedure includes the removal of old root canal filling material and the procedures necessary to prepare the canals to place the canal filling. Report 8334 per canal. See codes 8328, 8335, 8336 and 8337 for the obturation of root canals. This procedure excludes the removal of retentions posts (code 8138) and/or endodontic posts (code 8330). Report code 8304 (application of a rubber dam) in addition to this code. Note (Applicable to prosthodontist only): Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
APEXIFICATION/RECALCIFICATION PROCEDURES											
8635	Apexification/recalcification – per visit	06.03	103.50 (90.80)				152.90 (134.10)		T		S
	Apexification is the process of induced root development or apical closure of the root by hard tissue deposition. This code should also be used to report the repair of perforations and root resorbion. Exclude the necessary radiographs. The first visit involves the opening of the tooth, pulpectomy, preparation of canal spaces, and the first placement of medication. This is followed by several visists to replace the intra-canal medication. The final visit includes the removal of the intra-canal medication and procedures necessary to place final root canal filling material. Code 8635 may not be reported with other root canal therapy codes on the same tooth. Report code 8304 (application of a rubber dam) in addition to this code.										
PERIRADICULAR PROCEDURES											
9015	Apicectomy - anteriors (including retrograde filling)	06.03	383.60 (336.50)	508.90 (446.40)		508.90 (446.40)	508.90 (446.40)		T		S

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Note applicable to periodontists only (according to SADA's Dental Coding): When Code 9015 is part of a flap operation that requires an apicectomy, Modifier 8006 applies.										
9016	Apicectomy - posteriors (including retrograde filling)	06.03	676.70 (593.60)	1015.00 (890.40)		1015.00 (890.40)	1015.00 (890.40)		T		S
	Note applicable to periodontists only (according to SADA's Dental Coding): When Code 9016 is part of a flap operation that requires an apicectomy, Modifier 8006 applies.										
OTHER ENDODONTIC PROCEDURES											
8330	Removal of root canal obstruction	06.03	101.60 (89.10)						T		B
	This procedure involves the treatment of a non-negotiable root canal blocked by foreign bodies (e.g., removal and/or bypassing of a fractured instrument) or calcification of 50% or more of a root to achieve an apical seal and forego surgical treatment – Report per canal. See code 8138 (Post removal) in the Restorative Section for the removal of retention posts. This code may be submitted by the servicing provider and on the same day as a root canal therapy if the obstruction is not iatrogenic by that provider.										
8136	Access through a prosthetic crown or inlay to facilitate root canal treatment	04.00	69.30 (60.80)						T		B
8640	Removal of fractured post or instrument from root canal	06.03					269.70 (236.60)		T		B
	See also GDP Code 8330.										
8765	Hemisection of a tooth, resection of a root or tunnel preparation (isolated procedure)	06.03	339.30 (297.60)			508.90 (446.40)	508.90 (446.40)		T		A
	Includes separation of a multirooted tooth into separate sections containing the root and overlying portion of the crown. It may also include the removal of one or more of those sections.										
E. PERIODONTIC SERVICES											
	The branch of dentistry used to treat and prevent disease affecting the gingivae, ligaments and bone that supports the teeth.									06.03	
SURGICAL SERVICES											
	Surgical services includes usual postoperative care.									06.03	
8741	Gingivectomy/gingivoplasty - four or more teeth per quadrant	06.03	406.40 (356.50)			557.40 (489.00)			Q		A
	A gingivectomy involves the surgical excision of unsupported gingival tissue to the level where it is attached, creating a new gingival margin apical in position of the old. A gingivoplasty involves the surgical contouring of the gingival tissues to secure the physiological architectural form necessary for the maintenance of tissue health and integrity. Edentulous areas are not counted as teeth. When this periodontal procedure extends over the midline, report a combination of procedure codes 8741 and 8743, as appropriate.										
8743	Gingivectomy or gingivoplasty - one to three teeth per quadrant	06.03	324.70 (284.80)			442.50 (388.10)			Q		A
	See code 8741 for descriptor										
8749	Flap procedure, root planing and one to three surgical services - per quadrant	06.03	843.70 (740.10)			1265.70 (1110.20)			Q		A

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Flap operation with root planing and curettage and which may include not more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant. NOTES: 1. Each root resection, tooth hemisection, muco-gingival procedure, wedge resection and clinical crown lengthening shall be deemed to be one procedure. 2. Where a bone regeneration/repair procedure is included within a flap operation, Item 8766 shall apply in addition to the item for the flap operation. 3. Where an apicectomy is included within a flap operation, either Code 9015 or Code 9016 with Modifier 8006 shall apply in addition to the item for the flap operation.										
8751	Flap procedure, root planing and one to three surgical services - per sextant	06.03	698.80 (613.00)			1048.20 (919.50)			S		A
	See code 8749, per sextant.										
8753	Flap procedure, root planing and four or more surgical services - per quadrant	06.03	1045.80 (917.40)			1568.60 (1376.00)			Q		A
	Flap operation with root planing and curettage and will include more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant. NOTES: 1. Each root resection, tooth hemisection, muco-gingival procedure, wedge resection and clinical crown lengthening shall be deemed to be one procedure. 2. Where a bone regeneration/repair procedure is included within a flap operation, Item 8766 shall apply in addition to the item for the flap operation. 3. Where an apicectomy is included within a flap operation, either Code 9015 or Code 9016 with Modifier 8006 shall apply in addition to the item for the flap operation.										
8755	Flap procedure, root planing and four or more surgical services - per sextant	06.03	847.50 (743.40)			1271.40 (1115.20)			S		A
	See code 8753, per sextant.										
8756	Clinical crown lengthening (isolated procedure)	06.03	513.90 (450.80)			770.90 (676.30)			T		A
	A surgical procedure designed to increase the amount of tooth structure projecting into the mouth to facilitate a reconstructive or operative procedure. The procedure involves the reflection of a flap and the removal of marginal bone and gingival tissues.										
8759	Pedicle flapped graft (isolated procedure)	06.03	386.20 (338.70)			579.20 (508.00)			M		A
	E.g. lateral sliding double papilla, rotated and similar.										
8761	Masticatory mucosal autograft - one to four teeth (isolated procedure)	05.02	419.60 (368.10)	629.50 (552.20)		629.50 (552.20)			M	+L	A
8762	Masticatory mucosal autograft - four or more teeth (isolated procedure)	05.02	630.50 (553.10)	945.70 (829.60)		945.70 (829.60)			M	+L	A
8763	Wedge resection (isolated procedure)	06.03	246.90 (216.60)			370.30 (324.90)			Q		A
	A surgical procedure that involves the removal of a wedge of tissue. This is normally done in an edentulous area, distal of the last molar of the maxilla or mandible, to result in minimal probing depth of the adjacent tooth. Do not use for a biopsy.										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8766	Bone regeneration/repair procedure - as part of a flap operation	06.03	201.90 (177.10)			302.90 (265.70)					A
	See code 8749, 8751, 8753 and 8755, per procedure. Excluding cost of regenerative material - See code 8770										
8767	Bone regeneration/repair procedure - at a single site	06.03	523.50 (459.20)	785.30 (688.80)		785.30 (688.80)					A
	Excluding cost of regenerative material - See code 8770										
8769	Membrane removal (used for guided tissue regeneration)	06.03	246.90 (216.60)	370.30 (324.90)		370.30 (324.90)					A
	Note: Maxillo-facial Surgeons may, according to SADA's Dental Coding, use codes 8761, 8767 and 8769 only as part of implant surgery.										
8770	Cost of bone regenerative/repair material	06.03	-	-		-					A
	See Rule 002 and Modifier 8025 for direct material costs										
8772	Submucosal connective tissue autograft (isolated procedure)	05.02	424.10 (372.00)	636.20 (558.00)		636.20 (558.00)					A

8727	Provisional splinting - intracoronar - per tooth	06.03	65.80 (57.70)			98.70 (86.60)	98.70 (86.60)		T	+L	A
	Include intracoronar wire or pins or cast bar, plus amalgam or resin, per dental unit included in the splint										
8737	Root planing - four or more teeth per quadrant	06.03	311.50 (273.20)			422.50 (370.60)			Q		A
	A procedure that smooths the surface of a root by removing abnormal toxic cementum or dentin that is rough, contaminated, or permeated with calculus. May include a subgingival curettage (controversial procedure). When this periodontal procedure extends over the midline, report a combination of procedure codes 8737 and 8739, as appropriate. Other separate procedures including, but not limited to a comprehensive oral evaluation (8102) or periodontal screening (8176) and diagnostic radiographs (8107/8108), are a prerequisite to reporting Code 8737. Should not be reported concurrent with Codes 8159, 8160, 8179 or 8180.										
8739	Root planing - one to three teeth per quadrant	06.03	247.80 (217.40)			337.10 (295.70)			Q		A
	See code 8737.										
8773	Cost of intrapocket chemotherapeutic agent	06.03	-			-					
	Used to report intrapocket chemotherapeutic agents provided by the practitioner. See Rule 002 and Modifier 8025 for direct material costs.

8787	Unlisted oral medicine procedure	04.00	88.60 (77.70)			132.90 (116.60)					S
F.	REMOVABLE PROSTHODONTICS										
	The branch of prosthodontics concerned with the replacement of teeth by artificial substitutes that is readily removable. Removable prosthodontic services include routine post-operative care.										06.03
COMPLETE DENTURES											
8231	Complete dentures - maxillary and mandibular	06.03	1255.20 (1101.10)				2620.60 (2298.80)		M	+L	B
	Inclusive of soft bases or metal bases, where applicable.										
8232	Complete denture - maxillary or mandibular	06.03	773.80 (678.80)				1833.50 (1608.30)		M	+L	B
	Inclusive of soft bases or metal bases, where applicable.										
8244	Immediate denture - maxillary	06.03	773.80 (678.80)				1160.80 (1018.20)			+L	
	A removable complete denture constructed for placement immediately after removal of the remaining natural teeth. This procedure includes limited follow-up care only and excludes subsequent rebasing/relining procedure(s) and/or the replacement with new complete denture. See interim prosthesis for immediate and/or provisional partial dentures.										
8245	Immediate denture - mandibular	06.03	773.80 (678.80)				1160.80 (1018.20)			+L	
	See 8244 descriptor.										
8643	Complete dentures - maxillary and mandibular (with complications)	04.00					3401.00 (2983.40)			+L	B
8645	Complete dentures - maxillary and mandibular (with major complications)	04.00					4183.50 (3669.70)			+L	B
8649	Complete denture - maxillary or mandibular (with complications)	05.02					2092.70 (1835.70)		M	+L	B

PARTIAL DENTURES											
8233	Partial denture - resin base - one tooth	05.02	359.80 (315.60)						M	+L	B
8234	Partial denture - resin base - two teeth	05.02	359.80 (315.60)						M	+L	B
8235	Partial denture - resin base - three teeth	05.02	538.40 (472.30)						M	+L	B
8236	Partial denture - resin base - four teeth	05.02	538.40 (472.30)						M	+L	B
8237	Partial denture - resin base - five teeth	05.02	538.40 (472.30)						M	+L	B

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8238	Partial denture - resin base - six teeth	05.02	714.10 (626.40)						M	+L	B
8239	Partial denture - resin base - seven teeth	05.02	714.10 (626.40)						M	+L	B
8240	Partial denture - resin base - eight teeth	05.02	714.10 (626.40)						M	+L	B
8241	Partial denture - resin base - nine or more teeth	05.02	714.10 (626.40)						M	+L	B
8281	Partial denture - cast metal framework only	06.03	839.40 (736.30)						M	+L	A
	The procedure refers to the metal framework only, and includes all clasps, rests and bars (i.e., 8251, 8253, 8255 and 8257). See codes 8233 to 8241 for the resin denture base required concurrently with 8281.										
8671	Partial denture - cast metal framework with resin denture base	06.03					2092.70 (1835.70)		M	+L	A
	See also GDP Code 8281.										
ADJUSTMENTS TO DENTURES											
8275	Adjust complete or partial denture After six months or for patient of another practitioner.	06.03	57.00 (50.00)				57.00 (50.00)				B
8662	Adjust complete or partial dentures (remounting)	04.00	201.40 (176.60)				302.00 (264.90)			+L	B
REPAIRS TO DENTURES											
	Professional fees should not be levied for the repair of dentures/intra-oral appliances if the practitioner did not examine the patient. Laboratory costs, however, may be recovered.										06.03
8269	Repair denture or other intra-oral appliance See code 8273 (Impression to repair/modify a denture)	06.03	98.70 (86.60)				106.30 (93.20)		M	+L	B
8270	Add clasp to existing partial denture One or more clasps. Code 8270 may be reported in addition to code 8269. See code 8273 (Impression to repair/modify a denture).	06.03	71.20 (62.40)						M	+L	B
8271	Add tooth to existing partial denture One or more teeth. Code 8271 may be reported in addition to code 8269. See code 8273 (Impression to repair/modify a denture).	06.03	71.20 (62.40)						M	+L	B
8273	Impression to repair or modify a denture or other intra-oral appliance May be reported in addition to the appropriate code in this subsection when an impression is required. Includes any number of impressions.	06.03	57.00 (50.00)				57.00 (50.00)			+L	B
DENTURE REBASE PROCEDURES											
	Rebase - The partial or complete removal and replacement of the denture base.										06.03
8259	Rebase complete or partial denture (laboratory)	05.02	293.40 (257.30)				423.40 (371.40)		M	+L	B
8261	Remodel complete or partial denture	05.02	471.00 (413.10)						M	+L	B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
DENTURE RELINE PROCEDURES											
	Reline - The addition of material to the fitting surface of a denture base.									06.03	
8263	Reline complete or partial denture (chair-side)	05.02	186.10 (163.30)				232.60 (204.00)		M		B
8267	Reline complete or partial denture (laboratory)	06.03	428.30 (375.70)				428.30 (375.70)		M	+L	B
	This procedure is intended to be used for the relining of existing dentures and should not be reported concurrently with codes 8231 to 8241. See code 8243 (soft base to new denture).										
INTERIM DENTURES											
	Also known as provisional, temporary, or transitional dentures. Provisional dentures are used for a limited period of time for reasons of aesthetics, function or occlusal support, after which it is replaced by a more definitive prosthesis.									06.03	
8658	Interim complete denture	06.03	773.80 (678.80)				1160.70 (1018.20)		M	+L	B
	See code 8659 for descriptor.										
8659	Interim partial denture	06.03	619.00 (543.00)				928.60 (814.50)		M	+L	B
	May be used to submit the use of a flipper (stayplate). A stayplate is an acrylic partial, with or without wire clasps, that replaces one or more teeth usually temporary in nature. Includes any necessary clasps and rests. This code should not be used in lieu of space maintainers.										
8661	Diagnostic dentures (including tissue conditioning)	06.03					2092.70 (1835.70)			+L	A
	See also codes 8658, 8659 and 8265.										
OTHER REMOVABLE PROSTHETIC PROCEDURES											
8251	Clasp or rest - cast gold	06.03	71.20 (62.40)							+L	A
	Codes 8251, 8253, 8255 and 8257 may not be levied concurrently with codes 8169 (occlusal orthotic device), 8175 (space maintainer), 8269 (repair of denture) or 8281 (metal framework).										
8253	Clasp or rest - wrought gold	06.03	71.20 (62.40)							+L	B
	See code 8251 descriptor.										
8255	Clasp or rest - stainless steel	06.03	75.00 (65.80)							+L	B
	See code 8251 descriptor.

H.	IMPLANT SERVICES											
	Services/procedures concerned with the surgical insertion of materials and devices into, onto and about the jaws and oral cavity for purposes of oral maxillofacial or oral occlusal rehabilitation or cosmetic corrections.											06.03
SURGICAL IMPLANT PROCEDURES												
	The codes in this subsection are intended to report surgical procedures for the placement of implants to be used as prosthetic abutments. The surgical phase includes all procedures concerned with placing the implant into or onto the bone and preparation for the prosthetic phase.											06.03
9180	Surgical placement of sub-periosteal implant - preparatory stage	05.02	1024.20 (898.40)	1536.40 (1347.70)						M		S
9181	Surgical placement of sub-periosteal implant - placement stage	05.02	1024.20 (898.40)	1536.40 (1347.70)						M	+L	S
9182	Surgical placement of endosteal implant plate	04.00	512.70 (449.70)	769.10 (674.60)		769.10 (674.60)					+L	S
9183	Surgical placement of endosteal implant - first per jaw	06.03	721.60 (633.00)	980.80 (860.40)		980.80 (860.40)				T	+M	S
	Also known as a root form implant; endosseus or an osseo-integrated implant. This procedure involves (1) the surgical placement of a one stage and/or the first stage of a two stage surgery endosteal implant (fixture) and (2) the placement of a healing abutment/cap (when appropriate). Code 9183 includes the surgical placement of a one-piece endosteal implant (incorporating both the implant and integral fixed abutment) and should also be used to report the placement of an endosteal plate form implant. In such instances laboratory fees applies. See code 9190 hereunder for second stage surgery and code 9187 located in the "Other implant services" section to report the cost of the endosteal implant body.											
9184	Surgical placement of endosteal implant - second per jaw	05.02	540.30 (473.90)	735.80 (645.50)		735.80 (645.50)				T	+M	S
9185	Surgical placement of endosteal implant - third and subsequent per jaw	05.02	361.70 (317.30)	492.80 (432.30)		492.80 (432.30)				T	+M	S

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
9190	Surgical placement of abutment - first per jaw	06.03	267.70 (234.80)	362.60 (318.10)		362.60 (318.10)	362.60 (318.10)		T	+M	S
	This procedure involves the (1) surgical re-exposure (uncovery or second stage surgery) of that portion of the submerged endosteal implant that receives the attachment device, and (2) the connection of a healing abutment or temporary prosthesis. This is usually done after the implant has matured in the bone for several months. The purpose of a healing abutment or collar is to create an emergence profile in the gum tissues for the future implant crown. Some implants are designed to remain exposed in the mouth right after they are placed, abolishing an uncovery procedure. Report codes 8578 or 8579 (in the prosthodontists' code list) for the placement of the final abutment to permit fabrication of a dental prosthesis in addition to this code. See Codes 9188 and 9189 located in the "Other implant services" section to submit the cost of other implant components.										
9191	Surgical placement of abutment - second per jaw	05.02	201.20 (176.50)	272.60 (239.10)		272.60 (239.10)	272.60 (239.10)		T	+M	S
9192	Surgical placement of abutment - third and subsequent per jaw	05.02	134.80 (118.20)	183.30 (160.80)		183.30 (160.80)	183.30 (160.80)		T	+M	S
IMPLANT SUPPORTED PROSTHETICS											
	Services/procedures concerned with the construction and placement of fixed or removable prosthesis on any implant device. Prosthetic devices which are not listed in this subsection should be reported using existing fixed or removable prosthetic codes.										06.03
Abutments and Bars											
	These codes are intended to report the placement of final restorations and should not be used to report the placement of temporary/provisional components e.g., healing abutments/collars, temporary abutments, caps, cylinders, etc. Abutments as part of one-piece endosteal implants (incorporating both the implant and integral fixed abutment) are considered being part of the implant body and should not be reported in addition to the surgical placement of the implant. See Codes 9187 to 9189 located in the "Other implant services" section to submit the cost of implant components.										06.03
8584	Connector bar - implant supported	06.03	1395.10 (1223.70)				2092.70 (1835.70)				
	Any bar that connects two or more implants to stabilise and anchor removable overdentures or fixed-detachable dentures. Report code 8578 (prefabricated abutment) for implant abutments separated from connecting bar (bar attachment) and code 8579 (custom abutment) for implant abutments as part of connecting bar in addition to this code. Includes attachments that are inserted in the denture for holding onto the bar. Use to report Preci Bar (Dolder) System attached to implant abutments. When the prefabricated metal Preci Bar is soldered to prefabricated abutments, report codes 8584 and 8578. When the plastic-wax Preci Bar is cast directly with the abutments, report codes 8584 and 8579.										
8578	Prefabricated abutment	06.03	144.40 (126.70)				216.50 (189.90)				
	A prefabricated connection (abutment/precision attachment) to an implant that serves to support and/or retain any prosthesis or superstructure. Modification of a prefabricated abutment may be necessary. Code 8578 should not be used to report the placement of a healing abutment. See Code 9188 located in the "Other implant services" section to submit the cost of the prefabricated abutment.										
8579	Custom abutment	06.03	658.30 (577.50)				987.50 (866.20)				
	A tailor-made connection to an implant that serves to support and/or retain any prosthesis or superstructure. A custom made abutment is usually manufactured by a dental laboratory using a casting process.										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
Removable Dentures											
8533	Implant supported removable complete overdenture	06.03	1395.10 (1223.70)				2092.70 (1835.70)		M	+L	B
	A removable complete denture supported by dental implants to provide improved retention and stability. Overdentures are retained by abutments or bars (attachments) and can be removed by the patient at will. Currently includes acrylic and acrylic with metal base overdentures. A complete overdenture normally requires a minimum of two implants in the mandibula and four in the maxilla for effective support, retention and stability. Report the appropriate mesostructures in addition to this code.										
8534	Implant supported removable partial overdenture	06.03	1116.00 (979.00)				1674.10 (1468.50)		M	+L	B
	See code 8533 for descriptor.										
Fixed-detachable Dentures											
8654	Implant supported fixed-detachable complete overdenture	06.03	1569.20 (1376.50)				2353.80 (2064.70)		M	+L	A
	A fixed complete denture supported by dental implants, or abutments placed on implants, to provide improved retention and stability; may be screw retained or cemented and cannot be removed by the patient; also known as a "hybrid prosthesis." Currently includes acrylic and acrylic with metal base fixed dentures. A fixed-detachable complete denture normally requires a minimum of five implants in the mandibula and six in the maxilla for effective support, retention and stability. When abutments are used, report code 8578 (prefabricated abutment) or code 8579 (custom abutment), as appropriate, in addition to this code. When the denture is supported directly on the implant body (no mesostructure or abutments are used), report code 8660 in addition to this code. When the design of the denture includes a metal base, report code 8663 (Metal base to complete denture) in addition to this code.										
8655	Implant supported fixed-detachable partial overdenture	06.03	1255.30 (1101.10)				1612.90 (1414.90)		M	+L	A
	See code 8654 for descriptor.										
8660	Additional fee to implant supported fixed-detachable denture - per implant	06.03	216.50 (189.90)				216.50 (189.90)		T		A
	This code may be reported when an implant supported fixed denture is attached to an implant body (no mesostructure or abutments are used). Report per implant and identify the position (replaced tooth's number) of the implant(s). May only be used in conjunction with codes 8654 and 8655.										
Crowns - Single Restorations											
8536	Crown - implant/abutment supported - porcelain/ceramic	06.03	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A
	An artificial crown that is retained, supported, and stabilised by an implant or abutment on an implant; may be screw retained or cemented.										
8537	Crown - implant/abutment supported - porcelain with metal	05.02	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A
8538	Crown - implant/abutment supported - cast metal	05.02	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8592	Crown - implant/abutment supported An artificial crown that is retained, supported, and stabilised by an implant or an abutment on an implant; may be screw retained or cemented. See also codes 8536, 8537 and 8538.	06.03					1525.80 (1338.40)		T	+L	A
Bridge Retainers - Crowns											
8546	Crown retainer - implant/abutment supported - porcelain/ceramic A crown attaching a pontic(s) that is retained, supported, and stabilised by an implant or an abutment on an implant; may be screw retained or cemented.	06.03	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A
8547	Crown retainer - implant/abutment supported - porcelain with metal	05.02	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A
8548	Crown retainer - implant/abutment supported - cast metal	05.02	1153.60 (1011.90)				1525.80 (1338.40)		T	+L	A
OTHER IMPLANT SERVICES											
8590	Implant maintenance procedures - per implant This procedure involves the (1) removal of the superstructure(s), cleansing and reinsertion; (2) active deposit removal (debriding) of the implant; (3) examination of all aspects of the implant system (periimplant and prosthetic evaluation, including the occlusion and stability of the superstructure); and (4) patient home care reinforcement and modification. Report per implant and identify the position of the implant (replaced tooth's number) from which the superstructure has been removed. This procedure involves the maintenance of the implant and should not be reported when the superstructure is not removed. See code 8159 (prophylaxis - complete dentition) in the "Preventive Section". The procedure also involves patient home care reinforcement and modification, and codes 8151 (Oral hygiene instructions) or code 8153 (Oral hygiene instructions - each additional visit) should not be reported with this code. Radiographs, when indicated, may be reported in addition to this code (usually at each three months recall visit for the first year and annually thereafter).	06.03	63.90 (56.00)				95.90 (84.10)		T		A
8594	Repair of implant supported prosthesis Use this code to report the repair or replacement of any part of the implant supported prosthesis. See Codes 9189 to submit the cost of implant components (e.g. replacement clips).	06.03	70.90 (62.20)				106.30 (93.20)				
8595	Repair of implant abutment Use this code to report the repair or replacement of any part of the implant abutment. See code 9188 to submit the cost of implant abutment and code 9189 to submit the cost of implant components (e.g. abutment screw).	06.03	70.90 (62.20)				106.30 (93.20)				
8600	Cost of implant components See Rule 002 and Modifier 8025 for direct material costs. See also codes 9187, 9188 and 9189.	06.03		-		-	-				S
9187	Cost of endosteal implant body Comment: See Rule 002 and Modifier 8025 for direct material costs. Report both code 9187 and Modifier 8025 per implant body.	06.03		-		-					S
9188	Cost of prefabricated abutment Comment: See Rule 002 and Modifier 8025 for direct material costs. Report both code 9187 and Modifier 8025 per implant abutment.	06.03		-							S

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
9189	Cost of other implant compnts	06.03	-								S
	Use this code to report all other implant components (implant fixtures and abutments excluded) which are a component part of the definite implant/implant prosthesis system. Comment: See Rule 002 and Modifier 8025 for direct material costs. Report both code 9189 and Modifier 8025 per component.										
9198	Surgical removal of implant	06.03	333.60 (292.60)	500.40 (439.00)		500.40 (439.00)			T		S
	This procedure involves the surgical removal of an implant, i.e. cutting of soft tissue and bone, removal of implant, and closure.										
I. FIXED PROSTHODONTICS											
	The branch of prosthodontics concerned with the replacement or restoration of teeth by artificial substitutes that are not readily removable. A prosthetic retainer (e.g., crown/inlay/onlay retainer) in this section is defined as a part of a bridge that attaches a pontic to the abutment tooth. A pontic is that part of a bridge which replaces a missing tooth or teeth. Each retainer and each pontic constitutes a unit in a bridge. Porcelain/ceramic retainers and pontics presently include all ceramic, porcelain and porcelain fused to metal retainers and pontics. Resin retainers and pontics and resin metal retainers and pontics include all reinforced heat and/or pressure-cured resin materials. Metal components include structures manufactured by means of conventional casting and/or electroforming.	06.03									
PONTICS											
	Comment: Codes 8415, 8416, 8417 and 8418 include ovate pontic designs. The nomenclatures of the pontics have been revised to coincide with the nomenclature used for crowns, which improves accurate record keeping. A similar approach has been followed for crowns and inlays/onlays utilised as bridge retainers.	06.03									
8415	Pontic - porcelain/ceramic	05.03	725.40 (636.30)						T	+L	A
8416	Pontic - cast metal	05.03	576.30 (505.50)						T	+L	A
8417	Pontic - resin with metal	05.03	725.40 (636.30)						T	+L	A
8418	Pontic - porcelain fused to metal	05.03	725.40 (636.30)						T	+L	A
8419	Provisional pontic	06.03	172.70 (151.50)				259.20 (227.40)		T	(+L)	A
	The intended use of a provisional pontic is to allow adequate time (of at least six weeks duration) for healing or completion of other procedures during restorative treatment and should not to be used as a temporary prosthesis for routine bridges. Comment: Code 8410 (Provisional crown) previously included both provisional pontics (code 8419) and provisional crown retainers (code 8447)										
8611	Pontic - sanitary	06.03					790.90 (693.80)		T	+L	A
	See GDP codes 8415 to 8418.										
8613	Pontic - posterior	06.03					967.60 (848.80)		T	+L	A
	See GDP codes 8415 to 8418.										
8615	Pontic - anterior/premolar	06.03					1045.40 (917.00)		T	+L	A
	See GDP codes 8415 to 8418.										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
BRIDGE RETAINERS – INLAYS/ONLAYS											
	An inlay/onlay retainer for a bridge that gains retention, support and stability from a tooth. The cusp tip must be overlayed to be considered an onlay. See inlay/onlay restorations in the Restorative Services Section for inlay/onlay retainers.										06.03
8432	Inlay/onlay retainer - metal - two surfaces	05.02	345.60 (303.20)				676.00 (593.00)		T	+L	A
8433	Inlay/onlay retainer - metal - three surfaces	05.02	576.30 (505.50)				1048.20 (919.50)		T	+L	A
8434	Inlay/onlay retainer - metal - four or more surfaces	05.02	696.90 (611.30)				1048.20 (919.50)		T	+L	A
8436	Inlay/onlay retainer - porcelain - two surfaces	05.02	420.60 (368.90)				810.90 (711.30)		T	+L	A
8437	Inlay/onlay retainer - porcelain - three surfaces	05.02	693.10 (608.00)				1260.00 (1105.30)		T	+L	A
8438	Inlay/onlay retainer - porcelain - four or more surfaces	05.02	839.40 (736.30)				1260.00 (1105.30)		T	+L	A
8617	Retainer cast metal (Maryland type retainer)	06.03	345.60 (303.20)				676.00 (593.00)		T	+L	A
	Use for Maryland type bridges; Report per retainer; See codes 8415 to 8418 for pontics.										
BRIDGE RETAINERS – CROWNS											
	A crown retainer for a bridge that gains retention, support and stability from a tooth.										06.03
8441	Crown retainer - full cast metal	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8442	Crown retainer - 3/4 cast metal	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8443	Crown retainer - porcelain/ceramic	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8444	Crown retainer - 3/4 porcelain/ceramic	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8445	Crown retainer - porcelain with metal	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8446	Crown retainer - resin with metal	05.02	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8447	Provisional crown retainer	06.03	172.70 (151.50)				259.20 (227.40)		T	(+L)	A
	The intended use of a provisional crown retainer is to allow adequate time (of at least six weeks duration) for healing or completion of other procedures during restorative treatment and should not be used as a temporary prosthesis. Comment: Code 8410 (Provisional crown) previously included both provisional pontics (code 8425) and provisional crown retainers (code 8447).

OTHER FIXED PROSTHODONTIC PROCEDURES											
	See "other restorative services" for procedures related to fixed prosthesis not listed in this sub-section.										06.03
8514	Recement bridge	06.03	77.80 (68.20)				98.70 (86.60)		T		B
	Use to report the recementation of a permanent inlay-, onlay-, or crown retainer - reported per retainer. May be used to report the recementation of a Maryland bridge. Report code 8133 for the recementation of a single permananet inlay, onlay or crown. Comment: This code may not be used for the recementation of temporary or provisional restorations, which is included as part of the restoration. Previously code 8133 included the recementation of bridge retainers.										
8516	Remove bridge	06.03	154.80 (135.80)				154.80 (135.80)		T		A
	This procedure involves the removal of a permananet bridge retainer - reported per retainer. Report code 8135 for the removal of a single permananet inlay, onlay or crown. Comment: This code may not be used for the removal of temporary or provisional restorations, which is included as part of the restoration. Previously code 8135 included the removal of bridge retainers.										
8518	Repair bridge	06.03	172.70 (151.50)				172.70 (151.50)		T	(+L)	A
	This procedure involves the repair or replacement of the face of a permanent crown retainer or pontic. Excludes the removal (8516) and recementation (8514) of the permanent bridge. This code may also be reported for the repair/replacement of a provisional crown retainer (8447) or pontic (8425) after a period of two months. The code may not be used for the repair/replacement of a temporary bridge, which is included as part of the restoration.										
8585	Connector bar	06.03	1395.10 (1223.70)				2092.70 (1835.70)		M	+L	A
	Any bar that connects two or more inlay/onlay/crown retainers or pontics to stabilise and anchor removable overdentures. Report the appropriate retainer(s) or pontic(s) in addition to this code. Use to report Preci Bar (Dolder) System attached to inlay/onlay/crown retainers or pontics. Report code 8585 for both the prefabricated metal Preci Bar which is soldered to and plastic-wax Preci Bar which is casted directly with the inlay/onlay/crown retainers or pontics. Report the appropriate retainer(s) or pontic(s) in addition to this code.										
8586	Stress breaker	06.03	520.40 (456.50)				780.50 (684.70)		M	+L	A
	A non-rigid connector.										
8587	Coping metal	06.03	115.90 (101.70)				216.50 (189.90)		T	+L	A
	A thimble coping may utilise pins for additional retention. Generally used to parallel an abutment tooth for bridge and splints. May be similarly used to parallel an implant abutment where implant bodies are not parallel. A dome-shaped coping is generally used on an endodontically treated abutment tooth for an overdenture.										
J.	ORAL AND MAXILLO-FACIAL SURGERY										
	The branch of dentistry using surgery to treat disorders/diseases of the mouth. Surgical procedures include routine postoperative care.										06.03

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
EXTRACTIONS											
8201	Extraction - tooth or exposed tooth roots (first per quadrant)	06.03	77.80 (68.20)	116.70 (102.40)					T		B
	The removal of an erupted tooth or exposed tooth roots by means of elevators and/or forceps. This includes the routine removal of tooth structure and suturing when necessary. Report per tooth. The removal of more than one exposed root of the same tooth should be reported as one extraction. When a normal extraction fails and residual tooth roots are surgically removed during the same visit, code 8937 should be reported.										
8202	Extraction - each additional tooth or exposed tooth roots	06.03	31.30 (27.50)	47.00 (41.20)					T		B
	To be reported for an additional extraction in the same quadrant at the same visit.										
SURGICAL EXTRACTIONS											
	Report code 8220 when sutures are provided by the practitioner.									06.03	
8213	Surgical removal of residual roots, first tooth - per tooth	06.03	336.20 (294.90)						T		S
	This procedure requires mucoperiosteal flap elevation with bone removal, removal of tooth roots and closure. Report per tooth. The removal of more than one root of the same tooth should be reported as one surgical removal. A residual root is defined as the remaining root structure following the loss of the major portion (over 75%) of the crown.										
8214	Surgical removal of residual roots, second and subsequent teeth's roots	04.00	259.20 (227.40)						T		S
8937	Surgical removal of tooth	06.03	336.20 (294.90)	453.80 (398.10)					T		S
	This procedure requires mucoperiosteal flap elevation with bone removal, removal of the tooth and closure. Use code 8937 for the surgical removal of residual tooth roots following the failure of a normal extraction during the same visit.										
8941	Surgical removal of impacted tooth - first tooth	06.03	557.40 (489.00)	733.00 (643.00)					T		S
	Use to report when the occlusal surface of the tooth is covered by soft tissue and/or bone. This procedure requires mucoperiosteal flap elevation with or without bone removal, removal of the tooth and closure.										
8943	Surgical removal of impacted tooth - second tooth	04.00	299.00 (262.30)	394.90 (346.40)					T		S
8945	Surgical removal of impacted tooth - third and subsequent teeth	04.00	169.90 (149.00)	224.10 (196.60)					T		S
8953	Surgical removal of residual roots, first tooth - per tooth	06.03		453.80 (398.10)					T		S
	This procedure requires mucoperiosteal flap elevation with bone removal, removal of tooth structure and closure. Report per tooth. The removal of more than one exposed root of the same tooth should be reported as one surgical removal. A residual root is defined as the remaining root structure following the loss of the major portion (over 75%) of the crown. Note 1: Maxillo-Facial Surgeons - See Surgery Guidelines, Notes 2 and 3 for the removal of residual tooth roots of each subsequent tooth. Report per tooth. Note 2: General Dental Practitioners to report codes 8213 and 8214.

K. ORTHODONTIC SERVICES											
The branch of dentistry used to correct malocclusions of the mouth and restore it to proper alignment and function. Includes all services/procedures concerned with the supervision, guidance and correction of the growing and mature dentofacial structures.											06.03
REMOVABLE APPLIANCE THERAPY											
Removable indicates patient can remove; includes appliances for limited orthodontic treatment (e.g., partial treatment to open spaces or upright of a tooth) and minor orthodontic treatment to control harmful habits (e.g., thumb sucking and tongue thrusting).											06.03
8862	Ortho Tx - removable appliance	04.00	872.90 (765.70)		1309.30 (1148.50)					+L	A
8863	Ortho Tx - each additional removable appliance	06.03	438.70 (384.80)		658.00 (577.20)					+L	A
Limitation: Code 8862 may only be charged once per malocclusion. A maximum of two additional removable appliances per treatment plan may be charged.											
FUNCTIONAL APPLIANCE THERAPY											
A removable functional appliance is an appliance with no fixed dental component which is designed to harness the forces generated by the muscles of mastication and the associated soft tissues of the oro-facial region. This appliance incorporates components which act on both the maxillary and mandibular arches and should be differentiated from a simple removable appliance including appliances incorporating an anterior and posterior bite plane. Orthodontic treatment by means of a functional appliance is usually followed by comprehensive orthodontic treatment utilising fixed orthodontic appliances. When both phases of orthodontic treatment is provided by the same practitioner, the fees levied for treatment by means of the functional appliance, will be deducted from the fee quoted for comprehensive orthodontic treatment.											06.03
8858	Ortho Tx - functional appliance	06.03	1572.40 (1379.30)		2358.60 (2069.00)					+L	A
If additional functional appliances are required, +L can be charged but no further fee.											
FIXED APPLIANCE THERAPY											
Fixed Appliance Therapy - Partial											
The intention of this phase in treatment is to intercept and modify the development of skeletal, dental and functional components of developing malocclusion usually in the mixed dentition. When the preliminary/interceptive phase(s) of orthodontic treatment is followed by comprehensive orthodontic treatment and both phases of orthodontic treatment is provided by the same practitioner, the fees levied for preliminary/interceptive orthodontic treatment will be deducted from the fee quoted for comprehensive orthodontic treatment.											06.03

MISCELLANEOUS SERVICES											
Palliative Treatment											
8131	Emergency dental treatment This code is intended to be used for emergency treatment to alleviate dental pain but is not curative - report per visit. This code should not be used when more adequately described procedures exists and may not be reported with other procedure codes (diagnostic procedures and professional visits excluded).	06.03	77.80 (68.20)				158.60 (139.10)		T		B
8166	Application of desensitising resin, per tooth This procedure involves the application of adhesive resins on a cervical and/or root surface and should not to be used for bases, liners, or adhesives under restorations - report per tooth.	06.03	51.30 (45.00)						T		B
8167	Application of desensitising medicament, per visit This procedure involves the application of topical fluoride on teeth and/or root surfaces and should not to be used for bases, liners, or adhesives under restorations - report per visit (irrespective of number of teeth treated). The intention of this code is to treat persistent pain and not to prevent decay. Fluoride application is considered treatment for caries control – See codes 8161 and 8162. Comment: This code should not be reported together with codes 8161 and 8162.	06.03	59.80 (52.50)								B

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8165	Sedative filling	06.03	77.80 (68.20)						T	+L	B
	The intention of this code is to report a temporary restoration to relieve pain. It should not be used as a temporary restoration in conjunction with root canal therapy, a base or liner under a restoration. Use this code to report a ZOE restoration or ART technique. May not be reported with other procedure codes on the same visit for a tooth.										
Post Surgical Complications											
8931	Treatment of post-extraction haemorrhage	06.03	57.00 (50.00)	341.80 (299.90)							S
	Involves the treatment of local haemorrhage following extraction. Report per visit. Excludes treatment of bleeding in the case of blood dyscrasias (8933), e.g. haemophilia. Routine post operative visits for irrigation, dressing change and suture removal are considered to be part of, and included in the fee for the surgical service.										
8933	Treatment of haemorrhage (blood dyscrasias)	04.00	788.10 (691.30)	1182.10 (1036.90)							S
8935	Treatment of septic socket	06.03	57.00 (50.00)	89.30 (78.30)							S
	Involves the treatment of localised inflammation of the tooth socket following extraction due to infection or loss of blood clot; osteitis. Report per visit. Routine postoperative visits for irrigation, dressing change and suture removal are considered to be part of, and included in the fee for, the surgical service.										
Bleaching											
8308	External bleaching - per arch	06.03							M		A
	Comment: (1) The unpredictability and lack of permanence of this procedure should be pointed out, and alternative procedures discussed with the patient. (2) The benefits provided by some medical schemes for external bleaching may be subject to pre-authorisation.										
8309	Home bleaching - instructions and applicator	06.03								+L	A
	See code 8310 in the section 'Adjunctive general services' for materials supplied. Limitation: Benefits by arrangement.										
8311	Home bleaching - subsequent visit	06.03									A
	Limitation: A maximum of three additional visits may be charged. Benefits by arrangement.										
8325	Internal bleaching - per tooth	06.03	184.20 (161.60)				276.40 (242.40)		T		A
	Report code 8304 (application of a rubber dam) in addition to this code.										
8327	Internal bleaching - each additional visit	06.03	88.30 (77.50)				132.50 (116.20)		T		A
	Comment: (1) Report the application of a rubber dam code (8304) in addition to this code. (2) The submission of fees is limited to two additional visits.										
Unclassified Treatment											
8158	Enamel microabrasion	06.03	71.20 (62.40)								
	This procedure involves the removal of superficial enamel defects due to decalcification or altered mineralisation. It is typically used for complex procedures when removing stain from anterior teeth (e.g., fluorosis stain) and should not be confused with air abrasion. Submit per visit.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8168	Behavior management Comment: (1) May be reported in addition to treatment provided, when the patient is developmentally disabled, mentally ill, or is especially uncooperative and difficult to manage, resulting in the dental staff providing additional time, skill and/or assistance to render treatment. (2) The Code can only be billed where an office treatment requires extraordinary effort and is the only alternative to general anaesthesia. Includes any and all pharmacological, psychological, physical management adjuncts required or utilised. (3) Notation and justification must be written in the patient record identifying the specific behaviour problem and the technique used to manage it. (4) Report in 15-minute units. (maximum 4 units per visit and allowed once per patient per day) Limit of 12 units per year. (5) If requested, the report must be made available at no charge. (6) The benefits provided by some medical schemes for behaviour management may be subject to pre-authorisation.	06.03									B
8551	Occlusal adjustment - major Comment: (1) A complete occlusal adjustment involves the grinding of teeth to the equivalent of two or more quadrants. (2) Several appointments of varying length and sedation to attain relaxation of the muscularity muscles may be necessary. Submit code 8551 for payment at the last visit if several appointments to complete the procedure are required.	06.03	492.40 (432.00)		738.70 (648.00)		738.70 (648.00)				A
8553	Occlusal adjustment - minor An occlusal adjustment involves the grinding of the occluding surfaces of teeth to develop harmonious relationships between each other, their supporting structures, muscles of mastication and temporomandibular joints. Comment: (1) Partial occlusal adjustment for the relief of symptomatic teeth involves the selective grinding of teeth to the equivalent of one quadrant or less. (2) Payment for this procedure is limited to one visit per treatment plan. (3) May not be submitted for the adjustment of dentures or restorations provided as part of a treatment plan (including opposing teeth).	06.03	171.80 (150.70)		235.40 (206.50)	235.40 (206.50)	235.40 (206.50)				A
9099	Unlisted dental procedure or service (By report) The intention of this code is to report a dental procedure or service which is not adequately described by a code. Describe procedure.	06.03	-								
MODIFIERS											
8001	Assistant surgeon - specialist (1/3 of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8001 to the usual procedure code(s) – See Rule 009.									06.03	
8003	Minimum assistant surgeon The minimum fee/benefit for surgical assistant services is identified by adding Modifier 8003 to the primary procedure code – See Rule 009.	06.03	144.33 (126.61)	144.33 (126.61)		144.33 (126.61)					
8005	Maximum multiple procedures (same incision) - MFO surgeon When multiple surgical procedures through the same incision are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The maximum fee/benefit for each additional procedure should be identified by adding Modifier 8005 to the additional procedure code.	06.03	224.08 (196.56)	224.08 (196.56)		224.08 (196.56)					
8006	Multiple surgical procedures - third and subsequent procedures (50% of the appropriate benefit) See Modifier 8009.									06.03	

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8007	Assistant surgeon - general dental practitioner (15% of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8007 to the usual procedure code(s) – See Rule 009.										06.03
8008	Emergency surgery - after hours (PLUS 25% of the appropriate benefit) When emergency surgery is performed after hours, such surgical procedures can be identified by adding Modifier 8008 to the procedure codes by each participating member of the surgical team.										06.03
8009	Multiple surgical procedures - second procedure (75% of the appropriate benefit) When multiple procedures (under the same anaesthetic but through another incision) are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The additional procedures should be identified by adding the appropriate modifier (M8009 or M8006) to the additional procedure codes.										06.03
8010	Open reduction (PLUS 75% of the appropriate benefit) When an open reduction is required for surgical procedures indicated in the schedule, the open reduction should be identified by adding Modifier 8010 in addition to the usual procedure code. TEMPORARY NOTE: Modifier 8010 applies only to codes 9035 and 9037. Two codes for "Open Reduction" was introduced so that the use of this modifier can be eliminated.										06.03
8011	Procedure accompanied by unusual circumstances (Benefit PLUS X % as determined by the practitioner and agreed upon by patient/medical scheme) When the service provided by a practitioner is greater than that is usually required for the listed procedure, it may be identified by adding Modifier 8030 to the usual procedure code – See Rule 007.										06.03
8012	Reduced services (benefit MINUS X % as determined by the practitioner) Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances the service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.										06.03
8013	Multiple modifiers Under certain circumstances two or more modifiers may be necessary to completely delineate a service. In such situations Modifier 8013 should be added to the basic procedure and the other applicable modifiers may be listed as part of the description of the service.										06.03
8023	Fabrication of inlay/onlay (PLUS 25% of the appropriate benefit) When the direct technique is used to provide resin based inlays/onlays (see codes 8381 to 8384), laboratory costs do not apply. An additional fee may be levied by adding Modifier 8023 to the appropriate inlay/onlay codes.										06.03
8025	Handling fee - direct materials (26% of material cost to a maximum of R26.00) When listed direct dental materials are provided by the practitioner, a handling fee may be levied by reporting Modifier 8025 in addition to the appropriate direct material code – See Rule 002.	06.03	-	-	-	-	-	-			

DENTAL TECHNICIANS

Dental Technicians 2009

DRAFT NATIONAL REFERENCE PRICE LIST FOR DENTAL TECHNICIANS, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

1 Preparatory Work

DENTAL THERAPISTS

Dental Therapy 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY DENTAL THERAPISTS EFFECTIVE FROM 1 JANUARY 2009						
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.						
GENERAL RULES						
001	Item 001 refers to a Full Mouth Examination, charting and treatment planning and no further fee shall be chargeable until the treatment plan resulting from this consultation is completed.					06.03
002	(a) Every dental therapist shall render a monthly account for every procedure which has been completed irrespective of whether the total treatment plan has been. (b) Every account shall contain the following particulars : (i) the surname and initials of the member; (ii) the first name of the patient; (iii) the name of the scheme; (iv) the membership number of the member; (v) the practice number; (vi) date on which every service was rendered; (vii) where the account is a photocopy of the original, certification by way of a rubberstamp or the signature of the dental therapist ; (viii) a statement of whether the account is in accordance with the National Reference Price List ; (ix) the name of the dental therapist rendering the service must be shown on the account;and (x) the relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered;.					06.03
003	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.					06.03
ITEMS						
Code	Description	Ver	Dental Therapy	M P	Lab	T C
8139	Appointment not kept /30min	06.03	-			B
	Comment: By arrangement with patient					
8109	Infection control/barrier techniques	06.03	11.40 (10.00)			B
	Comment: This is typically reported on a "per visit" basis for new rubber gloves, masks, etc. provided by the dentist. Report per provider per visit.					
8110	Sterilized instrumentation	06.03	29.40 (25.80)			S
	Limitation: The use of this code is limited to autoclaved, vapour or heat sterilised instruments (i.e. set(s) of long handled instruments and/or forceps) provided by the dentist/hygienist for use in the surgery. Report per visit.

	Use to report the completion of a treatment plan effected from an oral evaluation – See Rule 008.					
Diagnostic services						
8101	Oral examination	06.03	65.90 (57.80)			B
	An assessment performed on a patient to determine the patient's dental and medical health status involving an examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. This procedure is also used to report a periodic examination on an established patient to determine any changes in a patient's dental and medical health status since a previous periodic or comprehensive examination. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008).					

Code	Description	Ver	Dental Therapy	M P	Lab	T C
8102	Comprehensive oral examination	06.03	106.40 (93.40)			B
	An assessment performed on a new or established patient (patient of record) to determine the patient's dental and medical health status involving a comprehensive examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's past and current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. A comprehensive examination includes treatment planning at a separate appointment where a diagnosis is made with information acquired through study models, full-mouth x-rays and other relevant diagnostic aids. It includes, but is not limited to the evaluation and recording of dental caries, pulp vitality tests of the complete dentition, plaque index, missing and unerupted teeth, restorations, occlusal relationships, periodontal conditions (including a periodontal charting and bleeding index), hard and soft tissue anomalies (including the TMJ). The patient shall be provided with a written comprehensive treatment plan, which is a part of the patient's clinical record and the original should be retained by the dentist. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008)					
8104	Limited oral examination	06.03	51.40 (45.10)			B
	An assessment performed on a new or established patient (patient of record) involving an examination, diagnosis and treatment plan, limited to a specific oral health problem or complaint. This type of assessment is conducted on patients who present with a specific problem or during an emergency situation for the management of a critical dental condition (e.g., trauma and acute infections). It includes patients who have been referred for the management of a specific condition or treatment such as the removal of a tooth, a crown lengthening or isolated grafting procedure where there is no need for a comprehensive assessment. Comment: This code should not be reported on established patients who present with specific problems/emergencies which is part of and/or a result of the patients' current treatment plan, e.g., recementation/replacement of temporary restorations, pain relief during root canal treatment, etc.					
8189	Re-examination - existing condition	06.03	51.40 (45.10)			B
	An assessment performed on an established patient (patient of record) to assess the status of an untreated previously existing condition involving an examination and evaluation, limited to the previously existing condition. This type of assessment is conducted on patients (1) with a traumatic injury where no treatment was rendered but the patient needs follow-up monitoring; (2) requires evaluation for undiagnosed continuing pain after a limited oral examination and diagnostic tests did not reveal any findings; and (3) with soft tissue lesions such as a leukoplakia observed on a previous visit that require follow-up monitoring of pathological changes. Comment: (1) A re-examination is not a post-operative visit.					
8129	Office/hospital visit – after regularly scheduled hours	06.03	158.20 (138.80)			B
	Includes visits to nursing homes, long-term care facilities, hospice sites, institutions, etc. Report in addition to appropriate code numbers for actual services rendered. After regularly scheduled hours is defined as weekends and night visits between 18h00 and 07h00 the following day. Limitation: Code 8129 may only be reported for emergency treatment rendered outside normal working hours. Not applicable where a practice offers an extended hours service as the norm.					
8140	House/extended care facility/hospital call	06.03	104.60 (91.80)			B
	Includes visits to nursing homes, long-term care facilities, hospice sites, institutions, etc. Report per visit in addition to reporting appropriate code numbers for actual services performed. Limitation: The fee/benefit for house/extended care facility/hospital calls are limited to five calls per treatment plan.					
8190	Consultation - second opinion or advice	06.03	-			B
	A consultation is a diagnostic service rendered by a dentist, other than the practitioner providing treatment, whose opinion or advice for the purpose of determining the patient's dental needs and proposing treatment regarding a specific problem is requested. A consultation requires and includes a written report to the practitioner or patient who requested the consultation. It involves an examination, diagnosis and treatment proposal. The dentist may initiate further diagnostic or therapeutic services (oral examinations excluded). Comment: A referral is the transfer of the total or specific care of a patient from one dentist to another and does not constitute a consultation. When the consulting dentist assumes responsibility for the continuing care of the patient, any service rendered by him/her will cease to be a consultation, and an appropriate oral examination code should be reported. Code 8106 (special report) may not be reported in addition to this code					
Radiographs/diagnostic imaging						
8107	Intraoral radiograph - periapical	06.03	49.40 (43.40)			B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.					
8108	Intraoral radiographs - complete series	06.03	396.80 (348.00)			B
	A complete series consists of a minimum of eight intraoral radiographs, periapical and or bitewing, occlusal radiographs excluded.					

Code	Description	Ver	Dental Therapy	M P	Lab	T C
8112	Intraoral radiograph - bitewing	06.03	49.40 (43.40)			B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.					
8113	Intraoral radiograph - occlusal	04.00	85.00 (74.60)			B
8114	Extraoral radiograph - hand-wrist	06.03	-			B
	Use to report extraoral radiographs such as hand-wrist radiographs.					
8115	Extraoral radiograph - panoramic	04.00	197.80 (173.50)			B
8116	Extraoral radiograph - cephalometric	05.02	197.80 (173.50)			B
8118	Extraoral radiograph - skull/facial bone	05.02	-			B
8121	Oral and/or facial image (digital/conventional)	06.03	53.00 (46.50)			B
	This includes traditional photographs and digital intra- or extraoral images obtained by intraoral cameras. These images should only be reported when taken for clinical/diagnostic reasons and shall be retained as part of the patient's clinical record. Excludes conventional radiographs.					
Preventive services						
	Note : Items 8159, 8155, 8161 and 8162 may not be charged more than once in six months per patient. Where item 8159 is applied, item 8155 may not be charged. Item 8151 and 8153 may not be charged to patients under 9 years of age.					06.03
8151	Oral hygiene instruction	06.03	51.70 (45.40)			B
	The dental knowledge of the patient/parent to prevent oral diseases should be evaluated before oral hygiene instructions is provided e.g., do they know what is dental plaque, how can it be removed, what is fluoride, how does fluoride work to prevent dental caries, how can fluoride be used and what is a dental sealant. An oral hygiene instruction may include, but is not limited to: Plaque control information, e.g. instruction pamphlets or leaflets; Dietary instructions; Explanation and demonstration of plaque control (brushing and flossing); Self-practice session in the mouth under professional supervision; Use of special aids such as disclosing agents; and Scoring of plaque levels (plaque index). The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction. Oral hygiene instructions to a child should take place in the presence of a parent and/or guardian.					
8153	Oral hygiene instruction - each additional visit	06.03	37.90 (33.20)			B
	Report code 8153 when additional oral hygiene instructions is required as part of the treatment plan. No other preventive services may be reported at the same visit. See code 8151					
8155	Polishing - complete dentition	06.03	63.30 (55.50)			B
	A polishing involves the removal of stains and plaque from the clinical crowns of natural teeth, and making the surface smooth and glossy, to help minimise the loss of enamel and decrease the possibility of damage to restorations. Includes the complete primary, transitional or permanent dentition. This code should not be used concurrent with codes 8159 or 8160. See code 8157 in the restorative section for the re-burnishing and polishing of restorations.					
8159	Prophylaxis - complete dentition	06.03	115.30 (101.10)			B
	A prophylaxis involves a series of procedures whereby calculus, stain, and other accretions are removed from the clinical crowns of teeth. A prophylaxis includes, but is not limited to a scaling and polishing of the complete primary, transitional or permanent dentition. Code 8159 should not be used concurrent with code 8155 or 8160.					
8161	Topical application of fluoride - child	06.03	63.30 (55.50)			B
	To be used for treatment of complete dentition to prevent dental decay. Report code 8167 in the miscellaneous section when fluoride is used as desensitising medicament. Should not be used concurrent with code 8167. A patient is defined as an adult beginning at age 12.					
8162	Topical application of fluoride - adult	06.03	63.30 (55.50)			B
	See code 8161.					
8163	Dental sealant	06.03	46.90 (41.10)	T		B
	Also known as pit-and fissure sealant. This procedure involves the mechanical and/or chemical preparation of an occlusal enamel surface and placement of a material to seal decay-prone pits, fissures, and grooves of a tooth. A preventive resin restoration is distinguished from a sealant in that in a restorative the decay penetrates into dentin. If the caries is limited to the enamel, it is still considered a sealant. Limitation: Certain funders limit benefits for sealants to two teeth per quadrant.					
	Note : 8163 chargeable once only in respect of a tooth per annum. 8163 apply to individuals below 21 years of age. Fee for patients over 21 years of age by arrangement with scheme.	06.03				

Code	Description	Ver	Dental Therapy	M P	Lab C
Extractions during a single visit.					
8201	Extraction - tooth or exposed tooth roots (first per quadrant)	06.03	73.80 (64.80)	T	B
	The removal of an erupted tooth or exposed tooth roots by means of elevators and/or forceps. This includes the routine removal of tooth structure and suturing when necessary. Report per tooth. The removal of more than one exposed root of the same tooth should be reported as one extraction. When a normal extraction fails and residual tooth roots are surgically removed during the same visit, code 8937 should be reported.				
8202	Extraction - each additional tooth or exposed tooth roots	06.03	28.50 (25.00)	T	B
	To be reported for an additional extraction in the same quadrant at the same visit.				
8145	Local anaesthetic - per visit	06.03	11.20 (9.83)		B
	Use for infiltrative anaesthesia (anaesthetic agent is infiltrated directly into the surgical site by means of an injection). Excludes topical anaesthesia (anaesthetic agent is applied topically to the mucosa/skin). Report per visit. Comment: The fee for topical anaesthesia are considered to be part of, and included in the fee for the local anaesthesia (injection). Code 8145 includes the use of the Wand.				
8220	Cost of suture material	06.03	-		B
	Comment: Use in conjunction with procedure(s) when suture material is provided by the practitioner. Report per pack. See Rule 002 and Modifier 8025 for direct material costs.				
8931	Treatment of post-extraction haemorrhage	06.03	48.10 (42.20)		S
	Involves the treatment of local haemorrhage following extraction. Report per visit. Excludes treatment of bleeding in the case of blood dyscrasias (8933), e.g. haemophilia. Routine post operative visits for irrigation, dressing change and suture removal are considered to be part of, and included in the fee for the surgical service.				
8935	Treatment of septic socket	06.03	48.10 (42.20)		S
	Involves the treatment of localised inflammation of the tooth socket following extraction due to infection or loss of blood clot; osteitis. Report per visit. Routine postoperative visits for irrigation, dressing change and suture removal are considered to be part of, and included in the fee for, the surgical service.				
9011	Incision & drainage of abscess - intra-oral (pyogenic)	05.02	90.90 (79.70)	M	S
8303	Pulp cap - indirect	06.03	93.60 (82.10)	T	B
	This procedure involves the covering of the nearly exposed pulp with a protective material to protect it from external irritants and to promote healing. Excludes the final restoration.				
Amalgam restorations (including polishing).					
8341	Amalgam - one surface	04.00	135.10 (118.50)	T	B
8342	Amalgam - two surfaces	04.00	166.50 (146.10)	T	B
8343	Amalgam - three surfaces	04.00	203.00 (178.10)	T	B
8344	Amalgam - four or more surfaces	04.00	226.10 (198.30)	T	B
	Only one of the above items may be charged per tooth within a year.	06.03			
Resin restorations (using resin bonding technique)					
8351	Resin - one surface, anterior	04.00	163.40 (143.40)	T	B
8352	Resin - two surfaces, anterior	04.00	205.40 (180.20)	T	B
8367	Resin - one surface, posterior	06.03	177.20 (155.40)	T	B
	This is not a preventative procedure and should only be used to restore a carious lesion or a deeply eroded area into a natural tooth. See also code 8163 - sealant.				
8369	Resin - three surfaces, posterior	04.00	264.80 (232.20)	T	B
8370	Resin - four or more surfaces, posterior	04.00	284.80 (249.80)	T	B
8368	Resin - two surfaces, posterior	04.00	219.20 (192.30)	T	B
8353	Resin - three surfaces, anterior	04.00	245.50 (215.40)	T	B
8354	Resin - four or more surfaces, anterior	06.03	274.00 (240.40)	T	B
	Use to report the involvement of four or more surfaces or the incisal line angle. The Incisal line angle is the junction of the incisal and the mesial or distal surface of an anterior tooth.				

Code	Description	Ver	Dental Therapy	M P	Lab	T C
8350	Resin crown - anterior primary tooth (direct)	06.03	294.60 (258.40)	T		B
	This procedure involves the full coverage of an anterior primary tooth with a resin based material.					
	Note: Only one of the above codes may be charged per tooth within a year.	06.03				
Palliative Treatment						
8131	Emergency dental treatment	06.03	65.90 (57.80)	T		B
	This code is intended to be used for emergency treatment to alleviate dental pain but is not curative - report per visit. This code should not be used when more adequately described procedures exists and may not be reported with other procedure codes (diagnostic procedures and professional visits excluded).					
8165	Sedative filling	06.03	65.90 (57.80)	T	+L	B
	The intention of this code is to report a temporary restoration to relieve pain. It should not be used as a temporary restoration in conjunction with root canal therapy, a base or liner under a restoration. Use this code to report a ZOE restoration or ART technique. May not be reported with other procedure codes on the same visit for a tooth.					
8166	Application of desensitising resin, per tooth	06.03	43.50 (38.20)	T		B
	This procedure involves the application of adhesive resins on a cervical and/or root surface and should not be used for bases, liners, or adhesives under restorations - report per tooth.					
8167	Application of desensitising medicament, per visit	06.03	50.70 (44.50)			B
	This procedure involves the application of topical fluoride on teeth and/or root surfaces and should not be used for bases, liners, or adhesives under restorations - report per visit (irrespective of number of teeth treated). The intention of this code is to treat persistent pain and not to prevent decay. Fluoride application is considered treatment for caries control - See codes 8161 and 8162. Comment: This code should not be reported together with codes 8161 and 8162.					

DIETICIANS

Dieticians 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY DIETICIANS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

003	Dietary services are per individual patient.	04.00
004	Each practitioner must acquaint him-/herself with the provisions of the Medical Schemes Act, as amended, and the regulations promulgated under the Act and shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars: • The name and practice code number of the referring practitioner. • The name of the member. • The name of the patient. • The name of the medical scheme. • The membership number of the member. • The nature of the treatment. • The date on which the service was rendered. • The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.	04.00
005	When multiple diagnoses apply every applicable diagnosis shall be specified on the statement.	04.00
010	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
011	Compilation of reports is only to be included within billable time if these reports are for purposes of motivating for therapy and/or giving a progress report and/or a pre-authorisation report, and where such a report is specifically required by the medical scheme. Maximum billable time for such a report is 15 minutes.	05.03

MODIFIERS

0021	Services to hospital inpatients: Quote modifier 0021 on all accounts for services performed on hospital inpatients.	04.00

ACUPUNCTURE AND CHINESE MEDICINE

Acupuncture & Chinese Medicine 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY ACUPUNCTURE & CHINESE MEDICINE PRACTITIONERS WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

RULES

01	All accounts must be presented with the following information clearly stated: - name of the practitioner - qualifications of the practitioner - BHF practice number - Postal address and telephone number - Date on which the service(s) were provided - Applicable item codes - The nature of the treatment - The surname and initials of the member - The first name of the patient - The name of the medical scheme - The membership number of the patient - The name and practice number of the referring practitioner	09.00
02	When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately.	09.00
03	Not more than two separate techniques may be charged for at each session.	09.00
04	The maximum number of acupuncture treatments per course to be charged for is limited to ten. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient.	09.00

Ambulance Services

Ambulance Services 2009

NATIONAL REFERENCE PRICE LIST FOR AMBULANCE SERVICES, EFFECTIVE FROM 1 JANUARY 2009		
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. ALL PRICES ARE VAT EXCLUSIVE.		
Preamble		
It is recommended that, when such benefits are granted, the following should be clearly specified in the scheme's rules:		
· The limitation, if any, for such benefits.		
REGULATIONS DEFINING THE SCOPE OF THE PROFESSION OF EMERGENCY CARE		
GENERAL RULES		
001	Long distance claims (items 111, 129 and 141) to be rejected unless distance travelled by patient is reflected. Long distance charges may not include item codes 100, 103, 125, 127, 131 or 133.	04.00
	Long distance claims (items 112, 130 and 142) to be rejected unless the distance is reflected. Long distance charges may not include item codes 100, 103, 125, 127, 131 or 133.	
002	No after hours fees may be charged	04.00
003	Item code 151 may only be charged for services provided by a second vehicle (either ambulance or response vehicle) and shall be accompanied by a motivation.	04.00
004	Guidelines for information required on each account : · Name of service · BHF practice number · Address · Telephone number · Pre-authorisation number · The name of the member · The name of the patient · The name of the medical scheme · The membership number of the member · Diagnosis of patient's condition · Summary of medical procedures undertaken on patient and vital signs of patient · Summary of all equipment used · The date on which the service was rendered. · Name and HPCSA registration number of care providers · Name, practice number and HPCSA registration number of medical doctor · Response vehicle: Details of vehicle driver and intervention undertaken on patient · The code number of the procedure used in the National Reference Price List.	04.00
005	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
006	A BLS service (Practice type "51200") may not charge for ILS or ALS, an ILS service (Practice type "51100") may not charge for ALS. An ALS service (Practice type "51000") may charge all codes.	05.04
Definitions of Ambulance Patient Transfer		
	Basic Life Support - A callout where patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Basic Ambulance Assistant whilst patient in transit.	04.00
	Intermediate Life Support - A callout where the patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Ambulance Emergency Assistant (AEA). (e.g. Initiating and/or maintaining IV therapy, nebulisation etc.) whilst patient in transit.	
	Advanced Life Support - A callout where patient assessment, treatment administration, interventions undertaken and subsequent monitoring fall within the scope of practice of a registered Paramedic

				: Advanced Life Support	: Intermediate Life Support	: Basic Life Support				
				RVU	Fee	RVU	Fee	RVU	Fee	
	(CCA and NDIP) whilst patient in transport. This includes all incubated neonatal transfers. NOTES: Incubator transfers require ALS trained personnel in accordance with the HPCSA ruling. · If a hospital or the attending physician requires a Paramedic to accompany the patient on a transfer in the event of the patient needing ALS intervention the doctor requesting the Paramedic must write a detailed motivational letter in order for ALS to be charged. · If a hospital or the attending physician requires a Paramedic to accompany the patient on a transfer in the event of the patient needing ILS intervention the doctor requesting the Paramedic must write a detailed motivational letter in order for ILS to be charged. · In order to bill as an advanced life support call, a registered advanced life support provider must have examined, treated and monitored the patient while in transit to hospital. · In order to bill as an intermediate life support call, a registered intermediate life support provider must have examined, treated and monitored the patient while in transit to hospital. · Where an ALS provider is in attendance at a callout but does not do any interventions at an ALS level on the patient or ALS monitoring and presence is not required, the billing will be based on a lower level dependent on the care given to the patient. (e.g. Paramedic sites IV line or nebulises patient with a B agonist - this falls within the practice of an AEA and thus is to be billed as an ILS call not an ALS call). Where an ILS provider is in attendance at a callout but does not do any interventions at an ILS level on the patient or ILS monitoring and presence is not required, the billing will be BLS. · Where the management undertaken by a paramedic or AEA fall within the scope of practice of a BAA the call must be at a BLS level. Please Note : · The amounts reflected in the NRPL for each level of care is inclusive of any disposables (except for pacing pads, heimlich valves, high capacity giving sets, dial a flow, intra-osseous needles) and drugs used in the management of the patient, as per attached nationally approved medication protocols. · Haemaccel and colloid solution may be charged separately. · Claims for patient discharges home will only be entertained if accompanied by a written motivation from the attending physician who requested such transport - clearly stating why an ambulance is required for such a transport and what medical assistance the patient requires on route.									
DEFINITION: RESPONSE VEHICLES										
	Response vehicles only - Advance Life Support (ALS) A clear definition must be drawn between the acute primary response and a booked call. 1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should a response vehicle be dispatched to the scene of the emergency and the patient is in need of Advanced Life Support and which is rendered by ALS Personnel e.g. CCA or National Diploma, the respective service shall be entitled to bill on item 131, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ALS rate under items 131 and 133. Furthermore the ALS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ALS services rendered. 2. In the event of a service rendering ALS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ALS bill under items 131 and 133. Since the ALS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider, which will be levied at a BLS rate. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ALS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ALS services rendered.									04.00

				RVU	Fee	RVU	Fee	RVU	Fee
3. Should a response vehicle go to a scene and not render any ALS treatment then the said response vehicle may not levy a bill. 4. Notwithstanding that, item 151 applies to all ALS resuscitation per the notes in this schedule. Response vehicle only - Intermediate Life Support (ILS) A clear definition must be drawn between the acute primary response and a booked call. 1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should an ILS response vehicle be dispatched to the scene of the emergency and the patient is in need of Intermediate Life Support and which is rendered by ILS Personnel e.g. AEA, the respective service shall be entitled to bill on item 125, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ILS rate under items 125 and 127. Furthermore the ILS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ILS services rendered. 2. In the event of a service rendering ILS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ILS bill under items 125 and 127. Since the ILS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ILS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ILS services rendered. 3. Should a response vehicle go to a scene and not render any ILS treatment then the said response vehicle may not levy a bill.

Rotorwing Rates									
	Definitions: 1. Helicopter rates are determined according to aircraft type 2. Day light operations are defined from Sunrise to Sunset (and night operations from Sunset to Sunrise) 3. If flying time is mostly in night time (as per definition above), then bill night time operation rates (type C) 4. Call out charge includes Basic Call Cost plus other flying time incurred, Staff and consumables cost can only be charged if a patient has been treated. 5. Flying time is billed for minimum of 30 minutes and thereafter in 15 minute increments. 6. A 2nd Patient is transferred at 50% reduction of Basic Call and Flight cost, but Staff and Consumables costs remain per patient. (Only if aircraft capability allows for multiple patients) 7. Rates are calculated according to time; from throttle open, to throttle closed. 8. Group A - C must fall within the Cat 138 Ops as determined by Civil Aviation. 9. Hot loads restricted to 8 minutes ground time and must be denoted.								04.00

	DEFINITIONS:								04.00
	1. Group A must fall within the Cat 138 Ops as determined by Civil Aviation.								
	2. Please note that no fee structure has been provided for Group B, as emergency charters could include any form of aircraft. It would be impossible to specify costs over such a broad range. As these would only be used during emergencies when no Group A aircraft are available, no staff or equipment fee would be advised. The definition of use of these aircraft needs to be narrowed down further to eliminate abuse.								
	3. Staff and consumables cost can only be used if patient has been treated.								
	5. 2nd patient transferred at 50% reduction of Basic Call and Flight Cost, but Staff and consumables costs remain per patient. (only if aircraft capability allows for multiple patients)

BIOKINETICS

Biokinetics 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF BIOKINETICS WITH EFFECT FROM 1 JANUARY 2009				
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.				
GENERAL RULES				
002	The consultation code may be charged only once at the same consultation or visit. Consultation includes history taking, guidance, education, health promotion and/or consultation			04.00
003	A maximum of three diagnostic procedures may be charged at the same consultation or visit. Diagnostic procedures include the full range of diagnostic and evaluation procedures within the scope of practice of the biokineticist, including for example: anthropometric / body composition assessments, ergological testing evaluations and perceptual motor evaluation.			05.06
004	A maximum of three treatment procedures may be charged at the same consultation or visit for any single diagnosis. This limitation shall be inclusive of a maximum of one group treatment procedure (code 12), where applicable. Treatment procedures include the full range of rehabilitative or preventive treatment or care procedures within the scope of practice of the biokineticist, including for example: hydrotherapy, callisthenics exercises and programme prescription for individuals with CHD.			04.00
005	After a series of 12 treatments in respect of one patient for the same condition, the practitioner concerned shall report to the scheme as soon as possible if further treatment is necessary. Further continuance of treatment should only be considered if recommended by the medical practitioner(s) and others involved in the rehabilitation of the patient.			04.00
010	Every biokineticist must acquaint himself with the provisions of the Medical Schemes Act, 1998, and the regulations promulgated under the Act in connection with the rendering of accounts. Every account shall contain the following particulars : · The name and practice code number of the referring practitioner . · The name of the member. · The name of the patient. · The name of the medical scheme. · The membership number of the member. · The date on which the service was rendered. · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered			04.00
011	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.			04.00

CHIROPRACTORS

Chiropractors 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY CHIROPRACTORS EFFECTIVE FROM 1 JANUARY 2009					
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.					
GENERAL RULES					
001	All accounts must be presented with the following information clearly stated:				04.00
	· name of chiropractor; · qualifications of the chiropractor; · BHF practice number; · postal address and telephone number; · date on which service(s) were provided; · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered; · the surname and initials of the member; · the first name of the patient; · the name of the scheme; · the membership number of the member; · a statement of whether the account is in accordance with the National Reference Price List; and · the name and practice number of the referring practitioner, if applicable.				
002	The consultation code may be charged only once at the same consultation or visit.				04.00
	Consultation includes history taking, guidance, education, health promotion and/or consultation.				
003	A maximum of three diagnostic procedures may be charged at the same consultation or visit.				05.06
	Diagnostic procedures include physical examination, neurological examination, orthopaedic examination, ergonomical analysis, postural analysis and radiological examination				
004	A maximum of three treatment procedures may be charged at the same consultation or visit for any single diagnosis. Treatment procedures include, inter alia: spinal or extra-spinal manipulation, acupuncture, cold applications, non-heating modalities, deep heating radiation, soft tissue manipulation, superficial heating therapy and therapeutic exercises (other than in relation to preparation or fitting of appliances).				05.02
005	After a series of 12 treatments in respect of one patient for the same condition, the practitioner concerned shall report to the scheme as soon as possible if further treatment is necessary. Payment for treatment in excess of the stipulated number may be granted by the scheme after receipt of a letter from the practitioner concerned, motivating the need for such treatment.				05.03
006	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.				05.03

CLINICAL TECHNOLOGY

Clinical Technologists 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY CLINICAL TECHNOLOGISTS WITH EFFECT FROM 1 JANUARY 2009					
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

Dialysis					
145	Preparation of extra-corporeal equipment: Haemoperfusion (HP), Haemofiltration (HF), Haemoconcentration (HC), Continuous renal replacement therapy (CRRT), Aphaeresis, Auto transfusion and cell recovery (AT).	04.00		46.300	389.00 (341.20)
146	Chronic haemodialysis (acetate dialysate)	04.00		149.400	1255.10 (1101.00)
148	Chronic haemodialysis (bicarbonate dialysate)	04.00		159.600	1340.80 (1176.10)
	In the case of items 146 and 148, routine outpatient dialysis includes dialyser, bloodlines, acetate dialysate, priming set, sodium heparin anticoagulant, saline infusion, dressing pack, fistula needles/catheter dressing, syringes and needles, cleaning materials, equipment set-up, up to 5 hours treatment time, equipment rental	05.03			

Code	Description	Ver	Add	Clinical Technology	
				RVU	Fee
147	Peritoneal dialysis, per day	04.00		16.800	141.10 (123.80)
	The global fees for Continuous Ambulatory Peritoneal Dialysis (CAPD) (Item 176) and Automated Peritoneal Dialysis (APD) (Item 177) include: consumables; cost of machine and machine disposables; professional fee; initial training; in-centre follow-up visits; and home visits. However, they exclude Tenckhoff catheter and insertion thereof; and disposables required for a transfer set change (usually 6 monthly). These fees are chargeable for each 30 day cycle in which CAPD or APD is provided. If CAPD or APD is provided for less than a 30 days in any one cycle (for example due to complications or death of the patient): a. if the period of treatment is 26 days or more in that cycle, the full fee applies; b. if the period of treatment is up to 25 days in that cycle, the fee should be prorated according to number of actual treatment days. Modifier 0001 should be quoted, and number of treatment days specified.	05.03			
176	Global fee for Continuous Ambulatory Peritoneal Dialysis (CAPD), per 30 day period.	05.03		1700.00 0	14281.70 (12527.80)
177	Global fee for Automated Peritoneal Dialysis (APD), per 30 day period.	05.03		2360.00 0	19826.40 (17391.50)
149	Treatment procedure per 1 hour (excluding acute haemodialysis, chronic haemodialysis and CRRT)	04.00		33.400	280.60 (246.10)
150	Acute haemodialysis	04.00		317.200	2664.80 (2337.50)
	Emergency dialysis treatment in hospital; includes dialyser, bloodlines, acetate/bicarbonate dialysate, priming set, equipment set-up, up to 5 hours treatment time, equipment rental	05.03			
151	Treatment procedures for CRRT up to 6 hours or part thereof provided that such part comprises 50% or more of the time	04.00		24.800	208.30 (182.80)
152	Treatment procedure for CRRT up to 12 hours or part thereof provided that such part comprises more than 6 hours of the time	04.00		49.700	417.50 (366.30)
154	Treatment procedure for CRRT up to 18 hours or part thereof provided that such part comprises more than 12 hours of the time	04.00		74.500	625.90 (549.00)
156	Treatment procedure for CRRT up to 24 hours or part thereof provided that such part comprises more than 18 hours of the time	04.00		99.300	834.20 (731.80)
153	Patient training in centre for dialysis, CPAP training and problem-solving, home ventilators and nebulisers, per 30 minutes (to maximum of 24 hours)	04.00		16.600	139.50 (122.30)
155	Patient training or follow-up at patient's home, for dialysis, home ventilators and nebulisers, per 30 minutes (to maximum of 24 hours).	04.00		29.100	244.50 (214.40)
Reproductive Health					
	As schemes will not necessarily grant benefits in respect of some items below, they fall into the "By arrangement with the scheme" category				04.00
159	Post Vasectomy semen analysis.	04.00		10.000	84.00 (73.70)
161	Complete semen analysis.	04.00		31.700	266.30 (233.60)
163	Semen wash for A I.	04.00		30.300	254.60 (223.30)

DENTAL PRACTITIONERS

Dental Practitioners 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY DENTAL PRACTITIONERS, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

The existence of a code in this publication does not mean that the procedure will be reimbursed by medical schemes. Medical schemes have the right to limit the scope, the frequency and/or combinations of dental procedures that is covered or reimbursed. It is the responsibility of the patient to know what procedures are covered and what are excluded from his/her dental benefit plan, and not that of the dental office. Certain medical schemes may require predetermination for particular procedures and/or when charges are expected to exceed a certain amount.

The schedule includes procedures and services for use by Oral Health Care Providers for purposes of keeping accurate patient records, reporting procedures on patients, and processing oral health care related insurance claims. The procedures are those performed by general dental practitioners, oral pathologists, prosthodontists, periodontists, orthodontists, maxillo-facial and oral surgeons and dental therapists.

The procedures codes listed in the schedule have, for the convenience in using the schedule, been divided into categories of services, based on the branches of clinical dental practice. The procedures are grouped under the category of service with which the procedures are most frequently identified and should not be interpreted as excluding certain categories of Oral Health Care Providers from performing such procedures. Individual procedure codes consist of a procedure code, procedure description (nomenclature), and when necessary, a descriptor, that provides further definition and/or guidelines to clarify the intended use of the procedure code.

I.	INTRODUCTION	
A.	Administrative and invoicing rules	
001	Invoices:	05.02
	a. A practitioner shall render a monthly invoice for every procedure which has been completed irrespective of whether the total treatment plan has been concluded.	05.02
	b. An invoice shall contain the following particulars:	05.02
	i. The surname and initials of the member; ii. The first name of the patient; iii. The name of the scheme; iv. The membership number of the member; v. The practice number; vi. The date on which every service was rendered; vii. The code number, description and fee/benefit of the procedure or service; viii. The name of the dentist rendering the service; ix. The name of the general dental practitioner/specialist assistant (when applicable); x. The appropriate ICD-10 code(s) for the procedures performed.	06.03
	Note: Photocopies of original invoices shall be certified by way of a rubber stamp or the signature of the dentist.	05.02
002	Cost of direct materials: The expenses incurred for direct materials identified in the Schedule may be billed in addition to the procedure code. These expenses are limited to the net acquisition cost of the materials and a handling fee. The price of the materials should be VAT inclusive. Use Modifier 8025 for handling fee.	05.02
003	Dental laboratory services:	05.02
	Manual submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by reporting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code. The technician's invoice shall be certified by the dentist (or a person appointed by the dentist) for correctness by means of a signature. The original invoice of the dental technician (or a copy thereof) shall accompany the invoice of the dentist and a copy (or the original) shall be filed by the dentist for record purposes.	05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	Electronic submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by submitting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code on the date on which the dental procedure was rendered. The laboratory fee shall be submitted for payment on the date on which the procedure code is submitted for payment, and the appropriate dental laboratory service codes shall be reported on the lines following code 8099. The technician's invoice shall be certified by the dentist (or a person appointed by the dentist) for correctness by means of a signature. The original invoice of the dental technician shall be filed by the dentist for record purposes.									05.02	
005	Procedure accompanied by unusual circumstances: In exceptional cases where the proposed fee/benefit is disproportionately low in relation to the actual services rendered by a practitioner, such higher fee as may be mutually agreed upon between the dental practitioner and the patient/medical scheme may be billed. Use Modifier 8011 with a narrative description. Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances a lower fee may be billed. The service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.									05.02	
B.	General coding rules										
006	The schedule does not prescribe the scope of practice of a particular category of Oral Health Care Provider; neither does it confine the performing of procedures or services to a registered speciality. Fees listed within a column of a particular category of Oral Health Care Provider are customary fees, should the procedure or service be rendered by that provider category. Specialists are however encouraged to confine their practice to the speciality or related specialities in which they are registered. Specialist may charge fees for procedures or services which usually pertain to some other speciality, if such procedures or services are also recognised in their speciality, and if it is carried out only for their bona fide patients. Such fees shall not be higher than those charged by general practitioners for the same procedures or services (HPCSA, Rule 25). Fees for procedures or services not listed within the column of dental therapists that do fall within the field of dental therapy in terms of their scope of practice are regarded as being "by arrangement" until such fees are listed.									06.03	
007	Procedures not listed in the Dental Schedule									05.02	
	When a procedure is performed that is not listed in the schedule, an appropriate procedure code, listed in the NHRPL for medical practitioners may be reported.									06.03	
	Unlisted procedures. Any procedure that is neither described in the schedule, nor in the medical schedule, should be reported using code 9099 - Unlisted dental procedure or service. The fee for an unlisted dental procedure or service should be based on the fee of a comparable procedure. Code 9099 codes should not be used to report procedures where the fee is determined "by arrangement" with the patient and/or medical scheme.									06.03	
C.	Services rules										
008	Oral evaluations and completion of treatment plans: Oral examinations include an examination, diagnosis and treatment planning (when treatment is required). No further fees/benefits shall be levied for an oral examination (code 8101) or comprehensive examination (code 8102) until the treatment plan resulting from these type of examinations is completed. The completion of a treatment plan effected from an oral examination and/or comprehensive examination should be indicated by reporting code 8120 – Treatment plan completed. Oral diagnosis defined. The determination by the dentist of the oral health condition of an individual patient achieved through the evaluation of data gathered by means of history taking, direct examination, patient conference, and such clinical aids and tests as may be necessary in the judgement of the dentist. Treatment plan defined. The treatment plan is the sequential guide for the patient's care as determined by the dentist's diagnosis and is used by the dentists for the restoration and/or maintenance of optimal oral health									06.03	
009	Surgery guidelines:									05.02	
	1. Follow-up care for therapeutic surgical procedures: The fee/benefit for an operation shall, unless otherwise stated, include normal post-operative care for a period not exceeding four months. If a practitioner does not him/herself complete the post-operative care, he/she shall arrange for post-operative care without additional charges. A fee/benefit for post-operative treatment of a prolonged or specialised nature may be charged as agreed upon between the practitioner and the scheme.									05.02	
	2. Multiple Procedures (Maxillo-facial and oral surgery): The fee/benefit for more than one operation or procedure performed through the same incision shall be determined as the fee for the major operation plus fee/benefit for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (Modifier 8005). The fee/benefit for more than one operation or procedure performed under the same anaesthetic but through another incision shall be determined on the fee/benefit for the major operation plus: 75% for the second procedure/operation (Modifier 8009), 50% for the third and subsequent procedures/operations (Modifier 8006). This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee/benefit of the operation. If, within four months, a second operation for the same condition or injury is performed, the fee/benefit for the second operation shall be 50% of that of the first operation (Modifier 8006).									05.02	

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	3. Assistant Surgeon (Maxillo-facial and periodontal surgery): The fee payable to a specialist assistant is determined as 1/3 (of the fee of the practitioner performing the procedure (Modifier 8001). The fee payable to a general dental practitioner assistant is determined as 15% (of the fee of the practitioner performing the procedure (Modifier 8007). The patient must be informed beforehand that another dentist/specialist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient.										05.02
	4. Surgical team (Maxillo-facial and oral surgery): The additional fee to all members of the surgical team for after hours emergency surgery shall be calculated by adding 25% to the fee for the procedure or procedures performed (Modifier 8008).										05.02
010	Orthodontic guidelines:										05.02
	The documentation and first invoice to the patient/medical scheme regarding orthodontic services will include the following information: a. The treatment plan and type of treatment (treatment code number); b. A diagnostic code (ICD-10) and c. An orthodontic payment plan indicating the following: i. The total fee that will be levied for the treatment; ii. The total months of orthodontic treatment (retention period excluded); iii. The initial fee payable by the patient (approximately 20% of the total fee); and iv. The monthly payments of the balance of the fee.										06.03
	2. The fee for orthodontic treatment does not include a clinical oral evaluation and necessary diagnostic services. The fee for corrective therapy (i.e. codes 8861 to 8888) is an inclusive fee and no additional fees may be levied for intra-operative oral evaluations and preventive services. A pre-orthodontic treatment visit, an orthodontic retention, and an oral evaluation on completion of the treatment plan (retention phase included) are excluded and should be reported in addition to corrective orthodontic treatment as separate procedures (Code 8803 x3). Intra/post orthodontic treatment records consisting of radiographs/diagnostic images (limited to a cephalometric film and 5 oral/facial images) and diagnostic casts may be levied when a corrective orthodontic treatment plan is completed (retention phase included).										05.02
	3. The fee for 'Fixed appliance therapy' (codes 8861 and 8865 to 8888), as determined by the individual practitioner, will be levied on a monthly manner over the treatment period (retention phase excluded).										05.02
	4. When partial fixed appliance or preliminary orthodontic treatment (codes 8858, 8861, 8865 or 8866) is followed by full fixed appliance orthodontic treatment (codes 8873 to 8888) provided by the same orthodontist, the fees levied for the partial fixed appliance therapy or preliminary treatment will be deducted from the fee quoted for the full fixed appliance orthodontic treatment.										05.02
	5. The total fee for multiple phases of full fixed appliance orthodontic treatment provided by the same orthodontist may not exceed the most recent fee (determined on commencement date of the final stage of full fixed appliance treatment) for the appropriate full fixed orthodontic procedure.										05.02
	6. When the patient transfers to another practitioner during treatment, or treatment is terminated for any reason, the original treating practitioner must report the number of treatment months remaining and determine the balance of the fee by applying the following formula: Total payment (for treatment only) minus 20% of the total fee (for banding - when applicable) multiplied by the percentage of treatment remaining. For example, if the practitioner was paid R 10,000.00 for a 24-month treatment plan and 18 months of treatment were completed. The balance would be R 2,000.00 (or R 10,000.00 - R 2,000.00 x 6/24). The length of the treatment plan from the original request for authorisation will be used to determine the number of treatment months remaining. The practitioner continuing treatment will provide the information stipulated in paragraph 1 above. Report code 8891 (Orthodontic transfer) with the fee that will be levied for continuation of the treatment in addition to the appropriate orthodontic treatment code. The fee for continuous treatment is subject to prior authorisation by the patient's medical scheme.										05.02
	7. When an established orthodontic patient requires re-treatment, the information stipulated in paragraph 1 above and the cause(s) for re-treatment will be provided. Report code 8892 (Orthodontic re-treatment) with the fee that will be levied for re-treatment in addition to the appropriate orthodontic treatment code. Orthodontic re-treatment is subject to prior authorisation by the patient's medical scheme.										05.02
011	Dento-legal fees: Practitioners are entitled to remuneration if they are present at Court at the request of an advocate or attorney. Use code 8111 (Dental testimony) to report dento-legal work. The code is listed in the adjunctive general services sections in the code lists.										05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
D.	Modifiers										
012	Modifiers: Modifiers should be used with procedures identified throughout the NHRPL. Modifiers provide the means by which the reporting practitioner can indicate that a service or procedure that has been performed has been altered by some specific circumstance but not changed its definition or code. The sensible application of modifiers obviates the necessity for separate procedure listings that may describe the modifying circumstance. Modifiers may be used to indicate to the recipient of the report that: a. A service or procedure was performed by more than one practitioner. b. A service or procedure has been increased or reduced. c. Only part of a service was performed. d. An adjunctive service was performed. e. A service or procedure was provided more than once. f. The fee/benefit was altered due to a financial agreement.										06.03
8001	Assistant surgeon - specialist (1/3 of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8001 to the usual procedure code(s) – See Rule 009.										06.03
8003	Minimum assistant surgeon The minimum fee/benefit for surgical assistant services is identified by adding Modifier 8003 to the primary procedure code – See Rule 009.	06.03	144.33 (126.61)	144.33 (126.61)		144.33 (126.61)					
8005	Maximum multiple procedures (same incision) - MFO surgeon When multiple surgical procedures through the same incision are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The maximum fee/benefit for each additional procedure should be identified by adding Modifier 8005 to the additional procedure code.	06.03	224.08 (196.56)	224.08 (196.56)		224.08 (196.56)					
8006	Multiple surgical procedures - third and subsequent procedures (50% of the appropriate benefit) See Modifier 8009.										06.03
8007	Assistant surgeon - general dental practitioner (15% of the appropriate benefit) Surgical assistant services should be identified by adding Modifier 8007 to the usual procedure code(s) – See Rule 009.										06.03
8008	Emergency surgery - after hours (PLUS 25% of the appropriate benefit) When emergency surgery is performed after hours, such surgical procedures can be identified by adding Modifier 8008 to the procedure codes by each participating member of the surgical team.										06.03
8009	Multiple surgical procedures - second procedure (75% of the appropriate benefit) When multiple procedures (under the same anaesthetic but through another incision) are performed on the same day or at the same session by the same provider, the primary procedure may be reported as listed. The additional procedures should be identified by adding the appropriate modifier (M8009 or M8006) to the additional procedure codes.										06.03
8010	Open reduction (PLUS 75% of the appropriate benefit) When an open reduction is required for surgical procedures indicated in the schedule, the open reduction should be identified by adding Modifier 8010 in addition to the usual procedure code. TEMPORARY NOTE: Modifier 8010 applies only to codes 9035 and 9037. Two codes for "Open Reduction" was introduced so that the use of this modifier can be eliminated.										06.03
8011	Procedure accompanied by unusual circumstances (Benefit PLUS X % as determined by the practitioner and agreed upon by patient/medical scheme) When the service provided by a practitioner is greater than that is usually required for the listed procedure, it may be identified by adding Modifier 8030 to the usual procedure code – See Rule 007.										06.03
8012	Reduced services (benefit MINUS X % as determined by the practitioner) Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances the service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.										06.03
8013	Multiple modifiers										06.03

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Under certain circumstances two or more modifiers may be necessary to completely delineate a service. In such situations Modifier 8013 should be added to the basic procedure and the other applicable modifiers may be listed as part of the description of the service.										
8023	Fabrication of inlay/onlay (PLUS 25% of the appropriate benefit)										06.03
	When the direct technique is used to provide resin based inlays/onlays (see codes 8381 to 8384), laboratory costs do not apply. An additional fee may be levied by adding Modifier 8023 to the appropriate inlay/onlay codes.										
8025	Handling fee - direct materials (26% of material cost to a maximum of R26.00)	06.03	-	-	-	-	-	-	-	-	
	When listed direct dental materials are provided by the practitioner, a handling fee may be levied by reporting Modifier 8025 in addition to the appropriate direct material code – See Rule 002.										
E.	Explanations										
	Tooth identification and designation of areas of the oral cavity:										
	Tooth identification and designation of areas of the oral cavity is compulsory for all invoices rendered. Tooth identification is applicable to procedures identified with the letter (T), and other designation of areas of the oral cavity with the letter (Q) for a quadrant and the letter (M) for the maxillary or mandibular area in the mouth part (MP) column of the Dental Coding. The International Standards Organisation (ISO) in collaboration with the FDI designated system for teeth and areas of the oral cavity should be used. For supernumeraries, the abbreviation SUP should be used.										04.00
	Treatment categories:										
	Treatment categories (TC) of dental procedures are identified in the TC column of the Dental Coding as follows: Basic dentistry - designated as (B) in the treatment category column Advanced dentistry - designated as (A) in the treatment category column Surgery - designated as (S) in the treatment category column										04.00
	Abbreviations used in Dental Coding										
	DM Direct Material Column +D Add fee/benefit for denture +L Add laboratory fee +M Add material fee										05.02
	MP Mouth Part Column M Maxilla/Mandible Q Quadrant S Sextant T Tooth										05.02
	TC Treatment Category Column A Advanced dentistry B Basic dentistry S Surgery										05.02
	Practice type codes: 25400 General Dental Practitioner 26200 Specialist Maxillo Facial and Oral Surgeon 26400 Specialist Orthodontist 29200 Specialist in Oral Medicine and Periodontics 29400 Specialist Prosthodontist 29800 Specialist Oral Pathologist 39500 Dental Therapist										06.03
F.	Guidelines to medical schemes										
	Age of a Child. The determination of a child or adult status of the patient should be based on the clinical development of the patient's dentition. Where administrative constraints preclude the use of clinical development so that the chronological age must be used to determine the child or adult status, the patient is defined as an adult beginning at age 12 with the exclusion of treatment for orthodontics or sealants.										05.02

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Frequency of benefits. The South African Dental Association recommends to medical schemes, where considered necessary and appropriate, that contract limitations on the frequency of providing care for certain services be stated as "twice a calendar year" rather than once in every six months.										05.02
	Radiographs and records. Radiographs should be taken only for clinical reasons as determined by the treating dentist. Postoperative radiographs should only be required as part of dental treatment. When a dentist determined it is appropriate to comply with a third-party payer's request for radiographs, a duplicate set should be submitted and the originals retained by the dentist. Any additional costs incurred by the dentists in copying radiographs and clinical records for claims determination should be reimbursed by the third-party payer or the patient.										05.02
	New vs. established patient. A new patient is one who has not received any professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. An established patient (patient of record) is one who has received professional services from the dentist or another dentist of the same speciality who belongs to the same group practice, within the past three years. In the instance where a dentist is on call for or covering for another dentist, the patient's encounter will be classified as it would have been by the dentist who is not available.										05.02
II. DENTAL PROCEDURES AND SERVICES											
A. DIAGNOSTIC SERVICES											
	The branch of dentistry used to identify and prevent dental disorders and disease. Includes all services/procedures available to the dentist for evaluating existing conditions and determining any further dental care that may be required.										06.03
CLINICAL ORAL EXAMINATIONS											
	The purpose of oral examinations is to observe and record pertinent information, past and present, necessary to arrive at a diagnosis and treatment plan (when treatment is indicated). A treatment plan is a list of procedures or services the dentist proposes to perform on a dental patient based on the results of the examination and diagnosis. Often more than one treatment plan is presented. Oral examinations may require the integration of information that is acquired through additional diagnostic procedures, which should be reported separately. The oral examination, diagnosis, and treatment planning are the responsibility of the dentist. The collection and recording of some data and components of the oral examination may however be delegated. Oral examinations and consultations include the issuing of prescriptions where medication is required.										06.03
General Dental Practitioner											
Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8101	Oral examination	06.03	126.70 (111.10)								B
	An assessment performed on a patient to determine the patient's dental and medical health status involving an examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. This procedure is also used to report a periodic examination on an established patient to determine any changes in a patient's dental and medical health status since a previous periodic or comprehensive examination. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008).										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8102	Comprehensive oral examination	06.03	204.60 (179.50)								B
	An assessment performed on a new or established patient (patient of record) to determine the patient's dental and medical health status involving a comprehensive examination, diagnosis and treatment plan. It is a thorough assessment and recording of the patient's past and current state of oral health (extraoral and intraoral hard and soft tissues), risk for future dental disease as well as assessing general health factors that relate to the treatment of the patient. A comprehensive examination includes treatment planning at a separate appointment where a diagnosis is made with information acquired through study models, full-mouth x-rays and other relevant diagnostic aids. It includes, but is not limited to the evaluation and recording of dental caries, pulp vitality tests of the complete dentition, plaque index, missing and unerupted teeth, restorations, occlusal relationships, periodontal conditions (including a periodontal charting and bleeding index), hard and soft tissue anomalies (including the TMJ). The patient shall be provided with a written comprehensive treatment plan, which is a part of the patient's clinical record and the original should be retained by the dentist. No further oral examination fees shall be levied until the treatment plan resulting from this assessment is completed (See Rule 008)										
8104	Limited oral examination	06.03	61.40 (53.90)								B
	An assessment performed on a new or established patient (patient of record) involving an examination, diagnosis and treatment plan, limited to a specific oral health problem or complaint. This type of assessment is conducted on patients who present with a specific problem or during an emergency situation for the management of a critical dental condition (e.g., trauma and acute infections). It includes patients who have been referred for the management of a specific condition or treatment such as the removal of a tooth, a crown lengthening or isolated grafting procedure where there is no need for a comprehensive assessment. Comment: This code should not be reported on established patients who present with specific problems/emergencies which is part of and/or a result of the patients' current treatment plan, e.g., recementation/replacement of temporary restorations, pain relief during root canal treatment, etc.										
8189	Re-examination - existing condition	06.03	61.40 (53.90)								B
	An assessment performed on an established patient (patient of record) to assess the status of an untreated previously existing condition involving an examination and evaluation, limited to the previously existing condition. This type of assessment is conducted on patients (1) with a traumatic injury where no treatment was rendered but the patient needs follow-up monitoring; (2) requires evaluation for undiagnosed continuing pain after a limited oral examination and diagnostic tests did not reveal any findings; and (3) with soft tissue lesions such as a leukoplakia observed on a previous visit that require follow-up monitoring of pathological changes. Comment: (1) A re-examination is not a post-operative visit.										
8176	Periodontal screening	06.03	106.70 (93.60)								B
	Periodontal screenings include but are not limited to a periodontal charting of the complete dentition; plaque index and bleeding index. The findings should be recorded, is a part of the patient's clinical record and should be retained by the dentist.										
8190	Consultation - second opinion or advice	06.03	126.70 (111.10)								B

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
	A consultation is a diagnostic service rendered by a dentist, other than the practitioner providing treatment, whose opinion or advice for the purpose of determining the patient's dental needs and proposing treatment regarding a specific problem is requested. A consultation requires and includes a written report to the practitioner or patient who requested the consultation. It involves an examination, diagnosis and treatment proposal. The dentist may initiate further diagnostic or therapeutic services (oral examinations excluded). Comment: A referral is the transfer of the total or specific care of a patient from one dentist to another and does not constitute a consultation. When the consulting dentist assumes responsibility for the continuing care of the patient, any service rendered by him/her will cease to be a consultation, and an appropriate oral examination code should be reported. Code 8106 (special report) may not be reported in addition to this code										
Maxillo Facial Surgeon											
8901	Consultation - MFOS	04.00		161.40 (141.60)							S
8902	Consultation - MFOS (detailed)	06.03		422.50 (370.60)							S
	Detailed clinical examination, radiographic interpretation, diagnosis, treatment planning and case presentation. Code 8902 is a separate procedure from code 8901 and is applicable to craniomandibular disorders, implant placement and orthognathic and maxillofacial reconstruction.										
8840	Treatment planning for orthognathic surgery - ALL	06.03	364.50 (319.80)	546.90 (479.70)	546.90 (479.70)					+L	S
	In the case of treatment planning requiring the combined services of a Prosthodontist and/or Orthodontist and/or a Maxillo-Facial and Oral Surgeon, Modifier 8009 (75%) may be applied to the fee charged by each specialist.										
Orthodontist											
8801	Consultation - Orthodontist	04.00			161.40 (141.60)						A
8803	Consultation - Orthodontist (subsequent, retention and post treatment)	04.00			94.00 (82.50)						A
8837	Diagnosis and treatment planning - Orthodontist	04.00			75.00 (65.80)						A
Periodontist/Oral Medicine											
	Codes 8701, 8703, 8705 and 8707 cannot be charged at one and the same visit.									06.03	
8701	Consultation - periodontist	06.03				161.40 (141.60)					A
	A periodontal consultation comprises a reasonably detailed examination and presentation and explanation of the findings to enable the patient to make a decision as to future treatment.										
8703	Consultation - Periodontist (detailed)	06.03				422.50 (370.60)					A
	Detailed clinical examination, records, radiographic interpretation, probing, percussion, diagnosis, treatment planning and case presentation for periodontal and/or implant cases. Code 8703 is always a separate procedure from code 8701 and comprises inspection, percussion, probing and other diagnostic procedures and the systematic recording of every important feature in order to permit correct treatment planning.										
8705	Re-examination - Periodontist	04.00				126.30 (110.80)					A

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8707	Periodontal screening - Periodontist	06.03				126.30 (110.80)					A
	A periodontal screening consists of the measurement and recording of a plaque index, a bleeding index, probing depths, a periodontal disease index, a microbiological assay and/or gingival crevicular fluid assay.										
8781	Consultation - Oral medicine (simple)	06.03				126.30 (110.80)					S
	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain-dysfunction - Straight forward case										
8782	Consultation - Oral medicine (complex)	06.03				222.20 (194.90)					S
	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain dysfunction - Complex case										
8783	Consultation - Oral medicine (subsequent)	06.03				94.00 (82.50)					S
	Subsequent consultation for same disease/condition.										
Prosthodontist											
8501	Consultation - Prosthodontist	04.00					161.40 (141.60)				A
8507	Comprehensive consultation - Prosthodontist	06.03					259.20 (227.40)				A
	Examination, diagnosis and treatment planning.										
8506	Detailed consultation - Prosthodontist	06.03					422.50 (370.60)				A
	Detailed clinical examination, records, radiographic interpretation, diagnosis, treatment planning and case presentation. Code 8506 is a separate procedure from 8507 and is applicable to craniomandibular disorders, implant placement or orthognathic surgery where extensive restorative procedures will be required. Note (Applicable to prosthodontists only - SADA's Dental Coding): In the case of treatment planning requiring the combined services of a Prosthodontist and/or Orthodontist and/or a Maxillo-Facial and Oral Surgeon, Modifier 8009 (75%) may be applied to the fee charged by each specialist - See code 8840 for all other providers.										
Oral Pathologist											
9201	Consultation - oral pathologist	04.00						161.40 (141.60)			
9205	Consultation - oral pathologist (subsequent)	04.00						94.00 (82.50)			

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
RADIOGRAPHS/DIAGNOSTIC IMAGING											
	Diagnostic radiographs/diagnostic images include interpretation. Radiographs/diagnostic images should only be taken for clinical reasons as determined by the dentist and practitioners should comply with the Regulations concerning safe radiological practice and take the necessary precaution to minimise radiation of patients. Radiographs/diagnostic images are part of the patient's clinical record, should be of diagnostic quality, properly identified and dated. The dentist should retain the original images and only copies should be used to fulfil requests made by patients or third party funders. A complete series of intra-oral radiographs/images for diagnostic purposes is required once per treatment plan only. A second series may be required in exceptional cases e.g., following periodontal surgery. The same applies to panoramic films, where additional films may be required for follow-up/re-evaluation purposes. Diagnostic radiographs/diagnostic images preceding endodontic treatment, periodontal treatment, the surgical extraction of teeth or roots and fixed prostheses are fundamental to ethical clinical practice.										06.03
8107	Intraoral radiograph - periapical	06.03	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)				B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.										
8108	Intraoral radiographs - complete series	06.03	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)	397.00 (348.20)				B
	A complete series consists of a minimum of eight intraoral radiographs, periapical and or bitewing, occlusal radiographs excluded.										
8112	Intraoral radiograph - bitewing	06.03	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)	51.30 (45.00)				B
	Eight and more radiographs of any combination of Codes 8107 and 8112 taken on the same date of service for diagnostic purposes are considered to be a complete intraoral series (8108) and should be submitted as such.										
8113	Intraoral radiograph - occlusal	04.00	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)	88.30 (77.50)				B
8114	Extraoral radiograph - hand-wrist	06.03	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
	Use to report extraoral radiographs such as hand-wrist radiographs.										
8115	Extraoral radiograph - panoramic	04.00	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8116	Extraoral radiograph - cephalometric	05.02	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8118	Extraoral radiograph - skull/facial bone	05.02	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)	205.00 (179.80)				B
8121	Oral and/or facial image (digital/conventional)	06.03	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)				B
	This includes traditional photographs and digital intra- or extraoral images obtained by intraoral cameras. These images should only be reported when taken for clinical/diagnostic reasons and shall be retained as part of the patient's clinical record. Excludes conventional radiographs.										
OTHER DIAGNOSTIC PROCEDURES											
8117	Diagnostic models	06.03	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)	55.10 (48.30)			+L	B
	Also known as study models or diagnostic casts. Models used to aid diagnosis and treatment planning. Diagnostic models should be retained as part of the patient's clinical record and may only be used for diagnostic purposes. Includes diagnostic models mounted on a hinge articulator.										
8119	Diagnostic models mounted	06.03	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)	138.60 (121.60)			+L	B
	See code 8117. Report this code when models are mounted on a movable condyle articulator.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8122	Microbiological studies	06.03									B
	Studies performed to determine pathological agents. May include, but is not limited to tests for susceptibility to periodontal disease. Report per visit. A perio risk assessment report must be made available at no cost when requested.										
8123	Caries susceptibility tests (By Arrangement)	06.03	57.30 (50.20)								B
	A caries susceptibility test is a diagnostic test for determining a patient's saliva pH with a litmus strip to evaluate the patient's propensity for caries. This code should not be used for a caries detectability test (cariou dentine staining), which is performed to determine if all the caries has been removed. A caries risk assessment report must be made available at no cost when requested.										
8124	Pulp tests	06.03	15.10 (13.30)								
	Diagnostic tests to determine clinical pulp vitality and/or abnormality. Includes traditional pulp testing methods such as thermal and electronic pulp testing as well as the use of optical devices to detect the blood supply of the pulp. The tests involve multiple teeth and contra-lateral comparison(s), as indicated. Report per visit.										
8503	Occlusion analysis mounted	04.00	172.70 (151.50)				259.20 (227.40)				A
8505	Pantographic recording	04.00	250.70 (219.90)				376.00 (329.80)				A
8508	Electrognathographic recording	04.00	268.40 (235.40)				402.60 (353.20)				A
8509	Electrognathographic recording with computer analysis	04.00	445.60 (390.90)				668.40 (586.30)				A
8811	Tracing and analysis of extra-oral film	04.00	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)	23.80 (20.90)				B
8839	Diagnostic setup (orthodontics)	04.00	105.80 (92.80)		158.60 (139.10)						A
B.	PREVENTIVE SERVICES										
	Services/procedures intended to eliminate or reduce the need for future dental treatment.									06.03	
DENTAL PROPHYLAXIS											
8155	Polishing - complete dentition	06.03	77.80 (68.20)			107.20 (94.10)	77.80 (68.20)				B
	A polishing involves the removal of stains and plaque from the clinical crowns of natural teeth, and making the surface smooth and glossy, to help minimise the loss of enamel and decrease the possibility of damage to restorations. Includes the complete primary, transitional or permanent dentition. This code should not be used concurrent with codes 8159 or 8160. See code 8157 in the restorative section for the re-burnishing and polishing of restorations.										
8159	Prophylaxis - complete dentition	06.03	152.90 (134.10)			215.60 (189.10)	152.90 (134.10)				B
	A prophylaxis involves a series of procedures whereby calculus, stain, and other accretions are removed from the clinical crowns of teeth. A prophylaxis includes, but is not limited to a scaling and polishing of the complete primary, transitional or permanent dentition. Code 8159 should not be used concurrent with code 8155 or 8160.										
8160	Removal of gross calculus	06.03									B
	This procedure is used when profuse bleeding prevents immediate polishing. May not be used concurrent with any other prophylactic procedure on the same day.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M	P	Lab	T	C
8179	Polishing - complete dentition (periodontally compromised patient)	06.03	89.30 (78.30)										B
	A periodontally compromised patient is defined as a patient presenting with either chronic adult periodontitis, juvenile periodontitis or rapidly progressive periodontitis, confirmed by a CPITN index of 3 or 4. The diagnosis is made with information acquired from at least a periodontal screening (code 8176) and CPITN index, or a comprehensive oral evaluation (code 8102). This diagnosis must be reviewed within a period of three years by means of a periodontal screening (code 8176).												
8180	Prophylaxis - complete dentition (periodontally compromised patient)	06.03	166.10 (145.70)										B
	Comment: See code 8177 descriptor; Include codes 8155 (Polishing – complete dentition), 8159 (Prophylaxis – complete dentition) and 8179 (Plaque removal – periodontal compromised pst). Code 8180 should not be used concurrent with codes 8179.												
TOPICAL FLUORIDE TREATMENT													
	Topical fluoride treatment procedures involve the professionally application of topical fluoride within the dental office. Excludes fluoride application as part of prophylaxis paste, fluoride rinses or "swish." For application of desensitising medicaments, see codes 8166 and 8167 in the supplementary section.												06.03
8161	Topical application of fluoride - child	06.03	77.80 (68.20)			77.80 (68.20)	77.80 (68.20)						B
	To be used for treatment of complete dentition to prevent dental decay. Report code 8167 in the miscellaneous section when fluoride is used as desensitising medicament. Should not be used concurrent with code 8167. A patient is defined as an adult beginning at age 12.												
8162	Topical application of fluoride - adult	06.03	77.80 (68.20)			77.80 (68.20)	77.80 (68.20)						B
	See code 8161.												
SPACE MAINTENANCE (PASSIVE APPLIANCES)													
	Passive appliances are designed to prevent tooth movement.												06.03
8173	Space maintainer - fixed, per abutment	05.02	144.40 (126.70)								T	+L	B
8175	Space maintainer - removable	04.00	186.10 (163.30)									+L	B
OTHER PREVENTIVE PROCEDURES													
8149	Nutritional counselling	06.03											B
	Involves a dietary habit and food selection analysis, and providing of advice and guidance to the patient and/or patient's family on dietary habits and food selection as part of treatment and control of dental decay and periodontal disease. Comment: (1) The need for nutritional counselling must be confirmed by a caries/perio risk assessment (See also codes 8122 and 8123). (2) A dietary habit analysis and food selection programme must, on request, be made available at no charge. (3) Certain funders do not provide benefits for nutritional counselling for the control of dental disease.												

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8150	Tobacco counselling	06.03									B
	Involves the providing of advice, guidance and support services to the patient on tobacco cessation to prevent and control the development of tobacco related oral diseases and conditions and improve prognosis for certain dental treatments. Limitation: (1) The need for tobacco counselling must be confirmed by a caries/perio risk assessment (See also codes 8122 and 8123). (2) If requested, a tobacco prevention and cessation services programme must be made available at no charge. (3) Treatment should be reserved for those persons who are not able to quite using tobacco by using basic intervention methods. Persons are only eligible for this treatment if a documented quit date has been established. Tobacco cessation is limited to 10 services. (4) Certain funders do not provide benefits for tobacco cessation treatment interventions.										
8151	Oral hygiene instruction	06.03	77.80 (68.20)			155.70 (136.60)	155.70 (136.60)				B
	The dental knowledge of the patient/parent to prevent oral diseases should be evaluated before oral hygiene instructions is provided e.g., do they know what is dental plaque, how can it be removed, what is fluoride, how does fluoride work to prevent dental caries, how can fluoride be used and what is a dental sealant. An oral hygiene instruction may include, but is not limited to: Plaque control information, e.g. instruction pamphlets or leaflets; Dietary instructions; Explanation and demonstration of plaque control (brushing and flossing); Self-practice session in the mouth under professional supervision; Use of special aids such as disclosing agents; and Scoring of plaque levels (plaque index). The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction. Oral hygiene instructions to a child should take place in the presence of a parent and/or guardian.										
8153	Oral hygiene instruction - each additional visit	06.03	57.00 (50.00)			75.00 (65.80)	75.00 (65.80)				B
	Report code 8153 when additional oral hygiene instructions is required as part of the treatment plan. No other preventive services may be reported at the same visit. See code 8151										
8163	Dental sealant	06.03	51.30 (45.00)				51.30 (45.00)		T		B
	Also known as pit-and fissure sealant. This procedure involves the mechanical and/or chemical preparation of an occlusal enamel surface and placement of a material to seal decay-prone pits, fissures, and grooves of a tooth. A preventive resin restoration is distinguished from a sealant in that in a restorative the decay penetrates into dentin. If the caries is limited to the enamel, it is still considered a sealant. Limitation: Certain funders limit benefits for sealants to two teeth per quadrant.										
8169	Occlusal guard	06.03	299.00 (262.30)							+L	B
	A removable intraoral appliance that is designed to cover the occlusal and incisal surfaces of the teeth of a dental arch to minimise the effects of bruxism (grinding) and other occlusal factors.										
8171	Mouth guard	06.03	90.50 (79.40)							+L	B
	A flexible intraoral appliance that is worn during participation in contact sports to reduce the potential for injury to the teeth and associated tissue. Limitation: Benefit by arrangement.										

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	C
8177	Oral hygiene instruction (periodontally compromised patient)	06.03	117.80 (103.30)								E
	A periodontally compromised patient is defined as a patient presenting with either chronic adult periodontitis, juvenile periodontitis or rapidly progressive periodontitis, confirmed by a CPITN index of 3 or 4. The diagnosis is made with information acquired from at least a periodontal screening (code 8176) and CPITN index, or a comprehensive oral evaluation (code 8102). This diagnosis must be reviewed within a period of three years by means of a periodontal screening (code 8176). Comment: The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction. Includes code 8151 (Oral hygiene instructions)										
8178	Oral hygiene instruction - each additional visit (periodontally compromised patient)	06.03	63.60 (55.80)								B
	See code 8177.										
C.	RESTORATIVE SERVICES										
	The branch of dentistry that deals with the reconstruction of the hard tissues of a tooth or group of teeth, injured or destroyed by trauma or disease. Restorative services/procedures intend to restore the function of a natural tooth. Anterior teeth include incisors and canines. Posterior teeth include premolars and molars. The number of tooth surfaces restored, i.e. mesial, occlusal (or incisal), distal, lingual, or vestibular (buccal or labial), is used to determine the appropriate procedure code. A one surface restoration for example, involves only one of the surfaces, while a two-surface restoration extends to two of the five surfaces. With a four-or-more-surfaces anterior restoration involving four tooth surfaces and the incisal angle is involved. Limitations on amalgam and resin-based composite restorations: (1) The reporting of two separate restorations of the same material (e.g., a MO and DO amalgam restoration) on the same tooth is appropriate. Some medical schemes however, have a clause in its dental plan(s) that restricts coverage of the same tooth surface, such as an occlusal, twice on the same day and may require the reporting of a MOD restoration instead of a separate MO and DO restoration. (2) The current NHRPL rates include direct pulp capping (code 8301) and rubber dam application (code 8304).										06.03
AMALGAM RESTORATIONS											
	All adhesives, liners, bases and polishing are included as part of the restoration. If pins are used, they should be reported separately. See codes 8345, 8347 and 8348 for post and/or pin retention.										06.03
8341	Amalgam - one surface	04.00	154.80 (135.80)						T		B
8342	Amalgam - two surfaces	04.00	190.80 (167.40)						T		B
8343	Amalgam - three surfaces	04.00	232.60 (204.00)						T		B
8344	Amalgam - four or more surfaces	04.00	259.20 (227.40)						T		B
RESIN-BASED COMPOSITE RESTORATIONS											
	Resin restorations refer to a broad category of materials including but not limited to composites. Report these codes when glass ionomers/compomers are used as restorations. The procedures include acid etching, adhesives (including resin bonding agents) and curing part of the restoration. Resin restorations utilise the direct technique. For the indirect technique, see "Resin inlays/onlays" If pins are used, they should be reported in addition to these codes - See codes 8345, 8347 and 8348 for post and/or pin retention.										06.03
8350	Resin crown - anterior primary tooth (direct)	06.03	337.70 (296.20)						T		B
	This procedure involves the full coverage of an anterior primary tooth with a resin based material.										
8351	Resin - one surface, anterior	04.00	169.90 (149.00)						T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodontic s	Oral Pathology	M P	Lab	T C
8352	Resin - two surfaces, anterior	04.00	213.70 (187.40)						T		B
8353	Resin - three surfaces, anterior	04.00	255.40 (224.00)						T		B
8354	Resin - four or more surfaces, anterior	06.03	284.90 (249.90)						T		B
	Use to report the involvement of four or more surfaces or the incisal line angle. The Incisal line angle is the junction of the incisal and the mesial or distal surface of an anterior tooth.										
8367	Resin - one surface, posterior	06.03	184.20 (161.60)						T		B
	This is not a preventative procedure and should only be used to restore a carious lesion or a deeply eroded area into a natural tooth. See also code 8163 - sealant.										
8368	Resin - two surfaces, posterior	04.00	227.90 (199.90)						T		B
8369	Resin - three surfaces, posterior	04.00	275.40 (241.60)						T		B
8370	Resin - four or more surfaces, posterior	04.00	296.20 (259.80)						T		B
GOLD FOIL RESTORATIONS											
8561	Gold foil class I or IV	04.00	450.70 (395.40)				676.00 (593.00)		T		A
8563	Gold foil class V	04.00	527.30 (462.50)				790.90 (693.80)		T		A
8565	Gold foil class III	04.00	663.30 (581.80)				995.00 (872.80)		T		A
INLAY/ONLAY RESTORATIONS											
	Temporary and/or intermediate inlays/onlays, the removal thereof and cementing of the permanent restoration are included as part of the restoration. The cusp tip must be overlaid to be considered an onlay.										06.03
Metal Inlays/Onlays											
	Use these codes for single metal inlay/onlay restorations. See the Fixed Prosthodontic Service section for metal inlay/only bridge retainers. Metal components include structures manufactured by means of conventional casting and/or electroforming. The benefits provided by some medical schemes for metal inlays on anterior teeth (incisors and canines) may be subject to pre-authorisation.										06.03
8361	Inlay - metal - one surface	04.00	236.40 (207.30)				466.20 (409.00)		T	+L	A
8362	Inlay/onlay - metal - two surfaces	04.00	345.60 (303.20)				676.00 (593.00)		T	+L	A
8363	Inlay/onlay - metal - three surfaces	04.00	576.30 (505.50)				1048.20 (919.50)		T	+L	A
8364	Inlay/onlay - metal - four or more surfaces	04.00	696.90 (611.30)				1048.20 (919.50)		T	+L	A

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
Porcelain/Ceramic Inlays/Onlays											
	Use these codes for single porcelain/ceramic inlay/onlay restorations. See the Fixed Prosthodontic Service section for porcelain/ceramic inlay/only bridge retainers. Porcelain/ceramic inlays/onlays include all indirect ceramic, porcelain and polymer-reinforced porcelain type inlays/onlays. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. TO BE CONFIRMED: When computer generated (CAD-CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration.										06.03
8371	Inlay - porcelain - one surface	05.02	284.90 (249.90)				563.10 (493.90)		T	(+L)	A
8372	Inlay/onlay - porcelain - two surfaces	05.02	420.60 (368.90)				810.90 (711.30)		T	(+L)	A
8373	Inlay/onlay - porcelain - three surfaces	05.02	693.10 (608.00)				1260.00 (1105.30)		T	(+L)	A
8374	Inlay/onlay - porcelain - four or more surfaces	05.02	839.40 (736.30)				1260.00 (1105.30)		T	(+L)	A
8560	Cost of ceramic block	06.03	-				-		T		A
	Applicable to computer generated prosthesis only. See Rule 002 and Modifier 8025.										
8570	Fabrication of computer generated ceramic restoration	06.03							A		
	This procedure involves the fabrication of a computer generated (CAD-CAM) ceramic restoration by the dental practitioner. Report code 8560 for the cost of the ceramic block in addition to this procedure.										
Resin-based Inlays/Onlays											
	Resin based inlays/onlays usually utilise the indirect technique. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. When the direct technique is used, laboratory costs do not apply. An additional fee may be levied by reporting Modifier 8023 in addition to these codes.										06.03
8381	Inlay - resin - one surface	05.02	284.90 (249.90)				563.10 (493.90)		T	(+L)	A
8382	Inlay/onlay - resin - two surfaces	05.02	420.60 (368.90)				810.90 (711.30)		T	(+L)	A
8383	Inlay/onlay - resin - three surfaces	05.02	693.10 (608.00)				1260.00 (1105.30)		T	(+L)	A
8384	Inlay/onlay - resin - four or more surfaces	05.02	839.40 (736.30)				1260.00 (1105.30)		T	(+L)	A
CROWNS – SINGLE RESTORATIONS											
	Use these codes for single crown restorations. See the Fixed Prosthodontic Service section for crown bridge retainers and the Implant Services section for crowns on osseo-integrated implants. Porcelain/ceramic crowns include all ceramic, porcelain and porcelain fused to metal crowns. Resin crowns and resin metal crowns include all reinforced heat and/or pressure-cured resin materials. Metal components include structures manufactured by means of conventional casting and/or electroforming. Temporary and/or intermediate crowns, the removal thereof (provisional crowns included) and cementing of the permanent restorations are included as part of the restorations. TO BE CONFIRMED: When computer generated (CAD-CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration.										06.03
8401	Crown - full cast metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8403	Crown - 3/4 cast metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8404	Crown - 3/4 porcelain/ceramic	05.02	839.30 (736.20)				1260.00 (1105.30)		T	+L	A

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8405	Crown - resin laboratory	06.03	839.30 (736.20)				1260.00 (1105.30)		T	+L	A
	Refers to all resin-based crowns that are indirectly fabricated. All fiber, porcelain or ceramic reinforced polymer materials/systems are considered resin-based crowns. Targis®/Vectris® crowns should be reported as resin crowns.										
8407	Crown - resin with metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8409	Crown - porcelain/ceramic	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8411	Crown - porcelain with metal	04.00	888.70 (779.60)				1308.40 (1147.70)		T	+L	A
8410	Provisional crown	06.03	172.70 (151.50)			172.70 (151.50)	259.20 (227.40)		T	(+L)	A
	The intended use of a provisional crown is to allow adequate time (of at least six weeks duration) for healing or completion of other procedures during restorative treatment and should not to be used as a temporary prosthesis. Comment: Code 8410 excludes provisional pontics (code 8425) and provisional crown retainers (code 8447), which are listed in the Fixed Prosthodontics Section.										
VENEERS											
8355	Veneer - resin (chair-side)	06.03	269.70 (236.60)				269.70 (236.60)		T		B
	Involves direct layering of material over tooth. No laboratory processing.										
8552	Veneer - porcelain (laboratory)	06.03	596.80 (523.50)				895.30 (785.40)		T	+L	A
	Involves an impression being taken and laboratory processing. Porcelain/ceramic veneers presently include all ceramic, porcelain, and polymer-reinforced porcelain veneers.										
8554	Veneer - resin (laboratory)	06.03	596.80 (523.50)				895.30 (785.40)		T	+L	A
	Involves an impression being taken and laboratory processing.										
TEMPORARY RESTORATIONS											
8137	Emergency crown (chair-side)	06.03	266.80 (234.00)				266.80 (234.00)		T	(+L)	A
	A temporary crown, usually made of resin and in the surgery, which is fitted over a damaged tooth for the immediate protection in tooth injury. Includes emergency crowns manufactured for the replacement of previously fitted, lost or damaged permanent crowns. Comment: This code should not be used as an interim restoration during restorative treatment and should not be reported on the same day on which an impression is taken to replace a previously fitted lost or damaged permanent crown.										
8357	Prefabricated metal crown	06.03	158.60 (139.10)				158.60 (139.10)		T		B
	Includes all preformed metal crowns e.g. stainless steel, nickel-chrome and gold anodised crowns, with or without resin window.										
8375	Prefabricated resin crown	06.03	158.60 (139.10)				158.60 (139.10)		T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Includes all preformed non-metal, non-strip- off crown forms e.g., resin and polycarbonate crowns.										
OTHER RESTORATIVE PROCEDURES											
Pin Retention and Cores											
8345	Prefabricated post retention, per post (in addition to restoration)	06.03	152.90 (134.10)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups) Remuneration excludes cost of posts – See code 8379										
8347	Pin retention - first pin (in addition to restoration)	06.03	76.90 (67.40)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups).										
8348	Pin retention - each additional pin (in addition to restoration)	06.03	71.20 (62.40)						T		B
	Should not be used with codes 8398 or 8376 (Core build-ups). Limitation: A maximum of two additional pins may be levied.										
8366	Pin retention as part of cast restoration (any number of pins)	05.02	114.90 (100.80)				155.70 (136.60)		T	+L	A
8376	Core build-up with prefabricated posts	06.03	423.40 (371.40)				423.40 (371.40)		T		B
	The direct build-up of a mutilated crown around a prefabricated post to provide a rigid base for retention of a crown restoration. This procedure includes posts and core material. Remuneration excludes cost of posts – See code 8379.										
8379	Cost of prefabricated posts	06.03	-				-		T		A
	Applicable to pre-fabricated noble metal, ceramic, iridium and titanium posts – see code 8345 and 8376. Comment: See Rule 002 and Modifier 8025 for direct material costs.										
8391	Cast core with single post	06.03	178.60 (156.60)						T	+L	A
	Report in addition to crown.										
8392	Cast post (each additional)	06.03	106.30 (93.20)						T	+L	A
	To be used with 8391 for each additional cast posts on the same tooth.										
8397	Cast core with pins (any number of pins)	06.03	284.90 (249.90)				370.30 (324.90)		T	+L	A
	The cast core with pins is intended to be used on grossly broken down vital teeth. Report in addition to crown.										
8398	Core build-up with or without pins	06.03	345.60 (303.20)				345.60 (303.20)		T		B
	The direct build-up of a mutilated crown to provide a rigid base for retention of a crown restoration irrespective of the number of pins used. This code should not be reported when the procedure only involves a filler to eliminate any undercut, concave irregularity in the preparation, etc.										
8581	Cast core with single post	06.03					263.90 (231.50)		T	+L	A
	See also GDP code 8391										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8582	Cast core with double post	06.03					376.00 (329.80)		T	+L	A
	See also GDP code 8392										
8583	Cast core with triple post	06.03					466.20 (409.00)		T	+L	A
	See also GDP code 8392										
Unclassified Restorative Procedures											
8133	Recement inlay, onlay, crown or veneer	06.03	77.80 (68.20)				98.70 (86.60)		T	+L	B
	Use to report the recementation of a permanent single inlay, onlay, crown or veneer. See code 8514 in the Fixed Prosthodontic Section for the recementation of a bridge retainer. Comment: This code may not be used for the recementation of temporary or provisional restorations, which is included as part of the restoration.										
8135	Remove inlay, onlay or crown	06.03	154.80 (135.80)				154.80 (135.80)		T	+L	A
	This procedure involves the removal of a permanent inlay, onlay or crown. Report code 8516 for the removal of a permanent bridge retainer. Comment: This code may not be used for the removal of temporary or provisional restorations, which is included as part of the restoration.										
8138	Remove retention post (prefabricated or cast)	06.03	101.60 (89.10)						T		B
	This procedure involves the removal of an intact prefabricated and/or cast posts intended for retention purposes. Report per post. See code 8330 in the "Endodontic Section" for the removal of endodontic posts or instruments.										
8146	Resin bonding for restorations	06.03							T		A
	Applicable to any metal restorations, crowns or conventional bridges, per abutment except Maryland type bridges. Limitation: Benefits by arrangement.										
8157	Re-burnishing and polishing of restorations - complete dentition	06.03	77.80 (68.20)								B
	Not applicable to restorations recently done.										
8349	Carve restoration to accommodate existing removable prosthesis	04.00	31.30 (27.50)						T		B
8413	Repair crown (permanent or provisional)	06.03	172.70 (151.50)				172.70 (151.50)		T	+L	A
	This procedure involves the repair of a permanent crown (e.g. facing replacement). Excludes the removal (8153) and recementation (8133) of the crown. See code 8518 in the Fixed Prosthodontic Section for the repair of a bridge. This code may also be reported for the repair/replacement of a provisional crown (8410) after a period of two months. This code may not be used for the repair/replacement of a temporary restorations, which is included as part of the restoration.										
8414	Additional fee for provision of crown within an existing clasp or rest	04.00	51.30 (45.00)						T	+L	A
D. ENDODONTIC SERVICES											
	Services/procedures intended to treat diseases of the dental pulp and their sequelae.										06.03
PULP CAPPING											
	These codes should not be used as a base or liner under a restoration. Certain funders (medical aids) may restrict the placement of the final restoration during the same visit.										06.03

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8301	Pulp cap - direct	06.03	103.50 (90.80)						T		B
	This procedure involves the covering of the exposed dental pulp with a protective material to stimulate repair of the injured pulpal tissue. Excludes the final restoration.										
8303	Pulp cap - indirect	06.03	103.50 (90.80)						T		B
	This procedure involves the covering of the nearly exposed pulp with a protective material to protect it from external irritants and to promote healing. Excludes the final restoration.										
PULPOTOMY											
8307	Pulp amputation (pulpotomy)	06.03	101.60 (89.10)						T		B
	This procedure involves the removal of a portion of the tooth's pulp and the placement of a medicament to fix or modify the superficial pulp tissue. Excludes the final restoration. This code should not be used as the first stage of root canal therapy and may not be reported with other root canal therapy codes on the same tooth. Report code 8304 (application of a rubber dam) in addition to this code.										
8132	Pulp removal (pulpectomy)	06.03	127.20 (111.60)						T		B
	This procedure involves the removal of the complete pulp from the pulp chamber and root canal(s) for the relief of acute pain prior to root canal therapy. The code is intended to be used for the emergency treatment of acute pain and should not be reported as the first stage of scheduled endodontic treatment. The practitioner reappoints the patient for complete root canal therapy at a later date. Report code 8304 (application of a rubber dam) in addition to this code.										
ENDODONTIC THERAPY											
	Includes endodontic therapy on primary teeth. Does not include diagnostic evaluation and necessary radiographs/ diagnostic images. Limitation: Intra-operative radiographs/ diagnostic images are limited to three on a single canal tooth and five on a multi-canal tooth for each completed endodontic therapy. Report code 8304 (application of a rubber dam) in addition to these codes.								06.03		
Preparatory Visits											
8332	Root canal preparatory visit - single canal tooth	06.03	77.80 (68.20)						T		B
	Limitation: A maximum of four visits per tooth may be charged.										
8333	Root canal preparatory visit - multi canal tooth	06.03	109.10 (95.70)						T		B
	Limitation: A maximum of four visits per tooth may be charged.										
Obturation of Canals											
	Codes 8328, 8335, 8336 and 8337 (obturation of root canals at a subsequent visit) are intended to be used in conjunction with codes 8332, 8333 and 8334 (endodontic preparatory visits and re-preparation of previously obturated canal).								06.03		
8335	Root canal obturation - anteriors and premolars - first canal	04.00	353.20 (309.80)						T		B
8328	Root canal obturation - anteriors and premolars - each additional canal	04.00	144.40 (126.70)						T		B
8336	Root canal obturation - posteriors - first canal	04.00	486.10 (426.40)						T		B

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
8337	Root canal obturation - posteriors - each additional canal	04.00	144.40 (126.70)						T		B
Complete Therapy											
	Codes 8329, 8338, 8339 and 8340 (endodontic treatment completed at a single visit) may not be used with codes 8332, 8333 and 8334 (endodontic preparatory visits and re-preparation of previously obturated canal).										06.03
8338	Root canal therapy - anteriors and premolars - first canal	04.00	540.30 (473.90)						T		B
8329	Root canal therapy - anteriors and premolars - each additional canal	04.00	180.40 (158.30)						T		B
8339	Root canal therapy - posteriors - first canal	04.00	742.40 (651.30)						T		B
8340	Root canal therapy - posteriors - each additional canal	04.00	180.40 (158.30)						T		B
8631	Root canal therapy - first canal	06.03					917.20 (804.60)		T		B
	Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
8633	Root canal therapy - each additional canal	06.03					230.70 (202.40)		T		B
	Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
ENDODONTIC RETREATMENT											
8334	Re-preparation of previously obturated root canal	06.03	114.90 (100.80)				138.60 (121.60)		T		B
	This procedure includes the removal of old root canal filling material and the procedures necessary to prepare the canals to place the canal filling. Report 8334 per canal. See codes 8328, 8335, 8336 and 8337 for the obturation of root canals. This procedure excludes the removal of retentions posts (code 8138) and/or endodontic posts (code 8330). Report code 8304 (application of a rubber dam) in addition to this code. Note (Applicable to prosthodontist only): Procedure codes 8631, 8633 and 8334 include all X-rays and repeat visits.										
APEXIFICATION/RECALCIFICATION PROCEDURES											
8635	Apexification/recalcification – per visit	06.03	103.50 (90.80)				152.90 (134.10)		T		S
	Apexification is the process of induced root development or apical closure of the root by hard tissue deposition. This code should also be used to report the repair of perforations and root resorbion. Exclude the necessary radiographs. The first visit involves the opening of the tooth, pulpectomy, preparation of canal spaces, and the first placement of medication. This is followed by several visists to replace the intra-canal medication. The final visit includes the removal of the intra-canal medication and procedures necessary to place final root canal filling material. Code 8635 may not be reported with other root canal therapy codes on the same tooth. Report code 8304 (application of a rubber dam) in addition to this code.										
PERIRADICULAR PROCEDURES											
9015	Apicectomy - anteriors (including retrograde filling)	06.03	383.60 (336.50)	508.90 (446.40)		508.90 (446.40)	508.90 (446.40)		T		S

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Note applicable to periodontists only (according to SADA's Dental Coding): When Code 9015 is part of a flap operation that requires an apicectomy, Modifier 8006 applies.										
9016	Apicectomy - posteriors (including retrograde filling)	06.03	676.70 (593.60)	1015.00 (890.40)		1015.00 (890.40)	1015.00 (890.40)		T		S
	Note applicable to periodontists only (according to SADA's Dental Coding): When Code 9016 is part of a flap operation that requires an apicectomy, Modifier 8006 applies.										
OTHER ENDODONTIC PROCEDURES											
8330	Removal of root canal obstruction	06.03	101.60 (89.10)						T		B
	This procedure involves the treatment of a non-negotiable root canal blocked by foreign bodies (e.g., removal and/or bypassing of a fractured instrument) or calcification of 50% or more of a root to achieve an apical seal and forego surgical treatment – Report per canal. See code 8138 (Post removal) in the Restorative Section for the removal of retention posts. This code may be submitted by the servicing provider and on the same day as a root canal therapy if the obstruction is not iatrogenic by that provider.										
8136	Access through a prosthetic crown or inlay to facilitate root canal treatment	04.00	69.30 (60.80)						T		B
8640	Removal of fractured post or instrument from root canal	06.03					269.70 (236.60)		T		B
	See also GDP Code 8330.										
8765	Hemisection of a tooth, resection of a root or tunnel preparation (isolated procedure)	06.03	339.30 (297.60)			508.90 (446.40)	508.90 (446.40)		T		A
	Includes separation of a multirooted tooth into separate sections containing the root and overlying portion of the crown. It may also include the removal of one or more of those sections.										
E. PERIODONTIC SERVICES											
	The branch of dentistry used to treat and prevent disease affecting the gingivae, ligaments and bone that supports the teeth.									06.03	
SURGICAL SERVICES											
	Surgical services includes usual postoperative care.									06.03	
8741	Gingivectomy/gingivoplasty - four or more teeth per quadrant	06.03	406.40 (356.50)			557.40 (489.00)			Q		A
	A gingivectomy involves the surgical excision of unsupported gingival tissue to the level where it is attached, creating a new gingival margin apical in position of the old. A gingivoplasty involves the surgical contouring of the gingival tissues to secure the physiological architectural form necessary for the maintenance of tissue health and integrity. Edentulous areas are not counted as teeth. When this periodontal procedure extends over the midline, report a combination of procedure codes 8741 and 8743, as appropriate.										
8743	Gingivectomy or gingivoplasty - one to three teeth per quadrant	06.03	324.70 (284.80)			442.50 (388.10)			Q		A
	See code 8741 for descriptor										
8749	Flap procedure, root planing and one to three surgical services - per quadrant	06.03	843.70 (740.10)			1265.70 (1110.20)			Q		A

Code	Description	Ver	General Dental Practice	Maxillo- facial and Oral Surgery	Orthodontic s	Oral Medicine and Periodontics	Prosthodont ics	Oral Pathology	M P	Lab	T C
	Flap operation with root planing and curettage and which may include not more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant. NOTES: 1. Each root resection, tooth hemisection, muco-gingival procedure, wedge resection and clinical crown lengthening shall be deemed to be one procedure. 2. Where a bone regeneration/repair procedure is included within a flap operation, Item 8766 shall apply in addition to the item for the flap operation. 3. Where an apicectomy is included within a flap operation, either Code 9015 or Code 9016 with Modifier 8006 shall apply in addition to the item for the flap operation.										
8751	Flap procedure, root planing and one to three surgical services - per sextant	06.03	698.80 (613.00)			1048.20 (919.50)			S		A
	See code 8749, per sextant.										
8753	Flap procedure, root planing and four or more surgical services - per quadrant	06.03	1045.80 (917.40)			1568.60 (1376.00)			Q		A
	Flap operation with root planing and curettage and will include more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant. NOTES: 1. Each root resection, tooth hemisection, muco-gingival procedure, wedge resection and clinical crown lengthening shall be deemed to be one procedure. 2. Where a bone regeneration/repair procedure is included within a flap operation, Item 8766 shall apply in addition to the item for the flap operation. 3. Where an apicectomy is included within a flap operation, either Code 9015 or Code 9016 with Modifier 8006 shall apply in addition to the item for the flap operation.										
8755	Flap procedure, root planing and four or more surgical services - per sextant	06.03	847.50 (743.40)			1271.40 (1115.20)			S		A
	See code 8753, per sextant.										
8756	Clinical crown lengthening (isolated procedure)	06.03	513.90 (450.80)			770.90 (676.30)			T		A
	A surgical procedure designed to increase the amount of tooth structure projecting into the mouth to facilitate a reconstructive or operative procedure. The procedure involves the reflection of a flap and the removal of marginal bone and gingival tissues.										
8759	Pedicle flapped graft (isolated procedure)	06.03	386.20 (338.70)			579.20 (508.00)			M		A
	E.g. lateral sliding double papilla, rotated and similar.										
8761	Masticatory mucosal autograft - one to four teeth (isolated procedure)	05.02	419.60 (368.10)	629.50 (552.20)		629.50 (552.20)			M	+L	A
8762	Masticatory mucosal autograft - four or more teeth (isolated procedure)	05.02	630.50 (553.10)	945.70 (829.60)		945.70 (829.60)			M	+L	A
8763	Wedge resection (isolated procedure)	06.03	246.90 (216.60)			370.30 (324.90)			Q		A
	A surgical procedure that involves the removal of a wedge of tissue. This is normally done in an edentulous area, distal of the last molar of the maxilla or mandible, to result in minimal probing depth of the adjacent tooth. Do not use for a biopsy.										

Code	Description	Ver	General Dental Practice	Maxillo-facial and Oral Surgery	Orthodontics	Oral Medicine and Periodontics	Prosthodontics	Oral Pathology	M P	Lab	T C
8766	Bone regeneration/repair procedure - as part of a flap operation	06.03	201.90 (177.10)			302.90 (265.70)					A
	See code 8749, 8751, 8753 and 8755, per procedure. Excluding cost of regenerative material - See code 8770										
8767	Bone regeneration/repair procedure - at a single site	06.03	523.50 (459.20)	785.30 (688.80)		785.30 (688.80)					A

HEARING AID ACOUSTICIANS

Hearing Aid Acousticians 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY HEARING AID ACOUSTICIANS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

003	The fee in respect of more than one evaluation shall be the full fee for the first evaluation plus half the fee in respect of each additional evaluation, but under no circumstances may fees be charged for more than three evaluations carried out.	04.00
004	Each practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars : · The practice code number of the supplier of service · The name of the collaborating medical practitioner or audiologist. · The name of the member. · The name of the patient. · The name of the medical scheme. · The membership number of the member. · The nature of the treatment. · The date on which the service was rendered. · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.	04.00
005	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00

HOMOEOPATHY

Homoeopaths 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY HOMOEOPATHS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

1	All accounts must be presented with the following information clearly stated: · name of homoeopath; · qualifications of the homoeopath; · BHF practice number; · postal address and telephone number; · date on which service(s) were provided; · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered; · the nature of treatment; · the surname and initials of the member; · the first name of the patient; · the name of the scheme; · the membership number of the member; · where the account is a photocopy of the original, certification by way of a rubberstamp or the signature of the homoeopath; and · a statement of whether the account is in accordance with the National Reference Price List.	04.00
2	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00

Definition: Consultations

	Consultation: A situation where a Homoeopathic Practitioner takes down a patient's full history and (where applicable) performs an appropriate examination, and repertorisation of the case and study of Materia Medica and/or prescribes or administers treatment and/or medicine or assists the patient with advice. (The method of repertorisation and selection of medicine is determined by the practitioner). or A voluntary scheduled consultation for the same condition within four (4) months (although the symptoms may differ from those presented during the first consultation). It may imply taking down a history and/or repertorisation of the case and study of Materia Medica and/or examination and/or prescribing or administering of treatment and/or medicine and/or counselling. Multiple complaints attended to during same visit: Only one consultation fee is chargeable although the patient may present with a number of complaints. If the patient has an unrelated complaint at the time of administering e.g. a homoeopathic injection as part of a course only a fee for a visit is appropriate. Hospital visits: at hospital or nursing home (all hours). By arrangement with scheme/patient.	06.04

Definition: Medicines

	Prescribed medicine: Homoeopathic medicines are prescribed in accordance with the homoeopathic principles and philosophy. The philosophy may consist of a classical, a clinical or a combined classical/clinical approach. The prescription may include proprietary homoeopathic medicine, or patient specific compounded medicine or a combination of both. The prescription may also include specially imported medicine. The medicine may be prescribed in the form of a tablet, capsules, ampoules, liquid drops, liquid syrup, eardrops, nose drops, eye drops, pillules, granules, powders, ointments, creams, suppositories, stickers, etc. The medicine may be prescribed in a simplex potency, mother tincture (Æ), low potency, multi-potency, etc and/or complex form. Proprietary medicine: These are registered medicines (consonant with the homoeopathic scope of practice) that are available in the open market or trade, or which are bought in bulk from manufacturers or wholesalers and dispensed to patients in smaller volumes without any compounding or manipulation. The dispensing of such medicine requires the appropriate NAPPI Code provided by the Manufacturer/Distributor. Non-proprietary homoeopathic medicine: These are homoeopathic medicines (consonant with the homoeopathic scope of practice) which are formulated and/or prepared and/or manipulated, and/or compounded in-house by the registered homoeopathic practitioner, and/or by a registered homoeopathic medicine manufacturer in accordance with the prescription and/or formula of the registered homoeopathic practitioner and which is not available in the market/trade. Dispense/Dispensing: in terms of Act 101 of 1965 means in the case of a medical practitioner, dentist, practitioner, nurse or any prescriber authorised to dispense medicines. i. the interpretation and evaluation of a prescription; ii. the selection, reconstitution, dilution, labelling, recording and supply of the medicine in an appropriate container; or iii. the provision of information and instructions to ensure safe and effective use of a medicine by a patient. Compound/Compounding: means to prepare, mix, combine, package and label a medicine for dispensing as a result of a prescription for an individual patient by a pharmacist or a person authorised in terms of Act 101 of 1965. Proprietary Materials: To be used for all material and/or unregistered/unscheduled products used in treatment. The appropriate NAPPI code(s), where applicable, must be provided.	09.00

Code		Description	Ver	Add	Homoeopathy	
					RVU	Fee
General Rules on Medicines, supplies, material and use of own equipment in treatment and procedures						
	MEDICINE CODE USAGE:					09.00
	Licensed Practitioners 201: as medicine dispensed to patients may only be used by a practitioner licensed to dispense medicine. 202-204: as compounded medicines which are dispensed to patients may only be used by a practitioner licensed to compound and dispense medicine 221-224: may be used by a licensed practitioner in the administration or usage of a medicine or material during the consultation. Items 222-224 specifically require a compounding license. 209: the use or administration of proprietary materials during a consultation.					
	Unlicensed Practitioners: 221: administered proprietary medicine (consonant with the homoeopathic scope of practice) to patients during the consultation as administration does not warrant a dispensing license as per Regulation 18, Act 101 of 1965, which states:					
	Regulation 18, Act 101 (8) For the purposes of this regulation, "compounding and dispensing" does not refer to a medicine requiring preparation for a once-off administration to a patient during a consultation.					
	209: the use or administration of proprietary materials during a consultation 400: a dispensing code allowing the dispensing of proprietary Homoeopathic medicine to a patient for an emergency medical condition on a once-off basis by an unlicensed practitioner. This should only be used bearing in mind the understanding of the term "emergency medical condition" where failure to such an act would prove a danger to the patient or community or as defined by the Regulations to the Medical Schemes Act, 1998 (Act 131 of 1998):					
	"Emergency Medical Condition" means the sudden and, at the time, unexpected onset of a health condition that requires immediate medical or surgical treatment, where failure to provide medical or surgical treatment would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy.					
	Reflection of NAPPI/NHRPL codes on electronic and paper claims: 1. NAPPI Codes are only relevant for Items 201, 221 and, if applicable, 209 2. Due to the nature of non-proprietary medicine, no NAPPI codes exist for items 202-204 and 222-224 and the inclusion of the NHRPL codes should be regarded as sufficient 3. For electronic claims each NHRPL and/or NAPPI code should be reflected on its own line followed by consecutive columns: the Single Exit Price (SEP) or NHRPL value (VAT inclusive) of the specific medicine and the total amount reflecting a VAT inclusive amount.					
	Items 201 and 209 provide for the charge of material and medicine used in treatment.					06.05
	· All materials used should be specified on all accounts. · Medicine, bandages and other essential materials for home-use by the patient must be obtained from a chemist on prescription or, if a chemist is not readily available, the practitioner may supply it from own stock provided a relevant prescription is attached to the account. · Not appropriate for items such as spatulas that are normally used in examinations in the rooms. · Not appropriate for items such as syringes, needles and gloves, etc. · Practitioners are not allowed to sell sphygmomanometers (blood pressure meters) or electro-medical devices to patients. · For side room testing by practitioners no extra charge in terms of item 201 is applicable for material or kits used.					
	The amount charged in respect of proprietary medicines shall be at net acquisition price.					
	In relation to all other materials, items are to be charged (exclusive of VAT) at net acquisition price plus -					
	* 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; and					
	* a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands.

HOSPICE

Hospices 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF HOSPICE OR SIMILAR APPROVED FACILITIES WITH A PRACTICE NUMBER COMMENCING WITH "79" WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

A	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00

MEDICAL PRACTITIONERS

Medical Practitioners 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY MEDICAL PRACTITIONERS, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

RULES GOVERNING THE STRUCTURE

A.	Consultations: Definitions: (a) New and established patients: A consultation/visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration. (b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling. (c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code.	04.00
B.	Normal hours and after hours: After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 0173-0175, 0161-0164, 0166-0169)	06.04
C.	Comparable services: A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted procedure/service which will be based on the fee for a comparable service in the coding structure. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include: (1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity"; (2) In which respect is this service unusual or different in technique, compared to available procedures/services listed in the coding structure? Information regarding the nature and extent of the procedure/service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report; (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/service listed in the coding structure will not be appropriate in this case; (4) A description of the complexity of the symptoms and concurrent problems must be supplied; (5) Final diagnosis supported by the appropriate ICD-10 code(s); (6) Pertinent physical findings (size, location and number of lesions if applicable); (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session; (8) Any further diagnostic or therapeutic procedure(s)/service(s) to be provided in the follow-up period; and (9) Description of the follow-up care needed. Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure	05.02
D.	Cancellation of appointments: Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a general practitioner "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be	04.00
E.	Pre-operative visits: The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital	04.00
F.	Administering of injections and/or infusions: Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself	04.00
G.	Post-operative care: (a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal after-care for a period not exceeding ONE month (after-care is excluded from pure diagnostic procedures during which no therapeutic procedures were performed). (b) If the normal after-care is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge. (c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged. (d) Normal after-care refers to an uncomplicated post-operative period not requiring any further incisions	04.00
H.	Removal of lesions: Items involving removal of lesions include follow-up treatment for 10 days	04.00
J.	Disproportionately low fees: In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits.	04.00
K.	Practice of specialists: In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's general practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists	04.00
L.	Procedures performed at time of visits: If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged	04.00

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
M.	Procedure planned to be performed later: In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion								04.00
N.	"Per consultation": No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention								04.00
O.	Costly or prolonged medical services or procedures: In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the medical scheme for what amount the medical scheme will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the scheme								04.00
P.	Travelling fees: (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances.								04.00
Q.	Intensive care/High Care: Units in respect of items 1204 to 1210 (Categories 1 to 3) EXCLUDE the following: (a) Anaesthetic and/or surgical fees for any condition or procedure, as well as a first consultation/visit, which is, regarded as the assessment of the patient, while the daily intensive care/high care fee covers the daily care in the intensive/high care unit. (b) Cost of any drugs and/or materials. (c) Any other cost which may be incurred before, during or after the consultation/visit and/or the therapy. (d) Blood gases and chemistry tests, including the arterial puncture to obtain the specimen. (e) Procedural items 1202 and 1212 to 1221. but INCLUDE the following: (f) Performing and interpretation of a resting ECG. (g) Interpretation of chemistry tests and x-rays. (h) Intravenous treatment (items 0206 and 0207), except intravenous infusion in patients under the age of three years (item 0205) that does not form a part of the daily ICU/High Care fee and may be charged for separately on a daily basis (fee includes the introduction of the cannula as well as the daily management)								06.05
R.	Multiple organ failure: Units for items 1208, 1209 and 1210 (Category 3: Cases with multiple organ failure) include resuscitation (i.e. item 1211: Cardio-respiratory resuscitation)								04.00
S.	Ventilation: Units for items 1212, 1213 and 1214 (ventilation) include the following: (a) Measurement of minute volume, vital capacity, time- and vital capacity studies. (b) Testing and connecting the machine. (c) Putting patient on machine: setting machine, synchronising patient with machine. (d) Instruction to nursing staff. (e) All subsequent visits for 24 hours.								04.00
T.	Ventilation (items 1212 to 1214) does not form a part of normal post-operative care, but may not be added to item 1204: Category 1: Cases requiring intensive monitoring								04.00
U.	Obstetric procedures: (a) When a general practitioner treats a patient in the ante-natal period and, after starting the confinement, requests an obstetrician to take over the case, the general practitioner shall be entitled to charge for all the ante-natal consultations he/she has performed. (i) If the patient has been in labour for less than 6 hours, the general practitioner shall charge 50.00 clinical procedure units according to item 2614: Global obstetric care. (ii) If the patient has been in labour for more than 6 hours, the general practitioner shall charge 80.00 clinical procedure units according to item 2614: Global obstetric care. (b) When a general practitioner calls an obstetrician to help with a confinement, take over the management of a confinement, and treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2614: Global obstetric care. (c) When a general practitioner calls an obstetrician (specialist or general practitioner) to help with a confinement, or take over the management of a confinement, but the general practitioner treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2616: Intrapartum obstetric care by obstetrician in consultation, and the general practitioner according to item 2614: Global obstetric care.								04.00
V.	(a) Electro-convulsive treatment: Visits at hospital or nursing home during a course of electro-convulsive treatment are justified and may be charged for in addition to the fees for the procedure. (b) Except where otherwise indicated, the duration of a medical psychotherapeutic session is set at 20 minutes or part thereof, provided that such a part comprises 50% or more of the time of a session. This set duration is also applicable for psychiatric examination methods								04.00
Y.	Except where otherwise indicated, radiologists are entitled to charge for contrast material used								04.00
Z.	No fee is subject to more than one reduction								04.00
AA.	Procedures to exclude cost of isotope								04.00
BB.	The fees in this section (radiation oncology) do NOT include the cost of radium or isotopes								04.00
CC.	Acupuncture: (a) When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately. (b) Not more than two separate techniques may be charged for at each session. (c) The maximum number of acupuncture treatments per course to be charged for is limited to 20. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient. (d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp								04.00

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
EE.	Ultrasound examinations: The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams: (a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of medical schemes unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy. (b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options). (c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the medical scheme by the patient or the doctor, as the case may be. (d) In case of a referral to a radiologist, no motivation should be required from the radiologist							04.00	
FF.	(a) When a cystoscopy precedes a related operation, Modifier 0013: Endoscopic examination done at an operation, applies, e.g. cystoscopy followed by transurethral (TUR) prostatectomy. (b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair. (c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973.							04.00	
GG.	Capturing and recording of examinations: Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years							04.00	
RR.	The radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or general practitioners. A separate radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025").							04.00	
XX.	Diagnostic services rendered to hospital inpatients: Quote Modifier 0091 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients officially admitted to hospital or day clinic							04.00	
YY.	Diagnostic services rendered to outpatients: Quote Modifier 0092 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients NOT officially admitted to hospital or day clinic (could be within the confines of a hospital)							04.00	
MODIFIERS GOVERNING THE STRUCTURE									
0002	Written report on X-rays: The lowest level code for a new patient office (consulting rooms) visit, is applicable only where a radiologist is requested to give a written report on X-rays taken elsewhere and submitted to him. The above mentioned item and the lowest level initial hospital visit code, as appropriate are not to be used for routine reporting of X-rays taken elsewhere							04.00	
0004	Procedures performed in own procedure rooms: Procedures performed in doctors' own procedure rooms instead of in a hospital theatre or unattached theatre unit: as per fee for procedure + 100% (the value of modifier 0004 equals 100% of the value of the procedure performed). See Section V (Section G in SAMA's DBT) for a list of procedures, which are often done in rooms to which Modifier 0004 should not be applied. Please note: Only the medical practitioner who owns the facility and the equipment may charge modifier 0004. Only one person may claim this modifier for procedures performed in doctors' own procedure rooms							06.05	
0005	Multiple therapeutic procedures/operations under the same anaesthetic: a) Unless otherwise identified in the tariff when multiple therapeutic procedures/operations add significant time and/or complexity, and when each procedure/operation is clearly identified and defined, the following values shall prevail: 100% (full value) for the first or major procedure/operation, 75% for the second procedure/operation, 50% for the third procedure/operation, 25% for the fourth and subsequent procedures/operations. This modifier does not apply to purely diagnostic procedures. b) In the case of multiple fractures and/or dislocations the above values shall prevail. c) When purely diagnostic endoscopic procedures or diagnostic endoscopic procedures unrelated to any therapeutic procedures performed, are performed under the same general anaesthetic, Modifier 0005 is not applicable to the fees for such diagnostic endoscopic procedures as the fees for endoscopic procedures do not provide for after-care. Specify unrelated endoscopic procedure and provide diagnosis to indicate diagnostic endoscopic procedure(s) unrelated to other (therapeutic) procedures performed under the same anaesthetic. d) Please note: When more than one small procedure is performed and the tariff makes provision for items for "subsequent" or "maximum for multiple additional procedures" (see Section 2. Integumentary System) Modifier 0005 is not applicable as the fee is already a reduced fee. e) "+" Means that this item is used in addition to another definitive procedure and is therefore not subject to reduction according to Modifier 0005 (see also Modifier 0082)							04.00	
0006	Visiting specialists performing procedures: Where specialists visit smaller centres to perform procedures, fees for these particular procedures are exclusive of after-care. The referring practitioner will then be entitled to subsequent hospital visits for after-care. If the referring practitioner is not available, the specialist shall, on consultation with the patient, choose an appropriate locum tenens. Both the surgeon and the practitioner who handled the after-care, must in such instances quote Modifier 0006 with the particular items which they use							04.00	

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
0007	a) Use of own monitoring equipment in the rooms: Remuneration for the use of any type of own monitoring equipment in the rooms for procedures performed under intravenous sedation - 15,00 clinical procedure units irrespective of the number of items of equipment provided. b) Use of own equipment in hospital theatre or unattached theatre unit: Remuneration for the use of any type of own equipment for procedures performed in a hospital theatre or unattached theatre unit when appropriate equipment is not provided by the hospital - 15,00 clinical procedure units irrespective of the number of items of equipment provided.	04.00		15.000	116.70 (102.37)	15.000	116.70 (102.37)		
0008	Specialist surgeon assistant: Where a procedure requires a registered specialist surgeon assistant, the fee is 33,33% (1/3) of the fee for the specialist surgeon								04.00
0009	Assistant: The fee for an assistant is 20% of the fee for the specialist surgeon, with a minimum of 36,00 clinical procedure units. The minimum fee payable may not be less than 36,00 clinical procedures units								04.00
0010	Local anaesthesia: (a) A fee for a local anaesthetic administered by the operator may only be charged for (1) an operation or procedure having a value greater than 30,00 clinical procedure units (i.e. 31,00 or more clinical procedure units allocated to a single item) or (2) where more than one operation or procedure is done at the same time with a combined value greater than 50,00 clinical procedure units. (b) The fee shall be calculated according to the basic anaesthetic units for the specific operation. Anaesthetic time may not be charged for, but the minimum fee as per Modifier 0036: Anaesthetic administered by a general practitioner, shall be applicable in such a case. (c) Not applicable to radiological procedures (such as angiography and myelography). (d) No fee may be levied for topical application of local anaesthetic. (e) Please note: Modifier 0010: Local anaesthetic administered by the operator, may not be added on the surgeon's account for procedures that were performed under general anaesthetic.								04.00
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12,00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)								06.04
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged								04.00
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff								04.00
0015	Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions								04.00
0017	Injections administered by practitioners: When desensitisation, intravenous, intramuscular or subcutaneous injections are administered by the practitioner him-/herself to patients who attend the consulting rooms, a first injection forms part of the consultation/visit and only all subsequent injections for the same condition should be charged at 7.50 consultative services units using modifier 0017 to reflect the amount (not chargeable together with a consultation item)	05.06		7.500	94.22 (82.65)	7.500	105.63 (92.66)		
0018	Surgical modifier for persons with a BMI of 35+ (calculated according to kg/m ²): Fee for procedure +50% for surgeons and a 50% increase in anaesthetic time units for anaesthesiologists								04.00
0019	Surgery on neonates (up to and including 28 days after birth) and low birth weight infants (less than 2500g) under general anaesthesia (excluding circumcision): per fee for procedure + 50% for surgeons and a 50% increase in anaesthetic time units for anaesthesiologists								09.06
0046	Where in the treatment of a specific fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting on the same bone, the fee for the initial treatment of that fracture or dislocation shall be reduced by 50%. Please note: This reduction does not include the assistant's fee where applicable. After one month, a full fee as for the initial treatment, is applicable								04.00
0047	A fracture NOT requiring reduction shall be charged on a fee per service basis								04.00
0048	Where in the treatment of a fracture or dislocation, an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be 27,00 clinical procedure units (not including after-care)	04.00		27.000	210.06 (184.26)	27.000	210.06 (184.26)		
0049	Except where otherwise specified, in cases of compound fractures, 77,00 clinical procedure units (specialists) and 77,00 clinical procedure units (general practitioners) are to be added to the units for the fractures including debridement	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
0050	In cases of a compound fracture where a debridement is followed by internal fixation (excluding fixation with Kirschner wires, as well as fractures of hands and feet), the full amount according to either Modifier 0049: Cases of compound fractures, or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either Modifier 0049: Cases of compound fractures or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, as applicable)	04.00		115.500	898.59 (788.24)	115.500	898.59 (788.24)		
0051	Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting: Specialists add 77,00 clinical procedure units. General practitioners add 77,00 clinical procedure units	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		
0053	Fracture requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]: Specialists and general practitioners add 32,00 clinical procedure units	04.00		32.000	248.96 (218.39)	32.000	248.96 (218.39)		
0055	Dislocation requiring open reduction: Units for the specific joint plus 77,00 clinical procedure units for specialists. General practitioners add 77,00 clinical procedure units	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		
0057	Multiple procedures on feet: In multiple procedures on feet, fees for the first foot are calculated according to Modifier 0005: Multiple procedures/operations under the same anaesthetic. Calculate fees for the second foot in the same way, reduce the total to 75% and add to the total for the first foot								04.00
0058	Revision operation for total joint replacement and immediate re-substitution (infected or non-infected): per fee for total joint replacement + 100%								04.00
0061	Combined procedures on the spine: In cases of combined procedures on the spine, both the orthopaedic surgeon and the neurosurgeon are entitled to the full fee for the relevant part of the operation performed								04.00
0063	Where two specialists work together on a replantation procedure, each shall be entitled to two-thirds of the fee for the procedure								04.00
0064	Where the replantation is unsuccessful, no further surgical fee is payable for amputation of the non-viable parts								04.00
0065	Additional operative procedures by same surgeon, under section 3.8.6: Spinal deformities, within a period of 12 months: 75% of scheduled fee for the lesser procedure, except where otherwise specified elsewhere								04.00
0066	Microsurgery of the fallopian-tubes and ovaries: Where micro-surgical techniques are used, with the aid of a microscope, 25% may be added to the fee								04.00
0067	Microsurgery of the larynx: Add 25% to the fee of the operation performed (ðFor other operations requiring the use of an operation microscope, the fee include the use of the microscope, except where otherwise specified elsewhere in the Tariff)								04.00
0069	When endoscopic instruments are used during intranasal surgery: Add 10% of the fee of the procedure performed. Only applicable to items 1025, 1027, 1030, 1033, 1035, 1036, 1039, 1047, 1054 and 1083								04.00
0070	Add 45,00 clinical procedure units to procedure(s) performed through a thoracoscope	04.00		45.000	350.10 (307.11)	45.000	350.10 (307.11)		
0072	Non invasive peripheral vascular tests: The number of tests in a single case is restricted to two (2) per diagnosis. Tests are not justified in cases of uncomplicated varicose veins								04.00
0073	When item 1288 (Cardiac catheterisation for congenital heart disease: All ages above 1 year old) or item 1289 (Paediatric cardiac catheterisation: Infants below the age of one year) is performed by paediatric cardiologists ('33'): fee for procedure + 100%								04.00
0074	Endoscopic procedures performed with own equipment: The basic procedure fee plus 33.33% (1/3) of that fee ("+" codes excluded) will apply where endoscopic procedures are performed with own equipment.								04.00
0075	Endoscopic procedures performed in own procedure room: The fee plus 21,00 clinical procedure units will apply where endoscopic procedures are performed in rooms with own equipment. This fee is chargeable by medical practitioners who own or rent the facility. Please note: Modifier 0075 is not applicable to any of the items for diagnostic procedures in the otorhinolaryngology sections of the tariff.	04.00		21.000	163.38 (143.32)	21.000	163.38 (143.32)		
0077	Physical treatment: When two separate areas are treated simultaneously for totally different conditions, such treatment shall be regarded as two treatments for which separate fees may be charged. (Only applicable if services are provided by a specialist in physical medicine)								04.00
0078	When a testis biopsy is done combined with vasogram or seminal vesiculogram or epididymogram, add 50% of the units for the appropriate procedure								04.00
0079	When a first consultation/visit proceeds into, or is immediately followed by a medical psychotherapeutic procedure, fees for the procedure are calculated according to the appropriate individual psychotherapy code (items 2957, 2974 or 2975)								04.00
0080	Multiple examinations: Full Fee								04.00
0081	Repeat examinations: No reduction								04.00
0082	"+" Means that this item is complementary to a preceding item and is therefore not subject to reduction								04.00

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology		
				RVU	Fee	RVU	Fee	RVU	Fee	
0083	A reduction of 33,33% (1/3) in the fee will apply to radiological examinations as indicated in section 19: Radiology where hospital equipment is used									04.00
0084	Film costs: In the case of radiological items where films are used, practitioners should adjust the fee upwards or downwards in accordance with changes in the price of films in comparison with November 1979; the calculation must be done on the basis that film costs comprise 10% of the monetary value of the unit (This information is obtainable from the Radiological Society of SA)									04.00
0085	Left Side' modifier to be added to when items 6500 to 6519 are used when the left side is examined. Please note that the absence of this modifier indicates that the right side was examined									04.00
0086	Vascular groups: "Film series" and "Introduction of Contrast Media" are complementary and together constitute a single examination: neither fee is therefore subject to increase in terms of Modifier 0080: Multiple examinations									04.00
0090	Radiologist's fee for participation in a team: 30,00 radiology units per ½ hour or part thereof for all interventional radiological procedures, excluding any pre- or post-operative angiography, catheterisation, CT-scanning, ultrasound-scanning or x-ray procedures. (Only to be charged if radiologist is hands-on, and not for interpretation of images only)									04.00
0091	Diagnostic services rendered to hospital inpatients: Quote Modifier 0091 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients officially admitted to hospital or day clinic (refer to Rule XX)									04.00
0092	Diagnostic services rendered to outpatients: Quote Modifier 0092 on all accounts for diagnostic services (e.g. MRI, X-rays, pathology tests) performed on patients NOT officially admitted to hospital or day clinic (could be within the confines of a hospital) (refer to Rule YY)									04.00
0095	Radiation materials: Exclusively for use where radiation materials supplied by the practice are used by clinical and radiation oncologists, modifier 0095 should be used to identify these materials. A material code list with descriptions and guideline costs for these materials, maintained and updated on a regular basis, will be supplied by the Society of Clinical and Radiation Oncology. This modifier is only chargeable by the practice responsible for the cost of this material and where the hospital did not charge therefore. Please note that item 0201 should not be used for these materials									04.00
0096	Radio-isotope therapy patients who fail to keep their appointments: Fee will include cost of isotope									04.00
0097	Pathology tests performed by non-pathologists: Where items under Clinical Pathology (section 21) and Anatomical Pathology (section 22) fall within the province of other specialists or general practitioners, the fee is to be charged at two-thirds of the pathologists fee									04.00
0160	Aspiration of biopsy procedure performed under direct ultrasound control by an ultrasound aspiration biopsy transducer (Static Realtime): Fee for part examined plus 30% of the units									04.00
0165	Use of contrast during ultrasound study: add 6.00 ultrasound units		04.00		6.000	44.50 (39.03)	6.000	44.50 (39.03)		
5104	Ultrasound in pregnancy, multiple gestation, after twenty weeks: plus 30%									04.00
6100	In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes									04.00
6101	Where a limited series of a specific anatomical region is performed (except bone tumour), e.g a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning studies, per region									04.00
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee									04.00
6103	Post-contrast study: Bone tumour: 100% of the fee									04.00
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable									04.00
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items									04.00
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability									04.00
6107	Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability									04.00
6108	Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a "flow sensitive series"									04.00
6109	Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain									04.00
6110	MRI spectroscopy: 50% of fee									04.00
6300	If a procedure lasts less than 30 minutes, only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account)									04.00
6301	If a procedure is performed by a radiologist in a facility not owned by himself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)									04.00
6302	When the procedure is performed by a non-radiologist, the fee will be reduced by 40% (i.e. 60% of the fee will be charged)									04.00
6303	When a procedure is performed entirely by a non-radiologist in a facility owned by a radiologist, the radiologist owning the facility may charge 55% of the procedure units used. Modifier 6302 applies to the non radiologist performing the procedure									04.00

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
6305	When multiple catheterisation procedures are used (items 3557, 3559, 3560, 3562) and an angiogram investigation is performed at each level, the unit value of each such multiple procedure will be reduced by 20.00 radiological units for each procedure after the initial catheterisation. The first catheterisation is charged at 100% of the unit value								04.00
I.	Consultative Services								
I.a	General Practitioner visits								
I.b	Specialists tiered consultation structure								
I.b.1	New and established patients: Consultations/visits by psychiatrists (22) only								
Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
0161	Psychiatry ('22'): New and established patients: Consultation/visit of new or established patient with problem focused history, clinical examination and straightforward decision making for minor problem. Typically occupies the doctor personally with the patient between 10 and 20 minutes (for hospital consultation/visit by psychiatrist - refer to items 0166-0169)	06.02		15.000	224.70 (197.10)				
0162	Psychiatry ('22'): New and established patients: Consultation/visit of new or established patient with detailed history, clinical examination and straightforward decision making and counselling. Typically occupies the doctor personally with the patient between 21 and 35 minutes (for hospital consultation/visit by psychiatrist - refer to items 0166-0169)	06.02		27.500	412.00 (361.40)				
0163	Psychiatry ('22'): New and established patients: Consultation/visit of new or established patient with detailed history, complete clinical examination and moderately complex decision making and counselling. Typically occupies the doctor personally with the patient between 36 and 45 minutes (for hospital consultation/visit by psychiatrist - refer to items 0166-0169)	06.02		40.000	599.30 (525.70)				
0164	Psychiatry ('22'): New and established patients: Consultation/visit of new or established patient with comprehensive history and clinical examination for complex problem requiring complex decision making and counselling. Typically occupies a doctor personally with the patient between 46 and 60 minutes (for hospital consultation/visit by psychiatrist - refer to items 0166-0169)	06.02		52.500	786.60 (690.00)				
0166	Psychiatry (22): First hospital consultation/visit with problem focused history, clinical examination and straightforward decision making for minor problem. Typically occupies the doctor personally with the patient for between 10 and 20 minutes	06.06		15.000	224.70 (197.10)				
0167	Psychiatry (22): First hospital consultation/visit with detailed history, clinical examination and straightforward decision making and counselling. Typically occupies the doctor personally with the patient for between 21 and 35 minutes	06.06		27.500	412.00 (361.40)				
0168	Psychiatry (22): First hospital consultation/visit with detailed history, complete clinical examination and moderately complex decision making and counselling. Typically occupies the doctor personally with the patient for between 36 and 45 minutes	06.06		40.000	599.30 (525.70)				
0169	Psychiatry (22): First hospital consultation/visit with comprehensive history and clinical examination for complex problem requiring complex decision making and counselling. Typically occupies a doctor personally with the patient for between 46 and 60 minutes	06.06		52.500	786.60 (690.00)				
I.c	General practitioner and specialist services								
0190	New and established patient: Consultation/visit of new or established patient of an average duration and/or complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (for hospital consultation/visit - refer to item 0173-0175 or item 0109) - not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure								06.02
0191	New and established patient: Consultation/visit of new or established patient of a moderately above average duration and/or complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (for hospital consultation/visit - refer to item 0173-0175 or item 0109) - not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure								06.02

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology						
				RVU	Fee	RVU	Fee	RVU	Fee					
0192	New and established patient: Consultation/visit of new or established patient of long duration and/or high complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (for hospital consultation/visit - refer to item 0173-0175 or item 0109) - not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure								06.02					
0173	First hospital consultation/visit of an average duration and/or complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure)								06.02					
0174	First hospital consultation/visit of a moderately above average duration and/or complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure)								06.02					
0175	First hospital consultation/visit of long duration and/or high complexity. Includes counselling with the patient and/or family and co-ordination with other health care providers or liaison with third parties on behalf of the patient (not appropriate for pre-anaesthetic assessment followed by the appropriate anaesthetics - refer to new anaesthetic structure)								06.02					
0109	Hospital follow-up visit to patient in ward or nursing facility - Refer to general rule G(a) for post-operative care (may only be charged once per day) (not to be used with items 0111, 0145, 0146, 0147 or ICU items 1204-1214)								06.04					
0111	Paediatric hospital follow-up visits (excluding neonates) by paediatricians or paediatric cardiologists (may only be charged once per day) (not to be used with items 0109 or ICU items 1204-1214). For a healthy neonate please use item 0109 for a hospital follow-up visit								06.04					
0129	Prolonged face-to-face attendance to a patient: ADD to either item 0192, item 0175, item 0164 or item 0169 as appropriate, for each 15-minute period only if service extends 10 minutes or more into the next 15-minute period following on the first 60 minutes								06.06	+				
0145	For consultation/visit away from the doctor's home or rooms (non-emergency): ADD only to the consultation/visit items 0190-0192, items 0173-0175, items 0161-0164 or items 0166-0169, as appropriate. Note: Only one of items 0145, 0146 or 0147 may be charged and not combinations thereof								06.04	+				
0146	For an unscheduled emergency consultation/visit at the doctors' home or rooms, all hours: ADD only to the consultation/visit items 0190-0192, items 0161-0164 or items 0151-0153, as appropriate (refer to general rule B). Note: Only one of items 0145, 0146 or 0147 may be charged and not combinations thereof								06.05	+				
0147	For an emergency consultation/visit away from the doctor's home or rooms, all hours: ADD only to the consultation/visit items 0190-0192, items 0173-0175, items 0161-0164, items 0166-0169 or items 0151-0153, as appropriate. Note: Only one of items 0145, 0146 or 0147 may be charged and not combinations thereof								09.01	+				
0148	For elective after-hours services on request of the patient or family (non emergency) (refer to general rule B): ADD 50% of the fee for the appropriate consultation/visit item (only to be used with items 0190-0192, items 0173-0175, items 0161-0164, items 0166-0169 or items 0151-0153) and reflect this as a separate item 0148. Usage: This item is used when, for example, a patient or the family request the doctor for a non-emergency consultation/visit outside of the normal hours period as reflected in general rule B.								06.05	+				
0149	After-hours bona fide emergency consultation/visit (21:00-6:00 daily): ADD 25% of the fee for the appropriate consultation/visit item (only to be used with items 0190-0192, items 0173-0175, items 0161-0164, items 0166-0169 or items 0151-0153) and reflect this as a separate item 0149. Note: The after-hour period applicable to this item is from Monday to Sunday 21:00-6:00								06.05

0152	Pre-anaesthetic assessment: Pre-anaesthetic assessment of patient (all hours). Detailed history and clinical examination and straightforward decision making and counselling. Typically occupies the doctor face-to-face with the patient for between 20 and 35 minutes	06.04				16.000	225.30 (197.70)	16.000	201.00 (176.30)
0153	Pre-anaesthetic assessment: Pre-anaesthetic assessment of patient or other consultative service. Consultation with detailed history, complete examination and moderate complex decision making and counselling. Typically occupies the doctor face-to-face for between 30 and 45 minutes	06.04				16.000	225.30 (197.70)	16.000	201.00 (176.30)
I.f	Prenatal visits and new born attendance								
0107	New born attendance: Exclusive attendance to baby at Caesarean section, normal delivery or visit in the ward (once per patient) (items 0109, 0111, 0113, 0145, 0146 and/or 0147 may not be added to item 0107)	06.02		33.000	414.60 (363.70)	33.000	464.80 (407.70)		
	Item 0107 can be used once only for given confinement	04.00							
0113	New born attendance: Emergency attendance to newborn at all hours (once per patient) (items 0107, 0109, 0111, 0145, 0146 and/or 0147 may not be added to item 0113)	06.02		45.000	565.30 (495.90)	45.000	633.80 (555.90)		
I.g	Consultative services: Miscellaneous								
0130	Telephone consultation (all hours)							04.00	
0132	Consulting service e.g. writing of repeat scripts or requesting routine pre-authorisation without the physical presence of the patient (needs not be face-to-face contact) ("Consultation" via SMS or electronic media included)							04.00	
0133	Writing of special motivations for procedures and treatment without the physical presence of a patient (includes report on the clinical condition of a patient) requested by or on behalf of a third party funder or its agent							04.00	
0199	Completion of chronic medication forms by medical practitioners with or without the physical presence of the patient requested by or on behalf of a third party funder or its agent							04.00

II.	Medicine, material, supplies and use of own equipment								
II.a	Medicine codes								
II.a.1	Dispensing of medicine by licensed dispensing medical practitioners								
0197	Licensed dispensing medical practitioners: Dispensing cost - R16.00 for medicine with a cost of R100.00 or more (VAT inclusive), or 16% for medicine costing less than R100.00 (VAT inclusive). Add to each Nappi code to provide for the dispensing cost.	06.02							
II.a.2	Once-off administration of medicine used during a consultation								
0198	Once-off administration of medicines: This item provides for medicines used at a consultation, viz, once off administration of medicine, special medicine used in treatment, or emergency dispensing. Charge for medicine used according to the Single Exit Price (SEP) PLUS R16.00 for medicine with a cost of R100.00 or more, or 16% for medicine costing less than R100.00 PLUS VAT on the 16%/R16.00. (Where applicable, VAT should be added to the 16%/R 16.00 only and not to the SEP, since the SEP is VAT inclusive). [According to Section 18(8) of the Medicines and Related Substances Act (Act 101 of 1965) compounding and dispensing does not refer to a medicine requiring preparation for a once-off administration to a patient during a consultation]. The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the medicine used. Please note: Refer to item 0201 for cost of material used in treatment.	06.02							
II.a.3	Cost of chemotherapy drugs								
0212	Cost of chemotherapy drugs: This item provides for a charge for chemotherapy drugs used in treatment. Charge for chemotherapy drugs used in treatment at cost price PLUS 16% (with a maximum of R16.00). (Where applicable, VAT should be added to the above). The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the chemotherapy drugs used.	06.02							
II.b	Material codes								
II.b.1	Prosthesis and/or internal fixation								
0200	Prosthesis and/or internal fixation: This item provides for a charge for prosthesis and/or internal fixation. Charge for prosthesis and/or internal fixation at cost price PLUS 26% (up to a maximum of R 26.00). (Where applicable, VAT should be added to the above). The appropriate Nappi code(s), where applicable, for the prosthesis and/or internal fixation used, must be provided.	06.02							
II.b.2	Material used during a consultation								
0201	Cost of material in treatment: This item provides for a charge for material used in treatment. Charge for material at cost price PLUS 26% (up to a maximum of R26.00). (Where applicable, VAT should be added to the above). The appropriate Surgical and Material Nappi code(s), selected from those codes commencing with 4, 5, 6, where applicable, for the material used, must be provided. Please note: Refer to item 0198 for once off administration of medicine.	06.02							
II.c	Setting of sterile tray								
0202	Setting of sterile tray: A fee of 10,00 clinical procedure units may be charged for the setting of a sterile tray where a sterile procedure is performed in the rooms. Cost of stitching material, if applicable, shall be charged for according to item 0201, as appropriate	05.06		10.000	77.80 (68.20)	10.000	77.80 (68.20)		

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
II.d Own equipment used in treatment									
5930	Surgical laser apparatus: Hire fee for own equipment	04.00		109.000	848.00 (743.90)	109.000	848.00 (743.90)		
5932	Candella laser apparatus: Hire fee for own equipment (Rates by arrangement with the scheme concerned)	04.00							
III. PROCEDURES									
6999	Unlisted procedure/service: A procedure/service may be provided that is not listed in this edition of the coding structure. Refer to General Rule C for the criteria to use item 6999	05.03							
GENERAL MODIFIERS GOVERNING THIS SECTION									
0011	Emergency procedures: Any bona fide, justifiable emergency procedure (all hours) undertaken in an operating theatre and/or in another setting in lieu of an operating theatre, will attract an additional 12.00 clinical procedure units per half-hour or part thereof of the operating time for all members of the surgical team. Modifier 0011 does not apply in respect of patients on scheduled lists. (A medical emergency is any condition where death or irreparable harm to the patient will result if there are undue delays in receiving appropriate medical treatment)								06.04
0013	Endoscopic examinations done at operations: Where a related endoscopic examination is done at an operation by the operating surgeon or the attending anaesthesiologist, only 50% of the fee for the endoscopic examination may be charged								04.00
0014	Operations previously performed by other surgeons: Where an operation is performed which has been previously performed by another surgeon, e.g. a revision or repeat operation, the fee shall be calculated according to the tariff for the full operation plus an additional fee to be negotiated under general Rule J: In exceptional cases where the fee is disproportionately low in relation to actual service rendered, except where already specified in the tariff								04.00
MODIFIERS GOVERNING SECTION 1									
0015	Intravenous infusions: Where intravenous infusions (including blood and blood cellular products) are administered as part of the after-treatment after the operation or confinement, no extra fees shall be charged as this is included in the global operative or maternity fees. Should the practitioner doing the operation or attending to the maternity case prefer to ask another practitioner to perform post-operative or post-confinement intravenous infusions, then the practitioner himself (and not the patient) shall be responsible for remunerating such practitioner for the infusions								04.00
0017	Injections administered by practitioners: When desensitisation, intravenous, intramuscular or subcutaneous injections are administered by the practitioner him-/herself to patients who attend the consulting rooms, a first injection forms part of the consultation/visit and only all subsequent injections for the same condition should be charged at 7.50 consultative services units using modifier 0017 to reflect the amount (not chargeable together with a consultation item)	05.06		7.500	94.22 (82.65)	7.500	105.63 (92.66)		
1 General									
1.1 Injections, Infusions and Inhalation Sedation Treatment									
0203	Inhalation sedation: Use of analgesic nitrous oxide for alcohol and other withdrawal states: First quarter-hour or part thereof	04.00		6.000	46.70 (40.90)	6.000	46.70 (40.90)		
0204	Inhalation sedation: Per additional quarter-hour or part thereof	04.00		3.000	23.30 (20.50)	3.000	23.30 (20.50)		
0205	Intravenous treatment: Intravenous infusions (cut-down or push-in) (patients under three years): Cut-down and/or insertion of cannula - chargeable once per 24 hours	04.00		12.000	93.40 (81.90)	12.000	93.40 (81.90)		
0206	Intravenous treatment: Intravenous infusions (push-in) (patients over three years): Insertion of cannula - chargeable once per 24 hours	04.00		6.000	46.70 (40.90)	6.000	46.70 (40.90)		
0207	Intravenous treatment: Intravenous infusions (cut-down) (patients over three years): Cut-down and insertion of cannula - chargeable once per 24 hours	04.00		8.000	62.20 (54.60)	8.000	62.20 (54.60)		
0208	Venesection: Therapeutic venesection (Not to be used when blood is drawn for the purpose of laboratory investigations)	04.00		6.000	46.70 (40.90)	6.000	46.70 (40.90)		
0209	Umbilical artery cannulation at birth	04.00		18.000	140.00 (122.80)	18.000	140.00 (122.80)		
0210	Collection of blood specimen(s) by medical practitioner for pathology examination, per venesection (not to be used by pathologists)	04.00		3.250	25.30 (22.20)	3.250	25.30 (22.20)		
0211	Exchange transfusion: First and subsequent (including after-care)	04.00		80.000	622.40 (546.00)	80.000	622.40 (546.00)		

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
	Note: HOW TO CHARGE FOR INTRAVENOUS INFUSIONS: Practitioners are entitled to charge according to the appropriate item whenever they personally insert the cannula (but may only charge for this service once every 24 hours). For managing the infusion as such, e.g. checking it when visiting the patient or prescribing the substance, no fee may be charged since this service is regarded as part of the services the doctor renders during consultations (not applicable to item 0205)	04.00							
1.2	Chemotherapy treatment (not in chemotherapy facilities)								
0213	Treatment with cytostatic agents: Administering of Chemotherapy: Intramuscular or subcutaneous: Per injection. For use by providers who do not make use of recognised chemotherapy facilities and/or who are not primarily responsible for managing the chemotherapy treatment	04.00		5.000	38.90 (34.10)	5.000	38.90 (34.10)		
0214	Intravenous treatment with cytostatic agents: Administering of Chemotherapy: Intravenous bolus technique: Per injection. For use by providers who do not make use of recognised chemotherapy facilities and/or who are not primarily responsible for managing the chemotherapy treatment	04.00		9.000	70.00 (61.40)	9.000	70.00 (61.40)		
0215	Intravenous treatment with cytostatic agents: Administering of Chemotherapy: Intravenous infusion technique: Per injection. For use by providers who do not make use of recognised chemotherapy facilities and/or who are not primarily responsible for managing the chemotherapy treatment	04.00		14.000	108.90 (95.50)	14.000	108.90 (95.50)		
1.3	Oncology related services in non-oncology facilities								
5780	Interstitial implants: Placing of guide tubes for interstitial implants under local or general anaesthetic. The cost of materials is not included	06.06		394.860	3072.00 (2694.70) Z	315.890	2457.60 (2155.80) Z		
5781	Intracavitary applications: Placing of guide tubes under local or general anaesthetic for manual or remote afterloading brachytherapy. The cost of materials is not included	06.02		262.410	2041.50 (1790.80) Z	209.930	1633.30 (1432.70) Z		
5782	Isotope Therapy: Administration of low dose surface applicators, up to five applications. Typically an out patient procedure. The cost of materials is not included	06.02		77.810	605.40 (531.00) Z	77.810	605.40 (531.00) Z		
5783	Infusional pharmacotherapy: Fee for the treatment of non cancerous conditions with bolus or infusional pharmacotherapy per treatment day (consultations to be charged separately)	06.02		42.650	331.80 (291.10) Z	42.650	331.80 (291.10) Z		
MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETICS FOR ALL PROCEDURES AND OPERATIONS									
0020	Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the medical scheme that there will be no hospital/theatre account.							06.06	
0021	Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 5441 to 5448							06.04	
0023	The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic, i.e. 2,00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3,00 anaesthetic units per 15 minute period or part thereof.							06.05	
0024	Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged.							06.05	
0025	Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/her account the exact anaesthetic time, including the supervision time spent with the patient.							06.05	
0027	More than one procedure under the same anaesthetic: Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units							06.04	
0028	Indicator for use of low flow anaesthetic technique less than 1litre/minute: Fresh gas flow of less than 1 litre/minute							06.06	

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
0029	Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic								06.04
0030	Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute								06.06
0031	Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time								06.04
0032	Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added								06.04
0033	Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/anaesthetist. and modifier 0036: Anaesthetic administered by general practitioners.								06.05
0034	Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added								06.04
0035	Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers).								06.05
0036	Anaesthetic administered by general practitioners: The units (basic units plus time plus the appropriate modifiers) used to calculate the fee for an anaesthetic administered by a general practitioner lasting one hour or less, shall be the same as that for an anaesthesiologist. For anaesthetic lasting more than one hour, the units used to calculate the fee for an anaesthetic administered by a general practitioner will be 4/5 (80%) of the total number of units (basic units plus time [refer to modifier 0023] plus the appropriate modifiers) applicable to an anaesthesiologist. Please note that the 4/5 (80%) principle will be applied to all anaesthetics administered by general practitioners with the proviso that no anaesthetic with a total number of units higher than 11.00 will be reduced to less than 11,00 units in total. The monetary value of the unit is the same for both an anaesthesiologist/anaesthetist.								06.05
0037	Body hypothermia: Utilisation of total body hypothermia: Add 3,00 anaesthetic units	06.04						3.000	146.49 (128.50)
0038	Peri-operative blood salvage: Add 4,00 anaesthetic units for intra-operative blood salvage and 4,00 anaesthetic units for post-operative blood salvage								06.04
0039	Control of blood pressure: Deliberate control of the blood pressure: All cases up to one hour: Add 3,00 anaesthetic units, thereafter add 1,00 (one) additional anaesthetic unit per quarter hour or part thereof								06.04
0040	Phaeochromocytoma: The basic anaesthetic units for procedures performed for phaeochromocytoma shall be 15,00 anaesthetic units								06.04
0041	Hyperbaric pressurisation: Utilisation of hyperbaric pressurisation: Add 3,00 anaesthetic units	06.04						3.000	146.49 (128.50)
0042	Extracorporeal circulation: Utilisation of extracorporeal circulation: Add 3,00 anaesthetic units	06.04						3.000	146.49 (128.50)
0043	Patients under one year of age: For all cases where the patient is under one year of age – 3,00 anaesthetic units to be added	06.04						3.000	146.49 (128.50)
0044	Neonates (i.e up to and including 28 days after birth): 3,00 anaesthetic units to be added to the basic anaesthetic units for the particular procedure. This modifier is charged in addition to Modifier 0043: Cases under one year of age	06.04						3.000	146.49 (128.50)
0100	Intra-aortic balloon pump: Where an anaesthesiologist would be responsible for operating an intra-aortic balloon pump, a fee of 75,00 clinical procedure units is applicable.								06.06
	Modifiers 5441 to 5448								06.04
	Modification of the anaesthetic fee in cases of operative procedures on the musculo-skeletal system, open fractures and open reduction of fractures and dislocations is governed by adding units indicated by modifiers 5441 to 5448. (The letter "M" is annotated next to the number of units of the appropriate items, for facilitating identification of the relevant items)								
5441	Add one (1,00) anaesthetic unit, except where the procedure refers to the bones named in Modifiers 5442 to 5448	06.04						1.000	48.83 (42.83)
5442	Shoulder, scapula, clavicle, humerus, elbow joint, upper 1/3 tibia, knee joint, patella, mandible and temporo-mandibular joint: Add two (2,00) anaesthetic units	06.04						2.000	97.66 (85.67)
5443	Maxillary and orbital bones: Add three (3,00) anaesthetic units	06.04						3.000	146.49 (128.50)
5444	Shaft of femur: Add four (4,00) anaesthetic units	06.04						4.000	195.32 (171.33)

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
5445	Spine (except coccyx), pelvis, hip, neck of femur: Add five (5,00) anaesthetic units	06.04						5.000	244.15 (214.17)
5448	Sternum and/or ribs and musculo-skeletal procedures which involve an intra-thoracic approach: Add eight (8,00) anaesthetic units	06.04						8.000	390.64 (342.67)
POST-OPERATIVE ALLEVIATION OF PAIN									
0045	Post-operative alleviation of pain: (a) When a regional or nerve block procedure is performed, the appropriate procedure item to patient in ward or nursing facility, can be charged, provided that it is not the primary anaesthetic technique (b) When a second medical practitioner has administered the regional or nerve block for post-operative alleviation of pain, it shall be charged according to the particular procedure for instituting therapy. Revisits shall be charged according to the appropriate hospital follow-up visit to patient in ward or nursing facility. (c) None of the above is applicable for routine post-operative pain management i.e. intramuscular, intravenous or subcutaneous administration of opiates or NSAID (non-steroidal anti-inflammatory drug)							06.04

RULES GOVERNING THE SECTION ACUPUNCTURE									
CC.	Acupuncture: (a) When two separate acupuncture techniques are used, each treatment shall be regarded as a separate treatment for which fees may be charged for separately. (b) Not more than two separate techniques may be charged for at each session. (c) The maximum number of acupuncture treatments per course to be charged for is limited to 20. If further treatment is required at the end of this period of treatment, it should be negotiated with the patient. (d) Item 0380 refers to scalp acupuncture as a treatment in its own right and not to the use of acupuncture points on the scalp								04.00
3	Musculo-skeletal System								
MODIFIERS GOVERNING ORTHOPAEDIC OPERATIONS AND ANAESTHETIC FEES FOR ORTHOPAEDIC OPERATIONS									
0047	A fracture NOT requiring reduction shall be charged on a fee per service basis								04.00
0048	Where in the treatment of a fracture or dislocation, an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be 27,00 clinical procedure units (not including after-care)	04.00		27.000	210.06 (184.26)	27.000	210.06 (184.26)		
0049	Except where otherwise specified, in cases of compound fractures, 77,00 clinical procedure units (specialists) and 77,00 clinical procedure units (general practitioners) are to be added to the units for the fractures including debridement	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		
0050	In cases of a compound fracture where a debridement is followed by internal fixation (excluding fixation with Kirschner wires, as well as fractures of hands and feet), the full amount according to either Modifier 0049: Cases of compound fractures, or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, may be added to the fee for the procedure involved, plus half of the amount according to the second modifier (either Modifier 0049: Cases of compound fractures or Modifier 0051: Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting, as applicable)	04.00		115.500	898.59 (788.24)	115.500	898.59 (788.24)		
0051	Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting: Specialists add 77,00 clinical procedure units. General practitioners add 77,00 clinical procedure units	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		
0053	Fracture requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]: Specialists and general practitioners add 32,00 clinical procedure units	04.00		32.000	248.96 (218.39)	32.000	248.96 (218.39)		
0055	Dislocation requiring open reduction: Units for the specific joint plus 77,00 clinical procedure units for specialists. General practitioners add 77,00 clinical procedure units	04.11		77.000	599.06 (525.49)	77.000	599.06 (525.49)		
0057	Multiple procedures on feet: In multiple procedures on feet, fees for the first foot are calculated according to Modifier 0005: Multiple procedures/operations under the same anaesthetic. Calculate fees for the second foot in the same way, reduce the total to 75% and add to the total for the first foot								04.00
0058	Revision operation for total joint replacement and immediate re-substitution (infected or non-infected): per fee for total joint replacement + 100%								04.00
3.1	Bones								
3.1.1	Bones: Fractures (reduction under general anaesthetic - refer to modifier 0047)

4.7	Intensive care								
RULES GOVERNING THIS SECTION									
Q.	Intensive care/High Care: Units in respect of items 1204 to 1210 (Categories 1 to 3) EXCLUDE the following: (a) Anaesthetic and/or surgical fees for any condition or procedure, as well as a first consultation/visit, which is, regarded as the assessment of the patient, while the daily intensive care/high care fee covers the daily care in the intensive/high care unit. (b) Cost of any drugs and/or materials. (c) Any other cost which may be incurred before, during or after the consultation/visit and/or the therapy. (d) Blood gases and chemistry tests, including the arterial puncture to obtain the specimen. (e) Procedural items 1202 and 1212 to 1221. but INCLUDE the following: (f) Performing and interpretation of a resting ECG. (g) Interpretation of chemistry tests and x-rays. (h) Intravenous treatment (items 0206 and 0207), except intravenous infusion in patients under the age of three years (item 0205) that does not form a part of the daily ICU/High Care fee and may be charged for separately on a daily basis (fee includes the introduction of the cannula as well as the daily management)								06.05
R.	Multiple organ failure: Units for items 1208, 1209 and 1210 (Category 3: Cases with multiple organ failure) include resuscitation (i.e. item 1211: Cardio-respiratory resuscitation)								04.00
S.	Ventilation: Units for items 1212, 1213 and 1214 (ventilation) include the following: (a) Measurement of minute volume, vital capacity, time- and vital capacity studies. (b) Testing and connecting the machine. (c) Putting patient on machine: setting machine, synchronising patient with machine. (d) Instruction to nursing staff. (e) All subsequent visits for 24 hours.								04.00
T.	Ventilation (items 1212 to 1214) does not form a part of normal post-operative care, but may not be added to item 1204: Category 1: Cases requiring intensive monitoring								04.00

Code	Description	Ver	Add	Specialists		General Practitioners / non-designated Specialists		Anaesthesiology	
				RVU	Fee	RVU	Fee	RVU	Fee
4.7.1	Intensive care: (in intensive care or high care unit): Respiratory, cardiac, general: Neonatal procedures								
1202	Insertion of central venous catheter via peripheral vein in neonates	04.00		40.000	311.20 (273.00)	40.000	311.20 (273.00)	40.000	311.20 (273.00) c
4.7.2	Intensive care: (in intensive care or high care unit): Respiratory, cardiac, general: Tariff items for Intensive care								
1204	Intensive care: Category 1 (High Care) : Cases requiring intensive monitoring (to include cases where physiological instability is anticipated e.g. diabetic pre-coma, asthma, gastro-intestinal haemorrhage, etc.): Per day	09.01		30.000	233.40 (204.70)	30.000	233.40 (204.70)	30.000	233.40 (204.70) c
	(i) Only one practitioner may charge category 1: Intensive monitoring of patient in high care unit. (ii) Item 1204 may not be charged by the surgeon who performed a surgical procedure. Intensive monitoring is regarded as normal postoperative care, which is included in the global fee attached to that surgical procedure. (iii) Practitioners involved in treating a patient in a high care unit must come to an agreement on which practitioner should be regarded as the primary practitioner and to which category the patient is classified. This will ensure that each of the practitioners is remunerated correctly for the actual services they rendered.	09.01							
1205	Intensive care: Category 2 (ICU): Cases requiring active system support (where active specialised intervention is required in cases such as acute myocardial infarction, diabetic coma, head injury, severe asthma, acute pancreatitis, eclampsia, flail chest, etc. Ventilation may or may not be part of the active system support): First day	09.01		100.000	778.00 (682.50)	100.000	778.00 (682.50)	100.000	778.00 (682.50) c
1206	Intensive care: Category 2 (ICU): Cases requiring active system support (where active specialised intervention is required in cases such as acute myocardial infarction, diabetic coma, head injury, severe asthma, acute pancreatitis, eclampsia, flail chest, etc. Ventilation may or may not be part of the active system support): Subsequent days, per day	09.01		50.000	389.00 (341.20)	50.000	389.00 (341.20)	50.000	389.00 (341.20) c
1207	Intensive care: Category 2(ICU): Cases requiring active system support (where active specialised intervention is required in cases such as acute myocardial infarction, diabetic coma, head injury, severe asthma, acute pancreatitis, eclampsia, flail chest, etc. Ventilation may or may not be part of the active system support): After two weeks, per day	09.01		30.000	233.40 (204.70)	30.000	233.40 (204.70)	30.000	233.40 (204.70) c
	Please Note: (i) The principal practitioner may charge items 1205 - 1207, other participating practitioners must charge the consultation item, e.g. item 0109 (ii) Only one practitioner may charge category 2: Intensive monitoring of patient in intensive care unit. (iii) Should a patient during the post-operative care period require active system support, the person who is responsible for the active systems support, may use items 1205-1207 (as appropriate). (iv) It would be acceptable for the surgeon who performed a surgical procedure of which the after-care is included, to charge fees according to the appropriate hospital follow-up visit (item 0109) (v) Practitioners involved in treating a patient in the intensive care unit must come to an agreement on which practitioner should be regarded as the primary practitioner and to which category the patient is classified. This will ensure that each of the practitioners is remunerated correctly for the actual services they rendered.	09.01							
1208	Intensive care: Category 3 (ICU): Cases with multiple organ failure or Category 2 patients which may require multidisciplinary intervention: First day (primary practitioner)	09.01		137.000	1065.90 (935.00)	120.000	933.60 (818.90)	137.000	1065.90 (935.00) c
1209	Intensive care: Category 3 (ICU): Cases with multiple organ failure or Category 2 patients which may require multidisciplinary intervention: First day (per involved practitioner)	09.01		58.000	451.20 (395.80)	58.000	451.20 (395.80)	58.000	451.20 (395.80) c
1210	Intensive care: Category 3 (ICU): Cases with multiple organ failure or Category 2 patients which may require multidisciplinary intervention: Subsequent days (per involved practitioner)	09.01		50.000	389.00 (341.20)	50.000	389.00 (341.20)	50.000	389.00 (341.20) c
	Please note: (i) Items 1208-1210 are used if more than one practitioner is involved in active system support on a category 2 patient in the intensive care unit. (ii) Items 1208-1210 are used for category 3 patients with multiple organ failure. (iv) Practitioners involved in treating a patient in the intensive care unit must come to an agreement on which practitioner should be regarded as the primary practitioner and to which category the patient is classified. This will ensure that each of the practitioners is remunerated correctly for the actual services they rendered.	09.01

MODIFIERS GOVERNING THIS SECTION									
0074	Endoscopic procedures performed with own equipment: The basic procedure fee plus 33.33% (1/3) of that fee ("+" codes excluded) will apply where endoscopic procedures are performed with own equipment.							04.00	
0075	Endoscopic procedures performed in own procedure room: The fee plus 21.00 clinical procedure units will apply where endoscopic procedures are performed in rooms with own equipment. This fee is chargeable by medical practitioners who own or rent the facility. Please note: Modifier 0075 is not applicable to any of the items for diagnostic procedures in the otorhinolaryngology sections of the tariff.	04.00		21.000	163.38 (143.32)	21.000	163.38 (143.32)

RULES GOVERNING THE SECTION URINARY SYSTEM									
FF.	(a) When a cystoscopy precedes a related operation, Modifier 0013: Endoscopic examination done at an operation, applies, e.g. cystoscopy followed by transurethral (TUR) prostatectomy. (b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair. (c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973.								04.00

13	Obstetric Procedures								
RULES GOVERNING THIS SECTION									
U.	Obstetric procedures: (a) When a general practitioner treats a patient in the ante-natal period and, after starting the confinement, requests an obstetrician to take over the case, the general practitioner shall be entitled to charge for all the ante-natal consultations he/she has performed. (i) If the patient has been in labour for less than 6 hours, the general practitioner shall charge 50,00 clinical procedure units according to item 2614: Global obstetric care. (ii) If the patient has been in labour for more than 6 hours, the general practitioner shall charge 80,00 clinical procedure units according to item 2614: Global obstetric care. (b) When a general practitioner calls an obstetrician to help with a confinement, take over the management of a confinement, and treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2614: Global obstetric care. (c) When a general practitioner calls an obstetrician (specialist or general practitioner) to help with a confinement, or take over the management of a confinement, but the general practitioner treats the patient until after the post-partum visit, the obstetrician shall charge according to item 2616: Intrapartum obstetric care by obstetrician in consultation, and the general practitioner according to item 2614: Global obstetric care.								04.00

				RVU	Fee	RVU	Fee	RVU	Fee
6102	All post-contrast studies (except bone tumour), including perfusion studies, to be charges at 50% of the fee								04.00
6103	Post-contrast study: Bone tumour: 100% of the fee								04.00
6104	Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable								04.00
6105	Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items								04.00
6106	Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability								04.00
6107	Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability								04.00
6108	Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a "flow sensitive series"								04.00
6109	Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain								04.00
6110	MRI spectroscopy: 50% of fee								04.00
	Please note: The calculated amounts in this section are calculated according to the magnetic resonance imaging unit value.								04.00
	Items 6200 to 6255 reflect the anatomical region examined. The modifiers above reflect what was done and how the fee was arrived at.								04.00
6200	Magnetic Resonance Imaging: Per anatomical region: Brain	04.00				400.000	3355.20 (2943.20)	5.000	244.20 (214.20) T

20.10	Chemotherapy								
	Where patients are not treated in chemotherapy facilities, items 0213, 0214 and 0215 are used instead of items 5790, 5793 and 5795. Codes 0213, 0214 and 0215 are applicable to providers who only administer the drugs i.e. don't own or rent a facility and do not manage the patient.								04.11
	Codes 5790 to 5795 are for exclusive use by oncology trained doctors working within chemotherapy facilities								04.11
5790	Non Infusional Chemotherapy: Global Fee for the management of and for related services delivered in the treatment of cancer with oral chemotherapy (per cycle), intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy or oncology specific drug administration per treatment day - for exclusive use by doctors with appropriate oncology training (consultations to be charged separately) - (not applicable to oral hormonal therapy)	04.11		42.950	334.20 (293.10) Z	42.950	334.20 (293.10) Z		
5791	Non Infusional Chemotherapy Facility Fee: A facility where oncology medicines are procured or scripted for oral chemotherapy, intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy or oncology specific drug administration per treatment day. This fee is chargeable by doctors with appropriate oncology training who owns or rents the facility, and by others e.g. hospitals or clinics that provide the services as per the appropriate billing structure. Said facilities are to be accredited under the auspices of SASMO and/or SASCRO (to be used in conjunction with item 5790) - (not applicable to oral hormonal therapy) - only one of the parties are to charge this fee	05.03		24.490	190.50 (167.10) Z	24.490	190.50 (167.10) Z		
5792	Non Infusional Chemotherapy Facility Fee: A facility where oncology medicines are purchased, stored and dispensed during oral chemotherapy (per cycle), intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy or oncology specific drug administration per treatment day. This fee is chargeable by doctors with appropriate oncology training who owns or rents the facility, and by others e.g. hospitals or clinics that provide the services as per the appropriate billing structure. Said facilities are to be accredited under the auspices of SASMO and/or SASCRO (to be used in conjunction with item 5790) - (not applicable to oral hormonal therapy) - only one of the parties are to charge this fee	05.03		30.610	238.10 (208.90) Z	30.610	238.10 (208.90) Z		
	Non-infusional chemotherapy: Consultations are charged separately.	05.05							
	Non-infusional chemotherapy: In the case of intramuscular (IMI), subcutaneous, intrathecal or bolus chemotherapy administration the management fee can only be charged once per treatment day. Consultations are charged separately.								04.11
5793	Infusional Chemotherapy: Global fee for the management of and for services delivered during infusional chemotherapy per treatment day - for exclusive use by doctors with appropriate oncology training using recognised chemotherapy facilities (consultations to be charged separately)	04.11		159.470	1240.70 (1088.30) Z	127.580	992.60 (870.70) Z		
5794	Infusional Chemotherapy Facility Fee: A facility where oncology medicines are procured, stored, admixed and administered, and in which appropriately-trained medical, nursing and support staff are in attendance. This fee is chargeable by doctors with appropriate oncology training who owns or rents the facility, and by others e.g. hospitals or clinics that provide the services as per the appropriate billing structure. Said facilities are to be accredited under the auspices of SASMO and/or SASCRO (to be used in conjunction with item 5793) - only one of the parties are to charge this fee	05.03		90.030	700.40 (614.40) Z	90.030	700.40 (614.40) Z

20.12	Brachytherapy								
20.12.1	Isotope/Applicator Therapy								
5870	Isotope/Applicator Therapy: Isotopes - Low Complexity, administration of low dose oral isotopes or use of surface applicators, up to five applications. Typically an out patient procedure. The cost of any isotopes and materials are not included	05.03		108.400	1025.00 (899.10) Z				
5872	Isotope/Applicator Therapy: Isotopes - Intermediate Complexity, administration of isotopes requiring invasive techniques such as intravenous, intracavitary or intra-articular radioactive isotopes. Typical out patient procedure or admission and monitoring less than 48 hours. The cost of any isotopes and materials are not included	05.03		216.800	2050.10 (1798.30) Z				
5873	Isotope/Applicator Therapy: Isotopes - High Complexity, surface application of seed arrays requiring dosimetric assessment and/or high dose radio-active isotopes requiring admission and monitoring. Typically requires in patient admission and monitoring for more than 48 hours. The cost of any isotopes and materials are not included	05.03		601.160	5684.60 (4986.50) Z				
20.12.2	Brachytherapy Implants								
5882	Brachytherapy Implants: Implants - Low Complexity, placement of a single guide tube for the administration of brachytherapy requiring <8 dwell points. The cost of materials are not included	05.03		216.800	2050.10 (1798.30) Z				
5883	Brachytherapy Implants: Implants - Intermediate Complexity, planar implants requiring >1 guide tube for the administration of brachytherapy, or the use of >8 dwell points in a single guide tube, or any procedure requiring <8 dwell points but which requires general anaesthesia for insertion. The cost of materials are not included	05.03		786.800	7440.00 (6526.30) Z				
5885	Brachytherapy Implants: Implants - High Complexity requiring complex volumetric studies. Inclusive fee for implant under local or general anaesthetic. The cost of materials are not included	05.03		1049.070	9920.00 (8701.80) Z				
20.12.3	Brachytherapy Treatment								
5890	Brachytherapy Treatment: Global fee for manual afterloading - includes storage, handling, calibration, planning (manual or computerized), manual loading, daily treatment, monitoring, removal and disposal of the isotopes. The cost of any isotopes and materials are not included	05.03		613.040	5796.90 (5085.00) Z				
5892	Brachytherapy Treatment: Global fee for remote afterloading - includes input in calibration, graphic planning, daily treatment, monitoring, removal and disposal of implant materials on completion. The cost of materials are not included - PROFESSIONAL COMPONENT	05.03		415.960	3933.30 (3450.30) Z				
5893	Global Fee for remote afterloading - includes input in calibration, graphic planning, daily treatment, monitoring, removal and disposal of implant materials on completion. The cost of materials are not included - TECHNICAL COMPONENT	05.03		970.560	9177.60 (8050.50) Z				
20.12.4	Brachytherapy Imaging								
5895	Brachytherapy Imaging: Brachytherapy: Special imaging where needed and if used, unusual to be added to any code other than items 5883 or 5885	05.03		156.770	1482.40 (1300.40) Z				
21	Clinical Pathology								
0097	Pathology tests performed by non-pathologists: Where items under Clinical Pathology (section 21) and Anatomical Pathology (section 22) fall within the province of other specialists or general practitioners, the fee is to be charged at two-thirds of the pathologists fee								04.00
	Please note: The calculated amounts in this section are calculated according to the clinical pathology unit values. Note: For fees for Histology and Cytology refer to items 4561-4593 under Section 22: Anatomical Pathology.								04.00

4544	Attendance in theatre	04.00		27.000	242.80 (213.00)				
4547	After-hours service: (Monday to Friday) 17:00 to 08:00, Saturday 13:00 to Monday 08:00 and public holidays - Refer to General Rule B.	04.00							
4551	Unlisted pathology service: Fees for items not listed in the current Pathology schedule (sections 21, 22 and 23) will be based on the fee for a comparable service in the coding structure. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted pathology service which will be based on the fee for a comparable service in the coding structure. New items for these unlisted services should be added to the coding structure within six months or that specific unlisted pathology service should no longer be performed. Please note General Rule C and item 6999 are not applicable to pathology services (sections 21, 22 and 23)	04.00							
4555	Where pharmacological preparations (hormones, etc.) are administered as part of metabolic function tests, the cost of such preparation shall be charged separately	04.00

IV.	Travelling Expenses								
P.	Travelling fees: (a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total. (b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients. (c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms. (d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled). (e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled). (f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. Medical scheme benefits will not be applicable in such instances.								04.00
5003	The indicated amount for each kilometre in excess of 16 kilometres travelled in own car e.g. where a practitioner has to travel 19 kilometres in total to visit a patient, the fees shall be calculated as follows: 19-16=3 X Indicated amount	09.00		1.000	7.78 (6.82)	1.000	7.78 (6.82)		
5005	Normal hours: Specialist: 18,00 clinical procedure units per hour or part thereof	04.00		18.000	140.00 (122.80)

MEDICAL SCIENTIST

Medical Scientists 2009

NATIONAL REFERENCE PRICE LIST FOR MEDICAL SCIENTISTS WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

01	Each practitioner must acquaint him-/herself with the provisions of the Medical Schemes Act, as amended, and the regulations promulgated under the Act and shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars	05.03
	- The name and practice code number of the referring practitioner. - The name of the member. - The name of the patient. - The name of the medical scheme. - The membership number of the member. - The nature of the treatment. - The date on which the service was rendered. - The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.

Medical Technology 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY MEDICAL LABORATORY TECHNOLOGISTS, WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

Preamble

It is recommended that, when such benefits are granted, the following should be clearly specified in the scheme's rules.

- Services must only be on referral.

General Rules

001	Each practitioner must acquaint him-/herself with the provisions of the Medical Schemes Act, and the regulations promulgated under the Act and shall render a monthly account in respect of any service rendered. NB: Every account shall contain the following particulars : The account or statement contemplated in section 59(1) of the Act must contain the following - (a) The surname and initials of the member; (b) the surname, first name and other initials, if any, of the patient; (c) the name of the scheme concerned; (d) the membership number of the member; (e) the practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service; (f) the relevant diagnostic and such other item code numbers that relates to such relevant health service; (g) the date on which each relevant health service was rendered; (h) the nature and cost of each relevant health service rendered, including the supply of medicine to the member concerned or to a dependant of that member; and the name, quantity and dosage of and net amount payable by the member in respect of, the medicine;	04.00
002	No "shopping list" must be distributed to doctors and no group tests will be carried out.	04.00
003	No charge to be raised in respect of services such as sample handling and after hours services.	04.00
004	Interaction with patient for collecting of specimens shall be limited to those specimens that are physiologically expelled, such as sputum and urine and taking of venous and peripheral blood.	05.02
005	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00

MENTAL HEALTH INSTITUTIONS

Mental Health Institutions 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF MENTAL HEALTH CARE FACILITIES WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

A	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
C	All accounts submitted by mental health institutions shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation.	04.00
D	All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the rehabilitation hospital concerned.	04.00
E	All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount.	04.00
E.3.3	Mental Institutions refers to all institutions registered with the Department of Health in terms of the Mental Health Care Act 17 of 2002 having practice code numbers commencing with the digits 55.	06.04
F	Accommodation fees includes the services listed below: A. The minimum services that are required are items 3, 5 and 6. B. If managed care organisations or medical schemes request any of the other services included in this list, no additional charge may be levied by the hospital. 1 Pre-authorisation (up to the date of admission) of: · length of stay · level of care · theatre procedures 2 Provision of ICD-10 and CPT-4 codes when requesting pre-authorisation 3 Notification of admission 4 Immediate notification of changes to: · length of stay · level of care · theatre procedures 5 Reporting of length of stay and level of care · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. 6 Discharge ICD-10 and CPT-4 coding · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. · Including coding of complications and co-morbidity. To be done as accurately as practically possible by the hospital. 7 Case management by means of standard documentation and liaison between scheme and hospital appointed case managers · Liaison means communication and sharing of information between case managers, but does not include active case management by the hospital.	04.00

REGULATIONS DEFINING THE SCOPE OF THE PROFESSION OF OCCUPATIONAL THERAPY (R2145 - 31 July 1992)**GENERAL RULES**

006	Where emergency treatment is provided: a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient in hospital; or b. after working hours the fee for such visits shall be the total fee plus 50%. For purposes of this rule: a. "emergency treatment" means a bona fide, justifiable emergency occupational therapy procedure, where failure to provide the procedure immediately would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy; and b. "working hours" means 8h00 to 17h00, Monday to Friday. Modifier 0006 must be quoted after the appropriate code number(s) to indicate that this rule is applicable. Rule 006 does not apply to art therapy.	05.02
008	The provision of assistive devices shall be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that appliance is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that appliance is greater than or equal to one hundred rands. Modifier 0008 must be quoted after the appropriate code numbers to show that this rule is applicable.	04.00
009	Materials used in the construction of orthoses or pressure garments shall be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands. Modifier 0009 must be quoted after the appropriate code numbers to show that this rule is applicable. Rule 009 does not apply to art therapy.	04.00
010	Materials used in treatment shall be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands. Modifier 0010 must be quoted after the appropriate code numbers to show that this rule is applicable.	04.00
011	Where the therapist performs treatments away from the treatment rooms, travelling costs to be charged according to AA rates e.g. for domiciliary treatments or treatments in nursing homes. Modifier 0011 must be quoted after the appropriate code numbers to show that this rule is applicable. Please note that although only some medical schemes accept responsibility for the payment of transport expenses, others do so in exceptional cases only.	04.00
012	Every practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars: i The name and practice number of the consulting occupational or art therapist. ii The name of the member. iii The name of the patient. iv The name of the medical scheme. v The membership number of the patient. vi The nature of the treatment. vii The date on which the service was rendered. viii The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.	05.02

Code	Description	Ver	Add	Occupational Therapy		Arts Therapy	
				RVU	Fee	RVU	Fee
013	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account. Please note: In the case of occupational therapy, a code will only be required when a standard proprietary (off the shelf) product is used. When a splint or support is made by the occupational therapist using or modifying one or more components, a code cannot accurately identify this non-standard product. Please refer to annexure itemising the most commonly made non-standard products used in occupational therapy and bill accordingly. The Occupational Therapy Association of S A has made available a generic list of non-proprietary splints and pressure garments commonly made by practitioners. The type of materials used to manufacture these products is at the discretion of the practitioner concerned. Price of splints and pressure garments may vary. See Annexures A & B.						04.00
Modifiers							
0006	Add 50% of the total fee for the procedure. Modifier 0006 does not apply to art therapy.						04.00
0008	Assistive devices to be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that appliance is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that appliance is greater than or equal to one hundred rands.						04.00
0009	Materials used for orthoses or pressure garments to be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands. See Annexures A & B for non-standard products. Modifier 0009 does not apply to art therapy.						05.02
0010	Materials used in treatment to be charged (exclusive of VAT) at net acquisition price plus – - 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands.						04.00
0011	Travelling costs according to AA rates. Please note that although only some medical schemes accept responsibility for the payment of transport expenses, others do so in exceptional cases only.						04.00

OPTOMETRY

Optometrists 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY OPTOMETRISTS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

ORTHOPTIST

Orthoptists 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF ORTHOPTISTS WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

ITEMS

Code	Description	Ver	Add	Orthoptists	
				RVU	Fee
001	Orthoptic consultation (Ocular motility assessment, comprehensive examination)	04.00		10.000	95.20 (83.50)

PHYSICAL REHABILITATION CENTRES

Physical Rehabilitation Hospitals 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF REHABILITATION HOSPITALS WITH A PRACTICE NUMBER COMMENCING WITH "59" WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

A	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
B.1	Procedure for the classification of hospitals:	04.00
B.1.1	Inspections of sub-acute facilities, private hospitals, rehabilitation hospitals or sub-acute facilities having practice code numbers commencing with the digits 059 will be conducted by an independent agency on behalf of BHF. Applications to be addressed in writing to BHF.	04.00
C	All accounts submitted by rehabilitation hospitals shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation.	04.00
D	All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the rehabilitation hospital concerned.	04.00
E	All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount.	04.00
F	Accommodation fees includes the services listed below: A. The minimum services that are required are items 3, 5 and 6. B. If managed care organisations or medical schemes request any of the other services included in this list, no additional charge may be levied by the hospital. 1 Pre-authorisation (up to the date of admission) of: • length of stay • level of care • theatre procedures 2 Provision of ICD-10 and CPT-4 codes when requesting pre-authorisation 3 Notification of admission 4 Immediate notification of changes to: • length of stay • level of care • theatre procedures 5 Reporting of length of stay and level of care In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. 6 Discharge ICD-10 and CPT-4 coding In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. Including coding of complications and co-morbidity. To be done as accurately as practically possible by the hospital. 7 Case management by means of standard documentation and liaison between scheme and hospital appointed case managers Liaison means communication and sharing of information between case managers, but does not include active case management by the hospital.	04.00

SCHEDULE**7 GLOBAL FEE FOR REHABILITATION WITH A PRACTICE NUMBER COMMENCING WITH "59"**

	The following rehabilitation categories will be treated in recognised and accredited rehabilitation hospitals: Stroke, Brain dysfunction (traumatic and non-traumatic), Spinal cord dysfunction (traumatic and non-traumatic), Orthopaedic (lower joint replacements), Amputation (lower extremity), Cardiac, Pulmonary, Major multiple trauma. Other neurological or orthopaedic impairments will require specific letters of motivation.	04.00
	This section is only applicable to facilities registered as Physical Rehabilitation Hospitals and not Sub-acute facilities.	04.00

PHYSIOTHERAPY

Physiotherapy 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF PHYSIOTHERAPISTS WITH EFFECT FROM 1 JANUARY 2009		
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.		
REGULATIONS DEFINING THE SCOPE OF THE PROFESSION OF PHYSIOTHERAPY (R2301 - 3 December 1976)		
SCHEDULE		
General rules governing the scale of benefits		
001	Unless timely steps (i.e. 24 hours prior to the appointment) are taken to cancel an appointment the relevant fee may be charged, but shall not be payable by medical schemes. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. Modifier 0001 to be quoted	04.00
002	In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by the practitioner, the practitioner shall provide motivation for a higher fee and such higher fee as may be agreed upon between the practitioner and the scheme may be charged	04.00
003	Where a practitioner uses equipment which is not owned by that practitioner, a reduction of 15% of the relevant rate will be applicable. Modifier 0003 must be quoted when this rule is applied	04.00
004	In the case of prolonged or costly treatment, the practitioner should first ascertain from the scheme concerned whether it will accept financial responsibility in respect of such treatment, since the member may be subject to maximum annual benefits	04.00
005	After a series of 20 treatments in respect of one patient for the same condition, the practitioner concerned shall report to the scheme as soon as possible if further treatment is necessary. Payment for treatments in excess of the stipulated number may be granted by the scheme after receipt of a letter from the practitioner concerned, motivating the need for such treatment	04.00
006	Where emergency treatment is provided: a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient in hospital; or b. after working hours the fee for such visits shall be the total fee plus 50%. For purposes of this rule: a. "emergency treatment" means a bona fide, justifiable emergency physiotherapy procedure, where failure to provide the procedure immediately would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy; and b. "working hours" means 8h00 to 17h00, Monday to Friday. Modifier 0006 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.	04.00
007	Practitioners are reminded that a lower fee than that appearing in the scale of benefits shall be charged if the customary fee in the area is less than that charged. Reduced fees shall also be charged where the practitioner would have reduced his/her fee in private practice in particular cases. Prolonged treatment or exceptional cases should also receive special consideration in accordance with the usual medical practice	04.00
008	The fee in respect of more than one procedure (excluding evaluation and visiting items 407, 501, 502, 503, 507, 509, 701, 702, 703, 704, 705, 706, 707, 708, 801, 803, 901 and 903) performed at the same consultation or visit, shall be the fee for the major procedure plus half the fee in respect of each additional procedure, but under no circumstances may fees be charged for more than three procedures carried out in the treatment of any one condition. Modifier 0008 must then be quoted after the appropriate code numbers for the additional code numbers for the additional procedures to indicate that this rule is applicable.	05.05
009	When more than one condition requires treatment and each of these conditions necessitates an individual treatment, they shall be charged as individual treatments. Full details of the nature of the treatments and the diagnosis or diagnostic codes shall be stated. Modifier 0009 must then be quoted after the appropriate code number to indicate that this rule is applicable.	04.00
010	When the treatment times of two completely separate and different conditions overlap, the fee shall be the full fee for one condition and 50% of the fee for the other condition. Both conditions must be specified. Modifier 0010 must then be quoted after the appropriate code number to indicate that this rule is applicable.	04.00
011	Every physiotherapist must acquaint himself with the provisions of the Medical Schemes Act, 1998 and the regulations promulgated under the Act in connection with the rendering of accounts. Every account shall contain the following particulars : · The name and practice code number of the referring practitioner (where applicable). · The name of the member. · The name of the patient. · The name of the medical scheme. · The membership number of the member. · The practice code number and name of practitioner · The nature and cost of the treatment. · The date on which the service was rendered. · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.	04.00
012	NB: Rounding off does not apply to amounts occurring once the modifiers are used.	04.00

PHYTOTHERAPY

Phytotherapy 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY PHYTOTHERAPISTS EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

RULES**ITEMS****Consultations**

Consultation encompasses consultation, history taking, patient examination and assessment, side room diagnostic tests, counseling and/or preparation of medicines.

PRIVATE HOSPITAL

Private Hospitals 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF PRIVATE HOSPITALS (PRACTICE NUMBERS "57" OR "58") AND UNATTACHED OPERATING THEATRE UNITS/DAY CLINICS (PRACTICE NUMBER "77") WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

SCHEDULE

B	The charges relating to each type of hospital/unattached operating theatre unit are indicated in the relevant column opposite the item codes.	09.05
C	The charges indicated in Section 5 hereof, are applicable to both categories of such hospitals and unattached operating theatre units.	04.00
D	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
E.1	Procedure for the classification of hospitals:	04.00
E.1.1	Inspections private hospitals or unattached operating theatre units/day clinics having practice code numbers commencing with the digits 057, 058 or 077 will be conducted by an independent agency on behalf of BHF. Applications to be addressed in writing to BHF.	09.05
E.3.2	The provisions referred to in E.1.1 shall apply mutatis mutandis to all approved specialised intensive care units, specialised theatres, catheterisation laboratories and trauma unit.	04.00
F.1	Procedures to consider applications by institutions to be classified as unattached operating theatre units having a practice code number commencing with the digits 77 and for the reclassification of unattached operating theatre units with 76 practice numbers.	09.05
F.1.1	Inspections of new unattached theatre operating units and units having practice code numbers commencing with the digit 76, to be reclassified as approved unattached operating theatre units having practice numbers commencing with the digits 77 will be conducted by an independent agency on behalf of BHF. Applications to be addressed in writing to BHF.	09.05
G	All accounts submitted by private and unattached operating theatre units/day clinics shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation.	09.05
H	All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the hospital/unattached operating theatre unit concerned.	09.05
I	All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount.	04.00
1	ACCOMMODATION	

Ward fees

	Hospitals and unattached operating theatre units shall indicate the exact time of admission and discharge on all accounts. In the case of hospitals, the day admission fee (code 007) shall be charged in respect of all patients admitted as day patients and discharged before 23h00 on the same date. The following will be applicable to items 001 to 005, 015, 020, 200, 201, 202 and 215 to 218: On the day of admission: If accommodation is less than 12 hours from time of admission : half the daily rate If accommodation is more than 12 hours from time of admission: full daily rate Two half day fees would be applicable when a patient is transferred internally between any ward and any specialised unit. On day of discharge: If accommodation is less than 12 hours: half the daily rate If accommodation is more than 12 hours: full daily rate	09.05

				RVU	Fee	RVU	Fee	RVU	Fee
1. The costs of special treatment of newly born infants, e.g. circumcision certified as necessary by the attending practitioner, which shall be dealt with in accordance with the National Reference Price List for private hospitals and the rules of the relevant scheme pertaining to such dependants. 2. If an epidural anaesthetic is given for either a vaginal delivery or a caesarean section, an additional fee (item 011) may be charged. This comprises of an epidural pack, all consumables used, as well as nursing time. 3. An uncomplicated stay in a nursery for routine observation is included in the maternity fee, as well as phototherapy and routine high care observation after delivery for the new born baby. 4. A neonate requiring specialised treatment in a ward, high care or ICU shall be considered to be a patient in its own right and, for that reason, the National Reference Price List shall be applied to such neonate and an account may be rendered on a fee for service basis. In such cases, the fixed fee per day remains applicable until the mother is discharged, but the amount of item 015, per day must be deducted from the fixed fee (comprising the nursery fee component). 5. If the mother is admitted into high care or ICU, the full account is rendered on a fee for service basis, as this is clearly not an uncomplicated delivery. The codes for the nursery fee (item 015) and the delivery room (item 016) must be used to cover these specific services. 6. The first day fee includes the cost of admitting the mother, 'prepping' and 'staging' etc, admission into the delivery room, the delivery and post natal period up until midnight. This includes any cost incurred during the early stages of an uncomplicated delivery, even if prolonged labour occurs. The second day is calculated as starting from midnight following the birth of the neonate on the day of the delivery. If however, the mother needs admission for stabilisation or treatment of a medical condition such as diabetes, pre-eclampsia or urinary tract infection, such an admission falls outside the scope of the maternity fixed fee. An account will then be rendered on a fee for service basis, until such time that the baby is delivered. If delivery itself is uncomplicated, then the first day (fixed) fee will be chargeable on the date of delivery, and second and subsequent days until the mother is discharged. If however, the mother is admitted to ICU or high care the full account must be rendered on a fee for service basis. If the baby needs admission - see (4). 7. Admission for suppression of premature labour is not an uncomplicated delivery, and an account must be rendered on a fee for service basis. 8. The following list of surgicals (maternity basket) are included in the per diem fee. THEATRE SURGICALS FOR NORMAL VAGINAL DELIVERIES THEATRE CHARGES 1 X Amnihook 1 X Continue Flo 1 X Cord Clamp 3 X Gloves Surgical St 8 X Gloves Sterile 4 X I D Bands 0.5 X Jaques Catheter 1 X Jelco IV 1 X KY Jelly Sachet 20 X Maternity Pad 5 X Preptic Swabs 1 X Spiral Electrode 1 X Spinocan 1 X Suction Catheter St 1 X Swabbing Tray 1 X Tegaderm 1626

	Equipment fees for automated, stereotactic, digital imaged surgical breast biopsy (UNDER REVIEW)								04.00
	Note: For the purpose of a 6 month trial cost analysis, the manufacturer of the ABBI equipment recommends that the total breast biopsy procedure, inclusive of all fees, disposables and professional charges should not exceed the current conventional open excisional procedures. The recommendation is to cap the amount at R12634.50 per procedure unless otherwise motivated for. Core needle and vacuum assisted core needle would therefore be capped at R 5053.80 and fine needle at R 3790.40. The disposables for the ABBI are included in the equipment fee.								05.03

	APPENDIX B PRINCIPLES The following principles are applicable: 1. At all times best clinical practice must be adhered too. 2. Items listed in the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities are described generically according to product classification and function. Trade names may be included, by means of example, for clarification purposes only. Photocopies of all documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documentation at the hospital/sameday surgical facilities concerned. The Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Sub-Acute Facilities, Private Hospitals and Sameday Surgery Facilities will be reviewed half-yearly. 3. The cost of consumable and disposable items used on a patient in a hospital must be recovered by means of a charge mechanism as follows: ¢ Items included in the per minute theatre fee. ¢ Items included in the per day ward or unit fee. ¢ Items are charged to the patient's account where reimbursement is not granted by a medical scheme. 4. Any agreed difference on the basic interpretation of the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities list will be made in accordance with the approval of the duly appointed representatives of the individual contractor, medical aid, MCO and representatives of private hospitals. Such approval shall be ratified in writing and circulated to all parties concerned. Where the hospital uses an excessively priced product, a review process should be conducted, and appropriate price adjustment made. 5. Disposable items are single use only and must never be reused. ¢ Single use items will be charged at 100%. ¢ Hospitals will sign an ethical undertaking that single use items will only be used once. If a hospital does not conform it may be reported to the group head office. If an acceptable explanation is not supplied within 14 days, payment on that account may be withheld. 6. Limited life re-usable products are products intended for multiple use and endorsed as such by the manufacturers. Such products will be charged according to the "Fractional" charges as detailed and are under continual review. The item will be considered life re-usable (limited multiple use) if it can re re-used less than 100 times (endorsed as such by the manufacturer).								09.05

7. Where a hospital uses an excessively priced product, a review process with the parties as listed under 3 above should be conducted, and appropriate price adjustment made. 8. TTO's will be issued and charged according to the rules of the scheme. 9. All prescribed items will be recoverable according to the rules of the scheme. Key Indicators The different key indicators in the Recommended Guide to Reimbursement for Consumable and Disposable Items charged by Private Hospitals and Same Day Surgery Facilities List are as follows: All prescribed items dispensed in wards or theatre are fully recoverable according to scheme's rules. <table><tr><th>Key</th><th>Description</th></tr><tr><td>THR</td><td>Theatre consumable and disposable items</td></tr><tr><td>WRD</td><td>Ward consumable and disposable items</td></tr><tr><td>NR</td><td>Item is non-recoverable</td></tr><tr><td>C</td><td>Item is chargeable under certain circumstance</td></tr><tr><td>R</td><td>Item is recoverable</td></tr><tr><td>P</td><td>Item is recoverable from patient</td></tr><tr><td>F</td><td>Fractional (re-usable) and is charged out on a pro-rata basis (as per 5.5.1-5.5.4).</td></tr><tr><td>N/A</td><td>Not used/not applicable</td></tr><tr><td>Disposable</td><td>Means the manufacturer states one time use only.</td></tr><tr><td>S/U(Single use) Item Payable</td><td>100%</td></tr><tr><td>Medical Prescribed Meals</td><td>See List</td></tr></table> Practice Code References to the NRPL-HS includes 57/58, 76 and 77 <table><tr><th></th><th>PRODUCT</th><th>THR</th><th>WRD</th><th>COMMENT</th></tr><tr><td>1.</td><td>Accessories for AV impulse, Flowtron DVT and similar (Impads, sequential stockings, calf garments, sleeves, cuffs and equivalents);</td><td>C</td><td>C</td><td>Subject to scheme rules and authorisation criteria;</td></tr><tr><td>2.</td><td>Adapters disposable</td><td>C</td><td>C</td><td></td></tr><tr><td>3.</td><td>Adapters re-usable</td><td>NR</td><td>NR</td><td></td></tr><tr><td>4.</td><td>Adhesive/non-adhesive bandages and rolls (Elastoplast, Micropore, Transpore and similar);</td><td>C</td><td>C</td><td>Fractional use is non-chargeable; Full rolls are chargeable when procedure related; Non-chargeable if used for restraining or strapping;</td></tr><tr><td>5.</td><td>Aerochamber</td><td>NR</td><td>NR</td><td>Chargeable as TTO</td></tr><tr><td>6.</td><td>Alcohol Swabs (Preptic, Webcol and similar)</td><td>NR</td><td>NR</td><td>Chargeable as TTO on prescription;</td></tr><tr><td>7.</td><td>Alcohol/Spirits</td><td>NR</td><td>NR</td><td></td></tr><tr><td>8.</td><td>Amalgam Caplets and all dental composites</td><td>NR</td><td>N/A</td><td></td></tr><tr><td>9.</td><td>Anaesthetic accessories (circuits, masks, trays);</td><td>NR</td><td>N/A</td><td>Blue and Green gauze chargeable separately</td></tr><tr><td>10.</td><td>Antipeol Ointment</td><td>NR</td><td>C</td><td>When prescribed by a doctor as a full unit or part of mixture.</td></tr><tr><td>11.</td><td>Antiseptic solutions (Hibiscrub, Betadine and similar);</td><td>NR</td><td>C</td><td>Chargeable for use in Burns and Haemorrhoidectomy. PSYCHOLOGY

Psychology 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY PSYCHOLOGISTS WITH EFFECT FROM 1 JANUARY 2009				
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.				
GENERAL RULES				
B	Where emergency treatment is provided:			04.00
	a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient at another venue; or b. after working hours the fee for such visits shall be the total fee plus 50%. For purposes of this rule: a. "emergency treatment" means a bona fide, justifiable emergency psychological procedure, where failure to provide the service immediately would result in serious or irreparable psychological or functional impairment b. "working hours" means 8h00 to 17h00, Monday to Friday. Modifier 0003 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.			
C	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.			04.00
D	Every account shall contain the following particulars:			05.03
	a) The surname and initials of the member; b) The surname, first name and other initials, if any, of the patient; c) The name of the scheme concerned; d) The membership number of the member; e) The practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service; f) The date on which each relevant health service was rendered; g) The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.			
E	Compilation of reports is only to be included within billable time if these reports are for purposes of motivating for therapy and/or giving a progress report and/or a pre-authorisation report, and where such a report is specifically required by the medical scheme. Maximum billable time for such a report is 15 minutes.			05.03
F	With the exception of compilation of reports as per Rule E, time charged in terms of the codes in this schedule only includes time spent in direct interaction with the patient.			05.05
MODIFIERS				
	Modifier governing the section Psychological Services			04.00
0003	Emergency treatments - Relevant fee plus 50%			04.00

PSYCHOMETRY

Psychometry & Registered Counsellors 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY PSYCHOMETRISTS WITH EFFECT FROM 1 JANUARY 2009							
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.							
GENERAL RULES							
A	Every account shall contain the following particulars:						05.04
	a) The surname and initials of the member; b) The surname, first name and other initials, if any, of the patient; c) The name of the scheme concerned; d) The membership number of the member; e) The practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service; f) The date on which each relevant health service was rendered; g) The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.						
B	Compilation of reports is only to be included within billable time if these reports are for purposes of motivating for therapy and/or giving a progress report and/or a pre-authorisation report, and where such a report is specifically required by the medical scheme. Maximum billable time for such a report is 15 minutes.						05.04

RADIOGRAPHY

Radiography 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY RADIOGRAPHERS EFFECTIVE FROM 1 JANUARY 2009					
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.					
DIAGNOSTIC PROCEDURES					
Note : Items 015, 029, 031, 033, 037, 065, 071, 073, 075, 077, 079, 081, 083, 085, 087, 089, 091, 093, 095, 097, 099, 101, 115, 117, 119, 121, 129, 131, 133, 135, 137, 139, 141, 149, 167, 171 and 173 should be only be paid on condition that the radiographer submits the name of the supervising clinician and his/her BHF practice number. Schemes should not pay the radiographer if she/he is supervised by a radiologist.					
GENERAL RULES					
1000	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.				04.00
MODIFIERS					
0001	The specified call-out fee may be charged for any bona-fide, justifiable emergency occurring at any hour which requires the practitioner to travel to the patient. Individual medical schemes may require a motivation to accompany the claim.	06.02		12.490	38.97 (34.18)
0021	Services rendered to hospital patients: Quote modifier 0021 on all accounts for services performed on hospital or day clinic patients.				04.00
0080	Multiple examinations: Full fees				04.00
0081	Repeat examinations: No reduction				04.00
0084	Films should be charged under code 300.				06.02

185	Where portable x-ray unit is used in the hospital or theatre: Add	04.00		19.400	60.50 (53.10)
187	Theatre investigations with fixed installation : Add	04.00		8.300	25.90 (22.70)

RADIOLOGY

Radiology 2009

NATIONAL REFERENCE PRICE LIST FOR RADIOLOGISTS, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

This schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). "025" practices may only charge the codes with a 3rd digit of 9. "038" practices may charge all codes except codes with a 3rd digit of 9.

Practitioners registered as both radiologists and nuclear physicians may charge all codes.

This schedule must be used in conjunction with the Radiological Society of S A Guidelines. Please refer to the PET guidelines in Annexure D.

Code Structure Framework

- a. The tariff code consists of 5 digits
 - i. 1st digit indicates the main anatomical region or procedural category.
 - 0 = General (non specific)
 - 1 = Head
 - 2 = Neck
 - 3 = Thorax
 - 4 = Abdomen and Pelvis (soft tissue)
 - 5 = Spine, Pelvis and Hips
 - 6 = Upper limbs
 - 7 = Lower limbs
 - 8 = Interventional
 - 9 = Soft tissue regions (nuclear medicine)
 eg "Head" = 1xxxx
 - ii. 2nd digit indicates the sub region within a main region or category eg.
 - "Head / Skull and Brain" = 10xxx
 - iii. 3rd digit indicates modality
 - 1 = General (Black and White) x-rays
 - 2 = Ultrasound
 - 3 = Computed Tomography
 - 4 = Magnetic Resonance Imaging
 - 5 = Angiography
 - 6 = Interventional radiology
 - 9 = Nuclear Medicine (Isotopes)
 eg:
 "Head / Skull and Brain / General x-ray" = 101xx
 - iv. 4th and 5th digits are specific to a procedure / examination, eg
 "Head / Skull and Brain / General / X-ray of the skull" = 10100.

Guidelines for use of coding structure

- The vast majority of the codes describe complete procedures / examination and their use for the appropriate studies is self-explanatory.
- Some codes may have multiple applications and their use is described in notes associated with each code
- Codes 00510 to 00560 (Angiography machine codes) may only be used by owners of the equipment and who have registered such equipment with the Board of Healthcare Funders / RSSA.
- The machine codes 00510, 00520, 00530, 00540, 00550, 00560 may not be added to 60540, 60550, 70530, 70535 (Antegrade Venography, upper and lower limbs)
- Where public sector hospital equipment is used for a procedure, the units will be reduced by 33.33%.

Consumables

- Contrast Medium
 - o Prior to the implementation of Act 90, contrast will be billed according to the official 2004 RSSA reimbursement price list, without mark up.
 - o After the implementation of Act 90, contrast medium will be billed according to the suppliers' list price, without mark up.
- Angiography catheters, angioplasty balloons, stents, coils and other embolisation materials, guide wires and drains are to be billed at net acquisition cost, without mark up, until the implementation of Act 90.
- All other consumables are to be billed at net acquisition price, until the implementation of Act 90. Thereafter Act 90 regulations apply.
- The cost of film is included in the comprehensive procedure codes and is not billed for separately.
- Appropriate codes must be provided for consumables.

General Comments on Procedural Codes							
• All x-ray tomography codes are stand alone studies and may be used as a unique study or in combination with the appropriate regional study if done simultaneously. May not be added to 20130, 42110, 42115. • Setting of sterile tray is included in all appropriate procedure codes. • Where introduction of contrast is necessary eg. sialography, arthrography, angiography, etc, the codes used for the procedures are comprehensive and include the introduction of contrast or isotopes. • The use of Doppler or Colour Doppler as an adjunct to a study (eg small parts thyroid) is included in the code for that study. • CT Angiography (10330, 20330, 32300, 32310, 44300, 44310, 44320, 44330, 60310, 70310, 70320) are stand alone studies and may not be added to the regional contrasted studies (see 10335, 20340, 20350, 44325 for combined studies). • Angiography and interventional procedures include selective and super selective catheterization of vessels as are necessary to perform the procedures.							
Codes 00230 (Ultrasound guidance), 00320 (CT guidance) and 00430 (MR guidance) are stand alone procedures that include the regional study and may not be added to any of the ultrasound, CT or MR regional studies

Call and assistance							
	- Emergency call out code 01010 only to be used if radiologist is called out to the rooms to report on an examination after normal working hours. May not be used for routine reporting during extended working hours. - Emergency call out code 01020 only to be used when a radiologist reports on subsequent cases after having been called out to the rooms to report an initial after hours procedure. This code may also be used for home tele-radiology reporting of an emergency procedure. May not be used for routine reporting during normal or extended working hours. - Radiologist assistance in theatre code 01030 only to be used if the radiologist is actively involved in assisting another radiologist or clinician with a procedure. - Radiographer assistance in theatre 01040 may not be used for procedures performed in facilities owned by the radiologist; ie only for attendance in hospital theatres etc. Does not apply to Bed Side Unit (BSU) examinations. - Second opinion consultations only to be used if a written report is provided as indicated in codes 01050, 01055, 01060. Not intended for ad hoc verbal consultations.						05.05

Lower Limbs					
General					
	Code 70100 (stress) is a stand alone study and may not be combined with other codes. Code 70110 (tomography) may be combined with any one of the defined regional x-ray studies of the lower limb. Motivation may be required for more than one regional tomographic study per visit. Code 70200 (U/S) may only be billed once per visit. Code 70300 ((CT) limited study – limited to a small region of interest eg part of condyle of the knee. Codes 70310 and 70320 (CT angiography) may not be combined. Code 70400 (MR limited) may only be used once per visit. Code 70410 and 70420 (MR angiography) may not be combined.				04.00
70100	X-ray lower limbs - any region- stress studies only	04.00			4.520 335.60 (294.40)
70110	X-ray lower limbs - any region-tomography	04.00			4.300 319.30 (280.10)
70120	X-ray of the lower limbs full length study	04.00			6.460 479.60 (420.70)
70200	Ultrasound lower limb – soft tissue - any region	04.00			7.380 547.90 (480.60)
70210	Ultrasound of the peripheral arterial system of the left leg including B mode, pulse and colour Doppler	04.00			13.640 1012.70 (888.30)
70220	Ultrasound of the peripheral arterial system of the right leg including B mode, pulse and colour Doppler	04.00			13.640 1012.70 (888.30)
70230	Ultrasound peripheral venous system lower limbs including pulse and colour doppler for deep vein thrombosis	04.00			13.640 1012.70 (888.30)
70240	Ultrasound peripheral venous system lower limbs including pulse and colour doppler in erect and supine position including all compression and reflux manoeuvres, deep and superficial systems bilaterally	04.00			19.660 1459.70 (1280.40)

Intervention							
General							
	Codes 80600, 80605, 80610, 80620, 80630, 81660, 81680, 82600, 84660, 85640, 85645, 86610, 86615, 86620, 86630, (aspiration / biopsy / ablations etc) may be combined with the relevant guidance codes (fluoroscopy, ultrasound, CT, MR) as previously described. The machine codes 00510, 00520, 00530, 00540, 00550, 00560 may not be combined with these codes. If ultrasound guidance (00230) is used for a procedure which also attracts one of the machine codes (00510, 00520, 00530, 00540, 00550, 00560), it may not be billed for separately. Codes 80640, 80645, 87682, 87683 include fluoroscopy. Machine fees may not be added. All other interventional procedures are complete unique procedures describing a whole comprehensive procedure and combinations of different codes will only be supported when motivated.						05.03
80600	Percutaneous abscess, cyst drainage, any region	04.00				9.370	695.70 (610.30)

Vascular							
	Code 87654 (Thrombolysis follow up) may only be used on the days following the initial procedure, 87650 (thrombolysis). If a balloon angioplasty and / or stent placement is performed at more that one defined anatomical site at the same sitting the relevant codes may be combined. However multiple balloon dilatations or stent placements at one defined site will only attract one procedure code.						04.00

ANNEXURE A

Radiology tariff Contrast price effective 1 Jan 2004 PER VIAL
For use in conjunction with codes:

00190 X-ray examination contrast material
00290 Ultrasound examination contrast material
00390 CT examination contrast material
00490 MR examination contrast material
00590 Angiography and interventional examination contrast material

Note to Funders:

The following contrast items may be grouped into various categories e.g. Ionic, non-Ionic, and several items may be appropriate for use within a category. Funders may either reimburse as per identified item or may choose to apply a reference price within a category. For detail of methodology refer to Annexure B.

ANNEXURE D. PET GUIDELINES

A. INDICATIONS	
For the purposes of this guideline, only established indications for PET-CT are included and this relates to the more common types of malignancies as seen in practice. While some of the less common forms of cancer may also yield advantages with PET-CT imaging, there is as yet insufficient published data to support the general use and these have been excluded in the list below. This situation may change as new research and information becomes available.	09.00
1. Non-small cell lung carcinoma (NSCC) a) Primary diagnosis of lesions i. >10mm diameter lesions where conventional imaging and biopsy have been inconclusive. b) Staging especially where curative surgery is planned i. Evaluation of primary tumour (T-stage). ii. Suspected nodal disease or characterization of nodal disease iii. Suspected distal metastases of determining extent of metastases. iv. Solitary distal metastasis where metastectomy is considered. PET-CT is used to exclude additional lesions which would preclude surgery. c) Investigation of suspected recurrence (restaging) i. Local or regional recurrence ii. Nodal or distal recurrence iii. Determine the extent of proven recurrent disease iv. Differentiate fibrotic mass from active disease d) All patients with proven carcinoma of the lung, who are considered for curative resection, should be imaged with PETCT prior to surgery. e) Current available literature confirms that PET-CT is more accurate than CT or PET alone for staging and restaging of NSCC.	09.00
2. Hodgkin's and Non-Hodgkin's Lymphoma a) Single most accurate imaging modality for Hodgkins and Non-Hodgkins lymphoma. b) Staging i. All patients prior to commencing treatment as baseline, following diagnosis. ii. Indicated at completion of therapy to confirm complete response. c) Monitoring of response to treatment i. Numerous studies have confirmed that mid-treatment PET scans predict clinical outcome. ii. Prognostic value and role in modification of therapeutic regime. d) Investigation of residual or recurrent disease (restaging) i. Where conventional imaging is equivocal for residual disease. ii. Suspected nodal recurrence. iii. Differentiating recurrent and residual disease from post-therapeutic fibrosis and scarring.	09.00
3. Thyroid carcinoma a) Not indicated for primary diagnosis. b) Staging i. Primary examination of choice is I-123 whole body scintigraphy. ii. Only indicated for differentiated and medullary carcinoma of the thyroid in patients with negative I-123, but with a high index of suspicion for nodal or distal metastases on cross sectional imaging or where whole body I-123 scan is equivocal. c) Investigation of residual or recurrent disease (restaging) i. Elevated thyroglobulin despite negative whole body scintigraphy for differentiated thyroid carcinoma. ii. Elevated calcitonin levels and equivocal imaging findings for medullary thyroid carcinoma. iii. Solitary distal metastasis where metastectomy is considered. PET-CT is used to exclude additional lesions which would preclude surgery.	09.00

Code	Description	Ver	Add	Nuclear Medicine		Radiology	
				RVU	Fee	RVU	Fee
	4. Head and neck carcinoma a) Primary diagnosis i. There is little, if any, role for PET-CT in primary diagnosis of mucosal lesions. ii. Limited to identifying primary tumour in histologically proven metastatic squamous cell carcinoma in cervical nodes. b) Staging of the primary tumour prior to therapy i. Local nodes which are equivocal on CI (conventional imaging). ii. Suspected distal adenopathy iii. Suspected distal metastases iv. All patients where uni- or bilateral surgery is planned (may alter management and approach by up to 50% and is significantly more accurate than CT alone). v. Excellent sensitivity (95%) for local and distal nodal disease (specificity in local disease may be affected by physiological uptake). c) Investigation of residual or recurrent disease (restaging) i. Differentiating fibrosis and recurrence where routine imaging is equivocal and may reduce the number of equivocal findings by up to 50%. ii. Following neo-adjuvant therapy for re-staging. iii. Suspected local or distal recurrence. iv. Differentiating post-therapeutic changes from residual or recurrent tumours poses significant problems for CT and MRI. PET-CT is significantly more accurate than routine cross sectional imaging in this regard.						09.00
	5. Breast cancer a) There is no role for PET-CT in the primary diagnosis, sentinel node mapping or imaging of locally contained node negative tumours. b) No role for carcinoma-in-situ. c) PET-CT imaging is limited to patients with infiltrating ductal carcinoma. d) Staging i. Only indicated if there is a significant chance of distal disease as determined by axillary dissection or where conventional imaging is equivocal. ii. Can result in up to 57% change of stage and management compared to other CI (conventional imaging). iii. High accuracy (86% vs. 77% for CT alone) for nodal and distal metastases in patient with infiltrating ductal carcinoma. e) Investigation of recurrent disease (restaging) i. Suspected local or regional recurrence. ii. Suspected nodal or distal metastatic recurrence. iii. Differentiate post therapeutic fibrosis from recurrent or residual tumour. iv. Significantly more accurate for nodal and distal recurrence than conventional imaging.						09.00
	6. Colorectal cancer a) No role in the diagnosis of the primary tumour. b) Accurate for staging (89%) and restaging (88%) c) Staging i. Suspected distal nodal metastases where conventional imaging is equivocal, particularly distal nodes. ii. Suspected distal metastases. iii. Evaluation of suspected single metastases considered for curative surgical resection to exclude concomitant disease. iv. May result in changes in treatment in up to 27% of patients. d) Investigation of residual or recurrent disease (restaging) i. Suspected local pelvic or distal recurrence. ii. Differentiate local and distal post therapeutic changes from residual and recurrent disease. iii. Evaluate and restage following neo-adjuvant therapy. iv. Evaluate patients with rising tumour markers and normal or equivocal conventional imaging.						09.00
	7. Stomach carcinoma - GIST a) In GIST tumours FDG tracer uptake is established. i. Indicated to determine response to treatment as determined by tumour activity on PET-CT measuring tracer uptake (SUV). ii. Paradigm shift in assessing tumour responses to treatment. iii. Response to Imatinib (Gleevec) can be predicted with 18FFDG as early as 24h after commencing treatment and long before any change in tumour size is demonstrated on conventional imaging. iv. Baseline study before commencing treatment is essential to determine degree of tracer uptake for post-treatment comparison. b) Variable uptake of tracer in other stomach tumours, which is difficult to explain and to predict. Routine imaging is not supported in other types of stomach tumours, at this stage.						09.00
	8. Testicular Carcinoma a) Complex histology and variable uptake of different histological sub-groups. b) Limited to seminoma and teratoma in the following cases: i. Evaluate residual mass to differentiate residual/recurrent tumour from fibrosis. ii. Suspected recurrence but normal or equivocal conventional imaging findings.						09.00
	9. Oesophageal carcinoma a) Not indicated for primary diagnosis. b) Staging for nodal and distal metastases (90% accurate) i. Indicated for N-staging, particularly where there is suspected distal nodal disease or where conventional imaging is equivocal. ii. Indicated for M- staging where distal metastases are suspected. iii. Strongly indicated for patient undergoing curative surgery to exclude distal disease. c) Investigation of residual or recurrent disease (restaging) i. Restaging for patients who have undergone neo-adjuvant chemotherapy. ii. Suspected local or distal recurrent disease. iii. Differentiate post therapeutic fibrosis from recurrent or residual disease.						09.00

Code	Description	Ver	Add	Nuclear Medicine		Radiology	
				RVU	Fee	RVU	Fee
	10. Melanoma a) No role in primary diagnosis which is primarily a surgical/histological diagnosis. b) Staging is determined by depth of penetration of the primary tumour and presence of sentinel node at surgery. i. Indicated for Stage 3 and 4 disease where there is a high incidence of distal nodal and metastatic disease. ii. Solitary distal metastasis on conventional imaging where metastatectomy is considered. PET-CT is used to exclude additional lesions which would preclude surgery. iii. Overall N and M staging is significantly more accurate than conventional imaging (97% vs 80%). c) Investigation of recurrent disease (restaging) i. Modality of choice for recurrent nodal and distal metastatic disease. ii. Differentiate post therapeutic fibrosis from recurrent or residual disease. d) PET-CT may alter management in up to 34% of patients with Stage III and IV disease.						09.00
	11. Ovarian carcinoma a) Most cases present as advanced disease. b) Recurrence is frequent and the overall 5-y survival for advanced disease is only 17%. c) Diagnosis and initial staging require a laparotomy as small peritoneal deposits may be difficult to demonstrate on imaging i. PET-CT is indicated where surgical or conventional imaging findings are equivocal for primary staging. ii. PET-CT is accurate for demonstrating nodal and distal disease. iii. Sensitivity is limited by size of peritoneal deposits. It is more accurate for macroscopic disease. d) Investigation of recurrent disease (restaging) i. Superior to CT and MRI for recurrence (92% sens. and 75% spec.). ii. Alternative to a second look laparotomy (presents significant cost saving potential). iii. Definite role for patients with rising tumour marker where conventional imaging is negative for recurrence.						09.00
	12. Carcinoma of unknown primary a) By definition, unknown primary tumors are those that remain undetected after all diagnostic resources have been used. b) PET-CT may detect up to 57% primary tumours when conventional cross sectional imaging has been negative. c) PET-CT is indicated where conventional imaging has failed to identify a primary malignancy.						09.00
B.	LIMITED VALUE AND RELATIVE CONTRAINDICATIONS						
	These conditions are those where there is variable or poor uptake of the tracer FDG or where imaging is routinely performed with tracers other than FDG which are not locally available. This may result in false negative findings using FDG and the routine use of PET-CT should be discouraged.						09.00
	1. Urological Malignancy a) No role in diagnosis and staging of renal cell carcinoma b) Prostate limited to suspected recurrence in histologically proven high grade tumours. Prostate is ideally imaged with Choline as tracer. c) No role for diagnosis and staging of bladder carcinoma 2. Broncho-alveolar cell carcinoma 3. Small cell carcinoma of the lung 4. Hepatocellular carcinoma 5. Sarcomas 6. Neuro-endocrine tumours 7. Anaplastic thyroid carcinoma which is Grade 4 by definition, at diagnosis. 8. Suspected brain tumours where MRI is more sensitive and specific. 9. Tumours with large mucinous components. 10. Lobular carcinoma of the breast						09.00
	In addition to these tumours, imaging should be used with caution in patients who are diabetic or who have recently used high doses of cortico-steroids.						09.00

REGISTERED NURSES IN PRIVATE PRACTICE AND NURSING AGENCIES

Registered Nurses In Private Practice and Nursing Agencies 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY REGISTERED NURSES IN PRIVATE PRACTICE AND NURSING AGENCIES, EFFECTIVE FROM 1 JANUARY 2009		
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.		
A	GENERAL INFORMATION	
The "RegN" column (Practice Type 48800) of this schedule is a reference price list for registered nurses and midwives only (not enrolled nurses) in private practice, and may only be charged by the registered nurse performing the procedure, and whose practice number is reflected on the account. The "NAgen" column (Practice Type 48000) of this schedule is a reference price list for registered accredited nursing agencies and accredited home health care organizations only (not nurses in private practice), i.e. if employed at a nursing agency or home health care organization the private nurse practitioner may not submit claims on his / her practice number. A registered nurse or midwife is a nurse or midwife registered with the South African Nursing Council in terms of the Nursing Act 50 of 1978 (as amended). 1. Agency refers to: a) An accredited business registered / licensed with the S A Nursing Council carrying out the business of providing Registered and supervised Enrolled Nursing services, as well as surgicals and equipment. b) The agency should also be registered with a representative professional governing body. 2. Home health care organisations refers to: a) An accredited business that provides registered and supervised Enrolled Nursing services, as well as surgicals and equipment for home care. b) The accredited home care organisation should also be registered with a representative professional governing body. All accounts must be presented with the following information clearly stated: i. Name of nurse practitioner, agency or home health care organization (whichever is applicable); ii. Pre-authorisation code, when applicable iii. Qualifications of the nurse practitioner iv. BHF practice number v. Section 22A permit number (if applicable) vi. Postal address and telephone number vii. Dates on which services were provided viii. The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered. ix. Surname and initials of the member x. First name of the patient xi. Name of the scheme xii. Membership number of the member xiii. Where the account is a photocopy of the original, certification by way or rubber-stamp and signature of the nurse, or in the case of "80" practice numbers, the appropriate representative agent xiv. A statement of whether the account is in accordance with the National Health Reference Price List xv. Where the after care is taken over by the nurse practitioner, a letter of referral from the doctor with the diagnosis and treatment should be attached.		
B	GENERAL RULES	
01	CONSULTATION, COUNSELING, PLANNING AND/OR ASSESSMENT: Consultation, counseling and / or assessment (codes 001 and 002 below) encompasses consultation, history taking, patient examination and assessment, observation, treatment planning, after care treatment planning, discharge planning and/or counseling. If a consultation and one or more procedures are performed in the visit, both a consultation code and the relevant procedure code(s) may be charged but the time spent on the procedure shall not be included in the consultation period for purposes of determining the consultation fee. A consultation may not be charged where the sole purpose of the visit was to perform a procedure.	04.00
02	EMERGENCY VISITS Bona-fide, justifiable emergency nursing services rendered to a patient, at any time, may attract an additional fee as specified in item 014. These specifically relate to home visits for procedures which become necessary outside those which have been pre-arranged, such as but not exclusively, blocked urinary catheters, IV therapy which tissues or wound(s) which are draining excessively and require additional dressing. These should be accompanied by a written motivation. NOTE THAT THIS FEE IS ONLY APPLICABLE TO REGISTERED NURSES IN PRIVATE PRACTICE, AND NOT TO NURSING AGENCIES.	04.00

Code	Description	Ver	Add	Nursing Agencies/Home Care Services		Registered Nurses	
				RVU	Fee	RVU	Fee
021	SUNDAYS AND PUBLIC HOLIDAYS When codes 036, 037 or 038 are charged for services rendered on a Sunday, the fee in respect of these codes shall be inflated by 50%. Modifier 0007 must be quoted after the appropriate code number(s) to indicate that this rule is applicable. When codes 036, 037 or 038 are charged for services rendered on a public holiday, the fee in respect of these codes shall be inflated by 100%. Modifier 0001 must be quoted after the appropriate code number(s) to indicate that this rule is applicable. NOTE THAT THIS FEE IS ONLY APPLICABLE TO NURSING AGENCIES AND NOT TO REGISTERED NURSES IN PRIVATE PRACTICE.						05.03
03	PROCEDURES If a composite fee or general hourly rate is charged, no additional fee for procedures may be charged. The fee in respect of more than one procedure performed at the same time shall be the fee in respect of the major procedure plus 50% of the fee of each subsidiary or additional procedure. Modifier 0002 to be quoted.						04.00
04	FEES The rate that may be charged in respect of rendering a service not listed in this benefit schedule shall be based on the rate in respect of a comparable service. Modifier 0003 to be quoted with the description of service rendered and the applicable item number used.						04.00
05	COST OF MEDICINES AND MATERIALS The amount charged in respect of medicines and scheduled substances shall not exceed the limits prescribed in the Regulations Relating to a Transparent Pricing System for Medicines and Scheduled Substances, dated 30 April 2004, made in terms of the Medicines and Related Substances Act, 1965 (Act No 101 of 1965). In relation to all other materials, items are to be charged (exclusive of VAT) at net acquisition price plus - * 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; and * a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands. Item 301 is to be quoted except for stoma products where item 205 is to be quoted.						04.00
051	MEDICINES Scheduled medicines may not be supplied by an institution. Intramuscular/Intravenous injection and OPAT may only be administered by a registered nurse.						05.03
06	EQUIPMENT (HIRE AND SALES) Hiring equipment: 1% of the current replacement value of the equipment per day. Total charge not to exceed 50% of replacement value. Description of equipment to be supplied. To be billed in terms of item 302. Payment of this item is at the discretion of medical scheme concerned, and should be considered in instances where cost savings can be achieved. By prior arrangement with the medical scheme. For equipment that is sold to a member, the net acquisition cost of the equipment may be charged (item 303). This should be on a separate invoice attached to the account as the cost of these items are refunded to the member and not paid to the supplier.						04.00
07	MIDWIFERY The global fee is to be charged where the midwife and any assistants attend to the entire four stages of delivery. Item 399 or 403 to be quoted. No additional service fee may be levied, but pharmaceuticals may be charged under item 301. Where intravenous infusions (including blood or blood cellular products) are administered as part of the after treatment after confinement, no extra fees will be charged as this is included in the global maternity fees. Should the attending midwife prefer to ask a medical practitioner to perform intravenous infusion, then the midwife (and not the patient) is responsible for remunerating such practitioner for the infusions. When a registered midwife treats a patient in the antenatal period and after starting the confinement requests a doctor to take over the case, the registered midwife shall calculate the fee for work done up to the handover of the case. Should a midwife be required to hand over the case to a medical practitioner due to complications during a home delivery and she is required to assist, item 410 may be used. Where the confinement has not started and the midwife requests a doctor to take over the case, the fee for the visits during early labour shall be charged as item 406. This may not be combined with item 400. Antenatal/postnatal exercise or education classes are generally not covered by the schemes and payment is the responsibility of the member.						05.03
08	TRAVEL FEE Please note that generally schemes do not accept the responsibility for transport expenses, as they are deemed to be included in the fee.						04.00
09	WELL BABY CLINICS Where vaccines are issued free by the state, no charge may be levied for the product. Vaccines may only be purchased, stored and dispensed by nurses with a Section 22A (15) permit. Emergency equipment must be available in the clinic.						05.06
10	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.						04.00
MODIFIERS							
0001	Public holidays, add 100%. Nursing agencies only.						05.03
0002	Only 50% of the fee in respect of subsidiary/additional procedures may be charged.						04.00
0003	The fee that may be charged in respect of the rendering of a service not listed in this recommended benefit schedule, shall be based on the fee in respect of a fee for a comparable service. Motivation must be attached.						04.00
0007	Sundays add 50%. Nursing agencies only.						05.03

014	For emergency consultation/visit, all hours - See General Rule 2.	04.00				7.700	64.20 (56.30)
SPECIMENS.							
020	This must form part of a consultation when a consultation is charged. Where a consultation was not performed and the nurse visited or attended to the patient with the sole purpose of obtaining a specimen, and dispatching to a laboratory or using own machine to test – please state specimen type and, where applicable, machine and test performed.	04.00		4.600	38.30 (33.60)	4.600	38.30 (33.60)
OBSERVATIONS. (Temperature, Pulse Respiration and B.P.)							
025	Where a consultation was not performed and the nurse attended to the patient with the sole purpose of doing an observation.	04.00		4.600	38.30 (33.60)	4.600	38.30 (33.60)
ADMINISTRATION OF MEDICATION.							
030	Where a consultation was not performed and the nurse attended to or visited the patient with the sole purpose of administering intramuscular or intravenous medication. The route of administration of medication to be stated, as well as the name of the medication. Oral, rectal, vaginal medication excluded as well as the application of topical medicine.	04.00		4.600	38.30 (33.60)	4.600	38.30 (33.60)
452	Immunisation	04.00				3.000	25.00 (21.90)
OPAT (Antibiotics, Chemotherapy, Blood Products and Dehydration)							
035	All inclusive global fee for the setting up of an IV line and administration of intravenous therapy by a registered nurse.	05.02		24.300	202.50 (177.70)	24.300	202.50 (177.70)
036	When a SRN returns to add medication to an existing IV infusion	05.02		12.200	101.70 (89.20)	12.200	101.70 (89.20)
COMPOSITE FEES							
	Note : These fees may only be charged by members of an accredited home healthcare organisation for services rendered at patient's home. (Care givers are not included in the fee). This includes all post hospitalisation/nursing care during a 24 hour period or part thereof. Motivation by a medical practitioner required. Single procedures/visits are not to be charged as a composite fee.						05.03
032	Low intensity care (Presenting problem(s) that are of low severity. The patient is stable, recovering or improving).	05.02		42.700	355.90 (312.20)		
033	Medium intensity care (Presenting problem(s) that are of moderate severity. The patient is responding inadequately to therapy or has developed a minor complication).	05.02		61.700	514.30 (451.10)		
034	High intensity care (this item presenting problem(s) that are of high complexity. The patient is unstable or has developed a significant new problem). By arrangement with scheme.	05.02					
	The above fees includes : all nursing intervention in a 24 hour period; all visits of a supervisory nature; non-recoverable items e.g. disinfectants, soaps, towellets, hibitane, aprons, fractions of strapping etc.; all travelling costs; all administrative costs; delivery/courier costs where these are necessary but excludes : any drugs and surgicals required; equipment sale or hire; auxiliary services by paraprofessionals, e.g. OT's and physiotherapists.						
	Note : Item 035 should not represent more than 4% of all claims received.						05.03
RECOMMENDED HOURLY RATES FOR REGISTERED NURSING AGENCIES							
039	Enrolled nursing assistant, per hour	05.02		3.700	30.80 (27.10)		
037	Enrolled nurse, per hour	05.03		5.100	42.50 (37.30)		
038	Registered nurse, per hour	05.03		6.460	53.80 (47.20)		

Code	Description	Ver	Add	Nursing Agencies/Home Care Services		Registered Nurses	
				RVU	Fee	RVU	Fee
	1. The fee for 24 hour daily care may not exceed R 420.00 per day (or R 630.00 on a Sunday or R 840.00 on a public holiday) and no other procedure may be charged. 2. In the case of litigation, the registered nurse will be co-responsible for the practice of the enrolled nurse. 3. All services to be re-negotiated with the scheme every 7 days or such lesser period as stipulated in pre-authorisation.	05.03					
CARE OF WOUNDS (The pathology must be stated).							
040	Treatment of simple wounds/burns requiring dressing only.	04.00		8.800	73.30 (64.30)	8.800	73.30 (64.30)

SOCIAL WORKERS

Social Workers 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY SOCIAL WORKERS, EFFECTIVE FROM 1 JANUARY 2009				
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.				
GENERAL RULES				
005	Every practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars: a) The surname and initials of the member; b) The surname, first name and other initials, if any, of the patient; c) The name of the scheme concerned; d) The membership number of the member; e) The practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service; f) the relevant diagnostic and such other item code numbers that relates to such relevant health service; g) The date on which each relevant health service was rendered; h) The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.			04.00
006	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.			04.00
007	Where emergency treatment is provided: a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient at another venue; or b. after working hours the fee for such visits shall be the total fee plus 50%. For purposes of this rule: a. "emergency treatment" means a bona fide, justifiable emergency social work service, where failure to provide the service immediately would result in serious or irreparable psychological or functional impairment b. "working hours" means 8h00 to 17h00, Monday to Friday. Modifier 0003 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.			04.00
008	Compilation of reports is only to be included within billable time if these reports are for purposes of motivating for therapy and/or giving a progress report and/or a pre-authorisation report, and where such a report is specifically required by the medical scheme. Maximum billable time for such a report is 15 minutes.			05.03
Modifiers				
0003	Add 50% of the total fee for the treatment			04.00
0021	Services rendered to hospital inpatients: Quote modifier 0021 on all accounts for services performed on hospital inpatients.			04.00
0022	Services rendered at patients residence: Quote modifier 0022 on all accounts for services performed at the patients residence.			04.00

SPEECH THERAPY AND AUDIOLOGY

Speech Therapists and Audiologists 2009

NATIONAL REFERENCE PRICE LIST FOR SERVICES BY SPEECH THERAPISTS AND AUDIOLOGISTS, EFFECTIVE FROM 1 JANUARY 2009							
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.							
General Rules							
A	All accounts must be presented with the following information clearly stated:						04.00
	· name of practitioner · qualifications of the practitioner; · BHF practice number; · postal address and telephone number; · date on which service(s) were provided; · The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered; · the surname and initials of the member; · the first name of the patient; · the name of the scheme; · the membership number of the member; and · the name and practice number of the referring practitioner, if applicable.						
B	The rate in respect of more than one evaluation under item 1800 shall be the full rate for the first evaluation plus half the rate in respect of each additional evaluation, but under no circumstances may fees be charged for more than three evaluations carried out.						09.00
D	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.						04.00
E	Materials used in treatment shall be charged (exclusive of VAT) at net acquisition price plus –						05.03
	- 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; - a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands.						
	Use item 300 for this purpose.

3. Audiology.							
A. Peripheral Hearing Evaluation							
1100	Air conduction, pure tone audiogram	09.00				15.000	105.20 (92.30)
	Often physicians or technicians can diagnose a cause of hearing loss through tests using an audiometer. Many causes of hearing loss have characteristic threshold curves. In pure tone audiometry, earphones are placed and the patient is asked to respond to tones of different pitches (frequencies) and intensities. The threshold, which is the lowest intensity of the tone that the patient can heard 50 percent of the time, is recorded for a number of frequencies on each ear. The air and bone conduction thresholds are compared to differentiate between conductive, sensorineural, or mixed hearing losses. Cannot be used with codes 1900;1120; 1121.						
1105	Bone conduction pure tone audiogram	09.00				12.000	84.20 (73.80)
	Often physicians or technicians can diagnose a cause of hearing loss through tests using an audiometer. Many causes of hearing loss have characteristic threshold curves. In pure tone audiometry, earphones are placed and the patient is asked to respond to tones of different pitches (frequencies) and intensities. The threshold, which is the lowest intensity of the tone that the patient can hear 50 percent of the time, is recorded for a number of frequencies on each ear. Bone thresholds (1105) are obtained in a similar manner except a bone oscillator is used on the mastoid or forehead to conduct the sound instead of tones through earphones. The air and bone thresholds are compared to differentiate between conductive, sensorineural, or mixed hearing losses. Cannot be used with codes 1905; 1120;1121.						
1110	Full Speech Audiogram including speech reception threshold and discrimination at two or more levels. (3277)	09.00				15.000	105.20 (92.30)
	Often physicians or technicians can diagnose a cause of hearing loss through tests using an audiometer. Many causes of hearing loss have characteristic threshold curves unique to that specific diagnosis. In speech audiometry, earphones are placed and the patient is asked to repeat bisyllabic (spondee) words. The softest level at which the patient can correctly repeat 50 percent of the spondee words is called the speech reception threshold. The threshold is recorded for each ear in 1115. The process occurs in 1110, in addition to a speech threshold test in 1115. The word discrimination score in 1110 is the percentage of spondee words that a patient can repeat correctly at a given intensity level above his or her speech reception threshold. This is also measured for each ear at two ore more intensities per ear. Cannot be used with codes 1910;1122;1115.						
1115	Speech audiogram screening	09.00				5.000	35.10 (30.80)
	Often physicians or technicians can diagnose a cause of hearing loss through tests using an audiometer. Many causes of hearing loss have characteristic threshold curves unique to that specific diagnosis. In speech threshold audiometry, earphones are placed and the patient is asked to repeat bisyllabic (spondee) words. The softest level at which the patient can correctly repeat 50 percent of the spondee words is called the speech reception threshold. The threshold is recorded for each ear in 1115. The process can occur alone (as screening procedure) or in addition to a speech discrimination test (as in 1110). Cannot be used with codes 1110;1915.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1120	Visual reinforcement audiometry (VRA)	09.00				40.000	286.60 (251.40)
	Visual reinforcement audiometry (VRA) is used to test hearing in infants and in both difficult-to-test children and adults. The process includes case history and otologic examination, typically conducted in a sound booth. Lighted toys are used as reinforcement for response to auditory stimuli. Stimuli may include frequency-specific signals, calibrated noises, or live voice. The results are usually recorded on an audiogram. The interpretation of the testing addresses the type and the severity of hearing loss and any recommendations. Two audiologists perform this procedure. Cannot be used with codes 1100;1105; 1121.						
1121	Conditioning play audiometry	09.00				40.000	286.60 (251.40)
	Often physicians or technicians can diagnose a cause of hearing loss through tests using an audiometer. Many causes of hearing loss have characteristic threshold curves. Conditioning play audiometry tests pure tone air and bone conduction and speech thresholds in children. Test sounds can be presented with earphones or sound field testing (pure tone air conduction only). The child is conditioned to perform a simple task (i.e. drop a block in a bucket) when the test sound is heard. Two audiologists perform this procedure. Cannot be used with codes 1100;1105; 1120.						
1122	Select picture audiometry	09.00				40.000	286.60 (251.40)
	In select picture audiometry, the patient is placed in a booth w or w/out earphones. Patient is asked to identify different pictures with the instructions given at different intensity levels. A threshold level for speech, which is the intensity level at which the patient responds correctly 50% of the time, is obtained. Two audiologists perform this procedure. Cannot be used with codes 1110;1115.						
1125	Tinnitus Evaluation	09.00				15.000	105.20 (92.30)
	Earphones are placed and tones of the same pitch but different intensities are presented to each ear (binaural) or tones of different intensities and pitches are presented to the same ear (monaural). The patient is asked to compare the loudness of the tones with the pitch and intensity levels of tinnitus that he/she experiences. Similarities with tinnitus in intensities and pitch that are perceived by the patient as the same as the tinnitus are measured. The narrow band noise or white noise masking intensity and pitch that cancels out the perceived tinnitus is also measured.						
B. Middle Ear Function Evaluation							
1200	Tympanometry	09.00				8.000	53.00 (46.50)
	Using an ear probe, the eardrum's resistance to sound transmission is measured in response to pressure changes. Tympanometry varies the pressure in the external ear canal and identifies the pressure at which maximum sound transmission occurs. This corresponds to current middle ear pressure status. The pressures are recorded and compared to normal values. Cannot be used with code 1215.						
1205	Immittance Measurements - Impedance / Stapedial reflex (3276): Limited reflex spectrum (eg : 1-2 frequencies)	09.00				4.000	26.50 (23.30)
	The audiologist places a probe in one ear (ipsilateral ear) to measure the impedance of the middle ear and places an earphone on the patient's opposite ear (contralateral ear). A loud sound is presented in either the contralateral or ipsilateral ear and the change in impedance caused by the contraction of the stapedius is measured. Cannot be used with code 1210.						
1210	Immittance Measurements - Impedance / Stapedial reflex (3276): Extended reflex spectrum (250-8000Hz e.g. 4-8 frequencies)	09.00				12.000	79.50 (69.80)
	The audiologist places a probe in one ear (ipsilateral ear) to measure the impedance of the middle ear and places an earphone on the patient's opposite ear (contralateral ear). A loud sound is presented in either the contralateral or ipsilateral ear and the change in impedance caused by the contraction of the stapedius is measured. Cannot be used with code 1205.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1215	High Frequency Tympanometry (impedance testing) - for paediatric population	09.00				8.000	53.00 (46.50)
	The audiologist places a probe in one ear (ipsilateral ear) to measure the impedance of the middle ear and places an earphone on the patient's opposite ear (contralateral ear). A loud sound is presented in either the contralateral or ipsilateral ear and the change in impedance caused by the contraction of the stapedius is measured. A different probe tone frequency must be used for the pediatric population which requires a separate or combined piece of equipment Cannot be used with code 1200.						
1220	Eustachian Tube Function Test - multiple tympanograms - bilateral	09.00				12.000	79.50 (69.80)
	Using an ear probe, the eardrum's resistance to sound transmission is measured in response to pressure changes. Tympanometry varies the pressure in the external ear canal and identifies the pressure at which maximum sound transmission occurs. This corresponds to current middle ear pressure status. The pressures are recorded and compared to normal values. For Eustachian tube function testing three tympanograms are performed for each ear in three different pressure conditions namely 1. Tympanogram with normal pressure applied 2. Tympanogram with Valsalva maneuver 3. Tympanogram with Toynbee maneuver (swallow). The specialized equipment displays the results of the three test graphically in comparison with each other.						
1225	Rinné & Weber tests	09.00				4.000	28.10 (24.60)
	Tuning fork tests that can be performed with different tuning forks or with the bone conductor (oscillator) through the diagnostic audiometer. It is performed to confirm the presence or not of an air-bone gap as measured with pure tone air and bone conduction audiometry. This is an important result for pre-operative considerations. This test uses the Weber and Rinne tuning fork tests to differentiate conductive from sensory-neural hearing loss.						
C. Diagnostic Audiological Tests for Differential Diagnosis between Cochlear; Retro-cochlear; Central; Functional and/or Vestibular Pathology							
1300	Tone Decay (for retro cochlear pathology)	09.00				8.000	56.10 (49.20)
	Earphones are placed. A tone is presented to a patient at a volume above the patient's lower hearing level for that time. Measurements are made of the time that tone is audible or the increase in volume needed to maintain an audible tone over time. This is performed at different frequencies. These measurements are compared to establish norms and can be reported at different tone frequencies. Abnormal results are indicative of retro-cochlear pathology.						
1305	Reflex decay (for retro cochlear pathology)	09.00				8.000	53.00 (46.50)
	The audiologist places a probe to measure impedance in one ear (ipsilateral ear) and places an earphone on the other ear (contralateral ear). A loud tone is presented to one of the ears and maintained for 10 seconds. The impedance change (acoustic reflex) is measured by the probe. In a normal ear, the reflex persists for 10 seconds. In an abnormal ear, the reflex diminishes at least 50% in the first five seconds.						
1310	Short Increment Sensitivity Index (SISI)	09.00				5.000	35.10 (30.80)
	Earphones are placed and tones are presented to the patient. The loudness of the tones is increased in small increments. The patient is tested on the ability to detect slight changes in loudness. A percentage of the correctly identified loudness changes are recorded. Results above a specific percentage indicates cochlear pathology.						
1315	Most comfortable levels (MCL) & Uncomfortable levels (UCL) : Air conduction	09.00				8.000	56.10 (49.20)
	Most comfortable levels & Uncomfortable levels - for cochlear pathology and/or for purposes of selection of hearing aid technology or hearing aid programming. Earphones are placed and tones are above threshold are presented to the patient. The loudness of the tones is increased in small increments. The patient is asked to judge where the loudness levels at different frequencies are at the most comfortable intensities. Another series of tests are performed level where the patient is asked to judge the level of the perceived sound as uncomfortable loudness level at different frequencies. Results below a specific level could be indicative of cochlear pathology. This result is also a very important prerequisite for hearing aid programming at comfortable levels.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1320	Most comfortable levels (MCL) & Uncomfortable levels (UCL) : Speech thresholds	09.00				4.000	28.10 (24.60)
	Most comfortable levels & Uncomfortable levels - for cochlear pathology and/or for purposes of selection of hearing aid technology or hearing aid programming. In speech threshold audiometry, earphones are placed and the patient is asked to listen to bisyllabic (spondee) words at different intensity levels. The patient has to judge the levels at which the speech is perceived as the most comfortable as well as uncomfortable. These results are recorded and used to compare with other speech tests to get information about the patient's 'dynamic speech discrimination range'. It give information about retro-cochlear pathology (a possible 'roll-over' speech audiogram as a result) or cochlear pathology (loudness recruitment). It also gives information about prognosis with hearing amplification and indicates whether further examinations are necessary. The process can occur in addition to a speech discrimination test or to a (as in 1110 or 1115).						
1325	Test for functional hearing loss	09.00				10.000	70.10 (61.50)
	The test is for pseudohypacusis (malingering) and includes special tests and techniques such as the Lombard test, 'Count the tones- technique', 'confusion' test, etc in addition to conventional hearing tests procedures. Description of the Lombard test: This is principally a test for pseudohypacusis (malingering). The patient reads a passage into a microphone while the audiologist makes noise (masking) in earphones the patient is wearing. The patient's voice volume while reading is measured as the masking level is increased. If the patient increases his or her voice volume with the increase in masking as is normal, it is assumed that the noise (masking) was heard by the patient. This level may prove to be lower than the patient had previously volunteered.						
1331	Stenger test, pure tone	09.00				5.000	35.10 (30.80)
	The test is for unilateral pseudohypacusis (malingering). It is based on the principle that if two sounds of the same frequency but different intensities are presented simultaneously to both ears, only the louder tone will be heard. Tones are presented to the good ear at a level above that ear's threshold to obtain a response. Tones are presented to the poor ear simultaneously. The intensity of the sound in the poor ear is then increased while the intensity presented to the good ear remains the same. The patient will respond until the intensity of the tones in the poor ear exceeds that of the good ear. At that point, the patient will not respond because the patient is not supposed to hear out of the poor ear. However, the patient should still respond, as the intensity of presentation the good ear has not changed.						
1332	Stenger test, speech	09.00				5.000	35.10 (30.80)
	This is a test for unilateral pseudohypacusis (malingering). It is based on the principle that if two sounds of the same frequency and different intensities are presented simultaneously to both ears, only the louder will be heard. Bisyllabic (spondee) words are presented to the good ear at a level above that ear's threshold to respond. Then words are presented simultaneously to the poor ear. The intensity of the words in the poor ear is then increased while the intensity presented to the good ear remains the same. The patient will respond until the intensity of the words in the poor ear exceeds that of the good ear.						
1335	Fistula test - (for peri-lymph fluid leakage)	09.00				15.000	105.20 (92.30)
	This test combination is performed exactly: As a pure tone air conduction test (as in 1100) and as the complete speech audiometry test (as in 1110). In cases where a perilymph fistel leakage is suspected this test may be performed or on special request from a ENT-surgeon. Firstly tests 1100 and 1110 must be performed. Thereafter the patient has to lie down for 30 minutes on his or her right or left side in the sound proof booth with the affected ear turned upwards. After 30 minutes the tests 1100 and 1110 are repeated. Results are recorded and compared with results in the sitting position. If there are prescribed significant changes between the sitting and the lying positions, a diagnosis of the presence of a perilymph fistel in the affected ear can be made.

1400	Central Auditory Processing Disorders test, test to be specified.	09.00				13.000	93.10 (81.70)
	The audiologist evaluates central auditory function. Central auditory processes are the auditory mechanisms that are responsible for what the brain does with what the ears hear. Many individuals have no difficulty detecting the presence of sound but have other auditory difficulties related to central auditory processes such as understanding conversation in noisy environments, following complex directions, and learning new vocabulary words. There are two major categories of tests: behavioral tests and electrophysiologic tests. The behavioral tests can be monotonic or dichotic. Monotonic tests use a single stimulus presented to one ear at a time or test in which two stimuli are presented to one ear. Dichotic tests use the same stimulus applied to both ears. Testing may be performed on only one ear (monaural) or both ears simultaneously (binaural). Specific types of tests that can be given include monaural low-redundancy speech tests; dichotic speech tests; temporal patterning tests and binaural interaction tests. The audiologist selects the appropriate battery of central auditory function tests after evaluating the patient using routine hearing tests. Central auditory function tests are used to differentiate central from peripheral hearing loss and occasionally to identify the site of a lesion in the central nervous system.						
E.	Electro-Physiological Examinations/Auditory Evoked Potentials (AEP)						
1500	Diagnostic Neurological short latency ABR (Auditory Brainstem Response) Bilateral; single decibel (2692)	09.00				60.000	429.90 (377.10)
	Auditory evoked potentials (AEPs) enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulation. The origin of the ABR is believed to be the auditory nerve and brainstem. The neurological ABR is recorded using supra-threshold click stimuli. It enables evaluation of the integrity of auditory neural pathway and synchronicity of auditory stimuli from the cochlear to the brainstem. The audiologist interprets the results of the tests.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1505	AABR - Bilateral (Automated Auditory Brainstem Response). Cannot be charged with 1510	09.00				30.000	198.90 (174.40)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulation. The origin of the ABR is believed to be the auditory nerve and brainstem. AABR makes use of objective response detection. A single, low intensity click stimulus is presented and the software interprets the resulting waveform (using a template and/or statistical significance as reference) as a pass (response present) or refer (response absent). AABR is used for hearing screening purposes. Cannot be used together with item 1510.						
1510	Screening ABR - Bilateral (Auditory Brainstem Response). Cannot be charged with 1505	09.00				20.000	132.60 (116.30)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the ABR is believed to be the auditory nerve and brainstem. A single, low intensity click stimulus is presented and the resulting waveform is interpreted by the audiologist as a pass (response present) or refer (response absent). This ABR is used for hearing screening purposes. The audiologist interprets the results of the tests. Cannot be used together with item 1505.						
1515	Diagnostic Audiological Click ABR (Auditory Brainstem Evoked Response) – Bilateral Air conduction threshold determination using click stimuli	09.00				60.000	429.90 (377.10)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the ABR is believed to be the auditory nerve and brainstem. By varying the click stimulus intensity, the threshold response can be determined. Objective threshold determination using click ABR correlates well with psycho-acoustic hearing threshold at high frequencies. The audiologist interprets the results of the tests.						
1520	Diagnostic Audiological Click ABR-(Auditory Brainstem Response) – Bilateral Bone conduction threshold determination using click stimuli	09.00				80.000	573.20 (502.80)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the ABR is believed to be the auditory nerve and brain stem. Bone conduction ABR testing is used to determine whether middle ear pathology is present or is used in the case of patients with no external ear. An additional bone oscillator is used with the standard ABR equipment. By varying the bone conduction stimulus intensity, the threshold response can be determined. Objective threshold determination using bone conduction ABR correlates well with psycho-acoustic sensorineural hearing threshold. The procedure for bone ABR is an additional procedure and may be determined at different frequencies. The audiologist interprets the results of the tests.						
	Combinations of items 1531 to 1534 cannot be billed together.	06.02					
1531	Diagnostic Audiological Tone Burst ABR (Auditory Brainstem Response) – Bilateral Frequency specific threshold determination using tone-burst stimuli at: 1 frequency	09.00				30.000	215.00 (188.60)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the electrical response is believed to be the auditory nerve and brainstem. Brief tones of different frequencies can be used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using tone burst ABR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests. Cannot be used together with items 1532;1533;1534.						
1532	Diagnostic Audiological Tone Burst ABR (Auditory Brainstem Response) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 2 frequencies	09.00				60.000	429.90 (377.10)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the electrical response is believed to be the auditory nerve and brainstem. Brief tones of different frequencies can be used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using tone burst ABR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests. Cannot be used together with items 1531;1533;1534.

1533	Diagnostic Audiological Tone Burst ABR (Auditory Brainstem Response) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 3 frequencies	09.00				90.000	644.90 (565.70)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the electrical response is believed to be the auditory nerve and brainstem. Brief tones of different frequencies can be used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using tone burst ABR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests. Cannot be used together with items 1531;1532;1534.						
1534	Diagnostic Audiological Tone Burst ABR (Auditory Brainstem Response) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 4 frequencies	09.00				120.000	859.80 (754.20)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the electrical response is believed to be the auditory nerve and brainstem. Brief tones of different frequencies can be used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using tone burst ABR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests.						
	Combinations of items 1541 to 1544 cannot be billed together.	06.02					
1541	Diagnostic Audiological Middle latency & Late Cortical Auditory Evoked responses (2698) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 1 frequency	09.00				25.000	179.10 (157.10)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The MLAEP and SCAEP follow the ABR in latency and their origin is therefore the higher up the auditory pathway than ABR (ranging from the auditory brainstem to auditory cortex). Tones of different frequencies are used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using these AEP correlate well with psycho-acoustic hearing threshold. The MLAEP and SCAEP may also be used to determine the site and / or nature of auditory-neural pathology. The audiologist interprets the results of the tests. Cannot be used together with items 1542;1543;1544.						
1542	Diagnostic Audiological Middle latency & Late Cortical Auditory Evoked responses (2698) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 2 frequencies	09.00				50.000	358.30 (314.30)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The MLAEP and SCAEP follow the ABR in latency and their origin is therefore the higher up the auditory pathway than ABR (ranging from the auditory brainstem to auditory cortex). Tones of different frequencies are used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using these AEP correlate well with psychoacoustic hearing threshold. The MLAEP and SCAEP may also be used to determine the site and / or nature of auditory-neural pathology. The audiologist interprets the results of the tests. Cannot be used together with items 1541;1543;1544.						
1543	Diagnostic Audiological Middle latency & Late Cortical Auditory Evoked responses (2698) – Bilateral Frequency specific threshold determination using tone-burst stimuli at : 3 frequencies	09.00				75.000	537.40 (471.40)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The MLAEP and SCAEP follow the ABR in latency and their origin is therefore the higher up the auditory pathway than ABR (ranging from the auditory brainstem to auditory cortex). Tones of different frequencies are used to objectively evaluate frequency specific hearing sensitivity. By varying the toneburst stimulus intensity (at one frequency), the threshold response can be determined. Objective threshold determination using these AEP correlate well with psychoacoustic hearing threshold. The MLAEP and SCAEP may also be used to determine the site and / or nature of auditory-neural pathology. The audiologist interprets the results of the tests. 	Combinations of items 1551 to 1554 cannot be billed together.	06.02					
1551	ASSER (Auditory Steady State Evoked Response) – Bilateral threshold determination : 1 frequency	09.00				30.000	215.00 (188.60)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The ASSEP is an evoked by continuous stimuli characterized by periodic amplitude and frequency modulation of a carrier frequency. Continuous tones of different frequencies are used to objectively evaluate frequency specific hearing sensitivity. By varying the stimulus intensity (at one frequency), the threshold response can be determined. ASSR makes use of objective response detection, where the software interprets the resulting waveform (using a statistical measure of significance or correlation) to determine whether a response is present or absent. Objective threshold determination using the ASSR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests.. Cannot be used together with items 1552;1553;1554.						
1552	ASSER (Auditory Steady State Evoked Response) – Bilateral threshold determination : 2 frequencies	09.00				40.000	286.60 (251.40)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The ASSEP is an evoked by continuous stimuli characterized by periodic amplitude and frequency modulation of a carrier frequency. Continuous tones of different frequencies are used to objectively evaluate frequency specific hearing sensitivity. By varying the stimulus intensity (at one frequency), the threshold response can be determined. ASSR makes use of objective response detection, where the software interprets the resulting waveform (using a statistical measure of significance or correlation) to determine whether a response is present or absent. Objective threshold determination using the ASSR correlates well with psycho-acoustic hearing threshold. The audiologist interprets the results of the tests. 1560	P300 Cognitive AEP (Auditory Evoked Potential) or MMN (Mismatch Negativity)	09.00				35.000	250.80 (220.00)
	AEPs enable objective evaluation of the auditory system. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The P300 and MMN are electrophysiological assessments of auditory processing of changes in auditory stimuli at the cognitive level. As such stimuli, be it tonal or speech stimuli, are presented at supra-threshold levels. These AEPs are not correlates of psycho-acoustic hearing threshold.						
1565	Electrocochleography: unilateral (2699)	09.00				45.000	322.40 (282.80)
	An electrode is placed through the tympanic membrane into the promontory of the inner ear. An alternative method is to use a electrode that can be placed against the tympanic membrane. The ear is stimulated and recordings are made of the electrical response of the cochlear nerve. This can be done under local, topical or general anesthesia or in the case of the electrode against the tympanic membrane, no anesthesia. Cannot be charged with item 1570.						
1570	Electrocochleography: bilateral (2700)	09.00				90.000	644.90 (565.70)
	An electrode is placed through the tympanic membrane into the promontory of the inner ear. An alternative method is to use a electrode that can be placed against the tympanic membrane. The ear is stimulated and recordings are made of the electrical response of the cochlear nerve. This can be done under local, topical or general anesthesia or in the case of the electrode against the tympanic membrane, no anesthesia. Cannot be charged with item 1565.						
1575	Cochlear nerve function test - intra-operative monitoring - per 30min	09.00				30.000	215.00 (188.60)
	Diagnostic Audiological Click ABR (Auditory Brainstem Evoked Response) - Bilateral: Air conduction threshold determination using click stimuli. Electrodes are placed in various locations on the scalp and electrical recordings are made in response to auditory stimulations. The origin of the electrical response is believed to be the auditory nerve and brain stem. Test is only performed during neuro-otology ear or balance surgery (with ENT-surgeon and neuro-surgeon)- where the nerve could be damaged eg 'acoustic neuroma tumor removal, facial nerve tumor removal,, vestibular neurectomy . By this procedure or monitoring of the hearing/nerve the audiologist warns the surgeons if there are any changes in hearing nerve activity during surgery in order to preserve and not damage the nerve during surgery. The Audiologist interprets the results of the tests. Duration charged for cannot exceed the duration of the operation.						
1580	Evoked otoacoustic emissions (OAE): limited	09.00				15.000	95.60 (83.90)
	Single stimulus level, either transient or distortion products. A probe tip is placed in the ear canal. The probe tip emits a repeated clicking sound. The clicking sound passes through the tympanic membrane, middle ear, and then to the inner ear. In the inner ear, the sound is picked up by the hair cells in the cochlea. Computerized equipment is then able to record an echo off the hair cell in the cochlea. 1580 of the test is limited to a single stimulus level. Report 1580 of the test is limited to a single stimulus level. Cannot be used together with item 1581.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1581	Evoked otoacoustic emissions (OAE): comprehensive	09.00				30.000	198.90 (174.40)
	A comprehensive diagnostic evaluation. A probe tip is placed in the ear canal. The probe tip emits a repeated clicking sound. The clicking sound passes through the tympanic membrane, middle ear, and then to the inner ear. In the inner ear, the sound is picked up by the hair cells in the cochlea. Computerized equipment is then able to record an echo off the hair cell in the cochlea. Report 1581 if the test is comprehensive or a diagnostic evaluation. Cannot be used together with item 1580.						
F.	Balance/Vestibular Examinations and Treatment						
1600	Spontaneous and positional nystagmus using electro-nystagmography (ENG) (3253).	09.00				55.000	394.10 (345.70)
	Nystagmus is uncontrolled rapid movement of the eyeball in a horizontal, vertical, or rotary motion. It can be a symptom of a disturbance in the patient's vestibular system and can be induced to measure the difference between the patient's right and left vestibular functions. ENG (electronystagmography) electrodes are placed and the patient is asked to look straight ahead, 30 degrees to 45 degrees to the right, and 30 degrees to 45 degrees to the left. Computerized recordings are made to detect spontaneous nystagmus. The patient is placed in a variety of positions, including supine with head extended dorsally, left, and right and sitting, in an attempt to induce nystagmus. Cannot be used with item 1605						
1605	Spontaneous and positional nystagmus using Video-nystagmography (VNG)	09.00				55.000	414.80 (363.80)
	Positional Nystagmus Nystagmus is uncontrolled rapid movement of the eyeball in a horizontal, vertical, or rotary motion. It can be a symptom of a disturbance in the patient's vestibular system and can be induced to measure the difference between the patient's right and left vestibular functions. The patient is placed in a variety of positions, including supine with head extended dorsally, left, and right and sitting, in an attempt to induce nystagmus. Computerized recordings are made to detect spontaneous nystagmus. When using VNG (Videonystagmography) a infrared camera with video goggles and Eye TV monitor are used to detect recordings. VNG is highly diagnostic for disorders that produce a torsional eye movement (BPPV with positive Dix Hallpike). Cannot use with item 1600.						
1610	Eye Visualization – spontaneous and positional nystagmus – monocular	09.00				35.000	223.20 (195.80)
	Provides both still and full motion video recording of eye position and eye movement for the diagnosis and treatment of vestibular and ocular motility disorders. It is video based and hence generates a video record of the eye as long as a tape recording is made. It is highly diagnostic for disorders that produce a torsional eye movement (BPPV with positive Dix Hallpike).						
1615	Videonystagmoscopy: spontaneous and positional nystagmus. (Only camera/goggles, without computerised VNG software)	09.00				35.000	232.00 (203.50)
	Provides both still and full motion video recording of eye position and eye movement for the diagnosis and treatment of vestibular and ocular motility disorders. It is video based and hence generates a video record of the eye as long as a tape recording is made. It is highly diagnostic for disorders that produce a torsional eye movement (BPPV with positive Dix Hallpike). Cannot be used together with items 1600;1605.						
1620	Oculo-motor/central tests using electro-nystagmography (ENG)	09.00				25.000	188.50 (165.40)
	Consists of: - Saccade Test - Smooth Pursuit Test - Optokinetic Test - Gaze Nystagmus Test Cannot be used with item 1625.						
1625	Oculo-motor/central tests using video-nystagmography (VNG)	09.00				25.000	188.50 (165.40)
	Consists of: - Saccade Test - Smooth Pursuit Test - Optokinetic Test - Gaze Nystagmus Test Cannot be used with item 1620.						

Code	Description	Ver	Add	Speech Therapy		Audiology	
				RVU	Fee	RVU	Fee
1630	DVA (Dynamic Visual Acuity) test using Video-nystagmography (VNG)	09.00				10.000	75.40 (66.10)
	The dynamic visual acuity (DVA) test provides a functional measure of oscillopsia in patients with vestibular loss. It is sensitive to changes in both peripheral and central vestibular function, and can detect unilateral vestibular loss in the plane of the head rotation. Subjects are asked to read a Snellen chart with the head stationary, and then during rapid head rotations. Visual stimuli in the later conditions are presented only with the head moving at a predetermined velocity that, at the relatively high rotational frequencies used, elicits a robust VOR to compensate for head motion. If visual acuity drops 2 log MAR during head rotation in any direction, the test indicates that the patient is experiencing oscillopsia due to poor compensation for head motion.						
1635	Caloric test using ENG electro-nystagmography (3255)	09.00				50.000	377.10 (330.70)
	Nystagmus is uncontrolled rapid movement of the eyeball in a horizontal, vertical, or rotary motion. It can be a symptom of a disturbance in the patient's vestibular system and can be induced to measure the difference between the patient's right and left vestibular functions. In this test, each ear is separately irrigated with cold water and then warm water to create nystagmus in the patient. ENG recordings are evaluated to detect any difference between the nystagmus of the right side and the left side. Four irrigations occur: a warm and cold irrigation for both the right and the left ear. Cannot be used with item 1640.						
1640	Caloric test using VNG electro-nystagmography (3255)	09.00				50.000	377.10 (330.70)
	Nystagmus is uncontrolled rapid movement of the eyeball in a horizontal, vertical, or rotary motion. It can be a symptom of a disturbance in the patient's vestibular system and can be induced to measure the difference between the patient's right and left vestibular functions. In this test, each ear is separately irrigated with cold water and then warm water to create nystagmus in the patient. ENG recordings are evaluated to detect any difference between the nystagmus of the right side and the left side. Four irrigations occur: a warm and cold irrigation for both the right and the left ear. Cannot be used with item 1635.						
1645	Posturography	09.00				25.000	188.50 (165.40)
	Computerized posturography tests a patient's sensory organization, motor control, evoked postural responses (EMG), and sway patterns to assess balance and postural instability by systematic manipulation of somatosensory and visual information. The patient is placed in the posturography system. The system is made up of a force plate that controls foot support and a visual surround reference that can be controlled. Force transducers measure the vertical and horizontal force output of the patient's feet. The patient's center-of-force is used as an estimate of body sway during testing. A sway bar and potentiometer is placed at the pelvis and shoulder, which measures anterior-posterior position. Displacement of the visual surround is changes as the ankle angle is changed. In the posture portion of posturography, the support surface rotates faster than the body can move, producing a sway and ankle rotation that is opposite of what normally occurs in a standing position on a fixed surface. This exaggerated sway produced a stretching of the ankle joint, which is recorded as three surface EMG signals from the gastrocnemius and tibialis anterior muscles of the legs to a computer that records the data. Patient with normal function will maintain balance while patients with a disturbance of balance will elicit abnormal results. The EMG portion of posturography along with the sensory organization and motor control tests help differentiate between the possible diagnoses causing the patient's imbalance and postural instability.						
1650	Rotational Chair test	09.00				15.000	99.40 (87.20)
	Nystagmus is uncontrolled rapid movement of the eyeball in a horizontal, vertical, or rotary motion. It can be a symptom of a disturbance in the patient's vestibular system and can be induced to measure the difference between the patient's right and left vestibular functions. The patients is seated in a rotary chair with the head bent forward 30 degrees. ENG electrodes or a VNG Video goggles with infrared camera are placed to measure nystagmus while the chair is rotated with the patient's eyes closed. A recording is made and studied to determine an abnormal labyrinth response on one side or the other.						
1655	Otolith repositioning/canalith manœuvre	06.02				25.000	153.20 (134.40)
1660	Vestibular rehabilitation (neuromuscular) re-education of movement, balance, coordination, kinesthetic sense, posture, and proprioception	06.02				25.000	153.20 (134.40)

				RVU	Fee	RVU	Fee
G.	Cochlear Implant Tests						
1700	Cochlear Implants: Pre-implant round window promontory testing	09.00				45.000	298.30 (261.70)
	In cases where speech tests were not possible because of very limited speech and language acquisition (e.g. prelingually deaf adults) This test is designed to determine if electrical stimulation of the auditory nerve will result in sound. It involves stimulating the promontory with small pulses. A physician inserts an electrode through the eardrum under local anaesthetic. The audiologist delivers small amounts of electrical current at different frequencies and the patient indicate when they hear a sound.						
1710	Cochlear Implants : Electrode mapping : per 15min (max 120min)	09.00				15.000	113.10 (99.20)
	The audiologist programs the speech processor based on the patient's responses to computer generated sounds delivered to the implant. As the useful dynamic range for electrical stimulation is relatively narrow and varies across patients and electrodes there is a need to individually tailor the amplitudes of electrical stimulation for each patient. Psychophysical measurements establish the useful range for each electrode and this information is stored digitally in the patient's speech processor. This process of mapping is crucial in providing maximum speech information through the multi channel cochlear implant.						
1720	Cochlear Implants : Implant test : Four test modes : intra- or post-operatively	09.00				5.000	35.10 (30.80)
	Electrode impedance is performed to confirm integrity of the implant electrodes.						
1725	Cochlear Implants : Neural Response Telemetry : intra-operatively (during cochlear implant surgery)	09.00				20.000	150.80 (132.30)
	The NRT tool provides a simple way to directly record neural responses. Information from NRT gives the audiologist or surgeon confirmation that the cochlear implant is effectively stimulating the hearing nerve fibres in the inner ear. During NRT testing, an electrical signal is sent to the implant electrode and the activity of the hearing nerve fibres is recorded. This non-invasive, objective test is quicker and easier than other standard methods and does not require sedation or the use of external recording electrodes.						
1730	Cochlear Implants : Neural Response Telemetry : post-operatively (after cochlear implant surgery)	09.00				55.000	385.70 (338.30)
	NRT measurements assist clinicians in selecting and optimising initial programming parameters - speeding and simplifying the programming of young children. NRT uses radiofrequency telemetry technology to measure the action potentials of the auditory nerve. The test can be performed at any time by connecting a speech processor to a programming system running the NRT software on a computer. A pulse is delivered from one electrode to the hearing nerve fibres in the inner ear. The hearing nerve fibres respond to the pulse. The implant system sends the response back to the computer which collects the information. The steps are repeated to build a profile of the responsiveness of the hearing nerve fibres at different sites on the electrode array.						
1735	Cochlear Implants : Electrical Stapedius Reflex Thresholds : intra-operatively only	09.00				13.000	98.00 (86.00)
	The stapedius reflex is measured in response to electrical stimulation within the cochlea by direct observation during surgery. The use of electrically evoked stapedius reflex thresholds (eSRT) has been suggested as a useful means for creating a cochlear implant speech processor programme.						
1740	Cochlear Implants : Comprehensive speech perception testing, pre- and post-cochlear implant, per 15min (max 45min)	09.00				15.000	107.50 (94.30)
	The desired outcomes for patients using cochlear implants relate to improved speech perception. A vast array of test are used to determine progress and assist in programming. (92601-92602). A diagnostic analysis of a cochlear implant including programming is done post-operatively to fit the previously placed external devices, connect to the implant and programmed. Cochlear implants are equipped with software that allows for different programming specific to the patient's daily activities. Threshold levels, volume, pulse widths, live-voice speech adjustments, input of dynamic range and frequency shaping templates are evaluated and set according to the individual's needs. This is done for patients older than 7 years of age in 92603. Patients older than 7 years of age are able to provide significant feedback for fine-tuning adjustment. Report 92604 for subsequent modifications or reprogramming.

H. Hearing Amplification / Hearing Aids							
1800	Hearing aid evaluation - per ear	09.00				15.000	95.60 (83.90)
	Evaluation of pure tone thresholds and/ or speech thresholds with one or more hearing aid per ear is done to ascertain the effectiveness of a hearing aid for a specific hearing loss or in comparison to another hearing aid other See Rule B.						
1805	Free Field Hearing Aid Evaluation : Pure tone and speech (with and without lipreading)	09.00				13.000	93.10 (81.70)
	Evaluation of pure tone thresholds in a sound field environment:The patient is asked to respond to tones of different pitches (frequencies) and intensities. The threshold, which is the lowest intensity of the tone that the patient can hear 50 percent of the time, is recorded for a number of frequencies on each ear. This will be done with a hearing aid inserted in the ear to ascertain the effectiveness of a hearing aid. Evaluation of speech audiometry in a sound field environment : The patient is asked to repeat bisyllabic (spondee) words. The softest level at which the patient can correctly repeat 50 percent of the spondee words is called the speech reception threshold. The threshold is recorded for each ear . The word discrimination score is the percentage of spondee words that a patient can repeat correctly at a given intensity level above his or her speech reception threshold. This is also measured for each ear with the hearing aid inserted to ascertain its effectiveness.						
1810	Insertion gain measurement, per ear	09.00				10.000	66.30 (58.10)
	Electro acoustic evaluation for hearing aid. A physical hearing aid examination with hearing aid in patient's ear and connected to an Insertion Gain meter comparing the unaided in situ measurement with the aided in situ measurement. Instrument used to compare the electro acoustical characteristics of a monaural hearing aid with the specifications for that aid.						
1815	Re-programming of hearing aid, per ear	09.00				10.000	63.80 (55.90)
	A hearing aid would be connected to the Hi-Pro box, and/or the patients ears/ears as well as connected to a computer to reprogramme the parameters of said instrument.						
1820	Technical adjustment of hearing aid/device, per ear.	09.00				6.000	38.30 (33.60)
	The audiologist inspects the hearing aid and checks the battery. The aid is cleaned and the power and clarity are checked using a special stethoscope, which attaches to the hearing aid. These may also include re-tubing of an ear mould, drilling into an ear mould or hearing aid, reshaping of an ear mould or hearing aid.						
1825	Repairs to hearing aids	06.02				-	-
1830	Global charge for supply and fitting of hearing aid and follow-up (By arrangement with scheme).	09.00				-	-
	This would include the charge of supplying which includes the initial measurement for the instrument as well as the fitting to ensure good fitting and programming of said instrument to suit the hearing requirements of a patient as per evaluation.						
I. Occupational Health / Industrial Hearing Assessment

SUBACUTE FACILITIES

Sub Acute Facilities 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF PRIVATE SUB ACUTE FACILITIES WITH A "049" PRACTICE NUMBER, WITH EFFECT FROM 1 JANUARY 2009				
The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well. In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.				
GENERAL RULES				
B	The charges are indicated in the relevant column opposite the item codes.			04.00
C	Procedure for the classification of private sub-acute facilities:			04.00
	i) Inspections of private sub-acute facilities having practice code numbers commencing with the digits "049" will be conducted by an independent agency on behalf of BHF. Applications to be addressed in writing to BHF.			
	ii) The provisions referred to in D.1.1 shall apply mutatis mutandis to all private sub-acute facilities such as post-natal units, rehabilitation units and psychiatric units.			
D	All accounts submitted by private sub-acute facilities shall comply with all of the requirements of Chapter 2, Regulation 5, promulgated in terms of the Medical Schemes Act, Act No. 131 of 1998. Such accounts shall also reflect the practice code number and name of the attending practitioner.			04.00
E	All accounts containing items, which are subject to a discount in terms of the rates shall indicate such items individually and shall show separately the gross amount of the discount.			04.00
SCHEDULE				
1	ACCOMMODATION			
Ward Fees				
	Private sub-acute facilities shall indicate the exact time of admission and discharge on all accounts. Patients admitted as day patients shall be charged half daily rate if discharged before 23h00 on the same date: The following will be applicable to items 001, 010, 013, 015, 017, 105 and 020 On the day of admission: If accommodation is less than 12 hours from time of admission: half the daily rate. If accommodation is more than 12 hours from time of admission: full daily rate. On day of discharge: If accommodation is less than 12 hours: half the daily rate. If accommodation is more than 12 hours: full daily rate. Two half-day fees would be applicable when a patient is transferred internally between any ward and any sub-acute unit.			04.00

TISSUE TRANSPORTATION

Tissue Transportation 2009

NATIONAL REFERENCE PRICE LIST FOR TISSUE TRANSPORTATION, EFFECTIVE FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

GENERAL RULES

001	Items in the section on blood transportation are only chargeable by providers with a "003" practice number (Accredited Blood and Blood Product Couriers)	06.00

1 BLOOD TRANSPORTATION

Code	Description	Ver	Add	Accredited Blood and Blood Product Couriers	
				RVU	Fee
700	Routine compat collection: Collection of patient's blood compat by courier from hospital / clinic, other than as an emergency. Compat to be delivered to blood bank for cross match.	06.00		-	-
710	Routine blood / blood product collection: Collection and delivery of cross-matched blood/blood product by courier from blood bank, other than as an emergency. Blood/blood product to be taken to hospital/clinic for patient.	06.00		-	-
720	Emergency blood / blood product collection: Collection of blood/blood product (without a full cross-match) where the driver has to wait for the blood/blood product and deliver it to the hospital (i.e. ROUND TRIP).	06.00		-	-
	Medical scheme may require verification of emergency and determine the nature of such required verification. May not be billed with 700, 710 or 730.	06.00			
730	Emergency blood / blood product collection following change of status of request: Collection of blood/blood product (with or without a full cross-match) where, after the original request was delivered to the blood bank by the courier as a routine request, the status of the request was subsequently changed by the hospital or clinic to an emergency necessitating a non-routine collection by the courier. Blood/blood product to be taken to hospital/clinic for patient.	06.00		-	-
	Medical scheme may require verification of change of status and determine the nature of such required verification. Typically billed with 700. May not be billed with 710.	06.00			
740	Long distance: Additional per km fee for collections further than 50km. This fee applies only to those kilometres in excess of 50 km. Supporting documentation required, illustrating distance traveled.	06.00		-	-

UNATTACHED OPERATING THEATRE

Unattached Operating Theatre Units 2009

NATIONAL REFERENCE PRICE LIST IN RESPECT OF UNATTACHED OPERATING THEATRE UNITS AND DAY CLINICS WITH A PRACTICE NUMBER COMMENCING WITH '76' WITH EFFECT FROM 1 JANUARY 2009

The following reference price list is not a set of tariffs that must be applied by medical schemes and/or providers. It is rather intended to serve as a baseline against which medical schemes can individually determine benefit levels and health service providers can individually determine fees charged to patients. Medical schemes may, for example, determine in their rules that their benefit in respect of a particular health service is equivalent to a specified percentage of the national health reference price list. It is especially intended to serve as a basis for negotiation between individual funders and individual health care providers with a view to facilitating agreements which will minimise balance billing against members of medical schemes. Should individual medical schemes wish to determine benefit structures, and individual providers determine fee structures, on some other basis without reference to this list, they may do so as well.

In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

VAT EXCLUSIVE PRICES APPEAR IN BRACKETS.

GENERAL RULES

A	It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed by a medical scheme if the appropriate code is supplied on the account.	04.00
C	All accounts submitted by unattached operating theatre units/day clinics shall comply with all of the requirements in terms of the Medical Schemes Act, Act No. 131 of 1999. Where possible, such accounts shall also reflect the practice code numbers and names of the surgeon, the anaesthetist and of any assistant surgeon who may have been present during the course of an operation.	04.00
D	All accounts shall be accompanied by a copy of the relevant theatre accounts specifying all details of items charged, as well as all the procedures performed. Photocopies of all other documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documents at the rehabilitation hospital concerned.	04.00
E	All accounts containing items which are subject to a discount in terms of the recommended benefit shall indicate such items individually and shall show separately the gross amount of the discount.	04.00
F	Accommodation fees includes the services listed below: A. The minimum services that are required are items 3, 5 and 6. B. If managed care organisations or medical schemes request any of the other services included in this list, no additional charge may be levied by the hospital. 1 Pre-authorisation (up to the date of admission) of: · length of stay · level of care · theatre procedures 2 Provision of ICD-10 and CPT-4 codes when requesting pre-authorisation 3 Notification of admission 4 Immediate notification of changes to: · length of stay · level of care · theatre procedures 5 Reporting of length of stay and level of care · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. 6 Discharge ICD-10 and CPT-4 coding · In standard format for purposes of creating a minimum dataset of information to be used in defining an alternative reimbursement system. · Including coding of complications and co-morbidity. To be done as accurately as practically possible by the hospital. 7 Case management by means of standard documentation and liaison between scheme and hospital appointed case managers · Liaison means communication and sharing of information between case managers, but does not include active case management by the hospital.	04.00

	APPENDIX B				05.03
	PRINCIPLES				
	The following principles are applicable:				

Code	Description	Ver	Add	Unattached operating theatres / Day clinics	
				RVU	Fee
	1. At all times best clinical practice must be adhered too. 2. Items listed in the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities are described generically according to product classification and function. Trade names may be included, by means of example, for clarification purposes only. Photocopies of all documents pertaining to the patients account must be provided on request. Medical schemes shall have the right to inspect the original source documentation at the hospital/sameday surgical facilities concerned. The Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Sub-Acute Facilities, Private Hospitals and Sameday Surgery Facilities will be reviewed half-yearly. 3. The cost of consumable and disposable items used on a patient in a hospital must be recovered by means of a charge mechanism as follows: ¢ Items included in the per minute theatre fee. ¢ Items included in the per day ward or unit fee. ¢ Items are charged to the patient's account where reimbursement is not granted by a medical scheme. 4. Any agreed difference on the basic interpretation of the Recommended Guide to Reimbursement for Consumable and Disposable Items Charged by Private Hospitals and Same Day Surgery Facilities list will be made in accordance with the approval of the duly appointed representatives of the individual contractor, medical aid, MCO and representatives of private hospitals. Such approval shall be ratified in writing and circulated to all parties concerned. Where the hospital uses an excessively priced product, a review process should be conducted, and appropriate price adjustment made. 5. Disposable items are single use only and must never be reused. ¢ Single use items will be charged at 100%. ¢ Hospitals will sign an ethical undertaking that single use items will only be used once. If a hospital does not conform it may be reported to the group head office. If an acceptable explanation is not supplied within 14 days, payment on that account may be withheld. 6. Limited life re-usable products are products intended for multiple use and endorsed as such by the manufacturers. Such products will be charged according to the "Fractional" charges as detailed and are under continual review. The item will be considered life re-usable (limited multiple use) if it can be re-used less than 100 times (endorsed as such by the manufacturer). 7. Where a hospital uses an excessively priced product, a review process with the parties as listed under 3 above should be conducted, and appropriate price adjustment made. 8. TTO's will be issued and charged according to the rules of the scheme. 9. All prescribed items will be recoverable according to the rules of the scheme. Key Indicators The different key indicators in the Recommended Guide to Reimbursement for Consumable and Disposable Items charged by Private Hospitals and Same Day Surgery Facilities List are as follows: All prescribed items dispensed in wards or theatre are fully recoverable according to scheme's rules. Key Description THR Theatre consumable and disposable items WRD Ward consumable and disposable items NR Item is non-recoverable C Item is chargeable under certain circumstance R Item is recoverable P Item is recoverable from patient F Fractional (re-usable) and is charged out on a pro-rata basis (as per 5.5.1-5.5.4). N/A Not used/not applicable Disposable Means the manufacturer states one time use only. S/U(Single use) Item =Payable 100% Medical Prescribed Meals See List Practice Code References to the NRPL-HS includes 57/58, 76 and 77
