

**NOTICE 254 OF 2011****DEPARTMENT OF PUBLIC WORKS****AGRÉMENT SOUTH AFRICA**

(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 21 April 2010, issued an Agrément certificate, details of which appear in the schedule hereto.

**SCHEDULE**

Agrément Certificate 2008/342: Amended April 2010

**Name of product:** Imison™ 3 Building System

**Certificate holder:** Imison (Pty) Ltd

**Description:** The Imison™ 3 Building System comprises:

- a concrete surface bed with thickened foundation beams (on non-problematic soils)
- a galvanized light-gauged, cold-rolled structural steel frame
- infill panels made up of:
  - a central core of expanded polystyrene (EPS)
  - alkali resistant woven fibreglass mat reinforced spray-applied and fibre-reinforced plaster applied to both sides of the wall core
- a galvanized light-gauge, cold-rolled structural steel first floor deck (in the case of double storey construction)
- timber or light-gauge structural steel roof trusses
- conventional light or heavyweight roof coverings
- ceilings which may be insulated.

The System may be used in all areas of South Africa for the erection of single- and double-storey building for the occupancies specified in the certificate.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>
