

**NOTICE 326 OF 2013****DEPARTMENT OF PUBLIC WORKS****AGRÉMENT SOUTH AFRICA**

(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 27 June 2012, issued an Agrément certificate, details of which appear in the schedule hereto.

**SCHEDULE**

Agrément Certificate 2012/406

**Name of product:** Harmili Building System

**Certificate holder:** Harmili Trading (Pty) Ltd

**Description:** The Harmili Building System is a combination of innovative and conventional construction method. It is a single storey structure that utilises factory produced panels.

Walls are 2400 mm × 1200 mm × 110 mm thick lightweight interlocking sandwich panels comprising a polyurethane (PU) core with minimum density of 37 kg/m<sup>3</sup> encapsulated in two layers of 9 mm thick fibre cement boards. The system incorporates a 0.8 mm galvanized light-weight steel frame design in accordance to **SANS 517**.

The walls are finished with waterproof skim plaster and joints are sealed with a silicon based sealant. The panels are delivered on site with factory fitted window and door frames, electrical conduits and plumbing inserted.

All the foundations are designed by a professional registered competent engineer. The roof is constructed from standard lightweight steel trusses clad with metal sheeting, concrete roof tiles or Agrément approved cladding. Plumbing and electrical components are conventional and are pre-fixed into the composite panel prior to erection.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>
