

No. R. 859

15 November 2013

AGRICULTURAL PRODUCT STANDARDS ACT, 1990
(ACT No. 119 OF 1990)**REGULATIONS RELATING TO THE GRADING, PACKING AND MARKING OF
AVOCADOS INTENDED FOR SALE IN THE REPUBLIC OF SOUTH AFRICA**

The Minister of Agriculture, Forestry and Fisheries, has under section 15 of the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) --

- (a) made the regulations in the Schedule;
- (b) determined that the said regulations shall come into operation on the date of publication; and
- (c) read together with section 3(2) of the said Act, repealed the regulations published by Proclamations Nos. R. 53 of 1976, R. 2855 of 29 December 1989, R. 1727 of 27 July 1990, R. 1864 of 10 August 1990, Government Notices Nos. R. 537 of 1 April 1976, R. 135 of 4 February 1977, R. 997 of 13 May 1983, R. 602 of 30 March 1984, R. 923 of 27 April 1990 and R. 2474 of 26 October 1990 with effect from the said date of commencement.

SCHEDULE**Definitions**

1. In these regulations, unless inconsistent with the context, any word or expression to which a meaning has been assigned in the Act, shall have that meaning, and --

"**avocados**" means the fruit of the cultivars which are grown from the species *Persea americana* Miller;

"**bent neck**" means the fruit neck, protruding beyond one of the parallel lines drawn on each side of the thickest part of the fruit, parallel to the longitudinal axis which is measured from the stylar end to just above the curve of the bulbous part of the fruit;

"**blemish**" means any external skin defect on the surface of the avocado which detrimentally affects the appearance of the avocado;

"**bruise**" means any indentation or discolouration directly under the skin resulting from an impact;

"**clean**" means free from visible spray and wax residues, dirt or foreign matter;

"**cocktail avocados**" means avocados of which the mass of the individual fruit does not exceed 120 gram;

"**consignment**" means --

- (a) a quantity of avocados of the same cultivar, belonging to the same owner and delivered at the same time under cover of the same delivery note, consignment note or receipt note, or delivered by the same vehicle, or
- (b) in the case of a quantity of avocados which is divided into different cultivars, classes, pallet loads, counts or size codes, every quantity of each of the different cultivars, classes, pallet loads, counts or size codes;

"**container**" means the immediate container in which avocados are packed directly and the outer container in which prepacked units are packed, excluding prepacked units;

"**count**" means the number of avocados packed in a container;

"**decay**" means a state of decomposition, fungus development or insect infestation, which partly or completely, detrimentally affects the internal quality of the fruit;

DRAFT

"Food Business Operator (FBO)" means the person or persons responsible for ensuring that the prescribed requirements of these regulations are met within the food business as well as the person with overall authority on site or in the specific establishment;

"foreign matter" means any material that is not normally present in, on or between avocados, excluding --

- (a) residues of agricultural remedies which in terms of the Fertilizers, Farm Feeds, Agricultural Remedies and Stock Remedies Act, 1947 (Act No. 36 of 1947), are permissible for the treatment of pests and diseases; and
- (b) wax which is manufactured for the prevention of desiccation;

"hazard" means a biological, chemical or physical agent in, or condition of, a food product with the potential to cause an adverse health effect;

"injury" means any wound or puncture which has pierced the skin of the avocado and exposes the flesh, with the exception of such wounds or punctures which have become completely calloused;

"maturity" means a stage in the development of an avocado to such an extent that it ensures the proper completion of the ripening process;

"prepacked unit" means any single packing unit for presentation as such to the consumer consisting of avocados and the packaging into which the avocados were put before being offered for sale;

"sound" means free from insect damage, insect infestation and any external or internal physiological or other disorders, which detrimentally affects the quality of the avocados;

"sunburn" means a condition on the surface of the skin of an avocado giving it a yellow, brown or black colour and which is caused by excessive exposure to the sun;

"the Act" means the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990); and

"well-formed" means that the avocado has a shape which is typical of the cultivar concerned.

Restrictions on the sale of avocados

2. (1) No person shall sell avocados in the Republic of South Africa --
 - (a) unless the avocados are sold according to the classes referred to in regulation 3;
 - (b) unless the avocados comply with the requirements regarding quality referred to in regulation 4;
 - (c) unless such avocados are packed in a container and in the manner prescribed in regulations 5 and 6;
 - (d) unless such avocados are marked with the particulars and in the manner prescribed in regulations 7 and 8;
 - (e) if such avocados contain a substance prescribed as a substance which it may not contain according to Act 36 of 1947;
 - (f) if such avocados contain biological or chemical contaminants in quantities or at levels that exceed the maximum limits prescribed in terms of the Foodstuffs, Cosmetics and Disinfectants Act, 1972 (Act No. 54 of 1972);
 - (g) if such avocados are packed in a container or in a manner so prescribed as a container in which or a manner in which it may not be packed; and
 - (h) if such avocados are marked with particulars or in a manner so prescribed as particulars with which or a manner in which it may not be marked.

DRAFT

(2) Avocados sold by vendors in streets and other public places are excluded from the stipulations in subregulation 2(1)(a), (b), (c), (d), (f), (g) and (h): Provided that if such avocados are marked it shall be subject to the aforementioned stipulations.

(3) Imported avocados may be exempted from the provisions of subregulation (1), provided that the avocados --

- (a) comply with either the Codex Alimentarius, UNECE (United Nations Economic Commission for Europe) or OECD (Organisation for Economic Co-operation and Development) standards; and
- (b) are according to bilateral agreement accompanied by certificate issued by a relevant government authority responsible for quality control of fresh fruit and vegetables and in which it is certified that the quality of the avocados as verified through inspection conforms to the relevant standard.
- (c) does not contain a substance prescribed as a substance which it may not contain according to Act 36 of 1947;
- (d) does not contain biological or chemical contaminants in quantities or at levels that exceed the maximum limits prescribed in terms of the Foodstuffs, Cosmetics and Disinfectants Act, 1972 (Act No. 54 of 1972);

(4) The Executive Officer may grant written exemption, entirely or partially, to any person on such conditions as he deems necessary, from the provisions of subregulation (1).

**PART I
QUALITY STANDARDS**

Classes of avocados

3. There are three classes of avocados, namely "Class 1", "Class 2" and "Lowest Class".

Standards for classes of avocados

4. Class 1, Class 2 and Lowest Class avocados shall respectively comply with quality specification as set out in Table 1, 2, 3 and 4 (excluding Lowest Class);

**PART II
PACKING AND MARKING REQUIREMENTS**

Requirements for containers

5. (1) Avocados may be packed in rigid containers or bags:

- (a) Rigid containers --
 - (i) shall be suitable, dry, clean, undamaged and new;
 - (ii) shall not impart a foreign taste or odour to the avocados;
 - (iii) shall be free from any visible signs of fungus growth;
 - (v) shall be free from Arthropoda infestation;
 - (vi) shall be strong and rigid enough to ensure that the original shape shall be retained and shall not bulge out, dent in, break or tear during normal storage, handling or transport; and
 - (vii) shall be provided with suitable lids, where applicable.
- (b) Bags shall be suitable, clean, undamaged, new and shall not impart a foreign taste or odour to the avocados.

DRAFT***Packing requirements***

6. (1) Avocados in the same container shall be uniform with regard to shape, size, appearance and cultivar.
- (2) If each avocado is wrapped separately, the wrapping material shall be suitable.
- (3) Avocados in rigid containers shall be packed in layers to a suitable pattern or be jumble packed.
- (4) Each container shall be packed firmly and to capacity.
- (5) If avocados are packed in prepacked units, such units shall be packed in a suitable manner in an outer container: Provided that the prepacked units are new, clean, dry, undamaged and suitable.
- (6) Where applicable, not more than 15 per cent of the ventilation holes of the carton containers in a consignment may be blocked by unpunched-out portions and/or avocados.
- (7) Avocados, excluding cocktail avocados and avocados in bags, shall be graded and packed according to the mass ranges and size codes set out in Table 4 of the Annexure: Provided that individual avocados in bags shall have a minimum mass of 100 g.

Packing material

7. If packing material is used inside the containers, such packing material shall be clean, dry, odourless and of a quality such as to avoid causing any external or internal damage to the avocados.

Stacking of containers on pallets

8. If containers containing avocados are palletised -
- (a) the pallet shall be clean, undamaged and suitable;
- (b) the containers shall be stacked firmly and square with each other and the pallet;
- (c) only containers of the same dimensions shall be stacked in the same layer on the pallet; and
- (d) the containers shall not be stacked upside-down on the pallet.

Strapping of the pallet loads

9. (1) A pallet load of containers shall be strapped in a suitable manner.
- (2) If containers without lids are being used, a suitable covering shall be placed on top of the pallet load of containers, before the pallet load is strapped.

Provisions concerning presentation

10. (1) Uniformity

The contents of each package must be uniform and contain only avocados of the same origin, variety, quality and size (if sized) and the same degree of ripeness. The visible part of the contents of the package must be representative of the entire contents except for mixed sizes and varieties.

Marking requirements

11. (1) Each container containing avocados shall be marked clearly, indelibly, legibly, neatly and not upside down or askew, in the appropriate spaces, in block letters and numerals with the following particulars on one visible short or long end of the lid or container, where lids are not used, by printing, stamping or applying it by means of specially designed stickers: Provided that in the case of avocados packed in bags these markings shall be indicated on a suitable label securely fastened to the bag:

DRAFT

- (a) (i) the expression "Avocados" or "Cocktail avocados";
- (ii) the country of origin;
- (iii) the name and physical or postal address of the producer, packer or owner of the container;
- (iv) the packing date on at least 50% of the containers: Provided that if the packing date is expressed in a code, it shall be registered with the Executive Officer;
- (v) the expression "Class 1", "Class 2" or "Lowest Class", as the case may be;
- (vi) the producer's code or the packhouse code (excluding imported avocados) which is registered with the Executive Officer by the producer or Packhouse, as the case may be: Provided that -
 - (i) the packhouse code shall be used if the origin of the avocados cannot be traced back to the producer;
 - (ii) if a producer has more than one farm, each farm shall be registered separately; and
 - (iii) such code shall be preceded by the expression "Producer", "Packhouse", "Packer", "PUC", "PHC", "FBO" or any other suitable term having a similar meaning.

(2) If containers are marked by means of affixing labels thereupon, such labels shall be clean and securely attached and shall not be superimposed on other labels.

Loose quantities of avocados

12. When avocados are displayed for sale in loose quantities --
- (a) any quantity of a particular class or cultivar, as the case may be, shall not be displayed mixed with avocados of any other class or cultivar; and
 - (b) adherence to the marking requirements is optional: Provided that if marked, the class and cultivar of such quantity of avocados shall be indicated in clear, legible block letters and numerals of at least 10 millimetres in height on a notice board prominently placed at such a quantity of avocados.

Prohibition of false or misleading description of products

13. No person shall use any name, word, expression, reference or indication in any manner, either by itself or in conjunction with any verbal, written, printed, illustrated or visual material, in connection with the sale of a product in a manner that conveys or creates or is likely to convey or create a false or misleading impression as to the nature, substance, quality or other properties, or the class or grade, origin, identity or manner or place of production, of that product.

**PART III
SAMPLING*****Obtaining a sample of the consignment***

14. An inspector shall draw at random for inspection purposes at least two per cent of the containers in a consignment and shall be satisfied that the containers so drawn are representative of the consignment concerned.

DRAFT***Obtaining an inspection sample***

15. An inspection sample shall be drawn from each container obtained in accordance with regulation 15 and shall consist of the entire contents of the container. In the case of containers containing more than 20 avocados, a sample shall consist of at least 20 randomly chosen fruit.

Deviating sample

16. If an inspector should notice during the process of drawing the random sample or during the inspection, that some of the containers derived from any part of the pallet load, truck load or consignment contain avocados which are noticeably inferior to or differ from the contents of containers which represent the remainder of the pallet load, truck load or consignment, the inspection result shall be based only on the containers derived from the deviating portion of the pallet load, truck load or consignment and further samples required for inspection shall be drawn from this deviating portion.

**PART IV
INSPECTION METHODS*****Determination of the moisture content of avocados***

17. The moisture content of avocados shall be determined as follows:

- (a) Take 10 fruit from the containers obtained in regulation 10 for inspection purposes and examine fruit that seems to be immature and/or underdeveloped. (Fruit shall preferably be taken from different containers).
- (b)
 - (i) Bisect each of the 10 fruit longitudinally.
 - (ii) Discard the sections in which pips remain.
- (c) Remove the peel from the remaining 10 halves.
- (d) Remove all the skin of the pip that is still stuck to the inside of the fruit.
- (e) Grate approximately two tablespoons of each fruit by using an ordinary kitchen grater (small serrations), with the cut surface of the fruit facing the grater, to obtain a representative portion (inside and outside section) of the avocado.
- (f) Place the approximately 20 tablespoons of grated avocado in a bowl and mix thoroughly.
- (g)
 - (i) Place a petri-dish (approximately 90 millimetre or 150 millimetre in diameter) on a mass meter.
 - (ii) Measure off exactly 10 gram of the grated avocado and record the mass reading.
- (h) Spread the inspection sample evenly in the dish and place in a microwave oven for approximately 12 to 15 minutes. (The mass of the sample can be weighed for example every three minutes to determine the loss of mass and consequently the period of time that the samples are to be kept in the microwave oven is determined experimentally. This procedure simultaneously ensures that no burning occurs.) A cup of water (100 - 200 ml) should be placed in the microwave oven to further reduce the risk of burning the grated avocado. The water should be replaced after each measurement to ensure that it does not boil.
- (i) When the loss in moisture has ceased, the dish and its contents are removed and the mass determined.
- (j) The difference in mass between the "wet" and "dry" sample indicates the loss in moisture and is expressed as a percentage of the 10 gram sample.
- (k) When three tests are done of the same inspection sample, the results should not vary more than 0,5% from one another.

DRAFT***Determination of internal cold and frost damage***

18. For the determination of internal cold and frost damage in avocados, referred to in item 5 of Table 1 of the Annexure, at least two straight, flat cuts per fruit must be made right through the fruit, namely --

- (a) on the side of the fruit with the lightest colour, or fruit suspected of having cold and frost damage, at an angle of 45° from the bulbous part of the fruit to the stem end; and
- (b) at right angles to the longitudinal axis just above and below the bulbous part of the fruit.

**PART V
OFFENCE AND PENALTIES**

19. Any person who contravenes or fails to comply with the provisions of these regulations, shall be guilty of an offence and upon conviction be liable to a fine or to imprisonment in terms of section 11 of the Act.

DRAFT

ANNEXURE

**TABLE 1
QUALITY STANDARDS FOR AVOCADOS**

Quality factor	Class 1	Class 2	Lowest Class
1. General appearance	Sound, attractive, clean, fresh, intact and true to cultivar	Sound, attractive, clean, fresh, intact and true to cultivar	*
2. Shape	Well-formed and typical of the cultivar concerned	Well-formed and typical of the cultivar concerned	*
