DEPARTMENT OF TRADE AND INDUSTRY

No. R. 871

15 November 2013

AMENDMENT NOTICE

EXPORT CONTROL

Amendment to Government Notice No. R. 543 of Government Gazette No. 36708, Export Control Guidelines on the Exportation of Ferrous and Non-Ferrous Waste and Scrap, published on 2 August 2013 (Guidelines).

Paragraph 4.1 of the Guidelines is hereby amended by inserting the following language at the end of that paragraph:

With regard to the calculation of the price preference at which the following waste and scrap aluminium must be sold to the local consuming industry: i.e. Clean Mixed Old Alloy Sheet, also known as Taint/Tabor; Aluminium Borings and Turnings, also known as Telic; Aluminium Extrusions, also known as Toto or Tread; Aluminium Lotograph Sheet Scrap, also known as Tabloid; Clean Painted Aluminium Scrap, also known as Tale; Coated Aluminium Scrap, also known as Talent; Scrap Aluminium Auto Radiators, also known as Radiators, Rads or Tally; Bare Aluminium Wire Scrap, also known as Talon; Aluminium Auto Wheel Scrap, also known as Wheels, Alloy, Troma or Ally; Aluminium Foil Scrap, also known as Terse or Testy, and Paper-backed Aluminium Foil Waste and Aluminium Auto Fragments, also known as Twitch or Tweak; the ScrapIndex.com price of Cast Aluminium Scrap, also known as Tense, will be used as starting point for calculating the discount prices of the aluminium grades referred to above.

Where the value of the grades referred to above is higher or lower than the Cast Aluminium Scrap (Tense) value, the prices applicable to those grades will correspondingly be adjusted upwards or downwards by ITAC.

With regards to the remaining aluminium scrap grades, the prices for those grades in ScrapIndex.com will be used as the index (starting point) to calculate the price discount.
