Should an additional 8-digit tariff subheading be required, it is also necessary to obtain the relevant description of such a provision from SARS before the application can be submitted.

CONFIDENTIAL INFORMATION

Please note that in terms of Section 33 of the International Trade Administration Act, 71 of 2002, and Section 3 of the Tariff Investigations Regulations, if any information is considered to be confidential then a non-confidential version of the information must be submitted, simultaneously with the confidential version. It is imperative to consult the Tariff Investigations Regulations in this regard for the detailed requirements on confidentiality, which apply to all parties and to all correspondence with and submissions to the Commission. Based on these regulations parties must indicate:

- ☐ A detailed summary of the confidential information and indexing of numerical data must be submitted to enable interested parties to make meaningful representations on trends and methodology used to determine relevant factors; or
- ☐ In cases where information is not susceptible to summary or indexing, reasons must be submitted to this effect.

All correspondence with and submissions to the Commission unless clearly indicated to be confidential will be made available to other interested parties. (Confidential information should be clearly marked by writing "CONFIDENTIAL") on the cover page of the document and every page that contains confidential information.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the confidentiality requirements.

23. As an increase in customs duties is considered for the purpose of granting relief for domestic producers that may be experiencing threatening import pressures to adjust and restructure so that in the medium to long term they could become internationally competitive without any support in the form of customs duty protection, support will be **tied to conditions related to economic performance over time and will be reviewed after a specified period.**
24. State the increased economic benefits that must be realised should the tariff support be provided by completing the table below, where applicable.

Postal address: Private Bag X753, Pretoria, 0001

Physical address: DTI Campus (Uuzaji building, first floor reception), 77 Meintjies Street, Sunnyside, Pretoria.

NOTES:

- i) It is **imperative** to study the contents of the document titled "TARIFF INVESTIGATIONS REGULATIONS", which can be found on ITAC's website (www.itac.org.za), before completing this application form.
- ii) Applicants should feel free to submit any information or comment considered to be relevant to the application, not called for specifically in the questionnaire. The application should include a duly signed affidavit on the company's letter head averring the accuracy of the information being provided and be accompanied by a cover letter signed by the CEO of the applying company authorising the submission of the application.
- iii) It is advisable that the Office of the Commissioner for the South African Revenue Service (SARS) be consulted in connection with the tariff classification and description of the product concerned. (This applies to questions 10 and 11 of the questionnaire). Should an additional 8-digit tariff subheading be required, it is also necessary to obtain the relevant description of such a provision from SARS before the application can be submitted.
- iv) If an increase of the custom duty on more than one product is required, information should be furnished separately throughout the questionnaire for each product.
- v) The statistical information may be given for either calendar years or financial years, but the basis selected should be stated.

CONFIDENTIAL INFORMATION

Please note that in terms of Section 33 of the International Trade Administration Act, 71 of 2002, and Section 3 of the Tariff Investigations Regulations, if any information is considered to be confidential then a non-confidential version of the information must be submitted, simultaneously with the confidential version. It is imperative to consult the Tariff Investigations Regulations in this regard for the detailed requirements on confidentiality, which apply to all parties and to all correspondence with and submissions to the Commission. Based on these regulations parties must indicate:

- ☐ Where confidential information has been omitted and the reasons for the confidentiality of the information omitted; and
- ☐ A detailed summary of the confidential information and indexing of numerical data must be submitted to enable interested parties to make meaningful representations on trends and methodology used to determine relevant factors; or
- ☐ In cases where information is not susceptible to summary or indexing, reasons must be submitted to this effect.

All correspondence with and submissions to the Commission unless clearly indicated to be confidential will be made available to other interested parties. (Confidential information should be clearly marked by writing "CONFIDENTIAL") on the cover page of the document and every page that contains confidential information.

If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the Commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due). Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the confidentiality requirements.

VERIFICATION

Please note that in terms of section 8 of the Tariff Investigations Regulations, the Commission retains the right to verify the accuracy of the information supplied to it by any party by conducting verifications.
