#### What is considered as a parcel?

Any postal item larger than 250 x 353 mm and/or thicker than 30 mm and/or weighing more than 1 kg will be considered a parcel. However, the Econo Parcel specifications (the old C3) differ:

Maximum thickness: 100 mm

Size: 458 mm x 324 mm

- Fees are based on the greater of the actual mass or the volumetric mass (i.e. Length by width by height (cm) divided by 5000) are charged for non-documents (parcels)

Insurance is an optional extra. The client has the option of insuring the ordinary parcel at a rate of three per cent of the declared value up to a maximum of R5 000 with a minimum rate of R3,00 per parcel.

### Special value-added services

Value can be added to basic international mail services by buying additional value-added services. These include express delivery, registered, insured and advice-of-delivery (AR) options. As these add-on services are not available to some countries or for some categories of mail, enquiries should be made at post offices to find out if they are available for your purposes. Insured and registered items must be posted at post office counters and not in street post-boxes.

### International reply coupons

The international reply coupon service enables customers to repay the postage on a reply from a correspondent abroad. Coupons sent abroad may be exchanged for one or more postage stamps representing the minimum postage pre-payable on an air-mail letter. The coupons cost R23.40 and are available at post offices.

### Exchange control regulations

Exchange control regulations apply equally to postal items as they do to other exports. Generally, items of a value of more than R1 000, 00 require specific export documents to be completed. Details are available at post offices.
