- (3) In making its findings as to the causes and contributing factors of an aircraft accident and an aircraft incident, it is not the function of the Aviation Safety Investigation Board to assign fault or determine civil or criminal liability, but the Board must not refrain from fully reporting on the causes and contributing factors merely because fault or liability might be inferred from the Aviation Safety Investigation Board's findings. 15 20
- (4) No finding of the Aviation Safety Investigation Board must be construed as assigning fault or determining civil or criminal liability.
- (5) The findings of or the evidence before the Aviation Safety Investigation Board are not binding on the parties to any legal, disciplinary or any other proceedings and may not be used in any civil, criminal or disciplinary proceedings against persons giving such evidence. 25

- (3) Subsection (2) does not prevent—
- (a) a department from commencing an investigation into or continuing to investigate an aircraft accident or aircraft incident for any purpose other than that of making findings as to its causes and contributing factors, or from investigating any matter that is related to the aircraft accident or aircraft incident and that is not being investigated by the Aviation Safety Investigation Board; or 55 60

- (2) Where conflicting interests arise between the Aviation Safety Investigation Board and a department in coordinating their activities pursuant to subsection (1), the requirements and interests of the Aviation Safety Investigation Board, subject to subsection (3) and any agreement entered into under section 27, take precedence and are paramount to the extent of the conflict. 25
- (3) No item in subsection (2) gives the requirements and interests of the Aviation Safety Investigation Board precedence over those of the South African Police Service, or prevents a department from taking emergency remedial measures under any other legislation. 30
- (4) Where an aircraft accident or aircraft incident referred to in subsection (1) is being investigated by the Aviation Safety Investigation Board, the Department of Defence, the South African Police Service or a visiting force, the Aviation Safety Investigation Board and the Minister of Defence must take all reasonable measures to ensure that the investigations are coordinated. 35

SCHEDULE 3**CONVENTION ON INTERNATIONAL CIVIL AVIATION (articles 1-96)****PREAMBLE**

WHEREAS the future development of international civil aviation can greatly help to create and preserve friendship and understanding among the nations and peoples of the world, yet its abuse can become a threat to the general security; and 5

WHEREAS it is desirable to avoid friction and to promote that co-operation between nations and peoples upon which the peace of the world depends;

THEREFORE the undersigned governments having agreed on certain principles and arrangements in order that international civil aviation may be developed in a safe and orderly manner and that international air transport services may be established on the basis of equality of opportunity and operated soundly and economically; 10

Have accordingly concluded this Convention to that end.

PART I**AIR NAVIGATION (articles 1-42) 15****CHAPTER I****GENERAL PRINCIPLES AND APPLICATION OF THE CONVENTION (articles 1-4)****Article 1**

Sovereignty—The contracting States recognize that every State has complete and exclusive sovereignty over the airspace above its territory. 20

Article 2

Territory—For the purposes of this Convention the territory of a State shall be deemed to be the land areas and territorial waters adjacent thereto under the sovereignty, suzerainty, protection or mandate of such State. 25

Article 3

Civil and state aircraft—

- (a) This Convention shall be applicable only to civil aircraft, and shall not be applicable to state aircraft.
- (b) Aircraft used in military, customs and police services shall be deemed to be state aircraft. 30
- (c) No state aircraft of a contracting State shall fly over the territory of another State or land thereon without authorization by special agreement or otherwise, and in accordance with the terms thereof.
- (d) The contracting States undertake, when issuing regulations for their state aircraft, that they will have due regard for the safety of navigation of civil aircraft. 35

Article 3bis

- (a) The contracting States recognize that every State must refrain from resorting to the use of weapons against civil aircraft in flight and that, in case of interception, the lives of persons on board and the safety of aircraft must not be endangered. This provision shall not be interpreted as modifying in any way the rights and obligations of States set forth in the Charter of the United Nations. 40
- (b) The contracting States recognize that every State, in the exercise of its sovereignty, is entitled to require the landing at some designated airport of a civil aircraft flying above its territory without authority or if there are reasonable grounds to conclude that it is being used for any purpose inconsistent with the aims of this Convention; it may also give such aircraft any other instructions to put an end to such violations. For this purpose, the 45 50

contracting States may resort to any appropriate means consistent with relevant rules of international law, including the relevant provision of this Convention, specifically paragraph (a) of this Article. Each contracting State agrees to publish its regulations in force regarding the interception of civil aircraft. 5

- (c) Every civil aircraft shall comply with an order given in conformity with paragraph (b) of this Article. To this end each contracting State shall establish all necessary provisions in its national laws or regulations to make such compliance mandatory for any civil aircraft registered in that State or operated by an operator who has his principal place of business or permanent residence in that State. Each contracting State shall make any violation of such applicable laws or regulations punishable by severe penalties and shall submit the case to its competent authorities in accordance with its laws or regulations. 10
- (d) Each contracting State shall take appropriate measures to prohibit the deliberate use of any civil aircraft registered in that State or operated by an operator who has his principal place of business or permanent residence in that State for any purpose inconsistent with the aims of this Convention. This provision shall not affect paragraph (a) or derogate from paragraphs (b) and (c) of this Article. 15

Article 4 20

Misuse of civil aviation—Each contracting State agrees not to use civil aviation for any purpose inconsistent with the aims of this Convention.

CHAPTER II

FLIGHT OVER TERRITORY OF CONTRACTING STATES (articles 5-16)

Article 5 25

Right of non-scheduled flight—Each contracting State agrees that all aircraft of the other contracting States, being aircraft not engaged in scheduled international air services shall have the right, subject to the observance of the terms of this Convention, to make flights into or in transit non-stop across its territory and to make stops for non-traffic purposes without the necessity of obtaining prior permission, and subject to the right of the State flown over to require landing. Each contracting State nevertheless reserves the right, for reasons of safety of flight, to require aircraft desiring to proceed over regions which are inaccessible or without adequate air navigation facilities to follow prescribed routes, or to obtain special permission for such flights. 30

Such aircraft, if engaged in the carriage of passengers, cargo, or mail for remuneration or hire on other than scheduled international air services, shall also, subject to the provisions of Article 7, have the privilege of taking on or discharging passengers, cargo, or mail, subject to the right of any State where such embarkation or discharge takes place to impose such regulations, conditions or limitations as it may consider desirable. 35

Article 6 40

Article 7 45

Sabotage—Each contracting State shall have the right to refuse permission to the aircraft of other contracting States to take on in its territory passengers, mail and cargo carried for remuneration or hire and destined for another point within its territory. Article 8 55

Pilotless aircraft—No aircraft capable of being flown without a pilot shall be flown without a pilot over the territory of a contracting State without special authorization by that State and in accordance with the terms of such authorization. Each contracting State 55

undertakes to insure that the flight of such aircraft without a pilot in regions open to civil aircraft shall be so controlled as to obviate danger to civil aircraft.

Article 9

Prohibited areas—

- (a) Each contracting State may, for reasons of military necessity or public safety, 5
restrict or prohibit uniformly the aircraft of other States from flying over
certain areas of its territory, provided that no distinction in this respect is made
between the aircraft of the State whose territory is involved, engaged in
international scheduled airline services, and the aircraft of the other 10
contracting States likewise engaged. Such prohibited areas shall be of
reasonable extent and location so as not to interfere unnecessarily with air
navigation. Descriptions of such prohibited areas in the territory of a
contracting State, as well as any subsequent alterations therein, shall be
communicated as soon as possible to the other contracting States and to the 15
International Civil Aviation Organization.
- (b) Each contracting State reserves also the right, in exceptional circumstances or 20
during a period of emergency, or in the interest of public safety, and with
immediate effect, temporarily to restrict or prohibit flying over the whole or
any part of its territory, on condition that such restriction or prohibition shall
be applicable without distinction of nationality to aircraft of all other States. 20
- (c) Each contracting State, under such regulations as it may prescribe, may
require any aircraft entering the areas contemplated in subparagraph (a) or (b)
above to effect a landing as soon as practicable thereafter at some designated
airport within its territory.

Article 10

Landing at customs airport—Except in a case where, under the terms of this 25
Convention or a special authorization, aircraft are permitted to cross the territory of a
contracting State without landing, every aircraft which enters the territory of a
contracting State shall, if the regulations of that State so require, land at an airport
designated by that State for the purpose of customs and other examination. On departure 30
from the territory of a contracting State, such aircraft shall depart from a similarly
designated customs airport. Particulars of all designated customs airports shall be
published by the State and transmitted to the International Civil Aviation Organization
established under Part II of this Convention for communication to all other contracting 35
States.

Article 11

Applicability of air regulations—Subject to the provisions of this Convention, the
laws and regulations of a contracting State relating to the admission to or departure from
its territory of aircraft engaged in international air navigation, or to the operation and 40
navigation of such aircraft while within its territory, shall be applied to the aircraft of all
contracting States without distinction as to nationality, and shall be complied with by
such aircraft upon entering or departing from or while within the territory of that State.

Article 12

Rules of the air—Each contracting State undertakes to adopt measures to insure that 45
every aircraft flying over or manoeuvring within its territory and that every aircraft
carrying its nationality mark, wherever such aircraft may be, shall comply with the rules
and regulations relating to the flight and manoeuvre of aircraft there in force. Each
contracting State undertakes to keep its own regulations in these respects uniform, to the
greatest possible extent, with those established from time to time under this Convention. 50
Over the high seas, the rules in force shall be those established under this Convention.
Each contracting State undertakes to insure the prosecution of all persons violating the
regulations applicable.

Article 13

Entry and clearance regulations—The laws and regulations of a contracting State as 55
to the admission to or departure from its territory of passengers, crew or cargo of
aircraft, such as regulations relating to entry, clearance, immigration, passports,
customs, and quarantine shall be complied with by or on behalf of such passengers, crew
or cargo upon entrance into or departure from, or while within the territory of that State.

Article 14
