**MEMORANDUM ON THE OBJECTS OF THE
PROHIBITION OR RESTRICTION OF
CERTAIN CONVENTIONAL WEAPONS BILL, 2007**

1. BACKGROUND

1.1 South Africa signed and ratified the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May be Deemed to be Excessively Injurious or to Have Indiscriminate Effects (the Convention). The Convention seeks to implement the international humanitarian law principle that the right of parties to an armed conflict to choose methods or means of warfare is not unlimited. The Convention therefore identifies specific categories of conventional weapons and places prohibitions or restrictions on their use.

1.2 The Convention further provides that each State Party should take all appropriate steps, including legislative and other measures, to prevent and suppress violations of this Convention on territory under its jurisdiction or control. In view of this provision, South Africa is under an obligation to promulgate enabling legislation in order to give effect to this Convention.

1.3 Section 231(4) of the Constitution of the Republic of South Africa, 1996, states that any international agreement becomes law within this country when enacted into law by national legislation. A self-executing provision of an agreement that has been approved by Parliament is law in the Republic unless it is inconsistent with the Constitution or an Act of Parliament.

1.4 By promulgating the Prohibition or Restriction of Certain Conventional Weapons Bill, the Republic will have fulfilled its obligations under the Convention.

2. MAIN OBJECTS

2.1 The main object of this Bill is to place the necessary restrictions or prohibitions on specific categories of conventional weapons and thus fulfil South Africa's obligations under the Convention.

2.1.1 Definitions

The Bill creates consistency with the Convention by using the same definitions and thereafter adding those definitions that are necessary to eliminate misinterpretation in the implementation of the Bill.

2.1.2 Prohibitions or restrictions

The Convention requires that restrictions or prohibitions be placed on specifically identified categories of conventional weapons. This Bill provides for restriction or prohibition of those identified conventional weapons. The Bill also ensures that a distinction is drawn between categories of conventional weapons that are prohibited and those that are restricted.

The Bill provides for the prohibition of the following conventional weapons:

- Non-detectable fragments;
- blinding laser weapons.

The Bill provides for restrictions on the use of the following conventional weapons:

- Mines, booby-traps and other devices;
- incendiary weapons.

2.1.3 Penal sanctions

Penal sanctions are included to discourage violations of the Convention. Any contravention of the Bill will be punishable by either a fine or imprisonment, or both.

2.1.4 Extra-territorial application of legislation

The Bill seeks to address transgressions by South African persons acting outside the borders of the Republic. South African courts are competent to prosecute South African citizens who contravene the provisions of the Bill outside the borders of the Republic, and the contravention will be deemed to have occurred within its borders.

2.1.5 Reporting on South African compliance with Convention

The Convention requires every State Party to report annually to the Secretary of the United Nations on its compliance with the obligations of the Convention. The Bill thus places the obligation on the Minister of Defence to report on South Africa's compliance, via the Minister of Foreign Affairs.

2.1.6 Miscellaneous

The Bill provides that the Minister may make regulations and delegate powers and duties in respect of compliance with South Africa's obligations under the Convention.

3. CONSULTATION WITH KEY STAKEHOLDERS

3.1 The committee that was charged with the responsibility of drafting the Bill consulted with all stakeholders that were considered key to the drafting of the Bill. These stakeholders included the following:

- Department of Foreign Affairs.
- South African Police Service.

In order to add the necessary international perspective to the Bill, the drafting committee consulted consistently with the International Committee of the Red Cross (ICRC).

4. FINANCIAL IMPLICATIONS FOR STATE

None.

5. PARLIAMENTARY PROCEDURE

5.1 The State Law Advisers and the Department of Defence are of the opinion that this Bill must be dealt with in accordance with the procedure established by section 75 of the Constitution since it contains no provision to which the procedure set out in section 74 or 76 of the Constitution applies.

5.2 The State Law Advisers are of the opinion that it is not necessary to refer this Bill to the National House of Traditional Leaders in terms of section 18(1)(a) of the Traditional Leadership and Governance Framework Act, 2003 (Act No. 41 of 2003), since it does not contain provisions pertaining to customary law or customs of traditional communities.
