Section 17 of the Livestock Improvement Act, 1977 (Act No. 25 of 1977), regulates the exportation of any animal, semen, ova or eggs and in particular prohibits the exportation of fertile ostriches and fertile ostrich eggs.

The principal objects of the Bill are—

- (a) to authorise producers of ostriches to export fertile ostriches and fertile ostrich eggs subject to the prescribed minimum standards and requirements;
- (b) to safeguard the genetic quality of export ostriches and export ostrich eggs;
and
- (c) to authorise the exportation of other indigenous breeds subject to the prescribed minimum standards and requirements.
