PFMA, 1999 and the Treasury Regulations paragraph 18.2, the accounting officer of a I hereby formally submit to you Department must submit an annual report with audited financial statements and the Auditor-General's report, to the relevant Executive Authority, for tabling in Parliament.

This report complies with all statutory reporting requirements for the department. It gives assurance that government resources were used in a manner consistent with applicable corporate governance principles to deliver services for which the resources were allocated.

In terms of section 40(1) of the In my capacity as the accounting officer of the National Department of Tourism, as the Executive Authority, the department's annual report with audited financial statements and the Auditor-General's report for the 2010/2011 financial year for tabling in Parliament.

AMBASSADOR LM MAKHUBELA DIRECTOR-GENERAL **DEPARTMENT OF TOURISM DATE: 31 JULY 2011**

Minister's Statement

It gives me great pleasure present the National Department ofTourism's Annual Report for the financial year 2010/11. It gives a detailed account of our achievements to Parliament and to all the people of South Africa. The progress we have made in achieving the Department's goals outlined in the Department's Strategy 2010/11 - 2014/15 is contained in detail in this Annual Report. The Annual Report is an ideal opportunity to reflect on the progress we have made and the direction we must take. My overriding impression is that the National Department of Tourism (NDT) has a sound foundation, capable staff members, and is currently growing its staff complement in order to realise our vision namely "To be globally celebrated as a leader in tourism excellence". The strategic plan was reviewed during the preceding financial year to provide a greater focus on key departmental priorities.

South Africa has seen a steady growth in tourism growth both in terms of tourist arrivals and tourism's contribution to Gross Domestic Product (GDP). The year 2010 was particularly significant given the boost provided by the hosting of the 2010 FIFA World Cup to the image of South Africa as a tourist destination. The full implementation of the Tourism 2010 Plan by the NDT allowed South Africa to meet all its obligations to FIFA with regard to hospitality. South Africans should all take pride in the success of the World Cup, as it was the first event of this size the country and the Continent ever hosted. This has helped the Department to continue its contribution to creating a better Africa and a better world.

In this statement I would like to highlight a few examples of the ways in which tourism in South African has utilised its competitive advantages to boost its contribution to job

creation, poverty alleviation and the GDP. I want to share with you our main accomplishments since the newly created NDT was established. The NDT undertook initiatives to build its capacity in terms of the growth and development of the tourism sector. We continued the work of monitoring the implementation of the Tourism BEE Charter and Scorecard and report on progress in this regard. A baseline study was undertaken to assess the state of transformation in the sector. We supported the Tourism Enterprise Partnership in its initiatives to stimulate small business development and entrepreneurship by encouraging new businesses to participate in the sector and existing enterprises to grow and perform more profitably. We implemented bilateral and multilateral initiatives through forging various international tourism agreements and contributing towards the work programme of the United Nation's World Tourism Organisation. We continued the implementation of tourism's contribution to the Expanded Public Works Programme and participated in the process to develop a Tourism Satellite Account for South Africa which provides information on tourism's contribution to the South African economy.

The Department also launched the first ever National Tourism Sector Strategy (NTSS), which has set a course for accelerating the responsible growth of the tourism industry from 2010 to 2015. The strategy was compiled through a comprehensive consultative process, including ministerial road shows, specific strategy stakeholder workshops, a web-based survey, a report compiled by a carefully selected panel of experts, and both inter-governmental and Cabinet consultation led by the Ministry.

The NDT remains committed to providing quality service delivery to all our stakeholders in the sector, with the overall goal of an increased contribution to economic growth. We have recently released our Annual Performance Plan 2011-12, which, together with Departmental Strategic objectives and goals, provide an inspirational vision for the future.

I would like to take this opportunity to thank the Management of the Department under the leadership of our new Director-General, all staff of the Department and all of our stakeholders for their contribution during a significant year in the Tourism industry.

We will continue to promote integrated an approach to tourism development by

implementing the Cabinet approved National Tourism Sector Strategy which was one of our key achievements in the 2010/2011 financial year. TOKOZILE XASA, MP
DEPUTY MINISTER OF TOURISM

"The Department is inspired by the expectations of South African citizens to contribute to the delivery of the electoral mandate entrusted to government."

The Department has integrated designated groups in the implementation of its job creation and enterprise support programmes with a deliberate bias towards rural areas. As the report will show, action was taken to support and implement Broad-Based Black Economic Empowerment (BBBEE) as well as Small Medium- and Micro Enterprises (SMME) in the tourism sector. The department's procurement policy was implemented to achieve the BBEEE imperatives of government. The department's role of monitoring the implementation of the Tourism BEE Charter was enhanced by the establishment of systems to monitor compliance as well as a baseline study to assess the state of transformation in the industry.

The department has created platforms that allowed it to keep in touch with South Africans to reach out and raise awareness of the opportunities in the Tourism Sector through the dedicated developmental communications

initiatives including public education, awareness and community outreach with increased footprint in the rural areas.

Looking forward, we will further strengthen our partnerships with the people of South Africa and other role-players in pursuit of the objectives of South Africa's National Tourism Sector Strategy. We look forward to the task ahead and the prospects future holds.

The effectiveness of internal control

The department's system of internal control is designed to provide reasonable assurance, inter alia, that assets are safeguarded and that liabilities and working capital are efficiently managed.

Based on the approved annual internal audit plan setting out the scope, control objectives and risks, for the period covered, various reports were submitted by the internal auditors. The Management Report of the Auditor-General South Africa on the annual financial statements was also submitted to the committee.

The results of the internal and external audits indicated that controls have been operating as intended in certain areas, while in others attention should be given to strengthen and improve the controls. Where control weaknesses and other matters were reported, the Audit Committee has considered the management responses and action plans to address the matters and to facilitate corrective action and/or improvements to controls and procedures. Implementation of such corrective actions is monitored through the implementation of an issue tracking report and the follow-up review reports submitted to the committee on a regular basis.

Strategic issues facing the department

The National Department of Tourism (NDT) is a newly created department following the announcement by the president in May 2009 that a separate ministry for tourism would be created. The department aims to increase job and entrepreneurial opportunities and encourage the meaningful participation of previously disadvantaged communities and individuals. The focus will be on facilitating the growth of the tourism industry by providing support to the public and private sectors, and the broader community. In relation to tourism specifically, the department aims to increase inbound tourism, deliver a world class visitor experience, entrench a culture of tourism among South Africans and increase the sector's contribution to job creation and the country's GDP.

To ensure that South Africa becomes a preferred tourism destination, South African Tourism will develop and implement a world class marketing strategy. In implementing this strategy, the organisation will facilitate the strategic alignment of the provinces and industry with the global marketing of tourism to South Africa, remove obstacles to tourism growth, build a tourist friendly nation and ensure that tourism benefits all South Africans.

Key objectives include increasing the annual volume of international tourists visiting South Africa, increasing the average spend per tourist, increasing international brand awareness of South Africa as a travel destination; and increasing the number of graded accommodation establishment.

Funding is primarily used for: running marketing offices in market countries; promoting local tourism, which helps reduce seasonality in the industry; facilitating the grading of products and services; and implementing the Tourism BEE Charter and Scorecard.

South African Tourism has rolled out a tourism marketing growth strategy based on in-depth segmentation research and international focus groups. The strategy focuses marketing activities on specific segments of tourism in particular markets.

Report of the Auditor-General to Parliament on Vote No. 34: Department of Tourism

for the year ended 31 March 2011

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the accompanying financial statements of the Department of Tourism, which comprise the appropriation statement, the statement of financial position as at 31 March 2011, and the statement of financial performance, statement of changes in net assets and cash flow statement for the year then ended, a summary of significant accounting policies and other explanatory information, and the accounting officer's report, as set out on pages 62 to 108.

Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with The Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA), and for such internal control as management determines necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General's responsibility

3. As required by section 188 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996) and section 4 of the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), my responsibility is to express an opinion on these financial statements based on my audit.

- 4. I conducted my audit in accordance with International Standards on Auditing and General Notice 1111 of 2010 issued in Government Gazette 33872 of 15 December 2010. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
- An audit involves performing procedures to obtain audit evidenceabout amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due tofraud error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
- 6. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

7. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Tourism as at 31 March 2011, and its financial performance and cash flows for the year then ended in accordance with the Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999) (PFMA)

Additional matter

8. I draw attention to the matter below. My opinion is not modified in respect of this matter:

Financial reporting framework

9. The financial reporting framework prescribed by the National Treasury and applied by the department is a compliance framework. Thus my opinion would have reflected that the financial statements had been properly prepared instead of fairly presented as required by section 20(2)(a) of the PAA, which requires me to express an opinion on the fair presentation of the financial statements of the department.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

10. In accordance with the PAA and in terms of *General Notice 1111 of 2010*, issued in *Government Gazette 33872 of 15 December 2010*, I include below my findings on the annual performance report as set out on pages 21 to 57 and material non-compliance with laws and regulations applicable to the department.

Predetermined objectives

11. There were no material findings on the annual performance report concerning the presentation, usefulness and reliability of the information.

Compliance with laws and regulations Transfer of funds

- 12. The accounting officer did not maintain appropriate measures to ensure that the transfers to Expanded Public Works Programme projects are applied for their intended purpose, as per the requirements of TR 8.4.1, as the audit of the Expanded Public Works Programme projects revealed a number of instances where:
 - provincial project managers and project implementers did not comply with required regular reporting procedures
 - project implementers did not submit external audit reports
 - provincial project managers did not comply with regular monitoring procedures and did not execute regular inspection visits or review of performance as required by their performance agreement.

Management identified the Expanded Public Works Programme as an area that requires improvement in internal controls and compliance. During the year under review the department commenced with a review of all projects and will implement any corrective actions identified.

Report of the Auditor-General to Parliament on Vote No. 34: Department of Tourism

for the year ended 31 March 2011

INTERNAL CONTROL

13. In accordance with the PAA and in terms of General Notice 1111 of 2010, issued in Government Gazette 33872 of 15 December 2010, I considered internal controls relevant to my audit, but not for the purpose of expressing an opinion on the effectiveness of internal control. The matters reported below are limited to the significant deficiencies that resulted in the findings on material non-compliance with laws and regulations included in this report.

Leadership

14. The monitoring controls to ensure adherence to contractual requirements and the internal controls over the expanded public works programme were not sufficient to detect and prevent control deviations and noncompliance with laws and regulations.

Governance

15. Concerns exist about the nature, extent and frequency of management's assessment of the controls in place, relating to the expanded public works programme, to prevent and detect fraudulent activities.

OTHER REPORTS

Investigations

16. Forensic audit investigations were initiated by the accounting officer of the Department of Tourism in respect of the Expanded Public Works Program projects. These have not yet been finalised.
