SUBMISSION OF THE ANNUAL REPORT TO THE MINISTER OF POLICE

HON. EN MTHETHWA, MP
MINISTER OF POLICE

I have the honour of submitting the Annual Report of the Department of Police for the period 1 April 2012 to 31 March 2013.

GENERAL MV PHIYEGA
ACCOUNTING OFFICER

Date: 2013/08/31
### CONTENTS

**PART A: GENERAL INFORMATION**

1. **DEPARTMENTAL GENERAL INFORMATION**

2. **LIST OF ABBREVIATIONS/ACRONYMS**

3. **STRATEGIC OVERVIEW**
   - 3.1 **VISION**
   - 3.2 **MISSION**
   - 3.3 **VALUES**
   - 3.4 **STRATEGIC-OUTCOME ORIENTATED GOALS**

4. **LEGISLATIVE AND OTHER MANDATES**

5. **ORGANISATIONAL STRUCTURE**

6. **ENTITIES REPORTING TO THE MINISTER/MEC**

7. **FOREWORD BY THE MINISTER OF POLICE**

8. **STATEMENT BY THE DEPUTY MINISTER OF POLICE**

9. **OVERVIEW OF THE ACCOUNTING OFFICER**

10. **ROLL OF HONOUR**

**PART B: PERFORMANCE INFORMATION**

1. **STATEMENT OF RESPONSIBILITY FOR PERFORMANCE INFORMATION**

2. **AUDITOR-GENERAL’S REPORT: PREDETERMINED OBJECTIVES**

3. **OVERVIEW OF DEPARTMENTAL PERFORMANCE**
   - 3.1 **SERVICE DELIVERY ENVIRONMENT**
   - 3.2 **SERVICE DELIVERY IMPROVEMENT PLAN**
   - 3.3 **ORGANISATIONAL ENVIRONMENT**

4. **STRATEGIC-OUTCOME ORIENTED GOALS**

5. **PERFORMANCE INFORMATION BY PROGRAMME**
   - 5.1 **PROGRAMME 1: ADMINISTRATION**
1. DEPARTMENTAL GENERAL INFORMATION

3. STRATEGIC OVERVIEW

3.1 Vision

→ create a safe and secure environment for all the people in South Africa.

3.2 Mission

→ prevent and combat anything that may threaten the safety and security of any community
→ investigate any crimes that threaten the safety and security of any community
→ ensure offenders are brought to justice
→ participate in efforts to address the causes of crime.

3.3 Values

→ protect everyone’s rights and to be impartial, respectful, open and accountable to the community
→ use the powers given to us in a responsible way
→ provide a responsible, effective and high-quality service with honesty and integrity
→ evaluate our service continuously and make every effort to improve on it
→ ensure an effective, efficient and economic use of resources
→ develop the skills of all members through equal opportunity
→ cooperate with all communities, all spheres of Government and other relevant role players.

3.4 Strategic outcome-orientated goals

The Presidency, together with the Justice, Crime Prevention and Security (JCPS) Cluster developed an outcome-based model, as well as evaluation and monitoring tools, in order to realise the broad strategic outcome: All People in South Africa Are and Feel Safe. This outcome contains various focus areas, presented below in the goal statement, which the SAPS’s Strategic Plan for 2010-2014, as an integral part (entry point) of the JCPS Cluster value chain, focuses on.
### Orientated Goal 1
Ensure that all people in South Africa are and feel safe.

<table>
<thead>
<tr>
<th>Goal statement</th>
<th>To provide police services that will ensure safer communities by -</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• reducing the number of all serious crime incidents, contact crime incidents and trio crime incidents</td>
</tr>
<tr>
<td></td>
<td>• increasing activities to prevent and combat border crimes</td>
</tr>
<tr>
<td></td>
<td>• increasing the percentage of court-ready case docket for all serious crimes, contact crimes and trio crimes</td>
</tr>
<tr>
<td></td>
<td>• increasing the detection rate for all serious crimes, contact crimes and trio crimes, including organised crimes and the crimes against women and children</td>
</tr>
<tr>
<td></td>
<td>• increasing the conviction rates for all serious crimes, contact crimes and trio crimes.</td>
</tr>
</tbody>
</table>

Another strategic outcome that the SAPS Strategic Plan for 2010-2014 addresses is Outcome 12: **An Efficient, Effective and Development-Orientated Public Service**, specifically **Output 1: Service Delivery Quality and Access**.

### Orientated Goal 2
Ensuring adequate availability of, and access to the SAPS’s service points.

| Goal statement | Improve the levels of service delivery and accessibility to services by bringing the SAPS’s service points closer to the communities. |

This goal has been prioritised in the development of the SAPS’s Medium-term Infrastructure and Capital Asset Plan, which forms part of the Long-term Infrastructure and Capital Asset Plan, and the Access Strategy for determining the construction of access or service points, i.e. police stations, satellite police stations, fixed and mobile contact points, which is based on the analysis of geographical location and input from community engagements. Although there are other facilities and access points identified in some geographical areas, particular emphasis is put on constructing police stations and access points in the rural environment.

The actual performance in addressing the two strategic outcomes oriented goals mentioned above is detailed in relevant sections below, including performance on the aligned key departmental strategic priorities.
4. **LEGISLATIVE AND OTHER MANDATES**

4.1 **Constitutional Mandate**

The SAPS derives its mandate from Section 205 of the Constitution, 1996 (Act No 108 of 1996). The objectives of policing are to:

- prevent, combat and investigate crime
- maintain public order
- protect and secure the inhabitants of the Republic and their property
- uphold and enforce the law.

4.2 **Legislative Mandate**

The Minister of Police is responsible for policy determination, direction and overall execution of the Department’s mandate in relation to the following key pieces of legislation:

- Firearms Control Act, 2000 (Act No 60 of 2000)
- Dangerous Weapons Act, 1968 (Act No 71 of 1968)
- National Key Points Act, 1980 (Act No 102 of 1980)
- Private Security-Industry Regulation Act, 2001 (Act No 56 of 2001)
- Explosives Act, 1956 (Act No 26 of 1956)
- Independent Police Investigative Directorate Act, 2011 (Act No 1 of 2011)
- Civilian Secretariat for Police Service Act, 2011 (Act No 2 of 2011).

The SAPS is responsible for preventing, combating and investigating any crime. In the execution of its constitutional mandate, the SAPS derives its powers and functions from the following key legislation:

- Criminal Procedure Act, 1977 (Act No 51 of 1977)
- National Strategic Intelligence Act, 1994 (Act No 39 of 1994)
- Prevention and Combating of Corrupt Activities Act, 2004 (Act No 12 of 2004)
- The Regulation of Interception of Communications and Provision of Communication-related Information Act, 2002 (Act No 70 of 2002)
- Child Justice Act, 2008 (Act No 75 of 2008)
- Protection from Harassment Act, 2011 (Act No 17 of 2011)
4.3 List of legislation tabled in Parliament in 2012/2013

In 2009, the Criminal Law (Forensic Procedures) Amendment Bill was introduced in Parliament, dealing with fingerprints and DNA. Parliament finalised the part of the Bill dealing with fingerprints in 2010, resulting in the adoption of the Criminal Law (Forensic Procedures) Amendment Act, 2010 (Act No 6 of 2010). This Act was promulgated by the President on 18 January 2013, and was implemented from this date. The Act provides for the establishment of a fingerprint database and access for the SAPS to the database of the Department of Transport, the Department of Home Affairs and the Department of Correctional Services for investigative purposes. The Portfolio Committee on Police undertook an overseas study tour in order to know how DNA is used in other jurisdictions to investigate crime. The DNA part of the Bill has been referred back to the Minister of Police for consideration.

A draft policy regarding the use of DNA for criminal investigative purposes was drafted and approved by the Portfolio Committee on Police and the Criminal Law (Forensic Procedure) Amendment Bill, 2013, was drafted to give effect to this policy. This Bill has been approved by Cabinet for introduction in Parliament and the consideration of the Bill is scheduled on the programme of the Portfolio Committee on Police for May/June 2013. The Bill provides for the formal establishment of a DNA database in the SAPS for investigative purposes.

The Dangerous Weapons Bill, 2012, was tabled in Parliament in 2012 and has in the meantime been approved by the National Assembly and referred for consideration by the Select Committee for Security and Constitutional Affairs. The Bill gives effect to a Constitutional Court imperative to rationalise the Dangerous Weapons Act, 1968 (Act No 71 of 1968), and similar legislation still in force in the areas which comprises the former TBVC states. In the process, the Bill has been aligned with constitutional and operational requirements.

The South African Police Service Amendment Act, DPCI was finalised in Parliament in August 2012 and promulgated in September 2012.

<td>To provide support to the Minister in performing his duties.</td>
</tr>
</tbody>
</table>
7. **FOREWORD BY THE MINISTER OF POLICE**

This is the last batch of annual reports being submitted under the watchful eye of this current administration.

This administration came into power having identified five key priorities for its current term. Amongst the five priorities is the fight against crime and corruption. The South African Police Service is the lead agent in this onslaught.

However, to understand the fight and current strategies and tactics being employed by the South African Police Service, we should look at our past.

Because the present is but the synthesis of the contradictory forces of the past, learning to reflect on our past helps inoculate us, as far as possible, from the malady of repeating past follies.

There could be no sufficient understanding of modern day South Africa and hence the future we are constructing if such understanding does not proceed from the historical consciousness set off by earlier generations.

This year the South African Police Service celebrates its 100 years of existence. What are the key milestones towards this:

- It was formed three years after the formation of the Union of South Africa, when Great Britain ceded power to White South Africans not to the entire population.
- Formed as a key agent to suppress any movement against the white authorities.
- Its formation coincided with the notorious 1913 Land Act, the final nail that buried the economic freedom of the majority of South Africans.
- Formed 10 years after the peace treaty of Vereeneging.

It was only in 1972, after 59 years of its existence that the South African Police allowed the enlistment of women on equal basis as men.

By 1984, the SAP had 44696 members of which more than half, 23206 were from the white population. The rest of the population groups made up the other 21 490.

In 1986 the South African Police consisted out of a uniform branch, a detective branch and security branches with no crime prevention arm. The South African Police was a semi military organization.

The role of the SAP was one of upholding the illegitimate apartheid government through the preservation of internal security, the maintenance of law and order and the investigation of offences. The emphasis was on the preservation of internal security through the maintenance of law and order.

In the past, the police were described as the “jam in the apartheid sandwich”. They were caught between abhorrent, unpopular political policies and the persons upon whom these policies were enforced.

From this it is clear that the SAP at that point in time was used as a political tool, like most of available state machinery at that point in time, to uphold an unjust oppressive system. Because of this the majority of our people saw the South African police as their enemy. This is an important aspect to remember as changing this perception and transforming the South African Police from an undemocratic force into a service that treats all people, irrespective of race or class equitable was one of the biggest challenges of a democratic government.

Since 1994 a number of key milestones were achieved to move towards a democratic, people orientated service.

South Africa’s transition from apartheid to democracy has been underpinned by the recognition that safety is a fundamental human right. Safety is regarded as a precondition for human development and enhancing productivity.

Over the last two decades of the democratic rule, giant leaps have been made in an effort to remedy the past imbalances.
Our police service made significant gains in gender equality: amongst them we can count the following achievements:

- In 2000 8.36% of officials were female – today we stand at 20.38%.
- Today, under the current administration we can celebrate five female pilots in the SAPS Air Wing,
- three female operators in the Special Task Force,
- 29 female forensic science analysts, and
- 14 female Bomb technicians in the Explosive unit.

In 1985 the ratio between police and population was 1.4 per 1 000. Twenty years after the introduction of democracy, the ratio is 1 operational police officer per 303 members of the public. This is one of the best ratios in the world today.

The dark epoch of the South African Police Service is receding into the distant past. A new era has dawned in South Africa.

In its approach to the police challenges, the government and the South African Police Leadership has striven to identify those issues that would result in sustainable solutions.

Since 1994, we have been making steady progress in the fight against crime. This period has been characterized by growing unity in action against crime, a period focused on improving life conditions for all, especially the poor.

The overall programme of national democratic transformation that our country has embarked upon will gradually eliminate some of the conditions that breed social crime. So shall our contribution to creating an environment of peace, stability, economic growth and social development in the SADC Region, the continent and the rest of the world.

At the core of the government programme is the obligation to improve the quality of life of all the citizens, for them to exercise their freedoms and use their talents to help our society flourish.

Whatever the setbacks of the moment, nothing can stop SAPS now! Whatever the difficulties, SAPS shall succeed in its endeavors! However improbable it may sound to the skeptics, success is guaranteed!

Hon. EN Mthethwa, MP
Minister of Police
8. STATEMENT BY THE DEPUTY MINISTER OF POLICE

Since the dawn of the post-apartheid era, this Government had always believed that the presence of crime could severely impair the quality of life for individuals, families, and communities. The felt remnants of this legacy have negatively impacted on the effectiveness of core family values, resulting in geographic mobility to seek work; increase in maternal employment; segregation of neighbourhoods along multiple characteristics. These have resulted in critical facilitators or fertilisers of various crimes that our communities continue to experience.

One of the off-shoots of the legacy is the scourge of gender-based violence that haunts women and children in our communities and requires a collective effort from all walks of life. The Inter-ministerial Committee on Causes of Gender Based Violence and the government-initiated National Council on Gender-Based Violence are some of the critical interventions that our government is utilising to campaign against this crime and to ensure structured multi-disciplinary engagements. It is clear that police can only enforce the rule of law against abuse, rape and molestation of children and women. In order for the police to succeed in their investigations they rely on the people’s intelligence which rests within our communities where these contact crimes occur. Additionally, the decision by the Justice, Crime Prevention and Security cluster to dedicate special courts to promptly address sexual offences is a welcomed decision.

Over the past four years of the current administration, this department has invested in establishing and sustaining partnerships with other government agencies and organised community structures to ensure that fighting crime is a collective effort. These include, among others:

➣ Partnership protocol signed with the Department of Basic Education intended to formalise working relations and links between schools and police stations in the spirit of the Protocol on Crime and Violence and Schools. The role-players involved include the school, teachers, learners, communities, families, parents, and Government (Departments of Police and Basic Education). There are currently 16 810 out of 25 474 public schools, with functional Safe School Committees, that have been linked to police stations.

➣ The South African Banking Risk Information Centre (SABRIC) partners with the SAPS on initiatives that are intended to reduce fraud and corruption activities, robberies and ATM related fraud.

➣ Servicing the established partnership with Business Against Crime South Africa (BACSA) whose focus was on transferring skills to develop and implement Community Police Forums projects and improvement of services to victims at seven police stations piloted in Gauteng.

The establishment of victim friendly facilities would be a futile exercise if the police have not been trained on sensitivities to deal with victims of sexual offences. The training programme on First Responders to Sexual Offences continues to equip functional members on how to handle victims, manage the scene of crime and proper recording of sexual offences. The service points where victim friendly services are rendered are located in police stations, satellite police stations, contact points and FCS offices in an attempt to reach out to those in need of this support.

It is notable that we are reducing crime against women and children, although these are still high. In 2012/13 there were 175 880 crimes committed against women in comparison to 197 877 in 2009/10, a decrease of 11.1% over three years. There were also 49 550 crimes committed against children in comparison to 56 539 in 2009/10, a decrease of 12.4% over three years.

On crime against women, in 2012/13 we have managed to detect 151 115 crimes against women. During the same year we managed to send about 43 443 cases to court (21.87 higher than the previous year) and have also secured 83.18% (32 457) convictions. These successes should not be read in sequence as they reflect achievements of individual indicators and are not directly linked to each other. With regard to crime against children, we have detected about 42 822 crimes, sent 21 400 cases to court and have achieved a conviction rate of 75.98% (9 814). Furthermore, we are proud to report about 499 life sentences that have been realised by our Family Violence, Child Protection and Sexual Offences Unit on crimes against women and children.

During 2012/13 we have sadly lost 115 police who had devoted their lives in this thankless profession in order to ensure that all people in South Africa are and feel safe, through suicides. We will continue to implement our Health and Wellness Programmes for our police officers to uproot this calamity that continues to corrode our
organisation of precious human resources.

To conclude, having led the SAPS delegation to sign the Memorandum of Understanding for the impending 51st International Association of Women in Policing training conference that will be held for the first time in Africa, hosted by South Africa, I am proud to be associated with an initiative that is intended to empower women in the policing environment with the requisite skills to address issues of personal development and readiness to deal with criminality that is prevalent in our communities.

MM SOTYU
DEPUTY MINISTER OF POLICE
9. OVERVIEW OF THE ACCOUNTING OFFICER

The South African Police Service is a well-resourced institution with highly skilled officers who value their work, many of whom are selflessly committed to serve. Theirs’ is to safeguard the communities’ right to life and property, and to protect them against any unlawful acts.

As I reflect on the period which ended on 31 March 2013, it is clear that the South African Police Service continues to deliver on its Constitutional mandate of preventing, combating and investigating crime. The key to unlocking the SAPS’ ability to deliver optimally, for the benefit of all communities, is through continued acceleration of efforts to deliver on our mandate whilst simultaneously deepening the process of renewal and rebuilding the organisation.

If we are to break the back of crime, we need to adopt a different approach. As we analyse the main drivers of crime, it is evident that there are many underlying contributory factors. These include, alcoholism, drugs, unemployment and the generally violent nature of our society. Failure on our part, and that of key stakeholders, to address these elements will significantly hamper progress in our fight against crime.

Furthermore, there is need for us to reorganise, streamline and, in certain areas, redefine responsibilities. I want each and every individual within the SAPS to be called on to account for delivery of their responsibilities. We need new leaders who are committed and focused on delivering on our core mandate.

Integrity is fundamental to what we do. We cannot fight crime when our organisation has within its ranks people who do not respect the law. Crime must be fought with clean hands. We will therefore have to get a sense of how many members who are in the employ of the service but have criminal records and see how we manage them, then establish exactly how many members are facing criminal investigations as well as validate academic records. This work will be enhanced with the appointment of a new Integrity Manager sometime early 2014.

Another area that I wish to highlight is that of discipline, which is the cornerstone of policing. Without it, there can be no effective policing. This means that each and every officer, from the highest to the lowest rank, must deliver. I will make sure that this happens during my tenure.

We are attending to internal processes to ensure that there is a well-conceptualised Resource Plan, formulated through a participative process. It also includes the modernisation of our human resources environment so that hard work is rewarded and there is clear career planning. In addition, we will improve our performance management system and instill a sense of professionalism.

When I took over as National Commissioner, I inherited a strategic plan that focused on ten key areas of performance. These have been incorporated into five different programmes. In the majority of the performance areas we have performed well, whilst there are some areas that still require considerable attention.

The timeous completion of capital projects within the set plan remains a challenge due to various reasons, including the control of many projects by the Department of Public Works. In respect of the projects handled by the Department of Public Works, as the implementing agent, ongoing efforts to establish a service delivery agreement between the two departments are continuing. Challenges in this regard have even been escalated to Ministerial level.

To enhance organisational capacity to deal with crime more effectively, a total of 5045 new police officials was enlisted into the organisation during the reporting year. In addition, scarce skills were sourced externally to optimise the capacity of specialised environments. For example, the capacity of Forensic Services was improved massively to ensure that there is appropriate support for crime investigation.

Our Technology Management Services is an area of concern. A new Technology Investment Council has been established to drive the technology management turnaround strategy. This will also ensure that our information and communications technology (ICT) plans are aligned with the strategic priorities of the SAPS.

The second of the five programmes, visible policing, received positive attention through the SAPS conducting 34428 crime-prevention operations to enhance police visibility across the country. This is despite the fact that protests countrywide continue to be a major challenge and are diverting our resources from visible policing responsibilities.

These operations resulted in 1,68 million arrests. This is a twenty-two percent increase over the number of
operations conducted in the previous year. SAPS management will continue to focus on crime-combating measures in Gauteng and other seriously affected provinces such as KwaZulu-Natal, the Eastern Cape and the Western Cape.

Illegal firearms are still the main contributors to serious crimes, particularly contact crimes. A campaign was intensified to recover as many illegally owned firearms as possible. A total of 12 982 firearms was recovered: a forty-eight percent increase over the previous year.

Although the SAPS arrests thousands of suspects every year, the incidents of escapes from lawful custody continue to pose a serious challenge to the organisation. For example, there were 810 incidents of escapes during the period under review. The national plan to prevent escapes from police custody, focusing on compliance aspects by the relevant members and commanders, will be revised during 2013/14.

The killing of police service members continues to be a major concern. During the 2012/13 financial year, 84 members were murdered. Gauteng recorded the highest number of murders (27,4 percent), followed by KwaZulu-Natal with 21,4 percent.

The training of members within the investigation of crime environment was a priority and 14 089 detective members were trained. From this number, 13 779 were declared competent, i.e. a competency rate of 98 percent. The overall number of detectives across the country increased by 8,29 percent to 25 844 as part of the Ministers’ call for 2012/13 to be the year of detectives.

The Criminal Record Centre has expanded its Automatic Fingerprint Identification System capacity by an additional eight Local Criminal Record Centres to enhance service delivery and support stations and detectives in the investigation of crime. Technological capacity was also enhanced through the opening of a state-of-the-art forensic science laboratory in Plattekloof, Cape Town. This laboratory will enhance crime investigation within the province and beyond.

The capactitation and the resourcing of detectives remains a challenge. The roll-out of the remaining 8 212 laptops will be finalised in the coming year.

An area of serious concern was that the target for the detection rate for crimes against women (18 years and above) and that for for crimes against children (under 18 years) were not achieved. These are two focus areas for the 2013/14 financial year.

In conclusion, I wish to thank the Honourable Nathi Mthethwa, Minister of Police, for his leadership and strategic guidance. We would also like to express our appreciation for the ongoing support from the Deputy Minister and other strategic entities in the Ministry of Police.

I also wish to thank the Portfolio Committee for their oversight role, in particular the chairperson, Ms Annalise Van Wyk. I appreciate the frank and robust relationship and fulfils its objective of helping the SAPS to continually improve. This is healthy situation as, at the end of the day, we share a common goal. We want the police to deliver on its core mandate for the benefit of all South Africans.

Ours is a tough and thankless task. It would therefore be remiss of me if I didn’t use this opportunity to thank all the men and women in blue for their commitment and dedication. The good results and the confidence that I have in our ability to successfully continue the fight against crime is because of their efforts and sacrifices.

GENERAL MV PHIYE GA
ACCOUNTING OFFICER
### Roll of Honour

From 1 April 2012 to 31 March 2013, 76 members passed away while on duty.

1. STATEMENT OF RESPONSIBILITY FOR PERFORMANCE INFORMATION

Statement of Responsibility for Performance Information for the year ended 31 March 2013

The Accounting Officer is responsible for the preparation of the department’s performance information and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control designed to provide reasonable assurance as to the integrity and reliability of performance information.

In my opinion, the performance information fairly reflects the performance information of the department for the financial year ended 31 March 2013.

GENERAL MV PHIYEGA
ACCOUNTING OFFICER
Date: 2013/08/31
2. **AUDITOR-GENERAL’S REPORT: PREDETERMINED OBJECTIVES**

The Auditor-General of South Africa (AGSA) currently performs the necessary audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the Predetermined Objectives heading in the Report on Other Legal and Regulatory Requirements section of the auditor’s report.

Refer to page 201 of the Report of the Auditor-General, published as Part E: Financial Information.

3. **OVERVIEW OF DEPARTMENTAL PERFORMANCE**

3.1 **SERVICE DELIVERY AND ORGANISATIONAL ENVIRONMENT**

By its nature, the mandate of the police involves a constant and daily interaction with the coalface of service delivery. The accomplishments outlined in this report were realized amid challenging circumstances that were experienced in the policing environment. These include at least the following:

- The SAPS has policed over 52.8 million estimated population, excluding undocumented persons, during the 2012/13 financial year. This comprised an approximately fifty-one per cent (approximately 27.16 million) female-dominated population. About 29.2% of the population is aged younger than 15 years and approximately 7.8% (4.15 million) is 60 years or older. Criminologists have typically explained the relationship between age and crime in terms of age-graded variation in individuals’ experience of informal social controls, and their social positions, over the course of their lives. The highest numbers of recorded crime victims and perpetrators relate to the ages that comprise the rest, i.e. about 63% of the population.

- Policing is expected to respond to continuously growing population and related dynamics that are characterized inter alia by immigration influx and proliferation of undocumented persons due to socio-economic and political pull and push factors; daily internal migration across provinces; expansion of informal settlements and unregistered businesses; borderless technological and information highway; enabling transport networks; economic downturn;

- The proliferation of civilian firearms in the country is not likely to slow anytime in the foreseeable future. We have approved 111 030 new firearm licenses in 2012/13 alone, and these continue to become arsenals for criminals who obtain them from legal owners through loss, neglect or robberies. For example, there were 14 872 firearms related cases detected through police action during the reporting year. Due to the fact that there is a correlation between firearm ownership and firearm related injuries and mortalities, this creates a challenging environment for policing and exposes our communities to firearms related crime such as aggravated robberies, assaults, attempted murder, homicides and murders.

- Empirical research the world over has conjectured that the abuse of liquor and drugs are contributory factors of crime and criminality in the communities that we police. The use of illegal drugs is often associated with murder, rape, robbery, aggravated assault, assault, burglary, and theft, to mention a few. We continue to experience an upsurge in the number of police detected cases relating to possession and dealing in drugs per 100 000 population. During 2012/13 alone this has increased by 13.5%, i.e. there were 206 825 cases relating to drugs that were detected by the police.

- An analysis of crime patterns depicts a discernible correlation between crime and challenging socio-economic conditions, particularly in the rural environments. Additionally, violent social behaviour has been observed as a social phenomenon that persistently abounds in the majority of serious crime categories in our society. These and other elements require a collective effort from all affected stakeholders as it contributes to the prevalence of violent serious crimes that complicate the policing environment.

- The public order policing environment is critical. It includes policing wage negotiation strikes (including unprotected or wildcat strikes), peaceful public incidents, and service delivery protests. The escalating violent nature that characterises some of these public protests is an area of concern as it complicates...
policing that space, forcing for an incremental deployment of police and relevant critical resources, thus stretching the dedicated police deployment capability thinly to the extent of impacting on basic policing resources that are normally positioned to fight crime. Although we have been steadfast in our efforts to restore and sustain stability in the country, we have analytically determined that additional and dedicated resources are still required to capacitate Public Order Police in order to meet these challenges and relieve basic and visible policing capacities to focus on combating and preventing crime. Furthermore, to mitigate the proliferation of public incidents, it is critical for the parties involved in wage disputes and service delivery complaints to establish means to resolve matters in order for the aggrieved parties to avoid escalating their dissatisfaction to the streets and encounter the police.

As one of the elements of measuring feelings of safety and confidence in South Africa, the report from Statistics South Africa indicates that the volume of tourists increased from 8 339 354 in 2011 to 9 188 368 in 2012, an increase of 10.2%. This includes those from the continent and beyond. A snapshot of 8 leading countries overseas that have visited our shores includes the United Kingdom (over 400 000), United States of America (over 300 000), Germany (over 250 000), while China, France, Australia, Netherlands and India account for just over 100 000 tourist per country. This demonstrated investor confidence in the country is marked by 205 037 visitors who had come for business; the individual safety confidence is marked by 8 310 456 tourists who came to our shores for holidays, 585 179 tourists in transit, and 87 696 who came to study in South Africa. Overseas business tourists were mainly from the United Kingdom and the students were mostly from the United States of America.

To respond to the operational environment, the SAPS has strategically positioned itself to deliver its services to the populace through a total personnel strength of 197 946, which is comprised of 155 531 SAPS Act and 42 415 Public Service Act personnel. As at 31 March 2013, the police versus population ratio stood at a comparative ratio of 1:336; with 1 132 police station and 240 contact points to advance access to policing services.

As an intervention to ensure that our personnel is aptly skilled, we continue to extend our training to cover operational members (97 877 members competent); support members (23 375 members competent); reservists (268 members competent); and, to ensure an investment in the leadership capabilities required to optimise organisational performance, 2 822 members were declared competent in various levels of management and leadership training.

There is an identified need to further invest in the requisite initiatives to ensure multi-disciplinary swift responses by police to counter new and emerging crimes, shift in modus operandi, tools and technology advancement that sustain the criminal capabilities.

In spite of the above-mentioned capabilities and competencies, the police capacity to fight crime has been partially corroded by attacks, murders, suicides and road fatalities of our police members. Accelerated and creative interventions will be implemented over the MTEF period through our continuous training and rigorous utilisation of our Health and Wellness Programmes.

3.2 SERVICE DELIVERY IMPROVEMENT PLAN

The department has completed a service delivery improvement plan. The tables below highlight the service delivery plan and the achievements to date.

Main services provided and standards
The focus of the services and service standards within the Service Delivery Improvement Plan (SDIP) is to ensure that the SAPS creates an environment in support of its mandate as reflected in section 205 of the Constitution.

<table>
<thead>
<tr>
<th>Main services</th>
<th>Actual customers</th>
<th>Potential customers</th>
<th>Standard of service</th>
<th>Actual achievement against standards</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enhancing consultation</td>
<td>Every individual, group or government department affected by crime and violence.</td>
<td>Every individual, group or government department affected by crime and violence.</td>
<td>Thorough consultation with beneficiaries and stakeholders</td>
<td>The SAPS has established a wide range of consultation arrangements with its customers.</td>
</tr>
<tr>
<td>Improving access</td>
<td></td>
<td></td>
<td>Access to SAPS service delivery points should be within established geographic norms</td>
<td>The development of a coherent strategy to ensure improved access and quality of policing has been initiated.</td>
</tr>
<tr>
<td>Ensuring redress</td>
<td>Every individual, group or government department affected by crime and violence.</td>
<td>Every individual, group or government department affected by crime and violence.</td>
<td>Ensure effective redress of complaints</td>
<td>Several redress mechanisms have been developed over time to provide beneficiaries with the means of raising concerns regarding the service delivery of the SAPS.</td>
</tr>
<tr>
<td>Providing information</td>
<td></td>
<td></td>
<td>Provide beneficiaries with full, accurate information about the SAPS services and the levels of quality they are entitled to receive</td>
<td>The SAPS has established several information tools to ensure that information is provided as and when required by beneficiaries.</td>
</tr>
<tr>
<td>Ensuring openness and transparency</td>
<td>Availability of SAPS information</td>
<td></td>
<td>The SAPS has an Access to Information Manual in three official languages i.e. English, Afrikaans and isiZulu as required by section 14 of the Promotion of Access to Information Act, 2000 (Act No. 2 of 2000) (PAIA). The SAPS ensured that all policies, national instructions, delegation of powers and other directives were developed since the promulgation of the PAIA. The SAPS has managed 20 817 PAIA requests of which 18 522 were granted in full.</td>
<td></td>
</tr>
<tr>
<td>Providing value for money</td>
<td>The optimal utilisation of all resources in providing services to SAPS beneficiaries</td>
<td></td>
<td>The Service Delivery Improvement Plans implemented at all divisions, provinces and stations require a specific focus on the effective utilisation of resources towards achieving of objectives and priorities.</td>
<td></td>
</tr>
<tr>
<td>Improving courtesy</td>
<td>A professional service provided to beneficiaries</td>
<td></td>
<td>By the end of March 2013, a total number of 919 Victim-Friendly Rooms (VFRs) were operational at police service points, including police stations, satellite police stations, contact points and Family Violence, Child Protection and Sexual Offences (FCS) offices.</td>
<td></td>
</tr>
</tbody>
</table>
**Consultation arrangements with customers**

The aim of consultation arrangements is to ensure thorough consultation with beneficiaries and stakeholders.

<table>

<th>Actual achievements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Awareness campaigns</td>
<td>The general public, including women and children and vulnerable groups</td>
<td>All members of society</td>
<td>The SAPS engaged with the community during various public education and awareness programmes by focusing on e.g. gender-based violence, crime awareness, substance abuse and community involvement in crime prevention.</td>
</tr>
<tr>
<td>Rural safety</td>
<td>Rural community</td>
<td></td>
<td>A comprehensive Rural Safety Strategy, to enhance safety and security levels, accessibility to policing and service delivery to the rural community, which was approved by the Minister of Police and National Commissioner, is still in the process of being implemented in all rural areas. During 2012/13 the strategy was implemented at 108 identified priority police stations in all nine provinces. However, all other police stations serving the rural community adopted and implemented the principles of the strategy where possible.</td>
</tr>
<tr>
<td>SAPS Crime Stop and Primedia Crime Line</td>
<td>All members of society</td>
<td></td>
<td>During 2012/13 the SAPS received: • 250 188 calls and 1 459 web tips at its Crime Stop call centre which led to 182 positive cases and as a result, 240 arrests were effected and goods to the value of R3 387 947,00 were seized. • 2 101 SMS tips and 1 285 web tips as a result of the partnership between the Primedia Group and the SAPS which led to 150 positive cases. 241 arrests were made and goods to the value of R3 782 887,00 were seized.</td>
</tr>
<tr>
<td>Community Police Forums (CPF)</td>
<td>All members of society</td>
<td></td>
<td>Projects developed with community police forums during the reporting period focused on issues such as sports against crime, prevention of violence against foreign nationals, domestic violence, know your neighbour, drug awareness, anti-housebreaking, and the prevention of mob justice and stock theft. The SAPS and BACSA initiated a partnership aimed at the transfer of skills to develop and implement CPF projects and improvement of services to victims at seven police stations in Gauteng.</td>
</tr>
<tr>
<td>Sector Policing</td>
<td>All members of society</td>
<td></td>
<td>Sector Policing is implemented at 1 090 (96.3%) of the 1 132 police stations.</td>
</tr>
</tbody>
</table>
**Service delivery access strategy**

Service delivery refers to access to SAPS service delivery points within established geographic norms and the provisioning of a quality policing service the public.

<table>
<thead>
<tr>
<th>Access strategy</th>
<th>Actual achievements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Increase access to communities by building/upgrading/improving police stations</td>
<td>A total number of four police facilities were completed during 2012/13, thereby improving the SAPS’ ability to provide a service to citizens. These include the Port Elizabeth 10111 Call Centre (new police facility), Amalia police station (new structure on a new site), Weenen police station (new structure on its existing site), and Clocolan police station (repaired and upgraded to modern standards).</td>
</tr>
<tr>
<td></td>
<td>• 24 mobile contact points were established by means of trailers which were donated by EDCON. The trailers are used as static or mobile contact points in order to enhance the visibility of the police.</td>
</tr>
<tr>
<td></td>
<td>• Community Service Centres at 1 132 police stations can be accessed throughout the country to provide a policing service to all members of society.</td>
</tr>
<tr>
<td></td>
<td>• To support the corporate image of the SAPS, signages and logos were introduced at 30 police stations.</td>
</tr>
<tr>
<td>The determination of travelling distance norms to police service delivery point, (police stations, satellites, mobile units, other contact points etc.)</td>
<td>All service delivery points of SAPS were mapped together with the population rate.</td>
</tr>
<tr>
<td>The Geography Information System (GIS) map plotting of current service delivery norms and population access rate (4km, 16km 24km and further)</td>
<td>All GIS population and distance to service delivery point of SAPS mapped according to buffer set and geographical description.</td>
</tr>
<tr>
<td>The broad-based consultations and identification of new service points</td>
<td>All provincial needs identified and plotted with the type of service required and report presented to SAPS management.</td>
</tr>
<tr>
<td>The broad-based GIS map plotting of all identified needs and new access norms impact.</td>
<td>All current and proposed needs mapped and analysed the access norms impact to population.</td>
</tr>
</tbody>
</table>

**Service information tool**

The service information tool provides beneficiaries with full, accurate information about the SAPS services and the levels of quality they are entitled to receive.

<table>
<thead>
<tr>

</table>

### Complaints mechanism

The purpose of the SAPS complaints mechanism is to ensure effective redress of complaints.

<table>
<thead>
<tr>
<th>Complaints mechanism</th>
<th>Actual achievements</th>
</tr>
</thead>
<tbody>
<tr>
<td>SAPS National Complaints Line: 0860 13 08 06</td>
<td>During 2012/13 a total number of 845 new complaints were received. 730 complaints were carried over from the previous financial year. 1 139 or 72.3% of the 1 575 complaints on hand were resolved during 2012/13. An analysis of these complaints revealed that 44.12% were unfounded, 7.76% related to and were referred to other departments and 4.16% related to civil matters. This implies that the community are generally not familiar with the criminal justice process and the roles and responsibilities of the various state departments within the process. A further analysis revealed that most of the complaints related to insufficient or no feedback on cases, police negligence/misconduct, and community members not satisfied with the investigation of cases at police station level.</td>
</tr>
<tr>
<td>Presidential Hotline (PHL): 17737</td>
<td>From 1 April 2012 to 31 March 2013 a total number of 237 SAPS-related complaints were received at the Presidential Hotline and directed to the SAPS for investigation. 1 385 complaints were resolved during the same period, including complaints that were received from the inception of this initiative in 2009 to 31 March 2013.</td>
</tr>
<tr>
<td>24-hour call centre: 0800 333 177 Fax - 012 393 5421 E-mail - <a href="mailto:CentreForServiceExcellence@saps.gov.za">CentreForServiceExcellence@saps.gov.za</a> (Members of the public and SAPS members can lodge their service delivery complaints directly to the SAPS’ Centre for Service Excellence)</td>
<td>The 24-hour call centre was established after the Minister of Police publicly launched the centre on the Morning Live television programme on 31 January 2013. From 1 February to 20 June 2013 a total number of 115 complaints were received at the SAPS’s Centre for Service Excellence. 25 of these complaints were resolved during the same period.</td>
</tr>
<tr>
<td>Complaints mechanism</td>
<td>Actual achievements</td>
</tr>
<tr>
<td>----------------------</td>
<td>---------------------</td>
</tr>
<tr>
<td>Anti-Corruption Hotline 0800 701 701</td>
<td>109 reports were received by the Public Service Commission for investigation. 17 cases were finalised and 92 cases are still being investigated.</td>
</tr>
</tbody>
</table>

(The Anti-Corruption Hotline is managed by the Public Service Commission. This toll free number can be used to report corruption in all Government Departments anonymously. Complaints relating to the corruption and fraud by SAPS members are sent to the SAPS for investigation)

### 3.3 KEY POLICY DEVELOPMENTS AND LEGISLATIVE CHANGES

The legal framework dealing with the use of force in effecting an arrest was amended - (section 49 of the Criminal Procedure Act, 1977 (Act No. 51 of 1977)). This Act had been introduced by the Minister of Justice and Constitutional Development following a request from the Department of Police. The amendment came into effect on 25 September 2012. The main reason for the amendment was to bring the provision in line with the judge of the Constitutional Court in the matter of Ex Parte: Minister of Safety and Security and Others: In Re S v Walters and Another.

The review of the South African Police Service Act, 1995 (Act No 68 of 1995) has been placed on the 2013 programme of Parliament. This process is closely related to the review of the White Paper on Safety and Security.

During the review of the 1998 White Paper on Safety and Security, it became apparent that there was a need for a comprehensive policy on policing – one that would guide the development of police strategies and operations over the medium to long term. As a first stage in the revision of the White Paper, a Green Paper on Policing was drafted. The Green Paper provides a broad policy direction and an indication in terms of what government wants to achieve over the medium to long term with regard to safety and security in the country. The Green Paper will be presented to Cabinet for consideration during the first quarter of the next financial year (2013/14) in order to proceed with public consultations.

The policy and guidelines on the establishment and functioning of the South African Police Reserve Service was completed and signed off by the Minister of Police in December 2012. The policy drafting process was undertaken through continuous engagement with SAPS, CPFs, reservists and other stakeholders together with the Civilian Secretariats for Police’s Partnership Unit.

The Policy on the establishment of a DNA database was finalised and approved by the Portfolio Committee on Police in May 2012. The policy recommends that the South African Forensic Science Service (FSS) establish a forensic DNA database as a criminal investigative tool to aid in fighting crime. The policy informs the Criminal Law (Forensic Procedures) Amendment Bill, in order for the SAPS FSS to establish and regulate the forensic DNA database.
4. STRATEGIC OUTCOME-ORIENTED GOALS

The strategic oriented goals are aligned with the Delivery Agreement of the JCPS Cluster and achievements are reflected in the different financial programmes in the Annual Report 2012/13.

5. PERFORMANCE INFORMATION BY PROGRAMME

5.1 PROGRAMME 1: ADMINISTRATION

Purpose: Develop policy and manage the Department, including providing administrative support.

Strategic Objectives: To regulate the overall management of the Department and provide centralised support services.

The Administration Programme comprises the following four subprogrammes:

→ Ministry
→ Management
→ Corporate Services
→ Office Accommodation
**KEY PERFORMANCE MEASURES, TARGETS AND ACTUAL RESULTS**

**TABLE 1: ACTUAL PERFORMANCE AGAINST TARGETS**

3 Inspect the works to give the contractor interpretations and guidance on the building standards and the state of completion of the works which the contractor will be required to achieve for practical completion. (Certificate of Practical Completion - “First Delivery”): A certificate issued by the principal agent to the contractor stating the date on which practical completion of the works was achieved.)
SERVICE DELIVERY ACHIEVEMENTS

RECRUITMENT

➢ The SAPS’s allocation for entry level appointments was 2 000 for Police Service Act personnel. No allocation for Public Service Act employees was received. Of the 2 000 Police Act personnel, only 1 631 personnel were enlisted and included the following:

→ 1 200 entry level trainee posts were filled (100%)
→ 431 of the 800 posts allocated for Forensic Science Services (54%). The remaining 369 posts are still in the process of being filled. The delay for the filling of all the Forensic Services posts was as a result of the allocation being received late in September 2012 and posts being advertised only in October 2012.

➢ The establishment of the SAPS was 197 946 on 31 March 2013. This comprises 99.45% in terms of the adjusted and approved establishment target for 31 March 2013, that is 199 039 (2012 Adjusted Estimates of National Expenditure [Vote 25], page 240).

MONITORING THE OCCURRENCE OF CONFLICTS WITHIN THE SAPS

➢ The annual report of the Safety and Security Sectorial Bargaining Council (SSSBC) revealed that 537 disputes were properly referred to the SSSBC for resolution in the 2012/13 financial year.

➢ 198 of these were unfair labour practice disputes, 249 were unfair dismissal disputes and 90 were other (unilateral change, collective agreement and mutual interest).

➢ Grievances that were referred to the Joint Grievance Resolution Team (JGRT) totalled 362. Of these, 341 were resolved and did not escalate into disputes.

➢ The total number of Unfair Labour Practice (ULP) disputes was 161. When one compares the ULPs for the 2012/13 financial year and the previous one, there is an increase of 37 disputes which translates to 23%, despite the 95% success in the resolution of grievances at the level of JGRT.

➢ The SSSBC has in the meantime identified internal mediation as another strong weakness in SAPS’s grievance resolution effort. During the 2013/14 financial year, a special effort and focus will be directed on training mediators in order to reduce referrals to the SSSBC. Thirty-four internal mediators have already been trained in the Western Cape with positive results.

➢ Negotiations during the 2012/13 financial year culminated in the conclusion of Agreement 1/2012 of the SSSBC. This Agreement relates to the regulation of discipline in the SAPS. The purpose of this agreement is to ensure that disciplinary hearings are finalised expeditiously, especially the serious ones. It introduces a novel approach where the principle of the audi alteram partem rule is applied in an expedited manner and disciplinary hearings are finalised speedily. It also closes the loopholes that exist in the current disciplinary regime, for example an employee can be convicted criminally, but still maintain their employment. According to Agreement 1/2012, conviction is regarded as proof of misconduct, and is dismissible.

➢ Agreement 1/2012 introduces the concept of derivative misconduct which forces employees to report their colleagues when they commit acts of misconduct, failing which they will be charged with the same offence, etc.

HUMAN RESOURCE DEVELOPMENT

➢ Human Resource Development is responsible for all education, training and development activities within the SAPS. In order to measure the success of these initiatives, a target of 88% of learners being found competent upon the completion of their training, was set for the 2012/13 financial year. At the end of the period under review, Human Resource Development achieved an overall competency rate of 90%.
OPERATIONAL TRAINING

BASIC POLICE DEVELOPMENT

➢ Basic police development includes basic police training for new recruits, as well as introductory police training for employees appointed under the Police Act who have not yet undergone basic police training.

➢ A total number of 5 068 recruits/employees were trained for the 2012/13 financial year. A total of 5 045 of these recruits/employees were found to be competent, which resulted in a competency rate of 99%.

VISIBLE POLICING

STATION MANAGEMENT LEARNING PROGRAMME

➢ Training in the Station Management Learning Programme was prioritised for Cluster and Station Commanders. A total number of 111 members were trained and of those trained, 92 members were declared competent. An overall competency rate of 83% was obtained.

➢ Learners who are found to be not yet competent are offered remedial training and the opportunity to be reassessed in the relevant module. A second opportunity for remedial intervention and reassessment may be granted at the Divisional Commissioner’s discretion.

VICTIMS, WOMEN AND CHILDREN

➢ Learning programmes/interventions include the following: Domestic Violence, Victim Empowerment, Child Justice Act, Human Rights, Children and Youth at Risk Development and First Responder to Sexual Offences.

➢ The focus for training in this learning area was on visible policing and support members. A total number of 14 679 members were trained and 14 580 members were declared competent. An overall competency rate of 99% was obtained upon completion of the training.

➢ For members who are declared not yet competent in these learning programmes, an opportunity for remedial training and re-assessment is provided during the programme.

TACTICAL AND RESPONSE DEVELOPMENT

➢ The group “Tactical and Response” includes members from the Task Force, National Intervention Unit, Tactical Response Team, Crowd Management and includes initial training as well as reskilling of such members.

➢ Members trained in this group were trained in the combating of public violence, escorting of dangerous criminals and valuable cargo, as well as in the provision of tactical assistance to other units. A total number of 1 275 members were trained and of this total, 1 256 members were declared competent. A competency rate of 99% was achieved upon the completion of training. Only members placed and performing duties in the tactical response environment, were trained.

➢ Due to the demands of the tactical environment, learners who are found to be not yet competent in a specific module/phase, are immediately withdrawn from the programme and returned to their places of origin. The modules/phases which were passed by the learner, remain on record as such, and the learners may apply to rejoin the course when the module/phase that was not passed, is presented again.

DETECTIVE TRAINING

The Minister of Police declared 2012 as “the year of the detective” and for this reason, the training of members within the investigation of crime environment was a priority. Learning programmes upon which these members were enrolled included the Basic Crime Investigation Course, the Resolving of Crime Course, specialised courses (such as Sexual Offences and Commercial Crime), short interventions (such as Statement Taking and Writing), the Detective Commanders Learning Programme (DCLP) and Forensic Development.

➢ A total number of 14 089 members were trained and out of this number, 13 779 of were declared competent. A competency rate of 98% was achieved upon the completion of training.
In terms of the Resolving of Crime Learning Programme, 2,636 members completed the course and 2,499 were found to be competent. An overall competency rate for the Resolving of Crime learning programme of 95% was obtained.

Where a learner is declared not yet competent, the Hammanskraal SAPS Academy will arrange with the relevant province to ensure that the learner completes the module that he/she had failed. In instances where learners fail all modules or the majority of modules, such learners are declared not yet competent. The Academy is currently in the process of re-looking at developing a policy for the procedure to be followed if a learner has failed the Resolving of Crime modules presented in the early stages of the course. The Resolving of Crime Course is three months in duration and failure at this early stage of the course is disturbing.

Crime Intelligence Development

Crime Intelligence Development Learning Programmes focus on members gathering crime intelligence, counter-intelligence and information management. A total number of 1,502 members were trained and 1,459 members were declared competent. A competency rate of 97% was achieved. In instances where learners are declared not yet competent, such learners are given an opportunity to be re-assessed during the course of the learning programme. If these learners are again found to be not yet competent, a development plan is devised for them whereafter they are afforded an opportunity to redo the course.

Adult Education and Training (AET)

Adult Education and Training (AET) is targeted at all personnel of the SAPS who have an academic qualification less than Grade 9. During the period under review, 1,315 learners enrolled in AET programmes and by the end of the 2012/13 financial year, 870 learners had successfully completed their respective levels, therefore qualifying for the next level. An overall competency rate of 66% was achieved.

K53 Driver Education

The purpose of the K53 Driver Education Programme is to equip members of the SAPS who do not have driver’s licences, with licences. The success of this programme contributes to the SAPS’ ability to effectively and efficiently fight crime. During the 2012/13 financial year, 1,060 learners took part in the programme and 973 learners were found to be competent. An overall competency rate of 92% was achieved.

Special Projects and Items of Interest

Development of SAPS Specific Qualifications

The process through which qualifications are developed and reviewed, was changed upon the inception of the National Qualifications Framework Act which replaced the South African Qualifications Act. In terms of the new legislation, the Higher Education Quality Council (HEQC), the Quality Council for Trade and Occupations (QCTO) and the Quality Council for General and Further Education and Training (Umalusi), were established.

Under the guidance and support of the HEQC the following qualifications were reviewed and submitted for re-registration:

- Bachelor: Policing Practice
- Bachelor: Policing Practice (Honours)

Under the guidance and support of the HEQC the following qualification was developed and submitted for registration:

- Masters: Policing Practice

Under the guidance and support of the QCTO the following qualification is in the process of being re-developed:

- National Certificate: Policing
INVESTING IN PARTNERSHIPS

➢ The National Certificate Vocational: Safety in Society (NQF Level 4) was obtained by 39 students from the Further Education and Training (FET) school system, who graduated from the Basic Police Development Learning Programme and are now fully fledged members of the SAPS.

DEVELOPMENT OF EDUCATION, TRAINING AND DEVELOPMENT REGULATORS

➢ In an effort to create standards and systems to regulate, standardise and professionalise education, training and development within the SAPS, the following Education, Training and Development-related policies, guidelines and directives were developed and reviewed:

→ Guidelines on Skills Development;
→ Guidelines on Learnerships;
→ Guidelines on Recognition of Prior Learning;
→ Guidelines on Certification of Learner Achievements;
→ Guidelines on Provisioning of ETD Practice;
→ Divisional Directive on the issuing of SAPS 292 Certificates; and
→ Standing Orders 12 and 79

IMPACT STUDIES CONDUCTED

➢ An important part of the development of learning programmes is the determination of its efficacy on the intended target groups. In order to determine this, impact studies are utilised to measure the impact of the interventions. During the 2012/13 financial year, three impact studies were conducted on the following learning programmes:

→ Operational Commanders’ Training Learning Programme (OCTLP)
→ Organised Crime Learning Programme (OCLP)
→ Station Management Learning Programme (SMLP)

SELF-DIRECTED DISTANCE LEARNING COMPUTER LEARNING PROGRAMME (SDDLCP) FOR THE SAPS SENIOR MANAGEMENT

➢ The basic computer proficiency of senior managers was enhanced when 92 senior managers were enrolled for the SDDLCP.

INTERNATIONAL TRAINING SUPPORT

The purpose of international training support is to coordinate all international training opportunities for members of the SAPS to either attend training courses, or be part of presenting courses. These include:

AFRICA ASSISTANCE DEVELOPMENT

In conformity with the INTERPOL Regional Bureau for Southern Africa, the SAPS as a member of Southern Africa Regional Police Chiefs Cooperation Organisation (SARPCCO) is obliged to participate in all activities on the SARPCCO calendar. These include courses on peace support operations; cross-border motor vehicle crime and leadership development for emerging and senior women. The SAPS sent 47 members for training in 13 courses offered by SARPCCO.

The SAPS also has agreements with other African countries which include Botswana, the Democratic Republic of the Congo, Lesotho, Namibia, Malawi, Zambia, the Seychelles and Mauritius to provide training in various operational areas. The SAPS provided 41 operational-related training courses to members of these countries.
The SAPS and other departments were requested through bi-national agreements to train the police members from the South Sudan National Police Service and the Sudan Police Force. A total of 27 senior officers from the South Sudan National Police Service and 15 senior officers from the Sudan Police Force attended the Executive Development Learning Programme at the SAPS Academy in the Paarl. The SAPS has also provided training interventions to the Sudan Police Force with regard to Narcotic and Explosives Dog Handlers, Crime Information Management and Basic Cyber Crime Investigation.

**AMERICAS AND EUROPE**

The SAPS has active Development Support Cooperation with the United States of America with the focus on victim empowerment, responding to sexual and gender-based violence, border and port security, commercial crimes, police corruption, fugitive apprehension, anti-terrorism assistance and basic narcotic investigation. A total of 187 members of the SAPS attended these courses that were offered by experts from the United States in Pretoria.

The French Government provided training on transnational crime, which includes developing efficient border control; strengthening the capacity of specialist investigative units; developing the capacities of technical and scientific police units; and developing our crime intelligence gathering capacity on terrorism. A total of 172 SAPS officers from the operational environment were trained in this regard. France also funded training programmes in crowd management, as well as cockpit and flight safety. A total of 26 members of the SAPS received training in crowd management and a further three members were trained in cockpit and flight safety.

The SAPS continues to sustain the police-to-police cooperation with the Kingdom of Belgium in respect of harbour-related training interventions. Five harbour-related courses were presented to a total of 110 members of the SAPS stationed at harbours.

**ASIA AND THE MIDDLE EAST**

The People’s Republic of China and the Republic of South Africa agreed to cooperate in the prevention, detection, suppression and investigation of criminal activities. This resulted in a total of seven courses facilitated by China namely: Law Enforcement Commanding and Decision Making; Criminal Investigative Techniques; Anti-Terrorism; Criminal Investigation Technology; Martial Arts; Detective Training for Commanders and Anti-Hijacking Command being presented to 43 members of the SAPS.

Eight police officials from Abu Dhabi Police in the United Arab Emirates received training on bomb disposal at the Thabazimbi SAPS Academy.

**SKILLS DEVELOPMENT**

**LEARNERSHIPS**

- During the reporting period, Human Resource Development implemented a number of learnerships for SAPS employees in order to enhance the skills level of the organisation. A number of learnerships have also been made available for learners who are currently unemployed, in order to contribute to the general economic growth and development of South Africa as a country.

- A total of 87 employees successfully completed the Human Resource Management Learnership on NQF 5 level while 96 employees from the SAPS, Police and Prisons Civil Rights Union (POPCRU) and South African Police Union (SAPU) successfully completed the Paralegal Learnership on NQF level 5.

**ARTISAN TRAINING**

- For the SAPS to develop and enhance the skills of employees as well as unemployed learners in the motor mechanic and autotronic working environment, 28 unemployed learners around the country were found to be competent in Automotive Maintenance and Repair Learnership on NQF level 4, while 25 unemployed learners were found to be competent in the Autotronic Repair Learnership on NQF level 4.

- A total of 38 employees from SAPS garages attended and successfully completed the Accelerated Artisan Training Programme (AATP).
YOUTH DEVELOPMENT

➢ As part of its support for the development of South Africa’s youth, the SAPS has implemented the Techno Girl Programme which has been adopted by the Department: Women, Children and Persons with Disabilities.

➢ The programme was developed to encourage and enable girls from Grade 9 to 12 to consider scarce skills careers required by the economy, and focuses on careers within the mathematics, science and technology fields, where mathematics and science are prerequisites.

➢ A total of 20 Grade 9 girls from rural schools around Gauteng have successfully attended this programme which runs over a four-year period.

INTERNS

➢ The Internship Programme of the SAPS, as an extension of the Government’s Internship Programme, is aimed at providing opportunities for unemployed graduates. This enables them to gain workplace experience and apply the knowledge obtained during their studies, eventually facilitating a synthesis of theory and practice and improving their employability. A total of 230 unemployed graduates were placed in different divisions of the SAPS as interns.

EDUCATION, TRAINING, DEVELOPMENT PRACTITIONER (ETDP) LEARNING PROGRAMME

➢ The programme is aimed at developing the ETDP practice skills of all trainers from all divisions, provinces and components that have Human Resource Development sections. The SAPS ETDP Development Centre presented five ETDP Learning Programmes and 97% of the learners were declared competent during the first phase.

BURSARY COORDINATION

➢ During the period under review, a number of SAPS employees who had indicated interest to further develop themselves through institutions of higher learning, were awarded bursaries. R4 349 839,00 was allocated for the bursaries and 875 SAPS employees benefited. The allocation was broken down as follows: 70% was allocated to police specific courses, 20% to scarce skills and 10% to generic qualifications.

➢ The Safety And Security, Sector Education and Training Authority (SASSETA) supplemented the SAPS budget allocation to fund scarce skills qualifications in the following areas:

→ Veterinary Science (Dr)
→ Civil Engineering
→ Mechanical Engineering
→ Commercial Pilot (Fixed Wing) Training.

➢ The Southern Business School offered bursaries to three SAPS employees who were registered for the Bachelor in Policing Practice (Honours) Degree.

QUALITY ASSURANCE

➢ The SAPS Human Resource Development Assessment Body has successfully implemented credible, reliable and valid assessments for 10 learning programmes. The learning programmes consist of the following:

→ Basic Police Learning Programme
→ Introductory Basic Police Development Programme
→ Recognition of Prior Learning: Basic Police Development Learning Programme
→ Resolving of Crime Learning Programme
Basic Police Development: Resolving of Crime Learning Programme

Detective Commanders’ Learning Programme

Junior Management Learning Programme

Middle Management Learning Programme

Executive Development Learning Programme

Educational, Training and Development Practitioners’ Learning Programme.

It must be noted that the efforts made by the SAPS Assessment Body has had and will continue to have a positive influence on the quality and creditability of the presentation of learning programmes within the organisation.

RECOGNITION OF PRIOR LEARNING

By means of the Recognition of Prior Learning process, SAPS members are offered an opportunity to obtain the National Certificate in Policing. A total of 247 candidates successfully obtained this qualification.

ACCREDITATION OF SAPS TRAINING PROVIDERS THAT DELIVER NQF-ALIGNED LEARNING PROGRAMMES

The following SAPS Provincial Human Resource Development Centres were accredited as SAPS training providers by the SASSETA:

- Gauteng: SAPS Computer Academy: Rietondale

All provinces were granted accreditation on Extension of Scope on Skills Programme: General Security Practices.

QUALITY ASSURANCE OF LEARNER ACHIEVEMENTS (QALA) VISITS

In terms of the Quality Assurance of Learner Achievements (QALA), SASSETA conducted 17 visits to the SAPS HRD Centres and Academies, and 5 161 assessments of learners were endorsed.
SUPPLY CHAIN MANAGEMENT

The SAPS Supply Chain Management is responsible for the provisioning of resources in support of operational environments and to create an accessible infrastructure to deliver services to the public.

POLICE FACILITIES

The tables below illustrate the progress and status of police facility projects according to the SAPS 2012/13 building programme:

Terminology used to describe different police facility projects:

New police facilities
Police facilities that are constructed in suburbs; townships; towns; cities; and rural areas, where no police facilities existed previously.

Re-established police facilities
Existing police facilities that are replaced by upgraded and new structures on its existing site.

Newly re-established police facilities
Existing police facilities that are replaced by new structures on a new site.

Repaired and Upgraded police facilities
Existing police facilities that are repaired and upgraded to modern standards, with only minor additions.

Revised projected date of completion
The date of completion that is planned for, but which could change during any construction phase. Various delays to its completion may arise that could not be reasonably planned for, and this could include weather delays; labour strikes; unavailability of material; scope changes; poor performance by contractor; bankruptcy of contractors; etc.

**VEHICLES**

A total number of 722 vehicles were ordered and delivered, based on the requirements from the different provinces and Head Office. The Head Office order includes nationalised competencies. There are a total of 55,952 transport assets in the SAPS which consists of aircrafts, boats, transport machinery, motor vehicles, motorcycles and trailers. 51,713 of these transport assets consist of motor vehicles which have been used to calculate the personnel to vehicle ratio of 3.83:1, based on a total number of 197,946 personnel members. Table 4 provides an overview of the procurement process in the delivery of vehicles, table 5 the distribution of transport assets per province and table 6 the vehicle ratio to personnel per province.

INFORMATION SYSTEMS AND INFORMATION COMMUNICATION TECHNOLOGY (IS/ICT)

The SAPS, through its Technology Management Services (TMS) embarked on 24 projects in support of the SAPS Strategic Plan 2010-2014, and the Annual Performance Plan 2012/13. The achievements of the projects are reflected as a percentage of the planned targets. The beneficiaries of these projects included police stations; the Criminal Record Centre; training institutions, Forensic Science Laboratories and the Detective Service.

The SAPS is obligated by law to use external statutory bodies as service providers, such as the State Information Technology Agency (SITA) and the Department of Public Works (DPW). It is this dependency that has become a constraint and a risk in completing the following information technology projects:

➢ The SAPS Detention Management (SAPSDM) tender was delayed because the tender documents were withdrawn from SITA. The tender specification document had to be refined for realignment to the JCPS processes and re-submitted to SITA for publication. The process has progressed to a point where an award of the tender is awaited. It is also anticipated that the Council for Scientific and Industrial Research (CSIR) will be used to assure the quality of the project. Therefore, the performance of this item was adversely affected to a point where only administrative aspects of the solution were covered.

➢ Underperformance on the Action Request for Service (ARS) solution was the result of legal challenges experienced with the Automated Vehicle Location (AVL) System contract, which resulted in the contract being delayed.

➢ Other projects that were delayed as a result of inefficient processes, included the National Network Upgrade Programme (NNUP), Office Automation and the Ballistic Interface Unit (BIU) tender. In all instances, existing contracts are not in place.

➢ The modernisation of the ports of entry project is a joint project between the SAPS, the Department of Home Affairs and the South African Revenue Service. To date the specification has not been signed off by all the departments.

➢ Regularisation of the Property Control and Exhibit Management (PCEM) contract to ensure compliance with best contract management practices, was conducted. In this regard, management decided to cancel a specific Schedule of the contract and ordered that the items in the Schedule had to be put through a competitive bidding process. This, unfortunately, resulted in delays which affected some of the projects.

Table 7 outlines the projects, descriptions, planned targets, actual percentage achievement of targets and the reasons for deviation from the planned targets for each project.

SUB-PROGRAMME 1.4: FINANCIAL MANAGEMENT

The purpose of this sub-programme is to provide financial and accounting services in line with PFMA

**Strategic Objective:** An efficient and effective budget and budget financial management in line with all financial policies, prescripts and legislation

The Civilian Secretariat for Police is currently still functioning as cost center under Program 1: Administration of the South African Police Service. Steps are currently underway to formulate policies and implement systems that are required for a national department, following the signing off of the Civilian Secretariat for Police Service Act, 2011 (Act No 2 of 2011) by the President in December 2011. The approved organizational structure by the Minister of Police in March 2012 has created more capacity in the Chief Financial Officer (CFO) unit through the addition of a number of new posts. It is envisaged that all posts in the CFO unit will be filled by the end of the 2013/14 financial year.

Financial management at the Secretariat’s is carried out in accordance with the Public Finance Management Act (PFMA) and applicable National Treasury regulations. The internal control environment has improved during the period under review. Sound budget and expenditure management, observance of authorization controls and close monitoring of expenditure against approved budget have significantly enhanced financial management at the Secretariat. Furthermore, the seamless integration of Financial Management and Supply Chain Management activities has resulted in improvement in service offering of the CFO unit as a whole.

PROGRAMME 5: MONITORING, EVALUATION & REPORTING

**Purpose of the programme:** The purpose of the programme is to monitor and oversee the functions of the police service

Monitoring and evaluation is one of the key mechanisms in providing effective civilian oversight of the police. It is a powerful public management tool that is used to improve achievement of results.

The M&E system of the Civilian Secretariat for Police (CSP) is designed to monitor and evaluate the performance of the South African Police Service (SAPS) from a civilian perspective at policy and programme levels. The purpose of the system is to identify centers of excellence, highlight systemic inadequacies and recommend changes in policy and procedures.

STRATEGIES TO OVERCOME AREAS OF UNDERPERFORMANCE

The SAPS underperformed in the following areas relating to Programme 1: Administration:

- Percentage of police facility projects completed as per plan
- Percentage of planned annual funded IS/ICT projects completed

The following strategies have been/will be implemented to address the underperformance:

**Percentage of police facility projects completed as per plan**

The management of the projects dealt with in-house will be enhanced, and in that respect a Section Head: Expert Services at the level of brigadier has been appointed recently. All projects will be managed against their critical path, and deviations will be resolved immediately. In respect of projects handled by the implementing agent, the Department of Public Works (DPW), efforts are continuing to establish a service delivery agreement between the two departments and in respect of which challenges have been escalated, to ministerial level.

**Percentage of planned annual funded IS/ICT projects completed**

CHANGES TO PLANNED TARGETS

The planned target for the establishment of the SAPS for 31 March 2013 was adjusted and approved in the 2012 Adjusted Estimates of National Expenditure (Vote 25) [page 240] from 194 130 to 199 039.

The planned target for the compensation/operational expenditure ratio was adjusted and approved in the 2012 Adjusted Estimates of National Expenditure (Vote 25) [page 240] from 73/27% to not more than 74/26%.

5.2 PROGRAMME 2: VISIBLE POLICING

Purpose: Enable police stations to institute and preserve safety and security, and provide for specialised interventions and the policing of South Africa’s borders.

Strategic Objectives: To discourage all crimes by providing a proactive and responsive policing service that will reduce the levels of priority crimes.

The Visible Policing Programme comprises the following three subprogrammes:

➢ Crime Prevention
➢ Border Security
➢ Specialised Interventions
### Table 8: Actual Performance Against Targets

SERVICE DELIVERY ACHIEVEMENTS

SUB-PROGRAMME: CRIME PREVENTION

ANALYSIS OF THE NATIONAL CRIME STATISTICS

The main purpose of the SAPS is to reduce crime through crime combating (meaning both the prevention and detection of crime). The question posed by members of the public in this regard is whether the SAPS succeeds in creating a safer environment to live in. This annual report illustrates how crime combating was geared towards addressing the different dimensions of the crime challenge facing South Africa.

The ratios, raw figures and decreases or increases recorded in the incidence of all serious crime, contact crime and trio crime respectively during the 2012/13 financial year is reflected in a separate publication: “An Analysis of the National Crime Statistics”.

POLICE ACTIONS

➤ There were 34 428 crime prevention operations conducted to enhance police visibility in all police station areas from 1 April 2012 to 31 March 2013, compared to 28 163 in 2011/12. Table 9 provides a two-year comparative analysis of seizures/recoveries and arrests that was made during these actions.

</tr>
</tbody>
</table>

The table above indicates that 1 682 763 arrests were made for all crime during policing actions, compared to 1 613 254 in 2011/12, an increase of 69 509 or 4.3%. From the total number of 1 682 763 arrests, 806 298 or 47.9% were made for serious crime and 876 465 or 52.1% for other crime.

Most arrests for all crime were made in Gauteng with 565 524 or 33.6% followed by KwaZulu-Natal with 268 527 or 16% and the Western Cape with 255 533 or 15.2%.
10111 Call Centres
9 122 688 calls were received by the SAPS’ 20 10111 call centres in 2012/13, compared to 11 077 203 in 2011/12. This represents a decrease of 17.6%. Of these 9 122 688 calls, 2 648 791 or 29% were police-related (compared to 2 685 341 or 24% in 2011/12) and 6 473 897 or 71% were non-police related (8 391 862 or 76% in 2011/12). Non-police related calls include hoax calls, nuisance and abusive calls, emergency service enquiries, or other personal-related assistance or matters requiring a service to the public. Currently, 471 police stations are linked to 10111 call centres.

Flying Squad
The Flying Squad serves as a force multiplier to all police stations in ensuring effective responses to priority/serious and violent crimes in progress that require immediate police action and response. It also serves as a backup system if a specific police station requires assistance during life-threatening situations. Responsibilities include the attendance to priority crimes or complaints in progress, as well as attendance to less serious crimes/complaints if no other response vehicle is available. The SAPS currently has 29 Flying Squad Units countrywide.

During the period under review, a total number of 121 696 complaints were attended to by Flying Squad Units.

Hostage Negotiation
Since its establishment, hostage negotiation teams have been involved in various national and international negotiations, involving kidnapping for ransom and various other hostage and suicide-related incidents (kidnapping, barricades and extortion). Hostage and suicide negotiation training have been developed internally within the SAPS and negotiation teams have also been established and training developed for SARPCCO countries, namely Namibia and Botswana.

There are 345 active trained hostage negotiators in the SAPS. During 2012/13, the SAPS formed part of a task team dealing with the kidnapping of two South African citizens by Somali pirates during October 2010. They were released in June 2012.

Inland Water Policing and Diving Service
The responsibilities of police divers include rendering of diving-related and support to neighbouring countries; conducting search and recovery of exhibits and other items submerged in water or any other non-hazardous liquid or other substance; and to ensure that water safety regulations are adhered to during organised water sport and recreational events. There are 176 trained active divers and 95 trained vessel handlers in the SAPS.

During the period under review, a total number of 2 979 diving operations/call-outs were attended to during which 18 562 hrs and 53 minutes were spent.

Disaster Management
The SAPS responds to different types of natural disasters such as severe weather incidents, disastrous fire incidents, air-related disasters e.g. plane crashes, sea disasters and other major accidents/incidents. There are nine Disaster Management Coordinators in all provinces and 130 coordinators at station level in some provinces. Coordinators are responsible for search, rescue, recovery and evacuation during a disaster incident.

During the period under review, a total number of six disaster-related incidents were attended to, including an incident at the Linkin Park concert at the Cape Town Stadium in November 2012 where a scaffold collapsed and some unstable structures were removed to prevent further damaging. Other incidents include search-and-rescue operations during severe weather storms in October 2012 and January 2013.

Accident Combatting Service
The SAPS has dedicated Accident Combatting Units and teams established and functioning in the various provinces. Members attached to these teams/units have been trained to respond to road crime incidents and their responsibilities include attending to high-profile road crime accidents; conducting on/off site investigations of road crime accidents; providing internal training on road crime accident-related courses. There are a total number of five Accident Combatting Units and 10 Accident Combatting Teams.

During the period under review, a total number of 10 340 accident scenes were attended to.

Mounted Service
There are currently 25 Mounted Units, 17 Visible Policing Units and eight units situated at Stock Theft Units. Duties include crime prevention activities, prevention of stock theft, recovery of stolen stock, stadium deployments, deployments in inaccessible areas, patrols on national and provincial borders, national mounted parade for the opening of National and Provincial Parliament and other major events, community policing, and beach patrols.

170 143 hours were spent on horseback during 2012/13.

K9 Service
There are currently 101 Visible Policing K9 Units including units at Protection and Security Services and Operational Response Services (OR Tambo International Airport and Durban harbour).

The SAPS currently has patrol dogs (detection and apprehension of fleeing suspects), tracker dogs (track and identify persons through a scent left at a crime scene), narcotic dogs (detection of drugs), sheepdogs, carcass-and-hide dogs (detection of cattle, sheep and ostrich products – also used during the inspection of slaughter-houses), explosives dogs (detection of explosive devices), search-and-rescue dogs (detection of survivors of natural disasters), biological body fluid detection dogs (detection of human body fluid), fire investigation dogs (detection of inflammable liquids), protected species dogs (detection of abalone, crayfish, rhino horn and ivory) and currency detection dogs (detection of currencies including the Rand, Dollar, Euro and Pound).

Various successes resulted from the 365 192 searches conducted by K9 Units during the period under review.

### SAPS Veterinary Science Services

The SAPS Veterinary Science Services employ professionally-qualified veterinary personnel trained in the care of animals. They are required to register annually with the South African Veterinary Council in order to practise a veterinary profession in terms of the Veterinary and Para-Veterinary Professions Act 1982, (Act No. 19 of 1982). Their functions include primary health care interventions which entail the prevention and occurrence of diseases and injuries; secondary healthcare which implies the restoration of a working dog or horse; and tertiary health care which refers to procedures done by veterinary specialists. The SAPS has veterinary clinic facilities at Roodeplaat K9 Academy, Potchefstroom Mounted Academy and at the Durban Central police station.

During the period under review the SAPS Veterinary Science Services ensured the physical and psychological well-being of 2 068 dogs and 647 horses. A total number of 4 351 consultations and 1 109 surgeries were carried out at the veterinary hospitals in Pretoria, Durban and Potchefstroom.

### FIREARM CONTROL

- **The SAPS is responsible for issuing competency certificates, individual and business firearm licences, renewal of existing firearm licences, and authorisation in order to declare such persons fit and proper to either possess firearms or permits. People seeking firearm licences are compelled to undergo competency testing and obtain a competency certificate before being granted a firearm licence.**

- **From 1 April 2012 to 31 March 2013 the SAPS received a total number of 229 463 new firearm-related applications, of which 206 150 or 89.8% were finalised. An additional 86 142 applications that were received prior to 2012/13, were also finalised. This represents at total of 292 292 or 127.4% applications finalised during 2012/13. The finalisation of an application entails the approval, refusal, completion (renewals) or cancellation of an application (an application will be cancelled e.g. on the applicant’s request, if the applicant is deceased, declared unfit, are untraceable or if the firearm is stolen or lost). From the 292 292 applications finalised, 201 277 were approved, 8 732 were refused, 47 781 renewals were completed and 34 500 were cancelled. Table 10 categorises the different types of firearm-related applications that were received from 1 April 2012 to 31 March 2013, as well as those received prior to 1 April 2013, and finalised during 2012/13.**

- **To ensure effective control and responsible firearm and ammunition ownership, all firearm licences issued in terms of the Firearms Control Act, 2000 must be renewed within the prescribed period to determine if a person still complies with the provisions of the Firearms Control Act and the Firearms Control Regulations. In 2012/13 a total number of 49 046 licences were liable for renewal, including 48 285 in terms of section 13 of the Act (licence to possess a firearm for self-defence), 70 in terms of section 14 of the Act (license to possess a restricted firearm for self-defence) and 691 in terms of section 20 of the Act (license to possess a firearm for business purposes). From table 10 it is clear that only 28 975 applications for renewal were received by the SAPS in 2012/13.**
In 2013/14 a total number of 73 120 licences will be liable for renewal.

The accreditation of business entities, associations and organisations forms an integral part of the entire implementation of the firearms control legislation in South Africa. A total number of 89 institutions were accredited during 2012/13, which brings the total of all accredited institutions to 2 177 at the end of March 2013, compared to 2 088 at the end of March 2012, as illustrated in the table 11.

The circulation of the details of lost, stolen and found firearms plays a key role in the investigation of firearm-related crime, the efficient control of firearms nationally, and ultimately the reduction of small arms proliferation. The decentralising of the circulation functions to provincial level resulted in the prompt circulation of the details of the lost, stolen and found firearms. During the period under review, the details of a total number of 12 373 firearms were circulated as stolen or lost compared to 9 105 in 2011/12. The 12 373 include 9 942 firearms owned by individuals and institutions and 2 431 state-owned firearms (2 300 SAPS firearms and 131 firearms owned by other government departments). This figure constitutes firearms with serial numbers which could be linked to firearm owners in South Africa and includes circulations reported during previous financial years.

The details of the total number of 12 982 firearms were circulated as recovered compared to 8 744 in 2011/12, including 12 407 firearms owned by individuals and institutions and 575 state-owned firearms (492 SAPS firearms and 83 firearms owned by other government departments such as the Departments of Local Government and Traffic, Transport, Correctional Service, Health, Finance, Community Safety, the South African National Defence Force, the National Prosecuting Authority (NPA) and municipalities, amongst others). This represents a recovery rate of 104.9%. Firearms recovered also include firearms stolen or lost during previous financial years.

Table 12 provides a provincial overview of individual and institutional firearms stolen/lost and recovered, and table 13 an overview of SAPS and other state-owned firearms stolen/lost and recovered.

The SAPS accepts the voluntary surrender of firearms and ammunition to the SAPS as a means to assist persons to comply with the requirements of the firearms control legislation. During the reporting period 4 936 legal firearms and 84 051 legal rounds of ammunition were voluntarily surrendered to the SAPS, compared to 4 876 firearms and 57 599 rounds of ammunition in 2011/12. Table 13 provide a provincial overview of the number of firearms and ammunition voluntarily surrendered.

To address the proliferation of firearms with the focus on the tracing of illegal firearms and the testing of legal compliance, 20 145 firearms and 236 905 rounds of ammunition were confiscated during day-to-day operations as indicated in table 14, compared to 25 615 firearms and 264 720 rounds of ammunition in 2011/12. These recoveries include firearms stolen or lost during previous financial years.

The SAPS are represented on the following committees:

- The National Conventional Arms Control Committee to present dealers’ applications for firearms and ammunition and export permits which are more than the threshold as stipulated in the National Conventional Arms Control Act, 2000 (Act No. 41 of 2000)
- The Police Export Scrutiny Committee to finalise dealers export applications for firearms and ammunition used for commercial purposes which are below the threshold
- The Directorate Conventional Arms Control Committee to finalise export applications for firearms and ammunition used for conventional purposes.

Partnerships have been established with the following accredited and non-accredited associations as required by the Firearms Control Act, 2000 (Act No. 60 of 2000) to address challenges and to strengthen partnerships:

- Hunters Associations
- Sport Shooting Associations
- Collectors Associations
- Dealers Forum
- Professional Hunters
- South African Gun Owners (SAGO)
- Black Gun Owners Association of South Africa (BGOASA)

Firearm compliance inspections are conducted to ensure compliance with firearm control legislation and audits are conducted to ensure the updating of SAPS firearm systems. Table 16 provides a provincial breakdown of official and non-official firearm institutions inspected/audited, the number of firearms inspected, the number of unfit declarations in terms of sections 102 and 103 of the Act, and the number of infringement notices issued during these inspections/audits.

➢ The Appeals Board considers appeals from firearm owners whose firearm licences were refused. During the period under review, the Appeals Board received 28 327 applications and finalised 12 088 applications.

STOLEN AND ROBBED VEHICLES RECOVERED IN RELATION TO THE NUMBER OF REPORTED STOLEN AND ROBBED VEHICLES

➢ From 1 April 2012 to 31 March 2013, a total number of 67 020 vehicles were stolen and robbed, including 54 209 or 80.9% stolen vehicles and 12 811 or 19.1% robbed vehicles, compared to 54 221 stolen and 12 351 robbed vehicles in 2011/12. 48.1% or 32 250 vehicles were stolen and robbed in Gauteng, followed by KwaZulu-Natal with 11 796 or 17.6% and the Western Cape with 9 266 or 13.8%.

➢ During the reporting period 30 132 stolen and robbed vehicles were recovered countrywide, compared to 30 437 during 2011/12. This includes vehicles stolen or robbed during previous financial years, which were identified by means of primary and secondary identifiers. The recovery rate decreased marginally from 46% to 45%, compared to 2011/12. An additional 21 598 vehicles were also recovered, but the identification process has not yet been finalised. It should be noted that some vehicles are sold in chop shops and vehicle identifiers are being removed/changed, which makes it impossible to link a vehicle to its rightful owner. This is further exacerbated by collusion between reported stolen vehicle owners and syndicates at ports of entry, where vehicles never return.

➢ Table 17 provides a breakdown of the number of stolen and robbed vehicles recovered relative to the number of vehicles that had been reported as stolen and robbed.

During 2012/13 a total number of 1 652 recovered vehicles were compacted by the SAPS compared to 3 164 in 2011/12. These vehicles include recovered vehicles that could not be identified, vehicles forfeited to the State in terms of sections 31(1)(b) and (31)(1)(2) of the Criminal Procedure Act, 1977 (Act No. 51 of 1977) as well as vehicles boarded by the SAPS.

**Escapes from Police Custody**

From 1 April 2012 to 31 March 2013, a total number of 716 incidents of escaping from police custody were recorded. When comparing these figures with the 2011/12 financial year, the number of incidents decreased with 11.6% or 94 incidents. With the exception of the Northern Cape where incidents of escape increased from 32 to 54 incidents, the number of incidents decreased in all other provinces. The target set for the 2012/13 financial year was to decrease incidents of escape with 50% to 150 incidents. This was not realised due to policies and procedures not adhered to and inadequate infrastructure at various police holding facilities.

During the reporting period, 988 persons escaped from police custody. When comparing these figures with the 2011/12 financial year, the number of escapees decreased with 8.4% or 91 escapees. KwaZulu-Natal recorded the largest number of escapees (186), followed by the Western Cape (168), and Gauteng (161).

Table 18 depicts a comparative overview of escape incidents from 2009/10 to 2012/13.

Evidently, 209 or 21.2% of the 988 persons who had escaped from police custody during 2012/13 were re-arrested immediately after the incident. 1 058 persons who escaped from police custody were arrested during the reporting period, including persons who escaped during previous financial years.

The SAPS charged 1,914,063 persons during the reporting period. The number of escapees represents 0.051% of the total number of persons charged compared to 0.053% in 2011/12. Table 19 provides an overview of the number of escapees and the number of persons charged during 2012/13.

The majority of escape incidents occurred in the policing areas of Community Service Centres (132). This includes incidents from temporary holding cells (65), the Community Service Centre (54), consultation rooms/other offices (10) and processing rooms (3). A total number of 130 incidents occurred from police station holding cells, followed by incidents from hospitals (72), from courts while appearing (69), from court cells (61), while in transit (60), during further investigation (58) and being wrongfully released (58). Table 20 provides an overview of the places where all escape incidents took place.

**Police Reaction Time**

The SAPS measures its performance with regard to the attendance to complaints from the public with the aim of improving reaction times. The reaction time is calculated as the time (in minutes) from the date and time a complaint is registered until the date and time the police arrive at the crime scene. At station level, only complaints attended to by vehicles belonging to that station are considered for the purpose of calculating the reaction time. The Marginal Performance Level (MPL) represents the minimum requirements for performance measurement purposes.
The categories of complaints that SAPS responds to include:

- **alpha complaints** - Crimes in progress and all serious crime which require immediate police response/action
- **bravo complaints** - Crimes that have already taken place and are less serious in nature, with no immediate threat to the caller/complainant or other person/s or property e.g. housebreaking which has already occurred.
- **charlie complaints** - Crimes or offences of a less serious nature, e.g. drunkenness, loitering and trespassing.

Table 21 includes average reaction times to complaints at provincial (inclusive of police station level averages) and national levels. It should be noted that in some instances the baseline of a specific year differs from the result of the previous year. This is ascribed to the fact that the baseline is automatically recalculated taking into consideration complaint details that were carried over to the next year. Comparatively, between 2011/12 and 2012/13, the national average reaction time for serious crimes in progress (Alpha) improved from 19.06 minutes to 18.46 minutes; the reaction time for crimes that already occurred (Bravo) improved from 24.05 to 22.28 minutes; and for crimes or offences of a less serious nature (Charlie) improved from 21.27 to 20.46 minutes. The Marginal Performance Levels for all categories were achieved.

</table>

Cannabis remains the most prevalent illicit drug used in South Africa since it is the most easily accessible drug and primarily cultivated in South Africa. During 2012/13, 196 181,207 kg Cannabis were seized during police actions, compared to 200 994,409 kg during 2011/12. Other drugs confiscated during police actions include 108 752 Mandrax tablets, 145,560 kg Cocaine, 347,860 kg Crystal Meth (Tik-Tik) 46,223 kg Whoonga, and 46,827 kg Nyaope.

Over the past years, the SAPS’s Cannabis Eradication Programme destroyed numerous hectares of illicit Cannabis crops grown in cultivation areas in the Eastern Cape and KwaZulu-Natal. During the period under review, 148 hectares of cannabis fields were sprayed to keep illicit cannabis crops in South Africa to a minimum. The Hughes 500 helicopters are used for dagga-spraying operations. Following an accident by one of these helicopters in January 2011, the remaining two Hughes 500 helicopters were grounded pending the outcome of the accident investigation. These helicopters were released for spraying operations late in 2012 and resulted in only two operations being conducted in 2012/13. These operations will continue as soon as the planting season starts in spring, with follow-up operations during the early months of 2014.

The SAPS continued representation on the Central Drug Authority and oversees the implementation of the Mini Drug Master Plan. To this end, the SAPS coordinates report compilation that includes activities that span both the national and transnational aspects of drug combating. These activities are conducted by the Detective Service, Forensic Service, Visible Policing and Crime Intelligence Divisions. During 2012/13 the SAPS’s involvement in this regard includes initiatives on the combating of drug-related crimes, preventative initiatives geared at reducing the drug demand among the public and participation in prevention and treatment abuse matters. A key feature of the latter aspect has been involvement in the pre-proclamation consultation process for Draft Regulations on Substance Abuse. The regulations support the Prevention of and Treatment for Substance Abuse Act, 2008 (Act No. 70 of 2008).
LIQUOR CONTROL

➣ The SAPS confiscated 1 824 865,821 lt liquor from 1 April 2012 to 31 March 2013 (including 57 061,967 lt home-brewed beer), compared to 1 096 694,944 lt in 2011/12. The increase of 728 170,877 lt or 66.4% was as a result of various national operations (Operations Duty Calls and Paseka coupled with Operation Tsholla Bjala). 74 547 identified illegal liquor premises were closed down (73 004 illegal liquor outlets and 1 543 illegal liquor manufacturers), compared to 92 929 during 2011/12.

➣ To ensure the effective and efficient policing of the Liquor Act, 2003 (Act No. 59 of 2003) the SAPS focused on the following areas during 2012/13:

→ 394 379 compliance inspections were conducted during the reporting period, compared to 204 705 compliance inspections during 2011/12.

→ Capacity-building sessions in consultation with the national/provincial Liquor authorities, hosted by the Department of Trade and Industry in the Western Cape, KwaZulu-Natal, Gauteng, and the Eastern Cape to ensure compliance with and enforcement of the Act, targeting registrants and the newly-trained designated police officials.

→ The launch of Sobriety Week on 7 September 2012 in Mahikeng, North West, hosted by the National Liquor Authority. This initiative was implemented in other provinces focusing on the prevention of alcohol abuse.

→ The National Liquor Regulatory Conference that was held on 6 and 7 March 2013 in Bela Bela, Limpopo, hosted by the National Liquor Authority. The conference was attended by registrants, manufacturers, retailers and various departments within the liquor industry with the purpose of effectively regulating the liquor industry.

SECOND-HAND GOODS

➣ The Second-Hand Goods Act, 2009 (Act No. 6 of 2009) was introduced on 30 April 2012. During April 2012 information sessions were held in all nine provinces to provide station commanders, detectives, crime intelligence officials and second-hand-goods officers with an overview of the requirements in terms of Second-Hand Goods legislation, as well as the identification of non-ferrous metals. A total number of 24 information sessions which were attended by 3 269 police officials and various parastatals were conducted countrywide.

➣ A total number of 1 014 designated officers have been identified at station level and are currently performing second-hand goods-related functions. Officials will be formally appointed in terms of section 38 (2) of the Act once the delegation of powers has been approved.

➣ 14 Second-Hand Goods Associations applied for accreditation in terms of section 17 of the Act. Temporary registration certificates have been issued to 13 of the 14 associations until such time that permanent accreditation certificates can be issued.

➣ The SAPS focused on the following in support of the implementation of the Act:

→ A draft National Instruction on Second-Hand Goods Control was finalised in conjunction with Legal Services.

→ Process models and procedures have been developed for the designing of a Second-Hand Goods System.

→ A Second-Hand Goods Communication Strategy was developed to inform and educate SAPS members on the implementation of the Act, and to inform and educate the community by means of awareness campaigns.

→ Information relating to second-hand goods legislation was published on the SAPS website and the SAPS intranet.

→ 380 Second-Hand Goods Station Forums have been established countrywide for purposes of information and education of second-hand goods dealers on the implementation of the Act.
11,355 applications for the registration of second-hand goods dealers and recyclers were finalised since the implementation of the Act. Table 23 provides a provincial overview of the total number of dealers registered per province.

A National Non-ferrous Metals Crime Combating Committee (NFMCCC) was established. The major role players that are represented at the Committee, includes ESKOM, TELKOM, TRANSNET (including SPOORNET and METRORAIL), the Passenger Rail Association of SA, the Chamber of Mines (representing several mine groups); the recycling industry; the manufacturing industry; the Department of Justice and Constitutional Development, including the NPA and Directorate of Special Operations; the Economic Development Department; the International Trade Administration Commission; Customs and Excise; South African Revenue Service; South African Chamber of Commerce and Industry; Business Against Crime and Dealer/Recycler Associations. The purpose of this Committee is to eradicate non-ferrous metals related crimes in South Africa through the establishment and maintenance of the NFMCCC; to initiate and coordinate efforts in the prevention of non-ferrous metals related crimes; the establishment and monitoring of Provincial Non-Ferrous Metals Crime Combating Committees; the implementation of a joint venture between all relevant internal and external stakeholders to effectively address non-ferrous metals-related crimes on a national and provincial level; the co-ordination of integrated crime combating operations that focus on the suppliers/dealers and end-users; the monitoring of the import and export of non-ferrous metals; the launching and implementation of a non-ferrous metal anti-crime communication plan and strategy, including educational awareness campaigns; the monitoring of investigations pertaining to non-ferrous metal-related crimes; and to establish governance to effectively deal with non-ferrous metals in SAPS 13 stores.

Nine Provincial Non-ferrous Metals Crime Combating Committees were established to coordinate crime combating operations, to launch and implement a non-ferrous anti-crime communication plan and strategy, to monitor the import and export of non-ferrous metal and to monitor investigations pertaining to non-ferrous metal-related crime.

During 2012/13 a total number of 42,037 compliance inspections were conducted in terms of the Act as illustrated in table 24.

RAILWAY POLICE

➢ The Railway Police covers about 33 000 km of rail lines and transporting an estimated 538 791 702 million passengers annually. A total number of 3 333 members are deployed in the railway environment, which includes 2 583 personnel members in the Metro Rail environment and 750 at National Mobile Train Units.

➢ The functions of the Railway Police include, inter alia, the provisioning of a visible policing service to address the safety of commuters on trains, conducting crime prevention and crime combating operations in the rail environment, and the provisioning of a rapid rail policing service. The Railway Police are operational in the Western Cape (Cape Town, Retreat, Philippi and Bellville), Gauteng (Pretoria, Belle Ombre, Mabopane, Saulsville, Denneboom, Johannesburg, Krugersdorp, New Canada, Stretford, Germiston, Springs and Kempton Park), Eastern Cape (East London, Mount Ruth and Swartzkop) and KwaZulu-Natal (Durban, Kwa-Mashu, Cavendish, Re-Union and Escombe). The SAPS also provides a reactive policing service at all Gautrain rail stations and on the trains in the Gautrain rail network.

➢ Five National Mobile Train Units are strategically placed in Gauteng, the Western Cape, KwaZulu-Natal and the Eastern Cape. These units are actively involved in policing the long-distance passenger and freight rail across the country. They are also involved in cross-border operations, disruptive operations and act as a rapid response service to the rail environment.

➢ During 2012/13, 37 641 crimes were reported of which 2 262 were contact crimes, 329 contact-related crimes, 3 586 property-related crimes, 2 029 crimes detected as a result of police action, as well as 29 435 other crimes. Although there was an overall increase of 8.5% crimes reported, contact crimes decreased by 7.9%. The increase in reported crimes can be attributed to service delivery strikes, labour disputes, burning of trains, and general theft specifically theft of cellular phones (which contributed most to the increase).

➢ Arrests were made by railway police members in and outside the rail environment and these were affected during daily deployments and operations in terms of crime threat and crime pattern analysis. A total of 47 541 arrests were made compared to 39 925 in 2011/12, an increase of 19.1%, which includes the following: 1 095 for contact crimes, 194 for contact-related crimes, 945 for property-related crimes, 4 114 for crimes detected as a result of police action and 41 193 other arrests for serious and less serious crime.

MURDER OF POLICE OFFICIALS

➢ One of the main objectives of the SAPS is the prevention and the ultimate eradication of all attacks on and murder of SAPS personnel. This is in line with the existing Police Safety Strategy which is based on the key pillars of operational readiness of members and the provision of reactive, as well as restorative support.

➢ Table 25 provides an overview of the number of SAPS members murdered from 2006/07 to 2012/13.
During the 2012/13 financial year, 84 members were murdered countrywide (29 on duty and 55 off duty), an increase of 3 or 3.7% compared to 2011/12. Gauteng recorded the highest number of murders (23 or 27.4%), followed by KwaZulu-Natal with 18 or 21.4%.

There has been a decrease of 9 or 23.7% in the murder of on-duty police members during 2012/13, compared to 38 on-duty members killed during 2011/12.

The Multidisciplinary Police Safety Committee is functional at national level. The aim of the Committee is to:

- discuss sound methodologies to reduce police killings and attacks
- conduct an analysis of all incidents of attack on and killing of officials
- implement preventative measures to reduce attacks on and killing of officials
- ensure a coordinated approach to deal with the killing of police members
- promote a zero tolerance to police killings.

The following key activities were finalised during 2012/13 as part of the initial resolutions adopted in the Ten-Point Plan of the Minister of Police during 2011:

- Research conducted by the 1999/2000 Ministerial Task Team was analysed and the findings were used to inform the development of a National Police Safety Plan.
- A communication and marketing strategy was implemented to create awareness internally and externally, including the distribution of safety hints and guidelines.
- An identification and analysis of risks were undertaken and a subsequent Risk Plan was drafted.
- A docket analysis in respect of all members who had died on and off duty, was conducted to determine trends and tendencies.
- Provincial police safety summits were hosted in KwaZulu-Natal, Gauteng, Limpopo and Eastern Cape provinces to mobilise communities to support an integrated and coherent approach in addressing the well-being and safety of all SAPS employees.
- The circumstances and conditions under which members were killed on duty were reconstructed to identify contributing factors and causes.

**RESERVISTS**

Reservists are used to support the SAPS as a force multiplier, and as part of the cooperative police-community relationship in combating crime. The reservist system provides for the active involvement of the community...
in policing, which supports a problem-oriented policing approach.

➢ The SAPS embarked on a project to review the reservist system with the aim of improving conditions of utilising reservists and enhancing selection and recruitment standards. To this end, the South African Reserve Police Service Policy Framework and Guidelines was approved by the Minister of Police during 2012/13. The revised system will be implemented during 2013/14, including a structured, reservist recruitment drive.

➢ A national audit was conducted during 2012/13 to verify information on all active reservists. This audit revealed that only 19 359 of the 52 540 reservists registered on the system were considered active at the end of March 2013. An active reservist is a reservist who performs at least 16 hours, voluntary, functional, policing duties per month. An estimated 33 181 reservists were considered inactive after the audit (rendered no voluntary service) and were terminated on the system. The 33 181 reservists includes an estimated 507 reservists who were terminated as a result of resignations, misconduct and failure to render the required sixteen voluntary hours for a consecutive period of three months.

SECTOR POLICING

➢ Sector Policing is an operational policing approach adopted to strengthen the philosophy of Community Policing in the SAPS. It provides for practical policing approaches to compliment community participation in accordance with policing needs and community requirements, and is aligned with community structures. Sector policing is implemented at 1 090 (96.3%) of the 1 132 police stations as depicted in table 26.

### TABLE 26: STATUS OF THE IMPLEMENTATION OF SECTOR POLICING AS AT 31 MARCH 2013

</table>

➢ Following a request by the Portfolio Committee to conduct an extensive review of the current Sector Policing Strategy, the following became evident-

→ Sector policing cannot be regarded as the only operational policing approach/tool and police stations should be given discretion to determine which policing approach is the most suitable, depending on the geographical area to be policed (deep rural areas cannot implement sector policing to the same extent than urban areas)

→ Sector policing is not a sustainable policing approach if its successes depend on large numbers of human and physical resources

→ Sector policing should be used as policing approach to encourage community mobilisation, interaction and building a culture of mutual cooperation and trust.

➢ The following minimum implementation standards were determined to provide for the implementation of sector policing at all police stations, including police stations serving urban and rural communities-

→ The police station’s area must be demarcated into manageable sectors containing a minimum of two sectors
→ A permanent member must be appointed as a sector commander to manage and coordinate all crime-related activities in the demarcated sectors

→ The appointed sector commander must compile a sector profile for each demarcated sector

→ Operational members and resources must be deployed in accordance with the crime pattern and threat analysis to perform policing duties in the demarcated sectors

→ A sector forum must be established to facilitate community interaction and participation

**RURAL SAFETY**

➢ A comprehensive Rural Safety Strategy, to enhance safety and security levels, accessibility to policing and service delivery to the rural community, that was approved by the Minister of Police and the National Commissioner, is still in the process of being implemented in all rural areas. During 2012/13 the strategy was implemented in 108 identified priority police stations in all nine provinces. However, all other police stations serving the rural community adopted and implemented the principles of the strategy where possible.

➢ The aim of the strategy is to address rural safety as part of an integrated and holistic day-to-day crime prevention approach, based on the principles of sector policing, which addresses the needs of the entire rural community, including the farming community. The National Rural Safety Strategy is based on the following four pillars:

→ Pillar One: Enhanced service delivery

→ Pillar Two: Integrated approach

→ Pillar Three: Community safety awareness

→ Pillar Four: Rural development

➢ Capacity-building sessions to guide and support the communication, understanding and further implementation of the strategy were facilitated in all nine provinces. These sessions were attended by all SAPS role players and appointed Rural Safety Coordinators at identified priority police stations, as well as all departmental and community stakeholders at provincial and local level.

➢ Rural Safety Priority Committees are functioning at national and provincial levels to identify shortcomings and challenges in order to effectively address crime in an integrated manner. These committees are represented by all role players in the rural and farming community, including the SAPS, farm workers’ unions, organised agriculture, farmers’ associations and other Government Departments.

➢ The SAPS supports the Comprehensive Rural Development Plan (CRDP) of the Department of Rural Development and Land Reform. To this end, the SAPS is in the process of establishing a partnership with the Department of Traditional Affairs to enhance the involvement of traditional leaders in safety and security.

➢ Communication material in all eleven official languages was distributed among communities, to communicate the Strategy, create awareness and provide guidance with the implementation of the Strategy.

➢ The rural community participates in the Community Police Forums at station level, as well as Sector Crime Forums, where they are provided an opportunity to share security concerns.

➢ The utilisation of reservists further strengthens the capacity for rural safety and the local deployment along the borderline is strengthened by integrating and coordinating borderline operations to combat illegal cross-border movement of people, goods and contraband.
INTERDEPARTMENTAL INITIATIVES TO IMPROVE SERVICES TO WOMEN AND CHILDREN

➣ The SAPS continues to monitor the implementation of the Domestic Violence Act, 1998 (Act No. 116 of 1998) and National Instruction 7/1999 which was developed in terms of the Act.

➣ To improve compliance and service delivery towards victims of domestic violence and other related crimes against women and children, senior officers at police stations conduct regular first-level inspections of the relevant registers and present regular in-service and practical training to frontline service members, monitored by cluster commanders.

➣ With the promulgation of the Independent Police Investigative Directorate Act, 2011 (Act No. 1 of 2011) effective from 1 April 2012 and the Civilian Secretariat for Police Act, 2011 (Act No. 2 of 2011) effective from 1 December 2011, the SAPS is now reporting all misconduct cases pertaining to non-compliance with the Domestic Violence Act, 1998 (Act No 116 of 1998) to the Civilian Secretariat of Police from 1 April 2012. The Secretariat submits an oversight report to Parliament regarding the number and details of matters reported to them in terms of subsection (4)(a) of the Act, setting out the recommendations made in respect of such matters every six months. Minor incidents of non-compliance are rectified immediately, and members are encouraged during station lectures and on/off-duty parades to strictly ensure compliance. Tables 27 and 28 provide a provincial breakdown of the number of non-compliance incidents reported from 1 April 2012 to 31 March 2013 and the nature of disciplinary proceedings against police officials.

➣ A two day national work session was held in December 2012. It was attended by members dealing with domestic violence legislation at national, provincial, cluster and station levels. The purpose of the workshop was to establish, through a facilitated process, whether and to what extent the existing National Instruction and the Domestic Violence Act, 1998 (Act No. 116 of 1998) require amendment. The summary of proposed changes agreed to by SAPS, will be used to engage with the Department of Justice and Constitutional
The SAPS continued to evaluate its role and participation in One Stop Child Justice Centres, as a way of ensuring matters of child offenders are expedited through the value chain of services. The SAPS is currently part of a draft “step-by-step” guideline for trafficking in persons.

A Compliance Forum and Reference Group has been established between the SAPS and the Civilian Secretariat for Police to strengthen the monitoring of the implementation of the Domestic Violence Act, 1998 and other relevant legislation including the Criminal Law and Related Matters Amendment Act, 2007 (Act No. 32 of 2007), the Child Justice Act, 2008 (Act No. 75 of 2008) and the Children’s Act, 2005 (Act No. 38 of 2005) by the SAPS in order to improve the policing of crimes against women and children, including gender-based violence in South Africa.

The JCPS cluster, with other role players responsible for the administration of the Domestic Violence Act, 1998, were mandated to develop a strategy that will ensure proper and effective implementation of the Act, as well as the prevention of domestic violence. A draft National Domestic Violence Strategy was developed to set a clear understanding of the complexity of domestic violence, the responses to date, the challenges with progress and the actions to realise improvements.

IMPLEMENTATION OF THE CRIMINAL LAW (SEXUAL OFFENCES AND RELATED MATTERS) AMENDMENT ACT, 2007 (ACT NO. 32 OF 2007)

The SAPS continued with the training of its functional members on sexual offences. The First Responders to Sexual Offences course for members who are first responders to sexual offence cases includes dealing with victims, the scene of crime and the recording of cases. The learning objectives of sexual offences training includes compliance with the Criminal Law (Sexual Offences and Related Matters) Amendment Act, 2007 (Act No. 32 of 2007); Regulations and National Instructions developed in terms of the Act; and to enable members to deal with incidents of sexual offences in a sensitive, professional, and efficient manner, and the proper administration of the relevant registers and forms relating to sexual offences.

A Compliance Forum and Reference Group has been established between the SAPS and the Civilian Secretariat for Police to strengthen the monitoring of the implementation of the Domestic Violence Act, 1998 and other relevant legislation including the Criminal Law and Related Matters Amendment Act, 2007 (Act No. 32 of 2007), the Child Justice Act, 2008 (Act No. 75 of 2008) and the Children’s Act, 2005 (Act No. 38 of 2005) by the SAPS in order to improve the policing of crimes against women and children, including gender-based violence in South Africa.

The SAPS continues to participate in the task team led by the DOJCD to develop an intervention plan to address crimes against the Lesbian, Gay, Bisexual, Transgender and Intersex (LGBTI) community. During the reporting period, the task team appointed a service provider to collect and collate data for the development of a National LGBTI Intervention Strategy in collaboration with the LGBTI governance structures. The task team also conducted a work session to discuss assistance to LGBTI victims and perpetrators, as well as current systems or regulations affecting the LGBTI community.

The SAPS developed an Anti-Trafficking Strategy and process flow charts for frontline service personnel, as part of a draft “step-by-step” guideline for trafficking in persons.

IMPLEMENTATION OF THE CHILD JUSTICE ACT, 2008 (ACT NO. 75 OF 2008)

The SAPS participates in processes aimed at establishing an interdepartmental management information system which will monitor and track children in conflict with the law through the justice system. During the period under review, a project which involves the Witbank and Pretoria Central police stations, was implemented to track individual cases through the criminal justice system to determine shortcomings in the system when dealing with these cases. To this effect, a Steering Committee for Child Justice Information Systems was established. The committee reviews progress in systems enhancement to enable the SAPS to monitor the handling of children in conflict with the law, and to report in terms of section 96 of the Child Justice Act, 2008.

The SAPS continued to evaluate its role and participation in One Stop Child Justice Centres, as a way of ensuring matters of child offenders are expedited through the value chain of services. The SAPS is currently part of a draft “step-by-step” guideline for trafficking in persons.

The provisioning of training to police members remains a priority to ensure that the SAPS improves on the services rendered to victims of sexual offences, domestic violence, offences against children and other victims of crime. Training on the Domestic Violence Learning Programme addresses compliance and obligations in terms of the Act, Regulations and National Instructions, development of practical skills to enable members to deal with incidents of domestic violence in a sensitive, professional, and efficient manner, and the proper administration of the relevant registers and forms that is required in terms of the Domestic Violence Act, Regulations and National Instructions. Other training interventions that include content on domestic violence are the Victim Empowerment Training Programme, Children and Youth at Risk Learning Programme, Human Rights in Policing, the 1st Responders to Sexual Offences course and training on the Child Justice Act. Training on domestic violence is also included and forms an integral part of the Basic Training Programme for new recruits since 2000. The number of members trained in these courses is reported under Programme 1.

The committee reviews progress in systems enhancement to enable the SAPS to monitor the handling of children in conflict with the law, and to report in terms of section 96 of the Child Justice Act, 2008.

The SAPS continued to evaluate its role and participation in One Stop Child Justice Centres, as a way of ensuring matters of child offenders are expedited through the value chain of services. The SAPS is currently part of a draft “step-by-step” guideline for trafficking in persons.
involved at the Nerina (Eastern Cape), Jouberton, Maheking (North West) and Mangaung (Free State) One Stop Child Justice Centres with other service providers.

In November 2012 the SAPS participated in nationwide public interactive radio broadcasts (talk shows) on 68 community radio stations aimed at clarifying the implications of the Child Justice Act, 2008, and the role of the police, prosecutors, courts, and probation officers in dealing with children in conflict with the law.

The SAPS continues to provide international visitors with insight into the policing aspects of the Child Justice Act. During this reporting period the SAPS hosted delegates from the Democratic Republic of the Congo (DRC) and Vietnam who were on study tours for this purpose. The Walter and Albertina Sisulu Child and Youth Care Centre in Soweto and supporting police stations were visited as they present sound practices for dealing with children in conflict with the law.

**IMPLEMENTATION OF THE CHILDREN’S ACT, 2005 (ACT NO 38 OF 2005)**

As part of nationwide initiatives aimed at encouraging parents and communities to provide protection to children against abuse, exploitation and neglect that makes them vulnerable to crime, the SAPS contributed to the publication of the “Teacher” supplement of the Mail and Guardian that was published on 15 June 2013. The SAPS participated in the interdepartmental child protection awareness activities during the Child Protection Week. This included conducting exhibitions for the public and engaging with children and adults. Child Protection week was officially opened in Kimberley (Northern Cape) on 30 May 2012 and closed in Phutaditjaba (Free State) on 3 June 2012.

Information and capacity-building sessions were conducted with provincial role players to enhance compliance with the Child Justice Act, 2008 and the Children’s Act, 2005. Reference to other aspects of the regulatory framework that govern the treatment of children such as the Criminal Law (Sexual Offences and Related Matters) Amendment Act, 2007 (Act No 32 of 2007) was also addressed in these sessions, that were conducted in all nine provinces.

During the reporting period 27 police stations were visited nationwide, focusing on compliance with the Children’s Act, 2005, Child Justice Act, 2008 and the Safe Schools Programme. In-service training was conducted to address aspects of non-compliance. Information was provided to stations and non-compliance and matters that needed attention by provincial, cluster and station management, were reported to Provincial Commissioners.

The SAPS continues to participate in review processes by attending the Child Labour Implementation Committee meetings which reviews the progress made with the implementation of the Child Labour Programme of Action. This committee reviews, among other matters, departmental progress with regard to the Worst Forms of Child Labour which include Commercial Sexual Exploitation of Children, Child Trafficking, and Children Used by Adults to commit Crime.

**VICTIM EMPOWERMENT PROGRAMME**

The Victim Empowerment Programme (VEP) is aimed at reducing victimisation and offending, repeat victimisation and offending and preventing victimisation through the delivery of services. The main responsibility of the SAPS towards victim empowerment is to render a victim-friendly service to all victims of crime and includes the development, monitoring and implementation of policies, directives and instructions aimed at improving services to victims of crime; sensitising and training of SAPS members to render a professional, victim-friendly service; and ensuring that SAPS facilities are victim friendly.

The National Instruction for Victim Empowerment has been approved during March 2012 and was distributed nationally. In order to promote the implementation of the National Instruction, presentations were included in provincial gender-based violence and victim empowerment capacity-building sessions that took place from November 2012 to March 2013.

During the reporting period, the SAPS participated in the following interdepartmental projects aimed at improving services to victims of crime:

- Quarterly interdepartmental Victim Empowerment Management Forum meetings to provide input relating to roles and responsibilities and progress in the implementation of victim empowerment in the SAPS.
→ Various workshops to discuss the Victim Empowerment Learnership Training developed by the Department of Social Development; Working Stream on Substance Abuse to discuss the scope and the prevention of substance abuse; a Shelter Strategy for victims of crime and violence to give guidance to stakeholders; and workshops relating to the revision of the minimum standards for victims; the VEP policy guidelines; and the National Population Unit.

→ A National Victim-Empowerment summit hosted by the Department of Social Development which took place in Gauteng from 13 to 15 February 2013, where the achievements of the SAPS on the implementation of the VEP over the past 15 years, was presented.

→ A Crime Victim Rights Week that took place in Klerksdorp from 17-21 September 2012. The programme included workshops for victims on their rights, public education/awareness and debriefing sessions coordinated by the Department of Social Development.

By the end of March 2013, a total number of 919 Victim-Friendly Rooms (VFRs) were operational at police service points, compared to 925 by the end of March 2012. These service points include police stations, satellite police stations, contact points and FCS offices as indicated in table 29.

**PUBLIC EDUCATION AND AWARENESS CAMPAIGNS**

The SAPS continued with its public education and awareness at provinces and stations, particularly in support of Child Protection Week, youth month, women’s month, 16 Days of Activism Campaign and ministerial Izimbizos. The SAPS participated in the following:

➢ The SAPS and the Department of Basic Education continue to collaborate in its partnership to formalise working relationships and links between schools and police stations in the spirit of the Protocol on Crime and Violence at Schools. There are currently 25 474 public schools countrywide. To date, since the signing of the Protocol by the Ministers for Basic Education and the SAPS in 2011, a cumulative total number of 16 810 schools, with functional Safe School Committees, have been linked to police stations.

➢ The SAPS is a member of the “Ke Moja” Steering Committee responsible for the implementation of preventative programmes to combat substance abuse. A key vehicle for preventative actions is through schools and involves the Departments of Social Development, Basic Education, the SAPS and non-governmental organisations working at reducing substance abuse. The Ke Moja Integrated Strategy, 2013 to 2017, has been developed.

➢ The Limpopo Junior Provincial Commissioner conducted a campaign focusing on crime and substance abuse awareness, aimed at ensuring that learners are sensitised on the negative impact of crime and substance abuse.

➢ The SAPS engaged in Safe Schools awareness projects at Masithwalisane Senior Secondary School in Vosloorus.

➢ The SAPS represented the National Commissioner in an awareness-raising initiative, the International Day against Substance Abuse and Drug Trafficking.
BUSINESS AND COMMUNITY PARTNERSHIP PROGRAMMES

➢ Community Policing Forums are structures used to ensure that the police liaise and work with the community in delivering services in order to improve cooperation, as well as joint problem solving. Projects developed with community police forums during the reporting period focused on issues such as sports against crime, prevention of violence against foreign nationals, domestic violence, know your neighbour, drug awareness, anti-housebreaking, and the prevention of mob justice and stock theft. The SAPS participated in the process led by the Civilian Secretariat for Police to develop a policy on the establishment of Community Safety Forums. The SAPS and Business Against Crime South Africa (BACSA) initiated a partnership aimed at the transfer of skills to develop and implement CPF projects and improvement of services to victims at seven police stations in Gauteng.

➢ Four national Izimbizos were organised with the objective to promote interaction between the community and SAPS' top management and the Minister and/or Deputy Minister. The following national Izimbizos took place during 2012/13:

→ Launch of Operation Festive Season at Jane Furse, Sekhukhune in Limpopo

→ Launch of Family Violence and Child Protection and Sexual Unit, Musina in Limpopo

→ Crime Awareness and Drug Abuse, Kwa Dlangeza, Mhlathuze in KZN

→ Campaign Against Crime, Bilanyoni Township- Dube Municipality in KZN

➢ The South African Banking Risk Information Centre (SABRIC) is a subsidiary of the Banking Association of South Africa and works closely with the SAPS. SABRIC and the SAPS initiated a project focussed on educating the community with regard to the latest developments concerning fraud and corruption activities, robberies and ATM-related fraud.

➢ In partnership with EDCON and Independent Newspapers (The Star), 24 mobile contact points were established by means of trailers which were donated by EDCON. The trailers are used as static or mobile contact points in order to enhance the visibility of the police.

➢ The crime reporting boards project is a collaborative effort between the SAPS and businesses and information pertaining to criminal activities, is gathered at local level. This is done through a post box to encourage the public to provide anonymous information regarding crime. There are currently 336 crime-reporting boards countrywide.

➢ The SAPS in partnership with the Departments of Home Affairs, Cooperative Governance and Traditional Affairs, Sport and Recreation South Africa, Arts and Culture and Social Development embarked on an awareness campaign to promote building peace and social cohesion during the Orange African Cup of Nations from 25 January 2013 to 10 March 2013. The objectives of the campaign included to: advocate peace and embrace diversity during the African Orange Cup of Nations (AFCON) games and thereafter to promote social integration between South African nationals and foreign nationals; and prepare the environment for amicable debates and meaningful inputs to a possible future national multi-stakeholder migration conference.

SUB-PROGRAMME: BORDER SECURITY

BORDERLINES

➢ Based on the 2009 Cabinet decision to make the function of borderline control the responsibility of the South African National Defence Force (SANDF) again, all borderline functions were handed over, except for two borderline bases, namely Upper Tugela and Himeville on the RSA and Lesotho borderline. The SANDF will possibly take over these functions in 2013/14.

PORTS OF ENTRY

➢ The SAPS is responsible for the control of the illegal/legal cross-border movement of all persons and goods at all the ports of entry. There are 72 ports in total of which 29 ports have a Movement Control System (MCS), including all the major ports with large numbers of people, vehicles and goods crossing the border and 43 ports have the Enhanced Movement Control system (EMCS). From 1 April 2012 to 31 March 2013, based
on screening hits generated by the Movement Control System, all 3 435 wanted persons and 3 331 stolen/robbed vehicles which information was circulated were reacted upon.

From 1 April 2012 to 31 March 2013 a total number of 3 880 planned crime prevention and combating actions were conducted at the ports of entry to enhance the national security and territorial integrity. Additionally, 3 578 roadblocks, 68 633 vehicle patrols, 285 air patrols, 109 454 foot patrols, 910 borderline patrols, 2 620 vessel patrols and 12 487 perimeter inspections were also conducted. These actions and day-to-day activities contributed to the successes achieved at ports of entry indicated in table 30.

Not all vehicles (mostly trucks carrying goods), containers and cargo entering and exiting ports of entry can be searched. Therefore, the personnel at the port of entry embarked on the profiling of some vehicles, containers and cargos whereby only selected ones are being searched. During the period under review a total number of 118 628 vehicles were profiled (mostly on land), 26 981 containers (sea) and 3 083 cargos (airports).

During the period under review a total number of 25 officials were arrested for corruption involved in 18 cases at Oliver Tambo International Airport, Durban harbour, and the Lebombo, Oshoek, Beit Bridge and Jeppe’s Reef border posts respectively. The 25 officials include eight SAPS members; three security officers; one ACSA security officer; one SARS official; seven immigration officers; one traffic officer; one Cross-Border Road Traffic Agency official; and three civilians. Six of these cases were withdrawn, and 12 cases are still pending.

SUB-PROGRAMME: SPECIALISED INTERVENTIONS

The responsibility to respond to and stabilise medium to high-risk incidents to enable normal policing to continue, falls under the broader specialised environment of the National Intervention Units (NIU), Special Task Force (STF), and the Public Order Policing (POP) Units.

A total of 15 654 incidents were attended to and successfully stabilised. These include 3 160 interventions by the NIU, 203 operations by the STF and 12 291 crowd management incidents.

NATIONAL INTERVENTION UNITS (NIU)

The NIU provides a rapid response capability for intervening in high-risk incidents where conventional policing has been compromised. It includes interventions dealing with serious and violent crime, the escorting of dangerous criminals, safeguarding VIPs and big events; and specialised operational assistance to police stations and other government departments.

There are four National Intervention Units in Cape Town, Durban, Mthatha and Pretoria. A total number of 577 members are deployed in the NIU environment, which includes 438 operational members (including operational support) and 139 rendering a generic support service.

During the period under review the NIU responded to and successfully policed and stabilised 3 160 incidents compared to 1 909 incidents in 2011/12, and includes 1 369 interventions dealing with serious and violent crime, 411 deployments to escourt dangerous criminals, 826 VIP and big events and 554 deployments to render specialised operational assistance to police stations and other government departments. 1 251 more requests were received and successfully policed compared to 2011/12. 445 arrests were made, 247 firearms and 3 779 rounds of ammunition were recovered, 55 vehicles, as well as cash to the value of R1 714 934,67 were confiscated.

SPECIAL TASK FORCE (STF)

The primary aim of these Units are to manage high-risk operations which require specialised skills, training and equipment such as hostage situations, acts of terror, organised crime, serious and violent crime incidents, crimes against women and children, protection and VIP assistance and search-and-rescue operations.

There are three Special Task Force Units, namely in Cape Town, Durban, and Pretoria. A total number of 201 members are deployed in the STF environment, which includes 124 operational members and 77 members rendering a support service.

During the period under review, 203 operations were successfully policed and stabilised by the STF. This include 25 hostage situations, 94 operations to stabilise acts of terror, organised crime, serious and violent
crime incidents and crimes against women and children, 77 protection and VIP assistance operations and seven search-and-rescue operations. 162 arrests were made, 37 firearms and 424 rounds of ammunition were recovered, as well as cash to the amount of R102 200,00.

**PUBLIC ORDER POLICING (POP)**

➢ Public Order Policing deals primarily with public order through crowd management, as well as the combating of crime in terms of section 205 (3) of the Constitution.

➢ There are 28 Public Order Policing Units countrywide. A total number of 4 563 members are deployed, which includes 4 314 operational members and 249 members rendering a support service. The nature of POP duties falls outside the scope of generic policing functions, therefore POP members are trained and equipped to effectively deal with situations that police officers, given their basic training and standard equipment, cannot deal with otherwise.

➢ During the period under review a total number of 12 399 crowd-related incidents were responded to and successfully stabilised. These include 10 517 peaceful incidents such as assemblies, gatherings and meetings; and 1 882 unrest-related incidents such as labour disputes, including the mining sector, dissatisfaction with service delivery by local municipalities, but also in the transport and education sectors. 3 680 arrests were made during the unrest-related incidents. The table below provides an overview of the number of crowd-related incidents during the past three financial years.

<table>
<thead>
<tr>
<th>Type of crowd-related incident</th>
<th>Number of crowd-related incidents 2010/11</th>
<th>Number of crowd-related incidents 2011/12</th>
<th>Number of crowd-related incidents 2012/13</th>
</tr>
</thead>
<tbody>
<tr>
<td>Peaceful incidents</td>
<td>11 660</td>
<td>10 744</td>
<td>10 517</td>
</tr>
<tr>
<td>Unrest-related incidents</td>
<td>971</td>
<td>1 194</td>
<td>1 882</td>
</tr>
<tr>
<td>Total</td>
<td>12 651</td>
<td>11 938</td>
<td>12 399</td>
</tr>
</tbody>
</table>

➢ From the above table it is evident that the number of crowd-related incidents increased with 461 from 11 938 in 2011/12 to 12 399 in 2012/13. The number of peaceful incidents decreased with 227 incidents from 10 744 in 2011/12 to 10 517 in 2012/13 but the number of unrest-related incidents increased with 688 incidents from 1 194 in 2011/12 to 1 882 in 2012/13.

➢ In view of the continued, violent protest action in the country, the JCPS cluster was tasked to put measures in place at both national and provincial level to deal with such incidents effectively. The National Joint Operational and Intelligence Structure (NATJOINTS) as the ‘operational’ arm of the JCPS cluster, was tasked to coordinate and monitor the management and investigation of these incidents countrywide twenty-four hours, seven days a week, in an effort to expedite the processing of these perpetrators through the Criminal Justice System (CJS).

➢ A structure was established to enhance the SAPS’ existing capacity to deal with public disorder situations. This structure comprises a number of divisions, including but not limited to Crime Intelligence and Protection Services, the Detective Service, the Forensic Service and the Directorate for Priority Crime Investigation (DPCI). This was further complimented by the establishment of a national reserve capacity in Pretoria with effect from 1 April 2013, to be deployed when required.

**MOBILE OPERATIONS**

➢ Mobile Operations is responsible for safeguarding valuable and/or dangerous government cargo, including material of monetary value or with considerable importance or quality, such as currency printing material, as well as cargo causing potential danger, risk or harm such as explosives and ammunition, nuclear material, firearms and drugs. A total of 169 cargos were safely delivered without security breaches.

**OTHER SPECIALISED INTERVENTIONS**

**SAPS AIR WING**

➢ The SAPS currently has 49 aircraft, which includes 37 helicopters and 12 fixed-wing aeroplanes. By the end of March 2013, SAPS had 51 pilots including 31 helicopter pilots, six fixed-wing pilots, 11 pilots flying both helicopters and fixed-wings and three student pilots who are currently in training.
A total of 6,564.3 hours were flown during 2012/13. This includes 5390.5 operational hours which were flown for crime-related matters such as call-outs (1022), crime prevention (771), planned operations (885) and assistance to the specialised forces (418). Call-outs included airborne assistance in incidents such as armed robberies, house robberies, hijacking, vehicle theft, stock theft, game theft, serious and violent crime investigations, unrest-related incidents and crowd control, operational support to other units, and search-and-rescue incidents. 173.8 hours were flown for communication flights (139), shows (27), training (293), and maintenance (300).

**EXTERNAL DEPLOYMENTS**

- The SAPS has been performing other specialised policing services to the SADC region and the continent.

- In fulfilment of Outcome 11 of the South African Government Delivery programmes which enhances the Africa Agenda and Sustainable Development, the SAPS has supported the advancement of South Africa’s position in deliberations about security and stability in the region and continent in various organs of the UN, AU and SADC through identified activities like rendering specialised policing services to AU member states. This, among other things, includes the deployment of members to Peace Missions in accordance with the mandated authority and approved cross-border operations.

- In line with the above, 57 members were deployed on the peace mission in Sudan, Darfur under the United Nations Security Council Resolution (1769). 15 members were deployed to South Sudan under the United Nations Security Council Resolution (1996) on a capacity-building programme in March 2012 and are expected to return in September 2013. A request was received for an additional 20 members and only seven members were considered for deployment as another group was to be deployed in the next financial year. In support of peace and security initiatives within the region, three members participated in the Southern African Development Community (SADC) Election Observer Mission in the Kingdom of Lesotho from 3 to 30 May 2012. In addition, six members participated in the SADC Election Observer Mission in Angola from 15 August to 3 September 2012, and five members attended the Constitutional referendum in Zimbabwe from 9 to 18 March 2013.

- In line with South African pledges towards sustainable peace and development and in accordance with the Cabinet approval, the SAPS has to develop and maintain members to be deployed in peace missions and, to date, 336 members have been trained and are on standby. In addition to the United Nations Police Basic Peacekeeping Training, the SAPS further coordinated the training of members for middle and senior management courses through the South African Peace Mission Training Centre (PMTC), the Regional Peacekeeping Training Centre in Harare Zimbabwe and a Train-the-Trainer course of the UN Formed Police in Gaborone, Botswana.

**TACTICAL RESPONSE TEAMS (TRT)**

- The TRT was officially established in April 2010 and their mandate includes providing an immediate tactical response capacity, including identified medium to high-risk threats such as trio crimes, farm attacks, ATM bombings, CIT heists, taxi violence and serious gang-related crimes; addressing crime through planned operations or specific requests within the province, including tactical operational support to the Directorate for Priority Crime Investigation, detectives, crime intelligence, tracking teams, stock theft units, K9 units and other government departments; providing assistance in terms of legislation by means of tactical operational support during events and support during crowd management situations; and escorting dangerous prisoners and valuable and or dangerous cargo.

- There are currently 40 TRT units in the nine provinces, including nine in Gauteng, nine in KwaZulu-Natal, seven in the Western Cape, four in North West, three each in Limpopo and the Eastern Cape, two each in the Free State and Mpumalanga and one in the Northern Cape. A total number of 1,550 members are deployed in the TRT environment.

- During the period under review, TRT units provided protection to 423 cargos, escorted 276 dangerous prisoners, assisted during 326 crowd management-related incidents and provided assistance to other units in 984 instances. 3,332 arrests were made during the period under review, including 855 arrests for contact crimes. Some illicit drugs such as Cannabis, Cocaine, Crystal Meth (Tik-Tik), Ecstasy, Heroin, LSD and Mandrax were seized and 449 firearms and 212 vehicles were recovered.
Tracking Teams

➢ The SAPS launched the tracking teams on 14 September 2011 as a response to the large number of wanted suspects, positively linked to crimes that could not be detected otherwise by investigating officers. The tracking teams deal with the arrest of the most wanted suspects and provide assistance to investigation units such as the DPCI, to apprehend dangerous and high-profile suspects. In order to restrict their movements, the details of these wanted persons are also circulated on the Electronic Movement Control System (EMCS) implemented at ports of entry and exit.

➢ During the period under review, six new tracking teams have been established at provincial level in Limpopo, the Eastern Cape, the Free State, North West, KwaZulu-Natal and Mpumalanga. Tracking teams are now established in all nine provinces.

➢ A total number of 940 suspects wanted for serious and violent crimes have been traced and arrested during 2012/13, including but not limited to, murder, aggravated robbery, ATM-bombings and sexual-related offences.

National Operational Coordination

➢ During the period under review, the National Joint Operational and Intelligence Structure (NATJOINTS) in which the SAPS plays a critical role, managed the planning, coordination and executing of 18 national and local operations, as well as 74 events in terms of the Safety at Sports and Recreational Events Act, 2010 (Act No. 2 of 2010) and 13 Cabinet-approved major events.

➢ Some of the national and regional operations include:

→ Operation Rhino (specialised interdepartmental intervention in the Kruger National Park by the special forces)

→ Operation African Diaspora or the African DIASPORA Summit that was held in the International Convention Centre in Sandton on 25 May 2012. South Africa was host to 21 heads of State and 58 ministers. 1 025 SAPS members were deployed during the event

→ Operation Duty Calls focusing on the safeguarding of the community during the festive season from 15 October 2012 (pre-holiday season) to 31 January 2013 (post-holiday season) and managed and coordinated through the NATJOINTS as well as all the Provincial JOINTS

→ Operation Big Wave (focusing on the combating of crimes such as trio crimes in and around Pretoria (Pretoria Central, Wierdabrug, Sunnyside and Pretoria West) for the period ending 30 April 2012

→ 14 operations were executed under Operation Lungisa from 1 June 2012 to 28 December 2012 and the deployment included SAPS members from Operational Response Services, Visible Policing, Detective Service, Protection and Security Service, Diplomatic Policing Unit as well as Customs Divisions

➢ The events in terms of the Safety at Sports and Recreational Events Act, 2010 (Act No. 2 of 2010) included, among other things-

→ Human Rights Day celebration, Mbekweni Paarl, 21 March 2013

→ Bafana Bafana vs Malawi, Moses Mabhida Stadium, 22 December 2012

→ T20 Cricket SA vs New Zealand, Sahara Kingsmead Stadium, Durban, 21 December 2012

→ Nedbank Golf Challenge, Sun City North West, 29 November 2012

→ Mangaung Cultural Festival, Bloemfontein, 5-14 October 2012

→ Freedom Day celebration, Union Building, 27 April 2012

➢ The Cabinet-approved major events included:

→ ANC Centenary monthly celebrations
Robert W. Nelson

104

Annual Report 2012/13

→ 53rd All-African Congress on Environmental Health in November 2012

→ ANC Conference in Mangaung in December 2012

→ African Orange Cup of Nations (AFCON) in January and February 2013 hosted in South Africa from 19 January 2013 to 10 February 2013 after the tournament was moved from Libya due to civil unrest in that country. The tournament was hosted in five host cities and involved 16 teams from Africa, including South Africa. South Africa was able to successfully host this event without any serious incidents occurring.

→ Brazil, Russia, India, China, South Africa (BRICS) Summit in March 2013.

STRATEGIES TO OVERCOME AREAS OF UNDER-PERFORMANCE

The SAPS under-performed in the following areas relating to Programme 2: Visible Policing:

➢ The recovery of stolen and robbed vehicles
➢ Escapes from police custody
➢ The rendering of a victim-friendly service at police stations and service points.

The following strategies have been/will be implemented to address the under-performance:

The recovery of stolen and robbed vehicles

The SAPS will continue to increase and improve police actions to prevent the theft of vehicles, and will conduct operations to recover stolen/robbed vehicles, including increased visibility, roadblocks, tracing of wanted persons, enhanced circulation of stolen/robbed vehicles and enhanced control at ports of entry.

Escapes from police custody

The maintenance of a database to record each incident of escape is still a manual system. The tender for a computerised detention management system was published by SITA during 2012/13, and it is foreseen that a successful bidder will be appointed in 2013/14 whereby the detention management system will be implemented at all police stations and courts during a five year period. The system includes the verification of persons in SAPS custody and the member responsible for a specific person in custody by means of biometric devices and other system applications. This will ensure improved control over persons in SAPS custody and will enhance the compliance aspects to ensure that persons in custody are visited as prescribed by the relevant instructions.

Apart from the above, each police station where more than one escape incident occurred or where more than one person escaped, will be visited by a person with subject matter experience. During these visits corrective measures will be instituted and further recommendations will be reported to provincial, cluster and station management. Facility management aspects will receive attention in accordance with the priorities and availability of funds.

The rendering of a victim-friendly service at police stations and service points

The rendering of a victim friendly service will be improved by issuing the revised National Instruction for Victim Empowerment 2/2012 to instruct members to render the prescribed victim-friendly services; conducting capacity-building sessions with identified provincial coordinators and station commanders to ensure that the revised instruction is understood; coordinating the process of the provisioning of park homes; and the provisioning of a toolkit consisting of guidelines, instructions, minimum standards, process flow and a checklist to comply with instructions.

Improved reporting will be pursued through the establishment of a guideline relating to the reporting prescripts; the utilisation of the existing national forum of provincial coordinators to ensure a common understanding of reporting requirements; and the analysis of quarterly reports received from provinces to identify shortcomings and challenges.

Existing Victim Friendly Rooms (VFRs) will be sustained through the development of a plan in collaboration...
with Supply Chain Management, to replace VFRs situated in temporary structures that have been damaged or deteriorated; to provide new VFRs with furniture according to the minimum standards; and to address the lack of space at some police stations to create a VFR.

Training will be improved through the amendment of training modules according to the prescripts of the revised National Instruction; ensuring that relevant learning programmes are included in the national Training Provision Plan; interventions in training deficiencies; and encouragement of provincial offices to provide for training programmes in their training provision plans.

**CHANGES TO PLANNED TARGETS**

There were no changes to planned targets for 2012/13.

5.3 PROGRAMME 3: DETECTIVE SERVICE

Purpose: Enable the investigative work of the SAPS, including providing support to investigators in terms of forensic evidence and the Criminal Record Centre.

Strategic Objectives: Contribute to the successful prosecution of crime, by investigating, gathering and analysing evidence, thereby increasing the detection rate of priority crime.

The Detective Services Programme comprises the following four subprogrammes:

➢ Crime Investigations
➢ Specialised Investigations
➢ Criminal Record Centre
➢ Forensic Science Laboratory
**KEY PERFORMANCE MEASURES, TARGETS AND ACTUAL RESULTS**

SERVICES DELIVERY ACHIEVEMENTS

SUB-PROGRAMME: CRIME INVESTIGATION

➢ As a means to evaluate the performance of the SAPS in solving crime, three criteria are used, i.e. the detection rate (the ability to solve cases), the court-ready docket rate and the conviction rate. Table 32 reflects the detection rate and court-ready docket rate achieved from 1 April 2012 to 31 March 2013 regarding contact crimes, property crimes and crimes dependent on police action for detection.

➢ For ease of interpretation:

→ The number of charges reported reflects the number of charges that were reported at the police stations in respect of the above-mentioned crimes. These figures were drawn from the Crime Management Information System (CMIS), which is a live system that is continuously being updated.

→ The charges carried forward are the number of charges that were carried forward from the previous year and where the investigation is still pending.

→ The total number of charges that were investigated, is determined by the number of charges reported (new charges), as well as charges that are still pending from previous financial years (charges that are still being investigated).

→ Charges withdrawn in court are charges which, for example, had been sent to the Senior Public Prosecutor for a decision to be made on prosecution, and then a decision was made not to prosecute. Considerable reasons for this decision may be that-

→ the victim did not want to continue with the case

→ there was no sufficient evidence to continue

→ the suspect had acted in self-defence

→ the Prosecutor is of the opinion that the crime is trivial in nature

→ the Prosecutor is of the opinion that there are no prospects of a successful prosecution.

→ Charges are closed as unfounded if it is established in the course of the investigation, that a crime had not actually been committed. For example, a cellular phone was initially reported stolen, but was later recovered by the owner inside a cabinet in the house or a lawnmower that had been reported stolen, was later discovered as having been borrowed by the complainant’s brother, who forgot to remind the complainant about this arrangement.

→ The total number of complaints outstanding in court, refers to cases that are still on the court roll, but had not yet been finalised.

➢ The detection rate means that a crime has been reported, was recorded on the Crime Administration System, was investigated and sufficient evidence was collected to arrest and indict the identified suspect before a court of law. The detection rate also refers to charges referred to court for prosecution, charges in which the NPA declines to prosecute for whatever reason, and charges investigated and found to be unfounded. The calculation for the detection rate is the total number of charges referred to court added to charges withdrawn before court, plus charges closed as unfounded divided by the total number of charges investigated.

➢ A court-ready docket is a fully-investigated case docket (whether it includes one or more charges) which can be utilised by the NPA for the prosecution of an offender. A fully-investigated case docket suggests that there is no outstanding information which requires further investigation by a detective and that all evidence (e.g. statements, DNA evidence, etc.) has been obtained (trial ready). To determine the court-ready rate, the total number of case docketed certified as “investigation finalised” on the Crime Administration System (CAS) are divided by the total number of outstanding charges.

➢ The conviction rate relates to the provision of a fully-investigated case docket which the Senior Public Prosecutor used in a trial in court, and where the accused was found guilty and convicted. The conviction
rate is determined by the number of charges resulting in a guilty verdict, divided by the sum of the guilty and not guilty verdicts.

OVERALL SERIOUS CRIME

➢ The detection rate for all serious crime increased marginally by 0.78%, from 53.41% in 2011/12 to 54.19% in 2012/13, but when comparing this achievement with the set target of 55% for 2012/13, a decrease of 0.81% was noted. This discrepancy must be interpreted against the raw figure of the planned target, which was 1 066 859. The actual achievement was 1 145 978, i.e. 79 119 more cases were solved in 2012/13.

➢ The court-ready docket rate increased by 13.14%, from 48.17% in 2011/12 to 61.31% in 2012/13.

➢ When comparing the actual achievement of the conviction rate (88.24%) with that of the set target of 88.50% for 2012/13, a slight decrease of 0.26% was noted, but when the actual results of the two financial years are compared, a notable increase of 2.05% was indicated, from 86.19% in 2011/12 to 88.24% in 2012/13.

CONTACT CRIMES (CRIMES AGAINST PERSONS)

➢ From the table below, it is evident that the total number of charges reported decreased with 3 275 (-0.53%) in comparison with the same period in the 2011/12 financial year. The biggest increase in reported charges was in respect of attempted murder with 1 504 (10.12%) and sexual offences with 4 845 (8.32%).

➢ When comparing the detection rate with 2011/12, it increased with 1.43% from 60.66% to 62.09%. The increase in the detection rate is slightly bigger when the actual achievement for 2012/13 is compared against the set target for 2012/13 (60.09%), namely an increase of 2.09%. Sexual Offences indicated the biggest increase with 15.94%.

➢ The court-ready docket rate increased with 11.60% from 50.23% in 2011/12 to 61.83% in 2012/13. There is an even bigger increase in the court-ready docket rate when the actual achievement of 2012/13 is compared against the set target for 2012/13 (37.24%), namely an increase of 24.59%. The biggest increase was in respect of aggravated robbery with 21.44%, followed by attempted murder with 18.28%, common robbery with 12.66% and common assault with 11.22% respectively.

➢ The conviction rate increased marginally with 0.61% to 79.6% between 2011/12 and 2012/13. Sexual offences increased the most by 12.39%. The conviction rate for aggravated robberies, however, decreased by 4.36%.

CONTACT-RELATED CRIMES

➢ 1 462 (-1.14%) less charges were reported to the police in comparison with the same period in the 2011/12 financial year. The biggest decrease in reported charges was in respect of malicious damage to property with 201 (-0.91%) lesser charges.

➢ The detection rate increased with 1.26% to 50.01%. The detection rate for arson increased by 2.35% and for malicious damage to property 1.19%.

➢ The court-ready docket rate increased with 18.19% to 65.14%. The biggest increases were in respect of malicious damage to property with 18.56%, followed by arson with 13.25%.

➢ The conviction rate increased with 1.06% to 84.59%.

PROPERTY-RELATED CRIME

➢ 27 572 (5.14%) more charges were reported to the police in comparison with the same period in the 2011/12 financial year. The biggest increase in reported charges was in respect of theft out of/from motor vehicle with 9 183 (7.04%) more charges, followed by residential burglary with 16 582 (6.75%) and non-residential burglary with 3 589 (5.12%) more charges.

➢ The detection rate increased with 0.08% to 16.97%. The detection rate for stock theft increased by 1.63%.

➢ The court-ready docket rate increased with 8.63% to 64.06%. The biggest increases were in respect of theft of motor vehicle with 13.49%, followed by theft out of/from motor vehicles with 12.47%. Marginal increases were
noted in all other crimes.

➢ The conviction rate increased with 0.95% to 85.61%. The conviction rate for theft of motor vehicles increased by 2.01%, theft out/from motor vehicle by 1.48%, and stock theft by 1.35%.

**CRIMES DEPENDENT ON POLICE ACTION**

➢ 32 553 (12.51%) more charges were reported in comparison with the same period in the previous financial year 2011/12. The biggest increase in reported charges was in respect of drug-related crimes, with 30 518 (17.31%) more charges.

➢ The conviction rate increased with 0.44% to 99.95%. Driving under the influence indicated the biggest increase of 0.76%.

➢ The court-ready docket rate increased with 12.11% to 53.69%. The biggest increases were in respect of illegal possession with 28.98%.

➢ The conviction rate increased by 6.45% to 96.67%. Illegal possession increased the most, although marginally, by 0.99%. The conviction rate for driving under the influence decreased by 1.03%.

**OTHER SERIOUS CRIME**

➢ Other crimes include theft (other), fraud, and shoplifting. 11 636 (-2.17) less charges were reported to the police in comparison with the same period in the 2011/12 financial year. The biggest increase in reported charges was in respect of fraud with 3 519 (4.00%) more charges.

➢ The detection rate increased with 0.69% to 41.93%. The detection rate for fraud increased by 2.08%.

➢ The court-ready docket rate increased with 11.50% to 61.86%. The court-ready docket rate for fraud increased the most, with 23.47%.

➢ The conviction rate increased with 1.18% to 94.73%. The biggest increase was in respect of theft other with 1.55%.

**TRIO CRIME**

➢ Trio crime includes carjacking, business robbery and house robbery. 2 125 (5.04%) more charges were reported to the police in comparison with the same period in the 2011/12 financial year.

➢ The detection rate for trio crimes increased with 2.04% to 23.02%. The court-ready docket rate increased with 10.37% to 67.06% and the conviction rate increased with 1.61% to 71.66%.

Annual Report 2012/13


DETECTION RATE, COURT-READY RATE AND CONVICTION RATE FOR CRIMES AGAINST WOMEN AND CHILDREN.

CRIMES AGAINST PERSONS YOUNGER THAN 18 YEARS: CHILDREN

- Figures pertaining to some contact crimes against women (18 years and older) and children (under 18 years) which often occur in the domestic/family environment, are also provided. It is clear from table 33 that 46.00% of all reported sexual offences; 12.40% of all reported common assault and 15.00% of all reported assault GBH, was committed against children. A further 24.60% and 26.70% of reported attempted murders and murders respectively, were committed against children.

- From table 34 it is evident that the total number of charges reported decreased by 1 970 (-3.89%) in comparison with the same period in the 2011/12 financial year. This is notable in respect of all crimes, except for attempted murder which had increased by 14.78% and murder by 4.29%.

- When comparing the actual achievements for detection for 2012/13 (70.94%) with the set target of 77.42%, the target was not achieved. However, when comparing the actual achievement of 2012/13 with that of 2011/12 (69.71%), there is an increase of 1.23%. Sexual offences increased by 12.78% and murder by 8.84%.

- The court-ready docket rate increased with 6.78%. Cumulative increases were noted in all crimes with attempted murder showing the biggest increase of 8.71%.

- The conviction rate decreased with 3.54%, for all crimes, except in the case of attempted murder which increased by 3.74% and sexual offences by 2.11%.

Detective work results in convictions and harsh sentences for child rapists

Rape is a crime that requires the police to act swiftly in their investigation to gather the necessary evidence that will lead to convictions, once a case has been reported. The following are but a few of the successes that the Department cites as a result of thorough investigations and commitment by SAPS detectives, which are testimony to the harsh sentences that were handed down to child rapists:

- Baby Rapist Gets Jail Life Sentence: A baby rapist was handed a life sentence by the High Court for raping Baba Hoop.
- Dance teacher gets life for raping girls: A Khayelitsha dance teacher will serve three life sentences for raping girls. Three life terms for dance teacher: Dance teacher was sentenced for rape.
- Father who raped daughter, jailed for life: A KwaMakhutha father has been sentenced to life imprisonment for raping his daughter repeatedly over a period of five years.
- Dad who raped his kid gets nine life terms: A court has rejected the appeal of a ‘priest’ who was found guilty on nine counts of rape.

CRIMES AGAINST PERSONS OLDER THAN 18 YEARS: WOMEN

- Fifty-four percent of all reported sexual offences; 87.6% of all incidents of common assault reported and 85% of all reported assault GBH were committed against women. A further 75.4% and 73.3% of reported attempted murders and murders respectively were committed against women.

- From table 33 it is evident that the total number of charges reported decreased by 6 958 (-3.85%) in comparison with the same period in the 2011/12 financial year. Attempted murder increased by 10.55%.

- The detection rate decreased with -7.29% to 68.47%. Marginal decreases were noted for all crimes, except for sexual offences which substantially increased by 14.09%.

- The court-ready docket rate increased by 8.13% to 61.72%. Common assault increased the most by 9.26%. Cumulative marginal increases were noted for all the other crimes.

- With regard to the conviction rate, it increased with 3.33% to 83.18%. Sexual offences increased by 2.73% and murder by 1%.

**ANNUAL REPORT 2012/13**
STRATEGIC ALIGNMENT

• The Minister of Police declared the 2012/13 financial year as “THE YEAR OF THE DETECTIVE”. As part of enhancing the Detective Service, an overall strategy was agreed upon by the leadership of Crime Detection. This strategy is supported by the following ten pillars:

  ➔ Human Resources
  ➔ Physical Resources
  ➔ Enabling Structures
  ➔ Command and Control
  ➔ Communication
  ➔ Tracing of Wanted Persons
  ➔ Intelligence-led Policing (Informers)
  ➔ Case Docket Management
  ➔ Performance Management

• Alignment with these ten pillars has culminated in the Detective Service embarking on the path detailed below:

HUMAN RESOURCES

One of the areas that constantly requires intervention, is the capacitating of the Detective Service. Appreciating that a crucial asset in the fight against crime is human resources, the Department invested in capacity building, resulting in the following:

During 2012/13 the number of detectives increased from 23 701 to 25 844 in comparison to 2011/12 (8.29%) and are deployed as follows:

• General Detectives at station level = 20 533
• General Detectives at cluster station level = 341
• Specialised investigations geographically placed at units within provinces (Family Violence, Child Protection and Sexual Offences (FCS), Stock Theft, and Vehicle Identification Section (VIS)) = 4 333
• Detectives on provincial level = 481
• Detectives at divisional level = 156
• Included in the above figures are commanders and detectives working in the Detective Service Centres (2 419 commanders and 3 037 detectives in the Detective Service centres).

There are 3 151 Public Service Act personnel in support of the Detective Service, and are deployed as follows:

• Station level = 2 026
• Cluster station level = 9
• Specialised investigation units geographically within provinces (FCS, Stock Theft, VIS) = 858
• Provincial level = 106
• Divisional level = 152
PHYSICAL RESOURCES

➢ Given that the dynamics of crime is ever changing, and further influenced by technological development, there is a need for the Detective Service to redefine its approach, strategies and systems in the investigation of crime, to stay abreast of criminals.

➢ The speed of administrative duties with backup, access to information for investigative research and enhanced communication capabilities to amplify a collaborative investigation network without impinging on mobility, resulted in laptops being procured. The ability to access crime scenes, often in areas with rough terrain resulted in the need for further vehicle acquisitions. The security of dockets was enhanced by the purchasing of steel cabinets to provide lockable storage facilities. The lack of cold storage devices for the preservation and transportation of forensic evidence, resulted in suitable storage devices being procured. In view of the above, the following resources were purchased from the Criminal Justice System (CJS’s) budget:

   → Laptops : 21 786
   → Vehicles : 434
   → Steel cabinets : 10 500
   → Cooler boxes : 1 129
   → Fridges : 569
   → Chest freezers : 43

ENABLING STRUCTURES

➢ Prior to the reintroduction of the FCS, there were 66 units in all nine provinces with a workforce of 1 100. A turnaround strategy by the Minister to address this heinous crime committed against women and children resulted in 176 FCS units being established at cluster levels. The Department further invested in Human Capital resulting in a current workforce of 2 238 members.

➢ To give further impetus to the investigation of crimes of this nature, 72 Forensic Social Workers were appointed to assist in cases of child sexual abuse by means of conducting forensic assessments, compiling court reports and providing expert evidence in court. Needless to say, the turnaround strategy resulted in a remarkable increase in life sentences being secured. Notably over the past three years 1 194 life sentences were secured, i.e. 306 in 2010/11; 389 in 2011/12 and 499 in 2012/13.

➢ Notwithstanding the above, the Department acknowledges the sensitivity associated with the investigation of these crimes, and has therefore embarked on the screening of personnel prior to being enlisted in the unit. The purpose of this exercise is to prevent the enlistment of personnel with a history of sexually-related offences. Table 34 outlines the geographical placement of the FCS Units.

The Detective Service Centres (DSCs) are an important interface in the frontline service delivery chain providing a twenty-four hour, seven days a week service thereby improving response times to reported cases and crime scenes. It further eliminates the time lapse in tracing and arresting known suspects. To date, 338 Detective Service Centres have been implemented, and recently been equipped with marked vehicles. Table 36 indicates a breakdown of the DSCs in the provinces.

In an effort to enhance quality assurance, 142 Detective Court Case Officers were appointed and placed at High Courts, Regional Courts and Magistrates Courts where large volumes of cases are dealt with. Their main function is to screen new court cases for completeness, to ensure that court dockets are brought to court at least two days before the court date, and to ensure that investigating officers comply with the instructions of public prosecutors in time. Table 37 provides an overview of the number of Detective Court Case Officers per province:

Bilateral stock theft operations were held in the 2012/13 financial year with Zimbabwe, Mozambique, Swaziland and Lesotho. In the reporting period the following successes were achieved:

- 435 head of cattle, 24 horses, 46 goats, 98 sheep and one bull were returned to their lawful owners
- 30 people were arrested during these operations
- One 9 mm Norinco firearm with seven rounds, was seized

There are currently 51 Vehicle Identification Sections countrywide. The geographical placement of Vehicle Identification Sections are depicted in table 40. The functions of these sections include:

- Vehicle identification and investigation
- Issuing of South African Police vehicle identification numbers
- Controlling of all SAPS vehicle clearance offices
- Controlling of all unique marking of vehicles
- Activities relating to the registration of vehicle manufactures, importers and builders
- Concluding investigations into vehicles forfeited to the State
- Assisting local Detective Units with Interpol vehicle enquiries

In pursuance of Resolution 6 on Joint Operations adopted at the Southern African Regional Police Chiefs Cooperation Organisation (SARPCCO) workshop held in 1996, the Cross-Border Operations Unit was established. The primar function of the unit is to conduct joint operations, simultaneous and bilateral operations in the SARPCCO region and disruptive operations in the RSA. SARPCCO operations are conducted in terms of SARPCCO Resolutions.

During the reporting period two joint simultaneous cross-border operations were conducted with neighbouring countries. These countries include the RSA, Zimbabwe, Namibia, Botswana, Malawi, Tanzania and Zambia. Some of the successes achieved in the reporting period, include the recovery of 34 stolen vehicles, carcasses of animals, 14 firearms and 110 rounds of ammunition were seized. Counterfeit products and medical drugs were among the items confiscated. Drugs such as Heroine tablets, Crysul Meth (Tik-Tik), Crack, Whoonga, and Nyaope, were also seized. 764 persons were arrested and include arrests for undocumented persons; driving without a licence; driving unlicenced vehicles; trading without a licence; working without a permit; employing non-citizens; aiding and abetting; custom-related offences; possession of cannabis; possession of unlicensed firearms; illicit drug trafficking; and possession of counterfeit products.

Two Bilateral Vehicle Operations between South Africa and Lesotho and South Africa and Mozambique, were also conducted.

During the operation between South Africa and Lesotho, 187 RSA vehicles were identified and returned.
to South Africa. An additional 182 RSA vehicles were identified and authorisation from the Lesotho Mounted Police Service (LMPS) is awaited to release the vehicles.

36 stolen South African vehicles were recovered and 32 vehicles were returned to the RSA. Four court decisions for operations between South Africa and Mozambique are pending.

The Bureau for Missing Persons provides support in the tracing of missing/wanted/unidentified persons. During 2012/13, the Bureau circulated the details of 971 missing/unidentified persons, placed the information of 313 missing and 59 wanted persons on the Internet and facilitated broadcasting of information on 1 397 and 65 wanted persons in the printed media. They organised five events/awareness campaigns with a total attendance of approximately 13 550 people, to sensitise the general public when dealing with missing persons and to entice them to come forward with information on wanted/missing persons. As a result of all of the above, 602 missing persons were found and 45 suspects arrested.

Crime Stop is a call centre responsible for collecting information/intelligence on criminal activity from the public. When phoning 08600 10111, members of the public are assisted by trained interviewing specialists to pass on information about criminal activity to the SAPS. Informants may remain anonymous. From 1 April 2012 to 31 March 2013, the call centre received 151 505 calls and 1 459 web tips compared to 88 985 calls and 845 web tips in 2011/12. These calls and web tips led to 182 positive cases. As a result, 240 arrests were effected and goods to the value of R3 387 947.00 were seized.

The partnership between the Primedia Group and the SAPS that was launched in June 2007, provides members of the community with a platform to blow the whistle on crime by reporting it anonymously via SMS to the number 32211 or by reporting it on the website www.crimeine.co.za. This information is passed electronically to the SAPS’s Crime Stop office, from where it is disseminated to nodal points in each province. From 1 April 2012 to 31 March 2013, 2 101 SMS tips and 1 285 web tips were received, and led to 150 positive cases. 241 arrests were effected and goods to the value of R3 782 887.00 were seized as a result of this partnership.

During 2012/13 Crime Stoppers SA received three media awards at the 33rd Annual Crime Stoppers International Conference held in Las Vegas, Nevada. Crime Line won the Best Radio Special Report/Feature Awards in the print (radio and television categories) including the 2012 ATM bombing campaign. Crime Line was also lauded in the television category for SHOUT’s “You’re the Voice” music video campaign.

A Detective Commander’s manual was compiled as an operational tool to assist commanders with case docket administration and performance management. The manual further seeks to enhance self-discipline and leadership to support command and control. The manual is displayed on SAPS intranet for easy access.

The Crime Investigation Manual was finalised and displayed on the SAPS intranet for easy access. The manual was also circulated to the provinces for utilisation.

Monitoring and evaluation through inspections is continued to ensure effective command and control.

Stations that are not achieving their targets, are identified and interventions are implemented to assist such stations. A total of 253 interventions were conducted in the various provinces at stations performing poorly.

Failure to provide feedback to complainants during the investigation process, remains the highest generator of complaints against the police. The current system makes provision for feedback to be provided through written responses and SMSs. The Department has acknowledged that there is a need to improve its communication, and is looking at ways of improving it.

In an endeavour to improve the detection rate, the SAPS has invited public participation by publishing the photographs of wanted suspects in the media and through internal broadcasting.

The SAPS maintains a database on wanted persons that includes persons for whom a warrant of arrest
was issued, as well as suspects identified from crime scene investigations. On 31 March 2013, the details of a total number of 177 757 wanted persons were circulated on the database. During 2012/13, there was a need to intensify the tracing of these suspects and purify the database to ensure that, for example, persons arrested are found to be deceased are no longer reflected on the database. During the purification process, a total number of 58 107 persons’ details were cancelled and a total number of 22 912 new circulations were created. Table 41 explains the circulation and cancellation of wanted persons per province.

### Intelligence-led Policing

➢ The investigation of crime is dependent on many factors and often the role of informers in solving crime is of paramount importance. By the end of March 2013, the SAPS had a large number of registered informers, who assist in solving crime.

### Case Docket Management

➢ At the Detective Service Quarterly Performance Reviews, specific focus is put on reducing the number of dockets being closed as undetected. The Provincial Heads are required to account for the reasons of closure of dockets as undetected. It is for this reason that regular operations are conducted to trace the wanted suspects.

➢ The loss and or theft of dockets remain a concern for the SAPS. In order to address this matter, the SAPS continues with the process of monitoring and addressing such losses and or thefts. Table 42 provides an overview of the status of dockets lost or stolen.

<td>• Three counts of murder • Robbery with aggravating circumstances • Two counts of unlawful possession of firearms</td>
<td>The victim, a 50-year-old female, was attacked and shot at her residence. Linked to this case followed the murder of a 66-year-old male and his 46-year-old girlfriend. The two cases were analysed and it was established that the first case was a revenge attack for suspected witchcraft, whereas the second incident was the revenge killing of the suspect in the first killing.</td>
<td>• Sentenced to two life imprisonment sentences for murder, • 15 years, imprisonment for murder, • 15 years for robbery with aggravating circumstances, • Eight years for unlawful possession of a firearm.</td>
</tr>
<tr>
<td></td>
<td>• Rape</td>
<td>The victim, a 12-year-old child, was raped several times by her consanguineously related uncle with whom she lived.</td>
<td>Sentenced to life imprisonment</td>
</tr>
<tr>
<td>KwaZulu-Natal</td>
<td>• Murder • Rape • Arson</td>
<td>In April 2012 the house of the partners who stayed together, was found on fire by residents of the complex. The male partner (accused) arrived at the scene of crime under the influence of liquor, while the girlfriend could not be traced. The charred remains of a human being that was later identified as the girlfriend of the accused, was found on a mattress away from the crime scene. It was found that the victim had been badly beaten before being set alight by the accused. It was further revealed that the accused had brutally raped his ten-year-old daughter, who was six years old at the time of the incident. The daughter had to undergo two operations to repair injuries caused by the rape.</td>
<td>Sentenced to life imprisonment for murder and rape. Sentenced to 15 years, imprisonment for arson.</td>
</tr>
<tr>
<td>Mpumalanga</td>
<td>• Rape • Murder • Attempted Murder • Kidnapping • Robbery with aggravating circumstances.</td>
<td>A gang of three males terrorised the community in Witbank by kidnapping their victims and brutally attacking them with axes. The victims were robbed and the females repeatedly raped by all three attackers. One of the female victims was also murdered. Three suspects were arrested and charged on 43 counts of murder, rape, kidnapping, robbery with aggravating circumstances and attempted murder.</td>
<td>Accused 1: Sentenced to five life sentences plus 80 years, imprisonment. Accused 2: Sentenced to two life sentences plus 35 years, imprisonment. Accused 3: Sentenced to five life sentences plus 100 years, imprisonment.</td>
</tr>
<tr>
<td></td>
<td>• Rape • Sexual assault • Kidnapping • Contravention of a protection order</td>
<td>The accused kidnapped his 13-year-old stepdaughter from school, and raped her. He was arrested and charged.</td>
<td>Sentenced to two life sentences, five years for kidnapping, 12 months imprisonment for indecent assault and six months for contravening a protection order.</td>
</tr>
<tr>
<td>Limpopo</td>
<td>• Rape • Robbery</td>
<td>A serial rapist reigned in the Makhado cluster. The modus operandi of the perpetrator was to attack women who were alone in the bush collecting firewood, or alone at home.</td>
<td>Sentenced to five life sentences.</td>
</tr>
<tr>
<td></td>
<td>• Rape</td>
<td>A serial rapist operated in the Mokopane area preying on women who walked alone, by luring them into the bushes where he would rape them.</td>
<td>Sentenced to 11 life sentences.</td>
</tr>
<tr>
<td></td>
<td>• Rape</td>
<td>A serial rapist operated in the Hlanganani area where he would follow his victims to the maize field, and rape them. He was pointed out during an identification parade, and further linked through DNA.</td>
<td>Sentenced to 5 life sentences.</td>

<tr>
<td></td>
<td>Rape</td>
<td>A serial rapist operated in the East London vicinity. On 19 December 2010 the body of a 19-year-old female was found in an open field with her body half naked, and also appeared to have been strangled. The victim’s boyfriend claimed that they had been attacked by four males and that he had managed to escape. On 2011-03-10, the body of a 23 year old female was found naked and also appearing to be strangled. The suspect claimed he had spotted the victim whilst relieving himself. On 29 June 2011, the body of a 25-year-old female was found half naked. On 11 April 2012, the body of a female was found half naked with face injuries and scratch marks on her neck. In another incident, a male died as a result of stab wounds. A description of the suspect was given, and it led to his arrest. The suspect was linked to the cases through pointing outs and DNA comparisons.</td>
<td>Sentenced to seven life sentences and 30 years, imprisonment.</td>
</tr>

SUB-PROGRAMME: SPECIALISED INVESTIGATION

The Directorate of Priority Crime Investigation (DPCI) has identified commodities based on the threat assessment to identify and conduct project investigations in addressing national priority offences. During the reporting period the Serious Organised Crime Unit arrested 1 256 persons and convicted 523.

SERIOUS ORGANISED CRIME

PRECIOUS METALS AND DIAMONDS

During the 2012/13 financial year the number of individuals arrested for the illegal purchase, theft and possession of uncut diamonds and unwrought precious metals was 198, in addition to the 314 arrests made in 2011/12. From the number of arrested persons, 71 were convicted.

NARCOTICS

For the reporting period 334 arrests were made for the possession of narcotics, compared to 481 arrests in 2011/12. The monetary value related to the arrests was R95 181 942.94. Four suspects were also arrested for possession of equipment and chemicals used for the manufacturing of Mandrax tablets. Upon the seizure of these items, it was determined that the chemicals (according to the forensic laboratory) were sufficient to manufacture 16 million Mandrax tablets with a street value of R241 million. All four accused pleaded guilty and were sentenced to 15 years, imprisonment, of which seven were suspended.

The investigation of serious organised crime led to the confiscation of 2 077 997 kg of Cannabis, 9103 176 kg of Heroin, 114 613 kg of CAT, 25 487 kg of Cocaine, 2 545 400 Mandrax tablets, 5 331 Ecstasy tablets, 69 626 kg of Crystal Meth (Tik-Tik), 0.079 kg of Nyaope and 20.007 kg of LSD. 41 clandestine drug laboratories with an estimated value of R300 000.00 each were dismantled.

ILICIT MINING

In order to address the issue of illicit mining, a four-year operational plan (2012-2014) has been developed and approved by all principles of relevant departments. The objectives of the plan are as follows:

➢ Aligning and coordinating government’s efforts in combating illegal mining and trafficking of precious metals
➢ Preventing, investigating and successfully prosecuting cases of illegal mining and the transnational trafficking of precious metals across the value chain
➢ Addressing policy issues relating to legislative reform
➢ Implementing a regional and international strategy to deal with the unregulated states of global markets
➢ Enhancing capacity to effectively address illegal mining and the trafficking of precious metals.
The five provinces that are currently affected by illicit mining, held two operations per month to address illegal mining. Some of the successes are as follows:

**Gauteng**

A major investigation was undertaken and a Lebanese citizen smuggling a total of R23 000 000.00 worth of uncut diamonds was arrested at Oliver Tambo International Airport. The accused was subsequently convicted.

During an investigation in Germiston, a suspect was arrested for the possession of approximately R1 000 000.00 worth of unwrought gold (nuggets) already processed.

**Northern Cape/Eastern Cape**

During investigations, two Congolese suspects were arrested for dealing in unwrought gold to the value of R800 000.00. The incidents took place in the Northern Cape and the Eastern Cape respectively.

**Western Cape**

During a disruptive operation, a licence holder was found in possession of R500 000.00 worth of gold. The gold was seized and investigations are continuing.

**North West**

During a disruptive operation in the Klerksdorp and Stilfontein area five suspects were arrested with gold concentrate to the value of R250 000.00. Information was received at Marikana and a suspect was arrested with R800 000.00 worth of unwrought platinum which appears to have originated from the mine.

**Free State**

Joint operations were conducted from October to December in the Welkom area, and follow-up operations were conducted and major successes were achieved, resulting in the arrest of 99 suspects. Two vehicles to the value of R100 000.00 were seized and various equipment used for illegal mining (cutting torches, gas bottles and other equipment) was also seized. On 6 June 2012 an illegal refinery was dismantled in Welkom.

Overall disruptive operations and major investigations resulted in seizures of gold and gold-bearing material to the value of R 7 776 093.90. Diamonds to the value of R23 353.00 as well as platinum to the value of R929 900.00 were also seized.

**Non-Ferrous Metals**

The critical need to focus on the investigation of theft of copper cable (electricity and rail cable) and related crime, that is seen by economists as sabotaging of the national infrastructure, has resulted in 130 arrests. 40 individuals were convicted in this regard. Various investigations are being conducted with regard to the buying and exporting of stolen copper; the hijacking of trucks carrying copper; and fraud committed by scrap metal dealers.

**Endangered Species**

The DPCI investigations focused on species such as abalone and rhino poaching. During the reporting period 104 persons were arrested and 49 convicted. Various operations/projects were conducted, and the following successes were achieved:

➢ 1 872 charges of racketeering and R55 million worth of assets were restrained

➢ Seizures of 20 rhino horns and 5.5 tons of ivory, R630 400 US dollars and 1 120 000 Vietnamese Dong.

➢ 10 years, imprisonment for a rhino poacher from Zimbabwe.

➢ A total of 46 years, imprisonment for five accused who smuggled abalone from the Eastern Cape to Mozambique (accused 1: 18 years; accused 2: seven years; accused 3: eight years; accused 4: 18 months and accused 5: three years)
HUMAN TRAFFICKING

During the past financial year, 28 persons associated with human trafficking-related crime were arrested. These persons were involved with owning of a brothel and soliciting for prostitution, smuggling of persons, extortion and kidnapping.

VEHICLES

39 individuals were arrested and 41 convictions secured for the possession of illegal vehicles.

CRIMES AGAINST THE STATE

56 arrests were made and 25 convictions secured for crime including foreign military assistance, high treason and terrorism, contravention of the National Conventional Arms Control Act, possession of firearms and ammunition, dealing and possession of radioactive materials, and Protection of the Constitutional Democracy against Terrorist and Related Activities (POCDATARA).

The investigation into the activities of the leader of an organisation known as the Movement for the Emancipation of the Niger (MEND) and the outcome thereof illustrates the success of the DPCI in their endeavour to combat terrorist-related activities. The accused was involved in the planning of the detonation of six car bombs that were to explode during the 50th Independence Celebrations in Nigeria, as well as alleged terrorist activities committed within the RSA. After a long investigation process, the accused was sentenced to an effective 24 years, imprisonment for his involvement in various terrorist-related activities.

SERIOUS COMMERCIAL CRIME

- Serious and priority commercial crime refers to serious and priority fraud, serious commercial-related theft (including theft of trust funds by persons who are obliged by law to keep a trust account), complex commercial crimes where the services of a charted accountant or forensic auditor is required during investigation, and contraventions of certain commercial-related statutes (statutes relating to companies, close corporations, cooperatives, trusts, financial advisory and intermediary services, insurance, counterfeiting of currency, counterfeiting of goods and intellectual property rights crimes, banking-related crime, exchange control, estate agents, deceased and insolvent estates, serious corruption, and serious computer-related/cybercrime)

- A total of 11 284 charges were brought forward to 2012/13 and 65 307 new charges were reported. The detection rate increased from 65.2% to 86.1% in 2012/13. A total of 63 094 charges were referred to court of which 2 287 were withdrawn and 546 were closed as unfounded. The increase in the detection rate can be attributed to the rise in charges reported and referred to court for the first time.

- In 2012/13 the percentage of court-ready cases dockets for serious commercial crime-related charges was 56.5%, up from 50.0% the previous year. This increase is the result of an increase in the average number of court-ready cases and, at the same time, a decrease in the number of cases on the court roll that have not yet been finalised. During 2012/13, the average number of court-ready case dockets per month was 3 921 and the average number of cases not yet completed in court per month, was 6 944. Table 45 summarises the achievements with the investigation of commercial crime cases investigated by the Directorate for Priority Crime Investigation.

- During the reporting period 2012/13 government-related fraud and corruption at local government level was an ongoing focus area of the Directorate. A number of significant successes were achieved in respect of Operation Clean Audit. A total of 45 public officials were arrested, while 14 persons (four officials and nine members of the public) were found guilty on charges including fraud, corruption and money laundering. One accused was sentenced to 15 years direct imprisonment and another to six years.

- A total of 209 suspects were arrested on charges relating to counterfeit card fraud, card skimming and the possession of skimming devices. During the same period, 134 persons were found guilty on 851 counts relating to counterfeit card fraud. During 2012/13 the Directorate dealt organised card fraud syndicates a heavy blow with the arrest of 26 syndicate members, nine of which were Bulgarian citizens. Various handheld and ATM mounted skimming devices were seized. In one incident a Bulgarian man was arrested in the act when he removed an ATM skimming device from an ATM in Norwood while under police surveillance. Investigations also led to the uncovering of so-called ‘boiler rooms’ where criminals were manufacturing counterfeit bank cards.
With regard to company-related fraud, a company director was charged on 79 counts of fraud and theft involving R9.6 million of company money. In an unrelated case, a company director was convicted of submitting false information with regard to tender documents. The company was also invoiced for services that were never rendered. The value involved in this case was R10 million. The accused was convicted on 112 counts of fraud and sentenced to a fine of a million Rand or ten years, imprisonment.

In a case of vehicle finance fraud, members of a syndicate used outsiders to submit fraudulent documents in order to finance eight expensive high-performance vehicles, jointly valued at R6 million. The applications were approved with the assistance of a bank official who colluded with the syndicate. Three suspects were arrested. This case is pending before court.

With regard to investment fraud, an accused recruited investments from members of the public, purporting to run a black empowerment company that was trading on the Johannesburg Securities Exchange. An estimated R60 million was solicited from investors. On 8 February 2013 the accused was sentenced to 15 years, imprisonment. In an unrelated investment fraud scheme, investors were promised a 5% per month return on investment. The scheme collapsed and it was established that investors lost approximately R20 million. The mastermind of the scheme appeared in court. The case is pending.

With regard to occupation-related fraud, an employee who worked in the chemical industry sold liquid fertiliser to businesses. However, certain transactions were not captured on the company’s computer system and payments were routed to the employee’s personal bank account. The company suffered a loss of R63 million. The case is currently serving in court.

SUB-PROGRAMME: CRIMINAL RECORD CENTRE

According to the five-year Strategic Plan of the SAPS, the Forensic Service Division, which mandate is to support the investigation of crime through the processing of crime scenes, application of forensic services and maintenance of criminal records, prioritised its objectives for the Criminal Record and Crime Scene Management as well as the Forensic Science Laboratory to improve procedures for updating of records of offenders convicted of crime and process the evidence collected at the crime scenes with the emphasis on advance conviction rate.

The Criminal Record and Crime Scene Management (CR and CSM) received 1 201 643 enquiries by means of fingerprint forms (SAPS 76) for processing and generating of previous conviction reports during 2012/13. 97% (1 164 990) of previous conviction reports were generated within 20 calendar days after receipt. This is a 3% increase in comparison to the 2011/12 financial year.

Of the enquiries received, 658 030 (54.16%) resulted in previous convictions being identified and verified. 557 039 (45.84%) were first offenders who had no previous convictions recorded against them.

98 137 firearm applications were received and processed during 2012/13. Of those, 95 940 [98%] were processed within 15 calendar days, which is in line with the priority of decreasing the turnaround time for processing of fingerprint evidence.

To strengthen the capacity of the SAPS in identifying individuals involved in crime, 2 087 574 fingerprint searches were performed during 2012/13 in order to determine whether an individual has a criminal record. Of these, 1 215 069 (58%) were criminal searches and 872 505 (42%) were non-criminal searches such as in the case of applications for firearm licences, professional driver’s permits and pre-employment.

The Criminal Law [Forensic Procedures] Amendment Act, 2010 was promulgated on 5 October 2010 and came into effect on 18 January 2013. Within six months of the legislation coming into effect, the National Instruction and training manuals were compiled and an interdepartmental forum was established. Forensic awareness campaigns were conducted to sensitisise functionaries at all levels on the practical implications, obligations and expectations of the legislation.

The CRC has expanded its Automatic Fingerprint Identification System (AFIS) capacity to an additional eight Local Criminal Record Centres to enhance service delivery and support stations and detectives in the investigation of crime. These consist of Protea Glen in Gauteng, Secunda in Mpumalanga, Pietermaritzburg and Kokstad in KwaZulu-Natal, Phalaborwa in Limpopo, De Aar and Springbok in the Northern Cape as well as Mitchell’s Plain in the Western Cape.

To improve the collection of evidence at crime scenes, Forensic Services intensified the utilisation of Crime Scene Laboratories. Table 46 provides an overview of the performance of the Crime Scene Laboratories, including positive benefits resulting from service delivery interventions within the Local Criminal Record Centres in the 2012/13 financial year:

<table>
<thead>
<tr>
<th>TABLE 46: PERFORMANCE OF CRIME SCENE LABORATORIES</th>

<tr>
<td>Cases processed by Fingerprint Laboratory</td>
</tr>
<tr>
<td>Positive cases processed by Fingerprint Laboratory</td>
</tr>
<tr>
<td>Shoe-print investigations</td>
</tr>
<tr>
<td>Positive shoe-print investigations</td>
</tr>
</tbody>
</table>
The 12% decline in manual palm prints is the result of digitising the processing of palm prints, as the 27% increase in electronic palm prints indicate.

The 1% decline in Positive shoe-print investigations is mainly a result of the vulnerable nature of shoe-prints that can be contaminated due to environmental factors, such as the weather, medical rescue workers and witnesses at the crime scene before the police arrive.

Advances in technology have made DNA testing an established part of crime investigation and prosecution, especially where identification is the primary issue. The Department have Forensic Services contributed immensely to the solving of crimes, including crimes against women and children, during the previous financial year.

**VALUE OF DNA AND INVESTIGATIVE PSYCHOLOGY CAPABILITIES**

DNA and Investigative Psychology continues to play a critical role in the linking of the suspects to serial cases and ensuring related arrests, sentencing and convictions. The following is a sample of reported cases where DNA and Investigative Psychology contributed to their successful investigation and conviction of perpetraiors:

<td>Sentenced to four life sentences and 15 years on 15 May 2013</td>
</tr>
</tbody>
</table>
In pursuance of the mandate and strategic objective to ensure support to the investigation of crime, the Forensic Science Laboratories received 382 219 case exhibits/entries during the 2012/13 financial year for forensic analysis compared to the 2011/12 financial year during which 320 729 case exhibits/entries were received. The Forensic Science Laboratory received 61 490 additional case exhibits/entries which represent a 19% increase in case exhibits/entries received. This increase is attributed to improved confidence and effectiveness of the forensic awareness programme embarked upon both internally and externally.

Despite this influx in case exhibits/entries received, a total of 381 299 (99.8%) entries were analysed, which is an 18% increase in work output compared to the previous year’s 323 388 case exhibits/entries finalised by the Forensic Science Laboratory.

Commendable progress is made to ensure the optimal utilisation of Forensic Science Laboratories in the fight against crime. More than ever before, Forensic Services are accessible and responsive to investigating officers and the Criminal Justice System. The increased requests for services is indicative of the enhanced trust instilled in the crime investigation community with regard to the value and effectiveness of Forensic Services.

In response to the target set for processing of exhibits at the Forensic Science Laboratory, 230 854 (57.6%) entries were analysed within 28 working days from a total of 400 284 entries (received during 2012/13 plus carried over from 2011/12 less pending within 28 working days). The performance of the respective Forensic Science Laboratory disciplines focusing on entries received and entries analysed, including those analysed within the specified time frame of 28 working days, are depicted in table 47:

### TABLE 47: PERFORMANCE OF THE FORENSIC SCIENCE LABORATORY

<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Note:
- The Victim Identification Centre that was established during the financial year 2012/13, processed 518 cases. The processing of the cases ensured that 99.99% of cases attended to by the newly-established VIC, were finalised within 28 working days.
- These statistics are excluded from the above table because they are administered manually and have not yet been captured on the FSL Admin System, as is the case with all other FSL disciplines.
REDUCTION/MANAGEMENT OF BACKLOG IN THE FORENSIC SCIENCE LABORATORIES

Despite existing challenges, forensic science laboratories continue to make commendable progress on the eradication of backlogs, irrespective of the increase in the number of exhibits received, informed by the enhanced forensic awareness initiatives. The strategy implemented by the Department to ensure the efficient processing of exhibits within the Forensic Science Laboratory in pursuance of the mandate to fight crime, is gradually yielding success.

The reduction of backlogs in the Forensic Science Laboratory is high on the strategic agenda. To this end, Forensic Services reduced backlogs in the various disciplines during the 2012/13 financial year, to ensure the processing of cases through the Criminal Justice System.

Irrespective of the increase by 61 490 [19%] case exhibits/entries received from 320 729 in 2011/12 to 381 699 in 2012/13, the backlog in the processing of case exhibits/entries was reduced from 25 345 at the end of the 1st quarter to 20 612 at the end of the 4th quarter by a commendable 19%. This reduction in backlog include the case exhibits/entries carried over from the 2011/12 financial year, which accumulated to a total of 400 284 case exhibits/entries processed during the period under review.

FORENSIC SERVICES HIGHLIGHTS

On 17 July 2012, the Minister of Police, Mr EN Mthetwa opened the state of the art forensic science laboratory in Plattekloof, Cape Town. The Plattekloof Forensic Science Laboratory became operational in November 2011. This unique state-owned facility which cost over R600 million after completion, is testimony to the commitment and investment by the Government of the Republic of South Africa. The Plattekloof Forensic Science Laboratory is an additional and useful arsenal to the crime-fighting programmes of the SAPS.

Services such as DNA analysis, drug identification, blood-stain analysis, polygraph testing, image analysis and scans are offered by this laboratory. The completion of the Plattekloof facility enabled the consolidation of all forensic science laboratory disciplines in Cape Town under one roof for service delivery improvement.

The Plattekloof Laboratory supports the quality standards for facilities required for accreditation, as well as the investigation of crime through the processing of crime scenes, forensic evidence and maintenance of criminal records.

Commendable progress was made by the Plattekloof Laboratory during the period under review. The laboratory increased case finalisation from 72 983 in 2011/12 to 101 682 in 2012/13, which is a 40% [28 699] in case exhibits finalised.

THE BELHAR PROJECT FOR DRUG-ANALYSIS

A drug analysis laboratory, focusing on the analysis of Methamphetamine cases, was set up in Belhar in the Western Cape. Rapid analysis using Raman- and Fourier Transform Infrared (FTIR) – Spectroscopy was employed to make an impact on the number of Methamphetamine cases requiring analysis in the Western Cape. A total of 7 768 Methamphetamine cases were finalised during the project. Methamphetamine cases in arrears were finalised in a shorter processing time.

DECENTRALISATION OF SERVICES

In an effort to decentralise the Forensic Services, an intercession was initiated by the management of the Division to recruit analysts from provinces, bringing them closer to the communities where such services are needed.

To this effect, Forensic Services as one of the major contributors to the success of the CJS set various objectives to underpin the CJS programme in the SAPS. These included recruitment, selection, and appointment of employees to ensure the expansion and decentralisation of forensic services. During the period under review, 800 forensic analysts and crime scene experts, including managerial and support personnel, were appointed/enlisted to capacitate the expansion of the Forensic Services establishment with emphasis on employing/deploying graduates with Bachelor of Science Degrees or applicable qualifications.

The state of the art forensic science laboratories are housing the most advanced technology and equipment,
including well-trained and highly-skilled forensic analysts and crime scene experts. Patriotic South Africans from all races and gender continue to volunteer their services by joining the SAPS Forensic Services where they are able to utilise their skills and competencies by serving the people of this country as forensic analysts and crime scene experts.

The Forensic Services, capacity was further decentralised to KwaZulu-Natal by establishing the Biology and the Questioned Documents discipline capacity. A Scientific Unit analysis capacity focusing on image analysis and polygraph was established at the Western Cape regional laboratory. An Investigative Psychology discipline was established in all nine provinces.

**FORENSIC SERVICES STRUCTURE RESPONSIVE TO ORGANISATIONAL NEEDS**

The revised organisational and functional structure which is aligned to the service offerings in terms of its mandate, is being implemented. This process-oriented structure is designed to streamline service delivery and expansion of the capacity at national and provincial level in support of the investigation of crime. Prominent in the organisational and functional structure is a dedicated quality management capability, which will assure that accredited and trusted forensic services are effectively and efficiently performed in accordance with accepted international and national standards.

**STRATEGIES TO OVERCOME AREAS OF UNDERPERFORMANCE**

The SAPS underperformed in the following areas relating to Programme 3: Detective Service:

> Detection rate for serious crimes

> Conviction rate for serious crimes

> Detection rate for crimes against women (18 years and above) in respect of murder, attempted murder, all sexual offences, common assault and assault GBH

> Detection rate for crimes against children (under 18 years) in respect of murder, attempted murder, all sexual offences, common assault and assault GBH

The following strategies have been/will be implemented to address the underperformance:

In terms of serious crimes, the fifty stations and clusters that performed the poorest had been identified and in terms of crimes against women and children, the four underperforming provinces had been identified. Interventions to address underperformance at these stations and clusters will include the following: Performance review meetings with all the commanders of these stations or units and the Provincial Detective Management; quarterly performance monitoring; monthly accountability sessions with the commanders monitor the performance of investigating officers; visits to the identified stations/units and intervention inspections to provide guidance and in-service training in an attempt to improve performance. Commanders will be requested to provide a skills audit and training profile of each member and members in need of training, will be prioritised for nomination to attend identified training interventions. Provincial Heads of the Detective Service will be instructed to appoint experienced detective commanders from other excellent performing stations as guardians and mentors at station performing poorly (peer education and mentoring); and Provincial Heads of the Detective Service will be instructed to share best practices with other provinces.

**CHANGES TO PLANNED TARGETS**

There were no changes to planned targets for 2012/13.

5.4 PROGRAMME 4: CRIME INTELLIGENCE

**Purpose:** Manage crime intelligence and analyse crime information, and provide, technical support for investigations and crime prevention operations.

**Strategic Objectives:** Contribute to the neutralising of crime by gathering, collating and analysing intelligence that leads to an actionable policing activity.

The Crime Intelligence Programme comprises the following two subprogrammes:

- Crime Intelligence Operations
- Intelligence and Information Management
### TABLE 48: ACTUAL PERFORMANCE AGAINST TARGETS

SERVICE DELIVERY ACHIEVEMENTS

➢ Crime intelligence operations and reports contribute to the neutralising of crime by gathering, collating and analysing intelligence that leads to an actionable policing activity relating to contact crime, especially trio crimes; organised crime involving drugs, vehicles, weapons, diamonds, human trafficking, corruption, commercial crimes and illicit mining; as well as security intelligence-related crime.

SUBPROGRAMME: CRIME INTELLIGENCE OPERATIONS

➢ Network operations refer to planned and purposeful processes of obtaining, assembling and organising information through exploitation of all types of sources on a target (organisation, group or individual) for further intelligence processing and/or use as evidence.

➢ Crime Intelligence conducted a total of 37 188 network operations during 2012/13, which led to the arrest of 10 607 individuals and the recovery of goods valued at R633 885 198.00.

SUBPROGRAMME: INTELLIGENCE AND INFORMATION MANAGEMENT

A total of 311 807 operational analysis reports were produced during 2012/13.

These operational analysis reports relate to –

➢ Profiles: A resume of information/intelligence gathered on a suspect to serve as an aid to the investigating officer to locate the suspect and identify him/her beyond a reasonable doubt.

➢ Intelligence analysis reports: A factual report based on evaluated information/intelligence which can be utilised to identify specific individuals, criminal groups, suspects or tendencies, relevant premises, contact points and methods of communication.

➢ Communication analysis reports: A report based on the result of the analysis of specific identified telephone/cellular phone numbers as provided by the various communication networks when subpoenaed to do so.

➢ Communication interception reports: A report based on the result of the analysis of voice intercepted communications, intercepted text messages as well as Internet service provider telecommunications.

➢ Station and cluster crime threat analysis reports: Reports compiled at station and cluster level based on the spatial and time patterns of crime statistics, matrix case linkage analysis and field work. These reports guide station commanders on the what, where, when, why, who and how of the incidence of crime.

Table 49 provides a breakdown of the operational analysis reports generated by Crime Intelligence.

5.5 PROGRAMME 5: PROTECTION AND SECURITY SERVICES

Purpose: Provide protection and security services to all identified dignitaries and government interests.

Strategic Objectives: Minimise security violations by protecting foreign and local prominent people and securing strategic interests.

The Protection and Security Services Programme comprises the following three subprogrammes:

➤ VIP Protection Services
➤ Static and Mobile Security
➤ Government Security Regulator
### KEY PERFORMANCE MEASURES, TARGETS AND ACTUAL RESULTS

SERVICE DELIVERY ACHIEVEMENTS

SUBPROGRAMME: VIP PROTECTION SERVICE

VIP protection services by Protection and Security Services and Presidential Protection Services provide for the protection of the President, the Deputy President, former Presidents, former Deputy Presidents, Heads of State, their spouses and other identified VIPs while in transit.

During 2012/13, VIP Protection Services provided protection to –

➢ 18 presidential dignitaries (Presidential Protection Service) and 77 national and 123 provincial dignitaries (Protection and Security Services);
➢ 232 foreign dignitaries, including Heads of State, visiting South Africa (160 by Protection and Security Services and 72 by Presidential Protection Service);
➢ 290 major/special, national and provincial events by Protection and Security Services, including events such as the DIASPORA Forum, African Cup of Nations and BRICS Summit;
➢ 4 major events (Presidential Protection Service);
➢ 99 802 South African VIP movements within and outside the borders of South Africa (Protection and Security Services and Presidential Protection Service);
➢ 177 presidential visits (including refuelling) outside the borders of South Africa (Presidential Protection Service).

No security breaches occurred during the in-transit protection of Presidential VIPs, South African VIPs, foreign VIPs visiting the country, presidential visits abroad or major events.

SUBPROGRAMME: STATIC AND MOBILE SECURITY

➢ Static Protection at the Protection and Security Services conducted 98 728 shifts to protect 40 installations/government buildings and 97 identified VIP residences. Only six security breaches were reported, translated to 99.99%. These include unauthorised entry and theft at the Parliamentary complex, housebreaking and theft at Bryntirion in Gauteng and the Northern Cape Legislature.

➢ Static Security at the Presidential Protection Service conducted 8 748 shifts to protect 15 residential premises and three offices. No security breaches occurred during the reporting period.

➢ An efficient close and static protection service was rendered to the Presidency by ensuring compliance with existing policies, monitoring sections/units, daily activities, proper operational Planning and constant communication with the Presidency relating to programmes.

➢ A state of operational readiness for operations was maintained by means of ensuring counter-assault team operators meet the physical and mental fitness standards, ensuring a roadworthy vehicle fleet for rapid deployment and also ensuring that personal equipment and a standard package of specialised equipment is in working order and available for rapid deployment. These include the deployment of close protectors at unplanned operations.

SUBPROGRAMME: GOVERNMENT SECURITY REGULATOR

➢ The Government Security Regulator relates to national key points evaluated in compliance with the National Key Points Act. Strategic installations were audited in terms of the Minimum Physical Security Standard guidelines at national and provincial government departments.

➢ The following functions were also conducted in terms of the regulatory function of the National Key Points Act, 1980 (Act No. 102 of 1980) in the 2012/13 financial year:

→ 37 Security service providers were registered
54 Criminal records were detected
1 627 Applications for national key point security guards were received
13 National key point security guards were deregistered
2 Training providers were deregistered
81 Training institutions were evaluated
No Training institution was suspended
21 Security officer liaison forums were held

STRATEGIES TO OVERCOME AREAS OF UNDER PERFORMANCE

The SAPS underperformed in the following areas relating to Programme 5: Protection and Security Services:

➢ Percentage of security provided in relation to security breaches (Static Security)
➢ Percentage of national key points evaluated

The following strategies have been/will be implemented to address the underperformance:

PERCENTAGE OF SECURITY PROVIDED IN RELATION TO SECURITY BREACHES (STATIC SECURITY)
Quarterly in-service training of members at unit level will be conducted regarding the Static Protection Standard Operational Procedure and the submission of a compliance certificate to Crime Intelligence and Protection Services (CIPS) Head Office and meetings will be held with custodians of installations/residences to report defective equipment security measures which may influence the protection of such installation/residence.

PERCENTAGE OF NATIONAL KEY POINTS EVALUATED
It must be noted that national key points (private, Government and parastatal entities) do not fall under the direct control of the SAPS. External role players can therefore disrupt the planned evaluations to be executed. The following measures will be implemented to address under performance:

➢ An annual schedule for evaluations to National Key Point (NKP) owners and NKP provincial commanders as agreed to, will be issued prior to the commencement of the financial year.
➢ Monitor evaluations at provincial level against set targets monthly.
➢ Corrective steps will be taken where targets are not met due to internal challenges.
➢ Performance will be followed up on during quarterly NKP work sessions with Provincial Commanders.
➢ Compliance will be emphasised during Government Security Sector Council meetings, Security Officer Liaison Forums and Joint Planning Committee meetings with Councillors/regulatory bodies of national key points.
➢ Meetings will be conducted with Corporate Security of NKPs not cooperating with the planned evaluations.

CHANGES TO PLANNED TARGETS
There were no changes to planned targets for 2012/13.

<tr>
<td>Total departmental receipts</td>
<td>307 317</td>
<td>342 023</td>
</tr>
</tbody>
</table>

Departmental revenue collection destined for the National Revenue Fund mostly derives from services rendered to the public such as firearm applications, photocopies of accident reports and statements, disposal of departmental assets at auctions, forfeits as a result of criminal activities and the recovery of debt raised.

All fees, charges and tariffs not fixed by law, are addressed by the Department’s Tariff Committee.

Reasons for over performance and underperformance are as follows:

➤ **Sale of goods and services produced by Department**: The positive deviation of R11 241.00 is mainly due to the increase in collection of firearm licences (R4 118), increase in the sale of scrap (R974.00), the increase of commission on insurance deductions on PERSAL (R4 627.00) and the increase in police services rendered (R1 522.00).

➤ **Fines, penalties and forfeits**: The positive deviation of R8 459.00 is mainly due to additional revenue that derived from forfeits related to monies seized in contravention with the Prevention of Organised Crime Act, 1998 (Act No 121, 1998) at airports.

➤ **Sale of capital assets**: The positive deviation of R1 560.00 is mainly due to more auctions held during the reporting period.

➤ **Financial transactions in assets and liabilities**: The positive deviation of R13 448.00 is mainly due to more interdepartmental debt recovered.

**Expected outputs**

- To strengthen the capacity of the SAPS in dealing with the threat of criminal networks and terrorism including but not limited to:
  - developing more efficient border control;
  - strengthening the capacity of specialist investigative units;
  - developing the capacities of technical and scientific police units;
  - developing crime intelligence information gathering capacity on terrorism and organised crime; and
  - develop capacity to carry out anti-terrorist operations.

- To strengthen the interaction of the SAPS with neighbouring countries, by, inter alia,:
  - developing a Detective course for countries of the Southern African Regional Police Chiefs Cooperation Organisation (SARPCCO);
  - organising international conferences and workshops; and
  - provide French language courses.

**Actual outputs achieved**

Courses in:

- Identification of suspects by smell
- Harbour security training: leadership and operational management
- SARPCCO generic negotiation course
- Organised crime training: surveillance and arrest
- Operational leadership of a Forensics Unit
- SARPCCO generic detective course
- 7th international symposium on fingerprints
- Crime scene management in Chemical, Biological, Radiological and Nuclear (CBRN) polluted environment
- Use of helicopters in crime-fighting operations
- Crime scene management
- Hostage release STF training
- Bomb attack scene management
- French courses

- Port Management Course, Container Terminal Management Course, Port Security Course, Port Environmental Policy and Technology Course, Customs Border Control Course

**Amount received in current period**

In kind – 149 150 Euros

**Amount spent by the department**

149 150 Euros

**Reasons for the funds unspent**

R228 175.41

The remaining funds were allocated for the printing of manuals on Drugs. The manuals were printed however when the payment was done the funding went through under the general budget SAPS. This was done just before the end of the previous financial year. Funds will have to be returned as it may not be used for anything other than the manuals.

**Monitoring mechanism by the donor**

Steering Committee Meetings/ Audits

**Amount received in current period**

In kind - 27 846 Euros

**Amount spent by the department**

In kind - 27 846 Euro

**Monitoring mechanism by the donor**

Regular meetings with role players. Reports.
### Name of Donor: Belgium

- **Full amount of the funding**: R555 000,00
- **Period of the commitment**: 1 Year – April 2012 to 2013
- **Purpose of the funding**: Capacity Building - Programme to Support the Planning and Management for Improved Organisational Performance

- **Expected outputs**: The aim of this project is to have skilled and competent members in a strategic management environment who assist the SAPS with the provision of strategic direction and facilitate organisational developmental initiatives.

- **Actual outputs achieved**: One course - Support Planning and Management for Improved Organisational Performance - 15 members

- **Amount received in current period**: In kind – R550 000,00
- **Amount spent by the department**: R550 000,00

- **Reasons for the funds unspent**: Monitoring mechanism by the donor

  - Regular meetings with role players and attendance of training sessions. Along with the results of the trainees. Reports.

### 6.4 CAPITAL INVESTMENT, MAINTENANCE AND ASSET MANAGEMENT PLAN

#### IMPLEMENTING THE CAPITAL INVESTMENT AND ASSET MANAGEMENT PLAN

The User Asset Management Plan (UAMP) was approved by the National Commissioner on 2012-09-03 and taken by hand to the Department of Public Works and National Treasury on 2012-10-03.

The Infrastructure Development Plan emanating from the UAMP, was approved for implementation for the 2013/14 financial year.

### INFRASTRUCTURE PROJECTS WHICH HAVE BEEN COMPLETED IN 2012/13 AND PROGRESS IN COMPARISON TO WHAT WAS PLANNED AT THE BEGINNING OF THE YEAR

Eight projects were planned for completion during the 2012/13 financial year and six projects were carried over from the 2011/12 to the 2012/13 financial year for completion. A total number of four of the 14 were completed during 2012/13. The following table provides an overview of the projects completed in 2012/13.

<table>
<thead>
<tr>
<th>Projects completed 2012/13</th>
</tr>
</thead>
<tbody>
<tr>
<td>Newly re-established police facility</td>
</tr>
<tr>
<td>Amalia Police Station</td>
</tr>
</tbody>
</table>

**Reasons for material variances (2%)**

- Unrealistic milestones,
- Non-performance of contractors, and
- Delay with appointment of service providers.

MEASURES TAKEN TO ENSURE THAT THE DEPARTMENT'S ASSET REGISTER REMAINED UP-TO-DATE DURING THE PERIOD UNDER REVIEW

➢ Regular auditing of the asset registers data integrity with all Provincial Offices in order to ensure realistic statistics.

➢ Planned training in consultation with Provincial Offices in familiarising themselves with the asset register information thereof.

THE CURRENT STATE OF THE DEPARTMENT’S CAPITAL ASSETS, FOR EXAMPLE WHAT PERCENTAGE IS IN GOOD, FAIR OR BAD CONDITION

The current state of the department’s assets:

Excellent condition - 24.22%
Good condition - 24.21%
Fair condition - 32.68%
Bad condition - 13.25%
Very poor condition - 5.64%

100%

MAJOR MAINTENANCE PROJECTS THAT HAVE BEEN UNDERTAKEN DURING THE PERIOD UNDER REVIEW

No major maintenance projects are currently programmed for implementation.

SAPS are paying according to the Devolution document a property administration charge to DPW who will then determine which facility to maintain.

1. INTRODUCTION

Good governance reflects in the effective management and stewardship of public resources in an ever-changing public sector environment. There is a critical role that the SAPS’s institutional mechanisms such as strategic and operational plans, budgeting, transversal systems and internal and external auditing in upholding good governance. The manner in which the SAPS’s departmental activities are conducted is the critical link between inputs and outputs that is the effective and efficient utilisation of resources. The optimal increasing of organisational performance in relation to good governance in the SAPS focuses on improving institutional mechanisms such as leadership, the setting of clear operating principles, the quality of control systems and the accountability. The commitment by the Department to maintain the highest standards of governance is fundamental to the management of public finances and resources. Some elements that are related to good governance with the aim to increase transparency and ensure compliance are listed below.

2. RISK MANAGEMENT

Nature of risk management

Risk management within the SAPS is applied within the context of section 38 a (i) of the PFMA, the Treasury Regulations of 2005, section 3.2, and the Public Sector Risk Management Framework. The revised SAPS’s Strategic Plan 2010 - 2014 contains the strategic risks that the Department has identified for the focussed mitigation over the mediumterm. The application of risk management focuses mainly on the mitigation of these strategic risks through the Provincial Commissioners and the relevant Divisional Commissioners.

Risk management strategies used to identify risks and manage the risks

The risks reflected in the revised Strategic Plan 2010 - 2014 are linked to the strategic objectives and priorities as significant barriers to improve of the performance of the organisation in the achieving of these strategic objectives and priorities.

The SAPS initiated a process to ensure the establishing of enterprise risk management during 2012/13, focusing on the development of an Enterprise Risk Management Strategy (ERMS) that is compliant with the risk management requirements that are reflected in the Department’s Performance Monitoring and Evaluation’s Management Performance Assessment Tool (MPAT) indicators for risk management and the Public Sector Risk Management Framework. A draft ERMS was compiled for further consultation, finalisation and implementation during 2013/14. The purpose of the ERMS is to facilitate the integration of risk management into the SAPS’s business with a specific focus on the comprehensive identification of risks at al levels in support of improving the overall performance, the development and implementing of mitigation strategies by management and the monitoring of the effectiveness of the mitigation of risks, and the effectiveness of the entire risk management process.

The SAPS has achieved significant mitigation, of the majority of the strategic risks during the period under review. Input risks in respect of which mitigation has been progressed include murder of police officials, the loss and theft of the SAPS’s firearms and collisions involving SAPS vehicles. The mitigation of these input risks increases the availability and condition of resources, thereby improving the input focus on the strategic objectives and priorities.

Output-focused risks that have been mitigated include inadequate police response at local level, focusing on reaction times to complaints and criminal conduct by SAPS members. The mitigation of output risks increases the effectiveness of the SAPS as operational activities towards the mitigation of these risks are reduced, allowing an improved focus on the operational strategic priorities.

3. FRAUD AND CORRUPTION

The SAPS has a multidisciplinary approach to the combating of fraud and corruption that integrates numerous functional areas within the anti-corruption framework provided by Government, that comprises prevention, detection, investigation and resolution.

Prevention activities have been prioritised and included the sensitising of all the SAPS members through focused internal and external communications to the public of South Africa on the zero-tolerance approach taken by the
Department to fraud and corruption perpetrated by its members. Pronouncements on anti-corruption are made using a variety of internal and external communication platforms, which include internal communication releases and media summaries via the e-mail network (an estimated 34 000 registered e-mail users); the SAPS Intranet webpage; salary advices to all members (199 345 as at 31 March 2012); communication campaigns, for example the “Look Out” about anti-corruption; and programmes on broadcast communications, for example: “When Duty Calls”, that are also watched by SAPS members; the SAPS Journal (an internal publication available both in hard and soft copy formats); the Police Television Network (POLTV); media releases; and the SAPS Internet webpage.

The managing of the Anti-corruption Strategy contributions from various functional areas within the SAPS, including:

- **Crime Intelligence and Protection Services (CIPS) Division** – the detection of SAPS members involved in fraud and corruption, the vetting of key personnel in the SAPS and facilitate the implementation of the National Personnel Security Vetting Policy Guidelines.

- **Detective Service** – the investigation of less serious cases of corruption involving SAPS members.

- **Human Resource Development** - the presentation of internal and external learning programmes addressing integrity and anti-corruption-specific content.

- **Personnel Management** – managing of departmental investigations against members; the presentation of anti-corruption related workshops; managing the recruitment and selection process applicable to new entrants and the promotion and appointment processes applicable to members and lateral entrants; managing remunerated work outside the SAPS and the disclosing of financial interests by all SMS members.

- **Internal Audit Component** – The detection of corruption as an element of the SAPS’s approach to combined risk assurance and the forensic investigation of specific cases of corruption involving SAPS members.

- **Inspectorate** - The detection of corruption as an element of the SAPS’s approach to combined risk assurance.

- **Financial and Administration Services** – The detection of fraud and corruption by SAPS members related to financial management as an element of the SAPS’s approach to combined risk assurance; and the managing of cases of financial misconduct.

- **Supply Chain Management** – The managing of conflict of interest related to the bid procurement process.

All these respective divisions and components’ structures and priorities, were aligned with their functions in their Operational Performance Plans, and were allocated an annual budget to realise their priorities in support of the Annual Performance Plan.

The Directorate for Priority Crime Investigation (DPCI) performs a specialised role in the investigation of corruption and the commercial crime-related investigation of cases where government officials are involved in procurement fraud and corruption.

The DPCI’s fraud and corruption plan is a part of the bigger plan of integrity management.

The DPCI’s Integrity Management Unit deals with all integrity-related issues including fraud and corruption. The Integrity Management Policy approach as applied within the DPCI covers the following:

- The disclosure of financial and other interests

- The performance of remunerative work outside the SAPS

- Continuous lifestyle audits where most likely fraud and corruption issues are identified

- Integrity Testing Programme (inclusive of Entrapment (section 252A operations), testing for alcohol and drug abuse, as well as polygraph or any other similar instrument)

- The reporting facility (a dedicated e-mail address where personnel can report any integrity-related issues was established and the personnel has been informed of this. We continue to do so through our Advocacy and Awareness campaigns)
Soft controls (we continue to communicate the behaviour through our integrity pillars, the SAPS Code of Conduct, and the Code of Ethics) – hard controls (investigations conducted to reveal and deal with the culprits of fraud and corruption and we are also assisted by the personnel who report such issues)

Compliance management (to identify maladministration, irregularities, misbehaviour and unwanted issues within the system).

Mechanisms to report fraud and corruption

The SAPS has actively promoted the Protected Disclosure Act 2000 (Act No 26 of 2000), and the National Anti-Corruption Hotline (NACH) as fraud and corruption reporting mechanisms. The NACH has received specific attention in internal e-mails and circulars as a safe and trustworthy fraud and corruption reporting mechanism for use by the SAPS members.

A dedicated e-mail facility has been set up to create a channel through which personnel can confidentially bring information to the attention of the National Head of the DPCI.

How are the cases reported and which steps are taken

SAPS members report fraud and corruption through the following channels: The SAPS Complaints Line; the Presidential Hotline (PHL); the NACH; and the Crime Stoppers number. Allegations of corruption are also reported to the Integrity Management Unit of the DPCI through the reporting facility, by word of mouth, telephonically, tip-offs and/or in writing. Reports are referred to the appropriate investigation capacity within the SAPS (the DPCI, the Crime Intelligence Division or the Detective Service Division) for investigation. The investigation of allegations of fraud and corruption involving SAPS members includes both a criminal and a departmental investigation. Criminal investigations are managed by the DPCI and the general detectives. Departmental charges of fraud and corruption against members are managed by dedicated Discipline Management structures at national and provincial levels in line with the guidelines provided by the SAPS Discipline Regulations Manual. The Integrity Management Unit under the DPCI prioritises cases through discreet investigations to determine the authenticity and if there are issues of concern, they are dealt with by either following the criminal or departmental process and/or both.

892 members were charged for fraud and corruption-related matters in terms of the SAPS Disciplinary Regulations. The breakdown of the categories is as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Corruption</td>
<td>319</td>
</tr>
<tr>
<td>Fraud</td>
<td>153</td>
</tr>
<tr>
<td>Aiding an escapee</td>
<td>349</td>
</tr>
<tr>
<td>Defeating the ends of justice</td>
<td>149</td>
</tr>
<tr>
<td>Extortion</td>
<td>46</td>
</tr>
<tr>
<td>Bribery</td>
<td>10</td>
</tr>
</tbody>
</table>

22 members were suspended, eight with salary and 14 without salary at the end of the reporting period. 870 members were not suspended. 1 026 corruption charges were brought against members (97 members were charged with more than one crime).

4. Minimising Conflict of Interest

The SAPS’s senior members are compelled to declare their financial interests annually.

The Chairperson of both the Bid Evaluation Committee (BEC) and Bid Adjudication Committee (BAC) request a declaration of interest before the meeting takes place.

Applications for remunerative work are dealt with in terms of National Instruction 4/2012. These applications are approved at the relevant division/province and are valid for one financial year only after which another
application must be resubmitted.

➣ All approved applications are sent to the Division: Personnel Management and a copy placed at this office’s file for auditing purposes

5. **CODE OF CONDUCT**

The code of conduct has been described as part of the Accounting Officer’s Report. The reader is referred to par of the Accounting Officers report.

6. **HEALTH, SAFETY AND ENVIRONMENTAL ISSUES**

The Safety, Health and Environmental (SHE) management of the SAPS aims to promote a safe and healthy environment by providing a framework that allows the updating of its health and safety risks, the reduction of potential accidents, aid legislative compliance and the improvement of overall performance. The SHE management is also responsible to ensure the health and safety of all personnel in the performance of their daily duties.

**ONGOING PROJECTS TO IMPROVE HEALTH AND SAFETY**

➣ Legal compliance audits (inspections) at SAPS’s workplaces:

→ 75% of planned audits were conducted. (25% carried over to 2013/14).

➣ Medical surveillance:

→ 22 907 medically authorised (target depends on applications)

➣ Specifications for the following were compiled:

→ Personal protective equipment (coveralls, safety glasses (shooting range), face gas mask, arm-guard bite sleeve, respirators and bite suite)

→ Bomb-disposal vehicle

→ Road-block trailer

→ Crime-scene vehicle

→ Gas installation (LPG)

→ K9 box (dog cage)

→ Rifle safety.

➣ Communication plan to promote awareness on the health and safety for the SAPS’s personnel.

→ Eight information sessions were conducted.

➣ Development of safe working procedures and standards for health and safety:

→ Disposal of hazardous waste

→ Food hygiene guideline

→ Signage

→ Induction in the workplace.

➣ Standard for first aid investigation of all reported incidents in the SAPS and report to the Department of Labour:
2 fatality cases investigated
2 fire cases were investigated
1 non-fatality case was investigated

The SAPS consults with its clients in order to meet the legal requirements of the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) and section 24 of the Constitution which proclaims that “Everyone has the right to an environment that is not harmful to their health and well-being”.

7. AUDIT COMMITTEE REPORT

The Audit Committee reports in terms of section 38 (1) (a) of the Public Finance Management Act, 1999 (Act No 1 of 1999) as amended and the Treasury Regulations 3.1.13 and 27(1) (10) (b) and (c) that it has adopted appropriate, formal terms of reference as its Audit Committee Charter, and has regulated its affairs in compliance with this Charter, and has discharged the responsibilities contained.

This report is solely for the SAPS, excluding the Division: Crime Intelligence and Protection Services (CIPS); as they have a separate reporting process, Audit Committee and Portfolio Committee.

The Audit Committee consists of the members listed below and meets at least three times per annum according to its approved terms of reference. During the current year, three meetings were held.

* The National Commissioner/Accounting Officer who attended all the Audit Committee meetings since her appointment in June 2012.

**The seat was relinquished to the present National Commissioner/Accounting Officer as the member who attended on behalf of the previous National Commissioner. The member was only present for the one Audit Committee meeting that was held in May 2012 before the appointment of General Phiyega.

In the conduct of its duties, the Audit Committee has, inter alia, reviewed the following:

➢ The effectiveness of the internal control systems
➢ The effectiveness of the internal audit function
➢ The risk areas of the entity’s operations covered in the scope of internal and external audits
➢ The adequacy, reliability and accuracy of financial information provided by the management and other users of such information
➢ Accounting and auditing concerns identified as a result of internal and external audits
➢ The entity’s compliance with legal and regulatory provisions
➢ The activities of the internal audit function, including its annual work programme, co-ordination with the external auditors, the reports of significant investigations and the responses of the management to specific recommendations
➢ The independence and objectivity of the internal and external auditors.
The Audit Committee is of the opinion, that the internal accounting controls need continued strengthening and improvement to ensure that the financial records may be relied upon for preparing the annual financial statements, and accountability for assets and liabilities is maintained, based on the information and explanations given by management and the internal auditors and discussions with the independent external auditors on the result of their audits the status in addressing the matters raised.

Nothing significant has come to the attention of the Audit Committee other than the matters referred to in the National Commissioner and Auditor-General reports to indicate that any material breakdown in the functioning of these controls, procedures and systems has occurred during the year under review.

The Audit Committee has evaluated the annual financial statements of the SAPS for the year ended 31 March 2013 and, based on the information provided to the Audit Committee, it complies, in all material respects, with the requirements of the Public Finance Management Act, 1999 (Act No 1 of 1999) as amended and the South African Statements of Generally Recognised Accounting Practice. The Audit Committee concurs that the adoption of the going concern premise in the preparation of the annual financial statements is appropriate. At their meeting held on 27 May 2013 the Audit Committee recommended the adoption of the Annual Financial Statements.

The Audit Committee has met with the Auditor-General to discuss the audit report and the Audit Committee concurs with the report and the opinions issued by the Auditor-General on the financial statements of the SAPS. The Audit Committee has also reviewed the performance information as included in the Auditor-Generals report and the management letter, and the Audit Committee is of the opinion that the Accounting Officer should be afforded time to consider the content of this report.

B NGUNJIRI  
Chairperson

</table>

*Note: The Head of Department/Chief Executive Officer and Senior Managers are, by their very nature, critical occupations, but have not been separately listed. Hence critical occupations have been addressed within the Occupational Classes of Aircraft Pilots; Architects; Chemists (Physical Science, Chemical Science, Pharmacists
& Health Science Related); Engineer & related professionals (Electronic & Engineering science); General Legal
Administration & Related Professionals (Attorneys, Legal Administration & Legal related); Natural science; Police
(Functional Personnel SAPS) and Psychologists & vocational science. The critical occupations (Occupational
Classes) do not reflect all the positions filled within SAPS, but only those, which are considered as a priority for
the optimal functioning of SAPS’s core functions.

Reasons for vacancies not advertised within 6 months

In compliance - Please refer to note

Reasons for vacancies not filled within 12 months

One post was evaluated and advertised on SMS Band B at Visible Policing and was filled by means of a lateral transfer.

TABLE 3.5 - DISCIPLINARY STEPS TAKEN FOR NOT COMPLYING WITH THE PRESCRIBED TIME FRAMES FOR FILLING SMS POSITIONS WITHIN 12 MONTHS

Not applicable

Note: Positions are funded over a multi-year period according to predetermined targets of the total establishment, taking into account personnel losses. Vacant positions at a certain level or in terms of a specific business unit are therefor planned and regarded as funded only upon the date of advertisement. With reference to table 3.3, a total of 20 positions have been advertised and in process of consideration or review.

4. JOB EVALUATIONS

The Public Service Regulations, 1999 introduced job evaluation as a way of ensuring that work of equal value is remunerated equally. With regard to the SAPS, the Equate Job Evaluation System is utilized to determine the salary levels for positions on National and Provincial levels whereas the Resource Allocation Guide (RAG) is utilized to determine salary levels for station positions. Table 4.1 indicates the number of positions evaluated by utilizing the two systems.

ABBREVIATION

DIVISIONAL COMMISSIONER: TECHNOLOGY MANAGEMENT SERVICES

The senior manager was appointed as the Divisional Commissioner: Technology Management Services at the level of Lieutenant General. He has been in the Information and Technology industry for 20 years and the senior manager’s experience includes Software Development/System Analysis & Design/Systems Management/Project Management/Systems Architecture (large and distributed)/IT Strategy/Industry Solutions and Networking. The senior manager is competent and able to facilitate and implement new opportunities for information technology in the SAPS.

PILOTS

Two members formed part of a Designated Pilot Training Programme. They successfully completed their training and one member qualified to be appointed as a Fully Operational Pilot (Lieutenant) and the other member qualified to be appointed as one Junior Pilot (Warrant Officer).

FORENSIC ANALYST

A member attached to the Forensic Science Laboratory has completed a Bachelor of Science Degree. The member was trained as a Evidence Recovery Specialist and has met the requirements for appointment as Forensic Analyst (Warrant Officer) which is the entry level of the occupation

MEMBERS IN POSSESSION OF PHILOSOPHIAE DOCTOR (PHD) QUALIFICATIONS

Five members in possession of a PHD qualification were promoted to the rank of Lieutenant Colonel. The skills of persons with PHD qualifications are sought after in the open labour market and the skills competencies of members with PHD qualifications relevant to their working environment has to be retained as far as possible.

SECTION HEAD: FORMER PRESIDENTS, FOREIGN HEAD OF STATES AND DIARY MANAGEMENT: PRESIDENTIAL PROTECTION SERVICES

A member attached to the Presidential Protection Services as a National Commander possesses the relevant skills and given the member’s performance in exercising duties, the member was appointed at the level of Brigadier in the said post.

DETECTIVE SERVICE

A Detective attached to the Stock Theft Unit since 1988 was promoted to the rank of Lieutenant. The member is vastly experienced in all Stock Theft related matters and was responsible for the training of 1450 members during Stock Theft courses. The member further presented a lecture on Organized Stock Theft Operations to SARPCCO and was also invited to the Ivory Coast and Tanzania.
6. **Employment Equity**

The tables in this section are based on the formats prescribed by the Employment Equity Act, 55 of 1998.

<td>785</td>
<td>179</td>
<td>22.8</td>
</tr>
</tbody>
</table>

Note: The signing of performance agreements is captured on the SAPS PERSAP system. The information above reflects the total number of senior managers that, according to the system, signed their performance agreement by 31 May 2012. Information of senior managers that were not required to conclude a performance agreement (i.e. external deployment, newly appointed, etc), were excluded from the above.

TABLE 7.2 - REASONS FOR NOT HAVING CONCLUDED PERFORMANCE AGREEMENTS FOR ALL SMS MEMBERS

The SAPS Employment Regulations allow for signing of performance agreements by the end of July of each year. This is due to the fact that information from some systems only becomes available by the end of May whereafter senior managers are required to customise their performance agreements in terms of the available information. By the end of July 2012 (in accordance with SAPS Employment Regulations), 95% of the senior managers had signed performance agreements.

TABLE 7.3 - DISCIPLINARY STEPS TAKEN AGAINST SMS MEMBERS FOR NOT HAVING CONCLUDED PERFORMANCE AGREEMENTS

No reports have been received with regard to the institution of formal disciplinary steps. A process has been initiated to implement sanctions in the form of withholding of pay progression from non-complying senior managers.

To encourage good performance, the department has granted the following performance reward during the year under review.

8. FOREIGN WORKERS

The Department did not employ any foreign workers for the period 1 April 2012 to 31 March 2013.

9. LEAVE

The Public Service Commission identified the need for careful monitoring of sick leave within the public service. The following tables provide an indication of the use of sick leave (Table 9.1) and disability leave (Table 9.2). In both cases, the estimated cost of the leave is also provided.

<tr>
<td>1. Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2001? If so, provide her/his name and position.</td>
<td>X</td>
<td></td>
<td>Acting Deputy National Commissioner: Human Resources Management (NNH Mazubuko). Private Bag X94 Pretoria, 0001 Tel No: 012 393 4472 Fax no: 012 393 2454</td>
</tr>
<tr>
<td>2. Does the department have a dedicated unit or have you designated specific staff members to promote health and well being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.</td>
<td>X</td>
<td></td>
<td>The Employee Health &amp; Wellness Component consists of four Sections namely; Social Worker Services, Psychological Services, Spiritual Services and Quality of Work Life, comprising of professionals who are mainly responsible for the psycho-socio and spiritual well-being of all SAPS employees, as well as their immediate family members. There are approximately 600 professionals employed within the EHW environment, rendering care and support to SAPS employees nationally. The Section Quality of Work Life (QWL) comprises of HIV &amp; AIDS and Disability Management, which are budgeted Programmes. To date, there has been an annual budget of 5 million and 4 million respectively for both programmes.</td>
</tr>
<tr>
<td>3. Has the department introduced an Employee Assistance or Health Promotion Programme for your employees? If so, indicate the key elements/services of the programme.</td>
<td>X</td>
<td></td>
<td>The Component Employee Health and Wellness delivers services of which key element are wellness support programmes, such as stress and trauma management, suicide prevention, spiritually based programmes, personal financial management, colleague sensitivity, HIV &amp; Aids programmes, disability sensitisation programmes, substance abuse programmes, relationship programmes, personal wellness programmes ad anger management programmes. The wellness support programmes are expanded to include health promotion programmes whereby employees are being tested for HIV and other chronic conditions such as high blood pressure, diabetes, cholesterol and body mass index on voluntary basis. Reasonable accommodation is provided for employees with disability to enhance productivity levels.</td>
</tr>
<tr>
<td>4. Has the department established (a) committee(s) as contemplated in Part VI E.5 (e) of Chapter 1 of the Public Service Regulations, 2001? If so, please provide the names of the members of the committee and the stakeholder(s) that they represent.</td>
<td>X</td>
<td></td>
<td>The Division Personnel management within SAPS is the custodian of the National Wellness Strategic Forum which is a monitoring vehicle of all aspects related to the health and wellness of SAPS employees including their immediate family members. The forum consists of representatives from various Divisions within SAPS such as Divisional Commissioner of Personnel Management (Chairperson), Human Resource Development, legal Services, Supply Chain Management, Human Resource Utilization as well as Organized Labour (POPCRU and SAPU). There are key external role-players such as Department of Public Works, Polmed, GEMS and SAPS’s Health Risk Manager. Similar structures have been established in the Provinces. Both the national and provincial wellness fora are expected to convene on a quarterly and strategic reports are shared amongst all the role-players regarding the health and wellness of employees.</td>
</tr>
</tbody>
</table>
5. Has the department reviewed the employment policies and practices of your department to ensure that these do not unfairly discriminate against employees on the basis of their HIV status? If so, list the employment policies/practices so reviewed.

X

The revised SAPS HIV&AIDS Workplace Policy is aligned to Chapter 2 of the Constitution of the Republic of South Africa (Bill of Rights) and related Acts.

6. Has the department introduced measures to protect HIV-positive employees or those perceived to be HIV-positive from discrimination? If so, list the key elements of these measures.

X

The revised SAPS HIV&AIDS Workplace Policy is aligned to Chapter 2 of the Constitution of the Republic of South Africa (Bill of Rights) to ensure that employees infected and affected by HIV&AIDS are not discriminated against. The policy further articulates the significance of ensuring that SAPS employees who contracts HIV through occupational and accidental exposure are being compensated accordingly as outlined in the Compensation of Injuries and Diseases Act and Occupational Health and Safety Act. The SAPS HIV&AIDS awareness programme contains a module which is aimed at empowering employees on dealing with stigma and discrimination of HIV infected employees on the basis of their HIV positive status and how supervisors and managers must address related challenges. HIV&AIDS a positive employees are also mobilized to become activists and ambassadors through programmes such as Greater Involvement of People Living with HIV&AIDS (GIPA) and Meaningful involvement of People Living with HIV&AIDS (MIPA).

7. Does the department encourage its employees to undergo Voluntary Counselling and Testing? If so, list the results that you have achieved.

X

During the 2012/2013 financial year, SAPS HIV&AIDS Workplace Programme was mandated to expose 15% of the total SAPS establishment to HIV Counselling and Testing (HCT) services. 10.5% of the total establishment was screened against the set target.

8. Has the department developed measures/indicators to monitor & evaluate the impact of your health promotion programme? If so, list these measures/indicators.

X

Organisational indicators, e.g. The Suicide rate and health illness trends (top 5 diseases), as well as referrals to medical boards are constantly being monitored.

Note: The total number of permanent disablement represents incidents from previous years concluded in the 2012/2013 financial year.

14. UTILISATION OF CONSULTANTS

See page 231 which refers to goods and services, of which “consultants, contractors and special services” is a sub-classification.
1. General review of the state of financial affairs

The main appropriation for the Department, included in the 2012 Estimates of National Expenditure, amounted to R62 485 359 000. The 2012 Adjustments Estimates of National Expenditure included an additional amount of R903 330 000, essentially to allow for the implementation of projects in the CJS Revamp Programme, security arrangements for the African Cup of Nations tournament and higher personnel remuneration increases than the main budget provided for. This amount increased the budget of the SAPS to R63 388 689 000. It represents an increase of 9.4% over the previous financial year’s adjusted allocation of R57 933 121 000.

The total expenditure for the 2012/13 financial year amounted to R63 156 593 000, which represents a spending rate of 99.6%. The expenditure was made up as follows:

<table>
<thead>
<tr>
<th>Expenditure</th>
<th>2011/12 R'000</th>
<th>2012/13 R'000</th>
<th>Increase/Decrease %</th>
</tr>
</thead>
<tbody>
<tr>
<td>* Compensation of Employees</td>
<td>42 427 702</td>
<td>46 824 559</td>
<td>10.4%</td>
</tr>
<tr>
<td>* Operational costs</td>
<td>15 505 419</td>
<td>16 332 034</td>
<td>5.3%</td>
</tr>
<tr>
<td>Total expenditure</td>
<td>57 933 121</td>
<td>63 156 593</td>
<td>9.0%</td>
</tr>
</tbody>
</table>

The surplus on the vote for the 2012/13 financial year amounts to R232,096 million. This unspent amount comprises the following:

→ An analysis of CJS expenditure in 2012/13 reflects that R1,910 billion was spent of an allocated R2,143 billion – i.e. 89.2%. (In other words R232 million or 10% of the allocated amount was not spent primarily within the technology and forensic environments).

→ Unspent from normal operational budget R 0,014 million.

→ Spending on compensation of employees remained the most significant expense in the Department’s vote.

Programme spending, if compared to the adjusted allocation for the year, was as follows:

<table>
<thead>
<tr>
<th>Programmes</th>
<th>Adjusted Estimates R'000</th>
<th>Actual expenditure R'000</th>
<th>Virement R'000</th>
<th>Variance %</th>
<th>Remainder/Unspent funds R'000</th>
</tr>
</thead>

<td>63 156 593</td>
<td>0</td>
<td>-</td>
<td>232 096</td>
</tr>
</tbody>
</table>
The reasons for applying virement are the following:

**PROGRAMME 1: ADMINISTRATION**

A net underspending realised as a result of the full amount allocated for buildings and other infrastructure (capital works) not being used fully and goods and services emanating from a reduced spending level on network and hosting services, among other things.

**PROGRAMME 2: VISIBLE POLICING**

Due to the increase in fuel and oil, goods and services realised a net overspending on allocated funding.

**PROGRAMME 3: DETECTIVE SERVICE**

With a specific focus on enhancing the capacity of the Detective Service (general detectives), funding was required for this programme for compensation, goods and services and capital purchases (machinery and equipment, e.g. vehicles).

**PROGRAMME 4: CRIME INTELLIGENCE**

The net variance is mainly for less capital purchases than initially anticipated.

**PROGRAMME 5: PROTECTION AND SECURITY SERVICES**

The net variance is mainly for a lower spending level under compensation of employees.

The programme expenditure trend in the past two financial periods was as follows:

<table>
<thead>
<tr>
<th>Programme spending</th>
<th>2011/12 R'000</th>
<th>2012/13 R'000</th>
<th>Increase/ (Decrease)</th>

</tr>
</tbody>
</table>

The Department’s estimates will increase to R67,917 billion in 2013/14, R71,914 billion in 2014/15 and R75,853 billion in 2015/16. The budget over the medium term period will grow at an average annual rate of 6.2%.

2. **Services rendered by the Department**

2.1 **SERVICES RENDERED**

Apart from the Department’s core responsibilities, various other internal and extra-departmental services were rendered in terms of the Promotion of Access to Information Act, 2000 (Act No 2 of 2000) and the Firearms Control Act, 2000 (Act No 60 of 2000). As the purpose of the Promotion of Access to Information Act, 2000, is to give full effect to the constitutional right of the public to access any information held by the State, it is the Department’s objective to foster a culture of transparency and accountability towards the public and to actively promote a society in which the people of the Republic of South Africa have effective access to information, thereby enabling them to exercise and protect all of their rights.
The aim of the Firearms Control Act, 2000, is to address firearm-related crime by removing illegally-possessed firearms from society and to ensure effective control over firearms owned legally by individuals and Government.

A list of services rendered is included under the heading *Overall Performance* in the Annual Report.

### 2.2 Tariff Policy

Fees, charges and tariffs that are not or cannot be fixed by any law and that relate to revenue accruing to a revenue fund are considered by a Tariff Committee.

### 2.3 Auxiliary Services

The Department caters for those services that have been classified as functional responsibilities of the Department and include the provision of:

- nutrition to detainees
- nutrition to resident members in some official quarters
- nutrition to members at SAPS training facilities
- services to members who participate in certain official activities such as sport, recreational and cultural activities.

### 3. Capacity Constraints and Improvements

Over the past ten years, the Department managed to increase its staffing compliment quite substantially, together with the associated goods and capital infrastructure, in order to address the capacity needs. The Department’s staffing compliment was 198 224 as at the end of March 2013.

Over the medium term period ahead, the Department will be able to replace vacancies that arise due to personnel losses, and estimates a situation where personnel numbers stabilize on a total of 199 936.

### 4. Utilization of Donor Funds

**China**

The People’s Republic of China and the Republic of South Africa entered into a cooperation agreement regarding the prevention, detection, suppression and investigation of criminal activities. The cooperation also included the following areas:

- Personnel management and training
- Public Order Policing
- Crime Prevention.

The SAPS sent forty-three (43) members for training in seven (7) courses offered by China.
The bilateral police cooperation between the Department and the French Government primarily focused on operational and technical training. The cooperation expanded over the years and was split into the following two strategic programmes in 2010:

→ The “105 Programme”
The programme runs annually and is allocated a small budget from the French Government. The name: “105 Programme” was derived from nomenclature financial codes used in the French Finance Ministry. The programme is funded by several Ministries of the French Government.

→ The Enhlangano Project
The purpose of the project is to strengthen the capacity of the SAPS in dealing with the threat of criminal networks, including the procurement of requested equipment. Seven (7) Enhlangano programmes were presented to the Department.

In terms of the above programmes, the French Government provided training on transnational crime, which includes efficient border control; strengthening the capacity of specialist detective and investigative units; developing the crime scene management capacities of technical and scientific/forensic police units; crime intelligence-gathering capacity on terrorism; crowd management and professional interventions training (of which two members received training as crowd management trainers); and cockpit and flight safety which were funded by the French Government. Overall, one hundred and seventy-six (176) SAPS officers from the operational environment were trained in this regard.

BELGIUM
The Department continues to sustain police-to-police cooperation regarding harbour-related training interventions.

Five (5) courses were presented to equip members of the Department with the necessary skills to manage harbour-related matters. A total of one hundred and ten (110) SAPS members were trained.

Furthermore, the “Programme to Support the Planning and Management for Improved Organisational Performance” in the Strategic Management Component of the SAPS, which is funded by the Belgian Government as part of a bilateral support programme with South Africa and is aimed at equipping SAPS members with the necessary knowledge and skills to provide strategic direction and facilitate planning processes in the organization, continued in this period. During the 2012/2013 financial year, 15 members started on the programme, which will conclude in July 2013.

SUDAN
In terms of the SAPS/Sudan Development Assistance Programme Implementation Plan for 2009-07-01 to 2011-12-31, submitted by the Department to the Government of Norway, the Department was appointed as the implementing agency and the Human Resources Development Division was made responsible for implementing it. A total of eighty-one (81) members from Sudan were trained during the financial year, including a total of seven (7) dogs (four (4) dogs in narcotics detection and three (3) in explosives detection).

5. Organisations to which transfer payments have been made
In terms of the Skills Development Act, 1998 (Act No 97 of 1998), and the Skills Development Levies, 1999 (Act No 9 of 1999), an amount of R29,571 million was paid to the Safety and Security Sector Education and Training Authority in 2012/13.
6. **Corporate governance arrangements**

A significant set of laws, policies, processes and practices is applicable to the SAPS and affects the way the SAPS is directed and controlled. Some of those aspects are the following:

6.1 **Fraud prevention policies**

The combat unit of corruption was approached from two perspectives, the first being the key role that the Department has to play in the combating of corruption and fraud within the context of the JCPS Cluster outputs, and the second being the combating of corruption and fraud specifically in the SAPS.

Output 3 in the Refined Delivery Agreement 3 comprises two dimensions focusing the Cluster on reduced levels of corruption in the entire country and on reducing corruption within the Cluster so as to enhance its overall effectiveness. The Cluster has adopted a multidisciplinary approach to the combating of corruption both within the Cluster and the country to ensure the proper coordination of government resources. This approach, in which the Department adopted a central role, coordinates the activities of the Anti-Corruption Task Team (ACTT) in the DPCI with other key Cluster departments. The ACTT has progressed the detection and investigation of persons who personally benefitted to the extent of R5 million or more as a result of their involvement in corruption. The activities of the ACTT are supported, *inter alia*, by the Asset Forfeiture Unit and the South African Revenue Service to ensure the imposing of freezing orders and the recovery of the proceeds of corruption. In the period under review, the ACTT has successfully detected and investigated officials from numerous government departments and private companies, recovering significant proceeds of corrupt activities and ensuring the investigation and prosecution of implicated officials.

The Department has maintained its zero tolerance approach to corruption and fraud to its members by improving the detection and investigation of members involved in corrupt and fraudulent practices. This has resulted in an increase in the number of members detected and investigated on charges of corruption and fraud. The criminal investigation of members has been augmented by departmental action against affected members, however, the detection of members involved in corruption and fraud must be advanced in partnership with the Department’s stakeholders in government and the private sector. Prevention remains the primary focus of the Department’s anti-corruption approach with several initiatives having been implemented to increase members’ awareness of the nature, causes and consequences of corruption and fraud.

6.2 **Management processes to minimise conflict of interest**

The requirement for minimizing conflict of interest is currently focused on specific human resources-related practices, such as disclosure of financial interest by senior management, Supply Chain Management practices relating to the procurement of goods and services and the performance of remunerative work. These practices are regulated by government policy, including National Treasury Practice Notes and specific internal policies, such as various National Instructions.

Financial disclosure by SAPS members, regulated by the SAPS Employment Regulations, is applicable to members of personnel on salary levels 13 and higher. The SAPS complied with the disclosure of financial interest requirements by senior managers during the period under review.

Prescripts also require the completion of the declaration of interest documentation prior to the conducting of key administrative practices such as bid adjudication meetings and selection panels.

The performance of remunerative work outside of the public service is managed annually and members are required to apply for permission to perform such work in line with certain criteria and restrictions.

6.3 **Approach to risk management**

The Department’s identified specific risks that impact on the Strategic Plan 2010 - 2014 and Annual
Performance Plans that support its implementation. The strategic risks identified are aligned with the strategic objectives, priorities and the financial programme structure with the express intention of ensuring the mitigation of the risks over the medium-term towards the improving of organizational performance. This alignment enables the delineation of the risks in accordance with input and output programmes and the structuring of appropriate mitigation responses to the risks at all levels, as the identified strategic risks impact largely on the SAPS’s service delivery level.

The Department has achieved significant mitigation of the majority of the strategic risks during the period under review. Input risks in respect of which mitigation has been progressed, include the murder of police officials, the loss and theft of SAPS firearms and collisions involving SAPS vehicles. Output-focused risks that have been mitigated, include inadequate police response at local level, focusing on reaction times to complaints and criminal conduct by SAPS members.

The internal control activities designed to achieve the mitigation of the strategic risks during 2012/13 will be developed further and extended to the 2013/14 financial year to ensure the progression of mitigation to the extent that the strategic risks may be removed from the strategic risk register at the end of the medium-term without compromising on the effectiveness of established internal controls.

The enhancement of the Enterprise Risk Management approach towards the improving of an integrated approach to reasonable assurance was progressed through the development of an Enterprise Risk Management Strategy (ERMS). The ERMS will be finalized for implementation during 2013/14.

### 6.4 Implementation and Assessment of the Code of Conduct

The SAPS’ Code of Conduct provides a standard for SAPS members to implement the constitutional mandate. The focus in terms of the implementation of the Code of Conduct remains that new entrants to the organisation, including both new and lateral entrants, must receive induction regarding the content and significance of the Code. In furthering the institutionalisation of the Code among existing members, the Department adopted a vigorous approach to the internal communication of the various elements of the Code, aligning these elements with basic policing functions. Serious contraventions of the Code by members were a prominent feature of internal communication, highlighting the harm caused to the member and the entire Department.

### 6.5 The Requirements of the King III Report

The Department has improved its corporate governance based on the analysis of its extent of compliance with the King III Code of Corporate Governance. Measures have been implemented to advance ethical leadership and corporate citizenship, including the role and functions of boards and committees within the Department. The Audit Committee continues to provide valuable oversight of integrated reporting, internal and financial controls, the governance of risk and the internal audit function. The governing of stakeholder relationships is an element of the Code that has progressed during 2012/13, inclusive of both internal and external stakeholders, and focusing on creating internal and external engagement platforms, guided by transparent communication. The Department has maintained its integrated reporting and disclosure initiatives supported by improvements to other contributing dimensions of the Code.

### 6.6 Effectiveness of Internal Audit and Auditing Committee

The internal audit function’s planning and approach are informed by the risk assessment of the Department and it directs its efforts to align with business performance. Internal audit, as a significant role player in governance, contributes to the endeavor to achieve strategic objectives and provides an effective challenge to all aspects of the governance, risk management and internal control environment. Risk-based, performance, forensic and information technology audits have been completed and reported to the Accounting Officer and the Audit Committee. The Component Head: Internal Audit, also known as the Chief Audit Executive (CAE), has a standing invitation to attend the Top Management Forum as an invitee to give regular feedback on internal audit matters and also protect the independence of the internal audit
The mission of the SAPS Internal Audit is to provide independent, objective assurance and consulting services designed to add value and improve operations.

The Audit Committee has been established in terms of section 77 of the Public Finance Management Act. The Committee has a Charter which defines its authority, mandate and responsibilities. The CAE has full and independent access to the Accounting Officer, Chairman of the Audit Committee and top management of the Department. The Committee has fulfilled its responsibilities in terms of its Charter.

6.7 SAFETY, HEALTH AND ENVIRONMENT-RELATED MATTERS

Safety Health and Environment (SHE) Management aims at promoting a safe and healthy environment by providing a framework that allows the Department to consistently identify and prevent its health and safety risks, reduce the potential for accidents, aid legislative compliance and improve overall performance.

SHE Management is also responsible for ensuring the health and safety of all personnel in the execution of their daily duties.

Ongoing projects to improve health and safety

Legal Compliance Audits (inspections) at SAPS workplaces:

- Seventy-five per cent of planned audits were carried out (25% carried over to 2013/2014)

Medical surveillance:

- Twenty-two thousand nine hundred and seven medical authorizations (The target depends on applications).

Specifications for the following were compiled:

- Personal protective equipment (coveralls, safety glasses (shooting range) face gas mask, armguard bite sleeve, respirators and bite suit)
- Bomb-disposal vehicle
- Roadblock trailer
- Crime-scene vehicle
- Gas installation (LPG)
- K9 box (dog cage)
- Rifle safety

A Communication Plan to promote awareness on health and safety within the Department.

- Eight information sessions were conducted.

Development of Safe Working Procedures and Standards for Health and Safety:

- Disposal of hazardous waste
- Food Hygiene Guideline
Signage

Induction to the workplace

Standard for First Aid.

All reported incidents in the Department were investigated, and a report was sent to the Department of Labour.

Two fatality cases were investigated.

Two fire cases were investigated.

One non-fatality case was investigated.

All the personnel of the Department, including all the communities, are valued assets and clients.

7. Asset management

Assets have been captured on the asset register of the Department and an annual stocktaking certificate of the department has been submitted to National Treasury.

The minimum requirements for asset management have been achieved in terms of compliance (in terms of feedback on the moderated MPAT 2012/2013 assessment).

Threshold values in terms of asset classification have been revised to effectively report on financial threshold values as prescribed in the Asset Management Framework.

8. Inventories

The inventories on hand at year-end are included in Annexure 6.

9. Information on predetermined objectives

During 2012/13, the Department compiled an Annual Performance Plan (APP) 2012/13, which comprises objectives, priorities, performance indicators, baselines and Medium Term Expenditure Framework (MTEF) targets, developed in consultation with National Treasury and the Presidency.

Quarterly reports were compiled in line with National Treasury’s “Quarterly Performance Reporting Guidelines” to monitor progress regarding the implementation of priorities, performance indicators and targets, as described in the APP, and took corrective measures where necessary.

A framework for the management and reporting of performance information was developed. This framework captures process flows for each performance indicator as described in the APP. The process flows include the sources of information, existing systems of measure, technical indicator description and reporting lines. An action plan was developed to implement corrective measures to address the findings issued by the Auditor-General during the audit of predetermined objectives against targets for 2011/12. Monthly progress reports on the implementation of the plan were submitted to the SAPS Audit Committee, the Auditor-General and Internal Audit.

The SAPS has, in collaboration with the office of the Auditor-General, commenced with workshops at provincial offices to sensitise all station commanders on the auditing of predetermined objectives.
10. **SCOPA resolutions**

The following progress has been made regarding SCOPA resolution 1/2009:

<table>
<thead>
<tr>
<th>Reference to previous audit report and SCOPA resolutions</th>
<th>Subject</th>
<th>Findings on progress</th>
</tr>
</thead>
<tbody>
<tr>
<td>Training: - Exposing members to training - Training database - Training budget.</td>
<td></td>
<td>Substantial progress</td>
</tr>
<tr>
<td>Community Service Centres: - Access for people with disabilities - Infrastructure of police stations.</td>
<td></td>
<td>Substantial progress</td>
</tr>
<tr>
<td>Domestic violence: - Compliance with National Instruction and Domestic Violence Act.</td>
<td></td>
<td>Substantial progress</td>
</tr>
<tr>
<td>Bullet-resistant vests: - Issuing of bullet-resistant vests.</td>
<td></td>

</tr>
<tr>
<td>10111 Call centres: - Compliance with norms and standards - Shortcomings in respect of equipment and people - Contingency plans - Training.</td>
<td></td>
<td>Substantial progress</td>
</tr>
</tbody>
</table>

11. **Prior modifications to audit reports**

<table>
<thead>
<tr>
<th>Nature of qualification, disclaimer, adverse opinion and matters of non-compliance</th>
<th>Financial year in which it first arose</th>
<th>Progress made with clearing/resolving the matter</th>
</tr>
</thead>
</table>
| **Visible policing – reporting indicators reported on through the case administration system (CAS) inadequate audit trail to verify the completeness** 58% (>20%) of the positive Incident Reports (IR) (10111 calls that should result in a docket) were not linked to dockets on the Crime Administration System (CAS). | 2011/2012 | - Various steps were taken to link positive IR numbers for the period 1 April 2012 to 31 March 2013 with case dockets on CAS.  
- A draft Standard Operational Guideline for 10111 call centres and police stations has been developed to support the correlation and linkage of case numbers to positive cases. The final document will be implemented in May 2013.  
- Provincial Commissioners were encouraged to establish 10111 Call Centre Management Forums to monitor the linkage of positive IR numbers with case numbers. |

| Visible policing – reporting indicators not complete  
A total of 30% (>20%) of the actual reported drugs seized relevant to Programme 2: Visible Policing was not complete when compared to source information. | 2010/11 | - The system to record recoveries was enhanced to address various issues such as control and accountability.  
- Specifications to procure weighing scales and a tender process for procurement to put weighing scales at selected FSLs, have been finalised.  
- A draft Standard Operational Procedure and a training manual relating to the use of the relevant system have been developed.  
- As on 31 March 2013, a total number of 1 285 members from provincial, cluster and police station level were trained in using the improved system.  
- Various divisional instructions relating to the development and registration of operational plans and the recording of successes, have been issued. |
12. Interim Financial Statements

According to National Treasury Practice Note 1 of 2012/2013, departments were required to complete Interim Financial Statements (IFS) for the periods ending 30 June 2012, 30 September 2012, 31 December 2012 and 31 March 2013 and submit these statements on 31 July 2012, 31 October 2012, 31 January 2013 and 30 April 2013, respectively.

The Department complied with the prescripts in all instances. The compilation of quarterly IFS ensured structured management information for decision-making purposes, as well as the assurance of complete and accurate Annual Financial Statements.

13. Other Matters

13.1 Contingent Liabilities: Civil Claims

An analysis of civil claims instituted against the Department over the past two (2) financial years of which a settlement was reached, or court order issued during a specific financial year, revealed that the amounts paid compared to the original claim amounts, which were settled during a financial year, is on average 4,98%. In other words on average 95,02% from original claim amounts is cancelled or reduced during the settlement process.

14. Approved

The Annual Financial Statements set out from pages 206 to 260, as well as a set of Annual Financial Statements compiled for consolidation purposes, have been approved by the Accounting Officer.

GENERAL
NATIONAL COMMISSIONER: SOUTH AFRICAN POLICE SERVICE
MV PHIYEGA

Date: 2013 - 05 - 28
STATEMENT OF RESPONSIBILITY FOR THE ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2013

The Accounting Office is responsible for the preparation of the department’s annual financial statements and for the judgements made in this information.

The Accounting Officer is responsible for establishing, and implementing a system of internal control designed to provide reasonable assurance as to the integrity and reliability of the annual financial statements.

In my opinion, the financial statements fairly reflect the operations of the department for the financial year ended 31 March 2013.

The external auditors are engaged to express an independent opinion on the AFS of the department.

The Department of Police AFS for the year ended 31 March 2013 have been examined by the external auditors and their report is presented on page 201.

The Annual Financial Statements of the Department set out on pages 206 to 260 have been approved.

GENERAL
NATIONAL COMMISSIONER: SOUTH AFRICAN POLICE SERVICE
ACCOUNTING OFFICER
MV PHIYEPA

Date:
REPORT OF THE AUDITOR-GENERAL
TO PARLIAMENT ON VOTE NO. 25
DEPARTMENT OF POLICE
for the year ended 31 March 2013

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the financial statements of the Department of Police set out on pages 206 to 260, which comprise the appropriation statement, the statement of financial position as at 31 March 2013, the statement of financial performance, statement of changes in net assets and the cash flow statement for the year then ended, and the notes, comprising a summary of significant accounting policies and other explanatory information.

Accounting officer’s responsibility for the financial statements

2. The accounting officer is responsible for the preparation of these financial statements in accordance with The Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the Public Finance Management Act of South Africa, 1999 (Act No. 1 of 1999)(PFMA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor-General’s responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the General Notice issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Police as at 31 March 2013, and its financial performance and cash flows for the year then ended in accordance with The Departmental Financial Reporting Framework prescribed by the National Treasury and the requirements of the PFMA.

Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.
Significant uncertainty

8. With reference to note 18 to the financial statements the department is disclosing a contingent liability for the lease contract of the Pretoria building. The Department of Public Works applied for a declaratory order in the Sanlam Middestad lease agreement for the court to make a ruling on the legality or otherwise of the lease agreement and papers were filed.

9. The full extent of the possible irregularities, as disclosed in note 24 to the financial statements, is still in the process of being determined.

Material under-spending

10. As disclosed in the appropriation statement, the department utilized R63,157 billion (99.6%) of its total budget. An amount of R232 million (0.4%) (2012: R617 million (1.1%)) remained unspent at year-end. This under spending resulted from delayed procurement processes in the Criminal Justice System (CJS) as relating to Program 3: Detective Services.

Additional matters

11. I draw attention to the matters below. My opinion is not modified in respect of these matters.

Financial reporting framework

12. The financial reporting framework prescribed by the National Treasury and applied by the department is a compliance framework. The wording of my opinion on a compliance framework should reflect that the financial statements have been prepared in accordance with this framework and not that they “present fairly”. Section 20(2)(a) of the PAA, however requires me to express an opinion on the fair presentation of the financial statements. The wording of my opinion therefore reflects this requirement.

Unaudited supplementary schedules

13. The supplementary information set out in annexures 1 to 8 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and accordingly I do not express an opinion thereon.

Report on other legal and regulatory requirements

14. In accordance with the PAA and the General Notice issued in terms thereof, I report the following findings relevant to performance against predetermined objectives, compliance with laws and regulations and internal control, but not for the purpose of expressing an opinion.

Predetermined objectives

15. I performed procedures to obtain evidence about the usefulness and reliability of the information in the annual performance report as set out on pages 33 to 34, 72 to 75, 107 to 110, 143 and 147 of the annual report.

16. The reported performance against predetermined objectives was evaluated against the overall criteria of usefulness and reliability. The usefulness of information in the annual performance report relates to whether it is presented in accordance with the National Treasury annual reporting principles and whether the reported performance is consistent with the planned objectives. The usefulness of information further
relates to whether indicators and targets are measurable (i.e. well defined, verifiable, specific, measurable and time bound) and relevant as required by the National Treasury Framework for managing programme performance information.

The reliability of the information in respect of the selected programmes is assessed to determine whether it adequately reflects the facts (i.e. whether it is valid, accurate and complete).

17. The material findings are as follows:

Reliability of information

Programme 2: Visible policing

18. The National Treasury Framework for managing programme performance information (FMPPI) requires that institutions should have appropriate systems to collect, collate, verify and store performance information to ensure valid, accurate and complete reporting of actual achievements against planned objectives, indicators and targets.

19. The following significant targets with respect to Programme 2 – Visible Policing are misstated:

   → 15% of positive incidents reported that should or should not have resulted in a case docket, cannot be verified due to inadequate information recorded on incidents reports.

   → Reaction time in respect of Alpha, Bravo and Charlie complaints captured on the CAS system could not be verified as no systems are in place by SAPS to confirm the reliability.

   → In 24% of the illicit drug success cases and 34% of the confiscated liquor cases reported, the actual achievement reported could not be verified against adequate supporting documentation. This was as a result of no reconciliation being done between the information recorded on the Operational & Management System (OPAM), the exhibit store register (SAP 13) as well as the CAS system.

   → 44% of the firearms applications could not be confirmed as the application forms were not available for audit and as a result I am not able to verify the actual reported number of licenses processed in the annual performance report. This was due to inadequate record keeping of the applications.

   → I was unable to verify actual achievement against targets for 14% of the reported incidents relating to medium to high risk events due to incomplete information recorded in the quarterly reports.

Additional matter

20. I draw attention to the matter below. My conclusion is not modified in respect of this matter:

Achievement of planned targets

21. Of the total number of planned targets for the year, 14 (2012: 18) targets were not achieved during the year. This represents 22% (2012: 32%) of total planned targets during the year under review.

22. The reasons for not achieving the targets are as per comments on the variances included in the annual report.
Compliance with laws and regulations

23. I performed procedures to obtain evidence that the entity has complied with applicable laws and regulations regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key applicable laws and regulations as set out in the General Notice issued in terms of the PAA are as follows:

Strategic planning and performance management

24. The department did not maintain an effective, efficient and transparent system and internal controls regarding performance management, which described and represented how the institution’s processes of performance planning, monitoring, measurement, review and reporting would be conducted, organised and managed, as required in terms of section 38(1)(a)(i) of the PFMA.

Internal control

25. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with laws and regulations. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the findings on the annual performance report and the findings on compliance with laws and regulations included in this report.

Leadership

26. Commanders at station level responsible for visible policing did not exercise oversight responsibility over reporting on predetermined objectives to ensure that entries occurred, were authorised and were captured (i.e. that reported information was complete).

27. Commanders at provincial level responsible did not exercise oversight ensuring adherence to internal controls, policies and procedures at programme / objective level and for the purposes of taking corrective actions.

Other reports

Investigations

Investigations conducted within the department

28. Eight Hundred and ninety two (892) members were charged for inter alia corruption, defeating ends of justice, fraud, aiding an escapee, bribery and extortion in terms of the department’s disciplinary regulations, in terms of the Prevention and Combating of Corrupt Activities Act, 2004 (Act No. 12 of 2004).

29. Twenty two (22) members were suspended: 14 without salary and 8 with salary. Eight hundred and seventy (870) members were not suspended. One thousand twenty six (1026) corruption charges were brought against members of whom ninety seven (97) members were charged with more than one crime.

External investigations conducted within the department

30. Special investigations are currently in process with regard to the procurement processes within SAPS. These investigations were still ongoing at the reporting date.
31. A performance audit was conducted on the department’s use of consultants. The audit focused on the economic, efficient and effective use of consultants by the department. The management report was issued during this year.

The Financial Statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. However, where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the Financial Statements and to comply with the statutory requirements of the Public Finance Management Act, Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the Act and the Division of Revenue Act, Act 1 of 2010.

1. Presentation of the Financial Statements

1.1 Basis of Preparation

The Financial Statements have been prepared on a modified cash basis of accounting, except where stated otherwise. The modified cash basis constitutes the cash basis of accounting supplemented with additional disclosure items. Under the cash basis of accounting transactions and other events are recognised when cash is received or paid.

1.2 Presentation Currency

All amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.

1.3 Rounding

Unless otherwise stated all financial figures have been rounded to the nearest one thousand Rand (R'000).

1.4 Comparative Figures

Prior period comparative information has been presented in the current year’s financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year’s financial statements.

1.5 Comparative Figures - Appropriation Statement

A comparison between actual amounts and final appropriation per major classification of expenditure is included in the Appropriation Statement.

2. Revenue

2.1 Appropriated Funds

Appropriated funds comprises of departmental allocations as well as direct charges against revenue fund (e.g. statutory appropriation).

Appropriated funds are recognised in the financial records on the date the appropriation becomes effective. Adjustments to the appropriated funds made in terms of the adjustments budget process are recognised in the financial records on the date the adjustments become effective.

Unexpended appropriated funds are surrendered to the National/Provincial Revenue Fund. Any amounts owing to the National/Provincial Revenue Fund at the end of the financial year are recognised as payable in the statement of financial position.

Any amount due from the National/Provincial Revenue Fund at the end of the financial year is recognised as a receivable in the statement of financial position.
DEPARTMENTAL REVENUE

All departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the National/Provincial Revenue Fund, unless stated otherwise.

Any amount owing to the National/Provincial Revenue Fund is recognised as a payable in the statement of financial position.

No accrual is made for the amount receivable from the last receipt date to the end of the reporting period. These amounts are however disclosed in the disclosure note to the annual financial statements.

DIRECT EXCHEQUER RECEIPTS

All direct exchequer receipts are recognised in the statement of financial performance when the cash is received and subsequently paid into the National/Provincial Revenue Fund, unless otherwise stated.

Any amount owing to the National/Provincial Revenue Funds at the end of the financial year is recognised as a payable in the statement of financial position.

DIRECT EXCHEQUER PAYMENTS

All direct exchequer payments are recognised in the statement of financial performance when final authorisation for payment is effected on the system (by no later than 31 March of each year).

AID ASSISTANCE

Aid assistance is recognised as revenue when received.

All in-kind aid assistance is disclosed at fair value on the date of receipt in the annexure to the Annual Financial Statements.

The cash payments made during the year relating to aid assistance projects are recognised as expenditure in the statement of financial performance when final authorisation for payments is effected on the system (by no later than 31 March of each year).

The value of the assistance expensed prior to the receipt of funds is recognised as a receivable in the statement of financial position.

Inappropriately expensed amounts using aid assistance and any unutilised amounts are recognised as payables in the statement of financial position.

All CARA funds received must be recorded as revenue when funds are received. The cash payments made during the year relating to CARA earmarked projects are recognised as expenditure in the statement of financial performance when final authorisation for payments effected on the system (by no later than 31 March of each year).

Inappropriately expensed amounts using CARA funds are recognised as payables in the statement of financial position. Any unutilised amounts are transferred to retained funds as they are not surrendered to the revenue fund.
3. **Expenditure**

3.1 **Compensation of Employees**

3.1.1 **Salaries and wages**

Salaries and wages are expensed in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March each year).

Other employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements at its face value and not recognised in the statement of financial performance or position.

Employee cost are capitalised to the cost of a capital project when an employee spends more than 50% of his/her time in the project. These payments form part of expenditure for capital assets in the statement of financial performance.

3.1.2 **Social contributions**

Employer contribution to post employment benefit plans in respect of current employees are expensed in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March each year).

No provision is made for retirement benefits in the financial statements of the department. Any potential liabilities are disclosed in the financial statements of the National Revenue Funds and not in the financial statements of the employer department.

Employer contributions made by the department for certain of its ex-employees (such as medical benefits) are classified as transfers to households in the statement of financial performance.

3.2 **Goods and Services**

Payments made during the year for goods and/or services are recognised as an expense in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

The expense is classified as capital if the goods and/or services were acquired for a capital project or if the total purchase price exceeds the capitalisation threshold (currently R5, 000). All other expenditures are classified as current.

Rental paid for the use of buildings or other fixed structures is classified as goods and services and not as rent on land.

3.3 **Interest and Rent on Land**

Interest and rental payments are recognised as an expense in the statement of financial performance when the final authorisation for payment is effected on the system (by no later than 31 March of each year). This item excludes the rental for the use of buildings or other fixed structures. If it is not possible to distinguish between payment for the use of land and fixed structures on it, the whole amount should be recorded under goods and services.

3.4 **Payments for Financial Assets**

Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings
and/or under spending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable amounts but an estimate is included in the disclosure notes to the financial statements amounts.

All other losses are recognised when authorisation has been granted for the recognition thereof.

3.5 TRANSFERS AND SUBSIDIES

Transfers and subsidies are recognised as an expense when the final authorisation for payment is effected on the system (by no later than 31 March of each year).

3.6 UNAUTHORISED EXPENDITURE

When confirmed unauthorised expenditure is recognised as an asset in the statement of financial position until such time as the expenditure is either approved by the relevant authority, recovered from the responsible person or written off as irrecoverable in the statement of financial performance.

Unauthorised expenditure approved with funding is derecognised from the statement of financial position when the unauthorised expenditure is approved and the related funds are received.

Where the amount is approved without funding it is recognised as expenditure in the statement of financial performance on the date of approval.

3.7 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is recognised as expenditure in the statement of financial performance according to the nature of the payment and not as a separate line item on the face of the statement. If the expenditure is recoverable it is treated as an asset until it is recovered from the responsible person or written off as irrecoverable in the statement of financial performance.

3.8 IRREGULAR EXPENDITURE

Irregular expenditure is recognised as expenditure in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority it is treated as an asset until it is recovered or written off as irrecoverable.

4. Assets

4.1 CASH AND CASH EQUIVALENTS

Cash and cash equivalents are carried in the statement of financial position at cost.

Bank overdrafts are shown separately on the face of the statement of financial position.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

4.2 OTHER FINANCIAL ASSETS

Cash and cash equivalents are carried in the Statement of Financial Position at cost.

4.3 PREPAYMENTS AND ADVANCES

Amounts prepaid or advanced are recognised in the statement of financial position when the payments are
made and are derecognised as and when the goods and services are received or the funds are utilised. Prepayments and advances outstanding at the end of the year are carried in the statement of financial position at cost.

4.4 RECEIVABLES

Receivables included in the statement of financial position arise from cash payments made that are recoverable from another party (including departmental employees) and are derecognised upon recovery or write-off.

Receivables outstanding at year-end are carried in the statement of financial position at cost plus any accrued interest. Amounts that are potentials irrecoverable are included in the disclosure notes.

4.5 INVENTORY

Inventories that qualify for recognition must be initially reflected at cost. Where inventories are acquired at no cost, or for nominal consideration, their cost shall be their fair value at the date of acquisition.

All inventory items at year-end are reflected using the weighted average cost or FIFO cost formula.

4.6 CAPITAL ASSETS

4.6.1 MOBILE ASSETS

Initial recognition
A capital asset is recorded in the asset register on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the movable capital asset is stated at fair value. Where fair value cannot be determined, the capital asset is included in the asset register at R1.

All assets acquired prior to 1 April 2002 are included in the register R1.

Subsequent recognition
Subsequent expenditure of a capital nature is recorded in the Statement of Financial Performance as “expenditure for capital asset” and is capitalised in the asset register of the department on completion of the project.

Repairs and maintenance is expensed as current “goods and services” in the Statement of Financial Performance.

4.6.2 IMMOBILE ASSETS

Initial recognition
A capital asset is recorded on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the immovable capital asset is stated at R1 unless the fair value for the asset has been reliably estimated.

Subsequent recognition
Work-in-progress of a capital nature is recorded in the statement of financial performance as “expenditure for capital asset”. On completion, the total cost of the project is included in the asset register of the department that is accountable for the asset.

Repairs and maintenance is expensed as current “goods and services” in the statement of financial performance.
5. **Liabilities**

5.1 **Payables**

Recognised payables mainly comprise of amounts owing to other governmental entities. These payables are carried at cost in the statement of financial position.

5.2 **Contingent Liabilities**

Contingent liabilities are included in the disclosure notes to the financial statements when it is possible that economic benefits will flow from the department, or when an outflow of economic benefits or service potential is probable but cannot be measured reliably.

5.3 **Contingent Assets**

Contingent assets are included in the disclosure notes to the financial statements when it is possible that an inflow of economic benefits will flow to the entity.

5.4 **Commitments**

Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance but are included in the disclosure notes.

5.5 **Accruals**

Accruals are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance but are included in the disclosure notes.

5.6 **Employee Benefits**

Short-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the Statement of Financial Performance or the Statement of Financial Position.

5.7 **Lease Commitments**

**Finance lease**

Finance leases are not recognised as assets and liabilities in the statement of financial position. Finance lease payments are recognised as a capital expense in the statement of financial performance and are not apportioned between the capital and interest portions. The finance lease liability is disclosed in the disclosure notes to the financial statements.

**Operating lease**

Operating lease payments are recognised as an expense in the statement of financial performance. The operating lease commitments are disclosed in the disclosure notes to the financial statement.

5.8 **Provisions**

Provisions are disclosed when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made.
6. **Receivables for departmental revenue**

Receivables for departmental revenue are disclosed in the disclosure notes to the annual financial statements.

7. **Net Assets**

7.1 **Capitalisation Reserve**

The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National/Provincial Revenue Fund when the underlining asset is disposed and the related funds are received.

7.2 **Recoverable Revenue**

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National/Provincial Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.

8. **Related party transactions**

Specific information with regards to related party transactions is included in the disclosure notes.

9. **Key management personnel**

Compensation paid to key management personnel including their family members where relevant, is included in the disclosure notes.

10. **Public private partnerships**

A description of the PPP arrangement, the contract fees and current and capital expenditure relating to the PPP arrangement is included in the disclosure notes.

<td></td>
</tr>
<tr>
<td>Communication</td>
<td>312</td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td>1 847</td>
<td></td>
</tr>
</tbody>
</table>

One of the three contracts that could have led to irregular expenditure as identified during the previous reporting period by the Auditor-General of South Africa (AGSA) was not to be irregular. The outcome of the investigations with reference to the two outstanding contracts regarding the fire-arm registration system and the terrestrial radio communication contract system is still awaited.

25. Fruitless and wasteful expenditure

25.1 Reconciliation of fruitless and wasteful expenditure

<table>
<thead>
<tr>
<th></th>
<th>2012/13</th>
<th>2011/12</th>
</tr>
</thead>
<tbody>
<tr>
<td>R’000</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Opening balance</td>
<td>2 411</td>
<td>2 757</td>
</tr>
<tr>
<td>Adjustment to opening balance</td>
<td>( 1 903)</td>
<td>( 84)</td>
</tr>
<tr>
<td>Fruitless and wasteful expenditure – relating to prior year</td>
<td>76</td>
<td>356</td>
</tr>
<tr>
<td>Fruitless and wasteful expenditure – relating to current year</td>
<td>18</td>
<td>494</td>
</tr>
<tr>
<td>Less: Amounts resolved</td>
<td>( 537)</td>
<td>( 1 041)</td>
</tr>
<tr>
<td>Less: Amounts transferred to receivables for recovery</td>
<td>( 65)</td>
<td>( 71)</td>
</tr>
<tr>
<td>Fruitless and wasteful expenditure awaiting resolution</td>
<td>0</td>
<td>2 411</td>
</tr>
</tbody>
</table>

The reporting has been re-aligned according to the evaluation of validity of discovery of possible fruitless and wasteful expenditure or not, and an investigation to determine recoverability. Opening balance has to be adjusted accordingly.
