 - (ii) Column 2 – specific restricted activities relating to specific listed species, prohibited in terms of section 57(2) of the Biodiversity Act; and
 - (iii) Column 3 – specific restricted activities relating to specific listed species, exempt in terms of section 57(4) of the Biodiversity Act;
- b) Any specific restricted activity relating to a specific listed species not included in either Column 2 or 3, must be regarded as requiring a permit in terms of section 57(1) of the Biodiversity Act;
- c) The exemptions contemplated in Paragraphs 2 and 3 above must be read in conjunction with the species-specific exemptions in the table below. In the case of conflict between a general exemption and a species-specific exemption, the latter shall apply;
- d) If the carrying out of a restricted activity involving a listed threatened or protected species has been exempt in terms of this notice, but the circumstances in which the carrying out of such restricted activity have been prohibited in terms of the Threatened or Protected Species Regulations, such prohibition will nevertheless remain valid, regardless that the restricted activity has been exempt in terms of this notice);
- e) When the nomenclature of a species included in the list of threatened or protected species (below) is revised, the original species name will remain on the list until the list is updated and the regulations will apply to all specimens that fitted the description at the time of listing even if a new scientific name is applied to the species or populations of the species.
