PLANT BREEDERS' RIGHTS ACT, 1976

8. (1) The effective date of an application in terms of section 7 shall be the date on which the application is received by the registrar, and if more than one application in respect of the same variety is received, priority shall be given to the application first received by the registrar.

(2) If an application referred to in section 6 (2) is preceded by an application for protection of the same new variety in a convention country or an agreement country, the last-mentioned application has been deposited in accordance with the laws in force in that country, the registrar shall, notwithstanding the provisions of subsection (1) of this section, give priority to the first-mentioned application if—

(a) it is submitted to the registrar in the prescribed form within the prescribed period of the date on which such preceding application was duly deposited in a convention country or an agreement country;

(b) it is accompanied by a claim in respect of the priority thereof; and

(c) it is accompanied by the prescribed application fee.

(3) A claim referred to in subsection (2) (b) shall within the prescribed period of the date on which it was submitted to the registrar, be confirmed by lodging with the registrar a copy, certified as correct by the appropriate authority in the convention country or agreement country in question, of each document which constituted the relevant preceding application.

(4) An application given priority under subsection (2) shall, within the prescribed period, which shall not exceed 4 years, reckoned from the date on which the prescribed period contemplated in subsection (3) expired, be confirmed by supplementing it in any respect necessary in order to comply with the requirements of this Act.

(5) If two or more applications for the protection of the same new variety have been deposited on different dates in different convention countries or agreement countries, the period referred to in subsection (2) (a) shall be calculated from the date on which the earliest of such applications was deposited with the appropriate authority.

(6) If the registrar has given priority to an application under subsection (2), no matter referred to in section 2 (4) which occurs within the period referred to in subsection (2) (a) of this section, shall constitute a ground of objection to such application.

(7) Any priority given to an application under subsection (2) shall lapse if any document referred to in subsection (3) or (4) is not submitted within the relevant period.

(8) Where an application for a plant breeder's right has been received by the registrar and a new application in respect of any part of the subject-matter of the first-mentioned application is made by the same applicant before a plant breeder's right has been granted, the registrar may direct that the new application be antedated to a date not earlier than the date on which such first-mentioned application was received by him.
(9) Where an application received by the registrar is amended otherwise than by way of explanation or correction before the application is published in terms of section 13, the registrar may direct that the date of the application shall be the date on which it is amended or, if it has been returned to the applicant, the date on which it is again received by the registrar.

9. (1) An application referred to in section 7 shall be accompanied by—

(a) a description, in the form required by the registrar, of a typical plant of the variety in question; and

(b) such coloured illustrations of a typical plant of the new variety as are required by the registrar.

(2) The description referred to in subsection (1) (a)—

(a) shall indicate the denomination of the variety concerned;

(b) shall be accompanied by such other particulars as may be prescribed or required by the registrar; and

(c) shall specify the procedure to be used for the maintenance and reproduction of the variety concerned.

(3) The registrar may require—

(a) that plants of the variety concerned or of the variety from which it originated be shown to him;

(b) that such additional information or specimens as he deems necessary to determine whether or not the variety concerned constitutes a new variety, be furnished to him.

10. (1) The denomination of a new variety shall be proposed by the person who applies for the grant of a plant breeder's right in respect thereof, and such denomination shall be subject to the approval of the registrar.

(2) Subject to the provisions of subsection (5), the registrar may, at any time before a plant breeder's right is granted, reject a denomination proposed under subsection (1) if he considers it unsuitable, and direct the applicant to submit a translation thereof or some other suitable denomination.

(3) A denomination—

(a) shall be suitable to identify a variety;

(b) shall not be such as to be liable to mislead or to lead to confusion concerning the characteristics, value or identity of the variety in question, or the identity of the breeder thereof;

(c) shall be different from every denomination which designates existing varieties of the same or a closely related kind of plant;

(d) shall, subject to the provisions of subsection (4), not be identical with or similar to, or liable to lead to confusion with, a designation which enjoys the protection accorded to a mark within the meaning—

(i) in the Republic, of the Trade Marks Act, 1963 (Act 62 of 1963); or

(ii) in a convention country or an agreement country, of the laws relating to trade marks in that country, and which applies to propagating material or the use in connection therewith or in connection with a product thereof;

(e) shall not be inimical to public order or contrary to morality; and

(f) shall comply with such further requirements as the registrar may determine.

(4) If the denomination of a new variety proposed by an applicant in terms of subsection (1) is a designation in respect of which he enjoys the protection referred to in subsection (3) (d), the registrar shall not approve such denomination unless
the applicant in writing renounces his right to the mark in question as from the date on which a plant breeder's right in the new variety is granted.

(5) The denomination approved by the registrar for a new variety in respect of which protection has been granted by, or an application for protection has been lodged with, the appropriate authority in a convention country or an agreement country in accordance with the laws in force in that country, shall be the same as the denomination thus protected or thus applied for in such country, if the provisions of subsections (3) and (4) have been complied with and a preferential claim thereto by another person has not been established.

(6) No denomination, other than the approved denomination of a variety, may at any time, whether before or after the expiry of the term of the plant breeder's right in respect thereof, be used in connection with such variety.

11. (1) The registrar may reject an application made to him under section 7 if it appears to him-
(a) that the application does not comply with any provision of this Act;
(b) that the variety in respect of which the application is made—
(i) is not a new variety;
(ii) does not comply with any provision of this Act;
(iii) does not belong to a kind of plant which the Minister has declared to be a kind in terms of section 2;
(c) that the applicant is not under this Act entitled to make the application;
(d) that the application contains a material misrepresentation;
(e) that the application fraudulently affects the rights of the holder of a plant breeder's right or of the person to whom provisional protection has been granted in terms of section 14;
(f) that the applicant refuses or has failed or is not able to propose an acceptable denomination;
(g) that the propagation of the variety in question would require repeated use of propagating material of another variety for which plant breeders' rights have been granted to or applied for by another person, unless such propagating material is used under a licence issued in terms of section 25 or 27;
(h) that the description submitted does not clearly describe the variety; or
(i) that, where such application has been preceded by an application for protection of the same variety in a convention country or an agreement country, the description submitted to him differs from the description submitted in such preceding application or that the description in such preceding application does not describe a new variety referred to in section 2.

(2) If the registrar rejects an application in terms of subsection (1) he shall in writing advise the person who applied for the grant of a plant breeder's right, of his decision and of the grounds on which it is based.

12. (1) A person who has made an application under section 7 for the grant of a plant breeder's right, may at any time before such application is published under section 13, add to or alter the description which accompanied his application, or the proposed denomination of the variety in question.

(2) If an application is made for such addition or alteration after the said publication, the registrar may, if he is of the opinion that the addition or alteration is of material importance, direct that the date of the application for the addition or alteration shall be a date not earlier than the date of the relevant appli-

16. (1) A protective direction issued under section 14 shall, subject to the provisions of subsection (2), cease to be of force on the date on which the registrar finally allows or refuses the application for a plant breeder's right in respect of the variety for which the protective direction was issued.

(2) A protective direction may be withdrawn at an earlier date by the registrar if, in his opinion, circumstances justify the withdrawal, and shall be withdrawn at an earlier date by the registrar if he is satisfied that the holder thereof has failed to fulfil the terms of an undertaking referred to in paragraph (b) of section 14 (2), or that he has given an undertaking, whether enforceable by law or not, to another person in terms whereof such holder is deprived of the right to institute an action referred to in section 48 or an action for damages in respect of an infringement of a plant breeder's right.

17. (1) Any person may within 6 months from the date on which the particulars relating to an application for a plant breeder's right have been published in the Gazette under section...

(5) The applicant may within 60 days from the date of the receipt of the documents and other proof referred to in subsection (4), or within such further time as the registrar may allow, lodge a counter-statement with the registrar in which are set out the particulars of any ground upon which he contests any allegation of the person objecting.

(6) The applicant shall serve a copy of such counter-statement on the person objecting and shall furnish the registrar with proof of the service thereof.

18. (1) An objection under section 17 shall be heard on the date and at the place and time fixed by the registrar, who shall advise the person objecting and the person who applied for the relevant plant breeder's right, in writing thereof.

(2) The registrar may in his discretion appoint one or more persons who, in his opinion, have experience in the administration of justice or skill in any matter which may be considered at the hearing, to assist and advise him with regard to the hearing of the objection, and the remuneration of any such person shall be as prescribed and shall be borne by the State.

(3) The registrar may, for the purposes of the hearing of an objection—

(6) The registrar shall, after the hearing of an objection, in writing advise the person objecting and the person who applied for the grant of the relevant plant breeder's right, of his decision and of the grounds on which it is based.

(7) An application in respect of which the registrar upholds an objection shall lapse, and the registrar shall by notice in
the Gazette publish such particulars relating to the lapsing as may be prescribed.

19. (1) (a) The registrar shall consider every application for the grant of a plant breeder's right published under section 13 (1) and all documents and any other proof submitted to him in connection therewith, in order to ascertain whether the application complies with the requirements of this Act.
   (b) Where an objection has been lodged under section 17, the registrar shall delay considering the relevant application until the objection has been disposed of.

(2) The registrar shall undertake such tests and trials as he may deem necessary with a variety in respect of which an application is being considered under subsection (1) or have such tests and trials undertaken in terms of subsection (6), in order to enable him to determine whether such a variety is a new variety.

   (b) The costs involved in obtaining the results under paragraph (a) shall be paid to the registrar by the person whose application is being considered.

(5) Different examination fees may be prescribed in respect of tests and trials with different kinds of plants.

(6) The registrar may submit propagating material of a variety in respect of which application for a plant breeder's right has been made to him, to the appropriate authority in a convention country or an agreement country in order to have the necessary tests and trials undertaken therewith; and the registrar shall accept the results of any such tests or trials which such authority may furnish to him.

20. (1) If the registrar, after considering an application in Grant of plant terms of section 19 and examining the results of any tests or trials conducted with the variety in question, is of the opinion—
   (a) that the application conforms to the requirements of this Act;
   (b) that the applicant is entitled under this Act to make the application; and
   (c) that the variety is a new variety and that it conforms to the requirements of this Act,

   he shall grant a plant breeder's right in respect of such new variety.

(2) The registrar shall in respect of each plant breeder's right granted—
   (a) issue a certificate of registration in respect thereof to the person who applied for the grant of the right;
   (b) enter the applicable particulars referred to in section 4 (1) in the register; and
   (c) by notice in the Gazette publish such particulars relating to the grant of such right as may be prescribed.

(b) The grounds on which the decision is based shall not be published in the said notice nor be open for inspection except by order of a court.

21. (1) A plant breeder’s right shall, subject to earlier termination under this Act, be granted for the period prescribed in respect of the kind of plant in question, which period shall—

(a) in the case of a fruit tree or any root-stock thereof, any ornamental tree, any vine or any root-stock thereof or any forest tree, be not less than 18 years and not more than 25 years; and

(b) in the case of any other kind of plant, be not less than 15 years and not more than 20 years.

(2) The period referred to in subsection (1) shall be calculated from the date on which a certificate of registration is issued under paragraph (a) of section 20 (2).

22. (1) A person to whom a plant breeder’s right has been granted shall, during the currency of such right, annually pay to the registrar an annual fee prescribed in respect of such right.

(2) (a) The first such annual fee shall be payable on or before 1 January of the year following the date on which a plant breeder’s right is granted, and any subsequent annual fee shall be paid before 1 January of each year.

(b) The registrar shall, subject to the payment of such additional fees as may be prescribed, upon application extend the time for the payment of an annual fee for a period not exceeding 6 months or for periods the aggregate of which does not exceed 6 months.

23. (1) The effect of the protection given under this Act by the grant of a plant breeder’s right shall be that prior authority shall during the currency of the right be obtained by way of licence under section 25 or 27 by any person—

(a) to undertake the production, sale, import into or export from the Republic of propagating material of the relevant new variety; and

(b) to use the new variety in question in developing a hybrid or a different variety of that kind of plant.

(2) Notwithstanding the provisions of subsection (1), the holder of a plant breeder’s right shall during the period which the Minister may prescribe as a period for the exercise of sole rights in respect of the kind of plant to which such new variety belongs, have the sole right to undertake with regard to the relevant new variety any activity referred to in that subsection or to have such activity undertaken by any other person.

(3) It shall not be an infringement of a plant breeder’s right if a person who procured any propagating material of a new variety in a manner which does not infringe any right of the holder of the relevant plant breeder’s right—

(a) resells it;

(b) sells any plant, propagating material or product derived therefrom for purposes other than the further propagation or multiplication thereof; or

(c) uses or multiplies it in the development of a hybrid or a different variety or for purposes of any other bona fide research: Provided that the repeated use, without the necessary authority, of the relevant propagating

(4) Notwithstanding the provisions of subsection (3)(b), an ornamental plant in respect of which a plant breeder's right has been granted and any part thereof which is normally sold for purposes other than multiplication thereof, shall enjoy the protection of such right when it is used commercially as propagating material in the production of such ornamental plant or of a cut flower.

24. (1) The holder of a plant breeder's right shall ensure that he is in a position during the currency of the right—
(a) to furnish the registrar on request with propagating material of the variety in respect of which the right was granted and which is capable of reproducing the said variety in such a manner that the morphological, physiological and other characteristics thereof correspond with those described at the time of the grant of the relevant right;
(b) on request to give to the registrar the information and to accord him the facilities deemed necessary by him to satisfy himself that such holder is maintaining propagating material which conforms to the requirements referred to in paragraph (a).

(2) The registrar may undertake any inspection in connection with any matter referred to in subsection (1) which he may deem necessary.

25. (1) The holder of a plant breeder's right may at the request in writing of another person, grant to such person a licence in terms of which such person may be authorized to undertake any activity referred to in section 23 (1).

(2) The licence may include conditions regarding—
(a) the quantity of propagating material of the relevant variety to be supplied to the holder of the licence, and the price thereof;
(b) the royalties payable in respect of the exploitation of the licence;
(c) the information to be furnished to the holder of the relevant plant breeder's right regarding the extent to which the licence is being exploited;
(d) the period of validity of the licence, which shall not exceed the term of the relevant breeder's right;
(e) the transfer thereof;
(f) the punitive measures applicable with reference to any condition which is not complied with; and

(2) The provisions of sections 18 (2), (3), (4), (5) and (6) shall mutatis mutandis apply with reference to the hearing of the application:

(3) If the registrar is satisfied that the holder of a plant breeder's right is unreasonably refusing a licence under section 25 or imposing unreasonable conditions for the issue thereof, and is satisfied that, as a result of such refusal or such conditions, the reasonable requirements of the public with regard to the new variety in question are not being satisfied or will not be satisfied, he may issue a compulsory licence—

(a) which shall include the conditions referred to in paragraphs (a) up to and including (f) of section 25 (2), and such other conditions as the registrar may determine; or

(b) which may at any time be reviewed by the registrar by reason of representations made to him for the amendment or withdrawal thereof.

(4) In settling the terms of a compulsory licence the registrar shall endeavour to ensure that propagating material of the variety in question shall be available to the public at reasonable prices consistent with the holder of a plant breeder's right deriving a reasonable advantage therefrom.

(5) (a) A compulsory licence may be granted to any person whether or not the holder of the relevant plant breeder's right has granted a licence under section 25 to any other person.

(b) The issue of a compulsory licence shall not prevent the holder of the plant breeder's right from granting additional licences in terms of section 25.

28. (1) Where a plant breeder's right is, after the commencement of this Act; granted to two or more persons jointly, each such person shall, subject to any written agreement to the contrary between them, be entitled—

(a) to an equal share in such right;
31. (1) The Minister may by notice in the Gazette declare that the plant breeder’s right in any new variety of a kind of plant shall, as from a date determined by him and published in the same or a later notice in the Gazette, be taken over by the State.
(b) As from the date determined under paragraph (a) all rights and liabilities pertaining to the said plant breeder's right shall be deemed to have been transferred to the State, and such rights shall as from that date vest in the Minister on behalf of the State.

(2) The Minister shall pay the person who was the holder of the plant breeder's right in question immediately prior to the date referred to in subsection (1) (a), such compensation as may be agreed upon or, failing agreement, as may be settled by arbitration.

32. (1) The denomination approved in respect of a new variety may be altered or supplemented by the registrar—

(a) if ordered by the court on the application of a person who in law has a preferent claim to the use of the designation in question;

(b) on the application of the holder of a plant breeder's right in that variety;

(c) if the information submitted to the registrar in the application for the approval of, or in connection with, the denomination in question was incorrect and the registrar is of the opinion that such denomination would not have been approved had he known that such information was incorrect;

(d) if information comes to light which, if discovered earlier, would in the opinion of the registrar have resulted in the refusal of such denomination;

(2) An application referred to in subsection (1) (b) shall be made to the registrar in the form and manner prescribed and shall be accompanied by the prescribed application fee.

(3) If an alteration or supplementation becomes necessary on a ground referred to in paragraph (c) of subsection (1), the registrar shall in writing inform the holder of the relevant plant breeder's right thereof and give the grounds on which the alteration or supplementation is deemed necessary, and such holder shall submit proposals for an alteration or supplementation within 60 days from the date of the notice to him.

(4) If the registrar intends approving any proposal for the alteration or supplementation of a denomination under subsection (1) (b) or (3), he shall by notice in the Gazette publish such particulars relating to the intended alteration or supplementation as may be prescribed.

(5) Any person may within 3 months from the date of the publication of particulars under subsection (4) and on payment of the prescribed fee, lodge with the registrar a written objection to the grant of the alteration or supplementation in question, and the registrar may require the objection to be substantiated by such proof as he may deem necessary.

(6) The registrar may, after considering any objection lodged under subsection (5), approve the proposed alteration or supplementation, and shall by notice in the Gazette publish the prescribed particulars relating to an alteration or supplementation so approved.

(7) The registrar shall forthwith publish by notice in the Gazette the prescribed particulars relating to an alteration or supplementation ordered under subsection (1) (a).

33. (1) A plant breeder's right shall terminate upon the expiry of the period prescribed in respect thereof under section 21.

(2) The registrar may terminate a plant breeder's right prior to the termination contemplated in subsection (1), if he is satisfied—

(a) that any information submitted to him in the application for such a right or in connection with such an application, was incorrect and that such a right would not have been granted if he had known that the information was incorrect;
(b) that information has come to light which, if discovered earlier, would have resulted in the right being refused;

(c) that priority should be given under section 8 to any other application for the grant of a plant breeder's right in the same variety;

(d) that the holder of the right refuses or has failed or is not in a position to furnish the registrar with propagating material of the relevant variety which conforms to the requirements of paragraph (a) of section 24 (1);

(e) that the holder of the right has failed to comply with any request under paragraph (b) of section 24 (1), or that he has prevented the registrar from undertaking an inspection referred to in section 24 (2);

(3) The registrar shall in writing advise the holder of the plant breeder's right in question and the holder of any licence issued under section 27 or with respect to which a notification has been given under section 25 (3), of his intention to terminate a plant breeder's right under subsection (2) and of the grounds therefor.

(4) Any holder referred to in subsection (3) may, within 60 days from the date of the advice under that subsection or within such further time as the registrar may allow, upon payment of the prescribed fee lodge with the registrar an objection against the intended termination of the plant breeder's right in question.

(5) The provisions of sections 17 (3) and 18 (1), (2), (3), (4), (5) and (6) shall mutatis mutandis apply with reference to such an objection.

(7) A certificate of registration issued under paragraph (a) of section 20 (2) shall, within the prescribed period, be returned to the registrar by the holder thereof when the relevant plant breeder's right terminates or is terminated under this section.

34. (1) The holder of a plant breeder's right may at any time notify the registrar in the prescribed manner and upon payment of the prescribed fee that he is surrendering such right, and such holder shall furnish the registrar with proof that a copy of such notification has been served on any person licensed with respect to that right and on any other interested person.

(2) The registrar shall by notice in the Gazette publish such particulars relating to the surrender as may be prescribed.

to him to have an interest in the matter, and shall give such
holder, applicant or person an opportunity of being heard
before exercising his authority.

37. (1) (a) Whenever any discretionary power
given to the
registrar by this Act he shall not exercise that power
in a manner adverse to an applicant or an objector or
other person who according to the register appears to

administrative action executed in respect of the matter to which
such document or notice relates, and shall not be a ground for
exception to any legal procedure which may be taken in respect
of such matter, if the requirements and meaning thereof are
