6. The date of issue of the certificate shall be indicated in Box 11 of the certificate.
7. A certificate of origin shall be issued by the customs or competent authority and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 17

Certificate of origin issued retrospectively

1. Notwithstanding Article 16(7), a certificate of origin may exceptionally be issued after exportation of the products to which it relates if:
 - (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
 - (b) it is demonstrated to the satisfaction of the customs or competent authority that a certificate of origin was issued but was not accepted at importation for technical reasons.
2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the certificate of origin relates, and state the reasons for his request.
3. The customs or competent authority may issue a certificate of origin retrospectively, if requested by the exporter within six months from the date of the exportation, and only after verifying that the information supplied in the exporter's application corresponds with that in the records of the issuing office or the authenticity thereof have been verified.
4. Certificates of origin issued retrospectively must be endorsed with the words "*ISSUED RETROSPECTIVELY*".
5. The endorsement referred to in paragraph 4 shall be inserted in the "Remarks" box of the certificate of origin.

Article 18

Issue of a duplicate certificate of origin

1. In the event of theft, loss or destruction of a certificate of origin, the exporter may apply to the customs or competent authority which issued it for a duplicate made out on the basis of the export documents in their possession or of which the authenticity thereof have been verified.
2. The duplicate issued in this way must be endorsed with the word "*DUPLICATE*".
3. The endorsement referred to in paragraph 2 shall be inserted in the "Remarks" box of the duplicate certificate of origin.
4. The duplicate, which shall indicate the date of issuance and the number of the original certificate in the "Remarks" box, shall take effect as from that date.

Article 19**Issuing of a certificate of origin on the basis of a proof of origin issued or made out previously**

1. When originating goods are placed under the control of a customs office in a Member State of SACU or MERCOSUR, it shall be possible to replace the original proof of origin by one or more certificate/s of origin for the purpose of sending all or some of these goods elsewhere within the Member States of SACU or MERCOSUR. The replacement certificate of origin shall be issued by the competent governmental authority under whose control the products are placed.
2. In the case of MERCOSUR, this article shall apply only to the Signatory Parties that have decided on its implementation and that have duly notified the Joint Committee thereof.

Article 20**Validity of certificate of origin**

1. The certificate of origin shall be valid for six months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Certificates of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the certificates of origin where the products have been submitted before the said final date.

Article 21**Submission of certificate of origin**

Certificates of origin shall be submitted to the customs authority of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a certificate of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

Article 22**Importation by instalments**

Where, at the request of the importer and on the conditions laid down by the customs authority of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonized System falling within Sections XVI and XVII, Chapter 90 or headings 7308 and 9406 of the Harmonized System are imported by instalments, a single certificate of origin for such products shall be submitted to the customs authority upon importation of the first instalment.

Article 23**Exemptions from certificate of origin**

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a certificate of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Annex and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. For the purposes of paragraph 1:
 - (a) imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is intended; and
 - (b) in case of small packages or products forming part of travellers' personal luggage, the total value of these products shall not exceed the value stipulated in the national legislation of the Signatory Party concerned.

Article 24¹⁰**Supporting documents**

1. The documents referred to in this Article 16(3) used for the purpose of proving that products covered by a certificate of origin can be considered as products originating in MERCOSUR or in SACU and fulfil the other requirements of this Annex may consist *inter alia* of the following:
 - (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
 - (b) documents proving the originating status of materials used, issued or made out in MERCOSUR or in SACU where these documents are used in accordance with domestic law;
 - (c) documents proving the working or processing of materials in MERCOSUR or in SACU, issued or made out in a MERCOSUR or in SACU, where these documents are used in accordance with domestic law; or
 - (d) certificates of origin proving the originating status of materials used, issued or made out in MERCOSUR or in SACU in accordance with this Annex.

Article 25**Preservation of certificate of origin and supporting documents**

1. The exporter applying for the issue of a certificate of origin shall keep for at least three years the documents referred to in Article 16(3).
2. The competent authority of the exporting country responsible for issuing certificates of origin shall keep for at least three years the application form referred to in Article 16(2).
3. The customs authority of the importing country shall ensure the availability, for at least three years, of the certificates of origin submitted for preferential treatment.

¹⁰ The term "the other requirements", mentioned in this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

Article 26**Discrepancies and formal errors**

1. The discovery of slight discrepancies between the statements made in the certificate of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not, *ipso facto*, render the certificate of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors on a certificate of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.¹¹

Title V**Arrangements for Administrative Co-operation****Article 27****Notifications**

The customs or competent authorities of SACU and MERCOSUR shall provide each other, through the SACU and the MERCOSUR Secretariats respectively, with specimen impressions of official stamps and signatures (used in their offices) for the issue of certificates of origin and with the addresses of the customs or competent authorities responsible for verifying the authenticity of the certificates of origin and the correctness of the information given therein.

Article 28**Verification of certificate of origin¹²**

1. In order to ensure the proper application of this Annex, MERCOSUR and SACU shall assist each other, through the customs or competent authorities, in checking the authenticity of the certificates of origin and the correctness of the information given in these documents.
2. Subsequent verifications of certificates of origin shall be carried out at random or whenever the customs or competent authority of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Annex.
3. For the purposes of implementing the provisions of paragraph 1, the customs or competent authority of the importing country shall return the certificate of origin, if it has been submitted, or a copy of these documents, to the customs or competent authority of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the certificate of origin is incorrect shall be forwarded in support of the request for verification.

¹¹ : Obvious formal errors include, but are not limited to, typing errors, and exclude deliberate errors.

¹² : The term "the other requirements", mentioned in paragraphs 2 and 6 of this Article, does not include the requirements of direct transport and exhibition, since those requirements shall be checked by the customs authorities of the importing country.

4. The verification shall be carried out by the customs or competent authority of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
5. If the customs authority of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.
6. The customs or competent authority requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in MERCOSUR or in SACU and fulfil the other requirements of this Annex.
7. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authority shall, except in exceptional circumstances, refuse entitlement to the preferences.
8. The requesting customs or competent authority shall inform the customs or competent authority of the exporting country of its decision on the basis of the verification in question.

Article 29

Dispute settlement

1. Where disputes arise in relation to the verification procedures of Article 27 which cannot be settled between the customs or competent authority requesting a verification and the customs or competent authority responsible for carrying out this verification or where they raise a question as to the interpretation of this Annex, they shall be submitted to the Joint Administration Committee, without prejudice to the Parties' or the Signatory Parties' rights to have recourse to the Dispute Settlement mechanism of this Agreement.
2. In all cases the settlement of disputes between the importer and the customs or competent authority of the importing country shall be under the legislation of the said country.

Article 30

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 31

Free Zones

1. The treatment to be afforded to goods from Free Zones will be subject to a decision to be reached as foreseen in the Understanding on Free Zones attached to this Annex as Appendix IV.
2. In the interim, MERCOSUR and SACU shall take all necessary steps to ensure that products traded under cover of a proof of origin, which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

Title VI**Final Provisions****Article 32****Review**

The Joint Administration Committee shall review this Annex no later than three years after the entry into force of the Agreement, or in the event of a new round of negotiations intended to deepen or broaden the scope of the Preferential Trade Agreement and, as appropriate, propose to the Parties amendments to the criteria for the determination, application and administration of origin.

Article 33**Traditional provisions for goods in transit or storage**

The provisions of the Agreement may be applied to goods which comply with the provisions of this Annex and which on the date of entry into force of the Agreement are either in transit or are in MERCOSUR or in SACU in temporary storage in customs warehouses or in free zones, subject to the submission to the customs or competent authority of the importing country, within six months of the said date, of a certificate of origin issued retrospectively by the customs or competent authority of the exporting country together with the documents showing that the goods have been transported directly in accordance with the provisions of Article 11.

Appendix

Appendix I, II, III and IV are part of this Annex.

ANNEX III**APPENDIX I****Introductory notes to the list in Appendix II****Note 1:**

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 5 of Annex III.

Note 2:

- 2.1 The first two columns in the list describe the product obtained. The first column gives the chapter number, heading number or sub-heading used in the Harmonized System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2 Where several heading numbers are grouped together in column 1 or a chapter number given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under Harmonized System, are classified in headings of the chapter or in any headings grouped together in column 1.
- 2.3 Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.
- 2.4 Where, for an entry in the first two columns, a rule is specified in both column 3 and 4, the exporter may opt, as an alternative, to apply either the rules set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1 The provisions of Article 5 of Annex III, concerning products having acquired originating status which is used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory whether these products are used or in another factory in the territory of a Signatory Party.
- 3.2 The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status, conversely, the carrying out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3 Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.
- 3.4 Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentage given. Furthermore the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

4.1 For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) re-distillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite
- (g) polymerisation;
- (h) alkylation; and/or
- (i) isomerisation.

4.2 For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) re-distillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) Extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation;
- (j) in respect of heavy oils of heading ex 2710 only, desulphurization with hydrogen, resulting in a reduction of at least 85 per cent of the sulphur-content of the products processed (ASTM D 1266-59 T method);

- (k) in respect of products of heading 2710 only, de-paraffining by a process other than filtering
- (l) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 degrees C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (m) in respect of fuel oils of heading 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300 degrees C by the ASTM D 86 method;
- (n) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge; and/or
- (o) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0.75 per cent of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

4.3 For the purpose of headings 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination if these operations or like operations, do not confer origin.

4.4 Chemical processing rules to confer originating status

Section VI of the HS tariff classification: Products of the Chemical or Allied Industries (Chapter 28-38)

Rule 1: Chemical Reaction Origin

A good of Chapters 28 through 38, which is subject to a chemical reaction, shall be treated as an originating good if the chemical reaction occurred in the territory of one or more of the Signatory Parties.

Note: For the purposes of this section, a "chemical reaction" is a process (including a biochemical process) that results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

The following are not considered to be chemical reactions for the purposes of determining whether a product is an originating good:

- (a) dissolution in water or in other solvents;
- (b) the elimination of solvents including solvent water, or
- (c) the addition or elimination of water of crystallization.

Rule 2: Purification Origin

A good of Chapters 28 through 38, that is subject to purification, shall be treated as originating provided that one of the following occurs in the territory of one or more of the Signatory Parties:

- (a) purification of a good resulting in the elimination of 80 per cent of the content of existing impurities; or
- (b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:
 - (i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
 - (ii) chemical products and reagents for analytical, diagnostic or laboratory uses;

- (iii) elements and components for use in micro-elements;
- (iv) specialized optical uses;
- (v) non toxic uses for health and safety;
- (vi) biotechnical use;
- (vii) carriers used in a separation process; or
- (viii) nuclear grade uses.

 - (c) make recommendations on the treatment of goods from Free Zones under the PTA, taking into account the importance of effective customs controls and compliance with rules of origin of the PTA.
3. Within the Joint Working Group, MERCOSUR and SACU will exchange requests for documents and information they may consider necessary for the assessments on their Free Zones. Both sides will respond to questions and requests within a reasonable period of time after receiving them.
