

## DEPARTMENT OF PUBLIC WORKS

NO. 1201

03 NOVEMBER 2017

AGRÉMENT SOUTH AFRICA  
(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 28 September 2016, issued an Agrément certificate, details of which appear in the schedule hereto.

**SCHEDULE**  
Interim Agrément Certificate 2016/516

**Subject:** The Rejuvenator RoadSeal

**Certificate holder:** Tarspray cc

**Description:** The Rejuvenator RoadSeal is a blend of bitumen hydrocarbons and other petroleum derivatives. The product rejuvenates and revitalises existing bitumen based surfaces thereby sealing micro cracks and extends the life span of the existing surfaces. The product is applied by using a calibrated bitumen distributor or by hand. The rate of application is site specific and in accordance with a site plan prepared and issued by the certificate holder. The use of The Rejuvenator RoadSeal does not affect skid resistance and traffic is allowed after 2 to 4 hours after application.

The bitumen surface is inspected and prepared accordingly before application of The Rejuvenator RoadSeal. The application does not require expensive equipment rather standard materials such as paint rollers, compressor, drum trolley and safety gear such as face mask, boots and safety glasses. The product can be applied at 5 °C and above but not under inclement weather. The traffic is controlled in accordance with the regulation of the relevant authorities.

The Agrément certificate contains detailed information on the product and can be accessed at <http://www.agrement.co.za>
