
GOVERNMENT NOTICES • GOEWERMENTSKENNISGEWINGS

DEPARTMENT OF SCIENCE AND TECHNOLOGY**NO. 1337****05 DECEMBER 2018****PUBLICATION OF THE FORMS REQUIRED TO IMPLEMENT THE KAROO CENTRAL ASTRONOMY ADVANTAGE AREAS REGULATIONS, IN TERMS OF THE ASTRONOMY GEOGRAPHIC ADVANTAGE ACT, 2007**

I, Mmamoloko Kubayi-Ngubane, Minister of Science and Technology, published the effective date of the Regulations for the protection of the Karoo Central Astronomy Advantage Areas in terms of sections 50 and 51 of the Astronomy Geographic Advantage Act, 2007 (Act No. 21 of 2007) on 5 September 2018, in *Government Gazette* No. 41891, under Notice No. 939, to be 15 December 2018. I hereby publish the forms required to be used in terms of the said Regulations. The forms as included in the attached Schedules are the following:

FORM 1: Application for competent person accreditation;

FORM 2: Karoo Central Astronomy Advantage Areas (AAAs) Permit Application required in terms of Schedules A and B of the Regulations in connection with radio communications with Astronomy Management Authority assessment;

FORM 3: Karoo Central AAAs Permit Application required in terms of Schedules A and B of the Regulations in connection with radio communications with applicant/competent person assessment;

FORM 4: Karoo Central AAAs Financial Compensation Application in terms of Schedule C of the Regulations; and

FORM 5: Karoo Central AAA1 Permit Application required in terms Regulation 3 of Schedule D of the Regulations in connection with electrical activities.

The application forms are available online and at the Astronomy Management Authority Office, within the Department of Science and Technology:

Website address: <https://ama.dst.gov.za>

MS MT KUBAYI-NGUBANE, MP
MINISTER OF SCIENCE AND TECHNOLOGY
DATE: 30/11/2018

 <p>science & technology Department: Science and Technology REPUBLIC OF SOUTH AFRICA</p>	<p>Karoo Central Astronomy Advantage Areas</p> <p>FORM 1: Application for competent person accreditation</p>
--	--

Purpose

This form must be used to request accreditation for a person who is competent to carry out compliance assessments in terms of the Regulations on the Protection of the Karoo Central Astronomy Advantage Areas.

This form should be used in conjunction with Form 3 – application for a permit to use the radio frequency spectrum and carry out transmissions within the Karoo Central Astronomy Advantage Areas, with the option of the applicant arranging for a competent person to conduct the required compliance assessment.

Background

The Astronomy Geographic Advantage Act, 2007 (Act No. 21 of 2007) ("AGA Act"), provides inter alia for the protection of areas within the Republic of South Africa that are uniquely suited for radio astronomy.

The Karoo Central Astronomy Advantage Areas were declared for the purpose of radio astronomy and related scientific endeavours in terms of the AGA Act in Government Gazette No. 37434, under Notice No. 198, on 12 March 2014.

The Regulations on the Protection of the Karoo Central Astronomy Advantage Areas, made in terms of the AGA Act, were published in Government Gazette No. 41321, under Notice No. 1411 on 15 December 2017. The effective date of the Regulations is 15 December 2018.

The Regulations stipulate the following¹:

1. Schedule A, sub-regulation 3(2): As of 15 December 2019 (one year from the effective date of the Regulations), no operator may use the radio frequency spectrum between 100 MHz and 25.5 GHz, or conduct radio transmissions within that portion of the spectrum, within the Karoo Central Astronomy Advantage Areas unless a permit to do so has been issued.
2. Schedule B, sub-regulations 4(1) and (2): Before any such permit can be issued, a compliance assessment of each radio transmission concerned must be conducted, either by the management authority or by a person employed or contracted by the applicant who is competent to conduct such assessments.
3. Schedule B, sub-regulation 4(3): The assessment must determine whether the radio transmissions comply with the requirements of radio frequency interference protection at the Square Kilometre Array (SKA) Virtual Centre, with the prohibition of saturation level interference, and with all other applicable regulations.

¹ The statement of the requirements of the Regulations in this form are provided for the convenience of the applicant. Nothing stated in the application form will negate anything prescribed in the published Regulations.

4. Schedule B, sub-regulation 8(1): The person who carries out the compliance assessment and submits the required information to the management authority must –
 - 4.1 possess an academic qualification in electronic or radio frequency engineering at a level that would allow him/her to register as a professional engineering technologist;
 - 4.2 have access to, or be able to obtain access to, a computerised frequency spectrum planning system that could be used to carry out the required computer modelling; and
 - 4.3 be able to provide at least two references for work carried out successfully in the preceding five years which involved the determination of radio wave propagation and signal levels.
5. Schedule B, sub-regulation 8(2): If a person has carried out work that is equivalent to the required compliance assessment, but cannot fulfil the requirements of sub-regulation 8(1), he/she may request the management authority to conduct an assessment of his/her skills and experience relevant to carrying out compliance assessments.
6. Schedule B, sub-regulation 8(4): The management authority must advise the applicant in writing whether the person who carried out the compliance assessment and submitted the required information met the requirements of sub-regulation 8(1), or, where a skills and experience assessment was undertaken, what the outcome of the assessment was.
7. By signing the application form, permission is given to the Astronomy Management Authority by the applicant to process, collect, receive, record, organise, collate, store, update, modify, retrieve, alter, consult, use, disseminate, distribute, merge, share, link, erase or destroy personal information received from the applicant.

Karoo Central Astronomy Advantage Areas

FORM 2: Permit application with management authority assessment

Purpose

This form must be used to apply for a permit to use the radio frequency spectrum, and conduct radio transmissions within that portion of the spectrum, within the Karoo Central Astronomy Advantage Areas.

This form should be used if the applicant would like the required compliance assessment to be conducted by the management authority. If the applicant would rather arrange for the assessment to be conducted by a competent person employed or contracted by the applicant, then Form 3 should be used instead of Form 2.

Background

The Astronomy Geographic Advantage Act, 2007 (Act No. 21 of 2007) ("AGA Act"), provides inter alia for the protection of areas within the Republic of South Africa that are uniquely suited for radio astronomy.

The Karoo Central Astronomy Advantage Areas were declared for the purpose of radio astronomy and related scientific endeavours in terms of the AGA Act in Government Gazette No. 37434, under Notice No.198, on 12 March 2014.

The Regulations on the Protection of the Karoo Central Astronomy Advantage Areas, made in terms of the AGA Act, were published in Government Gazette No. 41321, under Notice No. 1411, on 15 December 2017. The effective date of the Regulations is 15 December 2018.

The Regulations stipulate the following¹:

1. Schedule A, sub-regulation 3(2): As of 15 December 2019 (one year after the effective date of the Regulations), no operator may use the radio frequency spectrum between 100 MHz and 25.5 GHz, or conduct radio transmissions within that portion of the spectrum, within the Karoo Central Astronomy Advantage Areas unless a permit to do so has been issued.
2. Schedule B, sub-regulations 4(1) and (2): Before such a permit can be issued, a compliance assessment of each radio transmission concerned must be conducted, either by the management authority or by a person employed or contracted by the applicant who is competent to conduct such assessments.
3. Schedule B, sub-regulation 4(3): The assessment must determine whether the radio transmissions comply with the requirements of radio frequency interference protection at the Square Kilometre Array (SKA) Virtual Centre, with the prohibition of saturation level interference, and with all other applicable regulations.

¹ The statement of the requirements of the Regulations in this form are provided for the convenience of the applicant. Nothing stated in the application form will negate anything prescribed in the published Regulations.

4. By signing the application form, permission is given to the Astronomy Management Authority by the applicant to process, collect, receive, record, organise, collate, store, update, modify, retrieve, alter, consult, use, disseminate, distribute, merge, share, link, erase or destroy personal information received from the applicant.

 <p>science & technology Department: Science and Technology REPUBLIC OF SOUTH AFRICA</p>	<p>Karoo Central Astronomy Advantage Areas</p> <p>FORM 3: Permit application with competent person assessment</p>
--	---

Purpose

This form must be used to apply for a permit to use the radio frequency spectrum, and conduct radio transmissions within that portion of the spectrum, within the Karoo Central Astronomy Advantage Areas.

This form should be used if the applicant wishes to arrange for the required compliance assessment to be conducted by a competent person employed or contracted by the applicant. Form 1, requesting accreditation of the person concerned as competent to conduct the assessment, should be used in conjunction with Form 3.

If, however, the applicant would rather request the management authority to conduct the compliance assessment, then Form 2 should be used instead of Form 3.

Background

The Astronomy Geographic Advantage Act, 2007 (Act No.21 of 2007) ("AGA Act"), provides inter alia for the protection of areas within the Republic of South Africa that are uniquely suited for radio astronomy.

The Karoo Central Astronomy Advantage Areas were declared for the purpose of radio astronomy and related scientific endeavours in terms of the AGA Act in Government Gazette No. 37434, under Notice No.198, on 12 March 2014.

The Regulations on the Protection of the Karoo Central Astronomy Advantage Areas, made in terms of the AGA Act, were published in Government Gazette No. 41321, under Notice No. 1411 on 15 December 2017. The effective date of the Regulations is 15 December 2018.

The Regulations stipulate the following¹:

1. Schedule A, sub-regulation 3(2): As of 15 December 2019 (one year after the effective date of the Regulations), no operator may use the radio frequency spectrum between 100 MHz and 25.5 GHz, or conduct radio transmissions within that portion of the spectrum, within the Karoo Central Astronomy Advantage Areas unless a permit to do so has been issued.
2. Schedule B, sub-regulations 4(1) and (2): Before any such permit can be issued, a compliance assessment of each radio transmission concerned must be conducted, either by the management authority or by a person employed or contracted by the applicant who is competent to conduct such assessments.
3. Schedule B, sub-regulation 4(3): The assessment must determine whether the radio transmissions comply with the requirements of radio frequency interference protection

¹ The statement of the requirements of the Regulations in this form are provided for the convenience of the applicant. Nothing stated in the application form will negate anything prescribed in the published Regulations.

at the Square Kilometre Array (SKA) Virtual Centre, with the prohibition of saturation level interference, and with all other applicable regulations.

4. In terms of Schedule A, sub-regulation 4(1)(b), radio frequency interference may be permitted to exceed the prescribed protection levels if the radio transmission concerned can be classified as a designated service. Schedule B, sub-regulation 7(1) identifies the types of radio transmissions that may be classified as designated services. Schedule B, sub-regulation 7(2) stipulates that, in the case of a transmission that may be classified as a designated service, the applicant must request such classification in his/her permit application and provide the specified information in support of this request.
5. By signing the application form, permission is given to the Astronomy Management Authority by the applicant to process, collect, receive, record, organise, collate, store, update, modify, retrieve, alter, consult, use, disseminate, distribute, merge, share, link, erase or destroy personal information received from the applicant.

Karoo Central Astronomy Advantage Areas
FORM 4: Application for financial compensation

Purpose

This form must be used to apply for compensation for financial loss, or for an adversely affected service, resulting solely and directly from compliance with a requirement or condition imposed by the Regulations on the Protection of the Karoo Central Astronomy Advantage Areas.

Background

The Astronomy Geographic Advantage Act, 2007 (Act No.21 of 2007) ("AGA Act"), provides inter alia for the protection of areas within the Republic of South Africa that are uniquely suited for radio astronomy.

The Karoo Central Astronomy Advantage Areas were declared for the purpose of radio astronomy and related scientific endeavours in terms of the AGA Act in Government Gazette No. 37434, under Notice No. 198, on 12 March 2014.

The Regulations on the Protection of the Karoo Central Astronomy Advantage Areas, made in terms of the AGA Act, were published in Government Gazette No. 41321, under Notice No. 1411, on 15 December 2017. The effective date of the Regulations is 15 December 2018.

The Regulations prohibit and restrict the use of portions of the radio frequency spectrum and transmission characteristics within the Karoo Central Astronomy Advantage Areas, and restrict certain electrical activities within the Karoo Central Astronomy Advantage Area 1, all in order to avoid interference to radio astronomy observations. The Regulations further stipulate the following¹:

1. Schedule C, sub-regulation 3(1): A person may apply to the Minister of Science and Technology for compensation in terms of the Regulations if –
 - 1.1 he/she has suffered a substantiated financial loss solely as a direct result of his/her compliance with a requirement or condition imposed in terms of the Regulations; and
 - 1.2 his/her use of the service provided by an operator is adversely affected as a direct result of that operator's compliance with a requirement or condition imposed in terms of the Regulations.
2. Schedule C, sub-regulation 3(2): An application for compensation must be submitted to the management authority within two years of the implementation of the relevant requirement/condition by means of a permit issued for the affected transmission.
3. Schedule C, sub-regulation 3(3): The applicant must submit a separate application for each activity or service in relation to which compensation is sought.

¹ The statement of the requirements of the Regulations in this form are provided for the convenience of the applicant. Nothing stated in the application form will negate anything prescribed in the published Regulations.

4. By signing the application form, permission is given to the Astronomy Management Authority by the applicant to process, collect, receive, record, organise, collate, store, update, modify, retrieve, alter, consult, use, disseminate, distribute, merge, share, link, erase or destroy personal information received from the applicant.

Karoo Central Astronomy Advantage Areas
FORM 5: Permit application in connection with
electrical activities

Purpose

This form must be used to apply for a permit to install, operate or use electrical infrastructure and/or equipment within the Karoo Central Astronomy Advantage Area 1, where the infrastructure/equipment is not exempt from the permit requirement.

Background

The Astronomy Geographic Advantage Act, 2007 (Act No.21 of 2007) ("AGA Act"), provides inter alia for the protection of areas within the Republic of South Africa that are uniquely suited for radio astronomy.

The Karoo Central Astronomy Advantage Areas were declared for the purpose of radio astronomy and related scientific endeavours in terms of the AGA Act in Government Gazette No. 37434, under Notice No. 198, on 12 March 2014.

The Regulations on the Protection of the Karoo Central Astronomy Advantage Areas, made in terms of the AGA Act, were published in Government Gazette No. 41321, under Notice No. 1411, on 15 December 2017. The effective date of the Regulations is 15 December 2018.

The Regulations stipulate the following¹:

1. Schedule D, sub-regulation 3(2): Radio frequency interference may not be caused by electrical equipment/infrastructure within the SKA Infrastructure Territory, whether through electromagnetic emissions or through wireless data communications. Electrical equipment/infrastructure must be separated from the SKA Infrastructure Territory and the SKA Virtual Centre by the required distances so as not to exceed the radio frequency interference levels prescribed in the Protection Levels Regulations, 2012.
2. Schedule D, sub-regulation 3(1): No person may construct, install, operate or use any electrical infrastructure or equipment within the Karoo Central Astronomy Advantage Area 1 unless a permit to do so has been issued, or unless the infrastructure/equipment has been exempted from the requirement that a permit be issued.
3. Schedule D, sub-regulations 3(3), (4) and (5): The following categories of electrical equipment/infrastructure are exempt from the permit requirement:
 - 3.1 Equipment/infrastructure in operation or use prior to the publication date of the Regulations (15 December 2017), unless radio frequency interference is caused.
 - 3.2 New equipment/infrastructure with an electrical power rating not greater than 100 kVA, unless radio frequency interference is caused.

¹ The statement of the requirements of the Regulations in this form are provided for the convenience of the applicant. Nothing stated in the application form will negate anything prescribed in the published Regulations.

- 3.3 New equipment/infrastructure with an electrical power rating greater than 100 kVA that is located more than 30 km from the nearest Square Kilometre Array (SKA) Infrastructure Territory – or more than 50 km, in the case of wind turbines – unless radio frequency interference is caused.
4. Schedule D, regulation 4 prescribes the procedures and criteria for permit applications and their processing by the management authority. If the information requested in the form below is insufficient for conducting an electromagnetic interference assessment, a permit application must be accompanied by the information listed and described in a schedule to be obtained from the management authority.
5. By signing the application form, permission is given to the Astronomy Management Authority by the applicant to process, collect, receive, record, organise, collate, store, update, modify, retrieve, alter, consult, use, disseminate, distribute, merge, share, link, erase or destroy personal information received from the applicant.
