GENERAL INFORMATION

THE EMPLOYEE AND THE MEDICAL SERVICE PROVIDER

The employee is permitted to freely choose his own service provider e.g. doctor, pharmacy, physiotherapist, hospital, etc. and no interference with this privilege is permitted, as long as it is exercised reasonably and without prejudice to the employee or to the Compensation Fund. The only exception to this rule is in case where an employer, with the approval of the Compensation Fund, provides comprehensive medical aid facilities to his employees, i.e. including hospital, nursing and other services — section 78 of the Compensation for Occupational Injuries and Diseases Act refers.

In terms of section 42 of the Compensation for Occupational Injuries and Diseases Act, the Compensation Fund may refer an injured employee to a specialist medical practitioner designated by the Director General for a medical examination and report. Special fees are payable when this service is requested.

In terms of section 76,3(b) of the Compensation for Occupational Injuries and Diseases Act, no amount in respect of medical expenses shall be recoverable from the employee.

In the event of a change of medical practitioner attending to a case, the first doctor in attendance will, except where the case is transferred to a specialist, be regarded as the principal. To avoid disputes regarding the payment for services rendered, medical practitioners should refrain from treating an employee already under treatment by another doctor without consulting / informing the first doctor. As a general rule, changes of doctor are not favoured by the Compensation Fund, unless sufficient reasons exist.

According to the National Health Act no 61 of 2003, Section 5, a health care provider may not refuse a person emergency medical treatment. Such a medical service provider should not request the Compensation Fund to authorise such treatment before the claim has been submitted to and accepted by the Compensation Fund. Pre-authorisation of treatment is not possible and no medical expense will be approved if liability for the claim has not been accepted by the Compensation Fund.

An employee seeks medical advice at his own risk. If an employee represented to a medical service provider that he is entitled to treatment in terms of the Compensation for Occupational Injuries and Diseases Act, and yet failed to inform the Compensation Commissioner or his employer of any possible grounds for a claim, the Compensation Fund cannot accept responsibility for medical expenses incurred. The Compensation Commissioner could also have reasons not to accept a claim lodged against the Compensation Fund. In such circumstances the employee would be in the same position as any other member of the public regarding payment of his medical expenses.

Please note that from 1 January 2004 a certified copy of an employee's identity document will be required in order for a claim to be registered with the Compensation Fund. If a copy of the identity document is not submitted the claim will not be registered but will be returned to the employer for attachment of a certified copy of the employee's identity document. Furthermore, all supporting documentation submitted to the Compensation Fund must reflect the identity number of the employee. If the identity number is not included such documents can not be processed but will be returned to the sender to add the ID number.

The tariff amounts published in the tariff guides to medical services rendered in terms of the Compensation for Occupational Injuries and Diseases Act do not include VAT. All accounts for services rendered will be assessed without VAT. Only if it is indicated that the service provider is registered as a VAT vendor and a VAT registration number is provided, will VAT be calculated and added to the payment, without being rounded off.

The only exception is the "per diem" tariffs for Private Hospitals that already include VAT.

Please note that there are VAT exempted codes in the private ambulance tariff structure.

CLAIMS WITH THE COMPENSATION FUND ARE PROCESSED AS FOLLOWS

- 1. New claims are registered by the Employers and the Compensation Fund and the **employer views the claim number allocated online.** The allocation of a claim number by the Compensation Fund, does not constitute acceptance of liability for a claim, but means that the injury on duty has been reported to and registered by the Compensation Commissioner. Enquiries regarding claim numbers should be directed to the employer and not to the Compensation Fund. The employer will be in the position to provide the claim number for the employee as well as indicate whether the claim has been accepted by the Compensation Fund
- 2. If a claim is **accepted** as a COIDA claim, **reasonable medical expenses** will be paid by the Compensation Commissioner.
- 3. If a claim is **rejected (repudiated)**, medical expenses for services rendered will not be paid by the Compensation Commissioner. The employer and the employee will be informed of this decision and the injured employee will be liable for payment.
- 4. If **no decision** can be made regarding acceptance of a claim due to inadequate information, the outstanding information will be requested and upon receipt, the claim will again be adjudicated on. Depending on the outcome, the invoices from the service provider will be dealt with as set out in 2 and 3. Please note that there are claims on which a decision might never be taken due to lack of forthcoming information.

TARIFF OF FEES IN RESPECT OF PHYSIOTHERAPY SERVICES

FROM 1 APRIL 2020

- Unless timely steps are taken to cancel an appointment, the relevant fee may be charged to the employee. Each case shall be considered on merit and if the circumstances warrant, no fee shall be charged.
- In exceptional cases where the tariff fee is disproportionately low in relation to the actual services rendered by a physiotherapist, a higher fee may be negotiated. Conversely, if the fee is disproportionately high in relation to the actual services rendered, a lower fee than that in the tariff should be charged.
- Newly hospitalised patients will be allowed up 20 sessions without pre-authorisation. After a series of 20 treatment sessions in hospital, the treating medical practitioner must submit motivation with a treatment plan to the Compensation Fund for authorisation.
- AM and PM treatment sessions, applicable only to hospitalised patients, should be specified and medically motivated for on the progress rehabilitation report.
- In cases of out-patients, all treatment sessions will need pre-authorisation. All request for pre-authorisation must be based on clinical need, best practice and be in the best interest of the patient. The physiotherapist must submit a referral with motivation from the treating doctor and a treatment plan. The first consultation can be done before pre-authorisation to allow the physiotherapist to provide a treatment plan to the fund for preauthorisation. Practitioners will be allowed up to twenty treatment sessions to continue with treatment after submitting their request while awaiting response from the Fund. The rehabilitation professional must submit monthly progress report.
- "After hour treatment" shall mean all physiotherapy performed where emergency treatment and /or essential continuation of care is required after working hours, before 07:00 and after 17:00 on weekdays, and any treatment over a weekend or public holiday. In cases where the physiotherapist's scheduled working hours extend after 17:00 and before 07:00 during the week or weekend, the above rule shall not apply and the treatment fee shall be that of the normal listed tariff. The fee for all treatment under this rule shall be the total fee for the treatment plus 50 per cent. Modifier 006 must then be quoted after the appropriate tariff code to indicate that this rule is applicable.

For the purpose of this rule:

Emergency treatment and/or essential continuation of care refers to a physiotherapy procedure, where failure to provide the procedure would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the patient's life in serious jeopardy.

- 007.

 The physiotherapist shall submit his / her account for treatment to the employer of the employee concerned.
- 008. When an employee is referred for physiotherapy treatment after a surgical procedure, a new treatment plan needs to be provided to the Fund.
- O11. Cost of material does not include consumables (e.g. ultrasound gel, massage oil, gloves, alcohol swabs, facial tissues, paper towels and etc.)
- O12. An account for services rendered will be assessed and added without VAT. VAT is then calculated and added to the final payment amount.
- Where a physiotherapist is called out from residence or rooms to an employee's home or hospital, travelling fees to be charged for travelling will be R 3.30 per kilometer from the 1st kilometer. If more than one employee is attended to during the course of a trip, the full travelling expenses must be divided pro rata between the relevant employees(the physiotherapist will claim for one trip). A physiotherapist is not entitled to charge any travelling expenses or travelling time to his / her rooms.
- 014. Physiotherapy services rendered in a hospital or nursing facility.
- 018 Information Modifier to indicate services rendered to outpatients
