NOTICE 272 OF 2020

INTERNATIONAL TRADE ADMINISTRATION COMMISSION

**NOTICE OF AN INITIATION OF THE INVESTIGATION FOR REMEDIAL ACTION IN THE
FORM OF A SAFEGUARD MEASURE AGAINST THE INCREASED IMPORTS OF
BOLTS WITH HEXAGON HEADS OF IRON OR STEEL**

The International Trade Administration Commission of South Africa (the Commission) decided to proceed with an investigation for remedial action in the form of a safeguard against the increased imports of bolts with hexagon heads of iron or steel.

Based on the information submitted, the Commission decided that the applicant submitted prima facie information to indicate:

- Events cited can be regarded as unforeseen developments that led to the surge or increase in volumes of imports;
- SACU industry is suffering serious injury; and
- There is a causal link between the serious injury suffered by the applicant and the surge in volumes of imports.

THE APPLICANT

The application was lodged by South African Iron and Steel Institute (SAISI) on behalf of the South African Fasteners Manufacturers' Association (SAFMA). SAFMA members are the only producers of the subject product in the SACU, thereby constituting 100% by production volume of the domestic industry. SAFMA members are CBC Fasteners (Pty) Ltd (CBC), Transvaal Pressed Nuts Bolts and Rivets (Pty) Ltd (TPN), SA Bolt Manufacturers Company (Pty) Ltd (SAB) and Impala Bolt and Nut (Pty) Ltd (Impala). SAIISI is a representative organization serving the collective interests of the primary steel industry in South Africa.

DESCRIPTION OF THE SUBJECT PRODUCT UNDER INVESTIGATION

The applicant described the imported products as bolts with hexagon heads of iron or steel, imported under tariff sub-heading 7318.15.43

DESCRIPTION OF THE LIKE OR DIRECTLY COMPETITIVE SACU PRODUCT

The SACU product is described as bolts with hexagon heads of iron or steel.

ALLEGATION OF SERIOUS INJURY AND CAUSAL LINK

The period of investigation for data evaluation for the purposes of determining the allegation of serious injury is 01 July 2015 to 30 June 2019.

The injury analysis relates to information submitted by CBC Fasteners (Pty) Ltd, SA Bolt Manufacturers (Pty) Ltd and Transvaal Pressed Nuts, Bolts & Rivets (Pty) Ltd representing more than 80% of the SACU industry by production volumes.

The Applicant alleged and submitted *prima facie* information indicating that it is experiencing serious injury in the form of a decline in sales volumes, output, market share, utilisation of capacity, net profit and productivity for the period 1 July 2015 to 30 June 2019.

On this basis the Commission found that *prima facie* information was submitted to indicate that the SACU industry was suffering serious injury which could be causally linked to the surge in the volumes of imports of the subject products.

UNFORESEEN DEVELOPMENTS

The Applicant submitted that a confluence of events forms the basis of the unforeseen development that supports this application. This confluence of events is led notably by China which is the biggest producer of global fasteners, accounting for more than 50% of global fasteners capacity and output.

The Applicant stated that during the Uruguay Round of negotiations, South Africa did not foresee the following events:

- The unprecedented steep rate of increase in fasteners production capacity (including the subject products) over the ensuing two decades (increased 8 folds since 1994) to support growing construction and manufacturing activity, as well as to help build infrastructure, particularly in emerging economies;
- The contraction of the world economy and in particular the Chinese economy resulted in the contraction of demand for fasteners, that contribute to the imbalance between capacity and demand;
- Record export volumes by countries with excess capacity, especially Chinese producers fueled by excess capacity and output; and
- This excess output, capacity and export volumes led by China, displaced production in other regions, thus harming producers in other markets. This has already led to several trade actions by major fasteners markets, including the SACU market. The fact that their markets are now protected, contracts the global demand for fasteners even further, exasperating the problem of increased imports into the SACU;

LEGAL FRAMEWORK

This investigation will be conducted in accordance with the International Trade Administration Act, 2002 (ITA Act) and the International Trade Administration Commission Safeguard Regulations (SGR) read with the World Trade Organization Agreement on Safeguards (the Safeguard Agreement).

Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.

Subsection 33(1) of the ITA Act provides that any person claiming confidentiality of information should identify whether such information is *confidential by nature* or is *otherwise confidential* and any such claims must be supported by a written statement, in each case, setting out how the information satisfies the requirements of the claim to confidentiality.
