BOARD NOTICE 65 OF 2020**SOUTH AFRICAN COUNCIL FOR THE ARCHITECTURAL PROFESSION****BOARD NOTICE**

Framework for guidelines professional fees in respect of architectural services rendered by registered architectural professionals.

1. Introduction

- a) In terms of section 34 (2) of the Architectural Profession Act 44 of 2000 the South African Council for the Architectural Profession, hereafter referred to as SACAP, must annually, after consultation with the Voluntary Associations, determine guideline professional fees and publish those fees in the *Gazette*.
- b) The Guideline professional fees shall be in line with the principles referred to in section 4(k)(v) of the Council for the Built Environment Act 43 of 2000 which stipulates that “the principles upon which Council must base guideline professional fees should be in accordance with any legislation relating to the promotion of competition”.

2. Purpose

- a) The Council of the Built Environment (CBE) **Policy Framework on determination and review of guideline professional fees for built environment professions** stipulates that, the guideline professional fees are determined and published as a guide only and not as prescribed fees which registered professionals are entitled to charge.
- b) Guideline professional fees are for the purpose of guidance required to promote market efficiency, and redress consumers and the public information deficit, relative to the professional’s knowledge and expertise. The guideline professional fees are not prescribed or set as maximum or minimum mandatory fees to be charged for professional services rendered, but serve as guideline.

SOUTH AFRICAN COUNCIL FOR THE ARCHITECTURAL PROFESSION

3. Principles

- a) The guideline professional fees are based on cost of works as per fee survey undertaken by the profession. As per the **Policy Framework on determination and review of guideline professional fees for built environment professions**, the guideline professional fees take into consideration reasonable rate of return on investment, intellectual capital, effort and, most importantly, risk.
- b) The guideline professional fees tables have been split into 3 complexities to align with the Identification of Work.
- c) The guideline professionals fee tables represent the fees for a full service by a hypothetical average sized architectural practice, practising in a responsible and sustainable manner. This means that the tables are not meant to fit any one specific project perfectly and in almost all cases should be adjusted up or down in relation to specific project conditions.
- d) The guideline professional fees are expressly not suitable for use in a basket of professional fees calculation, where all professional fees are reduced to fit a required overall fee basket. Reduction of fees in this manner, without due regard to a concurrent agreed reduction of service, is strongly discouraged.

4. General provisions

The guideline professional fees published under Gazette No. 38863, 12 June 2015 under board notice 121 & 122 are hereby repealed. The provisions of previous board notice shall apply in respect of services rendered during a stage which has not yet been completed by the date of commencement of this board notice. The new board notice shall apply to all subsequent work stages.

Furthermore, services additional to the standard service may be included, and these additional services are included as the parties may deem appropriate, and are provided for herein.

7. Fees description

The calculation of fees based on a percentage of project cost is the normal basis for determining professional fees and represents the accepted basis by the Built Environment Professions for remuneration of professional services. Such fees are referred to as project cost-based fees. An alternative to a project cost-based fee is a time-based fee.

SOUTH AFRICAN COUNCIL FOR THE ARCHITECTURAL PROFESSION**8. Project cost-based fee**

8.1 A project cost-based fee is appropriate when there is a well-defined scope of service for the architectural professional. This is based on a budget for the works for fee calculation purposes, and shall be adjusted on the final cost of the works.

8.2 The project cost-based fee results in a sliding scale, which arises from the series of percentages related to the value of the works and its complexity – low, medium or high – as defined in guideline profession fees board notice. The primary fee is stated as an appropriate value to smooth the sliding scale.

8.3 The adjustment provided for in the guidelines professional fee is based on the reduced aggregate of the value of the works and/or project from which the budget for the works for fee purposes is derived. This arises from the provision that fees for architectural services are calculated on the total value of the works and represent an average over all elements of the works and/or project.

8.4 Where a fee is calculated as a project cost-based fee, the fee consists of a primary fee (Column C) plus a secondary fee. The secondary fee is calculated as a percentage (Column D) of the value of the works on the balance over per cost bracket indicated in Column E. *Refer to guideline professional fees Board Notice.*

8.5 The formula and examples thereof are in the guidelines professional fee.

8.6 Where an architectural professional has undertaken work to change the agreed design and the fee is not covered by an increase in fees relative to the construction cost, a time-based fee may be agreed for this change.

9. Time-based fee

9.1 Where the scope of service is not clearly defined, or the service relates to small scale projects, or the service is of an unusual or specialised nature, a

SOUTH AFRICAN COUNCIL FOR THE ARCHITECTURAL PROFESSION

time-based fee is recommended to be used as the basis of remuneration. Where fees for architectural professional services are time based, such fees may be based on an hourly rate as set out in the guidelines professional fee board notice.

9.2 Where an architectural professional has undertaken work to change the agreed design and the fee is not covered by the agreed time-based fee, additional fees may be agreed upon.
