The principal objective of this Protocol is to support the objectives of the AfCFTA, as set out in Article 3 of the Agreement particularly to create a single liberalised market for trade in services.

The specific objectives of this Protocol are to:

enhance competitiveness of services through: economies of scale, reduced business costs, enhanced continental market access, and an improved allocation of resources including the development of trade-related infrastructure;

promote research and technological advancement in the field of services to accelerate economic and social development.

**PART IV
GENERAL OBLIGATIONS AND DISCIPLINES**

**Article 4
Most-Favoured-Nation Treatment**

With respect to any measure covered by this Protocol, each State Party shall, upon entry into force, accord immediately and unconditionally to services and service suppliers of any other State Party treatment no less favourable than that it accords to like services and service suppliers of any Third Party.

Nothing in this Protocol shall prevent a State Party from entering into a new preferential agreement with a Third Party, in accordance with Article V of the GATS provided such agreements do not impede or frustrate the objectives of this Protocol. Such preferential treatment shall be extended to all State Parties on a reciprocal and non-discriminatory basis.

Notwithstanding paragraph 1, two (2) or more State Parties may conduct negotiations and agree to liberalise trade in services for specific sectors or sub-sectors in accordance with the objectives in this Protocol. Other State Parties shall be afforded opportunity to negotiate the preferences granted therein on a reciprocal basis.

Notwithstanding the provisions of paragraph 2, a State Party shall not be obliged to extend preferences agreed with any Third Party prior to the entry into force of this Protocol, of which that State Party was a member or a beneficiary. A State Party may afford opportunity to the other State Parties to negotiate the preferences granted therein on a reciprocal basis.

The provisions of this Protocol shall not be so construed as to prevent any State Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

A State Party may maintain a measure which is inconsistent with paragraph 1, provided it is listed in the Most Favoured Nation (MFN) exemption list. The agreed list of MFN exemptions shall be annexed to this Protocol. States Parties shall regularly review MFN exemptions, with a view to determining which MFN exemptions can be eliminated.

Article 5 Transparency

Each State Party shall, in a medium⁵ that is accessible, publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Protocol. International and regional agreements pertaining to or affecting trade in services to which a State Party is a signatory shall also be published.

Each State Party shall notify the Secretariat of any international and regional agreements pertaining to or affecting trade in services with Third Parties to which they are signatory prior to or after entry into force of this Protocol.

Each State Party shall promptly and at least annually notify the Secretariat of the introduction of any new, or any changes to, existing laws, regulations or administrative guidelines which significantly affect trade in services under this Protocol.

Where a State Party submits a notification to the Secretariat, the latter shall promptly circulate the said notification to all State Parties.

Each State Party shall respond promptly to all requests by any other State Party for specific information on any of its measures of general application or international and/or regional agreements within the meaning of paragraph 1. State Parties shall also reply to any question from any other State Party relating to an actual or proposed measure that might substantially affect the operation of this Protocol.

⁵ For example through Gazette, newsletter, Hansard, or websites in one of the African Union languages.

Each State Party shall designate the relevant enquiry points to provide State Parties with specific information, upon request, on all such matters related to trade in services as well as those subject to the notification requirement above.

**Article 6
Disclosure of Confidential Information**

Nothing in this Protocol shall require any State Party to disclose confidential information and data, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 7
Special and Differential Treatment

In order to ensure increased and beneficial participation in trade in services by all parties, State Parties shall:

provide special consideration to the progressive liberalisation of service sectors commitments and modes of supply which will promote critical sectors of growth, social and sustainable economic development;

take into account the challenges that may be encountered by State Parties and may grant flexibilities such as transitional periods, within the framework of action plans, on a case by case basis, to accommodate special economic situations and development, trade and financial needs in implementing this Protocol for the establishment of an integrated and liberalised single market for trade in services; and

accord special consideration to the provision of technical assistance and capacity-building through continental support programmes.

Article 8
Right to Regulate

Each State Party may regulate and introduce new regulations on services and services suppliers within its territory in order to meet national policy objectives, in so far as such regulations do not impair any rights and obligations arising under this Protocol.

Article 9
Domestic Regulation

In sectors where specific commitments are undertaken, each State Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, transparent and impartial manner.

Each State Party shall maintain or institute, as soon as practicable, judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the State Party shall ensure that the procedures in fact provide for an objective and impartial review.

Where authorisation is required for the supply of a service liberalised under this Protocol, the competent authorities of a State Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the State Party shall provide, without undue delay, information concerning the status of the application.

Article 10
Mutual Recognition

For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing or certification of services suppliers, and subject to the requirements of paragraph 3 of this Article, a State Party may recognise the education or experience obtained, requirements met, or licenses or certifications granted in another State Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with the State Party concerned or may be accorded autonomously.

A State Party that is a party to an agreement or arrangement of the type referred to in paragraph 1 of this Article, whether existing or future, shall afford adequate opportunity for other interested State Parties to negotiate their accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a State Party accords recognition autonomously, it shall afford adequate opportunity for any other State Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other State Party's territory should be recognised.

State Party shall not accord recognition in a manner which would constitute a means of discrimination between State Parties in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

Each State Party shall:

(a) within twelve (12) months from the date on which the Agreement enters into force for it, inform the Secretariat of its existing recognition measures and state whether such measures are based on agreements or arrangements of the type referred to in paragraph 1 of this Article;

promptly inform the State Parties through the Secretariat as far in advance as possible of the opening of negotiations on an agreement or arrangement of the type referred to in paragraph 1 of this Article in order to provide adequate opportunity to any other State Party to indicate their interest in participating in the negotiations before they enter a substantive phase; and

promptly inform the States Parties through the Secretariat when it adopts new recognition measures or significantly modifies existing ones and state whether the measures are based on an agreement or arrangement of the type referred to in paragraph 1 of this Article.

Wherever appropriate, recognition should be based on AfCFTA agreed criteria by State Parties. In appropriate cases, State Parties shall work in cooperation with relevant intergovernmental and non-governmental organisations towards the establishment and adoption of common continental standards and criteria for recognition and common continental standards for the practice of relevant services trades and professions.

Article 11
Monopolies and Exclusive Service Suppliers

Each State Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that State Party's obligations and specific commitments under this Protocol.

Where a State Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that State Party's specific commitments, the State Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

A State Party which has a reason to believe that a monopoly supplier of a service of any other State Party is acting in a manner inconsistent with paragraphs 1 and 2 of this Article, may request the State Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.

If, after the date of entry into force of this Protocol, a State Party grants monopoly rights regarding the supply of a service covered by its specific commitments, that State Party shall notify the Secretariat no later than three (3) months before the intended implementation of the grant of monopoly rights and the provisions concerning modification of specific commitments will apply.

The provisions of this Article shall also apply to cases of exclusive service suppliers where a State Party, formally or in effect:

authorises or establishes a small number of service suppliers; and

substantially prevents competition among those suppliers in its territory.

Article 12
Anti-competitive Business Practices

State Parties recognise that certain business practices of service suppliers, other than those concerning monopolies and exclusive service suppliers, may restrain competition and thereby restrict trade in services.

Each State Party shall, at the request of any other State Party, enter into consultations with a view to eliminating practices referred to in paragraph 1 of this Article. The State Party addressed shall respond to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The State Party addressed shall also provide other information available to the requesting State Party, subject to its domestic law and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting State Party.

Article 13
Payments and Transfers

Except under the circumstances envisaged in Article 14 of this Protocol, a State Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

Nothing in this Protocol shall affect the rights and obligations of the members of the International Monetary Fund under the Articles of Agreement of the Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a State Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except as provided under Article 14 of this Protocol, or at the request of the Fund.

Article 14
Restrictions to Safeguard the Balance of Payments

In the event of serious balance of payments and external financial difficulties or threat thereof, a State Party may adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments. It is recognised that particular pressures on the balance of payments of a State Party in the process of economic development or economic transition may necessitate the use of restrictions to ensure, inter alia, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development or economic transition.

The restrictions referred to in paragraph 1 of this Article shall:

not discriminate among State Parties;

be consistent with the Articles of Agreement of the International Monetary Fund;

avoid unnecessary damage to the commercial, economic and financial interests of any other State Party;
not exceed those necessary to deal with the circumstances described in paragraph 1 of this Article; and
be temporary and be phased out progressively as the situation specified in paragraph 1 of this Article improves.

In determining the incidence of such restrictions, State Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

Any restrictions adopted or maintained under paragraph 1 of this Article, or any changes therein, shall be promptly notified to the Secretariat.

State Parties applying the provisions of this Article shall consult promptly within the Committee on Trade in Services on restrictions adopted under this Article.

The Committee on Trade in Services shall establish procedures for periodic consultations with the objective of enabling such recommendations to be made to the State Party concerned as it may deem appropriate.

Such consultations shall assess the balance-of-payment situation of the State Party concerned and the restrictions adopted or maintained under this Article, taking into account, inter alia, such factors as:

the nature and extent of the balance-of-payments and the external financial difficulties;
the external economic and trading environment of the consulting State Party; and
alternative corrective measures which may be available.

The consultations shall address the compliance of any restrictions with paragraph 2 of this Article, in particular the progressive phase-out of restrictions in accordance with paragraph 2(e) of this Article.

In such consultations, all findings of statistical and other facts presented by the International Monetary Fund relating to foreign exchange, monetary reserves and balance of payments, shall be accepted and conclusions shall be based on the assessment by the Fund of the balance-of-payments and the external financial situation of the consulting State Party.

If a State Party which is not a member of the International Monetary Fund wishes to apply the provisions of this Article, the Council of Ministers shall establish a review procedure and any other procedures necessary.

Article 15

General Exceptions

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between State Parties where like conditions prevail, or a disguised restriction on trade in services, nothing in this Protocol shall be construed to prevent the adoption or enforcement by any State Party of measures:

necessary to protect public morals or to maintain public order⁶;
necessary to protect human, animal or plant life or health;
necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Protocol including those relating to:
the prevention of deceptive and fraudulent practices or to deal with the effects of a default on services contracts;
the protection of the privacy of individuals in relation to the processing and dissemination of personal data and the protection of confidentiality of individual records and accounts;
safety;
inconsistent with National Treatment, provided that the difference in treatment is aimed at ensuring the equitable or effective imposition or collection of direct taxes in respect of services or service suppliers of other States Parties; and⁷
inconsistent with the Most Favoured Nation obligation provided that the difference in treatment is the result of an agreement on avoidance of double taxation or provisions on the avoidance of double taxation in any other international agreement or arrangement by which the State Party is bound.

Article 16**Security Exceptions**

Nothing in this Protocol shall be construed:

to require any State Party to furnish any information, the disclosure of which it considers contrary to its essential security interests; or

to prevent any State Party from taking any action which it considers necessary for the protection of its essential security interests:

relating to the supply of services as carried out directly or indirectly for the purpose of provisioning a military establishment;

relating to fissionable and fusionable materials or the materials from which they are derived; and

taken in time of war or other emergency in international relations; or

to prevent any State Party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

The Secretariat shall be informed, to the fullest extent possible, of measures taken under paragraphs 1(b) and 1(c) of this Article, and of their termination.

⁶ *The public order exception may be invoked only where a genuine and sufficiently serious threat is posed to one of the fundamental interests of society.*

⁷ *Measures that are aimed at ensuring the equitable or effective imposition or collection of direct taxes include measures taken by a State Party under its taxation system which:*
Apply to non-resident service suppliers in recognition of the fact that the tax obligation of non-residents is determined with respect to taxable items sourced or located in the State Party's territory; or
Apply to non-residents in order to ensure the imposition or collection of taxes in the State Party's territory; or
Apply to non-residents or residents in order to prevent the avoidance or evasion of taxes, including compliance measures; or
Apply to consumers of services supplied in or from the territory of another State Party in order to ensure the imposition or collection of taxes on such consumers derived from sources in the State Party's territory; or
Distinguish service suppliers subject to tax on worldwide taxable items from other service suppliers, in recognition of the difference in the nature of the tax base between them; or

Article 17
Subsidies

State Parties shall decide on mechanisms for information exchange and review of all subsidies related to trade in services that State Parties provide to their domestic service suppliers.

Any State Party which considers that it is adversely affected by a subsidy of another State Party may request consultations with that State Party on such matters. Such requests shall be accorded sympathetic consideration.

PART V
PROGRESSIVE LIBERALISATION

Article 18
Progressive Liberalisation

State Parties shall undertake successive rounds of negotiations based on the principle of progressive liberalisation accompanied by the development of regulatory cooperation, and sectoral disciplines, taking into account the objectives of the 1991 Abuja Treaty that aim to strengthen integration at the regional and continental levels in all fields of trade, and in line with the general principle of progressivity towards achievement of the ultimate goal of the African Economic Community.

State Parties shall negotiate sector specific obligations through the development of regulatory frameworks for each of the sectors, as necessary, taking account of the best practices and *acquis* from the RECs, as well as the negotiated agreement on sectors for regulatory cooperation. State Parties agree that negotiations for continuing the process shall commence following the establishment of the AfCFTA, based on the work programme to be agreed by the Committee on Trade in Services.

The liberalisation process shall focus on the progressive elimination of the adverse effects of measures on trade in services as a means of providing effective market access with a view to boosting intra-African trade in services.

The list of Priority Sectors and the Modalities on Trade in Services shall be annexed to this Protocol and shall form an integral part hereof.

The Transitional Implementation Work Programme developed by Member States shall guide the finalisation of outstanding Phase I negotiations on this Protocol, before the entry into force of the Agreement.

Article 19
Market Access

With respect to market access through the modes of supply identified in Article 1(p) of this Protocol, each State Party shall accord services and service suppliers of any other State Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule.⁸

In sectors where market-access commitments are undertaken, the measures which a State Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;⁹

⁸ *If a State Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply defined in Article 1(p) and if the cross-border movement of capital is an essential part of the service itself, that State Party is thereby committed to allow such movement of capital. If a State Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 1(p) (iii), it is thereby committed to allow related transfers of capital into its territory.*

⁹ Article 1(g) (iii) does not cover measures of a State Party which limit inputs for the supply of services.

limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

Article 20

National Treatment

In all sectors inscribed in the schedule, and subject to any conditions and qualifications set out therein, each State Party shall accord to services and service suppliers of any other State Party treatment no less favourable than that it accords to its own like services and service suppliers, subject to the conditions and qualifications agreed and specified in its Schedule of Specific Commitments.

A State Party may meet the requirement of paragraph 1 of this Article, by according to services and service suppliers of any other State Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the State Party compared to like services or service suppliers of any other State Party.

Article 21

Additional Commitments

The State Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 19 or 20 of this Protocol, including but not limited to those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in a State Party's Schedule of Specific Commitments.

Article 22

Schedules of Specific Commitments

Each State Party shall set out in a schedule, the specific commitments that it undertakes under Articles 19, 20 and 21 of this Protocol.

With respect to sectors where such commitments are undertaken, each Schedule of Specific Commitments shall specify:

terms, limitations and conditions on market access;

conditions and qualifications on national treatment;

undertakings relating to additional commitments; and

where appropriate the time-frame for implementation of such commitments, including their date of entry into force.

Measures inconsistent with both Articles 19 and 20 of this Protocol shall be inscribed in the column relating to Article 19 of this Protocol. In this case the inscription will be considered to provide a condition or qualification to Article 20 of this Protocol as well.

The Schedules of Specific Commitments, the Modalities for Trade in Services and the list of Priority Sectors shall, upon adoption, form an integral part of this Protocol.

The Transitional Implementation Work Programme developed by Member States shall guide the finalisation of outstanding Phase I negotiations on this Protocol, before the entry into force of the Agreement.

Article 23

Modification of Schedules of Specific Commitments

A State Party (referred to in this Article as the "modifying State Party") may modify or withdraw any commitment in its schedule, at any time after three years have elapsed from the date on which that commitment entered into force, in accordance with the provisions of this Article.

A modifying State Party shall notify its intent to modify or withdraw a commitment pursuant to this Article to the Secretariat no later than three (3) months before the intended date of implementation of the modification or withdrawal. The Secretariat shall promptly circulate this information to State Parties.

At the request of any State Party the benefits of which under this Protocol may be affected (referred to in this Article as an "affected State Party"), by a proposed modification or withdrawal notified under paragraph 2 of this Article, the modifying State Party shall enter into negotiations with a view to reaching agreement on any necessary compensatory adjustment. In such negotiations and agreement, the State Parties concerned shall endeavour to maintain a general level of mutually advantageous commitments not less favourable to trade than that provided for in commitments prior to such negotiations.

Compensatory adjustments shall be made on a most-favoured-nation basis.

If agreement is not reached between the modifying State Party and any affected State Party before the end of the period provided for negotiations, such affected State Party may refer the matter to dispute settlement. Any affected State Party that wishes to enforce a right that it may have to compensation must participate in the dispute process.

If no affected State Party has requested dispute settlement, the modifying State Party shall be free to implement the proposed modification or withdrawal, within a reasonable period of time.

The modifying State Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the dispute settlement.

If the modifying State Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitration, any affected State Party that participated in the dispute settlement may modify or withdraw substantially equivalent benefits in conformity with those findings. Notwithstanding the obligations under Article 4 of this Protocol, such a modification or withdrawal may be implemented solely with respect to the modifying State Party.

The Committee on Trade in Services shall facilitate such negotiations and establish related appropriate procedures.

Article 24

Denial of Benefits

Subject to prior notification and consultation, a State Party may deny the benefits of this Protocol to service suppliers of another State Party where the service is being supplied by a juridical person of a non-State Party, without real and continuous link with the economy of the State Party or with negligible or no business operations in the territory of the other State Party or any other State Party.

Article 7 Consultations

State Parties with a view to encouraging amicable resolution of disputes, affirm their resolve to strengthen and improve the effectiveness of consultation procedures employed by State Parties.

Each State Party undertakes to accord consideration to, and afford adequate opportunity for consultations regarding any representation made by another State Party concerning measures affecting the operation of the Agreement.

Requests for consultations shall be notified to the DSB through the Secretariat in writing, giving the reasons for the request, including identification of the issues and an indication of the legal basis for the complaint.

Where a request for consultations is made pursuant to this Protocol, the State Party to which the request is made shall, unless otherwise mutually agreed, reply to the request within ten (10) days after the date of its receipt and shall enter into consultations in good faith within a period not exceeding thirty (30) days after the date of receipt of the request, with a view to reaching a mutually satisfactory solution.

Where a State Party to which the request is made does not respond within ten (10) days after the date of receipt of the request, or does not enter into consultations within a period of thirty (30) days, or a period otherwise mutually agreed, after the date of receipt of the request, the State Party that requested for the consultations may refer the matter to the DSB requesting for the establishment of a Panel.

Where the Parties to the dispute agree that the claim of substantial interest is well founded, the Third Party shall be so joined to the consultations. If the request to join the consultations is not accepted, the disputing State Party shall inform the DSB and in this event the applicant State Party shall be free to request consultation.

Article 8 Good Offices, Conciliation and Mediation

In case the applicant requests the establishment of a Panel with terms of reference other than the standard terms, the written request shall include the proposed text of special terms of reference.

A meeting of the DSB shall be convened within fifteen (15) days of the request to establish a Panel, provided that at least ten (10) days advance notice of the meeting is given to the DSB.

The Secretariat, shall propose nominations for the Panel to the Parties to the dispute. The Parties to the dispute shall not oppose nominations except for compelling reasons.

to examine, in the light of the relevant provisions in the Agreement, cited by the Parties to the dispute, the matter referred to the DSB by the Complaining Party; and

to make such findings as will assist the DSB in making the recommendations or in giving the rulings provided for in the Agreement.

Panels shall address the relevant provisions in the Agreement cited by the Parties to the dispute.

In establishing a Panel, the DSB may authorise its Chairperson to draw up the terms of reference of the Panel in consultation with the State Parties to the dispute, subject to the provisions of paragraph 1. The terms of reference thus drawn up shall be circulated to all State Parties. If other than standard terms of reference are agreed upon, any State Party may raise any point relating thereto in the DSB.

Article 12**Functions of a Panel**

The principal function of a Panel is to assist the DSB in discharging its responsibilities under the Agreement.

In performing this function, a Panel shall make an objective assessment of the matter before it, including an objective assessment of the facts of the case and the applicability of and conformity with the relevant provisions of the Agreement and make findings to assist the DSB in making recommendations and rulings.

The Panel shall consult widely and regularly with the Parties to a dispute and give them an adequate opportunity to develop a mutually satisfactory solution.

Article 13
Third Parties

The interests of all Parties to a dispute including Third Parties shall be taken into account during the Panel process.

A Third Party shall, after notification of its substantial interests to the Panel through the DSB, provided that disputing parties agree that the claim of substantial interest is well founded, have an opportunity to be heard and to make written submissions to the Panel.

Copies of the submissions shall be served on the Parties to the dispute and shall be reflected in the report of the Panel.

If a Third Party considers that a measure already the subject of a Panel proceeding impairs or nullifies benefits accruing to it under the Agreement, that Third Party may have recourse to normal dispute settlement procedures under this Protocol. Such a dispute shall be referred to the original Panel wherever possible.

Third Parties shall receive the submissions of the Parties to a dispute at the first meeting of the Panel.

Article 14
Procedures for Multiple Complaints

Where more than one (1) State Party requests for the establishment of a Panel related to the same matter, a single Panel may be established to examine these complaints, taking into account the rights of all State Parties concerned. A single Panel shall be established to examine such complaints whenever feasible.

The single Panel shall organise its examination and present its findings to the DSB in such a manner that the rights, which the Parties to the dispute would have enjoyed had separate Panels examined the complaints, are in no way impaired. If one of the Parties to the dispute so requests, the Panel shall submit separate reports on the dispute concerned. The written submissions by each of the Complaining Parties shall be made available to the other Complaining Parties, and each Complaining party shall have the right to be present when any one of the other Complaining Party presents its views to the Panel.

If more than one Panel is established to examine the complaints related to the same matter, to the greatest extent possible the same persons shall serve as Panellists on each of the separate Panels and the timetable for the Panel process in such disputes shall be harmonised.

Article 15
Procedures for the Panel

The procedures of the Panel shall provide sufficient flexibility to ensure an effective and timely resolution of disputes by the Panels.

After consulting the Parties to a dispute, the Panellists shall, within seven (7) days after the composition of the Panel and the determination of its terms of reference, fix the timetable for the proceedings of the Panel. The timetable thus drawn up shall be circulated to all State Parties.

Where the Parties to the dispute have failed to develop a mutually satisfactory solution, the Panel shall submit its findings in the form of a written report to the DSB. In such cases, the report of the Panel shall set out the findings of the fact, the applicability of the relevant provisions and the basic rationale behind any findings and recommendations that it makes.

Where a settlement of the matter among the Parties to the dispute has been found, the report of the Panel shall be confined to a brief description of the case and to reporting that a solution has been reached.

Where a Panel determines that it cannot issue its report within five (5) months, or within one and a half (1½) months in cases of urgency, the Panel shall immediately inform the DSB in writing of the reasons for the delay together with an estimation of the period within which the Panel shall be ready to issue its report. Where a Panel cannot issue a report within the period specified in paragraph 4 of this Article, the Panel shall issue the report within nine (9) months from the date of its composition.

The reports of the Panel shall be drafted in the absence of the Parties to the dispute and shall be based on information and evidence provided by the parties and any other person, expert or institution in accordance with this Protocol.

The Panel shall produce a single report reflecting the views of the majority of the Panellists.

Without prejudice to the provisions of this Article, the Panel shall follow the working procedures specified in the Annex on Working Procedures of the Panel unless the Panel decides otherwise after consulting the Parties to the dispute.

The Panel shall, at the request of both Parties to a dispute, suspend its work at any time for a period agreed by the Parties not exceeding twelve (12) months and shall resume its work at the end of this agreed period at the request of the Complaining Party. If the Complaining Party does not request the resumption of the Panel's work before the expiry of the agreed suspension period, the procedure shall be terminated. The suspension and termination of the Panel's work are without prejudice to the rights of either Party to a dispute in another proceeding on the same matter.

Article 16 Right to Seek Information

The Panel shall have the right to seek information and technical advice from any source that it deems appropriate, after informing the relevant authorities of State Parties to the dispute.

The Panel shall have the right to seek information and technical advice from any State Party provided that the State Party is not a Party to the dispute.

Where a Panel seeks information or technical advice from a State Party, such State Party shall, within the time set by the Panel, respond to the request made for such information.

Confidential information that is provided shall not be disclosed without formal authorisation from the source providing the information.

Where a Party to a dispute raises a factual issue concerning a scientific or other technical matter, the Panel may request for an advisory report in writing from an expert review group with relevant qualifications and experience on the issue.

Rules for the establishment of the expert review group and its procedures are set forth in the Annex on Expert Review.

The Panel may seek information from any relevant source and may consult experts to obtain their opinion on any matter that may be brought before it.

Article 17 Confidentiality

The deliberations of the Panels shall be confidential.

Nothing in this Protocol shall preclude a Party to a dispute from disclosing statements of its own positions to the public.

The reports of the Panels shall be drafted without the presence of the parties to the dispute in light of the information provided and the statements made.

The Parties to a dispute shall submit their comments on the draft report in writing to the Panel, within a period set by the Panel.

Taking into account any comments received under paragraph 2 of this Article, or on the expiration of the time set for the receipt of comments from the Parties to a dispute, the Panel shall issue an interim report to the Parties to a dispute, containing descriptive sections and its findings and conclusions.

Within a period set by a Panel, any Party to a dispute may submit a written request for review of specific aspects of the interim report prior to the issuance and circulation of the final report to the Parties to a dispute.

At the request of any Party to a dispute, the Panel shall hold a meeting with the Parties to a dispute on the review of specific aspects of the interim report.

Where no comments are received by the Panel within the period set for the receipt of comments on the interim report, the interim report shall be deemed to be the Panel's final report and it shall be promptly circulated to the Parties to a dispute and any interested parties and shall be forwarded to the DSB for consideration.

The final report of the Panel shall include a discussion of the arguments made at the interim review stage.

Article 19
Adoption of Report of a Panel

In order to provide sufficient time for the State Parties to consider the reports of the Panel, the reports shall not be brought up for consideration by the DSB before the expiration of twenty (20) days from the date on which the Panel circulated the report.

State Parties having objections to a Panel report shall give written reasons to the DSB, explaining their objections, which may include discovery of new facts, which by their nature have decisive influence on the decision provided that:

such objections must be notified to the DSB within ten (10) days prior to a meeting of the DSB at which the Panel report will be considered; and

the objecting party shall serve a copy of the objection with the other parties to the dispute and to the Panel that made the report.

Parties to a dispute shall have the right to participate fully in the consideration of the Panel reports by the DSB and their views shall be fully recorded.

Within sixty (60) days from the date the final Panel report is circulated to the State Parties, the report shall be considered, adopted and signed at a meeting of the DSB convened for that purpose, unless a Party to the dispute formally notifies the DSB of its decision to appeal or the DSB decides by consensus not to adopt the report. If a Party to a dispute has notified its decision to appeal, the report by the Panel shall not be considered for adoption by the DSB until after completion of the appeal. The decision of the DSB shall be final except as otherwise provided for in this Article.

The Parties to the dispute shall be entitled to a signed copy of the adopted report within seven (7) days of its adoption.

An appeal on the report of the Panel shall be lodged with the DSB within thirty (30) days from the date of communication of the decision to appeal by the State Party to the DSB.

Article 20
Appellate Body

A standing Appellate Body (AB) shall be established by the DSB. The AB shall hear appeals from panel cases.

The AB shall be composed of seven (7) persons, three (3) of whom shall serve on any one case.

Persons serving on the AB shall serve in rotation. Such rotation shall be determined in the working procedures of the AB.

The DSB shall appoint persons to serve on the AB for a four-year term, and each person may be reappointed once. Vacancies shall be filled as they arise. A person appointed to replace a person whose term of office has not expired shall hold office for the remainder of the predecessor's term.

The DSB shall appoint a person to fill the vacancy within two (2) months from the date the vacancy arose.

Where the DSB fails to appoint a person to fill the vacancy within two (2) months, the Chairperson of the DSB in consultations with the Secretariat shall within a period of one (1) month fill the vacancy.

The AB shall comprise of persons of recognised authority, with demonstrated expertise in law, international trade and the subject matter of the Agreement generally.

Members of the AB shall not be affiliated to any government. The AB shall broadly represent the membership within the AfCFTA. All persons serving on the AB shall be available at all times and on short notice and shall stay abreast of dispute settlement activities and other relevant activities of the AfCFTA. They shall not participate in the consideration of any disputes that would create a direct or indirect conflict of interest.

Article 21
Appeals

Only Parties to the dispute, may appeal a Panel report. Third Parties which have notified the DSB of a substantial interest in the matter pursuant to paragraph 2 of Article 13 of this Protocol, may make written submissions to, and be given an opportunity to be heard by, the AB.

As a general rule, the proceedings shall not exceed sixty (60) days from the date a party to the dispute formally notifies its decision to appeal, to the date the AB circulates its report. In fixing its timetable the AB shall take into account the provisions of paragraph 9 (d) of Article 7 of this Protocol if relevant. Where the AB considers that it cannot provide its report within sixty (60) days, it shall inform the DSB in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. In no case shall the proceedings exceed ninety (90) days.

An appeal shall be limited to issues of law covered in the Panel report and legal interpretations developed by the Panel.

The AB shall be provided with appropriate administrative and legal support as it requires.

The expenses of persons serving on the AB, including travel and subsistence allowance, shall be met from the AfCFTA budget in accordance with the financial rules and regulations of the AU.

Article 22
Procedures for Appellate Review

Working procedures shall be drawn up by the AB in consultation with the Chairperson of the DSB and communicated to the State Parties for their information.

The proceedings of the AB shall be confidential.

The conduct of an appeal under this Article shall not exceed ninety (90) days.

The reports of the AB shall be drafted without the presence of the Parties to the dispute and in the light of the information provided and the statements made.

Opinions expressed in the AB report by individuals serving on the AB shall be anonymous.

The AB shall address each of the issues raised in accordance with paragraph 3 of Article 21 of this Protocol, during the appellate proceeding.

The AB may uphold, modify or reverse the legal findings and conclusions of the Panel.

The AB shall produce a single report reflecting the views of the majority of its members.

An AB report shall be adopted by the DSB and unconditionally accepted by the Parties to the dispute unless the DSB decides by consensus not to adopt the AB report within thirty (30) days following its circulation to the State Parties. This adoption procedure is without prejudice to the right of State Parties to express their views on an AB report.

Article 23
Panel and Appellate Body Recommendations

Where the Panel or the AB concludes that a measure is inconsistent with the Agreement, it shall recommend that the State Party concerned bring the measure into conformity with the Agreement. In addition to its recommendations, the Panel or the AB may suggest ways in which the State Party concerned could implement the recommendations.

Article 24
Surveillance of Implementation of Recommendations and Rulings

State Parties shall promptly comply with recommendations and rulings of the DSB.

A State Party concerned shall inform the DSB of its intentions in respect of the implementation of the recommendations and rulings of the DSB, at a meeting of the DSB which shall be held within thirty (30) days after the date of adoption of the report by the Panel or the AB.

Where a State Party concerned finds it impracticable to comply immediately with the recommendations and rulings of the DSB, the State Party concerned shall be granted a reasonable period in which to comply on the following basis:

period of time proposed by the State Party concerned provided that the DSB approves the proposal; or
in the absence of such approval a period mutually agreed by the Parties to a dispute within forty-five (45) days of the date of adoption of the report of the Panel and the AB and recommendations and rulings of the DSB; or

in the absence of such agreement, a period of time determined through binding arbitration within ninety (90) days after the date of adoption of the recommendations and rulings. In such arbitration a guideline for the arbitrator should be that the reasonable period of time to implement Panel or AB recommendations should not exceed fifteen (15) months from the date of adoption of a Panel or AB report. However, that time may be shorter or longer, depending upon the particular circumstances.

If the parties cannot agree on an arbitrator within ten (10) days after referring the matter to arbitration, the arbitrator shall be appointed by the Secretariat in consultation with the DSB within ten (10) days, after consulting the Parties.

The Secretariat shall keep the DSB informed of the status of the implementation of decisions made under this Protocol.

Except where the Panel or the AB has extended, pursuant to Paragraph 7 of Article 15 or Paragraph 2 of Article 21 of this Protocol, the time of providing its report, the period from the date of establishment of the Panel by the DSB until the date of determination of the reasonable period of time shall not exceed fifteen (15) months unless the Parties to the dispute agree otherwise. Where either the Panel or the AB has extended the time of providing its report, the additional time taken shall be added to the fifteen (15) month period; provided that unless the Parties to the dispute agree that there are exceptional circumstances, the total time shall not exceed eighteen (18) months.

Where there is disagreement as to the existence or consistency with the agreement of measures taken to comply with the recommendations and rulings, such disagreement shall be decided through recourse to these dispute settlement procedures, including wherever possible resort to the original Panel. The Panel shall circulate its report within ninety (90) days after the date of its establishment. Where the Panel considers that it cannot circulate its report within this time frame, it shall inform the DSB in writing of the reasons for the delay together with an estimate of the period within which it will circulate its report.

The DSB shall keep under surveillance the implementation of adopted recommendations or rulings. The issue of implementation of the recommendations or rulings may be raised at the DSB by any State Party at any time following their adoption. Unless the DSB decides otherwise, the issue of implementation of the recommendations or rulings shall be placed on the agenda of the DSB meeting after six (6) months following the date of establishment of the reasonable period of time pursuant to paragraph 3 of this Article, and shall remain on the DSB's agenda until the issue is resolved.

At least ten (10) days prior to each such DSB meeting, the State Party concerned shall provide the DSB with a detailed status report which shall contain among others:

the extent of the implementation of the ruling(s) and recommendation(s);

issues if any, affecting the implementation of the rulings and recommendations;

the period of time required by the State Party concerned to fully comply with implementation of the ruling(s) and recommendation(s).

Article 25**Compensation and the Suspension of Concessions or any other Obligations**

It is the duty of the State Parties to fully implement the recommendations and rulings of the DSB. Compensation and the suspension of concessions or other obligations are temporary measures available to the aggrieved Party in the event that the accepted recommendations and rulings of the DSB are not implemented within a reasonable period of time. Provided that neither compensation nor the suspension of concessions or other obligations is preferred to full implementation of the accepted recommendations. However, compensation is voluntary and, if granted, shall be consistent with the Agreement.

The suspension of concessions or other obligations shall be temporary and shall only be applied in as far as it is consistent with this Agreement and shall subsist until such a time as the inconsistency with the Agreement, or any other determined breach is removed, or that the State Party implements recommendations, or provides a solution to the injury caused, or occasioned by the non-compliance, or that a mutual satisfactory solution is reached.

In the event that the rulings and recommendations of the DSB are not implemented within a reasonable period of time, the aggrieved Party may request the DSB to impose temporary measures which include compensation and the suspension of concessions.

If the State Party concerned fails to bring the measure found to be inconsistent with the Agreement into compliance therewith or otherwise comply with the decisions and rulings within the reasonable period of time determined pursuant to Paragraph 3 of Article 24 of this Protocol, such State Party shall, if so requested, enter into negotiations with a Complaining Party, with a view to developing mutually acceptable compensation. If no satisfactory compensation has been agreed upon within twenty (20) days, a Complaining Party may request authorisation from the DSB to suspend the application to the State Party concerned of concessions or other obligations under the Agreement.

In considering what concessions or other obligations to suspend, the Complaining Party shall apply the following principles and procedures:

the general principle is that the Complaining Party should first seek to suspend concessions or other obligations with respect to the same sector(s) as that in which the Panel or AB has found a violation or other nullification or impairment;

if that Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector(s), it may seek to suspend concessions or other obligations in other sectors under the Agreement;

if that Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to other sectors under this agreement, and that the circumstances are serious enough, it may seek to suspend concessions or other obligations under the Agreement; and

if that Party to a dispute decides to request authorisation to suspend concessions or other obligations pursuant to subparagraphs (b) or (c), it shall state the reasons thereof in its request to the DSB.

In applying the above principles that party shall take into account:

the trade in the sector under which the Panel or Appellate Body has found a violation or other nullification or impairment, and the importance of such trade to that party; and

the broader economic elements related to the nullification or impairment and the broader economic consequences of the suspension of concessions or other obligations.

The level of the suspension of concessions or other obligations authorised by the DSB shall be equivalent to the level of the nullification or impairment.

When the situation described in paragraph 4 of this Article occurs, the DSB, shall grant authorisation to suspend concessions or other obligations within thirty (30) days from the date of request unless the DSB decides by consensus to reject the request. However, if the State Party concerned objects to the level of suspension proposed, or claims that the principles and procedures set forth in paragraph 5 have not been followed where a complaining party has requested authorisation to suspend concessions or other obligations pursuant to paragraph 5(b) or (c) of this Article, the matter shall be referred to arbitration. Such arbitration shall be carried out by the original Panel, if Panellists are available, or by an arbitrator appointed by the chairperson of the DSB and shall be completed within sixty (60) days from the date of appointment of the arbitrator. Concessions or other obligations shall not be suspended during the course of the arbitration.

The arbitrator acting pursuant to paragraph 7 of this Article, shall not examine the nature of the concessions or other obligations to be suspended but shall determine whether the level of such suspension is equivalent to the level of nullification or impairment. The arbitrator may also determine if the proposed suspension of concessions or other obligations is allowed under the Agreement. However, if the matter referred to arbitration includes a claim that the principles and procedures set forth in paragraph 3 of this Article, have not been followed, the arbitrator shall examine that claim. In the event the arbitrator determines that those principles and procedures have not been followed, the complaining party shall apply them consistent with paragraph 5 of this Article. The Parties to a dispute shall accept the arbitrator's decision as final and the parties concerned shall not seek a second arbitration. The DSB shall be informed promptly of the decision of the arbitrator and shall upon request, grant authorisation to suspend concessions or other obligations where the request is consistent with the decision of the arbitrator, unless the DSB decides by consensus to reject the request.

Article 26
Costs

The DSB shall determine the remuneration and expenses of the Panellists, arbitrators and experts in accordance with the financial rules and regulations of the AU.

The remuneration of the Panellists, arbitrators and experts, their travel and lodging expenses, shall be borne in equal parts by the Parties to a dispute, or in proportions determined by the DSB.

A Party to a dispute shall bear all other costs of the process as determined by the DSB.

Parties to the dispute shall be required to deposit their share of the Panellists' expenses with the Secretariat at the time of establishment, or composition of the Panel.

Article 27 Arbitration

Parties to a dispute may resort to arbitration subject to their mutual agreement and shall agree on the procedures to be used in the arbitration proceedings.

Parties to a dispute who may have referred a dispute for arbitration pursuant to this Article shall not simultaneously refer the same matter to the DSB.

Agreement by the Parties to resort to arbitration shall be notified to the DSB.

Third Parties shall be joined to an arbitration proceeding only upon the agreement of the Parties to the arbitration proceedings.

The Parties to an arbitration proceeding shall abide by the arbitration award and the award shall be notified to the DSB for enforcement.

In the event of a Party to a dispute refusing to cooperate, the Complaining Party shall refer the matter to the DSB for determination.

Arbitration awards shall be enforced in accordance with the provisions of Articles 24 and 25 of this Protocol *mutatis mutandis*.

Article 28

Technical Co-operation

Upon request from a State Party, the Secretariat may provide additional legal advice and assistance in respect of dispute settlement, provided that this shall be done in a manner that ensures the continued impartiality of the Secretariat.

The Secretariat may organise special training courses for interested State Parties concerning dispute settlement procedures and practices to enable State Parties to develop expert capacity on the Dispute Settlement Mechanism.

Article 29**Responsibilities of the Secretariat**

The Secretariat shall have the responsibility of assisting Panels, especially on legal, historical and procedural aspects of the matter dealt with and of providing secretarial support.

The Secretariat shall facilitate the constitution of Panels in accordance with this Protocol.

In order to accomplish the functions under Article 28 of this Protocol, the Secretariat shall avail experts with extensive experience in international trade law to assist the Panellists.

The Secretariat shall undertake such other functions and duties as may be required under the Agreement and in support of this Protocol.

The Secretariat shall be responsible for all relevant notifications to and from the DSB and State Parties.

Article 30**Rules of interpretation**

The Panel and the AB shall interpret the provisions of the Agreement in accordance with the customary rules of interpretation of public international law, including the Vienna Convention on the Law of Treaties, 1969.

Article 31 Amendment

This Protocol shall be amended in accordance with Article 29 of the Agreement.

Notes for the Use of the African Continental Free Trade Area Transit Document

1. The AfCFTA Transit Document herein after referred to as "AfCFTA TD" shall be prepared in the country of commencement where

the goods are first declared to be in transit.

- 2 The AfCFTA TD shall be printed in the Arabic, English, French and Portuguese languages, but completed in the language of the country of commencement. The Customs Authorities of the other countries traversed reserve the right to require their translation into their own language.

In order to avoid unnecessary delays which might arise from this requirement, carriers are advised to supply the operator of the means of transport with the requisite translations.
- 3 The AfCFTA TD remains valid until completion of the transit operation at a customs office of destination, provided that it has been taken under customs control at the customs office of commencement within the time limit given by issuing authorities and meets the following requirements:
 - a) The AfCFTA TD must be typed or multi-graphed or printed legibly;
 - b) When there is not enough space on the manifest to enter all the goods carried, separate sheets to the same model as the manifest may be attached to the latter but all copies of the manifests must contain the following particulars:
 - (i) a reference to the sheets;
 - (ii) the number, type of packages and goods in bulk be enumerated on the separate sheets; and
 - (iii) the total value and total gross weight of the goods appearing on the said sheets.
- 4 Weights, volume and other measurements shall be expressed in units of the metric system and values in the currency of the country of commencement, or in the currency determined by the Council of Ministers.
- 5 No erasures or over-writing shall be allowed on the AfCFTA TD. Any correction shall be made by deleting the incorrect particulars and adding, if necessary, the required particulars.
- 6 Any correction, addition or other amendment shall be acknowledged by the person making it and countersigned by the Customs Authorities.
- 7 When the AfCFTA TD covers coupled means of transport, or several containers, the contents of each means of transport shall be indicated separately on the manifest.
This information shall be preceded by the registration of identification number of the means of transport or container.
- 8 If there is more than one customs office of destination, the entries concerning the goods taken under customs control at, or intended for, each office shall be clearly separated from each other on the manifest.
- 9 In the event of customs seals being broken or goods being destroyed or damaged accidentally en-route, the operator of the means of transport shall ensure that a certified report is drawn up as quickly as possible by the authorities of the country in which the vehicle is located.
- 10 The operator shall approach the Customs Authorities, if there are any near at hand, or if not, any other competent authorities. Operators shall accordingly provide themselves with copies of the certified report form laid down in **Appendix IV** of this Annex on Transit Facilities within the AfCFTA.

- 4 Openings made in the floor for technical purpose, such as lubrication, maintenance and filing of the sand-box, shall be allowed only on condition that they are fitted with a cover capable of being fixed in such a way as to render the loading compartment inaccessible from the outside.
- 5 Doors and all other closing systems of means of transport shall be fitted with a device which shall permit simple and effective customs sealing. This device shall either be secured by at least two bolts, riveted or welded to the nuts on the inside.
- 6 Hinges shall be so made and fitted that doors and other closing systems cannot be lifted off the hinge-pins, once shut; the

screws, bolts, hinge-pins and other fasteners shall be welded to the outer parts of the hinges. These requirements shall be waived, however, where the doors and other closing systems have a locking device inaccessible from the outside which, once it is applied, prevents the doors from being lifted off the hinge-pins.

7. Doors shall be so constructed as to cover all interstices and ensure complete and effective closure.
8. The means of transport shall be provided with a satisfactory device for protecting the Customs seal, or shall be so constructed that the customs seal is adequately protected.

Article 4

Application of Preferential Safeguard Measures

1. Where, as a result of implementing the Agreement, any product originating in a State Party is being imported into the territory of another State Party in such increased quantities, absolute or relative to domestic production, and under such conditions so as to cause or threaten to cause Serious Injury to the Domestic Industry of like or directly competitive products, such a State Party may apply preferential safeguard measures under the conditions and in accordance with

the procedures laid down in this Annex and the AfCFTA Guidelines.
