6.3. Provide details of the registrant's business plan: **Attach as Appendix 6.3 of Form N**

7. CONTROL AND MANAGEMENT

7.1. Provide details (including name, nationality, identification or passport number, position and address) of each member of the registrant. Confirm if the individuals below reside within the proposed coverage area **Attach as Appendix 7.1 of Form N.**

- i. board of directors or similar body; and
- ii. senior management.

7.2. Attach the proposed organogram: **Attach as Appendix 7.2 of Form N**

7.3. Provide details of all ownership interests in the registrant: **Attach as Appendix 7.3. of Form N.**

7.3.1. Provide details of any persons in a position of control of the registrant who is a foreign citizen, or an entity registered or incorporated in any country other than South Africa: Indicate whether any member of the Board of the registrant is a foreign citizen or an entity registered or incorporated in any country other than South Africa. Please provide details below. (Please note no foreign ownership is allowable)

7.3.2. Indicate whether any member of the Board of the registrant is also a member of the Board of another licensee issued in terms of the Act. Please provide details below.

8. RADIO FREQUENCY SPECTRUM	
8.1. Indicate if the registrant has submitted or intends to apply for a radio frequency spectrum licence for the provision of the services to which this registration relates. The registrant must complete form P contained in these regulations.	

9. GENERAL	
9.1. Indicate whether the registrant is a member of an entity recognised in terms of section 54 and 55 of the Act.	
9.2. Indicate whether the registrant is a party, movement, organisation, body or alliance which is of a party-political nature.	
9.3. Indicate whether the registrant has ever been convicted of an offence in terms of the Act or related	

legislation, as defined in the Act. If so, provide details of such conviction.	
9.4. Provide details of other matters or undertakings which, in the registrant's view, the Authority should consider:	
9.5. Attach a resolution authorising the person (s) not more than two signing this registration and liaising with the Authority during the registration process. The resolution must be marked clearly as Appendix 9.5 of FORM N.	

The person signing the registration on behalf of the registrant must acknowledge as follows:

I acknowledge that the Authority reserves the right to have any licence issued pursuant to this registration set aside should any material statement made herein, at any time, be found to be false.

1. ACKNOWLEDGEMENTS

The Independent Communications Authority of South Africa (“the Authority”) hereby acknowledges and thanks all stakeholders who have participated in the process aimed at amending the Class Licensing Processes and Procedures Regulations (“draft amendment Regulations”).

The following stakeholders have submitted written representations to the draft amendment Regulations:

- 1) Internet Service Providers’ Association (“ISPA”);
- 2) Wireless Access Providers’ Association of South Africa (“WAPA”); and
- 3) South African Communications Forum (“SACF”).

2. INTRODUCTION

2.1. The Reasons Document sets out the reasons for the decisions of the Authority on the amendment of the Processes and Procedure Regulations for Class Licences, 2010, published on 14 June 2010 in Government Gazette No: 33297 (Notice No. 526) of 2010 (“the Regulations”) as amended by Government Gazette No. 39874 (Notice No. 157) of 30 March 2016.

2.2. The Authority’s reason for amending the Regulations was necessitated by the need to provide clarity on the Authority’s process with respect to the licensing of Broadcasting, Electronic Communications and Electronic Communications Network Services for Class Licences; to enhance the Regulations and to streamline submission of documents to the Authority thus providing an effective service to Licensees and Applicants.

- 2.3. On 9 March 2020, the Authority published the draft Class Licensing Processes and Procedure Amendment Regulations ('the draft Regulations¹') with the intention of soliciting inputs on the draft Regulations. The Authority, subsequently, conducted public hearings on 5 November 2020 as part of its consultation on the proposed amendments.
- 2.4. In developing this Reasons Document, the Authority has considered the written submissions which were put before it as well as oral submissions made during the public hearing. The Authority is charged with the obligation to formulate regulations independently and in the public interest.
- 2.5. The positions (in bold) form the basis for finalising the Regulations.

3. AMENDMENT OF REGULATION 1 OF THE REGULATIONS

3.1. "Applicant" and "Application"

- 3.1.1. ISPA and WAPA submit that the addition of licence renewals in the definitions of "Applicant" and "Application" respectively would be at odds with the provisions of the Electronic Communications Act No. 36 of 2005 ("the ECA"). They reason that the ECA differentiates the renewal processes for individual and class licences. The renewal of individual licences takes the form of an application and the renewal of class licences takes place through a notice to the Authority. ISPA and WAPA draw the Authority's attention to section 19(2) and (3) and state that sub-section (2) stipulates that the licensee shall "...notify the Authority of its intention to continue to provide the service" while sub-section (3) refers to the

¹ Draft Amendment of the Licensing Processes and Procedures Regulations for Class Licences, 2010 and Amendment Regulations, 2016 published on 09 March 2020, Notice No. 160 Gazette No. 43082.

submission of such intention as a “renewal notice”. Accordingly, ISPA and WAPA argue that the ECA specifically caters for the deeming of class licence renewals which only serves to underscore the assertion that the renewal of class licences has been contemplated as a purely administrative process. In their view, where the reach of the Regulations exceeds the scope of the ECA is in the event of any adverse finding made in what would then be an application rather than a mere notification, that decision would then instantly be subject to review by the now aggrieved class licensee.

- 3.1.2. Additionally, the continuation of licence surrenders in the definitions of “Applicant” and “Application” respectively would be at odds with the provisions of the ECA. They, posit that though the modalities of class licence surrender are not addressed directly by the ECA, namely section 17(6)(a) of the ECA provides that: “During the term of a class licence the licensee must ensure that the information contained in the register referred to in section 16(3), remains accurate by filing and updating such information where – (a) The licensee surrenders its class licence and ceases to provide” which would in their view, suggest that the process of surrendering a class licence is similarly administrative in nature, and not one requiring the Authority’s approval and/or an exercise of the Authority’s discretion. Both class licence surrenders and class licence renewals should be processed in accordance with the existing framework for the submission/filing of notices as found within the Regulations, with the current amendment process representing an opportunity for the Authority to rectify and/or clarify the processes for both types of matter.
- 3.1.3. The distinction between processes subject to an application process and those which can be dispensed with by mere notice is of material importance, particularly where a proposed amendment seeks to alter the fundamental nature of a traditionally administrative process into one

which would require the Authority's approval (which necessarily introduces the possibility of such an application being declined).

3.2. Decision by the Authority

- 3.2.1. In terms of the surrender process, the Authority has decided to retain the revision of a Class licence surrender process as a notice. The Authority reasons that as opposed to the surrender of an individual licence, wherein the ECA is explicit, in terms of section 12, in that the surrender of an individual licence should be done "by written notice, to the Authority in accordance with the requirements set out in the individual licence or in the manner prescribed by the Authority." The process of how the surrender of a class licence should be undertaken is not as explicit.
- 3.2.2. In terms of section 4(1)(b) the Authority may make Regulations on "any matter of procedure or form which may be necessary or expedient to prescribe for the purposes of this Act or the related legislation;" read with section 5(7)(b) which mandates the Authority to prescribe Regulations "on any matter relating to the licensing process." Accordingly, it is the view of the Authority that the above provisions empower the Authority to prescribe a process for the surrender of a class licence.
- 3.2.3. In the cessation of services, as in the case with the surrender of a license, the interests of consumers are an integral factor that the Authority must consider. In the interest of such consumers, the Authority is of the view that even if the process is a notice, the process should set requirements and prescripts that Licenses should comply prior to consideration for the surrender of a license and by implication cessation of services.

- 3.2.4. In relation to renewals, the Authority is of the view that Licensees must satisfy conditions for renewal before a renewal of a license can be granted in order to further foster the spirit of compliance amongst Licensees. To this end, the Authority is empowered to prescribe the terms of renewal of a class license in line with section 19(3) of the ECA.
- 3.2.5. Section 19(3) of the ECA provides, "The Renewal Notice contemplated in subsection (2) must be submitted to the Authority in the manner prescribed as contemplated in section 5(7);". Section 5(7) of the ECA on the other hand mandates the Authority to prescribe Regulations "on any matter relating to the licensing process."
- 3.2.6. A renewal of a Class ECS licence and Class ECNS licence will continue to be dealt with by way of notification, while Community Broadcasting Services licences will continue to be dealt with in terms of regulation 7 of Community Broadcasting Services Regulations².

3.3. **Historically Disadvantaged Persons ("HDPs")**

In terms of the definition of HDP, ISPA and WAPA submit that where the Authority wishes to define the initialism "HDP", the Authority should retain the reference to "Historically Disadvantaged Persons" as found in other Regulations for example the draft Regulations in respect of the Limitations of Control and Equity Ownership by Historically Disadvantaged Groups and the application of the ICT Sector Code.

² Community Broadcasting Regulations published on 22 March 2019, Notice No. 439, Gazette No.42323

3.4. **Decision by the Authority**

The Authority concurs with ISPA and WAPA, the initialism of "HDP" is amended to reflect "Historically Disadvantaged Persons".

4. **AMENDMENT TO REGULATION 2 - PURPOSE OF THESE REGULATIONS: 4- THE PRESCRIBED FORMS**

ISPA and WAPA propose the amendment of sub-regulation 2(1)(b) to correct the erroneous classification of Class licence surrenders as applications as per their argument as depicted in para 3.1 above. ISPA and WAPA further argue that the headings of Forms F and K (regulations 4(1)(d) and (f) respectively) set out in the draft amendment Regulations should be revoked, alternatively tweaked to reflect the distinction between an application and notification³.

4.1. **Decision by the Authority**

The Authority note the submission by ISPA and WAPA. The title for Form K will be retained as notice. However, the title for Form F will read as follows "*Application to renew Broadcasting Service licence or Notice to renew ECS/ECNS Licence*". A renewal of a Class ECS licence and Class ECNS licence will continue to be dealt with by way of notification, while Community Broadcasting Services licences will continue to be dealt with in terms of regulation 7 of Community Broadcasting Services Regulations.

5. **AMENDMENT TO REGULATION 3 (APPLICATION OF THESE REGULATIONS)**

ISPA and WAPA propose amendment of regulation 3 of the draft amendment Regulations to include reference to section 6 of the ECA to avoid any potential confusion. They provide that the definition of "Licence" in the draft amendment Regulations needs to be expanded to include licence exemptions. According to ISPA

³ ISPA-WAPA written representations dated 18 May 2020 and oral representations 5 November 2020

this is attributed to the fact that the definition of "Licensee" in the ECA extends to licence exemptions. As such, there is little need to include a standalone definition of licence exemption in the Regulations.

5.1. **Decision by the Authority**

5.1.1. The Authority is of the view that the definition for "Licensee" should not extend to include licence exemptions because the two terms are distinctively defined in the ECA. The Authority will incorporate the definition of 'licence exemption' as defined in the ECA.

6. AMENDMENT OF REGULATION 5 (SUBMISSION OF APPLICATION, REGISTRATIONS, NOTICES AND OTHER DOCUMENTS)

6.1. ISPA and WAPA are concerned that certain additions and omissions may have a long-lasting negative impact on class licensees and, by extension, the sector which they seek to serve. According to their respective submissions, the expansion of the obligation to submit hard copies to the filing of notices, as provided for in regulation 5(1) of the draft amendment Regulations, represents a considerable increase to the administrative burden carried by class licensees and is without apparent benefit.

6.2. ISPA and WAPA note further that the proposed amendment would introduce a more onerous obligation on class licensees than is currently imposed on Individual licensees by the Individual Licensing Processes and Procedures Regulations, 2010 (as amended). ISPA and WAPA thus hold the view that the administrative nature of notices favours (if not demands) an efficient means of submission, currently achieved through electronic submission via email to the Authority. Where the Authority wishes to make allowance for the submission of hard copies at its various offices instead of electronic submission, this option should not be reduced to an obligation applicable in all circumstances.

- 6.3. ISPA and WAPA welcome the reduction in the number of hard copies required by the proposed amendment to regulation 5(1A), nevertheless they submit that continued reliance on the submission of hard copies is at odds with Government's desire to foster a digital economy. Whilst the Authority should allow for the submission of hard copies where circumstances favour this approach, specifically where it reduces the administrative burden imposed on prospective entrants to the market, authorisation to register Class licences through submission of hard copies should not be conflated with an obligation to submit in that manner.
- 6.4. Further, the proposed transition from "electronic copy" to "soft copy of the application on a USB or a disc" is, at best, an ill-conceived amendment which serves to exclude the submission of applications, registrations and/or notices via email. ISPA and WAPA submit that the deliberate exclusion of email would represent an arbitrary and regressive limitation on both present and future licensees which is wholly at odds with the stated aims of the ECA and the Regulations thereto. Furthermore, they find it inconceivable that the sector regulator for communications would deliberately seek to move away from what is now the standard for electronic communications in favour of USB drives and optical discs. ISPA and WAPA emphatically oppose the exclusion of email in sub-regulation 5(1A) and strongly urges the Authority to reconsider the proposed changes.
- 6.5. SACF argues that the requirement of delivery and submission of hard copy documents, discs and flash drives should be a thing of the past. SACF adds that online submission of applications should also address security concerns and the online infrastructure could set a range of permissions including providing a trail of who has had sight of the documentation.

6.6. **Decision by the Authority**

The Authority will allow USB submissions, e-mail submissions as well as hard copy submissions where applicable, as acceptable forms of submission for applications and/or notices.

7. AMENDMENT OF REGULATION 7 (REGISTRATION FOR A LICENCE (SECTION 16 AND 17 OF THE ACT))

7.1. According to ISPA and WAPA, the addition of an obligation to provide the Authority with a copy of a registrant's Memorandum of Incorporation ("MoI"), as contemplated by regulation 7(3) of the draft amendment Regulations, represents an expansion of existing obligations that is likely to result in an increase of the administrative burden felt by registrants, for little, if any, benefit to the Authority in the performance of its function. They submit that the submission is justifiable given the fact that applicants to Class licences are mostly small Operators, and not all small to medium enterprises have MoIs as this is not a requirement upon registration of their companies with the Companies and Intellectual Property Commission (CIPC).

7.2. Whilst the notion of control of a licence is of central importance to individual radio frequency spectrum and various categories of broadcasting licences, ISPA and WAPA note that no comparable obligations currently exist in respect of class licensees. It is accordingly unclear what the Authority seeks to determine through the review of a registrant's MoI in review of a licence registration that cannot be achieved through a review of its registration certificate or CIPC disclosure certificate.

7.3. **Decision by the Authority**

The Authority concurs with ISPA and WAPA submission. Regulation 7(3) will accordingly read as follows: "The notice of registration (Form A) must be

accompanied by certified copies of Identity Document/s, the certificate of registration and memorandum and articles of association or other founding documents of the registrant (e.g. the registration certificate, including share certificates and/or Memorandum of Incorporation (MOI) where applicable and any other related information).”

8. AMENDMENT OF REGULATION 9 (APPLICATION TO RENEW A LICENCE (SECTION 19(2) OF THE ACT)

8.1. ISPA and WAPA submit that pursuant to submissions made in respect of the nature of class licence renewals, the Authority should discard the proposed amendment to the heading of this regulation.

8.2. Decision by the Authority

A renewal of a Class ECS licence and Class ECNS licence will continue to be dealt with by way of notification, while Community Broadcasting Services licences will continue to be dealt with in terms of regulation 7 of Community Broadcasting Services Regulations⁴.

9. AMENDMENT OF REGULATION 11 (SURRENDER OF A LICENCE)

9.1. ISPA and WAPA support the use of the phrase “notice” in regulation 11(1) to be legally correct and something which should be retained. However, ISPA and WAPA submit that the use of the phrase “application” in regulation 11(2) and 11(2A) of the draft Amendment should be altered to “notice”.

⁴ Community Broadcasting Regulations published on 22 March 2019, Notice No. 439, Gazette No.42323

- 9.2. SACF has a challenge with the draft amendments which require licensees to notify customers/end users of the termination of services at least two (2) months prior to the submission of the application for surrender. It states that it is unclear why the consumer consultation cannot be done during the ninety (90) day notice period. It argues that the two (2) month period unnecessarily prejudices consumers and effectively increases the duration of the licence surrender. They are of the view that, the Authority requires a service provision for the ninety (90) days.
- 9.3. Notwithstanding ISPA and WAPA's views on the administrative nature of surrender, the combined effect of regulations 11(2) and 11(2A) is that, irrespective of circumstance, a licensee may not cease service provision without first surrendering its licences on ninety (90) day working days' notice to the Authority.
- 9.4. In ISPA and WAPA's view, the majority of cases of the cessation of service provision (and by extension the surrender of licences) is likely to be motivated by economic and commercial factors such as business failure rather than a desire by the licensee to voluntarily exit the market. Whilst notice of surrender and the cessation of service provision serve a rational purpose when considering the role which the Authority plays in safeguarding the interests of subscribers, any regulation governing this process must necessarily have regard to practical and commercial factors.
- 9.5. Given that ninety (90) working days amounts to approximately 4.5 months, a period which ISPA and WAPA note is likely to be longer than the time it takes for a given class licensee's business to fail due to unexpected commercial developments, ISPA and WAPA submit that sub-regulations 11(1) to 11(3A) should rather:
- 9.5.1. differentiate between the voluntary and involuntary cessation of service provision;

- 9.5.2. differentiate between the voluntary surrender of a class licence (allowing for the imposition of notice periods) and the involuntary surrender of a class licence brought about by business failure/closure; and
- 9.5.3. dispense with arbitrary timelines and provide for notification by a licensee to both the Authority and its subscribers, as soon as practicably possible, of its intention to surrender its class licence/s and/or its intention to cease service provision. It is held that this is the legal position espoused by the ECA on the subject of class licence surrenders.

9.6. **Decision by the Authority**

- 9.6.1. The Authority notes that the interest of consumers must be considered when deliberating on the reduction/increase of the notice period to consumers/ customers with regards to the cessation of services.
- 9.6.2. The ninety (90) day notice period contemplated in sub-regulation 11(2) incorporates the two (2) months, stipulated in sub-regulation 11(3), required to provide notice to end-users/listeners/viewers and therefore reaches a fair balance of the interest of consumers and licensees.

10. AMENDMENT OF REGULATION 12 (NOTICE OF CHANGE OF INFORMATION IN RESPECT OF A LICENCE)

- 10.1. ISPA and WAPA have indicated that the current formulation of regulation 12(2)(b) of the draft amendment Regulations is likely to cause confusion and would, in its current state, suggest that amendments to a class licence could be dispensed with through a notice of change of information, which was presumably not the Authority's intention.

10.2. SACF submits that it welcomes the number of days proposed. However, the Authority should be specific as to when the fourteen (14) day period commences. The SACF proposed the following wording to the regulation "A licensee must submit written notice to the Authority within fourteen (14) days of the approvals".

10.3. **Decision by the Authority**

10.3.1. The Authority concurs with ISPA and WAPA, as such, the wording in the regulation is revised as follows: "within fourteen (14) days of the change occurring where the type of service being offered has changed."

10.3.2. The reasoning behind this change is in order for the Authority to be aware of services offered by licensees and for consumer protection purposes.

10.3.3. Further, the Authority has deleted regulation 12(3).

11. AMENDMENT OF REGULATION 13 (LICENCE EXEMPT SERVICES AND NETWORKS)

11.1. ISPA and WAPA submit that the effect of the draft amendment Regulations on regulation 13 would be to transform a process which had traditionally been treated as a notification – which they contend is the legally correct view – into one first requiring an application. Given the absence of reasons in the Explanatory Memorandum, they request clarity on the proposed changes. Additionally, that use of the word "draft" in regulation 15 of the draft amendment Regulations was likely in error and should be removed prior to publication of the final amendment Regulations.

11.2. ISPA and WAPA further draw the Authority's attention to clause 2.3 of Forms A and M together with clauses 4 and 5 (generally) of Form H in which the Authority has removed reference to copies of ID documents, which reference was presumably removed in error.

11.3. Decision by the Authority

11.3.1. In the Authority's view, the notification process has posed some challenges as well as concerns in that there are more exempt services in the market than the Authority has on record. In order to not place a burdensome obligation on exempt services, the Authority maintains the current status quo.

11.3.2. The Authority has included the requirement for ID copies in the relevant Forms.
