GROENFONTEIN (WARD)**

-----  
(In terms of Section 6 of the Wine of Origin Scheme published by Government Notice No. R.1434 of 29 June 1990)  
-----

Please take note that Peter Bayly Wines (Pty) Ltd applied to the Wine and Spirit Board to define Groenfontein (Ward) as a production area to produce Wine of Origin.

The proposed Groenfontein ward is a higher lying foothill with a deep ravine landscape and the catchment area of the Nels River, which feeds the Calitzdorp Dam. The northern boundary coincides with the northern boundary of the Calitzdorp district, just south of the Gamkwaskloof Nature Reserve. The rest of the boundaries follow the watershed boundaries of the Nels River catchment area/drainage basin north of the Calitzdorp Dam.

The proposed ward is situated 280-930 m above sea level, with vineyards in valleys mostly 340-440 m above sea level, and mostly stretches over the original Matjiesgoed Valley, Quarrieveldt, Kraaldoorn and Groenfontein farms. The geology is relatively homogeneous and consists of greywacke and shale.

The proposed boundaries can be viewed at [www.sawis.co.za](http://www.sawis.co.za) – "Certification – News and Information" or contact Jackie Cupido at 021-807 5704.

Anyone having any objection against this application is hereby notified to lodge their objections, with motivations, in writing with Olivia Poonah ([olivia@wsb.org.za](mailto:olivia@wsb.org.za)), The Secretary, Wine and Spirit Board, P O Box 2176, Dennesig, Stellenbosch, 7599 within 30 (thirty) days of publication of this notice.

Neem kennis dat Peter Bayly Wines (Pty) Ltd by die Wyn- en Spiritusraad aansoek gedoen het vir die afbakening van die produksiegebied Groenfontein (Wyk) om Wyn van Oorsprong te produseer.

Die voorgestelde Groenfontein-wyk is 'n hoërliggende voetheuwel met 'n diep klowe-landskap en is die opvangsgebied van die Nelsrivier, wat die Calitzdorp-dam voed. Die noordelike grens loop saam met die Calitzdorp-distrik se noordelike grens, net suid van die Gamkwaskloof-natuurreservaat. Die res van die grense volg die waterskeidinggrense van die Nelsrivier-opvangsgebied/dreineringskom noord van die Calitzdorp-dam.

Die voorgestelde wyk is geleë 280-930 m bo seevlak, met wingerde in valleie meestal 340-440 m bo seevlak, en strek hoofsaaklik oor die oorspronklike Matjiesgoedvallei, Quarrieveldt-, Kraaldoorn- en Groenfontein-plase. Die geologie is relatief homogeen en bestaan uit grouwak en skalie.

Die voorgestelde grense is ter insae by [www.sawis.co.za](http://www.sawis.co.za) "Sertifisering – Nuus en inligting" of kontak Jackie Cupido by 021 807 5704.
