## Road Accident Fund Tariff 2021/2022

| AMBULANCE SERVICES                                                                                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|       | Definition: Response Vehicles:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                      |            |                        |        |  |
|       | <b>Response Vehicle Only - Advance Life Support (ALS):</b><br><br>A clear definition must be drawn between the acute primary response and a booked call.<br><br>1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should a response vehicle be dispatched to the scene of the emergency and the patient is in need of Advanced Life Support and which is rendered by ALS Personnel e.g. CCA or National Diploma, the respective service shall be entitled to bill on item 131, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ALS rate under items 131 and 133. Furthermore the ALS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ALS services rendered.<br><br>2. In the event of a service rendering ALS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ALS bill under items 131 and 133. Since the ALS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider, which will be levied at a BLS rate. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ALS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ALS services rendered.<br><br>3. Should a response vehicle go to a scene and not render any ALS treatment then the said response vehicle may not levy a bill.<br><br>4. Notwithstanding that, item 151 applies to all ALS resuscitation per the notes in this schedule. |                      |            |                        |        |  |
|       | <b>Response vehicle only - Intermediate Life Support (ILS)</b><br><br>A clear definition must be drawn between the acute primary response and a booked call.<br><br>1. The Acute Primary Response is defined as follows: A call that is received for medical assistance to a member of the public who is ill or injured at work, home or in a public area e.g. motor vehicle accident. Should an ILS response vehicle be dispatched to the scene of the emergency and the patient is in need of Intermediate Life Support and which is rendered by ILS Personnel e.g. AEA, the respective service shall be entitled to bill on item 125, for such service. However, the service which is transporting the patient shall not be able to levy a bill, as the cost of transportation is included in the ILS rate under items 125 and 127. Furthermore the ILS response vehicle personnel must accompany the patient to hospital to entitle the service to bill for said ILS services rendered.<br><br>2. In the event of a service rendering ILS and not having its own ambulance in which to transport the patient to a medical facility, and makes use of another service, only the bill for the response vehicle may be levied as the ILS bill under items 125 and 127. Since the ILS tariff already includes transportation, the response vehicle service is responsible for the bill for the other service provider. This ensures that there is only one bill levied per patient. Furthermore the response vehicle ILS personnel must accompany the patient to hospital in the ambulance to entitle the service to bill for said ILS services rendered.<br><br>3. Should a response vehicle go to a scene and not render any ILS treatment then the said response vehicle may not levy a bill.                                                                                                                                                      |                      |            |                        |        |  |

|       | Definitions:<br>1. Day light operations are defined from Sunrise to Sunset (and night operations from Sunset to Sunrise)<br>2. If flying time is mostly in night time (as per definition above), then bill night time operation rates<br>3. Call out charge includes Basic Call Cost plus other flying time incurred.<br>4. Flying time is billed for minimum of 30 minutes and thereafter in 15 minute increments.<br>5. A 2nd Patient is transferred at 50% reduction of Basic Call and Flight cost, but Staff and Consumables costs remain per patient. (Only if aircraft capability allows for multiple patients)<br>6. Rates are calculated according to time; from throttle open, to throttle closed.<br>7. Helicopters must fall within the Cat 138 Ops as determined by Civil Aviation. |                      |             |                        |        |
|       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | EMS Primary Response |             |                        |        |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |        |          |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |        |          |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                     |        |          |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |              |              |            |                                          |       |

| 4551      | Unlisted pathology service: Cost for items not listed in the current Pathology schedule (Sections 21, 22 and 23) will be based on the code for a comparable service in the coding structure. Please contact the SA Medical Association (SAMA) Private Practice Unit via e-mail on coding@samedical.org to obtain a comparable code for the unlisted pathology service which will be based on the units for a comparable service in the coding structure. New items for these unlisted services should be added to the coding structure within six months or that specific unlisted pathology service should no longer be performed. Please note general rule C and item 6999 are not applicable to pathology services (Sections 21, 22 and 23). |              |              |          |                                             |       |
| 4555      | Where pharmacological preparations (hormones, etc.) are administered as part of metabolic function tests, the cost of such preparation shall be coded separately                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              |              |          |                                             |       |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                         |        |            |

A practitioner shall render a monthly invoice for every procedure which has been completed irrespective of whether the total treatment plan has been concluded.</p> <p>b. An invoice shall contain the following particulars:</p> <p>i. The surname and initials of the member;</p> <p>ii. The first name of the patient;</p> <p>iii. The name of the scheme;</p> <p>iv. The membership number of the member;</p> <p>v. The practice number;</p> <p>vi. The date on which every service was rendered;</p> <p>vii. The code number, description and fee/benefit of the procedure or service;</p> <p>viii. The name of the dentist rendering the service;</p> <p>ix. The name of the general dental practitioner/specialist assistant (when applicable);</p> <p>x. The appropriate ICD-10 code(s) for the procedures performed.</p> <p><b>Note: Photocopies of original invoices shall be certified by way of a rubber stamp or the signature of the dentist.</b></p>                                                                                                                                                                                                                                                                                                                                                            |
| 002                                   | <p>Cost of direct materials:</p> <p>The expenses incurred for direct materials identified in the Schedule may be billed in addition to the procedure code.</p> <p>These expenses are limited to the net acquisition cost of the materials and a handling fee. The price of the materials should be VAT inclusive. Use Modifier 8025 for handling fee.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 003                                   | <p>Dental laboratory services:</p> <p>Manual submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by reporting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code.</p> <p>The technician's invoice shall be certified by the dentist (or a person appointed by the dentist) for correctness by means of a signature. The original invoice of the dental technician (or a copy thereof) shall accompany the invoice of the dentist and a copy (or the original) shall be filed by of the dentist and a copy (or the original) shall be filed by the dentist for record purposes.</p> <p>Electronic submission of invoices. Fees charged by dental technicians for laboratory services (PLUS L) shall be indicated on the dentist's invoice by submitting code 8099 - Dental laboratory service with the appropriate laboratory fee on the line following the relevant dental procedure code on the date on which the dental procedure was rendered. The laboratory fee shall be submitted for payment on the date on which the procedure code is submitted for payment, and the appropriate dental laboratory service codes shall be reported on the lines following code 8099.</p> |
| 005                                   | <p>Procedure accompanied by unusual circumstances:</p> <p>In exceptional cases where the proposed fee/benefit is disproportionately low in relation to the actual services rendered by a practitioner, such higher fee as may be mutually agreed upon between the dental practitioner and the patient/medical scheme may be billed. Use Modifier 8011 with a narrative description.</p> <p>Under certain circumstances a service or procedure is partially reduced or eliminated at the practitioner's election. Under these circumstances a lower fee may be billed. The service provided can be identified by its usual procedure code and the addition of Modifier 8012, signifying the service is reduced.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| B.                                    | GENERAL CODING RULES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 006                                   | <p>The schedule does not prescribe the scope of practice of a particular category of Oral Health Care Provider; neither does it confine the performing of procedures or services to a registered speciality. Fees listed within a column of a particular category of Oral Health Care Provider are customary fees, should the procedure or service be rendered by that provider category.</p> <p>Specialists are however encouraged to confine their practice to the speciality or related specialities in which they are registered. Specialist may charge fees for procedures or services which usually pertain to some other speciality, if such procedures or services are also recognised in their speciality, and if it is carried out only for their bona fide patients. Such fees shall not be higher than those charged by general practitioners for the same procedures or services (HPCSA, Rule 25).</p> <p>Fees for procedures or services not listed within the column of dental therapists that do fall within the field of dental therapy in terms of their scope of practice are regarded as being "by arrangement" until such fees are listed.</p>                                                                                                                                                                                   |
| 007                                   | <p>Procedures not listed in the Dental Schedule</p> <p>When a procedure is performed that is not listed in the schedule, an appropriate procedure code, listed in the RPL for medical practitioners may be reported.</p> <p>Unlisted procedures. Any procedure that is neither described in the schedule, nor in the medical schedule, should be reported using code 9099 - Unlisted dental procedure or service. The fee for an unlisted dental procedure or service should be based on the fee of a comparable procedure. Code 9099 codes should not be used to report procedures where the fee is determined "by arrangement" with the patient and/or medical scheme.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| C.                                    | SERVICES RULES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 008                                   | <p>Oral evaluations and completion of treatment plans:</p> <p>Oral examinations include an examination, diagnosis and treatment planning (when treatment is required). No further fees/benefits shall be levied for an oral examination (code 8101) or comprehensive examination (code 8102) until the treatment plan resulting from these type of examinations is completed.</p> <p>The completion of a treatment plan effected from an oral examination and/or comprehensive examination should be indicated by reporting code 8120 - Treatment plan completed.</p> <p>Oral diagnosis defined. The determination by the dentist of the oral health condition of an individual patient achieved through the evaluation of data gathered by means of history taking, direct examination, patient conference, and such clinical aids and tests as may be necessary in the judgement of the dentist.</p> <p>Treatment plan defined. The treatment plan is the sequential guide for the patient's care as determined by the dentist's guide for the patient's care as determined by the dentist's diagnosis and is used by the dentists for the restoration and/or maintenance of optimal oral health.</p>                                                                                                                                               |

## Road Accident Fund Tariff 2021/2022

| 009         | <p><b>Surgery guidelines:</b></p> <p>1. Follow-up care for therapeutic surgical procedures:<br/>The fee/benefit for an operation shall, unless otherwise stated, include normal post-operative care for a period not exceeding four months. If a practitioner does not him/herself complete the post-operative care, he/she shall arrange for post-operative care without additional charges. A fee/benefit for post-operative treatment of a prolonged or specialised nature may be charged as agreed upon between the practitioner and the scheme.</p> <p>2. Multiple Procedures (Maxillo-facial and oral surgery): The fee/benefit for more than one operation or procedure performed through the same incision shall be determined as the fee for the major operation plus fee/benefit for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (Modifier 8005). The fee/benefit for more than one operation or procedure performed under the same anaesthetic but through another incision shall be determined on the fee/benefit for the major operation plus: 75% for the second procedure/operation (Modifier 8009), 50% for the third and subsequent procedures/operations (Modifier 8006). This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee/benefit of the operation. If, within four months, a second operation for the same condition or injury is performed, the fee/benefit for the second operation shall be 50% of that of the first operation (Modifier 8006).</p> <p>3. Assistant Surgeon (Maxillo-facial and periodontal surgery): The fee payable to a specialist assistant is determined as 1/3 (of the fee of the practitioner performing the procedure (Modifier 8001). The fee payable to a general dental practitioner assistant is determined as 15% (of the fee of the practitioner performing the procedure (Modifier 8007). The patient must be informed beforehand that another dentist/specialist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient.</p> <p>4. Surgical team (Maxillo-facial and oral surgery): The additional fee to all members of the surgical team for after hours emergency surgery shall be calculated by adding 25% to the fee for the procedure or procedures performed (Modifier 8008).</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                              |                                    |                   |                   |                    |

| 010         | <p><b>Orthodontic guidelines:</b></p> <p>1. The documentation and first invoice to the patient/medical scheme regarding orthodontic services will include the following information:<br/>a. The treatment plan and type of treatment (treatment code number);<br/>b. A diagnostic code (ICD-10) and<br/>c. An orthodontic payment plan indicating the following:<br/>i. The total fee that will be levied for the treatment;<br/>ii. The total months of orthodontic treatment (retention period excluded);<br/>iii. The initial fee payable by the patient (approximately 20% of the total fee); and<br/>iv. The monthly payments of the balance of the fee.</p> <p>2. The fee for orthodontic treatment does not include a clinical oral evaluation and necessary diagnostic services. The fee for corrective therapy (i.e. codes 8861 to 8888) is an inclusive fee and no additional fees may be levied for intra-operative oral evaluations and preventive services. A pre-orthodontic treatment visit, an orthodontic retention, and an oral evaluation on completion of the treatment plan (retention phase included) are excluded and should be reported in addition to corrective orthodontic treatment as separate procedures (Code 8803 x3). Intra/post orthodontic treatment records consisting of radiographs/diagnostic images (limited to a cephalometric film and 5 oral/facial images) and diagnostic casts may be levied when a corrective orthodontic treatment plan is completed (retention phase included).</p> <p>3. The fee for 'Fixed appliance therapy' (codes 8861 and 8865 to 8888), as determined by the individual practitioner, will be levied on a monthly manner over the treatment period (retention phase excluded).</p> <p>4. When partial fixed appliance or preliminary orthodontic treatment (codes 8858, 8861, 8865 or 8866) is followed by full fixed appliance orthodontic treatment (codes 8873 to 8888) provided by the same orthodontist, the fees levied for the partial fixed appliance therapy or preliminary treatment will be deducted from the fee quoted for the full fixed appliance orthodontic treatment.</p> <p>5. The total fee for multiple phases of full fixed appliance orthodontic treatment provided by the same orthodontist may not exceed the most recent fee (determined on commencement date of the final stage of full fixed appliance treatment) for the appropriate full fixed orthodontic procedure.</p> <p>6. When the patient transfers to another practitioner during treatment, or treatment is terminated for any reason, the original treating practitioner must report the number of treatment months remaining and determine the balance of the fee by applying the following formula: Total payment (for treatment only) minus 20% of the total fee (for banding - when applicable) multiplied by the percentage of treatment remaining. For example, if the practitioner was paid R 10,000.00 for a 24-month treatment plan and 18 months of treatment were completed. The balance would be R 2,000.00 (or R 10,000.00 - R 2,000.00 x 6/24). The length of the treatment plan from the original request for authorisation will be used to determine the number of treatment months remaining. The practitioner continuing treatment will provide the information stipulated in paragraph 1 above. Report code 8891 (Orthodontic transfer) with the fee that will be levied for continuation of the treatment in addition to the appropriate orthodontic treatment code. The fee for continuous treatment is subject to prior authorisation by the patient's medical scheme.</p> <p>7. When an established orthodontic patient requires retreatment, the information stipulated in paragraph 1 above and the cause(s) for re-treatment will be provided. Report code 8892 (Orthodontic re-treatment) with the fee that will be levied for re-treatment in addition to the appropriate orthodontic treatment code. Orthodontic re-treatment is subject to prior authorisation by the Fund.</p> |                              |                                    |                   |                   |                    |
| 011         | <p><b>Dento-legal fees:</b></p> <p>Practitioners are entitled to remuneration if they are present at Court at the request of an advocate or attorney. Use code 8111 (Dental testimony) to report dento-legal work. The code is listed in the adjunctive general services sections in the code lists.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                              |                                    |                   |                   |                    |

|             | Tooth identification and designation of areas of the oral cavity:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                              |                                    |                   |                   |                    |
|             | Tooth identification and designation of areas of the oral cavity is compulsory for all invoices rendered. Tooth identification is applicable to procedures identified with the letter ( T ), and other designation of areas of the oral cavity with the letter ( Q ) for a quadrant and the letter ( M ) for the maxillary or mandibular area in the mouth part ( MP ) column of the Dental Coding. The International Standards Organisation (ISO) in collaboration with the FDI designated system for teeth and areas of the oral cavity should be used. For supernumeraries, the abbreviation SUP should be used.                                                                                                                                                                                                                                                                       |                              |                                    |                   |                   |                    |

|             | The purpose of oral examinations is to observe and record pertinent information, past and present, necessary to arrive at a diagnosis and treatment plan (when treatment is indicated). A treatment plan is a list of procedures or services the dentist proposes to perform on a dental patient based on the results of the examination and diagnosis. Often more than one treatment plan is presented.<br>Oral examinations may require the integration of information that is acquired through additional diagnostic procedures, which should be reported separately. The oral examination, diagnosis, and treatment planning are the responsibility of the dentist. The collection and recording of some data and components of the oral examination may however be delegated. Oral examinations and consultations include the issuing of prescriptions where medication is required. |                              |                                    |                   |                   |                    |

|                                       | Diagnostic radiographs/diagnostic images include interpretation.<br>Radiographs/diagnostic images should only be taken for clinical reasons as determined by the dentist and practitioners should comply with the Regulations concerning safe radiological practice and take the necessary precaution to minimise radiation of patients. Radiographs/diagnostic images are part of the patient's clinical record, should be of diagnostic quality, properly identified and dated. The dentist should retain the original images and only copies should be used to fulfil requests made by patients or third party funders.<br>A complete series of intra-oral radiographs/images for diagnostic purposes is required once per treatment plan only. A second series may be required in exceptional cases e.g., following periodontal surgery. The same applies to panoramic films, where additional films may be required for follow-up/re-evaluation purposes.<br>Diagnostic radiographs/diagnostic images preceding endodontic treatment, periodontal treatment, the surgical extraction of teeth or roots and fixed prostheses are fundamental to ethical clinical practice. |                              |                                    |                   |                   |                    |

|                                           | The branch of dentistry that deals with the reconstruction of the hard tissues of a tooth or group of teeth, injured or destroyed by trauma or disease. Restorative services/procedures intend to restore the function of a natural tooth. Anterior teeth include incisors and canines. Posterior teeth include premolars and molars.<br>The number of tooth surfaces restored, i.e. mesial, occlusal (or incisal), distal, lingual, or vestibular (buccal or labial), is used to determine the appropriate procedure code. A one surface restoration for example, involves only one of the surfaces, while a two-surface restoration extends to two of the five surfaces. With a four-or-more-surfaces anterior restoration involving four tooth surfaces and the incisal angle is involved.<br>Limitations on amalgam and resin-based composite restorations:<br>(1) The reporting of two separate restorations of the same material (e.g., a MO and DO amalgam restoration) on the same tooth is appropriate. Some medical schemes however, have a clause in its dental plan(s) that restricts coverage of the same tooth surface, such as an occlusal, twice on the same day and may require the reporting of a MOD restoration instead of a separate MO and DO restoration.<br>(2) The current NHRPL rates include direct pulp capping (code 8301) and rubber dam application (code 8304). |                              |                                    |                   |                   |                    |
| <b>AMALGAM RESTORATIONS</b>               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                              |                                    |                   |                   |                    |
|                                           | All adhesives, liners, bases and polishing are included as part of the restoration. If pins are used, they should be reported separately.<br>See codes 8345, 8347 and 8348 for post and/or pin retention."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                              |                                    |                   |                   |                    |

|                                           | Resin restorations refer to a broad category of materials including but not limited to composites. Report these codes when glass ionomers/compomers are used as restorations. The procedures include acid etching, adhesives (including resin bonding agents) and curing part of the restoration. Resin restorations utilise the direct technique. For the indirect technique, see "Resin inlays/onlays"<br>If pins are used, they should be reported in addition to these codes - See codes 8345, 8347 and 8348 for post and/or pin retention."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                              |                                    |                   |                   |                    |

## Road Accident Fund Tariff 2021/2022

|                                                             | Use these codes for single porcelain/ceramic inlay/onlay restorations. See the Fixed Prosthodontic Service section for porcelain/ceramic inlay/only bridge retainers. Porcelain/ceramic inlays/onlays include all indirect ceramic, porcelain and polymer-reinforced porcelain type inlays/onlays. Fees for the application of a rubber dam (8304) may be levied in addition to these codes. TO BE CONFIRMED: When computer generated (CAD/CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration. |                              |                                    |                   |                   |                    |

|                                                             | This procedure involves the fabrication of a computer generated (CAD-CAM) resin or ceramic restoration by the dental practitioner. This includes the design, milling, and finishing of the resin or ceramic restoration and replace the laboratory codes used when resin or ceramic restorations are made by conventional means in a dental laboratory. The codes 8560 and 8570 are currently used. Please use codes 8519 -8526 for fabrication and 8527 and 8528 for direct cost of material. Code 8304 (isolation of tooth/teeth) may be levied in addition to these codes. M8023                                                                                                                 |                              |                                    |                   |                   |                    |

|                                     | Use these codes for single crown restorations. See the Fixed Prosthodontic Service section for crown bridge retainers and the Implant Services section for crowns on osseointegrated implants. Porcelain/ceramic crowns include all ceramic, porcelain and porcelain fused to metal crowns. Resin crowns and resin metal crowns include all reinforced heat and/or pressure-cured resin materials. Metal components include structures manufactured by means of conventional casting and/or electroforming. Temporary and/or intermediate crowns, the removal thereof (provisional crowns included) and cementing of the permanent restorations are included as part of the restorations. TO BE CONFIRMED: When computer generated (CAD/CAM) ceramic restorations are fabricated by the dental practitioner, laboratory costs do not apply. Report codes 8570 (Fabrication of computer generated ceramic restoration) and 8560 for the cost of the ceramic block in addition to the restoration. |                              |                                    |                   |                   |                    |
| 8400                                | Temporary crown                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | R -                          | R -                                | R -               | R -               | R -                |

|                                      | These codes are intended to report the placement of final restorations and should not be used to report the placement of temporary/provisional components e.g., healing abutments/collars, temporary abutments, caps, cylinders, etc. Abutments as part of one-piece endosteal implants (incorporating both the implant and integral fixed abutment) are considered being part of the implant body and should not be reported in addition to the surgical placement of the implant. See Codes 9187 to 9189 located in the "Other implant services" section to submit the cost of implant components. |                              |                                    |                   |                   |                    |

|             | The branch of prosthodontics concerned with the replacement or restoration of teeth by artificial substitutes that are not readily removable.<br>A prosthetic retainer (e.g., crown/inlay/onlay retainer) in this section is defined as a part of a bridge that attaches a pontic to the abutment tooth. A pontic is that part of a bridge which replaces a missing tooth or teeth. Each retainer and each pontic constitutes a unit in a bridge.<br>Porcelain/ceramic retainers and pontics presently include all ceramic, porcelain and porcelain fused to metal retainers and pontics.<br>Resin retainers and pontics and resin metal retainers and pontics include all reinforced heat and/or pressure-cured resin materials.<br>Metal components include structures manufactured by means of conventional casting and/or electroforming. |                              |                                    |                   |                   |                    |
|             | <b>PONTICS</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                              |                                    |                   |                   |                    |
|             | Comment: Codes 8415, 8416, 8417 and 8418 include ovate pontic designs. The nomenclatures of the pontics have been revised to coincide with the nomenclature used for crowns, which improves accurate record keeping. A similar approach has been followed for crowns and inlays/onlays utilised as bridge retainers.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                              |                                    |                   |                   |                    |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                |           |          |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |        |          |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                   |        |            |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                  |        |            |

## Road Accident Fund Tariff 2021/2022

| <b>HEARING AID ACOUSTICIANS</b>                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|---------------|
| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |               |
| <b>GENERAL RULES</b>                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |               |
| 003                                                                                                                                                                                                                                                                                                                                        | The fee in respect of more than one evaluation shall be the full fee for the first evaluation plus half the fee in respect of each additional evaluation, but under no circumstances may fees be charged for more than three evaluations carried out.                                                                                                                                                                                                                                                                                                                                                                                                                       |               |               |
| 004                                                                                                                                                                                                                                                                                                                                        | <p>Each practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars :</p> <ul style="list-style-type: none"> <li>• the practice code number of the supplier of service</li> <li>• the name of the collaborating medical practitioner or audiologist</li> <li>• the name of the patient</li> <li>• the nature of the treatment</li> <li>• the date on which the service was rendered</li> <li>• the relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered</li> </ul> |               |               |
| 005                                                                                                                                                                                                                                                                                                                                        | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |               |

| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                                                                                                                                                                                                                                                                                                                                            | <p><b>Consultation:</b></p> <p>A situation where a homeopathic practitioner takes down a patient's full history and (where applicable) performs an appropriate examination, and repertorisation of the case and study of Materia Medica and/or prescribes or administers treatment and/or medicine or assists the patient with advice. (The method of repertorisation and selection of medicine is determined by the practitioner).</p> <p>Or a voluntary scheduled consultation for the same condition within four (4) months (although the symptoms may differ from those presented during the first consultation). It may imply taking down a history and/or repertorisation of the case and study of Materia Medica and/or examination and/or prescribing or administering of treatment and/or medicine and/or counselling.</p> <p>Multiple complaints attended to during same visit: Only one consultation fee is chargeable although the patient may present with a number of complaints. If the patient has an unrelated complaint at the time of administering e.g. a homeopathic injection as part of a course only a fee for a visit is appropriate.</p> <p>Hospital visits, at hospital or nursing home (all hours): By arrangement with Fund/patient.</p> |
| Definition: Medicines                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|                                                                                                                                                                                                                                                                                                                                            | <p><b>Prescribed medicine:</b> Homeopathic medicines are prescribed in accordance with the homeopathic principles and philosophy. The philosophy may consist of a classical, a clinical or a combined classical/clinical approach. The prescription may include proprietary homeopathic medicine, or patient-specific compounded medicine or a combination of both. The prescription may also include specially-imported medicine. The medicine may be prescribed in the form of a tablet, capsules, ampoules, liquid drops, liquid syrup, eardrops, nose drops, eye drops, pillules, granules, powders, ointments, creams, suppositories, stickers, etc. The medicine may be prescribed in a simplex potency, mother tincture (Æ), low potency, multi-potency, etc., and/or complex form.</p> <p><b>Proprietary medicine:</b> These are registered medicines (consonant with the homeopathic scope of practice) that are available in the open market or trade, or which are bought in bulk from manufacturers or wholesalers and dispensed to patients in smaller volumes without any compounding or manipulation. The dispensing of such medicine requires the appropriate NAPPI Code provided by the manufacturer/distributor.</p>                                |

## Road Accident Fund Tariff 2021/2022

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## Road Accident Fund Tariff 2021/2022

## MEDICAL PRACTITIONERS

## RULES GOVERNING THE CODING STRUCTURE:

In calculating the Road Accident Fund prices, the following rounding method is used:

Values R10 and below rounded to the nearest cent;  
R10+ rounded to the nearest 10 cent.

Modifier values are rounded to the nearest cent.

When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.

**Fees calculated: Relative Value Unit (RVU) x Rand Conversion Factor (RCF):**

Consultation fees RCF - 33,69

Procedural fees RCF - 16,05

Psychiatrists RCF - 40,30

**A. Consultations:** Definitions: (a) New and established patients: A consultation/ visit refers to a clinical situation where a medical practitioner personally obtains a patient's medical history, performs an appropriate clinical examination and, if indicated, administers treatment, prescribes or assists with advice. These services must be face-to-face with the patient and excludes the time spent doing special investigations which receive additional remuneration.

(b) Subsequent visits: Refers to a voluntarily scheduled visit performed within four (4) months after the first visit. It may imply taking down a medical history and/or a clinical examination and/or prescribing or administering of treatment and/or counselling.

(c) Hospital visits: Where a procedure or operation was done, hospital visits are regarded as part of the normal after-care and no fees may be levied (unless otherwise indicated). Where no procedure or operation was carried out, fees may be charged for hospital visits according to the appropriate hospital or inpatient follow-up visit code.

**B. Normal hours and after hours:** After-hours services are paid at the same rate as benefits for normal hours services. Bona fide emergency medical services rendered to a patient, at any time, may attract a fee as specified in modifier 0011 and items 0146 or 0147 (which should be added to the appropriate consultative services code selected from items 0190-0192, 01730175, 0161-0164, 0166-0169).

**C. Comparable services:** A service may be rendered that is not listed in this edition of the coding structure. The fee that may be charged in respect of the rendering of a service not listed in this coding structure shall be based on the fee in respect of a comparable service. For these procedure(s)/service(s), item 6999: Unlisted procedure or service code, should be used. When item 6999 is used to indicate that an unlisted service was rendered, the use of the item must be supported by a special report. This report must include:

- (1) An adequate definition or description of the nature, extent and need for the procedure/service or "medical necessity";
- (2) In which respect is this service unusual or different in technique, compared to available procedures/ services listed in the coding structure? Information regarding the nature and extent of the procedure/ service, time and effort, special/dedicated equipment needed to provide this service, must be included in the report;
- (3) Is this procedure/service medically appropriate under the circumstances? Explain why another procedure/ service listed in the coding structure will not be appropriate in this case;
- (4) A description of the complexity of the symptoms and concurrent problems must be supplied;
- (5) Final diagnosis supported by the appropriate ICD-10 code(s);
- (6) Pertinent physical findings (size, location and number of lesions if applicable);
- (7) Mention any other diagnostic or therapeutic procedure(s)/service(s) provided at the same session;
- (8) Any further diagnostic or therapeutic procedure(s)/ service(s) to be provided in the follow-up period; and
- (9) Description of the follow-up care needed.

Please note: This comparable service code may not be used for a period longer than six months for a particular procedure/service after which time an application has to be made for the addition of a specific code for this procedure.

**D. Cancellation of appointments:** Unless timely steps are taken to cancel an appointment for a consultation, the relevant consultation fee may be charged. In the case of a general practitioner "timely" shall mean two hours and in the case of a specialist 24 hours prior to the appointment. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. If a patient has not turned up for a procedure, each member of the surgical team is entitled to charge for a visit at or away from doctor's rooms as the case may be.

**E. Pre-operative visits:** The appropriate fee may be charged for all pre-operative visits with the exception of a routine pre-operative visit at the hospital

## Road Accident Fund Tariff 2021/2022

|    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| F. | <b>Administering of injections and/or infusions:</b> Where applicable, fees for administering injections and/or infusions may only be charged when done by the practitioner himself                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| G. | <b>Post-operative care:</b><br>(a) Unless otherwise stated, the fee in respect of an operation or procedure shall include normal aftercare for a period not exceeding ONE month (aftercare is excluded from pure diagnostic procedures during which no therapeutic procedures were performed).<br>(b) If the normal after-care is delegated to any other registered health professional and not completed by the surgeon, it shall be his/her own responsibility to arrange for this to be done without extra charge.<br>(c) When post-operative care/treatment of a prolonged or specialised nature is required, such fee as may be agreed upon between the surgeon and the scheme or the patient (in case of a private account) may be charged.<br>(d) Normal after-care refers to an uncomplicated postoperative period not requiring any further incisions.                                                                                                                                                                                                                                                                                                                                                                                                             |
| H. | <b>Removal of lesions:</b> Items involving removal of lesions include follow-up treatment for 10 days                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| J. | <b>Disproportionately low fees:</b> In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by a medical practitioner, a higher fee may be negotiated. The use of this rule is not intended merely to increase the Medical Schemes Benefits.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| K. | <b>Practice of specialists:</b> In terms of the conditions in respect of the practice of specialists as published in Government Gazette No. 12958 of 11 January 1991, a specialist may treat any person who comes to him direct for consultation. A specialist who is consulted by a patient or who treats a patient, shall take all reasonable steps to ensure the collaboration of the patient's general practitioner. Medical practitioners referring cases to other medical practitioners shall indicate in the reference whether the patient is a member of a medical scheme or a dependant of such member. This also applies in respect of specimens sent to pathologists.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| L. | <b>Procedures performed at time of visits:</b> If a procedure is performed at the time of a consultation/visit, the fee for the visit PLUS the fee for the procedure is charged.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| M. | <b>Procedure planned to be performed later:</b> In cases where, during a consultation/visit, a procedure is planned to be performed at a later occasion, a visit may not be charged for again, at such a later occasion.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| N. | <b>"Per consultation":</b> No additional fee may be charged for a service for which the fee is indicated as "per consultation". Such services are regarded as part of the consultation/visit performed at the time the condition is brought to the doctor's attention.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| O. | <b>Costly or prolonged medical services or procedures:</b> In the case of costly or prolonged medical services or procedures, the medical practitioner shall first ascertain from the Fund for what amount the Fund will accept responsibility in respect of such treatment, should the practitioner wish any direct payment from the Fund.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| P. | <b>Travelling fees:</b><br>(a) Where, in cases of emergency, a practitioner was called out from his residence or rooms to a patient's home or the hospital, travelling fees can be charged according to the section on travelling expenses (section IV) if he had to travel more than 16 kilometres in total.<br>(b) If more than one patient would be attended to during the course of a trip, the full travelling expenses must be divided between the relevant patients.<br>(c) A practitioner is not entitled to charge for any travelling expenses or travelling time to his rooms.<br>(d) Where a practitioner's residence would be more than 8 kilometres away from a hospital, no travelling fees may be charged for services rendered at such hospitals, except in cases of emergency (services not voluntarily scheduled).<br>(e) Where a practitioner conducts an itinerant practice, he is not entitled to charge fees for travelling expenses except in cases of emergency (services not voluntarily scheduled).<br>(f) For voluntarily scheduled services, fees for travelling expenses may only be charged where the patient and the practitioner have entered into an agreement to this effect. The Fund benefits will not be applicable in such instances. |

## Road Accident Fund Tariff 2021/2022

|     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| EE: | <p><b>Ultrasound examinations:</b> The international norm approved for use in South Africa for NORMAL PREGNANCY is two ultrasound exams:</p> <p>(a) The first scan should preferably include a nuchal thickness estimation and be performed between 10 and 14 weeks gestation. The second scan should be performed between 20 and 24 weeks and should include a full anatomical report. All subsequent ultrasound scans are excluded from the benefits of the Fund unless accompanied by proper motivation. An ultrasound scan to assess an abnormal early pregnancy may be formed before 10 weeks but this scan may not be used to diagnose a normal uncomplicated pregnancy. Item 3618 is a gynaecological scan and its use is not approved for use in pregnancy.</p> <p>(b) In cases where the scan is performed by the attending practitioner, a clear indication for such a scan must be entered on the account rendered, or a letter of motivation must be attached to the account (the practitioner must elect one of the two options).</p> <p>(c) In case of a referral, the referring doctor must submit a letter of motivation to the radiologist or other practitioner doing the scan. A copy of the letter of motivation must be attached to the first account rendered to the patient (by the radiologist or the other practitioner doing the scan) and must be attached to the first account submitted to the Fund by the patient or the doctor, as the case may be.</p> <p>(d) In case of a referral to a radiologist, no motivation should be required from the radiologist.</p> |
| FF: | <p>(a) When a cystoscopy precedes a related operation, Modifier 0013: Endoscopic examination done at an operation, applies, e.g. cystoscopy followed by transurethral (TUR) prostatectomy.</p> <p>(b) When a cystoscopy precedes an unrelated operation, Modifier 0005: Multiple procedures/ operations under the same anaesthetic, applies, e.g. cystoscopy for urinary tract infection followed by inguinal hernia repair.</p> <p>(c) No modifier applies to item 1949: Cystoscopy, when performed together with any of items 1951 to 1973.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| GG: | <p><b>Capturing and recording of examinations:</b> Images from all radiological, ultrasound and magnetic resonance imaging procedures must be captured during every examination and a permanent record generated by means of film, paper, or magnetic media. A report of the examination, including the findings and diagnostic comment, must be written and stored for five years</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| RR: | <p>The Radiology section in this price list is not for use by registered specialist radiology practices (Pr No "038") or nuclear medicine practices (Pr No "025"), but only for use by other specialist practices or general practitioners. A separate Radiology schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025").</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 0018     | Surgical modifier for persons with a BMI of 35> (calculated according to kg/m <sup>2</sup> ): Fee for procedure +50% for surgeons and a 50% increase in anaesthetic time units for anaesthesiologists.                                                                                                                                                                                                                                                                                                                                                                                                                    |              |             |       |                       |       |                          |       |
| 0019     | (a) <b>Surgery on neonates (up to and including 28 days after birth) and low birth weight infants (less than 2500g) under general anaesthesia (excluding circumcision):</b> Units for procedure + 50% of the units for the procedure performed by the surgeons and a 50% increase in anaesthetic time units for anaesthesiologist. Modifier 0016 may be added to Modifier 0019(b) when appropriate.<br>(b) <b>Neonates OR low birth weight infants (less than 2500 g) requiring intensive care:</b> Units for the intensive care items + 50% units for the intensive care items for neonatologists and/or paediatricians. |              |             |       |                       |       |                          |       |
| 0020     | Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate to the Fund that there will be no hospital/theatre account.                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 0046     | Where in the treatment of a specific fracture or dislocation (compound or closed) an initial procedure is followed within one month by an open reduction, internal fixation, external skeletal fixation or bone grafting on the same bone, the fee for the initial treatment of that fracture or dislocation shall be reduced by 50%. Please note: This reduction does not include the assistant's fee where applicable. After one month, a full fee as for the initial treatment, is applicable.                                                                                                                         |              |             |       |                       |       |                          |       |
| 0047     | A fracture NOT requiring reduction shall be charged on a fee per service basis.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |              |             |       |                       |       |                          |       |
| 0048     | Where in the treatment of a fracture or dislocation, an initial closed reduction is followed within one month by further closed reductions under general anaesthesia, the fee for such subsequent reductions will be 27,00 clinical procedure units (not including aftercare)                                                                                                                                                                                                                                                                                                                                             |              | 27,00       |       | 27,00                 |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                            | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|          |                                                                                                                                                                                                                                                                                                                        |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0049     | Except where otherwise specified, in cases of compound fractures, 77,00 clinical procedure units (specialists) and 77,00 clinical procedure units (general practitioners) are to be added to the units for the fractures including debridement.                                                                        |              | 77,00       |       | 77,00                 |       |                          |       |
| 0051     | <b>Fractures requiring open reduction, internal fixation, external skeletal fixation and/or bone grafting:</b> Specialists add 77,00 clinical procedure units. General practitioners add 77,00 clinical procedure units.                                                                                               |              | 77,00       |       | 77,00                 |       |                          |       |
| 0053     | <b>Fracture requiring percutaneous internal fixation [insertion and removal of fixatives (wires) in respect of fingers and toes included]:</b> Specialists and general practitioners add 32,00 clinical procedure units.                                                                                               |              | 32,00       |       | 32,00                 |       |                          |       |
| 0055     | <b>Dislocation requiring open reduction:</b> Units for the specific joint plus 77,00 clinical procedure units for specialists. General practitioners add 77,00 clinical procedure units.                                                                                                                               |              | 77,00       |       | 77,00                 |       |                          |       |
| 0057     | <b>Multiple procedures on feet:</b> In multiple procedures on feet, fees for the first foot are calculated according to Modifier 0005: Multiple procedures/operations under the same anaesthetic. Calculate fees for the second foot in the same way, reduce the total to 75% and add to the total for the first foot. |              |             |       |                       |       |                          |       |
| 0058     | <b>Revision operation for total joint replacement and immediate re-substitution (infected or non-infected):</b> Units as for the procedure(s) + 100% of the units as for the total revision procedure (the units for modifier 0058 equals 100% of the procedure(s) performed plus appropriate modifiers)               |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |

| 0064     | Where the replantation is unsuccessful, no further surgical fee is payable for amputation of the non-viable parts                                                                                                                                               |              |             |       |                       |       |                          |       |
| 0065     | Additional operative procedures by same surgeon, under section 3.8.6: Spinal deformities, within a period of 12 months: 75% of scheduled fee for the lesser procedure, except where otherwise specified elsewhere                                               |              |             |       |                       |       |                          |       |
| 0066     | <b>Microsurgery of the fallopian-tubes and ovaries:</b> Where micro-surgical techniques are used, with the aid of a microscope, 25% may be added to the fee.                                                                                                    |              |             |       |                       |       |                          |       |
| 0067     | <b>Microsurgery of the larynx:</b> Add 25% to the fee of the operation performed (For other operations requiring the use of an operation microscope, the fee include the use of the microscope, except where otherwise specified elsewhere in the Tariff).      |              |             |       |                       |       |                          |       |
| 0069     | <b>When endoscopic instruments are used during intranasal surgery:</b> Add 10% of the fee of the procedure performed. Only applicable to items 1025, 1027, 1030, 1033, 1035, 1036, 1039, 1047, 1054 and 1083.                                                   |              |             |       |                       |       |                          |       |
| 0070     | Add 45.00 clinical procedure units to procedure(s) performed through a thoroscope.                                                                                                                                                                              |              | 45.00       |       | 45.00                 |       |                          |       |
| 0072     | <b>Non invasive peripheral vascular tests:</b> The number of tests in a single case is restricted to two (2) per diagnosis. Tests are not justified in cases of uncomplicated varicose veins.                                                                   |              |             |       |                       |       |                          |       |
| 0073     | When item 1288 (Cardiac catheterisation for congenital heart disease. All ages above 1 year old) or item 1289 (Paediatric cardiac catheterisation: Infants below the age of one year) is performed by paediatric cardiologists ('33'): fee for procedure + 100% |              |             |       |                       |       |                          |       |
| 0074     | <b>Endoscopic procedures performed with own equipment:</b> The basic procedure fee plus 33.33% (1/3) of that fee ("+" codes excluded) will apply where endoscopic procedures are performed with own equipment.                                                  |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                             | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|          |                                                                                                                                                                                                                                                                                                                                                                                                                         |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0075     | <b>Endoscopic procedures performed in own procedure room:</b> The fee plus 21,00 clinical procedure units will apply where endoscopic procedures are performed in rooms with own equipment. This fee is chargeable by medical practitioners who own or rent the facility. Please note: Modifier 0075 is not applicable to any of the items for diagnostic procedures in the otorhinolaryngology sections of the tariff. |              | 21.00       |       | 21.00                 |       |                          |       |
| 0077     | <b>Physical treatment:</b> When two separate areas are treated simultaneously for totally different conditions, such treatment shall be regarded as two treatments for which separate fees may be charged. (Only applicable if services are provided by a specialist in physical medicine)                                                                                                                              |              |             |       |                       |       |                          |       |
| 0078     | When a testis biopsy is done combined with vasogram or seminal vesiculogram or epididymogram, add 50% of the units for the appropriate procedure                                                                                                                                                                                                                                                                        |              |             |       |                       |       |                          |       |
| 0079     | When a first consultation/visit proceeds into, or is immediately followed by a medical psychotherapeutic procedure, fees for the procedure are calculated according to the appropriate individual psychotherapy code (items 2957, 2974 or 2975)                                                                                                                                                                         |              |             |       |                       |       |                          |       |
| 0080     | Multiple examinations: No reduction in units.                                                                                                                                                                                                                                                                                                                                                                           |              |             |       |                       |       |                          |       |
| 0081     | Repeat examinations: No reduction                                                                                                                                                                                                                                                                                                                                                                                       |              |             |       |                       |       |                          |       |
| 0082     | "+" Means that this item is complementary to a preceding item and is therefore not subject to reduction                                                                                                                                                                                                                                                                                                                 |              |             |       |                       |       |                          |       |
| 0083     | A reduction of 33,33% (1/3) in the fee will apply to radiological examinations as indicated in section 19: Radiology where hospital equipment is used                                                                                                                                                                                                                                                                   |              |             |       |                       |       |                          |       |
| 0084     | <b>Cost for films and thermal paper by non-radiologists:</b> In the case of radiological services rendered by non-radiologists where films, thermal paper or magneti media are used, use the film price of 2007 for these media, as compiled by the Radiological Society of South Africa. (This list is available on request at <a href="mailto:radsoc@iafrica.com">radsoc@iafrica.com</a> ).                           |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |

|          |                                                                                                                                                                                                                                                                                                                                  |              | Units       | Value | Units                 | Value | Units                    | Value |
| 5104     | <b>Ultrasound in pregnancy, multiple gestation, after twenty weeks:</b> Units for part examined plus 50% of the units.                                                                                                                                                                                                           |              |             |       |                       |       |                          |       |
| 6100     | In order to charge the full fee (600,00 magnetic resonance units) for an examination of a specific single anatomical region, it should be performed with the applicable radio frequency coil including T1 and T2 weighted images on at least two planes.                                                                         |              |             |       |                       |       |                          |       |
| 6101     | Where a limited series of a specific anatomical region is performed (except bone tumour), e.g. a T2 weighted image of a bone for an occult stress fracture, not more than two-thirds (2/3) of the fee may be charged. Also applicable to all radiotherapy planning.                                                              |              |             |       |                       |       |                          |       |
| 6102     | All post-contrast studies (except bone tumour), including perfusion studies, to be charged at 50% of the fee.                                                                                                                                                                                                                    |              |             |       |                       |       |                          |       |
| 6103     | <b>Post-contrast study:</b> Bone tumour: 100% of the fee                                                                                                                                                                                                                                                                         |              |             |       |                       |       |                          |       |
| 6104     | Limited examination of the hypophysis e.g. where a coronal T1 and sagittal T1 series are performed, two-thirds (2/3) of the fee is applicable.                                                                                                                                                                                   |              |             |       |                       |       |                          |       |
| 6105     | Where, in a limited hypophysis examination, Gadolinium is administered and coronal T1 and sagittal T1 series are repeated, a single full fee for the entire examination is applicable + cost of Gadolinium + disposable items.                                                                                                   |              |             |       |                       |       |                          |       |
| 6106     | Where a magnetic resonance angiography (MRA) of large vessels is performed as primary examination, 100% of the fee is applicable. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability.                                               |              |             |       |                       |       |                          |       |
| 6107     | Where a magnetic resonance angiography (MRA) of the vessels is performed additional to an examination of a particular region, 50% of the fee is applicable for the angiography. This modifier is only applicable if the series is performed by use of a recognised angiographic software package with reconstruction capability. |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |              | Units       | Value | Units                 | Value | Units                    | Value |
| 6108     | Where only a gradient echo series is performed with a machine without a recognised angiographic software package with reconstruction ability, 20% of the full fee is applicable specifying that it is a "flow sensitive series"                                                                                                                                                                                                                                              |              |             |       |                       |       |                          |       |
| 6109     | Very limited studies to be charged at 33,33% of the full fee e.g. MR urography for renal colic, diffusion studies of the brain additional to routine brain.                                                                                                                                                                                                                                                                                                                  |              |             |       |                       |       |                          |       |
| 6110     | <b>MRI spectroscopy:</b> 50% of fee                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 6300     | If a procedure lasts less than 30 minutes, only 50% of the machine fees for items 3536-3550 will be allowed (specify time of procedure on account).                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 6301     | If a procedure is performed by a radiologist in a facility not owned by himself, the fee will be reduced by 40% (i.e. 60% of the fee will be charged).                                                                                                                                                                                                                                                                                                                       |              |             |       |                       |       |                          |       |
| 6302     | When the procedure is performed by a non-radiologist, the fee will be reduced by 40% (i.e. 60% of the fee will be charged).                                                                                                                                                                                                                                                                                                                                                  |              |             |       |                       |       |                          |       |
| 6303     | When a procedure is performed entirely by a non-radiologist in a facility owned by a radiologist, the radiologist owning the facility may charge 55% of the procedure units used. Modifier 6302 applies to the non-radiologist performing the procedure.                                                                                                                                                                                                                     |              |             |       |                       |       |                          |       |
| 6305     | When multiple catheterisation procedures are used (items 3557, 3559, 3560, 3562) and an angiogram investigation is performed at each level, the unit value of each such multiple procedure will be reduced by 20,00 radiological units for each procedure after the initial catheterisation. The first catheterisation is coded at 100% of the unit value.<br><br>* Apply modifier 6305 when multiple catheterisations are performed. Refer to items 3557, 3559, 3560, 3562) |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier                 | Description                                                                                                                                                                                                                                                                                                                                                                     | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |

| <b>II.a.2</b> | <b>Once-off administration of medicine used during a consultation</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 0198          | Once-off administration of medicines: This item provides for medicines used at a consultation, viz. once off administration of medicine, special medicine used in treatment, or emergency dispensing. Charge for medicine used according to the Single Exit Price (SEP) PLUS legislated tariff for dispensing fees. (Where applicable, VAT should be added to the dispensing fee only and not to the SEP, since the SEP is VAT inclusive). [According to Section 18(8) of the Medicines and Related Substances Act (Act 101 of 1965) compounding and dispensing does not refer to a medicine requiring preparation for a once-off administration to a patient during a consultation]. The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the medicine used. Please note: Refer to item 0201 for cost of material used in treatment. |              |             |       |                       |       |                          |       |
| <b>II.a.3</b> | <b>Cost of chemotherapy drugs</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |              |             |       |                       |       |                          |       |
| 0212          | Cost of chemotherapy drugs: This item provides for a charge for chemotherapy drugs used in treatment. Charge for chemotherapy drugs used in treatment at cost price PLUS 16% (with a maximum of R16,00). (Where applicable, VAT should be added to the above). The appropriate Ethical Medicine Nappi code(s), selected from those codes commencing with 7, 8 or 9 (provided that it is not a reference code), should be added applicable to the chemotherapy drugs used.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |              |             |       |                       |       |                          |       |

The cost of materials is not included.                                                                                                                                                                                                                                                                                                                                                                                            |              | 262.41      |       | 209.93                |       |                          |       |
| 5782       | Isotope Therapy: Administration of low dose surface applicators, up to five applications. Typically an out patient procedure. The cost of materials is not included.                                                                                                                                                                                                                                                                                                                                                                                                     |              | 77.81       |       | 62.25                 |       |                          |       |
| 5783       | Infusional pharmacotherapy: Fee for the treatment of non cancerous conditions with bolus or infusional pharmacotherapy per treatment day (consultations to be charged separately).                                                                                                                                                                                                                                                                                                                                                                                       |              | 42.65       |       | 42.65                 |       |                          |       |
| <b>1.4</b> | <b>MODIFIERS GOVERNING THE ADMINISTRATION OF ANAESTHETICS FOR ALL PROCEDURES AND OPERATIONS</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 0020       | Conscious sedation: Any case that is conducted outside of a hospital theatre shall be coded with the relevant procedure code. To identify these cases, the above modifier should be used to indicate that there will be no hospital/theatre account.                                                                                                                                                                                                                                                                                                                     |              |             |       |                       |       |                          |       |
| 0021       | Determination of anaesthetic fees: Anaesthetic fees are determined by obtaining the sum of the basic anaesthetic units (allocated to each procedure that might be performed under anaesthetic as indicated in the "Anaesthetic Performed" column) plus the time units (calculated according to the formula in Modifier 0023) and the appropriate modifiers (see Modifiers 0037-0044). In cases of operative procedures on the musculoskeletal system, open fractures and open reduction of fractures or dislocations add units as laid down by Modifiers 544.1 to 544.8. |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0023     | The basic anaesthetic units are laid down in the tariff and are reflected in the anaesthetic column. These basic anaesthetic units reflect the additional anaesthetic risk, the technical skill required of the anaesthesiologist/ anaesthetist and the scope of the surgical procedure, but exclude the value of the actual time spent administering the anaesthetic. The time units (indicated by "T") will be added to the listed basic anaesthetic units in all cases on the following basis: Anaesthetic time: The remuneration for anaesthetic time shall be per 15 minute period or part thereof, calculated from the commencement of the anaesthetic; i.e. 2.00 anaesthetic units per 15 minute period or part thereof, provided that should the duration of the anaesthetic be longer than one (1) hour the number of units shall, after one (1) hour, be 3.00 anaesthetic units per 15 minute period or part |              |             |       |                       |       |                          |       |
| 0024     | Pre-operative assessments not followed by procedures: If a pre-operative assessment of a patient by the anaesthesiologist/anaesthetist is not followed by an operation, it will be regarded as a visit at hospital or nursing home and the appropriate hospital visit item should be charged.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 0025     | Calculation of anaesthetic time: Anaesthetic time is calculated from the time the anaesthesiologist/ anaesthetist begins to prepare the patient for the induction of anaesthesia in the operating theatre or in a similar equivalent area and ends when the anaesthesiologist/anaesthetist is no longer required to give his/her personal professional attention to the patient, i.e. when the patient may, with reasonable safety, be placed under the customary post-operative supervision. Where prolonged personal professional attention is necessary for the well-being and safety of such patient, the necessary time will be valued on the same basis as indicated above for the anaesthetic time. The anaesthesiologist/anaesthetist must show on his/ her account the exact anaesthetic time, including the supervision time spent with the patient.                                                         |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0027     | More than one procedure under the same anaesthetic; Where more than one operation is performed under the same anaesthetic, the basic anaesthetic units will be that of the major operation with the highest number of units.                                                                                                                                                                                                                                   |              |             |       |                       |       |                          |       |
| 0028     | Indicator for use of low flow anaesthetic technique less than 1litre/minute. Fresh gas flow of less than 1 litre/ minute.                                                                                                                                                                                                                                                                                                                                      |              |             |       |                       |       |                          |       |
| 0029     | Assistant anaesthesiologists: When rendered necessary by the scope of the anaesthetic, an assistant anaesthesiologist may be employed. The remuneration of the assistant anaesthesiologist shall be calculated on the same basis as in the case where a general practitioner administers the anaesthetic                                                                                                                                                       |              |             |       |                       |       |                          |       |
| 0030     | Indicator for use of low flow anaesthetic technique 1-2 litre/minute: Fresh gas flow of 1 to 2 litre/minute.                                                                                                                                                                                                                                                                                                                                                   |              |             |       |                       |       |                          |       |
| 0031     | Intravenous drips and transfusions: Treatment with intravenous drips and transfusions is considered part of the normal treatment in administering an anaesthetic. No additional fees may be charged for such services when rendered either prior to, or during actual theatre or operating time.                                                                                                                                                               |              |             |       |                       |       |                          |       |
| 0032     | Patients in prone position: Anaesthesia administered to patients in the prone position shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added.                                                                                                         |              |             |       |                       |       |                          |       |
| 0033     | Participating in general care of patients: When an anaesthesiologist/anaesthetist is required to participate in the general care of a patient during a surgical procedure, but does not administer the anaesthetic, such services may be remunerated at full anaesthetic rate, subject to the provisos of modifier 0035: Anaesthetic administered by an anaesthesiologist/ anaesthetist. and modifier 0036: Anaesthetic administered by general practitioners. |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0034     | Head and neck procedures: All anaesthetics administered for diagnostic, surgical or X-ray procedures on the head and neck shall have a minimum of 4,00 basic anaesthetic units. When the basic anaesthetic units for the procedure is 3,00, one extra anaesthetic unit should be added. If the basic anaesthetic units for the procedure is 4,00 or more, no extra units should be added.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |              |             |       |                       |       |                          |       |
| 0035     | Anaesthetic administered by an anaesthesiologist/anaesthetist: No anaesthetic administered shall have a total value of less than 7,00 anaesthetic units (basic units, time units plus appropriate modifiers).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |              |             |       |                       |       |                          |       |
| 0036     | <b>Anaesthetic administered by general practitioners:</b><br>a. Anaesthesia administered lasting one hour or less: the units (basic units plus time plus the appropriate modifiers ) used to calculate the units for an anaesthesia administered by a general practitioner lasting one hour or less, shall be the same as that for a specialist anaesthesiologist. No anaesthesia performed should be less than 7,00 anaesthetic units (modifier 0035).<br>b. Anaesthesia lasting more than one hour, the units used to calculate the units for an anaesthesia administered by a general practitioner will be 4/5(80%) of the total number of units (basic units plus time plus the appropriate modifiers) applicable to the specialist anaesthesiologist. The calculated anaesthetic units shall not be less than 11,00 anaesthetic units.<br>Body hypothermia: Utilisation of total body hypothermia: Add 3,00 anaesthetic units. |              |             |       |                       |       |                          |       |
| 0037     | Peri-operative blood salvage: Add 4,00 anaesthetic units for intra-operative blood salvage and 4,00 anaesthetic units for post-operative blood salvage.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |              |             |       |                       |       |                          |       |
| 0038     | Control of blood pressure: Deliberate control of the blood pressure: All cases up to one hour: Add 3,00 anaesthetic units, thereafter add 1,00 (one) additional anaesthetic unit per quarter hour or part thereof.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              |             |       |                       |       |                          |       |
| 0039     | Phaeochromocytoma: The basic anaesthetic units for procedures performed for phaeochromocytoma shall be 15,00 anaesthetic units                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |              |             |       |                       |       |                          |       |
| 0040     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |

|          |                                                                                                                                                                                                                                                                                                                                                                                                            |              | Units       | Value | Units                 | Value | Units                    | Value |
| 0041     | Hyperbaric pressurisation: Utilisation of hyperbaric pressurisation: Add 3,00 anaesthetic units                                                                                                                                                                                                                                                                                                            |              |             |       |                       |       |                          |       |
| 0042     | Extracorporeal circulation: Utilisation of extracorporeal circulation: Add 3,00 anaesthetic units                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
| 0043     | Patients under one year of age: For all cases where the patient is under one year of age – 3,00 anaesthetic units to be added                                                                                                                                                                                                                                                                              |              |             |       |                       |       |                          |       |
| 0044     | Neonates (i.e up to and including 28 days after birth): 3,00 anaesthetic units to be added to the basic anaesthetic units for the particular procedure. This modifier is charged in addition to Modifier 0043: Cases under one year of age.                                                                                                                                                                |              |             |       |                       |       |                          |       |
| 0100     | Intra-aortic balloon pump: Where an anaesthesiologist would be responsible for operating an intra-aortic balloon pump, a fee of 75,00 clinical procedure units is applicable.                                                                                                                                                                                                                              |              |             |       |                       |       |                          |       |
|          | Modifiers 5441 to 5448<br>Modification of the anaesthetic fee in cases of operative procedures on the musculo-skeletal system, open fractures and open reduction of fractures and dislocations is governed by adding units indicated by modifiers 5441 to 5448. (The letter "M" is annotated next to the number of units of the appropriate items, for facilitating identification of the relevant items). |              |             |       |                       |       |                          |       |
| 5441     | Add one (1,00) anaesthetic unit, except where the procedure refers to the bones named in Modifiers 5442 to 5448                                                                                                                                                                                                                                                                                            |              |             |       |                       |       |                          |       |
| 5442     | Shoulder, scapula, clavicle, humerus, elbow joint, upper 1/3 tibia, knee joint, patella, mandible and temporo-mandibular joint: Add two (2,00) anaesthetic units                                                                                                                                                                                                                                           |              |             |       |                       |       |                          |       |
| 5443     | Maxillary and orbital bones: Add three (3,00) anaesthetic units                                                                                                                                                                                                                                                                                                                                            |              |             |       |                       |       |                          |       |

## Road Accident Fund Tariff 2021/2022

| Modifier | Description                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
