| 2898     | Excision of tumour of glomus jugulare: Hemispherectomy                                                                                                                                                                         |              |             |       |                       |       |                          |       |
| 6085     | Craniectomy/craniotomy: with exploration of the infratentorial area (below the tentorium of the cerebellum), posterior fossa (total procedure)                                                                                 |              | 596.40      |       | 477.12                |       | 13.00T                   |       |
| 6086     | Craniectomy/craniotomy: with evacuation of infratentorial, intracerebellar haematoma (total procedure)                                                                                                                         |              | 614.30      |       | 491.44                |       | 13.00T                   |       |
| 6087     | Craniectomy/craniotomy: with drainage of intracranial abscess in the infratentorial region with suction and irrigating the area while monitoring for haemorrhage (total procedure)                                             |              | 631.80      |       | 505.44                |       | 13.00T                   |       |
| 6088     | Cranial decompression caused by excess fluid (e.g. blood and pathological tissue) using posterior fossa approach by drilling/sawing through the occipital bone (total procedure)                                               |              | 605.10      |       | 484.08                |       | 13.00T                   |       |
| 6090     | Craniectomy at base of skull (suboccipital): with freeing and section of one or more cranial nerves (total procedure)                                                                                                          |              | 624.00      |       | 499.20                |       | 11.00T                   |       |
| 6091     | Craniectomy at base of skull (suboccipital): with mesencephalic tractotomy or pedunculotomy (resecting a nerve tract as it passes through the mesencephalon or the cerebellar or cerebral peduncle)(total procedure)           |              | 494.10      |       | 395.28                |       | 11.00T                   |       |
| 6092     | Craniectomy: with excision of meningioma(neoplasm of meninges) from infratentorial structures or posterior fossa (total procedure)                                                                                             |              | 873.40      |       | 698.72                |       | 11.00T                   |       |
| 6093     | Craniectomy: with excision of midline brain tumour at base of skull; using posterior auricular or transmastoid approach (total procedure)                                                                                      |              | 942.10      |       | 753.68                |       | 13.00T                   |       |
| 6094     | Craniectomy: with excision or fenestration (creating opening for draining) of cyst in the infratentorium or posterior fossa (total procedure)                                                                                  |              | 617.60      |       | 494.08                |       | 13.00T                   |       |
| 6095     | Craniectomy (bone flap craniotomy): with excision of cerebellopontine angle tumour (acoustic neuroma/tumour/vestibular neurofibromatosis (NF 1 or NF2)/angle tumour); using transtemporal (mastoid) approach (total procedure) |              | 1079.60     |       | 863.68                |       | 11.00T                   |       |

## Road Accident Fund Tariff 2021/2022

| Modifier    | Description                                                                                                                                                                                                                                                           | Add-on Codes | Specialists |       | General Practitioners |       | Anaesthesia administered |       |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------|-------|-----------------------|-------|--------------------------|-------|
|             |                                                                                                                                                                                                                                                                       |              | Units       | Value | Units                 | Value | Units                    | Value |
| 6096        | Craniectomy (bone flap craniotomy): with excision of cerebellopontine angle tumour (acoustic neuroma/tumour/vestibular neurofibromatosis (NF 1 or NF2)/angle tumour); using combined transtemporal (mastoid) and middle or posterior fossa approach (total procedure) |              | 910.30      |       | 728.24                |       | 13.00T                   |       |
| 2899        | Craniectomy/craniotomy: with evacuation of infratentorial haematoma, subdural or extradural                                                                                                                                                                           |              | 543.10      |       | 434.48                |       | 13.00T                   |       |
| 2900        | Transcranial exploration of orbit: Removal of lesion (ensuring freedom of movement of extraocular eye muscles). Includes reconstruction of roof of orbit, closure of dura and replacement of skull (total procedure)                                                  |              | 625.50      |       | 500.40                |       | 11.00T                   |       |
| 2916        | Craniotomy: with intra-cranial hypophysectomy or excision of pituitary tumour (total procedure)                                                                                                                                                                       |              | 683.60      |       | 546.88                |       | 11.00T                   |       |
| <b>14.8</b> | <b>Craniotomy for</b>                                                                                                                                                                                                                                                 |              |             |       |                       |       |                          |       |
| 2901        | Craniectomy/trephination (bone flap craniotomy): with excision of supratentorial meningioma                                                                                                                                                                           |              | 766.70      |       | 605.36                |       | 11.00T                   |       |
| 2902        | Craniotomy for subdural implantation of strip- and grid electrodes for seizure monitoring and brain mapping                                                                                                                                                           |              | 398.10      |       | 311.28                |       | 9.00T                    |       |
| 2903        | Craniectomy/trephination or bone flap craniotomy: with excision of supratentorial brain tumour, excluding meningioma (total procedure)                                                                                                                                |              | 650.00      |       | 520.00                |       | 11.00T                   |       |
| 2904        | Craniectomy/craniotomy: with evacuation of supratentorial, intracerebral haematoma                                                                                                                                                                                    |              | 590.20      |       | 472.16                |       | 11.00T                   |       |
| 2905        | Craniotomy with elevation of bone flap: Excision of epileptogenic focus without electrocorticography during surgery                                                                                                                                                   |              | 489.00      |       | 391.20                |       | 11.00T                   |       |
| 2906        | Craniotomy: skull based repair of encephalocele (total procedure)                                                                                                                                                                                                     |              | 493.50      |       | 394.80                |       | 11.00T                   |       |
| 2907        | Craniotomy with elevation of bone flap: with lobectomy of temporal lobe, without electrocorticography during the surgery (total procedure)                                                                                                                            |              | 730.00      |       | 584.24                |       | 11.00T                   |       |
| 2908        | Craniotomy for Torkildsen anastomosis                                                                                                                                                                                                                                 |              |             |       |                       |       |                          |       |
| 2909        | Craniotomy: Repair of dural /cerebrospinal fluid (CSF) leak. Includes surgery for rhinorrhea/otorrhea                                                                                                                                                                 |              | 474.60      |       | 379.68                |       | 11.00T                   |       |

|                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              | Units       | Value | Units                 | Value | Units                    | Value |
| Interventional radiological procedures |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |              |             |       |                       |       |                          |       |
|                                        | Please note: Modifier 0083 is not applicable to Section 19.8: Vascular studies and Section 19.14: Interventional radiological procedures                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |              |             |       |                       |       |                          |       |
|                                        | Rules applicable to Section 19.8: Vascular studies and section 19.14: Interventional radiological procedures:<br>a. The Technical Component (TC) of items 3536-3550 includes the cost of the following:<br>i. All runs<br>ii. All film costs (modifier 0084 is not applicable)<br>iii. All fluoroscopy (item 3601 does not apply)<br>iv. All minor consumables (defined as any item other than catheters, guidewires, introducer sets, specialised catheters, balloon catheters, stents, embolic agents, drugs and contrast media, anaesthetic consumables and drugs)<br>b. The Technical Component (TC) for items 3526-3550 may only be once per case per day by the owner of the equipment and is only applicable to radiology practices.<br>c. If a procedure is performed by a non-radiologist together with a radiologist as a team, in a facility owned by the radiologist, each member of the team will use their respective full units as per modifiers and the applicable items.<br>d. If a procedure is performed by a non-radiologist and a radiologist as a team, in a facility not owned by the radiologist, modifiers 6301 and 6302 apply. |              |             |       |                       |       |                          |       |

| 11                           | Where the therapist performs treatments away from the treatment rooms, travelling costs to be charged according to AA rates e.g. for domiciliary treatments or treatments in nursing homes. Modifier 0011 must be quoted after the appropriate code numbers to show that this rule is applicable.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12                           | Every practitioner shall render a monthly account in respect of any service rendered during the month, irrespective of whether or not the treatment has been completed. NB. Every account shall contain the following particulars:<br>i The name and practice number of the consulting occupational or art therapist.<br>ii The name of the patient.<br>iii The nature of the treatment.<br>iv The date on which the service was rendered.<br>v The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 13                           | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.<br>Please note: In the case of occupational therapy, a code will only be required when a standard proprietary (off the shelf) product is used. When a splint or support is made by the occupational therapist using or modifying one or more components, a code cannot accurately identify this non-standard product. Please refer to annexure itemising the most commonly made non-standard products used in occupational therapy and bill accordingly.<br>The Occupational Therapy Association of S A has made available a generic list of non-proprietary splints and pressure garments commonly made by practitioners. The type of materials used to manufacture these products is at the discretion of the practitioner concerned. Price of splints and pressure garments may vary. See Annexures A & B. |

| Code      | Description                                                                                                                                                                                                                                                                                                                                | Value    |
|           | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed. |          |

|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|
|            | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.                                                                                 |       |
|            | RULES                                                                                                                                                                                                                                                                                                                                                                                                                      | Value |
| 1          | All accounts must be presented with the following information clearly stated:<br>- name of osteopath<br>- qualifications of the osteopath<br>- BHF practice number<br>- Postal address and telephone number<br>- Date on which the service(s) were provided<br>- Applicable item codes<br>- The nature of the treatment<br>- The first name of the patient<br>- The name and practice number of the referring practitioner |       |
| 2          | The fee of more than one procedure performed at the same consultation or visit, shall be the fee for the major procedure plus the fee in respect of each additional procedure, but under no circumstances will additional fees be charged for more than three a                                                                                                                                                            |       |
| 3          | After a series of 10 treatments in respect of one patient for the same condition, the practitioner concerned shall report as soon as possible if further treatment is necessary. Payment for treatment in excess of the stipulated number may be granted after                                                                                                                                                             |       |
| 4          | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the correct NAPPI code is supplied on the account.                                                                                                                                                                                  |       |
|            | ITEMS                                                                                                                                                                                                                                                                                                                                                                                                                      |       |
| 1          | Consultation, Spinal or Joint Manipulation                                                                                                                                                                                                                                                                                                                                                                                 |       |
| 1          | Initial consultation/manipulation (fee covering history, examination and treatment)                                                                                                                                                                                                                                                                                                                                        | 0     |
|            | COIDS - Full case history, physical exam & use of diagnostic equipment, but excluding remedies, immobilisation, and manipulative procedure                                                                                                                                                                                                                                                                                 |       |
| 2          | Subsequent manipulation/examination (fee covering subsequent examination and treatment / manipulation for the same condition)                                                                                                                                                                                                                                                                                              | 0     |
|            | COIDS - Subsequent consultation & examination not requiring treatment                                                                                                                                                                                                                                                                                                                                                      |       |
| 3          | Consultation/examination where not treatment is required                                                                                                                                                                                                                                                                                                                                                                   | 0     |
|            | COIDS - Spinal or extra-spinal joint manipulation ONLY.                                                                                                                                                                                                                                                                                                                                                                    |       |

| 1                | Unless timely steps (i.e. 24 hours prior to the appointment) are taken to cancel an appointment the relevant fee may be charged, but shall not be payable. Each case shall, however, be considered on merit and, if circumstances warrant, no fee shall be charged. Modifier 0001 to be quoted                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |       |       |
| 2                | In exceptional cases where the fee is disproportionately low in relation to the actual services rendered by the practitioner, the practitioner shall provide motivation for a higher fee and such higher fee as may be agreed upon with the practitioner may be charged                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |       |       |
| 3                | Where a practitioner uses equipment which is not owned by that practitioner, a reduction of 15% of the relevant rate will be applicable. Modifier 0003 must be quoted when this rule is applied                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |       |
| 4                | In the case of prolonged or costly treatment, the practitioner should first ascertain whether financial responsibility in respect of such treatment will be accepted.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |       |
| 5                | After a series of 20 treatments in respect of one patient for the same condition, the practitioner concerned shall report as soon as possible if further treatment is necessary. Payment for treatments in excess of the stipulated number may be granted after receipt of a letter from the practitioner concerned, motivating the need for such treatment                                                                                                                                                                                                                                                                                                                                                                                                                                                                |       |       |
| 6                | Where emergency treatment is provided:<br>a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient in hospital; or<br>b. after working hours<br>the fee for such visits shall be the total fee plus 50%.<br>For purposes of this rule:<br>a. "emergency treatment" means a bona fide, justifiable emergency physiotherapy procedure, where failure to provide the procedure immediately would result in serious impairment to bodily functions or serious dysfunction of a bodily organ or part, or would place the person's life in serious jeopardy; and<br>b. "working hours" means 8h00 to 17h00, Monday to Friday.<br>Modifier 0006 must be quoted after the appropriate code number(s) to indicate that this rule is applicable. |       |       |
| 7                | Practitioners are reminded that a lower fee than that appearing in the scale of benefits shall be charged if the customary fee in the area is less than that charged. Reduced fees shall also be charged where the practitioner would have reduced his/her fee in private practice in particular cases. Prolonged treatment or exceptional cases should also receive special consideration in accordance with the usual medical                                                                                                                                                                                                                                                                                                                                                                                            |       |       |
| 8                | The fee in respect of more than one procedure (excluding evaluation and visiting items 407, 501, 502, 503, 507, 509, 701, 702, 703, 704, 705, 706, 707, 708, 801, 803, 901 and 903) performed at the same consultation or visit, shall be the fee for the major procedure plus half the fee in respect of each additional procedure, but under no circumstances may fees be charged for more than three procedures carried out in the treatment of any one condition. Modifier 0008 must then be quoted after the appropriate code numbers for the additional code numbers for the additional procedures to indicate that this rule is                                                                                                                                                                                     |       |       |
| 9                | When more than one condition requires treatment and each of these conditions necessitates an individual treatment, they shall be charged as individual treatments. Full details of the nature of the treatments and the diagnosis or diagnostic codes shall be stated. Modifier 0009 must then be quoted after the appropriate code number to indicate that this rule is applicable.                                                                                                                                                                                                                                                                                                                                                                                                                                       |       |       |
| 10               | When the treatment times of two completely separate and different conditions overlap, the fee shall be the full fee for one condition and 50% of the fee for the other condition. Both conditions must be specified. Modifier 0010 must then be quoted after the appropriate code number to indicate that this rule is applicable.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |       |       |

## Road Accident Fund Tariff 2021/2022

| Tariff code | DESCRIPTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | UNITS | VALUE  |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|--------|
| 11          | Every Physiotherapist must acquaint himself with the provisions of the Medical Schemes Act, 1998 and the regulations promulgated under the Act in connection with the rendering accounts. Every account shall contain the following particulars :<br>· The name and practice code number of the referring practitioner (where applicable).<br>· The name of the patient.<br>· The practice code number and name of practitioner<br>· The nature and cost of the treatment.<br>· The date on which the service was rendered.<br>· The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered. |       |        |
| 12          | NB: Rounding off does not apply to amounts occurring once the modifiers are used.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |       |        |
| 13          | Where the physiotherapist performs treatment away from the treatment rooms, travelling costs being more than 16 kilometres in total) to be charged according to the AA-rate. Modifier 0013 must be quoted after the appropriate code numbers to show that this rule is applicable.                                                                                                                                                                                                                                                                                                                                                  |       |        |
| 14          | Physiotherapy services rendered in a nursing home or hospital. Modifier 0014 must be quoted after each code.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |       |        |
| 16          | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.                                                                                                                                                                                                                                                                                                                                                                                             |       |        |

## Road Accident Fund Tariff 2021/2022

| Tariff code | DESCRIPTION                                                                                                                                                                                                                                                                                                                                                                                                                                                            | UNITS | VALUE |
|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|
|             | Explanation and use of "after-hours situation" "After-hours situation" shall mean all physiotherapy interventions, where essential continuation of care is required in excess of ordinary working hours in the following circumstances:<br>a. Weekdays before 07:00 and after 17:00<br>b. Saturdays before and after the normal working hours of the practice<br>c. Sundays and Public holidays                                                                        |       |       |
|             | This code may not be charged in the following circumstances:<br>a. Where the physiotherapy appointment is scheduled for the convenience of the patient.<br>b. Where the physiotherapy appointment is scheduled for the convenience of the physiotherapist.<br>c. Where the ordinary outpatient consulting hours for the practice fall outside the above parameters.<br>d. In circumstances where the above criteria are not met the use of code 720 is not applicable. |       |       |
|             | Code 720 and 721 may not be charged together at the same single intervention.                                                                                                                                                                                                                                                                                                                                                                                          |       |       |
|             | CODE 721 – emergency physiotherapy intervention Explanation and indications for use:                                                                                                                                                                                                                                                                                                                                                                                   |       |       |
|             | Code 721 may only be used where an emergency physiotherapy intervention is provided. Emergency is defined as a sudden, and at the time, unexpected onset of a health condition or an unplanned event that requires immediate unscheduled physiotherapy intervention.                                                                                                                                                                                                   |       |       |
|             | Failure to provide the physiotherapy intervention immediately might result in any or all of the following:<br>a. Serious impairment to bodily functions<br>b. serious dysfunction of a bodily organ or part<br>c. reduced functional ability due to severe pain<br>d. would place the patient's life in serious jeopardy                                                                                                                                               |       |       |
|             | In circumstances where the above criteria are not met the use of code 720 is not applicable.                                                                                                                                                                                                                                                                                                                                                                           |       |       |

## Road Accident Fund Tariff 2021/2022

| PODIATRY    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |       |          |

| Tariff code | DESCRIPTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | UNITS | VALUE    |
|             | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.                                                                                                                                                                                                                                                                                                                                                                |       |          |
|             | <b>General Rules</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |          |
| A           | All accounts must be presented with the following information clearly stated: <ul style="list-style-type: none"> <li>· name of practitioner</li> <li>· qualifications of the practitioner;</li> <li>· BHF practice number;</li> <li>· postal address and telephone number;</li> <li>· date on which service(s) were provided;</li> <li>· The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered;</li> <li>· the first name of the patient;</li> <li>· the name and practice number of the referring practitioner, if applicable.</li> </ul>                                                                                                                    |       |          |
| B           | The rate in respect of more than one procedure performed at the same consultation or visit, shall be the full rate for the major procedure plus half the rate in respect of each additional procedure carried out in the treatment of any one condition.                                                                                                                                                                                                                                                                                                                                                                                                                                                  |       |          |
| C           | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |       |          |
| D           | The amount charged in respect of medicines and scheduled substances shall not exceed the limits prescribed in the Regulations Relating to a Transparent Pricing System for Medicines and Scheduled Substances, dated 30 April 2004, made in terms of the Medicines and Related Substances Act, 1965 (Act No 101 of 1965).<br>In relation to all other materials, items are to be charged (exclusive of VAT) at net acquisition price plus -<br>* 26% of the net acquisition price where the net acquisition price of that material is less than one hundred rands; and<br>* a maximum of twenty six rands where the net acquisition price of that material is greater than or equal to one hundred rands. |       |          |
|             | <b>Modifiers</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |       |          |
| 2           | For procedures 021 to 031 carried out in a day clinic or unattached operating theatre unit, the rate shall be reduced to two-thirds.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |       |          |

|            | 1. The costs of special treatment of newly born infants, e.g. circumcision certified as necessary by the attending practitioner, which shall be dealt with in accordance with the National Reference Price List for private hospitals.                                                                                                                                                                                            |            |            |          |
|            | 2. If an epidural anaesthetic is given for either a vaginal delivery or a caesarean section, an additional fee (item 011) may be charged. This comprises of an epidural pack, all consumables used, as well as nursing time.                                                                                                                                                                                                      |            |            |          |
|            | 3. An uncomplicated stay in a nursery for routine observation is included in the maternity fee, as well as phototherapy and routine high care observation after delivery for the new born baby.                                                                                                                                                                                                                                   |            |            |          |
|            | 4. A neonate requiring specialised treatment in a ward, high care or ICU shall be considered to be a patient in its own right and, for that reason, the National Reference Price List shall be applied to such neonate and an account may be rendered on a fee                                                                                                                                                                    |            |            |          |
|            | In such cases, the fixed fee per day remains applicable until the mother is discharged, but the amount of item 015, per day must be deducted from the fixed fee (comprising the nursery fee component).                                                                                                                                                                                                                           |            |            |          |
|            | 5. If the mother is admitted into high care or ICU, the full account is rendered on a fee for service basis, as this is clearly not an uncomplicated delivery. The codes for the nursery fee (item 015) and the delivery room (item 016) must be used to cover                                                                                                                                                                    |            |            |          |
|            | 6. The first day fee includes the cost of admitting the mother, 'prepping' and 'staging' etc, admission into the delivery room, the delivery and post natal period up until midnight. This includes any cost incurred during the early stages of an uncomplicat                                                                                                                                                                   |            |            |          |
|            | The second day is calculated as starting from midnight following the birth of the neonate on the day of the delivery.                                                                                                                                                                                                                                                                                                             |            |            |          |
|            | If however, the mother needs admission for stabilisation or treatment of a medical condition such as diabetes, pre-eclampsia or urinary tract infection, such an admission falls outside the scope of the maternity fixed fee. An account will then be rendered                                                                                                                                                                   |            |            |          |
|            | If however, the mother is admitted to ICU or high care the full account must be rendered on a fee for service basis. If the baby needs admission - see (4).                                                                                                                                                                                                                                                                       |            |            |          |
|            | 7. Admission for suppression of premature labour is not an uncomplicated delivery, and an account must be rendered on a fee for service basis.                                                                                                                                                                                                                                                                                    |            |            |          |
|            | 8. The following list of surgicals (maternity basket) are included in the per diem fee.                                                                                                                                                                                                                                                                                                                                           |            |            |          |

| ENDOSCOPIC (laparoscopic & thoracoscopic) GENERIC LIST                                                                                                                                    |       |       |       |  |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-------|-------|--|
| Comments                                                                                                                                                                                  |       |       |       |  |
| 1. Optical, blunt, Hasson cannula, trocar – may substitute the primary port trocar and eliminate the use of verres needles                                                                |       |       |       |  |
| 2. Harmonic scalpel shears and blades – not to be charged together with disposable electrosurgical probes, argon beam coagulator, clip applicators, bipolar forceps and Tripolar forceps. |       |       |       |  |
| 3. Harmonic scalpel shears and blades – not to be used for laparoscopic cholecystectomy and sterilisation                                                                                 |       |       |       |  |
| 4. Tripolar forceps – not to be used together with electrosurgical probes, harmonic scalpel, clip applicators                                                                             |       |       |       |  |
| 5. Autosuture Endostitch – to be motivated and 1 suture assistant per procedure allowed.                                                                                                  |       |       |       |  |
| 6. Specimen retrieval bags – to motivate use (used when specimen needs to be captured and removed to avoid site contamination); procedure related – histology report required.            |       |       |       |  |
| LAPAROSCOPIC AND THORACOSCOPIC CPT CODES AND CATEGORIES                                                                                                                                   |       |       |       |  |
| Diagnostic laparoscopy (49320)                                                                                                                                                            |       |       |       |  |
| Laparoscopy, surgical; with fulguration of oviducts (with/without transection) (58670)                                                                                                    |       |       |       |  |
| Laparoscopy, surgical; with occlusion of oviducts (e.g. band, clip, Falope ring) (58771)                                                                                                  |       |       |       |  |
| Hysteroscopy diagnostic (58555)                                                                                                                                                           |       |       |       |  |
| THORACOSCOPY, DIAGNOSTIC                                                                                                                                                                  |       |       |       |  |
| THORACOSCOPY, DIAGNOSTIC lungs and pleural space, with biopsy                                                                                                                             |       |       |       |  |
| THORACOSCOPY, DIAGNOSTIC pericardial sac with biopsy                                                                                                                                      |       |       |       |  |
| Laparoscopy, surgical; with salpingostomy (salpingoneostomy) (58673)                                                                                                                      |       |       |       |  |
| Laparoscopy, surgical; with fulguration or excision of the ovary, pelvic viscera or peritoneal surface, any method (58662)                                                                |       |       |       |  |
| Laparoscopy, surgical; with removal leiomyomata (58551)                                                                                                                                   |       |       |       |  |
| Laparoscopy surgical; with enterolysis (freeing intestinal adhesion) (44200)                                                                                                              |       |       |       |  |
| Laparoscopy, surgical; with retroperitoneal node sampling (biopsy) (38570)                                                                                                                |       |       |       |  |
| Laparoscopy, surgical; abdomen, peritoneum, omentum; with drainage lymphocele to peritoneal cavity (49323)                                                                                |       |       |       |  |
| Laparoscopy, surgical; appendectomy (44970)                                                                                                                                               |       |       |       |  |
| Laparoscopy, surgical; abdomen, peritoneum and omentum; with biopsy (49321)                                                                                                               |       |       |       |  |
| Laparoscopy, surgical; abdominal, peritoneum and omentum; with aspiration of cavity or cyst (e.g. ovarian cyst) single or multiple (49322)                                                |       |       |       |  |
| Laparoscopy, surgical; with removal of adnexal structures (partial or total oophorectomy and/or salpingectomy) (58661)                                                                    |       |       |       |  |
| Laparoscopy, surgical; orchiopexy for intra-abdominal testis (54692)                                                                                                                      |       |       |       |  |
| Laparoscopy, surgical; ligation spermatic veins for varicocele (55550)                                                                                                                    |       |       |       |  |
| DESCRIPTION                                                                                                                                                                               | 55700 | 55800 | 57700 |  |
| Laparoscopy, surgical; ablation of renal cysts (50541)                                                                                                                                    |       |       |       |  |
| Laparoscopy, surgical; urethral suspension for stress incontinence (51990)                                                                                                                |       |       |       |  |
| Laparoscopy, surgical; sling operation for stress incontinence (51992)                                                                                                                    |       |       |       |  |
| Hysteroscopy with lysis intra-uterine adhesions (58559)                                                                                                                                   |       |       |       |  |
| Hysteroscopy with removal impacted foreign body (58562)                                                                                                                                   |       |       |       |  |
| Hysteroscopy with removal leiomyomata \ (58561)                                                                                                                                           |       |       |       |  |
| Hysteroscopy with endometrial ablation \ (58563)                                                                                                                                          |       |       |       |  |
| Laparoscopic treatment of ectopic pregnancy, without salpingectomy and/or oophorectomy (59150)                                                                                            |       |       |       |  |
| Laparoscopic treatment of ectopic pregnancy; with salpingectomy and/or oophorectomy (59151)                                                                                               |       |       |       |  |
| Laparoscopy, surgical; with vaginal hysterectomy. (Lap assisted vag. Hyst) (58550)                                                                                                        |       |       |       |  |
| Laparoscopy, surgical; with bilat. Total pelvic lymphadenectomy (38571)                                                                                                                   |       |       |       |  |
| Laparoscopy, surgical; with bilat. Total pelvic lymphadenectomy and peri-aortic lymph node sampling (biopsy) (38572)                                                                      |       |       |       |  |
| Laparoscopy with adrenalectomy (60650)                                                                                                                                                    |       |       |       |  |
| Laparoscopy, surgical; pyeloplasty (50544)                                                                                                                                                |       |       |       |  |
| Laparoscopy, surgical; nephrectomy (50540)                                                                                                                                                |       |       |       |  |
| Laparoscopy, surgical; donor nephrectomy (50547)                                                                                                                                          |       |       |       |  |
| Laparoscopically assisted nephroureterectomy (50548)                                                                                                                                      |       |       |       |  |

## Road Accident Fund Tariff 2021/2022

| Private Nursing |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |              |              |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|--------------|
|                 | <p>In calculating the Tariff, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.</p> <p>TARIFFS ARE VAT INCLUSIVE.</p>                                                                                                                                                                                                                                                                                                                                            |              |              |

| 01              | <p>CONSULTATION, COUNSELING, PLANNING AND/OR ASSESSMENT: Consultation, counseling and / or assessment (codes 001 and 002 below) encompasses consultation, history taking, patient examination and assessment, observation, treatment planning, after care treatment planning, discharge planning and/or counseling.</p> <p>If a consultation and one or more procedures are performed in the visit, both a consultation code and the relevant procedure code(s) may be charged but the time spent on the procedure shall not be included in the consultation period for purposes of determining the consultation fee.</p> <p>A consultation may not be charged where the sole purpose of the visit was to</p> |              |              |
| 02              | <p>EMERGENCY VISITS</p> <p>Bona-fide, justifiable emergency nursing services rendered to a patient, at any time, may attract an additional fee as specified in item 014. These specifically relate to home visits for procedures which become necessary outside those which have been pre-arranged, such as but not exclusively, blocked urinary catheters, IV therapy which tissues or wound(s) which are draining excessively and require additional dressing. These should be accompanied by a written motivation.</p> <p>NOTE THAT THIS FEE IS ONLY APPLICABLE TO REGISTERED NURSES IN PRIVATE PRACTICE, AND NOT TO NURSING AGENCIES.</p>                                                                 |              |              |
| 021             | <p>SUNDAYS AND PUBLIC HOLIDAYS</p> <p>When codes 036, 037 or 038 are charged for services rendered on a Sunday, the fee in respect of these codes shall be inflated by 50%. Modifier 0007 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.</p> <p>When codes 036, 037 or 038 are charged for services rendered on a public holiday, the fee in respect of these codes shall be inflated by 100%. Modifier 0001 must be quoted after the appropriate code number(s) to indicate that this rule is applicable.</p> <p>NOTE THAT THIS FEE IS ONLY APPLICABLE TO NURSING AGENCIES AND NOT TO REGISTERED NURSES IN PRIVATE PRACTICE.</p>                              |              |              |
| 03              | <p>PROCEDURES</p> <p>If a composite fee or general hourly rate is charged, no additional fee for procedures may be charged.</p> <p>The fee in respect of more than one procedure performed at the same time shall be the fee in respect of the major procedure plus 50% of the fee of each subsidiary or additional procedure. Modifier 0002 to be quoted.</p>                                                                                                                                                                                                                                                                                                                                                |              |              |
| 04              | <p>FEES</p> <p>The rate that may be charged in respect of rendering a service not listed in this benefit schedule shall be based on the rate in respect of a comparable service. Modifier 0003 to be quoted with the description of service rendered and the applicable item number used.</p>                                                                                                                                                                                                                                                                                                                                                                                                                 |              |              |

## Road Accident Fund Tariff 2021/2022

|      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |      |          |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|----------|
| 05   | <b>COST OF MEDICINES AND MATERIALS</b><br>The amount charged in respect of medicines and scheduled substances shall not exceed the limits prescribed in the Regulations Relating to a Transparent Pricing System for Medicines and Scheduled Substances, dated 30 April 2004, made in terms of the Medicines and Related Substances Act, 1965 (Act No 101 of 1965). The appropriate dispensing fee as contemplated in section 22G of the Act to be charged by persons licensed in terms of section 22C(1)(a) of the Act must be calculated, exclusive of VAT, as follows:<br>•Where the single exit price of a medicine or scheduled substance is less than one hundred and twenty eight rand (R128.00), the dispensing fee must not exceed 30% of the single exit price in respect of that medicine or scheduled substance;<br>•Where the single exit price of a medicine or scheduled substance is equal to or greater than one hundred and twenty eight rand (R128.00), the dispensing fee must not exceed thirty eight rand and forty cents (R38.40) in respect of that medicine or scheduled substance; |      |          |
| 051  | <b>MEDICINES</b><br>Scheduled medicines may not be supplied by an institution. Intramuscular/Intravenous injection and OPAT may only be administered by a registered nurse.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |      |          |
| 06   | <b>EQUIPMENT (HIRE AND SALES)</b><br>Hiring equipment: 1% of the current replacement value of the equipment per day. Total charge not to exceed 50% of replacement value. Description of equipment to be supplied.<br>To be billed in terms of item 302. Payment of this item is at the discretion of medical scheme concerned, and should be considered in instances where cost savings can be achieved.<br>For equipment that is sold to a member, the net acquisition cost of the equipment may be charged (item 303). This should be on a separate invoice attached to the account as the cost of these items are refunded to the member and not paid to the supplier.                                                                                                                                                                                                                                                                                                                                                                                                                                   |      |          |
| 08   | <b>TRAVEL FEE</b><br>Please note that generally the Fund do not accept the responsibility for transport expenses, as they are deemed to be included in the fee.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |      |          |
|      | <b>MODIFIERS</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |      |          |
| 002  | Only 50% of the fee in respect of subsidiary/additional procedures may be charged.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |      |          |
| 0003 | The fee that may be charged in respect of the rendering of a service not listed in this recommended benefit schedule, shall be based on the fee in respect of a fee for a comparable service. Motivation must be attached.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |      |          |

| Tariff code                         | DESCRIPTION                                                                                                                                                                                                                                                                                                                                                                                                                                                                      | UNITS     | VALUE      |
|                                     | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.                                                                                                                                       |           |            |
|                                     | <b>GENERAL RULES</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                             |           |            |
| B                                   | The charges are indicated in the relevant column opposite the item codes.                                                                                                                                                                                                                                                                                                                                                                                                        |           |            |
| C                                   | Procedure for the classification of private sub-acute facilities:<br>i) Inspections of private sub-acute facilities having practice code numbers commencing with the digits "049" will be conducted by an independent agency on behalf of BHF. Applications to be addressed in writing to BHF.<br>ii) The provisions referred to in D.1.1 shall apply mutatis mutandis to all private sub-acute facilities such as post-natal units, rehabilitation units and psychiatric units. |           |            |
| D                                   | All accounts submitted by private sub-acute facilities shall comply with all of the requirements of Chapter 2, Regulation 5, promulgated in terms of the Medical Schemes Act, Act No. 131 of 1998. Such accounts shall also reflect the practice code number an                                                                                                                                                                                                                  |           |            |
| E                                   | All accounts containing items, which are subject to a discount in terms of the rates shall indicate such items individually and shall show separately the gross amount of the discount.                                                                                                                                                                                                                                                                                          |           |            |

| <b>Tariff code</b> | <b>DESCRIPTION</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | <b>UNITS</b> | <b>VALUE</b> |
|                    | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.<br><br>TARIFFS ARE VAT INCLUSIVE.                                                                                                                                                                                                                                                                                                                                                             |              |              |
|                    | <b>GENERAL RULES</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |              |              |
| B                  | Where emergency treatment is provided:<br>a. during working hours, and the provision of such treatment requires the practitioner to leave her or his practice to attend to the patient at another venue; or<br>b. after working hours<br>the fee for such visits shall be the total fee plus 50%.<br>For purposes of this rule:<br>a) "emergency treatment" means a bona fide, justifiable emergency psychological procedure, where failure to provide the service immediately would result in serious or irreparable psychological or functional impairment<br>b) "working hours" means 8h00 to 17h00, Monday to Friday.<br>Modifier 0003 must be quoted after the appropriate code number(s) to indicate that this rule is applicable. |              |              |
| C                  | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |              |              |
| D                  | Every account shall contain the following particulars:<br>a) The surname, first name and other initials, if any, of the patient;<br>b) The practice code number, group practice number and individual provider registration number issued by the registering authorities for providers, if applicable, of the supplier of service and, in the case of a group practice, the name of the practitioner who provided the service;<br>c) The date on which each relevant health service was rendered;<br>d) The relevant diagnostic codes and NHRPL item code numbers relating to the health service rendered.                                                                                                                               |              |              |
| E                  | Compilation of reports is only to be included within billable time if these reports are for purposes of motivating for therapy and/or giving a progress report and/or a pre-authorisation report, and where such a report is specifically required. Maximum billable time for such a report is 15 minutes.                                                                                                                                                                                                                                                                                                                                                                                                                               |              |              |
| F                  | With the exception of compilation of reports as per Rule E, time charged in terms of the codes in this schedule only includes time spent in direct interaction with the patient.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |              |              |

| Tariff code | DESCRIPTION                                                                                                                                                                                                                                                                                                                                     | UNITS | VALUE    |
|             | In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.      |       |          |
|             | <b>DIAGNOSTIC PROCEDURES</b>                                                                                                                                                                                                                                                                                                                    |       |          |
|             | Note: Items 015, 029, 031, 033, 037, 065, 071, 073, 075, 077, 079, 081, 083, 085, 087, 089, 091, 093, 095, 097, 099, 101, 115, 117, 119, 121, 129, 131, 133, 135, 137, 139, 141, 149, 167, 171 and 173 should be only be paid on condition that the radiographer submits the name of the supervising clinician and his/her BHF practice number. |       |          |
|             | <b>GENERAL RULES</b>                                                                                                                                                                                                                                                                                                                            |       |          |
| 1000        | It is recommended that, when such benefits are granted, drugs, consumables and disposable items used during a procedure or issued to a patient on discharge will only be reimbursed if the appropriate code is supplied on the account.                                                                                                         |       |          |

## Road Accident Fund Tariff 2021/2022

| <b>RADIOLOGY 5-DIGIT CODE STRUCTURE</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                 |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| In calculating the prices in this schedule, the following rounding method is used: Values R10 and below rounded to the nearest cent, R10+ rounded to the nearest 10cent. Modifier values are rounded to the nearest cent. When new item prices are calculated, e.g. when applying a modifier, the same rounding scheme should be followed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                 |
| This schedule is for the exclusive use of registered specialist radiology practices (Pr No "038") and nuclear medicine practices (Pr No "025"). "025" practices may only charge the codes with a 3rd digit of 9. "038" practices may charge all codes except                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                 |
| This schedule must be used in conjunction with the Radiological Society of S A Guidelines. Please refer to the PET guidelines                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                 |
| <b>Coding Structure Framework</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                 |

|                     | Intervention codes (aspiration/biopsy/ablations/cyst drainage, etc.) may be combined with the relevant guidance codes (fluoroscopy, ultrasound, CT, MR) as previously described. The machine codes 00540, 00550, 00560 and 00570 may not be combined with these codes. If ultrasound guidance (00230) is used for a procedure which also attracts one of the machine codes (00540, 00550, 00560 and 00570), it may be coded separately.<br>Codes 80640, 80645, 87682, 87683 include fluoroscopy. Machine codes may not be added.<br>All other interventional procedures are complete unique procedures describing a whole comprehensive procedure and combinations of different codes will only be supported when motivated. |     |                  |            |           |             |
