(1) Continuous Working Time Arrangements;

Ordinary working hours will be determined by the enterprise. The Plastic Industry observes continuous operations and working time arrangements should be convenient to accommodate the operational requirements of the enterprise;

(a) The nature and extent of these working arrangements depend on what is operationally acceptable at individual company level and may include the following types of arrangements:

- Compressed working weeks (employees work up to 12 hours per day without receiving overtime payment in return for a shorter workweek)¹;
- Working an unpaid additional hour each week during the year in return for an agreed number of additional days' paid annual leave;
- The operation of shifts at ordinary rates over weekends; and

Provided that, in establishments that operate a continuous-process system, an employee shall be deemed to have agreed to observe the shift system, if he accepts work at such an establishment.

(2) Enterprises operating five (5) days per week, which includes any form of rotation other than listed in 1(a) above must observe;

In any establishment working a two-shift or three-shift system, no employee may work at night time for more than 12 consecutive shifts and no employee may work more than one shift in any period of 24 hours except when a change in the rotation of shifts makes this necessary.
