That portion of land situates within the following boundaries:

The starting point is 1.6 km east of Worcester and 1 km before Overhex Cellar on the R60 road, where a drainage furrow crosses said road from a northern direction. The boundary stretches along this road in an east-southeastern direction to right against the existing boundary of the Nuy WO Ward. From there it moves further along the said ward boundary in a generally north-eastern direction until it reaches the farm Patryskloof RE/341. From there, generally north and then generally westwards along the eastern and northern boundaries of farms RE/341, 1/341, 4/341 and 6/341, until where the last-mentioned farm crosses the 380 m contour line. From this point the boundary moves in a western direction and then generally north-westwards and finally north-eastwards along said contour to where it crosses the existing Hex River Valley WO Ward. Then westwards along a part of the southern boundary of this ward, to where this boundary again crosses the 380 m contour line. It then moves generally south-westwards, then generally south and finally south-westwards again to where it crosses the eastern boundary of the farm 4/308. From there generally south-eastwards along the north-eastern and western boundaries of farms 5/308, 6/308, 8/308 and RE/308, then over the N1, 12/310 (Uitvlugt), 310, 12/310, 3/321 and finally southwards along the drainage furrow of Voorregvlei Dam until right against the R60, the starting point mentioned above.
