<b>GENERAL DENTAL PRACTITIONERS</b>							
<b>(1). (M/W)</b>	<b>PREAMBLE</b> The dental procedure codes for General Dental Practitioners are divided into twelve (12) categories of services. The procedures have been grouped according to the category with which the procedures are most frequently identified. The categories are created solely for convenience in using the schedule and should not be interpreted as excluding certain types of Oral Care Providers from performing or reporting such procedures. These categories are similar to that in the "Current Dental Terminology" Third Edition (CDT-3).						
<b>(2). (M/W)</b>	Procedures not described in the general practitioner's schedule should be reported by referring to the relevant specialist's schedule. Dentists in general practice shall be entitled to charge two-thirds of the fees of specialists only for treatment codes that are not listed in the schedule for Dentists in general practice. (See Rules 009 and 011).						
<b>(3). (M/W)</b>	Oral and maxillofacial surgery (Section J of the Schedule): The fee payable to a general practitioner assistant shall be calculated as 15% of the fee of the Practitioner performing the operation, with the indicated minimum (see Modifier 8007). The Compensation Fund must be informed beforehand that another Dentist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to The Compensation Fund.

	This procedure involves the <b>(1)</b> surgical re - exposure (uncovery or second stage surgery) of that portion of the submerged endosteal implant that receives the attachment device, and <b>(2)</b> the connection of a healing abutment or temporary prosthesis. This is usually done after the implant has matured in the bone for several months. The purpose of a healing abutment or collar is to create an emergence profile in the gum tissues for the future implant crown. Some implants are designed to remain exposed in the mouth right after they are placed, abolishing an uncovery procedure. See tariff code 9189 to submit the cost of other implant components.
