## NOTICE 2508 OF 2024

## INTERNATIONAL TRADE ADMINISTRATION COMMISSION

CUSTOMS TARIFF APPLICATIONSLIST 03/2024

The International Trade Administration Commission (herein after referred to as ITAC or the Commission) has received the following applications concerning the Customs Tariff. Any objection to or comment on these representations should be submitted to the Chief Commissioner, ITAC, Private Bag X753, Pretoria, 0001. Attention is drawn to the fact that the rate of duty mentioned in these applications is that requested by the applicant and that the Commission may, depending on its findings, recommend a lower or higher rate of duty.

**CONFIDENTIAL INFORMATION**

*The submission of confidential information to the Commission in connection with customs tariff applications is governed by section 3 of the Tariff Investigations Regulations, which regulations can be found on ITAC's website at <http://www.itac.org.za/documents/R.397.pdf>.*

*These regulations require that if any information is considered to be confidential, then a non-confidential version of the information must be submitted, simultaneously with the confidential version. In submitting a non-confidential version the regulations are strictly applicable and require parties to indicate:*

- ❑ Each instance where confidential information has been omitted and the reasons for confidentiality;*
- ❑ A summary of the confidential information which permits other interested parties a reasonable understanding of the substance of the confidential information; and*
- ❑ In exceptional cases, where information is not susceptible to summary, reasons must be submitted to this effect.*

*This rule applies to all parties and to all correspondence with and submissions to the Commission, which unless clearly indicated to be confidential, will be made available to other interested parties.*

*The Commission will disregard any information indicated to be confidential that is not accompanied by a proper non-confidential summary or the aforementioned reasons.*

*If a party considers that any document of another party, on which that party is submitting representations, does not comply with the above rules and that such deficiency affects that party's ability to make meaningful representations, the details of the deficiency and the reasons why that party's rights are so affected must be submitted to the commission in writing forthwith (and at the latest 14 days prior to the date on which that party's submission is due).*

*Failure to do so timeously will seriously hamper the proper administration of the investigation, and such party will not be able to subsequently claim an inability to make meaningful representations on the basis of the failure of such other party to meet the requirements.*

**1. INCREASE IN THE GENERAL RATE OF CUSTOMS DUTY ON:**

*“Conical steel drums, of steel, of a capacity of 210 li or more but not exceeding 234 li, classifiable in tariff subheading 7310.10.90, from free of duty to the WTO bound rate of 15% ad valorem, by the deletion of tariff subheading 7310.10.10 that provides for conical steel drums of a capacity of 235 li or more and the creation of a new 8-digit tariff subheading for conical steel drums of a capacity of 210 li or more”.*

**REASONS FOR THE APPLICATION:**

As motivation for the application, the applicant cited, amongst others, the following reasons:

- In 2012, the company applied for, and was granted, an increase in duty from free of duty to 15% *ad valorem* for conical steel drums with a capacity of 235 li or more. The company has, however, come under increasing pressure from low priced imports of conical steel drums in the capacity range of 210 li to 234 li, resulting in a loss of business;
- If the loss of business on conical steel drums continues, it will have an extremely negative effect across all products supplied; and
- Although the company is aware that the requested 15% duty will not fully address the existing price differentials, it is a good start to addressing the existing challenge.

**PUBLICATION PERIOD:**

Representations should be made within **four (4) weeks** of the date of this notice.

**2. CREATION OF A REBATE FACILITY ON:**

**AS MOTIVATION FOR THE APPLICATION, THE APPLICANT SUBMITTED,  
INTER ALIA, THAT:**

Unilever South Africa faces challenges due to rising costs, inflation, and competition from cheaper imports. Furthermore, the company is altering its formulation for producing soap bars to support its strategy of sourcing sustainable materials to prevent harm to people and plants. This formulation utilizes palm oil, which currently attracts a 10% duty. A rebate on the duty on imported palm oil is therefore necessary to maintain local manufacturing and competitiveness in the domestic market. While alternatives like sunflower and soybean oils exist, they require additional processing, increasing costs and making them less competitive compared to palm oil.
