

DEPARTMENT OF PUBLIC WORKS AND INFRASTRUCTURE

NO. 4877

24 May 2024

AGRÉMENT SOUTH AFRICA

(Approval of innovative construction products and systems)

Notice is hereby given that Agrément South Africa has, with effect from 29 July 2021, issued an Agrément certificate, details of which appear in the schedule hereto.

SCHEDULE

Agrément Certificate 2021/623

Subject: Lbbilt Building System

Certificate holder: Lambuilt (Pty) Ltd

Description: Lambuilt Building System is constructed from precast monolithic blocks comprising various dimensions. The blocks are stacked and locked using mild steel angle irons between precast reinforced concrete columns (100 mm × 100 mm) in a section, effectively forming reinforced walls.

The concrete blocks are available in the following dimensions:

- ☐ Regular blocks – 880 mm wide × 100 mm thick × 415 mm high
- ☐ Half blocks - 880 mm wide × 100 mm thick × 207 mm high
- ☐ Tapered blocks - 880 mm wide × 100 mm thick, tapered length from 207 mm to 415 mm
- ☐ Ridge blocks - 880 mm wide × 100 mm thick, side heights 207 mm and centre height of 415 mm.

The columns are available in the following dimensions:

- ☐ Long column – 100 mm wide × 100 mm thick × 3 112 mm high
- ☐ Short column - 100 mm wide × 100 mm thick × 2 490 mm high.

Foundations are conventional and should always be the responsibility of a competent person.

The doors and windows are conventional or Agrément approved.

The roof has beams that go across into the gable walls.

All services of the Lambuilt Building System are conventional and are surface mounted.

The Agrément certificate contains detailed information on the system and can be accessed at <http://www.agrement.co.za>

Copies are obtainable from: Chief Executive Officer (CEO)
