3. FOREWORD BY THE MINISTER

In the year under review, the Department made significant strides towards the realisation of the Medium-Term Strategic Framework (MTSF) targets and the annual targets in the 2023/24 Annual Performance Plan (APP). This Annual Report gives a detailed account on legislative and policy improvements that enable programmes for the transport sector.

The formulation of the Private Sector Participation (PSP) Framework and its approval by Cabinet in the 2023/2024 financial year is important in completing the picture of the ongoing reforms in transport governance and will allow third party participation in the rail sector, while maintaining public ownership of the infrastructure.

Commuter rail remains the most affordable mode of public transport compared to all other modes. The recovery of these services has never been more urgent for the poorest of the poor considering the rising transport costs driven by high fuel costs. Rehabilitating corridors for recovery encompass major civil works that include laying out the track, overhead traction electrical equipment, signalling, amongst others.

In the reporting period the Passenger Rail Agency South Africa (PRASA) has accelerated implementation of its Rolling Stock Fleet Renewal Programme to deliver modern quality commuter rail service while revitalising South Africa's rail engineering industry through local manufacturing, employment creation and skills development and ensuring the recovery of the rail corridors in order to enable commuters to use them.

Our national road network that South African National Road Agency Limited (SANRAL) is responsible for, plays a critical role as a primary network in enabling economic activity, linking the economic hubs of our provinces with regional and international markets.

The provincial and municipal road networks are under immense pressure and call for improvements on the overall of quality of these roads, with large portions falling under the poor to very poor category. The proliferation of potholes reflects the urgent need to invest in the maintenance of these roads and address the backlog thereof. During the year under review, the Department implemented additional work on the national pothole initiative termed Operation Vala Zonke launched in 2022, which is aimed at road refurbishment, maintenance and fixing potholes in South Africa.

During the year under review, the Department continued with its collaboration with the Department of Public Works and Infrastructure (DPWI), to implement the Welisizwe Rural Bridges Programme. The programme aims to provide safe access to social amenities and further responding to potential disaster areas and emergency disaster situations by constructing modular steel bridges and simultaneously creating highly needed jobs and growing construction industries.

During the 2023/24 financial year, the draft National Airports Development Plan (NADP) was updated.

During the 2022/23 financial year, the Department undertook to pilot the implementation of an integrated single ticketing system utilising the SANRAL Transaction Clearing House (TCH). A pilot phase for the roll-out of the Integrated Single Ticketing System is being undertaken in Rustenburg and Polokwane local

municipalities.

My sincere gratitude is extended to my predecessor, former Minister Sindisiwe Chikunga, for her role in addressing the intractable challenges that the transport sector is facing. I equally acknowledge the role of the former Deputy Minister, Mr. Lisa Mangcu, Director General, Adv. James Mlawu, the Boards of our sector State-Owned Entities (SOEs), and employees of the Department who continue to put shoulder to the wheel in pursuit of our service delivery objectives to contribute to the greater vision of building a better life for all a lived reality for our people. The task ahead of accelerating service delivery and sustaining the momentum of our efforts is immense and requires us to continue to work as a team towards the attainment of common sector

goals and achieving the broader transport mandate.

I would like to express my gratitude to the Chairpersons and Members of the Portfolio Committee on Transport (PCoT) and the National Council of Provinces (NCoP) Select Committee on Transport, Public Service and Administration, Public Works and Infrastructure, for their continued support and oversight role. I would further like to express my gratitude to the entire transport sector and its different industries and also thank our private sector partners for their commitment and willingness to work with us to deliver a transport

system that is responsive to the needs of our people.

Ms. B.D. Creecy, MP

Minister of Transport

Date: 18 September 2024

4. DEPUTY MINISTER STATEMENT

As we approach the last year of implementation of the Medium-Term Strategic Framework (MTSF) 2019 – 2024, the Department made strides in its initiatives that were begun at the beginning of the MTSF period. We welcome the work that has been done by colleagues and commend their diligence and commitment. A transport sector that works is crucial for South Africans, we are aware of the pivotal role transport plays in all our lives, from cradle to grave.

South Africa has the second most satisfactory transportation system in Africa, we can all be proud of our role in achieving this ranking, it should also serve as a reminder for us to remain dedicated and innovative as the transport sector grows and develops. We are a department operating with the cognizance that time and technology are big drivers of change, we need to adapt and have a transport sector that can facilitate modern 21st-century demands.

The demands of consumers are not solely focused on one mode of transport; they vary across cities, provinces, and even country to country. South Africans require our department and our entities to perform at their best with the ultimate goal that passengers, goods and services arrive safely and on time at all stops and destinations.

As a developing country, we must have a transport sector that helps build our economy, support livelihoods, and create space for social mobility and cohesion. The importance, therefore, of functionality and efficiency in the transport sector is central if we are to fully realise the priorities of the 7th Administration, namely inclusive growth and job creation, reducing poverty and tackling the high cost of living, and building a capable state.

Public Transport Regulation

In the 2023/24 financial year, the National Land Transport Amendment (NLTA) Act was submitted to the President for assent. This Amendment Act aimed to amend the National Land Transport Act of 2009 by adding new definitions and altering existing ones, providing for non-motorised and accessible transport, and updating the Act to reflect developments since its implementation. The Amendment Act also grants provinces certain powers to enter into contracts for public transport services, expanding the Minister's authority to establish regulations and implement safety measures, and outlining criteria and requirements for municipalities to engage in contracts for public transport services. This Act also paves the way for e-hailing services operators to apply for operating licences like any other public transport operator during the 2023/24 financial year. The convenience afforded by e-hailing services for consumers goes hand in hand with safety and amiable transport sector.

Among its outcomes the Department has intentions to deliver improved transport safety and security and has committed centrally to drastically reduce incidents of road crashes and resultant fatalities, which are a major

drain on the country's productive population and a source of serious financial loss. It is encouraging that through the department the annual monitoring report on the implementation of the National Road Safety Strategy (NRSS) was developed as targeted.

Also important to highlight from the report regarding road safety is that the DoT, in partnership with the Department of Planning, Monitoring and Evaluation (DPME), have commissioned an implementation evaluation of the NRSS, primarily to improve efficiencies in the coordination of the strategy.

On the other hand, it will be important that the Administrative Adjudication of Road Traffic Offences (AARTO) Act is rolled out as amended once all hurdles towards roll out have been navigated. The department is already on Phase 1 of the roll out and will roll Phase 2 on the 1 November 2024 covering sixty-nine (69) metros and municipal areas, while Phase 3 covering one hundred and forty-four (144) of the targeted municipal areas from 1 February 2024 and the final Phase 4 which will cover all two hundred and eighteen (218) municipal areas will roll out the Point Demerit System and the Rehabilitation Programme from the 1 September 2025. These are important steps in the department's fight against the scourge of fatalities characterising our road network taking away precious lives.

Economic Regulation

During the 2023/24 financial year, the Economic Regulation of Transport (ERT) Bill was sent to the President for assent into law. The DoT finalised the Economic Regulation of Transport (ERT) Bill, which will affect the establishment of a Transport Economic Regulator (TER). The Act aims to address regulatory and capacity gaps that relate to South Africa's need for an efficient and cost-effective transport system. It will also ensure that we can raise economic growth and importantly meet our social goals.

Maritime

During the 2023/24 financial year, the National Ports Amendment Bill was finalised. The Bill will deliver the required amendment to the present act to enable port development and improved institutional arrangements taking into account changes in policy. It will also consider the impact of the Single Transport Regulator and provide for just transition actions. The Bill is targeted for submission to Cabinet in the 2024/25 financial year.

It is notable that the department has updated the Merchant Shipping Act of 1951. The Bill was developed as a complete overhaul of the 1951 Act and seeks to domesticate international agreements of the International Maritime Organization (IMO) and those of the International Labour Organization (ILO) that South Africa has ratified. The Bill will further update current shipping legislation to be in line with the Comprehensive Maritime Transport Policy (CMTP) in such areas as ship registration, coastal shipping and shipping revitalization measures. The Bill has been revived by the Seventh Parliament of the Republic of South Africa and hopefully

will be progressed by the Portfolio Committee on Transport (PCoT) throughout the current and subsequent financial years with the target completion financial year 2026/27.

We can only succeed through hard work and team work.

Mr. Mkhuleko Hlengwa, MP

Deputy Minister of Transport

Date: 03 September 2024

5. REPORT OF THE ACCOUNTING OFFICER

5.1 Overview of the operations of the department:

5.1.1 Notable progress was achieved on a number of deliverables for the 2023/24 financial year. The Department achieved 87% of its targets set for the 2023/24 financial year. Key achievement highlights per programme include the following:

Programme 1: Administration

The Department filled ninety-two (92) vacant positions against a target of ninety (90) during the financial year, however, addressing the vacancy rate was limited by the cost containment measures issued by the National Treasury.

In the pursuit of skills development in the department, the implementation of the Transport Skills Programme saw 63,6% of employees trained, which was 33,6% higher than the planned target. Furthermore, 382 training interventions were coordinated and executed, resulting in 432 out of the 679 total workforce being trained in alignment with the APP and Workplace Skills Plan (WSP) targets. The Department also managed 205 bursaries which also contribute to upskilling and increasing the pool of skills needed in the sector and the department.

The Department also worked hand-in-hand with selected South African tertiary institutions to provide transport related skills and knowledge to prospective learners. The Department monitored the Sector Skills Development Plan and opportunities in various transport sub-sector in order to facilitate and ensure the creation of a much-needed skills base for the sector.

To improve financial management, the Department targeted to eliminate wasteful and fruitless expenditure. There were no new cases of irregular and unauthorized expenditure reported, which resulted in a 100% reduction.

Programme 2: Integrated Transport Planning

To implement the Green Transport Strategy (GTS), the Department hosted public awareness campaigns on the Framework for Electric Vehicles (EVs) in all provinces, highlighting the importance of transitioning to sustainable transportation. This is part of the Department's efforts to contribute towards the reduction of carbon emissions in the country as well as lowering the impacts of climate change within the transport sector.

Concurrently, significant progress was made in establishing the Single Transport Economic Regulator (STER). The National Council of Provinces (NCoP) report on amendments to the Economic Regulation

of Transport Bill was introduced to the Portfolio Committee on Transport (PCoT) for consideration, which subsequently recommended that the Bill be submitted to the President for assent.

In addition, Section 4(11) of the Economic Regulation of Transport Bill, which reports on the performance and capabilities (incorporation of entities and functions) was concluded. Regulations for the Transport Economic Regulator (TER) Act were developed and submitted to Legal Services for vetting and further transmission to the Office of the State Law Advisor for certification.

The final draft of the Freight Road to Rail Migration Plan (FRRMP) was also developed, underscoring the strategic importance of improving freight transport efficiency.

Programme 3: Rail Transport

Various programmes implemented by the Passenger Rail Agency of South Africa (PRASA) were closely monitored to ensure the much-needed turnaround of the Agency and the improve of passenger rail services. This includes the PRASA Infrastructure Programme, Rolling Stock Fleet Renewal Programme, General Overhaul programme, Station Modernisation programme and the Rail Corridor Recovery Programme. These programmes, when efficiently and fully implemented will see passenger rail restored to play is role in the transport system. These programmes are crucial for ensuring accountability, measuring progress, and guiding future improvements in rail infrastructure and safety.

Cabinet granted approval for the Private-Sector Participation (PSP) Framework which seeks to lay a foundation to create and encourage private sector participation in the rail sector as espoused in the Rail Policy. The Department also finalised the PSP Implementation Plan which is a roadmap that facilitates the participation of the private sector in rail.

The Cabinet also approved the High-Speed Rail (HSR) Corridor Framework during this financial year. The HSR Framework will provide the foundation for the prioritisation of HSR corridors in the country, to ensure the effective and efficient implementation of the HSR construction and operation in relevant corridors.

Programme 4: Road Transport

In keeping with its oversight role, the Department closely monitored the implementation of the National Road Safety Strategy (NRSS) for improved road safety, the Welisizwe Rural Bridges Programme, the SANRAL Road Maintenance Programme, the Provincial Road Maintenance Programme, and the National Pothole Repair Programme for the provision of world class roads in the country. The successful completion of infrastructure and maintenance programs in provinces and transport entities, clearly shows the Department's commitment to effective project oversight throughout the country.

By tracking progress of these projects and programmes, the Department not only ensures effective use of resources but also supports economic growth and social development by improving transport networks, creating jobs, and addressing flood damage. This proactive approach contributes to long-term infrastructure sustainability and regional development.

The Department also monitored the road inventory data of the provincial and municipal Road Asset Management System (RAMS). This highlights our dedication to monitoring and enhancing the impact and efficiency of these critical initiatives.

Furthermore, the Department continues to participate in relevant structures and bodies that are leading the rehabilitation of flood-damaged infrastructure in all provinces that were affected by the floods from 2021, thus ensuring that the country's roads are of optimal standard.

Programme 5: Civil Aviation

A National Airports Development Plan (NADP) was developed to guide present and future airport developments; the development of individual airports integrated within their broader spatial and transport contexts; and to facilitate and promote development of Aerotropolis and Airport Cities. During the current financial year, an updated draft National Airports Development Plan was developed to advance the strategic goals in airport infrastructure and aviation safety.

Furthermore, to improve safety in the aviation space, the implementation of the Aviation Safety Strategy was also monitored.

During the period under review, the draft National Civil Aviation Policy was also developed. It will be presented to the Cabinet in the next financial year.

Programme 6: Maritime Transport

The National Ports Amendment Bill was developed, highlighting the Department's commitment to enhancing port management and governance. In addition, the Memorandum of Understanding (MOU) between the Department of Transport (DoT) and the Development of Public Service and Administration (DBSA) regarding the business case for the National Shipping Company was signed during the current financial year.

Moreover, the corporatization of the Transnet National Ports Authority (TNPA) in line with the National Ports Act (2005) is being closely monitored, with attempts to fast track the process as much as possible. The Board has been appointed and inaugural Board of the TNPA was announced on 10 October 2023, effective from 01 October 2023 to 30 September 2026. The Board is still subject to an annual performance review.

The Department has been and continues to focus on the following critical areas:

- a) Investment unlocked in new and existing port infrastructure,
- b) Job creation through Maritime Transport Manufacturing Initiatives,
- c) The localisation of the Maritime Transport Manufacturing (MTM) supply chain, and
- d) The vessels registered on the South African Ship Register.

Adequately intervening and developing these areas will the maritime sector thriving and playing its role in the global imports and exports, thus significantly contributing to the economy of this country.

To ensure improved maritime safety and environmental protection, the Department closely monitored maritime safety accidents and incidents, as well as the maritime pollution rate. The low incident and accident rates signify the effective implementation of initiatives aimed at enhancing maritime safety and reducing pollution, demonstrating dedication to both safety and environmental stewardship in the maritime sector.

Programme 7: Public Transport

Ten cities were assisted in planning and operating the Integrated Public Transport Network (IPTNs). The re-admission of three cities' readiness into the IPTN programme was also assessed. Msunduzi municipality has been partially admitted to the Public Transport Network Grant (PTNG) under strict milestones, wherein the final decision on the full readmission will be taken at the end of 2025/26.

The Public Transport Subsidy Policy was submitted to Cabinet as planned and published for public comments. The Department also finalised the Regulations for e-hailing operations, which paves the way for e-hailing services operators to apply for operating licences like any other public transport operator.

The Department managed to scrap 100% of submitted and qualifying old taxi vehicles in line with the Revised Taxi Recapitalisation Programme (RTRP). The taxi scrapping component of the RTRP has an additional focus of economic empowerment and sustainability in accelerating the transformation of the minibus taxi industry. This further emphasizes efforts to enhance safety and environmental sustainability.

In keeping with the Taxi Lekgotla Resolutions, the Taxi Industry Empowerment Model and Taxi Industry Formalisation Framework were also finalised during the current financial year. These are significant milestones, underscoring a commitment to modernizing and regulating the taxi industry.

Additionally, the Department monitors the implementation of the National Strategic Plan (NSP) to end Gender Based Violence and Femicide (GBVF), which monitors initiatives addressing GBVF in public transport, reflects a comprehensive approach to improving public transport efficiency and safety, while also promoting inclusivity and gender equity within the sector. These achievements are crucial for fostering a more reliable, safe, and inclusive public transport environment.

5.1.2 During the period under review, the Department experienced challenges in achieving its set deliverables. The most notable challenges are mentioned as follows:

5.1.2.1 Audit cycle 2022/23

During the 2022/23 audit cycle, the Auditor-General of South Africa (AGSA) reviewed the annual report and raised audit findings, which were discussed at the Department's Audit Steering Committee, Executive Committee and Audit Committee meetings. There were findings raised that the Department agreed to and corrected on the report, however, there were contentious areas of disagreement between the AGSA and the Department that were difficult to resolve.

This led to vigorous and continuous engagements between the Department and AGSA which ultimately led to an escalation to an arbiter to resolve the dispute. The lengthy dispute resolution process led to a delay in finalising the audit process which was ultimately concluded in November 2023. This had a significant impact on the timing of the Amendment of the APP 2023/24. The inconsistency findings on performance information needed to be corrected in the current APP to avoid repeat findings, as such the APP 2023/24 was amended in the fourth quarter. The amendment done on the APP saw a clean audit for the Amended APP, although there were findings on performance information for targets in the original tabled APP 2023/24.

5.1.2.2 Department of Planning, Monitoring and Evaluation (DPME) APP assessment feedback

In September 2023, the Department received a feedback assessment letter on the tabled APP for the 2023/24 financial year. The assessment indicated the need for the Department to align the Minister's Priorities for the 2023/24 financial year with the APP. The Department was also requested to include outputs, output indicators and targets that aligned with the Ministerial Priorities. The DPME also indicated that all indicators and targets reflected in the Minister's Performance Agreement must be included in the APP 2023/24 verbatim.

These findings then led the Department to undertake a process of amending the APP for the 2023/24 financial year as the AGSA recommendations affected almost the entire APP. The Department's adopted a planning logic for the amendment process of the APP wherein, in order to address the consistency factor, relevant indicators and targets would be amended to reflect the monitoring aspect of the Department's activities; and to address the verifiability and reliability factors, secondary information would no longer be reported in the performance information section of the Department's reports, but will now be reflected in the consolidated indicators section where appropriate.

5.1.2.3 Other challenges faced by the Department are as follows:

In September 2023, the Department of Public Service and Administration (DPSA) issued a circular on cost containment measures in place on the filling of vacancies. This limits the Department's ability to fill vacancies. As at 31 March 2024, the vacancy rate of the Department was 15.01% on funded posts.

The Department recorded an 85% achievement against a target of 100% on the reduction of fruitless and wasteful expenditure during the period under review. This was due to the non-compliance with prescripts and policies. The Department is reviewing the Loss Control Policy and will strengthen internal control measures by raising awareness through circulars.

Furthermore, the Department recorded an 87% achievement against a target of 100% on compliance to the 30-day payment of valid invoices during the period under review. This was due to operational constraints and unforeseen challenges, including invoice disputes, which led to a departure from the Department's practice of promptly settling valid invoices within the stipulated 30-day timeframe.

The establishment of the Transport Economic Regulator (TER) was not established as targeted during the period under review. The establishment of the TER is dependent of the Bill being assented into law by the President. The Bill was introduced to the National Council of Provinces (NCoP) for consideration and the process was lengthy, however it was eventually agreed to in February 2024. The Bill was subsequently sent to the President for assent. The delay in the enactment of the TER was detrimental to the programme's performance, as there were a number of targets that hinged on that enactment.

The National Rail Bill was not approved for submission to Cabinet as targeted during the period under review. This was due to the approval of the Freight Logistics Roadmap, which meant that the National Rail Bill needed to be revised to include a chapter dedicated to the establishment of Rail Infrastructure Manager (RIM).

Upon finalisation, the draft National Rail Bill will be re-submitted for legal vetting, Socio-Economic Impact Assessment (SEIAs) certification and Economic Sectors, Economic Sectors, Investment, Employment and Infrastructure Development (ESIEID) Cluster and Cabinet for approval and public consultation.

The Road Infrastructure Funding Policy was not approved for submission as targeted. The policy was submitted to the National Treasury for input. There was a delay in receiving the pre-requisite input for the policy document to proceed to ESIED Cluster and Cabinet.

The Aviation Safety Investigation (ASIB) Board was not established as targeted. The establishment of

the ASIB must coincide with the promulgation of the Civil Aviation Amendment Act. The ASIB will be established once the Act is promulgated.

The Maritime Development Fund Bill was not approved for submission to Cabinet. Cabinet recommended that the Department also consults the National Treasury on the Bill. The consultation with the National Treasury will be prioritised in the 2024/25 financial year.

5.2 Overview of the financial results of the Department:

5.2.1 Departmental receipts

The table below reflects the departmental receipts for the period under review:

		2023/24		2022/23			
Departmental receipts	Estimate	Actual Amount collected	Over/(under) collection	Estimate	Actual Amount collected	Over/(under) collection	
	R'000	R'000	R'000	R'000	R'000	R'000	
Sale of goods and services other than capital assets	805	1 165	360	1 733	988	(745)	
Fines, penalties and forfeits	-	_	0	1		0	
Interest, dividends and rent on land	60	329	269	130	515	385	
Financial transactions in assets and liabilities	450	1 728	1 278	790	202 760	201 970	
Total	1 315	3 222	1 907	2 653	204 263	201 610	

The Department does not charge tariffs for goods sold and/or services rendered and does not render free services.

An amount of R200,324 million was received as a surplus that accrued during 2012 to 2019 on the RT58 contract for the insurance of subsidized vehicles fund allocated under the financial transactions in assets and liabilities.

5.2.1.1 Programme Expenditure

The table below reflects the programme expenditure for the period under review:

Programme		2023/24			2022/23			
	Final Appropriation	Actual expenditure	(Over) / Under expendit ure	Final Appropriation	Actual expenditure	(Over) / Under expenditure		
	R'000	R'000	R'000	R'000	R'000	R'000		
Administrati on	550 129	538 189	11 940	517 759	473 088	44 671		
Integrated Transport Planning	98 343	98 343	_	93 003	78 521	14 482		
Rail Transport	20 591 355	20 582 677	8 678	20 012 447	19 971 590	40 857		
Road Transport	42 047 327	41 964 119	83 208	59 954 457	59 735 778	218 679		
Civil Aviation	317 491	305 436	12 055	424 753	413 982	10 771		
Maritime Transport	263 638	184 623	79 015	158 185	147 323	10 862		
Public Transport	14 414 164	14 286 082	128 082	13 973 633	13 722 929	250 704		
Direct charge	12 564	7 576	4 988	12 034	1 542	10 492		
Total	78 295 011	77 967 045	327 966	95 146 271	94 544 753	601 518		

The Department had a total budget of R78.295 billion and the total expenditure amounted to R77.967 billion. This equates to 99.6% expenditure.

Programme 01: Administration

- a) The programme underspent by R11.9 million on compensations of employees and transfers and subsidies. Compensation of employees was due to posts that could not be filled as a result of frozen posts following the Department of Public Service and Administration (DPSA) circular 49 of 2023, including resignations and delays in filling of other vacant funded posts.
- b) Transfers and subsidies as a result of bursaries to non-employees due to lower intake of students in universities.
- c) A total amount of R22,8 million was reprioritized in this programme from goods and services in other programmes to augment the overspending on office accommodation, software licenses, and communication services as well as to fund payment for capital assets due to invoices not paid from the previous financial year relating to the procurement of bulk desktop and laptop purchases and x-ray machines for security services and departmental servers.

d) Funds were also shifted from compensation of employees in this programme to augment personnel expenditure in other programmes.

Programme 02: Integrated Transport Planning

The programme overspent on compensation of employees and goods and services. A total amount of R7.3 million was reprioritised to this programme in order to cater for the shortfall under compensation of employees and on goods and services due to payments made for the Black Economic Empowerment (BEE) charter council project as well as invoices from the 2022/23 financial year pertaining to the South African National Women in Transport (SANWIT) women empowerment project which was paid in the 2023/24 financial year.

Programme 03: Rail Transport

- a) The programme underspent by R8.7 million on compensation of employees and goods and services. Compensation of employees was due to posts that could not be filled as a result of frozen posts following the Department of Public Service and Administration (DPSA) circular 49 of 2023, including resignations as well as delays in filling of other vacant funded posts.
- b) Goods and services underspent due to the establishment of the rail economic regulator which has been put on hold. In total an amount of R1,6 million was shifted from goods and services in this programme to defray excess expenditure in other programmes.

Programme 04: Road Transport

- a) The programme underspent by R83.2 million on goods and services, transfers and subsidies and machinery and equipment. Goods and services were due to earmarked funds allocated for the central data repository for roads.
- b) Transfers and subsidies were as a result of the outstanding transfer payment to the Road Traffic Infringement Agency (RTIA) for the Administrative Adjudication of Road Traffic Offences (AARTO) roll-out as the bill still needed to be proclaimed and the process for the appointment of the tribunal had to be restarted which resulted in the postponement of the rollout. Roll-over for the unspent funds on the RTIA AARTO roll-out has been requested.
- c) The programme also underspent on machinery and equipment due to delayed invoices from service providers for procurement of office furniture and laptops.

Programme 05: Civil Aviation

- a) The programme underspent on goods and services and transfers and subsidies by a total amount of R12 million. Goods and services underspent as a result of non-spending on a number of projects which have been deferred to the 2024/25 financial year such as the Single African Air Transport Market Pilot Implementation Project (SAATM-PIP) and the development of regulations permission for ACSA and ATNS. Further contributing to the underspending is the Marine Rescue Coordination Centre invoice which was captured in March 2024 but the expenditure reflected in the month of April of the 2024/25 financial year. A roll-over has been requested for the Marine Rescue Coordination Centre.
- b) Transfers and subsidies were due to less funds paid to international organisations for membership fees as per the agreements with the member states.

Programme 06: Maritime Transport

- a) The programme underspent by a total of R79 million mainly on the compensation of employees, goods and services, and transfers and subsidies. Compensation of employees was due to posts that could not be filled as a result of frozen posts following the Department of Public Service and Administration (DPSA) circular 49 of 2023, including resignations as well as delays in filling of other vacant funded posts.
- b) Goods and services due to the PPP for tug boat unitary payment whereby a new feasibility study had to be undertaken before the building of the tug boat therefore the project had to be put on hold, the PPP tug boat transaction advisor to undertake the new feasibility study for the boat building. A rollover for the PPP tug boat transaction advisor for the new feasibility study has been requested. Transfers and subsidies were due to less funds paid to the international organisations for membership fees. It should be noted that these fees were paid as per the agreements.

Programme 07: Public Transport

- a) In total, the programme underspent by R128 million on compensation of employees, goods and services and transfers and subsidies. Compensation of employees was due to posts that could not be filled as a result of frozen posts following the Department of Public Service and Administration (DPSA) circular 49 of 2023, including resignations as well as delays in filling of other vacant funded posts.
- b) Goods and services were due to a number of projects which has been deferred to the 2024/25 financial year, key amongst them is the panel of expect for the capacity on public transport grant

monitoring which is expected to incur expenditure in the 2024/25 financial year as the service provider has been appointed.

- c) Transfers and subsidies due to funds for taxi scrapping allowances which were earmarked for taxi empowerment projects. A submission was written to National Treasury (NT) for the creation of a line item for the taxi empowerment projects and the Department is still engaging National Treasury to finalise the creation of the line item. A roll over has been requested for the Taxi Empowerment projects for the money that was earmarked from the taxi scrapping allowances.
- d) An amount of R28.6 million was shifted from goods and services in this programme in order cover the shortfall realised in other programmes.
- e) Direct Charge against the National Revenue Fund: Savings have been realised on the membership fees to the International Oil Pollution Compensation (IOPC) Fund. Payments were processed as agreed with the IOPC Fund governing bodies for the 2023/24 financial year.

5.2.1.2 Virements/roll overs

5.2.1.2.1 Virements

The table below reflects the Department's virements / roll overs:

Economic Classification	Adminis tration	Integrated Transport Planning	Rail Transport	Road Transport	Civil Aviation	Maritime Transport	Public Transport	Total
	R'000	R'000	R'000	R'000	R'000	R'000	R'000	R'000
Compensation of Employees	(409)	409	0	0	0	0	0	0
Goods and Services	10 800	6 564	(1 789)	(88)	(896)	(167)	(29 528)	(15 104)
Transfers and Subsidies	916	22	112	79	314	0	492	1 935
Payment for Capital Asset	10 832	312	91	0	481	111	440	12 267
Payments for Financial Assets	685	13	0	9	101	56	38	902
Total	22 824	7 320	(1 586)	0	0	0	(28 558)	0

The Department underspent on goods and services due to various projects across programmes as some projects were put on hold and were deferred to the coming financial year. Virements were applied as follows: R22.824 million was moved from Programme 7: Public Transport and to fund Programme 1: Administration, R5.734 million was moved from Programme 7: Public Transport and R1.586 million from Programme 3: Rail Transport to fund Programme 2: Integrated Transport Planning respectively.

Per economic classifications:

- a) R409 thousand was shifted from programme 1: Administration to Programme 2: Integrated Transport Planning to cover the shortfall on compensation of employees.
- b) A total of R15 104 million was shifted from goods and services as follows:
 - i. R1.9 million to defray expenditure incurred on households for leave gratuities;
 - R12.3 million was reprioritised to augment shortfall realised on payments for capital assets;
 and
 - iii. R902 thousands was reprioritised to cover over expenditure on payments for financial assets.

5.2.1.2.2 Roll overs

The table below details the rollovers that were requested:

Programme	R'000
Programme 4: Road Transport	
Transfers and Subsidies:	
Road Traffic Infringement Agency (RTIA) for the Administrative Adjudication of Road	
Traffic Offences (AARTO): The Bill rollout needed to be proclaimed and the process of	71 764
the appointment of the tribunal had to be restarted which resulted in the postponement	
of the rollout, it is expected to commence in the 2024/25 financial year.	
Programme 5: Civil Aviation	
Good and Services:	
South African Maritime Safety Authority (SAMSA) - Marine Rescue Coordination	
Centre (MRCC): Last invoice of the 2023/24 financial year was captured in March 2024	4 336
but the expenditure reflects in April 2024 in the 2024/25 financial year. Expenditure for	
the 2023/24 has been incurred in the 2024/25 financial year.	
Programme 6: Maritime Transport	
Good and Services:	
PPP Tug Building Transaction Advisor: Service provider for the project was only	
appointed in February 2024 and funds were committed and an order has been issued.	3 000
Funds allocated in the 2024/25 financial will not be sufficient to cover the contract	
amount.	
Programme 7: Public Transport	
Transfers and subsidies:	
Taxi scrapping allowances which was earmarked for Taxi Empowerment projects.	
Funds are requested to fund the approved implementation of the Revised Taxi	
Recapitalisation for the taxi empowerment projects from unspent taxi scrapping	81 386
allowances. A submission was written to National Treasury (NT) for the creation of a	
line item and the Department is still engaging National Treasury to finalise the creation	
of the line item.	
Total	160 486

5.1.2.2 Unauthorised, fruitless and wasteful and irregular expenditure

5.1.2.2.1 Unauthorised Expenditure

- a) No Unauthorised expenditure has been incurred for the period under review.
- b) The Department incurred unauthorised expenditure in 2013/14, 2014/15 and 2016/17 as a result of the Electronic National Traffic Information system (eNaTIS) maintenance and operations amounting to R1 338 165 000 as well as R980 375 that was incurred in 2018/19 as expenditure that was incurred but not in accordance with the vote of the programme: Road Transport. One case of Unauthorised Expenditure for an amount of R108 623.25 has been declared during the period under review for the Nelson Mandela Event that was held on the 18th of July 2022 and recognised in the 2022-2023 financial year.
- c) Unauthorised expenditure is condoned by Parliament and is coordinated by National Treasury. Unauthorised expenditure for an amount of R 1338 165 000 was presented to SCOPA on the 20th of September 2023. SCOPA resolved to engage further with the department before providing recommendations. The department engaged the National Treasury on the R980 375 unauthorised expenditure for further assessment of the expenditure.
- d) Cumulative expenditure to date amounts to R1,339,253,998 on unauthorised expenditure.

5.1.2.2.2 Irregular Expenditure

As at 31 March 2024, the total irregular expenditure amounted to R65 491 702,65 (with 19 cases). No new cases of irregular expenditure were reported and declared for the 2023-2024 financial year.

Progress to date:

- a) Eight (08) cases of irregular expenditure are currently at Labour Relations for processing disciplinary; of which five (05) cases have been transferred to Department of Higher Education to initiate disciplinary process.
- b) Nine (08) cases are with Internal Control and Compliance Unit to request for condonation with National Treasury;
- c) One (01) case is before the courts and the department is awaiting the court ruling on the matter; and
- d) Two (02) cases relating to non-compliance on local content regulations, are with Supply Chain Management to request removal.

The Department has put measures in place to prevent and/or detect irregular expenditure, through the departmental policies and National Treasury prescripts. The irregular expenditure committee also meets quarterly to discuss the cases.

5.1.2.2.3 Fruitless and Wasteful Expenditure

For the 2023-2024 financial year, twenty-six (26) cases of fruitless and wasteful expenditure were incurred amounting to R108 383.66. Fourteen (14) cases, to the value of R25 316.00 were referred to debt for recovery and six (06) cases amounting to R11 518.11 were written off. Cases of losses mainly due to no shows are reported to the Loss Control Committee (LCC) to consider and determine the liability. If found in contravention of the applicable prescripts, the cost is recovered from the official and if not, the cost is written-off.

5.2.3 Strategic focus over the short to medium term period

- a) Maintenance, upgrading and strategic expansion of transport infrastructure
- b) Corporatisation of the National Ports Authority
- c) Oceans Economy Masterplan
- d) Improved efficiency of port operations
- e) Disaggregation of beneficiaries of job creation into women, youth and persons with disabilities
- f) 60% ownership of the taxi scrapping entity by the taxi industry
- g) % reduction in sector emission of the greenhouse gases
- h) % of rail-friendly cargo/freight moved from road to rail
- i) Planning and operation of integrated public transport networks in ten (10) cities.
- j) Integrated electronic fare collection system
- k) Increased operating hours for public transport
- I) Compliance to Universal Access Designs
- m) Review of the public transport subsidy regime to incorporate the taxi industry
- n) Review of the public transport funding model
- o) Number of bicycles distributed
- p) Number of learners with access to scholar transport services
- q) % reduction of road crash accidents and fatalities
- r) % reduction of rail safety and security incidents
- s) % reduction of accidents and fatalities in General Aviation
- t) Reduction of maritime safety incidents and fatality rates
- u) Number of old taxi vehicles scrapped
- v) Elimination of incidences of GBVF in transport (public transport, maritime, aviation and rail)

5.2.4 Public-Private Partnerships

The department is also working towards the Public-Private Partnership for the permanent accommodation for the department of transport. On the 10th December 2020, the department wrote to National Treasury to request the registration for the office accommodation as the PPP. On the 05th January 2021, National Treasury approved the registration of the project. On the 03rd March 2021, the Accounting Officer approved the appointment of the project officer for the accommodation as per the requirement of the PPP regulations.

On 25 July 2023, Government Technical Advisory Centre (GTAC) confirmed that a request for proposal was issued through the appointed Panel, and the bid closed on Friday, 21 July 2023. The proposed bid evaluation dates will be communicated as soon as the procurement process has completed, and that the administrative compliance checks would be exhausted.

The Department has been requested to submit names of two (2) representatives to participate in the bid evaluation process for the procurement of Transaction Advisors. The following individuals have been nominated to be part of the Bid Evaluation Committee (BEC):

- a) Ms. Carmen Coetzee (Chief Director: Corporate Management)
- b) Mr. Azwidohwi Managa (Acting Chief Information Officer)
- c) Ms. Itumeleng Lehari (Director: Travel and Facilities Management-Observer)

6. Discontinued key activities / activities to be discontinued

None

7. New or proposed activities

None

8. Supply chain management

- a) No unsolicited bid proposals were concluded for the year under review.
- b) Supply Chain Management processes and systems are in place to prevent irregular expenditure. Irregular actions by individuals can however not be controlled.
- c) Measures that were put in place detected the incidents of irregular expenditure, and are aimed at preventing irregular expenditure.
- d) Measures that were put in place to prevent and/or detect irregular expenditure are as follows:
 - i. Where appropriate, cases of irregular expenditure are referred to the department's legal services to determine whether any official can be held liable for the irregular expenditure.
 - ii. Cases of irregular expenditure are referred to the department's Directorate: Investigations and

Forensics for investigation when an investigation is required.

- iii. Relevant managers are requested to take disciplinary steps against officials who make or permits irregular expenditure.
- iv. National Treasury is approached for condoning of irregular expenditure and is only approached once a legal opinion has been obtained where applicable, and disciplinary steps were considered.
- v. The Logis system monitors all payments against orders that are placed, and will detect payments that exceed the contract value.
- vi. The Logis system will detect any payments that are approved for processing for which no order was placed.
- vii. Payments for all procurements must be processed via Supply Chain Management so that any irregular procurement can be detected before payment.
- viii. To prevent the occurrence of not completing the internal order and requisition forms, the Supply Chain Management component does not make any approval documents or letters of acceptance available until the internal order and requisition forms are completed.

9. Gifts and Donations received in kind from non-related parties

None

9.1 Exemptions and deviations received from National Treasury

None

10. Events after the reporting date

No events after the reporting date.

11. Other

Compliance with Broad Based Black Economic Empowerment (B-BBEE)

For the 2022/23 financial year, BEE online was appointed for the department's B-BBEE verification. Completing the BEE online checklist was challenging, and incomplete information from the employees who were sampled for verification also contributed to the challenge. As a result, the B-BBEE certificate was issued with an overall B-BBEE status of level 8. Form: B-BBEE 1 and its accompanying documents were completed and sent to the B-BBEE Commission. The Directorate BEE has appointed a Senior Admin Officer responsible for BEE to help prepare the department to submit all the relevant information required for the B-BBEE verification of the department.

12. Acknowledgement/s or Appreciation

I would like to express my sincere gratitude to the former Minister of Transport, Ms. Sindisiwe Chikunga, and the Deputy Minister, Mr. Lisa Mangcu for their political leadership and guidance. I also extend my appreciation to the Chairperson and members of the Portfolio Committee and Select Committee on Transport for their expertise and oversight. Finally, I wish to thank Public Entities, Sector partners, the DoT management team and staff members for their hard work and dedication in ensuring that the transport sector delivers on its mandate.

13. Approval and sign-off

The Annual Financial Statements set out on pages 443 to 529 have been approved by the Accounting Officer.

Adv. James Mlawu
Accounting Officer
Department of Transport

Date: 28 August 2024

6. STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of my knowledge and belief, I confirm the following:

- a) All information and amounts disclosed throughout the annual report are consistent.
- b) The annual report is complete, accurate and is free from any omissions.
- c) The annual report has been prepared in accordance with the guidelines on the annual report as issued by National Treasury.
- d) The Annual Financial Statements (Part F) have been prepared in accordance with the modified cash standard and the relevant frameworks and guidelines issued by the National Treasury.
- e) The Accounting Officer is responsible for the preparation of the annual financial statements and for the judgements made in this information.
- f) The Accounting Officer is responsible for establishing and implementing a system of internal control that has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human resources information and the annual financial statements.
- g) The external auditors were engaged to express an independent opinion on the annual financial statements.
- h) In my opinion, the annual report fairly reflects the operations, the performance information, the human resources information and the financial affairs of the department for the financial year ended 31 March 2024.

Yours faithfully

Accounting Officer

Adv. James Mlawu

Date: 28 August 2024

7. STRATEGIC OVERVIEW

7.1. Vision

"Transport, the heartbeat of South Africa's economic growth and social development."

7.2. Mission

The Department of Transport aims to lead the development of efficient integrated transport systems by creating a framework of sustainable policies and regulations; and implementable models to support government strategies for socio-economic development.

7.3. Values

As the central custodian of the nation's transport resources, services and products, the Department of Transport acknowledges the obligation it has to the citizens of the Republic of South Africa; and will adopt the following core values to advance its commitment to achieve policy and legislative mandates as set out for the sector:

- a) Maintain fairness and equity in all our operations
- b) Strive for quality and affordable transport for all
- c) Stimulate innovation in the transport sector
- d) Ensure transparency, accountability and monitoring of all operations
- e) Ensure sustainability, financial affordability, accessibility as well as upholding of the Batho Pele principles.

8. LEGISLATIVE AND OTHER MANDATES

LEGISLATION	PURPOSE
Railways and Ports	
South African Transport Services Conditions and	To provide for certain matters relating to the conditions of service of employees of the South
Service Act,1988 (Act 41 of 1988)	African Transport Services.
Legal Succession to the South African Transport	To make provision for the formation of a company, for the legal succession to the South African
Services Act, 1989 (Act 9 of 1989)	Transport Services by the Company, for the establishment of the South African Rail Commuter
	Corporation Limited.
National Railway Safety Regulator Act, 2002 (Act	To provide for safety standards and regulatory practices for the protection of persons, property
16 of 2002)	and the environment.
National Ports Act, 2005 (Act 12 of 2005)	To provide for the establishment of the National Ports Authority and the Ports Regulator; to
	provide for the administration of certain ports by the National Ports Authority.
Roads	
Advertising on Roads and Ribbon Development	To regulate the display of advertisements outside certain urban areas at places visible from public
Act, 1940 (Act 21 of 1940)	roads, and the depositing of disused machinery or refuse and the erection of structures near
	certain public roads.
Administrative Adjudication of Road Offences	To promote road traffic quality by providing for a scheme to discourage road traffic contraventions,
Act, 1998	to administratively deal with the adjudication of road traffic violations and implement a points
	demerit system.
National Roads Act. 1972 (Act 09 of 1972)	To regulate the display of advertisements outside certain urban areas at places visible from public
	roads, and the depositing or leaving of disused machinery or refuse and the erection, construction
	or laying of structures and other things near certain public roads, and the access to certain land from such roads.
National Bood Traffic Act (Act 02 of 1006)	
National Road Traffic Act (Act 93 of 1996)	To regulate and provide for road traffic matters which shall apply uniformly throughout the Republic.
National Road Safety Act, 1972 (Act 9 of 1972).	To promote road safety, for that purpose, to establish a national road safety council and a central
National Road Salety Act, 1972 (Act 9 of 1972).	road safety fund.
South African Roads Board Act, 1988 (Act 74 of	To establish a South African Roads Board and a Toll Roads Committee and determine the
1988)	functions of that board and of that committee.
Transport Deregulation Act, 1988 (Act 80 of 1988)	Transport Deregulation Act, 1988 (Act 80 of 1988) - to repeal the Transport (Co-ordination) Act,
11	1948; and to provide for the continued existence of, and the continuation of certain functions the
	National Transport Commission; for the transfer of certain powers, functions and duties of the
	The state of the s

LEGISLATION	PURPOSE		
	National Transport Commission to the South African Roads Board and for the vesting of certain		
	property of that commission in that board.		
South African National Roads Agency Limited	To make provision for a national roads agency for the Republic to manage and control		
and National Roads,1998 (Act 07 of 1998)	Republic's national roads system and take charge, amongst others, of the development,		
	maintenance and rehabilitation of national roads within the framework of government policy		
National Environmental Management Act, 1998	To provide for co-operative, environmental governance by establishing principles for decision-		
(Act 108 of 1998)	making on matters affecting the environment, institutions that will promote co-operative		
	governance and procedures for co-ordinating environmental functions exercised by organs of		
	state; and to provide for matters connected therewith.		
National Climate Change Response Policy White	To address both mitigation and adaptation in the short, medium and long term (up to 250). GHG		
Paper, 2011	emissions are set to stop increasing at the latest by 2020-2025, to stabilise for up to 10 years and		
	to decline in absolute terms.		
Spatial Planning and Land Use Management Act	To provide a framework for spatial planning and land use management in the Republic, to address		
	past spatial and regulatory imbalances.		
Project and Construction Management Act, 2000	To provide for the regulation of the relationship between the South African Council for the Project		
(Act 48 of 2000)	and Construction Management Professions and the Council for the Built Environment.		
Engineering Profession Act, 2000 (Act 46 of 2000)	To provide for the registration of professionals, candidates and specified categories in the		
	engineering profession.		
Construction Industry Development Board Act,	To implement an integrated strategy for the reconstruction, growth and development of the		
2000 (Act 38 of 2000)	construction industry		
Government Immovable Asset Management Act,	To ensure the coordination of the use of an immovable asset with the service delivery objectives of		
2007 (Act 17 of 2007)	a national or provincial department.		
National Standards Act, 2008 (Act 8 of 2008)	To provide for the development, promotion and maintenance of standardisation and quality in		
	connection with commodities and the rendering of related conformity assessment services; and for		
	that purpose, to provide for the continued existence of the SABS, as the peak national institution.		
Disaster Management Act, 2002 (Act 57 of 2002)	To provide an integrated and coordinated disaster management policy that focuses on preventing		
	or reducing the risk of disasters, mitigating the severity of disasters, emergency preparedness,		
	rapid and effective response to disasters and post-disaster recovery; the establishment of national,		
	provincial and municipal disaster management centres; disaster management volunteers; and		
	matters incidental thereto.		
National Heritage Resource,1999 (Act 25 of 1999)	To promote good management of the national estate, and to enable and encourage communities		
	to nurture and conserve their legacy so that it may be bequeathed to future generations.		

LEGISLATION	PURPOSE		
Mineral and Petroleum Resources Development	To make provision for equitable access to and sustainable development of the nation's mineral		
(Act 28 of 2002)	and petroleum resources.		
Division of Revenue Act	To provide for the equitable division of revenue raised nationally among the national, provincia		
	and local spheres of government		
Motor Vehicles			
Road Transportation Act, 1977 (Act 74 of 1977)	To provide for the control of certain forms of road transportation.		
Urban Transport Act, 1977 (Act 78 of 1977)	To provide for the establishment of certain transport funds, metropolitan transport areas and		
	metropolitan transport advisory boards and for the preparation and implementation of urban		
	transport plans.		
Road Traffic Act, 1989 (Act 29 of 1989)	Empowers traffic officers to stop vehicles and ascertain compliance with the road traffic rules and		
	regulations.		
Financial Supervision of the Road Accident Fund	To further regulate the affairs of the Multilateral Motor Vehicle Accidents Fund		
Act, 1993 (Act 8 of 1993)			
Road Accident Fund Act, 1996 (Act 56 of 1996)	To provide for the establishment of the Road Accident Fund		
National Road Traffic Act, 1996 (Act 93 of 1996)	To provide for road traffic matters which shall apply uniformly throughout the Republic.		
Cross-Border Road Transport Act, 1998 (Act 4 of	To provide for co-operative and co-ordinated provision of advice, regulation, facilitation and law		
1998)	enforcement in respect of cross-border road transport by the public and private sectors		
Transport Appeal Tribunal Act, 1998 (Act 39 of	To provide for the establishment of the Transport Appeal Tribunal to consider and to decide		
1998)	appeals noted under the National Land Transport Act, 1998, and under the Cross-Border Road		
	Transport Act, 1998.		
National Land Transport Interim Arrangements	To make arrangements relating or relevant to transport planning and public road transport services		
Act, 1998 (Act 45 of 1998)	within metropolitan transport areas declared under the Urban Transport Act, 1977.		
Administrative Adjudication of Road Traffic	It's an act of the Parliament of South Africa which introduces a point demerit system for violations		
Offences Act, 1998 (Act 46 of 1998)	of traffic law.		
Road Traffic Laws Rationalisation Act, 1998 (Act	To repeal certain laws relating to road traffic applicable only in particular areas of the Republic in		
47 of 1998)	so far as they fall outside the functional areas mentioned in Schedules 4 and 5 to the Constitution.		
Road Accident Fund Commission Act, 1998 (Act	To make recommendations regarding, a system for the payment of compensation or benefits, or a		
71 of 1998)	combination of compensation and benefits, in the event of the injury or death of persons in road		
	accidents.		
Road Traffic Management Corporation Act, 1999	To provide for the phasing in of private investment in road traffic.		
(Act 20 of 1999)			
National Land Transport Transition Act, 2000 (Act	To provide for the transformation and restructuring of the national land transport system of the		

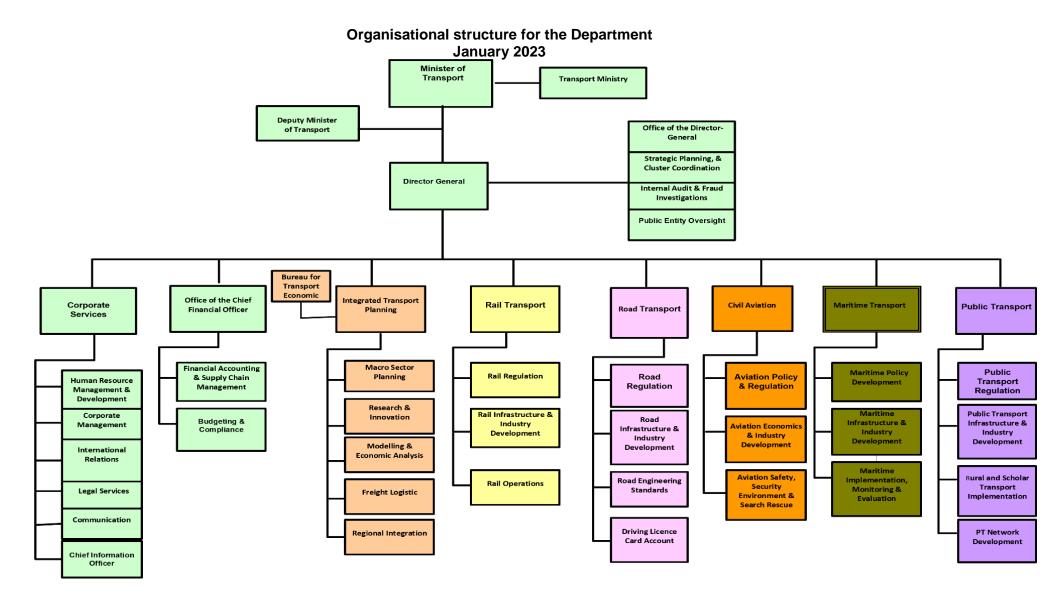

LEGISLATION	PURPOSE		
22 of 2000)	Republic		
National Land Transport Act, 2009 (Act 05 of 2009)	To provide further the process of transformation and restructuring the national land transport system initiated by the National Land Transport Transition Act, 2000 (Act No. 22 of 2000).		
Civil Aviation			
Airports Company Act, 1993 (Act No 44 of 1993)	To provide for the transfer of certain assets and functions of the State to a public company to be established and for matters connected therewith.		
Airports Company Amendment Act, No. 17 of 2020	To provide for the establishment of a company and the transfer of the State's shares in the company; to regulate certain activities at company airports.		
Air Services Licensing Act, 1990 (Act 115 of 1990)	To provide the establishment of an Air Service Licensing Council; for the licensing and control of domestic air services.		
Air Traffic and Navigation Services Company Act, 1993(Act 45 of 1993)	To provide for the transfer of certain assets and functions of the State to a public company to be established.		
Air Traffic and Navigation Services Company	To provide for the transfer of certain assets and functions of the State to a public company to be		
Amendment Act, No. 18 of 2020	established; to provide for the provision of services by the company outside of the Republic; to provide for appeals against the decisions of the Committee; to provide for offences and penalties.		
Carriage by Air Act, 1946 (Act 47 of 1946)	To give effect to a Convention for the unification of certain rules relating to international carriage by air; to make provision for applying the rules contained in the said Convention, subject to exceptions, adaptations and modifications, to carriage by air which is not international carriage within the meaning of the Convention.		
Civil Aviation Act, 2009 (Act 13 of 2009)	To repeal, consolidate and amend the aviation laws giving effects to certain International Aviation Convention, to provide for the control and regulation of aviation with the Republic and to provide for the establishment of a South African Civil Aviation Authority with safety and security oversight function.		
Convention on the International Recognition of	To provide for the application in the Republic of the Convention on the International Recognition of		
Rights in Aircraft Act, 1993 (Act 53 of 1993)	Rights in Aircraft; to make special provision for the hypothecation of aircraft and shares in aircraft.		
Convention on International Interests in Mobile	To harmonize national laws with the principles underlying asset-based financing for mobile		
Equipment Act, 2007 (Act 4 of 2007)	equipment – aircraft (through the Protocol), to protect the rights of manufacturers/financiers		
	/lessors against third party claims and seizures in case of insolvency and to allow creditors speedy		
	relief in the case of default by a debtor such as repossession of, selling or leasing of, or collection of income derived from the mobile equipment.		
International Air Services Act, 1993 (Act 60 of	To provide for the establishment of an International Air Services Council; for the regulation and		
1993)	control of international air services.		

LEGISLATION	PURPOSE
South African Civil Aviation Authority Levies	To provide for the imposition of levies by the South African Civil Aviation Authority.
Act,1998 (Act 41 of 1998)	
South African Maritime and Aeronautical Search	To incorporate the International Convention on Maritime Search and Rescue, 1979, and Annex 12
and Rescue Act, 2002 (Act 44 of 2002)	to the Convention on International Civil Aviation, 1944, into South African law; to establish the
	South African Maritime and Aeronautical Search and Rescue Organization.
Shipping	
Ballast Water Management Bill, 2022	To provide for the prevention of the introduction of alien and invasive species via ship's ballast
	water and sediment, the implementation of the International Convention for the Control and
	Management of Ship's Ballast Water and Sediment 2004, and matters related thereto.
Merchant Shipping Act,1951 (Act 57 of 1951)	To provide for the control of merchant shipping and matters incidental thereto.
Comprehensive Maritime Transport Policy	To facilitate growth and development of South Africa's maritime transport system in support of
(CMTP)	socio-economic development of the country whilst contributing in international trade.
National Commercial Ports Policy, 2002	To enable the South African commercial ports system to be globally competitive; safe and secure,
	operating at internationally accepted levels of operational efficiency and serve the economy and
	meet the needs of port users in a manner that is economically and environmentally sustainable.
Marine Traffic Act, 1981 (Act 2 of 1981)	To regulate marine traffic in the Republic of South Africa; and to provide for matters connected
	therewith.
Carriage of Goods by Sea Act,1986(Act 1 of 1986)	To amend the law with respect to the carriage of goods by sea so as to govern the rights and
	responsibilities between the owners of the cargo being shipped and the persons or entities that
	transport the cargo for a fee.
Marine Pollution (Prevention of Pollution from	To provide for the protection of the sea from pollution by oil and other harmful substances
Ships), 1986 (Act 2 of 1986)	discharged from ships and to give effect to the International Convention for the Prevention of
	Pollution by ships 1973.
Marine Oil Pollution (Preparedness, Response	To provide for the regulation and management of the country's response to major marine oil
and Cooperation) Bill of 2022	pollution incidents at the country's coastal seas.
Maritime Development Fund Bill, 2022	The proposed fund, which will provide a path for maritime funding solutions, will aim to capacitate
	the maritime sector for SAMSA and the Ports Regulator of South Africa to fulfil their respective
	mandate.
Shipping and Civil Aviation Laws Rationalisation	To repeal certain laws relating to shipping and civil aviation.
Act, 1994 (Act 28 of 1994)	
Wreck and Salvage Act, 1996 (Act 94 of 1996)	To provide for the salvage of certain vessels and for the application in the. Republic of the
	International Convention of Salvage, 1989; and to provide for the repeal or amendment of certain

LEGISLATION	PURPOSE
	provisions of the Merchant Shipping Act, 1951, and the amendment of the Admiralty Jurisdiction
	Regulation Act, 1983.
South African Maritime Safety Act, 1998 (Act 5 of	To provide for the establishment and functions of the South African Maritime Safety Authority.
1998)	
South African Maritime Safety Authority Levies	To provide for the establishment and functions of the South African Maritime Safety Authority.
Act, 1998 (Act 6 of 1998)	
Ship Registration Act, 1998 (Act 58 of 1998	To provide for the imposition of levies by the South African Maritime Safety Authority.
Sea Transport Documents Act, 2000 (Act 65 of	To regulate the position of certain documents relating to the carriage of goods by sea.
2000)	
Gender	
Beijing Declaration and Platform for Action, 1995	Is an agenda for women's empowerment and considered the key global policy document on
	gender equality.
Convention of the Elimination of all	The Convention provides the basis for realising equality between women and men through
Discrimination against Women	ensuring women's equal access to, and equal opportunities in, political and public life including the
	right to vote and to stand for election, as well as education, health and employment.
Employment Equity Act 1998 (No 55 of 1998)	To ensure that everyone enjoys equal opportunity and fair treatment in the workplace.
Framework on Gender Responsive Planning,	It's a public policy tool that analyses central and local administrative budgets to assess gender
Budgeting, Monitoring, Evaluation and Auditing,	funding gaps, identify actions to close them and ensure that national and local commitments to
2018	gender equality and women's empowerment are adequately funded.
Gender Equality Strategic Framework, 2015	Is aimed at achieving women's empowerment and gender equality in the workplace. Ensure a
	better quality of life for all women through improved and accelerated service delivery by the Public
	Service
National Development Plan Vision 2030	A long-term vision and plan for the country which aims to eliminate poverty and reduce inequality
	by 2030.
National Strategic Plan on Gender-Based	A long-term vision and plan for the country which aims to eliminate poverty and reduce inequality
Violence and Femicide, 2020	by 2030.
	The NSP aims to provide a multi-sectoral, coherent strategic policy and programming framework
	to strengthen a coordinated national response to the crisis of gender-based violence and femicide
	by the government of South Africa and the country as a whole.

LEGISLATION	PURPOSE	
Sustainable Development Goals	To achieve basic levels of goods and services for all, better redistribution of wealth and resource	
	they are the blueprint to achieve a better and more sustainable future for all.	
Disability		
Handbook on Reasonable Accommodation of	To guide implementation of reasonable accommodation measures to uphold, support and promote	
Employees with Disabilities in the Public Service,	the rights of persons with disabilities.	
2007		
Job Access Strategic Framework, 2006	To transform the Public Sector to be inclusive of people with disabilities. It aims to promote social	
	justice.	
United Nations Convention on the Rights of	To promote, protect and ensure the full and equal enjoyment of all human rights and fundamental	
Persons with Disabilities	freedoms by all persons with disabilities, and to promote respect for their inherent dignity.	
White Paper on the Rights of Persons with	Advocates for transforming the health system to improve the lives of disabled people by for	
Disabilities	instance removing communication and information barriers, reducing costs associated with care	
	and skilling health personnel to provide equitable services to persons with disabilities.	
Youth		
National Youth Policy 2015 – 2020	Is developed for all young people in South Africa, with a focus on redressing the wrongs of the	
	past and addressing the specific challenges and immediate needs of the country's youth.	
National Child Care and Protection Policy, 2019	To protect children's rights and their best interests. Placing the child as the first priority when	
	dealing with all identified or suspected cases of child abuse. Empowering and educating children	
	on their rights, personal safety and steps they can take, if there is a problem.	

9. ORGANISATIONAL STRUCTURE

10. ENTITIES REPORTING TO THE MINISTER

The table below indicates the entities that report to the Minister.

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
Airports Company South Africa SOC Limited (ACSA)	Airports Company Act, 1993 (Act No.44 of 1993)	No Transfer from the Department of Transport	To own and operate the republic's nine principal airports and provide airlines with world-class safe and secure airports infrastructure.
Air Traffic and Navigation Services (ATNS)	Air Traffic and Navigation Services Company Act, 1993 (Act No.45 of 1993)	No Transfer from the Department of Transport	To provide for the establishment, development, provision, maintenance management and operation of air navigation infrastructure and air navigation services.
Cross-Border Road Transport Agency (C-BRTA)	Cross-Border Road Transport Agency Act, 1998 (Act No. 4 of 1998)	No transfer from the Department of Transport	To provide for cooperative and coordinated provision of advice, regulation, facilitation and law enforcement in respect of cross-border road transport by the public and private sectors.
Passenger Rail Agency of South Africa (PRASA)	The primary focus of the Passenger Rail Agency of South Africa (PRASA), as an arm of the National Department of Transport (the Shareholder) is on the mandate as contained in the Legal Succession to the South African Transport Services ("SATS") Act, 1989 (Act No. 9 of 1989 as amended in November 2008, and listed as Schedule 3B of the PFMA.	Transfer Payments	To ensure that rail commuter services are provided in the public interest and to provide for the long-haul passenger rail and bus services within, to and from the Republic in terms of the principles set out in section 4 of the National Land Transport Act, 2000 (Act No. 22 of 2000)
Ports Regulator of South Africa (PRSA)	It's a schedule 3A public entity established in terms of the National Ports Act No;12 of 2005 which	Transfer Payments	The entity performs functions that relate mainly to regulating pricing and other aspects of economic regulation, promoting equal access to ports

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
	mandates the entity to function as an economic regulator of the ports system of South Africa		facilities and services, monitoring the industry's compliance with the regulatory framework, and hearing any complaints and appeals lodged with it.
Railway Safety Regulator (RSR)	Established in terms of the National Railway Safety Regulator Act, 2002 (Act No. 16 of 2002) (as amended), and listed as Schedule 3B of the PFMA. The mandate of the RSR is to oversee and promote safe railway operations through appropriate support, monitoring and enforcement, guided by an enabling regulatory framework, including regulations.	Transfer Payments	Provide a conducive regulatory environment. Improved levels of safety and security in the railway industry. Sustainable institutional effectiveness.
Road Traffic Management Corporation (RTMC)	Road Traffic Management Corporation Act, 1999 (Act No. 20 of 1999)	Transfer payments	To enhance the overall quality of road traffic services provision, and in particular ensure safety, security, order, discipline and mobility on the roads.
Road Traffic Infringement Agency (RTIA)	Administrative Adjudication of Road Traffic Offences (AARTO) Act, 1998 (Act No. 46 of 1998.	Transfer payments	To promote road traffic quality by providing for a scheme to discourage road traffic contraventions; facilitate adjudication of road infringements; and support the prosecution of the road traffic offences in terms of national and provincial laws relating to road traffic.

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
Road Accident Fund (RAF)	Road Accident Fund Act, 1996 (Act No. 56 of 1996)	No transfer from the Department of Transport	To provide for the payment of compensation for loss or damages wrongfully caused by negligent driving of motor vehicles within the borders of the Republic.
South African Civil Aviation Authority (SACAA)	South African Civil Aviation Authority Act,1988 (Act No.4 of (1988)	Transfer Payments. The entity generates its revenue from levies and user charges. The transfer from the Department is for services rendered in aircraft accident and incident investigation.	To control and regulate civil aviation safety and security within the Republic.
South African Maritime Safety Authority (SAMSA)	It's responsible for executing the following legislative objectives as set out in the SAMSA Act No.05 of 1998: • To ensure safety of life and property at sea • To prevent and combat pollution of the marine environment by ships; and • To promote the Republic's maritime interests.	The entity generates most of its revenue from levies, which constitute more than 80.3 per cent of total revenue, charged to foreign ships calling on South African ports.	Develop maritime - undertake activities to cause the maritime transport system to grow, transform and support sustainable development. Promote maritime - undertake activities to support and actively encourage the registration of ships onto SA ship registry. Authorise maritime - undertake activities to register and authorise people, vessels equipment, courses, agencies, recognised organizations, training institutions and shipping organizations. Monitor compliance - monitor the compliance of all the authorised maritime actors through audits surveillance, support survey and inspection activities.

Name of Entity	Legislative Mandate	Financial Relationship	Nature of Operations
			Enforce compliance - compel observance of compliance through fines, detentions, warnings, administering of conventions and any other disincentives for non-compliance
			Manage compliance - undertake activities to manage maritime transport outcomes such as incident management, accident management and maritime interventions through among others the Emerging Towing Vessel
South African National Roads Agency Limited (SANRAL)	South African National Roads Agency Limited and National Road Act, 1998 (Act No. 7 of 1998)	Transfer payments	To manage and control the Republic's national roads system and take charge amongst others of the development, maintenance and rehabilitation of national roads within the framework of government policy.

PART B: PERFORMANCE INFORMATION

1. AUDITOR-GENERAL'S REPORT: PREDETERMINED OBJECTIVES

The AGSA performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to management, with material findings being reported under the predetermined objectives heading in the report on other legal and regulatory requirements section of the auditor's report.

Refer to page 430 of the Report of the Auditor-General, published as Part E: Financial Information.

2. OVERVIEW OF DEPARTMENTAL PERFORMANCE

2.1 Service Delivery Environment

- a) In 2009, the need to promote a government that is responsive, interactive and effective was identified. The Presidential Hotline was launched in September 2009, as a service to the members of the public where they could raise their concerns about the services, they were receiving from government departments and agencies. Weak systems for managing complaints and inadequate resolutions posed a risk to building trust between the citizens of the country and the government.
- b) Analysing complaints received through the Presidential Hotline, the Department of Transport realised that citizens were experiencing problems with services at Driving Licence Testing Centres (DLTCs). In 2011, the Directorate: Employee Health and Wellness, Organisational Development and Change Management presented three possible service improvement areas, which required service delivery interventions. The Director-General of Transport chose the DLTCs as the area that needed to be addressed and a Service Delivery Improvement Plan (SDIP) was developed.
- c) At the same time in 2011, the Forum of South African Directors General (FOSAD) came up with a plan to improve service delivery by changing the way the government works. The Department of Transport was identified as one of the State Departments in the project.
- d) The Department collaborated with the Department of Public Service and Administration (DPSA) on the implementation of the Delivery Agreement for outcomes 12: "An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship".

- e) This led to the establishment of National and Provincial Task Teams for Service Delivery with the purpose to improve service delivery in the three areas of DLTCs, Vehicle Testing Stations (VTSs) and Registering Authorities (RAs).
- f) The outcome of this endeavour was the publication for comments of the current version of the Minimum Requirements for Service Delivery Standard (MSDS) on 20 November 2020 in Government Gazette no 43913 Notice 1237. The current version of the standard is a consolidated effort to include all inputs from stakeholders and consists in its totality of the following:
 - (i) The MSDS which constitutes the main requirements for minimum service in the three identified areas. As mentioned, the aim of the MSDS was to meet legislative and service requirements in an affordable and not luxurious way.
 - (ii) Service delivery charters for DLTCs, VTSs and RAs. The charters are to be erected at service centres to display the services rendered, the cost associated with the services and the expected time frames of the service. Its purpose is further to give the public contact details of whom to contact should they have questions or experience service that does not live up to the standard.
 - (iii) Service Level Agreements (SLAs) for DLTCs, VTSs and RAs to be entered into between the province and the agent that they appoint to provide the service. Provincial and local government in the case of RAs and DLTCs and public and private VTSs. (Still to be published).
- g) The afore-mentioned standards and supporting documents, once published for commencement will pave the way to improvement of services. As can be seen, the relevant SDIP has been extended to include the RAs and VTSs in the country, as the same service delivery failures have been identified within these two service areas as well. Whilst awaiting the legislation process in terms of the MSDS and SLAs, the Department focused in the past year to continue making online services available to the public in the driving licence and registering authority areas. Various online services can currently be obtained by registering a profile on https://online.natis.gov.za.
- h) The Department is also driving the weekly war room that enables all nine provinces to connect on a weekly basis to address all matters that impact service delivery at DLTCs, VTSs and RAs.
- i) Furthermore, the Department is continuing with compliance inspections by the inspectorates for DLTCs and VTSs as provided for in the National Road Traffic Act, Act 93 of 1996. These inspections are done against the Minimum Requirements for DLTCs and VTSs as prescribed by the mentioned Act and will be extended to include service delivery inspections against the MSDS once the MSDS comes into operation.

2.2 Service Delivery Improvement Plan

The department has completed a service delivery improvement plan. The tables below highlight the service delivery plan and the achievements to date.

Main services and standards

Main services	Beneficiaries	Current/actual standard of service	Desired standard of service	Actual achievement
 Key service 1: DLTC Application for a learner's licence test. Testing of learner drivers. Issuing of learner driving licence. Duplicate / replacement of learner's licence. Application for driving licence test. Testing of drivers. Order and issuing of driving licence and driving licence card. Renewal / replacement 	Members of the public of South Africa.	Facilities are not properly maintained and DLTCs are not complying to the Minimum Requirements for Registration And Retention Of Grading for DLTCs as published in the Government Gazette 28446 of 7 April 2006 and prescribed by the Act. Long queues and waiting times.	 Minimum requirements for service delivery to be published for commencement. Recommendations of compliance inspections followed up with provinces. Online transactions where possible be enabled. Weekly war room addressing all calls logged on NaTIS and at DLCA that impact on service delivery. Updating of system that driving licence card produced by DLCA has been received and communication to applicant to collect the card. Application and face value forms are available and delivered by Government Printing Works (GPW) assuming that provinces are up to date with payments to 	 The publication for comment for the SLAs is awaited before MSDS can be published for commencement. This applies in all three (03) key services. Recommendations of compliance inspections are brought to the attention of MECs. Online prebooking for learners and driving licence tests, prebooking for renewal of a learners licence and driving licence card available on via https://online.natis.gov.za. Proposals in process for full online application requires legislation amendments. On average four (4) war rooms per month held were all calls related to

Main services	Beneficiaries	Current/actual standard of service	Desired standard of service	Actual achievement
of driving licence card New application for Professional Driving Licence Permit (PrDP) Renewal of PrDP Temporary driving licence Conversion of Foreign Driving Licence Eye testing for all the above processes Updating personal particulars Address verification Application for instructor's Certificate Testing of Instructors Issuing instructor's certificate Issuing duplicate instructor's certificates Verification of driving licence particulars		 NaTIS calls are logged on Remedy. DLCA calls are logged on DLCA system. Various challenges with the driving licence card production machine that has broken down caused major backlogs during Aug to Dec 2022 and again during March 2023. A number of DLTCs do not update the NaTIS when cards are received resulting in cards remaining in bags and members of the public not knowing that their cards are ready for collection. DLTCs fall behind on their payments to the Card Production 	 New driving licence card with new card printing equipment to be deployed. DLTCs to stay up to date with payments to the CPF, assuming that billing process of DLCA is correct and up to date. Revenue collected to be ringfenced to infrastructure improvements to enhance service delivery, and absorb the impact of load shedding, natural disasters and protest action 	 Reports were developed to reflect on DLTCs not updating the NaTIS. Debtors lists prepared DLCA to assist provinces to engage with DLTCs that are 60 days and 90 days behind on payments. GPW as part of war room attended to all requests for application and face value forms. This applies in all three (3) key services where application forms and face value forms are involved. Processes to implement the Cabinet resolution in terms of the new driving licence card are underway. Matters related to ringfencing of revenue and alternative power sources were referred to legislation forums where it was recommended to engage with National Treasury. This applies in all three (3) key services.

Main services	Beneficiaries	Current/actual standard of service	Desired standard of service	Actual achievement
		Facility (CPF). Revenue collected is not ringfenced to enhance infrastructure. Shortages of application and face value forms. Events outside the control of DLTCs have great impact on service delivery such as load shedding, natural disasters, and protest action.		
 Key service 2: RAs Registration of motor vehicle (MV). Deregistration of MV. Licensing of MV. Notice of change of ownership. Application for temporary permit. 	Members of the public of South Africa.	There is currently no minimum requirements specified for Registering Authorities (RAs) and no national inspectorate for RAs in terms of the National Road Traffic Act, Act 93 of 1996.	 Publication of the MSDS together with the Service Level Agreements (SLAs). Take as much feet as possible out of the RAs by making all services, that do not require the person to be present, available online. 	The MSDS and service delivery charters have been finalised prior to 2020, the publication of the SLAs is still outstanding. Online release of title holder / owner. At present, financial institutions who entered into an agreement with the RTMC are able to release their title holder ship online, making it possible for

2.3 Organisational environment

The Department remains focused on addressing the vacancy rate through the filling of critical positions and ensuring that its oversight role on sector public entities is strengthened and stabilised. Though significant strides have been reported, particularly with regard to recruitment, the Department has also noted the turnover rate that impacts negatively on its target to reduce the vacancy rate to below 10% within the medium term.

Furthermore, to ensure that it aligns to the gender-responsive agenda of government, the Department continues to monitor all programmes that contribute to this agenda. These include the prioritisation of employment equity targets, disaggregation of beneficiaries of internships, training and bursaries in the categories of women, youth and persons with disabilities.

The internal challenge of alignment and optimal use of resources (human, financial, facilities and equipment) continues to be a prickly issue that the Department has to deal with. The identification of critical human resource needs within programmes has been prioritised for the medium-term. As recruitment of qualified personnel continues, the Department will also seek to accelerate needs-based training to ensure that internal staff are equipped with the necessary skills to advance the mandate and desired outcomes of the sector.

The simplified structure of the Department puts extensive emphasis on modes of transport. Complementing this modal emphasis are two programmes that seek to provide strategic support to key programmes of the Department, namely Administration and Integrated Transport Planning.

- a) **Programme 1:** Administration This programme comprises the Office of the Director-General (ODG), Corporate Services (CS), and Chief Financial Officer (CFO)
- b) Programme 2: Integrated Transport Planning
- c) **Programme 3**: Rail Transport
- d) **Programme 4**: Road Transport
- e) Programme 5: Civil Aviation
- f) **Programme 6**: Maritime Transport
- g) Programme 7: Public Transport

2.4 Key policy developments and legislative changes

a) Economic Regulation of Transport (ERT) Act 06 of 2024

To address regulatory and capacity gaps that relate to South Africa's need for an efficient and costeffective transport system to raise economic growth and meet its social goals, the Department finalised the Economic Regulation of Transport (ERT) Bill, which will establish the Transport Economic Regulator (TER).

b) National Road Traffic (NRT) Amendment Bill

The Bill seeks to reduce the blood alcohol limit to zero resulting in nobody on the road driving a motor vehicle whilst under the influence of alcohol and drugs. The National Road Traffic Amendment Bill was approved by the National Assembly on 09 February 2024 and sent to the President for assent.

c) Railway Safety Bill

The Bill seeks to improve the regulatory framework regulating safety in the Republic of South Africa to improve rail safety for passengers and freight. The Bill was processed through Cabinet and introduced to Parliament in March 2021. The Bill has been passed by both Houses of Parliament and has been sent to the President for assent.

d) Private Sector Participation (PSP) Framework

The framework will provide a platform for the introduction and/or attraction of private operators in rail. It will also assist in the identification of areas of rail where the private sector could participate. The PSP framework for the rail industry follows from the 2015 Cabinet decision to develop the PSP as a key reform to strengthen the State-Owned Companies (SOCs). The Framework was approved by the Cabinet in the 2023/24 financial year.

e) High-Speed Rail (HSR) Framework

The HSR framework will provide the foundation for the prioritization of HSR corridors in the country, to ensure effective and efficient implementation of the HSR construction and operation in relevant corridors. The HSR framework sets strategic objectives for high-speed rail in the country, which include relief of congestion and time saving, reducing Green House Gas (GHG) emissions, direct and indirect job creation, increase in economic activity and wider economic impact, regional development and other planning parameters. The Framework was approved by the Cabinet in the 2023/24 financial year.

f) National Learner Transport Policy Review

The policy recognizes the need to have a uniform approach to the transportation of learners and the fulfilment of the constitutional mandate of the Department to provide safe and efficient transport. The

review of the policy will seek to, among others, ascertain if the policy is achieving its intended outcomes.

g) National Land Transport Amendment (NLTA) Act

The revised Bill, amongst others, seeks to amend the National Land Transport Act, 2009, to insert certain definitions and amend others; to provide for non-motorised and accessible transport; to bring the Act up to date with developments since the implementation of the Act; to provide for certain powers of provinces to conclude contracts for public transport services; to expand the powers of the Minister to make regulations and introduce safety measures; to prescribe criteria and requirements for municipalities to enter into contracts for public transport services.

4. INSTITUTIONAL PROGRAMME PERFORMANCE INFORMATION

In this organisational performance report, the Department presents its annual non-financial performance information report for the period 01 April 2023 to 31 March 2024, against planned deliverables as reflected in the Annual Performance Plan 2023/24. The report has been compiled in line with the requirements of Sections 92 and 114 of the Constitution of the Republic of South Africa, the Public Finance Management Act (PFMA), the National Treasury Regulations, and the Framework for Managing Programme Performance Information and the Department of Planning, Monitoring and Evaluation (DPME) Guidelines on the Preparation of Quarterly Performance Reports.

This report intends to provide all relevant stakeholders with an overview of the Department's operational performance as at the end of the 2023/24 financial year. The information in this report will also be utilised to respond to the Department's commitments in the achievement of the seven (7) apex priorities of the 6th Administration.

The contents of the quarterly performance reports, including this report have been verified as factual by Deputy Directors-General (DDGs) of the respective programmes. The DDGs have signed the assurance certificates as proof of concurrence with the reported performance for their respective programmes, as per the approved Planning, Monitoring and Reporting (PMR) Guidelines.

The performance information is interrogated on a quarterly basis by the Executive Committee of the Department. Furthermore, reported performance is assured by the Internal Audit Unit and by the Office of the Auditor-General of South Africa (AGSA). The report is then submitted to the DPME and presented to the Audit Committee, the Portfolio Committee on Transport (PCoT) and the Select Committee on Transport, Public Service and Administration, Public Works and Infrastructure.

During the 2022/23 audit cycle, the Auditor-General of South Africa (AGSA) identified issues of consistency of indicators and targets, and verifiability and reliability of reported secondary information on the Department's APP for the 2022/23 financial year. The audit process was finalised in November 2023. In order to avoid repeat audit findings, the Department embarked on a process of revising the 2023/24 Annual Performance Plan. After consistent engagements with Programmes, AGSA and the DPME, the Amended APP was submitted

for approval and was re-tabled in the fourth quarter of the financial year. The amended APP was submitted to DPME as per requirements of the Revised Framework on Strategic Plans and Annual Performance Plans.

4.1 Programme 1: Administration

4.1.1 Purpose:

The programme exists to provide leadership, strategic management and administrative support to the department. This is achieved through continuous refinement of organisational strategy and structure in line with appropriate legislation and best practice.

4.1.2 Sub-Programmes:

4.1.2.1 Office of the Director-General (ODG)

4.1.2.2 Corporate Services (CS)

4.1.2.3 Office of the Chief Financial Officer (CFO)

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

The outputs in Programme 1: Administration are aimed at ensuring support for technical units to achieve the Department's core mandate. Key functions in this programme include managing and facilitating the provision of financial management services; managing and monitoring the provision of human resource management and development services; managing strategic executive support services to the Director-General and the Department; coordinating and facilitating international relations; managing the provision of communication, media liaison and events management services; and provision of legal services. These support services, performed optimally, provide for good governance and enhances the Department's integrity and credibility.

During the period under review, 100% of Parliament questions were responded to and submitted to Parliament. The Department received a total of two hundred and three (203) questions from the two Houses of Parliament: National Assembly and the National Council of Provinces.

Unauthorised expenditure has been curbed in the Department. During the 2022/23 financial year, no cases of unauthorised expenditure were reported. As at the end of the 2023/24 financial year, the Department recorded no new cases of irregular expenditures. Twenty-six (26) cases of fruitless and wasteful expenditure were recorded, which is a reduction measuring against baseline of 48 cases.

The vacancy rate in the Department remains a challenge. During the period under review, a total of ninety-two (92) vacant positions were filled, against a target of ninety (90) for the financial year. The vacancy rate as at March 2024 was recorded at 15.01% on funded posts, which is a reduction of 3.38% against the same period in 2022/23, which stood at 18.39%.

The anticipated decline in the vacancy rate is slow due to a high turnover rate. The turnover rate was affected by, amongst others, the passing of employees, resignations, external transfers and retirements. The Department will continue prioritising the filling of critical vacant positions to ensure attainment of a 10% or lower rate as prescribed by the State in line with the moratorium issued by National Treasury.

In line with the departmental bursary programme, approximately two hundred and five (205) employees have been provided with financial assistance, with eighty (80) new bursaries awarded during the 2023/24 financial year.

4.1.6 Strategy to overcome areas of under-performance

4.1.6.1 Percentage reduction of cases of wasteful and fruitless expenditure

The Department did not achieve the planned 100% reduction target on fruitless and wasteful expenditure due to non-compliance with prescripts and policies. The Department is reviewing the Loss Control Policy and will strengthen internal control measures by raising awareness through circulars.

4.1.6.2 Percentage compliance to 30 days payment of valid invoices

As part of consequence management, disciplinary action will be taken against officials who caused the late payments. In addition, the Department will also be implementing a Document Management System which includes an invoice tracking system to establish robust control mechanisms that ensure the accurate and timely processing of invoices throughout the payment cycle.

Furthermore, the travel management contract that will be awarded in 2024/25 will include an electronic invoice system to reduce the use of paper as the bulk of late payments are travel related.

4.2 Programme 2: Integrated Transport Planning

4.2.1 Purpose:

The programme exists to integrate and harmonise key transport sector strategic interventions through continuous development and refining of macro-transport sector policies, strategies and legislation; coordination of development of sector-related policies, coordination of sector research activities; coordination of regional and intersphere relations; facilitation of sector transformation; and provision of sector economic modelling and analysis

4.2.2 Sub-Programme:

- **4.2.2.1** Research and Innovation
- 4.2.2.2 Modelling and Economic Analysis
- 4.2.2.3 Regional Integration
- 4.2.2.4 Freight Logistics

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

(a) Transport Just Transition Plan

The transport sector is responsible for 13.3% of GHG emissions in South Africa, with over 90% of these emissions attributed to road transport. The primary objective of the Transport Just Transition Plan is to enhance the implementation of South Africa's Green Transport Strategy and to reduce emissions from this sector in line with global imperatives. In addition, the plan will tackle the issue of greenhouse gas emissions in the transport sector, considering the worldwide significance of enhancing the capacity to cope with the negative effects of climate change and promoting climate resistance. In addition, the plan aims to determine the sector-specific climate and development actions to ensure that the transport sector transitions to low-carbon emission pathways and services is just and effectively aligned with the country's development objective. The draft Transport Sector Just Transition Plan was developed as targeted.

There is a need for policy-making departments such as the DTIC and DoT to fast track the finalization of South Africa's response to the mass uptake of electric vehicles. Furthermore,

challenges such as the constrained power grid also need to be considered before the finalization of the Electric Vehicles Regulations Framework (EVRF). During the period under review, the annual report for the public awareness campaign on the Electric Vehicles Regulations Framework was developed.

(b) Competitive and Accessible Markets – Transport Economic Regulator

South Africa needs an efficient and cost-effective transport system to support economic growth and meet its social goals of reducing poverty, unemployment and inequality. The establishment of the Transport Economic Regulator (TER) is informed by several strategic documents: National Development Plan 2030, The White Paper on National Transport Policy, 2021 and the White Paper on National Rail Policy, 2022 amongst others. The TER forms part of the economic reforms and stimulus package of South Africa and will help to realise the goals of Operation Vulindlela. The outcome of these reforms will lead to increased access to affordable and reliable transport systems. To date, the Economic Regulation of Transport Bill [B 1D - 2020] (s76) and the Report of Portfolio Committee on Transport (ATC, 20 February 2024), p5) were agreed to and the ERT Bill was sent to the President for assent and the draft regulations of the Transport Economic Regulator (TER) Act will be gazetted post-enactment.

(c) Competitive and Accessible Markets - Regional Integration

The transportation sector in South Africa faces significant challenges due to fragmentation within the Department of Transport and its various entities. Each entity independently pursues its regional integration agenda, resulting in a lack of cohesive planning and coordination. This fragmentation hinders the Department's ability to contribute effectively to economic growth and job creation.

To address these issues, the Department developed a Regional Integration Transport Strategy. This strategy aims to clarify the overarching goal of regional integration within the transport space and advance the national agenda with a focus on economic benefits that can be accrued from an integrated approach. It provides a comprehensive roadmap for improving and promoting sustainable economic development. The Regional Transport Strategy underwent a thorough approval process.

After being presented at various clusters for endorsement, it was approved by the Minister of Transport. Subsequently, during a Cabinet Committee meeting (ESIEID) on March 20, 2024, the strategy was approved for implementation.

4.2.3 Report Against the Originally Tabled Annual Performance Plan Until Date of Re-Tabling

4.2.6 Strategy to overcome areas of under-performance

4.2.6.1 Economic Regulation of Transport (ERT) Bill approved by Parliament

All three targets linked to the TER establishment were not achieved, due to the pre-requisite enactment of the ERT Bill. On 29 Feb 2024, the Portfolio Committee on Transport (PCoT) recommended that the ERT Bill be submitted to the President for assent.

4.3 Programme 3: Rail Transport

4.3.1 Purpose:

The programme exists to facilitate and coordinate the development of sustainable rail transport policies, rail economic and safety regulation, infrastructure development strategies; systems that reduce system costs and improve customer service; monitor and oversee the Railway Safety Regulator and the Passenger Rail Agency of South Africa; and the implementation of integrated rail services planned through the lowest competent sphere of government.

4.3.2 Sub Programmes

4.3.2.1 Rail Regulation

4.3.2.2 Rail Infrastructure and Industry Development

4.3.2.3 Rail Operations

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

(a) Private Sector Participation Framework (PSP)

In February 2015, Cabinet mandated the development of PSP framework as a key reform to strengthen State Owned Companies (SOCs), in line with the recommendations on the Presidential Review Commission of State-Owned Enterprises (SOEs). The National Development Plan (NDP) earmarked the development of infrastructure as one of the key drivers for delivery on the aspiration of economic growth in the South African economy. Increased infrastructure investments are required to meet the country's growing demand and eradicate historical backlogs.

The PSP Framework aims to provide an interim approach to and a model for future decision-making to enable private sector participation in the railway infrastructure system. Given the current challenges within the railway infrastructure, the PSP Framework proposes the commencement of private sector participation through opportunities that are aimed at fixing the rail infrastructure first.

The PSP Framework was developed and subsequently approved by Cabinet on 8 December 2024. The Department will establish a PSP unit that will identify and prioritise projects and develop an implementation plan to facilitate PSP initiatives.

(b) High-Speed Rail (HSR)

High Speed Rail (HSR) has proven to be a very flexible and attractive passenger rail system that offers customers and society safety, velocity, capacity and sustainability. The key objective when building an HSR network is to attract enough customers to break-even in socio-economic terms and not be too much of a burden for the taxpayers who may not use it. The demand for HSR is therefore crucial and is dependent on travel cost, travel time and flexibility.

On 23 March 2022 Cabinet adopted the White Paper on National Rail Policy which provides the policy directive for the development of an HSR Framework for South Africa. The framework provides the foundation for the prioritisation of HSR corridors in South Africa. The framework determines the strategic objectives for HSR and determine the criteria to be used in prioritising HSR corridors. The corridor that is ranked first as per the framework criteria will be prioritised for a feasibility study and implementation.

Through the Multi-Criteria Analysis (MCA)/matrix assessment undertaken in the framework, the Johannesburg to Durban corridor was identified as the highest ranking HSR corridor in south Africa. On 1 November 2023, Cabinet approved the HSR Framework for implementation, and also for the Johannesburg to Durban corridor to be prioritised for a feasibility study.

The implementation plan has been developed to lay the foundation for HSR corridor rollout in South Africa. The implementation of the framework will be undertaken in collaboration and consultation with all relevant stakeholders, subsequently, the project for the priority corridor will be rolled out as per the framework.

4.3.3 Report Against the Originally Tabled Annual Performance Plan Until Date of Re-Tabling

4.3.5 Strategy to overcome areas of under-performance

4.3.5.1 National Rail Bill

The National Rail Bill was revised to incorporate the inputs received from the State Law Advisors, where after it was re-submitted to the State Law Advisors for certification. The National Rail Bill was submitted to DPME to obtain a preliminary certificate of the final SEIAS. On 8 December 2023, Cabinet approved the Freight Logistic Roadmap to address freight logistics challenges faced in the country. As a result of the Freight Logistics Roadmap, an additional chapter was added on the draft National Rail Bill to address the introduction of a Rail Infrastructure Manager Chapter. A revised draft of the National Rail Bill was produced in February 2024, where after a round of consultation with critical stakeholders were undertaken to seek comments and inputs on the additional chapter. The draft National Rail Bill will be submitted to Cluster in the 2024/25 financial year.

4.3.6 Performance in relation to Standardised Outputs and Output Indicators

4.3.6.1 Rail Infrastructure and Job Creation

Institution	Output Indicator	Annual Target	Reported actual performance as at 31 March 2024	Source of Data
Competitive and Access	ble Markets			
Passenger Rail Agency of South Africa (PRASA)	Commuter rail lines rehabilitated	• 18	14 commuter rail lines were rehabilitated	Annual progress report signed off by
	Number of new Electric Multiple Unit (EMU) train sets manufactured	• 50	62 new EMUs manufactured	PRASA Accounting Authority
	 Number of new Electric Multiple Unit (EMU) train sets deployed to priority corridors 	• 25	96 EMUs deployed	
	Number of stations revitalised (through functionality improvements, rebuilding and commercialisation)	• 50	34 stations revitalised	
	 Number of train sets configured (old and new) 	• 216	239 (71 old fleet and 168 new old fleet)	
	Number of jobs created through the PRASA infrastructure programmes	• 3 000	12 527 jobs created	
	Number of PRASA rail passenger trips	• 18 million	39.44 million	
	Number of rail safety occurrences	Less than 1 083 rail safety occurrences (A – 0 categories)	282 rail safety occurrences	
	Number of rail security occurrences	Less than 2 822 rail security occurrences (1 -10 Categories)	946 rail security occurrences	

4.4 Programme 4: Road Transport

4.4.1 Purpose:

The programme exists to develop and manage an integrated road infrastructure network, regulate road transport, ensure safer roads, and oversee road agencies.

4.4.2 Sub Programmes

- 4.4.2.1 Road Engineering Standards
- 4.4.2.2 Road Infrastructure and Industry Development
- 4.4.2.3 Road Regulation

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

(a) User-pay principle

The user-pay principle simply implies that the road-user is aware of the road user's costs and pays the correct price for the road usage. When it comes to the financing of roads through tolling, this principle remains government policy. Currently, compliance with the user-pay principle at conventional toll plazas is 100%. The non-compliance recorded had been in the Gauteng Freeway Improvement Programme (GFIP).

(b) Reduction of road crash fatalities

A 5% reduction of road fatalities from the 2019 baseline, was targeted by the department and sector for the 2023/24 financial year. On 31 December 2023, fatalities had reduced to 11 883; a reduction of 266 translating to a 2.5% decline between 2018 and 2023.

The Department, in partnership with the Department of Planning, Monitoring and Evaluation (DPME), commissioned an implementation evaluation of the National Road Safety Strategy, primarily to improve efficiencies in the coordination of the strategy.

The upgrading, refurbishment and maintenance of national and provincial roads were executed during the period under review. For the period under review, 24 384 km of the SANRAL network was exposed to routine maintenance, with the latest network proclamations and survey data being used.

The S'hamba Sonke Provincial Road Maintenance Programme continued to prioritise rehabilitation and re-surfacing of surfaced roads, blacktop patching, blading and re-gravelling of gravel roads. This need has been exacerbated by the recent floods that have caused extreme damaged to infrastructure in KwaZulu-Natal, Eastern Cape and North West provinces. The Department, in partnership with affected provinces, municipalities and SANRAL, has been hard at work with the objective of finding an integrated approach towards repairs to damaged infrastructure.

4.5 Programme 5: Civil Aviation

4.5.1 Purpose:

The programme exists to facilitate the development of an economically viable air transport industry that is safe, secure, efficient, environmentally friendly and compliant with international standards through regulations and investigations; and to oversee aviation public entities.

4.5.2 Sub Programmes

- **4.5.2.1** Aviation Policy and Regulation
- 4.5.2.2 Aviation Safety, Security Environment and Search & Rescue
- 4.5.2.3 Aviation Economic Analysis and Industry Development

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

The current National Civil Aviation Policy (NCAP) has been in existence for six (06) years. Numerous gaps were identified in the current policy framework, due to several developments since the approval of NCAP in 2017 and the devastating impact of COVID-19 pandemic on the aviation sector. The current framework is not comprehensive, not transformational and not instructive enough to bring certainty and drive inclusive growth in the sector. There is therefore a need for a significant change in the policy trajectory aimed at promoting national interest and domestic growth of the aviation sector.

The Department obtained approval to submit the Draft Comprehensive National Civil Aviation Policy to Cabinet for approval for public consultation. The draft policy will serve in the agenda of the seventh administration.

4.5.6 Strategy to overcome areas of under-performance

4.5.6.1 Aviation Safety Investigation Board (ASIB)

The establishment of the ASIB is dependent on the proclamation of the Civil Aviation Amendment Act, which is dependent on the approval of the supporting Regulations and appointment of members to serve on the Board. It will be in prioritised in the 2024/25 financial year.

4.5.6.2 Draft Aeronautical and Maritime Search and Rescue (AMSAR) Bill

Due to the end of term of the current administration, the AMSAR Bill was not approved for submission to Cabinet as targeted. The Bill will be prioritised in the 2024/25 financial year.

4.5.7 Performance in relation to Standardised Outputs and Output Indicators

4.5.7.1 Aviation Infrastructure, Job Creation and Innovation

Institution	Output Indicator	Annual Target	Reported actual performance As At 31 March 2024	Source Of Data
Competitive and Accessible	Markets			
Airports Company South Africa (ACSA)	Number of jobs created through public infrastructure projects (ACSA Infrastructure Programme)	• 18 405 jobs	19 156 jobs were created	Annual progress report signed off by ACSA Accounting Authority
	Number of full-time equivalents (FTEs) created	• 2 400 FTEs		
	Number of youths (18-35) employed Number of women employed	Baseline - FY2019/20 - 38.6% Baseline - FY2019/20 - 45.5%		
	Number of persons with disabilities employed	Baseline - FY2019/20 – 2.5%		

4.5.7.2 Aviation Innovation

Institution	Output Indicator	Annual Target	Reported Actual Performance As At 31 March 2024	Source Of Data
Innovation				
South African Civil Aviation Authority (SACAA)	Review Regulations for Remotely-Piloted Aircraft System (RPAS)	Reviewed Regulations for Remotely-Piloted Aircraft System (RPAS) approved	 SACAA, through the Civil Aviation Regulations Committee (CARCom), amended a number of parts on the Civil Aviation Regulations relating to RPAS operations. The 24th Amendment of the Civil Aviation Regulations, 2022 was approved by the Minister. 	Quarterly and annual reports from SACAA and Civil Aviation

4.5.7.3 Aviation Safety

Institution	Output Indicator	Annual Target	Reported actual performance As At 31 March 2024	Source Of Data
Safer Transport Systems				
South African Civil Aviation Authority (SACAA)	Number of fatal accidents recorded in scheduled commercial aviation % reduction in fatal accidents recorded in general aviation	10% reduction	A total of thirteen (13) fatal accidents were reported from 01 April 2023 up to 31 March 2024. The number of cumulative fatal accidents increased by four when comparing data from 2022/23 financial year with 2023/24 financial year.	Quarterly and annual reports from SACAA and Civil Aviation

4.6 Programme 6: Maritime Transport

4.6.1 Purpose:

The programme exists to implement the Comprehensive Maritime Transport Policy (CMTP) to ensure promotion and coordination; as well as Infrastructure and Industry development and achieve compliance through monitoring, evaluation and oversight and collaboration with maritime related public entities namely The Ports Regulator (PRSA), National Ports Authority; South African Maritime Safety Authority (SAMSA) industry and international bodies.

4.6.2 Sub Programmes:

- **4.6.2.1** Maritime Policy and Legislation
- **4.6.2.2** Maritime Infrastructure and Industry Development
- **4.6.2.3** Maritime Implementation, Monitoring and Evaluation

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

(a) National Shipping Company

The Comprehensive Maritime Transport Policy (CMTP), policy statement on the transformation and growth of the Maritime Transport Sector provides that the Department shall, in consultation with relevant departments and relevant organs of State, take steps to establish a national shipping carrier as a strategic pillar in the revival of the maritime transport industry. The Department has to work in cooperation with relevant departments and relevant organs of State to coordinate efforts in unlocking the potential of the oceans economy and to ensure that a significant targeted percentage of exports and imports are moved by the national shipping carrier.

The country lacks capacity in the manufacturing of vessels in order to promote ownership by local entrepreneurs in the maritime/shipping industry. The Department and the Development Bank of South Africa (DBSA) signed a Memorandum of Understanding to collaborate in embarking on the feasibility study on the establishment of the South African Shipping Company as a step to redress the current situation.

The aim of this project is to conduct a study towards the establishment of the South African Shipping Company to accrue a series of socio-economic benefits that will contribute to economic growth and development of the country.

(b) Corporatisation of the National Ports Authority

In June 2021, the President, announced the decision to corporatize Transnet National Ports Authority (TNPA) as an independent subsidiary of Transnet SOC Ltd. Following the pronouncement, an interim board was appointed, a Memorandum of Incorporation (MoI) was finalised and the establishment of TNPA as an independent subsidiary of Transnet was gazetted in July 2021. To ensure that all requisite statutory and legal requirements are addressed, a project plan was developed in 2021/22.

During the period under review, the Department of Public Enterprises (DPE) considered the Department's recommendations on Transnet and a section 54 application is underway. The Minister of Transport requested DPE to engage DoT to ensure that the two departments are aligned on the corporatisation process.

The provisions of Section 3 (1) (c) of the Act requires that "Any appointment to the divisional board or of any functionary of National Ports Authority of South Africa made after the commencement of this Act, must be made in terms of this Act". TNPA is its current format does not have a Board appointed to deal with its governance, management and strategic issues as outlined in the Companies Act separate from the Transnet Group.

During October 2023, the appointment of the inaugural board of directors of Transnet National Port Authority (TNPA) was announced. The TNPA's Board term of office is for three (3) years, effective from 01 October 2023 to 30 September 2026.

(c) Operation Phakisa Oceans Economy

Inefficiencies in container freight rail and port services raise the cost of South Africa's imports and make exports less competitive. To address this, the Department, in partnership with the Department of Public Enterprises (DPE) and Transnet, are implementing a number of structural reforms. Among notable achievements in this space, the following were recorded:

- a) The establishment of the National Ports Authority as an independent subsidiary of Transnet provided a boost for investor confidence;
- b) Processes have been initiated to award more concessions in the ports, to partner with the private sector for massive investments in new container port terminals, and to partner with an international terminal operator to assist Transnet Port Terminals to improve its container freight operations; and
- c) Plans are already afoot to introduce third party access on the freight rail network.

The development of the Oceans Economy Master Plan (OEMP) is now in its final stages. An Implementation Plan has been drafted with social partners, government and its agencies, industry stakeholders, community stakeholders and organised labour.

The Department, as the MTU Head and administrative office, is responsible for Working Group 01: Marine Manufacturing and Repairs, out of eight (08) work streams. The finalisation of the 3-Foot plan amendment process for Marine Transport and Manufacturing Delivery Unit (MTN DU) is still ongoing.

(d) National Ports Amendment Bill

A gazette was published for stakeholders to input and comment on the National Ports Amendment Bill. Stakeholder comments were received from (Western Provincial Government, Maritime Law Association, SASOL, Astron Energy), however, the intention is to incorporate stakeholder comments on the Draft National Ports Amendment Bill. Subsequently, the Bill will be presented to Clusters and then Cabinet.

(e) Maritime Development Fund Bill

Cabinet Committee requested the Department to consult National Treasury, citing concerns on the section that deals with the management of fund. A letter was written to National Treasury in this regard.

4.6.6 Strategy to overcome areas of under performance

4.6.6.1 Maritime Development Fund Bill

The Maritime Development Fund Bill was not approved for submission to Cabinet. The Cabinet committee recommended that the Department consults the National Treasury on the Bill. The consultation with the National Treasury will be prioritised in the 2024/25 financial year.

4.6.7 Performance in relation to Standardised Outputs and Output Indicators

4.6.7.1 Maritime Safety

Institution	Output Indicator	Annual Target	Reported actual performance as At 31 March 2024	Source Of data
South African Maritime Safety Authority (SAMSA)	Reportable maritime safety incident rate recorded for all types of vessels	Below ten (10) reportable maritime safety incident rate	21 maritime safety incidents were recorded	SAMSA quarterly and annual reports
	Reportable maritime fatality rate recorded for all types of vessels	Below two (2) reportable maritime fatality rate	2.3 fatality rate was recorded	
	% implementation of the national strategic plan to end gender-based violence and femicide in the maritime transport sector	100% implementation	There were no GBV cases reported during the reporting period.	

4.6.7.2 Maritime Pollution reduction

Institution	Output Indicator	Annual Target	Reported actual performance as At 31 March 2024	Source Of Data
Reduction in Greenhouse Gas	Emission and Pollution			
South African Maritime Safety Authority (SAMSA)	Maritime pollution incident rate for all types of vessels	Below two (2) maritime pollution rate	Five (05) reportable maritime pollution rate were recorded.	SAMSA quarterly and annual reports

4.7 Programme 7: Public Transport

4.7.1 Purpose:

The programme exists to ensure the provision and regulation of safe, secure, reliable, cost-effective and sustainable public transport services in South Africa through legislation, policies and strategies.

4.7.2 Sub Programmes:

- **4.7.2.1** Public Transport Network Development
- 4.7.2.2 Public Transport Regulation
- 4.7.2.3 Public Transport Industry Development
- 4.7.2.4 Rural and Scholar Transport Implementation

Outcomes, Outputs, Output Indicators, Targets and Actual Achievements

a) Integrated Single Ticketing System

Fare integration and single ticketing systems are a fundamental pillar for the development of an integrated public transport system. The first step includes integrating public transport infrastructure planning and operations, and then implementing fare integration. The latter is an essential issue to tackle for the city/network authorities because it facilitates the use of the public transport system, makes it more socially accessible and increases its attractiveness.

Rustenburg and Polokwane have appointed vendors, as captured in the Transactions report. A pilot phase roll-out of the Integrated Single Ticketing System was monitored in Rustenburg and Polokwane Local Municipalities. Rustenburg sold approximately R11m of fare card topups and 1,1 million transactions on "Yarona", in the past twelve months while Rustenburg performed at an average of 3 500 transactions a day. This is expected to increase as Yarona expands its fleet size and operations. Polokwane sold R8,5m of Fare card top-ups and 850,000 fare payment transactions on Leeto La Polokwane. Polokwane averaged over 2 500 fare transactions a day. This will increase as the system expands.

b) Integrated Public Transport Networks (IPTNs)

In pursuit of the sector's desired outcome of an affordable, safe, universally accessible and reliable public transport, to date, eight (08) cities, which includes Johannesburg, Tshwane,

Ekurhuleni, Cape Town, George, Polokwane Nelson Mandela Bay and Rustenburg, are successfully operating the Integrated Public Transport Networks (IPTNs) and carry a combined 153 670 average weekday passenger trips during the period under review.

c) e-Hailing

Regulations for e-hailing services have been evolving over the past decade as these services have grown in popularity. In the early days of-hailing, regulations were often minimal or non-existent, because these services were seen as a novel form of transportation. As e-hailing services grew in popularity, government took notice and started to develop regulations to govern these services.

Overtime, regulations have become more comprehensive, covering a wider range of issues such as fare structures, data privacy, and accessibility requirements. e-hailing services are now subject to similar regulations as traditional taxi services. During the period under review, regulations for e-hailing, were developed accordingly.

d) Revised Taxi Recapitalisation Programme (RTRP)

The Revised Taxi Recapitalisation Programme (RTRP) commenced in March 2019 and continues with the taxi scrapping, however, there are also efforts to ensure economic empowerment and accelerating the transformation of the minibus taxi industry. A total of 2 612 vehicles were scrapped for the 2023/24 financial year.

4.7.3 Report Against the Originally Tabled Annual Performance Plan Until Date of Re-Tabling

Zululand	Municipality		N/A	2 969	2 512	

During the 2023/24 financial year, Joe Gqabi District Municipalities surrendered R2 147 000 and only R 200 000.00 was transferred to finalise procurement of their service providers and remaining funds were redistributed and adjusted. The amounts are tabled below:

District Municipality	Allocation	Adjustment
VHEMBE	2 845 000	430 000
KING CETSHWAYO	3 145 000	430 000
ZULULAND	2 969 000	430 000
JOHN TAOLO GAETSEWE	2 559 000	430 000
AMATHOLE	3 545 000	430 000
TOTAL		2 147 000

Some of the challenges encountered in the programme include the following:

- a) Most contracts of service providers ended and there were delayed appointments in other districts and fieldwork was impacted due to regulations.
- b) The issue of ownership of the programme by the municipalities as most times data is hosted by service providers instead of districts.
- c) Involvement of some local municipalities in the programme.
- d) Delays by district municipalities to procure technical services on time, long before the expiry of the contracts.
- e) Handing over of graduates by outgoing service provider when the contract comes to an end to the DM and/or the newly appointed service provider.
- f) Lack of support from the Provincial government in some of the provinces.

Furthermore, graduates are now becoming skilled in the work they are doing. The DM's are yet to reach agreement on how these graduates will be taken up after the training period, with clear guidelines on their salary expectations and contractual arrangements.

Conditional Grant 2: Provincial Road Maintenance Grant (PRMG)

Department/ Municipality to whom the grant has been transferred	Department of Transport				
Purpose of the grant	 To supplement provincial investments for road infrastructure investment (routine, periodic and special maintenance) and specific programmes or road infrastructure programmes. To implement and maintain road asset management system at provincial road authorities 				
			2023/24 YTD /	ACHIEVED	
	Physical Indicators	Annual Target	Square Metres (m²)	Lane Kilometres (km)

Reasons if amount as per DORA not transferred	• N/A				

- The Department, as a Transferring Officer of the Provincial Road Maintenance Grant (Vote 35), has the
 responsibility to monitor the financial and non-financial performance of all programmes partially or fully
 funded by this allocation as Part A of Schedule 4, in accordance with subsection (2) of the Division of
 Revenue Act, No.5 of 2023, and the PRMG Conditional Framework.
- The PRMG Conditional Framework stipulates monthly, quarterly and annual reporting requirements in detail, enabling the extensive evaluation of financial, physical and social indicator outputs against set targets across the nine (9) Provincial Departments.
- The Department conducts quarterly high-level engagements with all nine (9) Provincial Departments, to allow for robust discussions in the resolution of challenges in relation to slow progress in project implementation, which often results in non-compliance and unsatisfactory performance.

Monitoring mechanism by the transferring department

- The Department also conducts monthly site inspections to monitor project implementation and evaluate the utilisation of grant funds. The following methodology and approach are used:
- a) Projects are selected for inspection on a month-to-month basis, from the IRM reported expenditure using the risk profile method (based on high spending);
- b) Pre and post inspection meetings are held to discuss amongst other aspects of the project, efficient budget allocation against total project cost, the expenditure reported in that particular month against the allocated budget and timelines, project progress and challenges experienced (especially those posing threat to project completion);
- c) The above consultations between DoT staff and the Provincial project management team serve to obtain a broader perspective on the project before going on project site;
- d) The DoT team is afforded the opportunity to interview project contractors, beneficiaries and local communities to determine how they perceive the project;
- e) Information obtained is included in the site inspection report;
- f) The 2023/24 PRMG Conditional Framework is used as a tool for compliance by provinces as well as a tool to measure the socio-economic impact assessment of the project.

Conditional Grant 3: Public Transport Operation Grant (PTOG)

Department/ Municipality to whom the grant has been transferred	Provincial Department of Transport		
Purpose of the grant	To provide supplementary funding towards public transport services provided by provincial department of transport		
Expected outputs of the grant	Number of vehicles subsidised Number of Vehicles Subsidised (cumulative and Number of trips operated Number of passengers Number of kilometres Number of employees Number of vehicles subsidised Number of Vehicles Subsidised (cumulative) Number of trips operated	nual number) : 6188 : 74 264 : 5 256 274	
Actual outputs achieved	Number of passengers Number of kilometres Number of employees N/A	: 238 564 935 : 207 680 196 : 138 511	
Amount per amended DORA	N/A		
Amount transferred (R'000)	EC - R 295 048 000 FS - R 326 199 000 GP - R 2 850 898 000 KZN - R 1 367 009 000 LP - R 440 951 000 MP - R 742 468 000 NC - R 66 383 000 NW - R 136 459 000 WC - R 1 177 519 000		
Reasons if amount as per DORA not transferred	The Gauteng province's October 2023 transfer was delayed and processed in November 2023 due to issues related to none compliance with the PTOG framework. All the transfer payments to the eight (8) provinces were made on time as per the approved payment schedule.		

	EC - R 295 048 000		
	FS - R 326 199 000		
	GP - R 2 659 527 000		
	KZN -R 1 367 009 000		
Amount spent by the	LP - R 440 820 000		
department/ municipality (R'000)	MP - R 742 353 000		
	NC - R 62 465 000		
	NW - R 136 459 000		
	WC - R 1 177 519 000		
Reasons for the funds unspent by the entity	 Most provinces could not spend the March 2024 transfers because the operations takes place until the end of the month (March) and claims would be submitted in mid-April 2024 which is the new financial year and therefore forcing the provinces to apply for roll-over. That is due to the Auditor General (in some provinces) making negative findings for paying half of the claims on the 15th of March as actual and the remainder as estimate since it was deemed as advanced payment which is not allowed by PFMA.

	PTOG Annual Performance evaluation report		

Conditional Grant 4: Public Transport Network Grant (PTNG).

Department/ Municipality to whom the grant has been transferred	CapeTown, Ekurhuleni, eThekwini, George, Jo'burg, Mangaung, Nelson Mandela Bay, Polokwane, Rustenburg, Tshwane.	
Purpose of the grant	 To provide funding for accelerated construction and improvement of public and non-motorised transport infrastructure that forms part of a municipal integrated public transport network). To support the planning, regulation, control, management and operations of fiscally and financially sustainable municipal public transport network services. 	
Expected outputs of the grant	Network Operations Component	

- Number of average weekday passenger trips carried on Public Transport Network Grant (PTNG) funded networks.
- Number and percentage of municipal households within a 500m walk to an integrated public transport network (IPTN) station or stop that has a minimum peak period frequency of 15 minutes or better.
- Percentage uptime for network operating systems as a proportion of the network's public operating hours.
- Passengers per network vehicle per average weekday.

Network Infrastructure Component

- Public transport network infrastructure including dedicated lanes; routes and stops/shelters; stations; depots; signage, audio and visual information displays; control centres and related information technology; fare systems and vehicles if the national Department of Transport (DoT) in consultation with National Treasury approves use of grant funds to purchase vehicles; non-motorised transport (NMT) infrastructure that supports network integration including but not limited to sidewalks, cycleways, cycle storage at stations.
- Plans and detailed designs related to IPTN infrastructure and operations.

Cape Town: Total fare revenue R232 million; Advertising and merchandising R3, 8 million; Revenue kilometres 13,2 million; Passenger journeys 14,2 million.

Ekurhuleni: Total fare revenue R25 million; Revenue kilometres 1 million; Passenger trips (boarding) 1,9 million; Passenger journeys 1,9 million. Construction of NMT 38% progress.

Actual outputs achieved

eThekwini: Corridor 3 (C3) work package 5 (P5)- Construction of Crossroads Link BRT Lane: 11% progress on bulk earthworks and service relocations; C3 WP6- 0% progress on construction of Road Widening and Retaining Structure.

George: Total fare revenue R60,5 million; Revenue kilometres 4,4 million; Passenger trips (boarding) 4,3 million; Passenger journeys 4,8 million. Road Rehabilitation: Golf Street Phase 1, 94% complete; Golf Street Phase 2. 65% complete; Ngkani Street Phase 2: 80% Complete.

Jo'burg: Total fare revenue R64 million; Revenue kilometres 8,6 million; Passenger trips (boarding) 88 million. 15% progress of Sandton station;

65% progress of Selby 2C depot; 13% progress of Gandhi Square station. Mangaung: Moshoeshoe trunk route part B 100% complete; Depot construction (civil works) 100% complete. Nelson Mandela Bay: Total fare revenue R500 thousands; Revenue kilometres 69 thousand; Passenger trips (boarding) 67 thousand; Passenger journeys 67 thousand. Polokwane: Total fare revenue R7 million; Revenue kilometres 520 thousand; Passenger trips (boarding's) 628 thousand. Depot civil works 46% progress; Sand river bridge construction 82% progress; Station upper structure - 96% progress; Refurbishment of daytime layover facility 94% progress. Rustenburg: Total fare revenue R12,5 million; Revenue kilometres 2,6 million; Passenger trips (boarding) 2,4 million. Tshwane: Total fare revenue R11 million; Revenue kilometres 963 thousand; Passenger trips (boarding) 880 thousand: Passenger journeys 721 thousand. Line 2 C Jan Masilela project complete; Line 2C Lynwood Rd 40% construction progress; Wonderboom Intermodal facility (building works) 96% progress; Line 2B Lynwood rd. 22% progress; Line 2B Atterbury rd. 22% progress. 	Total: R'000	R 4 341 789	
Reasons for the funds unspent by the entity	The municipal sphere's financial year annually runs for 3 more months after the end of the national financial year therefore, the unspent funds are likely to be spent thus increasing the expended amount to date.		
Monitoring mechanism by the transferring department	 Monthly or bimonthly progress meetings with IPTN implementing municipalities, Funded municipalities submit to the transferring officer, monthly expenditure, quarterly performance and annual programme evaluation reports. Dedicated portfolio managers that oversee IPTN implementing municipalities. Monitoring IRPTN/IPTN implementation progress in line with the National Land Transport Act (NLTA) and the Public Transport Strategy (PTS). Verification of financial and performance reports from municipalities by conducting at least one site visit per annum. Allocation of grant funds based on stated priorities through an allocation mechanism (criteria) agreed to by the NDoT and National Treasury.

PART C: GOVERNANCE

1. INTRODUCTION

Commitment by the Department to maintain the highest standards of governance is fundamental to the management of public finances and resources. The public needs assurance that the Department has good governance structures in place to effectively, efficiently and economically utilize the state resources, which is funded by the tax payer.

2. RISK MANAGEMENT

Risk Management is an integral part of the Department's business model that is embedded throughout the Department's operations. Managing risk became central to the Department's business operations. The Department ensured an integrated approach in strategy formulation, planning processes and risk management. The department's Risk Management Framework sets out how the Department organizes and applies its risk management practices to ensure that all activities are conducted in line with the principles and limits mandated by the departmental Risk Management Policy. The Risk Management Policy describes the Department's risk mandate and articulates its fundamental risk management principles. The Department strives to apply these four principles consistently across all risk categories at Departmental and programme level. The Department therefore operates within a clearly defined risk policy and risk control framework; hence it has an approved Risk Management Policy Framework and Implementation Plan that sets out the following:

- a) Clear accountability: The department's operations are based on the principle of delegated and clearly defined authority. Individuals are accountable for the risks they take on and their incentives are aligned with department's overall strategic objectives.
- b) **Independent risk controlling:** Dedicated units within Risk Management control all risk-taking activities. They are supported by independent department Internal Audit function.
- c) Transparency: Risk transparency, knowledge sharing and responsiveness to change are an integral to the risk control process. The main objective of risk transparency is to create a culture of mutual trust and reduce the likelihood of surprises in the source and potential magnitude of losses.

The Department conducted Risk Assessments to identify new and emerging risks in order to ensure an up-to-date risk profile of the department and also manage all the risks that have the potential to impact (positively or negatively) on the achievement of the intended priorities and outcomes of the Department.

The Department's Risk Management Committee (RMC) has a Terms of Reference (TOR) that regulate its affairs and is chaired by a Non-Executive (External Chairperson). This Committee

assisted the Accounting Officer to discharge his legislative risk management responsibilities by reviewing the system of risk management such as Risk Management Policy, Risk Management Strategy, Implementation Plans and the development of Strategic Risk Register and monitoring of the risk management process at strategic, management and operational levels during the reporting period under review. The Committee conducted meetings on the dates listed below:

- 03 August 2023;
- 29 September 2023;
- 06 October 2023; and
- 06 February 2024.

The Department's Risk Management Committee produced four reports which were discussed with the Accounting Officer and were also shared with the departmental Audit Committee. The Audit Committee discharges its responsibilities and exercises its oversight by ensuring that the department appropriately addresses all the key risk areas including: All the risk governance structures held their meetings quarterly; Risk Management Frameworks and Policies are developed.

Over and above the Risk Management Committee, there is also a Risk Management Forum which includes all the Risk Champions. The Department took steps to measure the value of risk management in the Department's performance through robust risk reporting on risks identified and analysed at all levels of the Department during Branch and EXCO meetings. The process to monitor the implementation of risk mitigation plans on the strategic and operational risks is an on-going activity throughout the reporting period to ensure that visible and quantifiable improvements on the department's performance are realized. The Department is committed to ensuring that risk management is continuously embedded within its planning processes, decision making structures and is included in all operational procedures of the department.

3. FRAUD AND CORRUPTION

The Department conducts fraud risk assessments on a regular basis to identify fraud and corruption risks within the Department. Fraud risks identified are incorporated in the fraud risk register which is used to monitor mitigations of fraud risk by management. The fraud prevention plan is implemented through the following four pillars of anti-corruption:

a) Fraud Prevention

Fraud prevention strategies entail measures put in place to prevent fraud, corruption, and other irregularities within the department. Management is responsible for developing measures in place to prevent any irregularities within their areas of operation.

i. Probity Audits

The Department has measures in place such as probity audits to mitigate the risk of tenders being awarded irregularly. Tenders are subjected to probity audit before the tenders are awarded.

ii. Security screening of job applicants

Before employees are appointed, their applications are subjected to security screening to ensure that they are suitable for the position applied. Security screening entails citizenship verifications, qualification verification, criminal records checks, and others.

iii. Fraud risk assessment

The Department conducts regular fraud risk assessments to identify areas vulnerable to fraud/corruption. Fraud triangle and the fraud trees are used as instruments to conduct fraud risk assessments. Fraud risk assessment processes are carried out through interviews, review of business processes, newspaper articles, review of quotation registers, review of tenders awarded, analyses of allegations reported, and internal and external audit reports reviews. The assessment also reviews payroll systems to identify discrepancies.

iv. Fraud Awareness Campaigns

Regular fraud awareness campaigns are conducted every month to educate employees about fraud and corruption.

b) Fraud detection

- a) Trends analysis are conducted regularly to identify patterns and trends used for fraudulent transactions.
- b) Data mining tools such as tools are used to interrogate suspected transactions.
- Regular review of business processes to identify red flags and suspected fraudulent transactions.

c) Investigation

Investigations are conducted to address all allegations reported.

d) Resolution support

- a) Provide support in respect of the disciplinary hearing
- b) Provide support in respect of the criminal cases
- c) Provide support in respect of Civil Cases

3.1 Fraud Implementation Plan

- a) All suspected fraudulent transactions are reported to SAPS as part of the fraud implementation plan in line with the requirement in terms of section 34 of the Prevention and Combating of Corrupt Activities Act.
- b) Minister, Deputy Minister, Director-General, and DDGs have all signed pledges towards the implementation of the Zero tolerance stance on fraud and corruption within the department.
- Fraud risk assessment is conducted on a scale of zero and all fraud risks are categorized as high during fraud risk assessments.
- d) All fraud risks identified during fraud risk assessment are registered in the fraud risk register.
- e) All fraud risks identified are addressed within 45 days to ensure compliance with paragraph 3.2.1 of the Treasury Regulation issued in terms of the PFMA.
- f) As part of the fraud implementation plan, quarterly reports are submitted to the Risk Committee, EXCO, Audit Committee, and Ethics Committee to report the status quo concerning fraud incidents reported during the period under review.
- g) Monthly meetings are held with Labour Relations to discuss cases referred to initiate disciplinary hearings and to provide inputs in respect of formulating charge sheets regarding matters referred for disciplinary hearings.
- h) The Department regularly engages the Audit-General on matters relating to fraud and corruption.
- The Department regularly updates the allegation registers with new cases and response plan relating to allegations reported.
- j) The investigations are initiated within 30 days as part of fraud implementation in line with paragraph 4 of the Treasury Regulation.
- k) Regular fraud awareness campaigns are held within the Department.

3.2 Mechanisms in place to report fraud and corruption and how these operate

- a) Whistle-blowers are encouraged to report allegations by the guidelines and processes prescribed in terms of the Protected Disclosure Act as amended.
- b) Whistle-blowers are protected from being subjected to any act that amounts to occupational detriments.
- c) Employees are educated about the processes relating to reporting any irregularities and channels to follow.

3.3 Reporting channels for new allegations

- a) Allegations are reported directly to the Chief Audit Executive/ Director-General/ Line function/Public Service Commission for investigations.
- b) Allegations are also reported to the Executive Authority.
- c) Cases are also reported to the department website anonymously

- d) Cases are also reported through walk-in processes wherein a person visits the forensic investigation unit and reports matters.
- e) Allegations are reported in several ways to the chief directorate internal audit.

4. MINIMISING CONFLICT OF INTEREST

- a) The implementation of Standard Bidding Documents, including the SBD 4 Form Declaration of interest for all procurement as a measure to minimise conflict of interest in SCM processes. SBD Forms are required for all procurement above R2 000.00. Prospective suppliers or service providers are required to declare any interest and previous performance and this considered in evaluation and adjudication processes.
- b) Members of Bid Evaluation and Adjudication Committees are also required to sign necessary declaration of interest forms prior to participating in evaluation and adjudication processes. Where interest is declared, respective members are requested to recuse themselves from participating in SCM processes.

5. CODE OF CONDUCT

The Code of Conduct serves as a guideline to employees as to what is expected of them from an ethical point of view, both in their individual conduct and in their relations with others. Compliance with the Code is expected to enhance professionalism and to help ensure confidence in the public service. New appointees are inducted on the Code of Conduct and SMS members are also trained on disciplinary matters related to violation of the Code of Conduct.

6. HEALTH SAFETY AND ENVIRONMENTAL ISSUES

The employer must provide and maintain a workplace that is free from hazards that may cause harm or injuries to employees or any person entering the building. Through Hazard identification risk assessments conducted, the recommendations for corrective measures are approved by the Director-General for implementation. Compliance to the Occupational Health and Safety Act 85 of 1993 is a legislative requirement.

The consequences of non-compliance to the Occupational Health and Safety 85 of 1993 and its Regulations could lead to the following: Injuries by employees and visitors accessing the building, possible litigations against the Department; an increase in claims for the Compensation Commissioner and it could have detrimental effects on business continuity.

7. PORTFOLIO COMMITTEES

Refer to the Budgetary Review and Recommendation Report (BRRR) of the Portfolio Committee on Transport (PCoT), dated 16 November 202, with detailed resolutions.

During the year under review, the following are some of the meetings of the Portfolio Committee on Transport wherein the Department presented its quarterly, annual performance and expenditure thereof:

- a) 18 April 2023;
- b) 02 May 2023; and
- c) 07 February 2024.

The table below indicates a summary of the reporting requests the Department reported on in the 2023/24 financial year.

	boards, closely monitoring the		security awareness are being performed as at October 2023.	
	implementation of projects and budget			
	expenditure, etc.).		Action Plan	
			The action plan was applied to arrive at the following findings	

Resolution	Subject	Details	Response by the department	Resolved
No.		(Timeframe)		(Yes/No)
			amongst others:	
			a) Contract management, as a corrective measure, Contracts to	
			include KPI's for performance monitoring before being signed.	
			b) Inadequate management of IT risks. As a corrective measure, IT	
			risks on IT report and status report was updated accordingly	
			c) Cyber security assessment not conducted and eventually cyber	
			security assessment is being performed.	
			i. The Public Finance Management Act and Treasury	
			Regulations checklist are being used to closely monitor	
			entities.	
			ii. The effective Standard Operating Procedures (SOPs)	
			support production efficiency because they yield strong	
			supply chains, happy customers, and safe employees. The	
			PRSA submits claims and reports on a quarterly basis, the	
			reports comprehensively cover all what transpired for the	
			duration of the quarter. Bilateral meetings between the entity	
			and the department also helps to monitor the implementation	
			of projects as well as the budget expenditure. The entities	
			need to take the time to review current business processes	
			and look for areas to improve, redefine, or reorganize.

			MDPWR & T had to reprioritise within their available budget over	
			the MTEF. The MDPWR & T has informed the Department that	
			funds could not be identified for reprioritisation within the MTEF	
			budget to cater for the update of the rail feasibility study. To date,	
			there has been no progress with the review of the feasibility	
			study.	
			Moloto Corridor:	
			a. An exercise was carried out to investigate interventions to	
			improve transport infrastructure and services along the Moloto	
			Corridor route, which included the road corridor, the public	
			transport system and a possible railway linkage.	
			Road network:	
			a. The Department identified a need to develop the entire road	
			network as a seamless infrastructure throughout in order to keep	
			the condition of the road on the same standard irrespective of the	
			province and be able to provide safe access to economic	
			opportunities to the thirty-three (33) informal settlements and	
			townships within its immediate vicinity, which is Pretoria in the	
			Gauteng province.	
			b. From historic records on similar projects executed by SANRAL it	
			requires R400 000 to create a job. Over the five years R3.7	

Resolution	Subject	Details	Response by the department	Resolved
No.		(Timeframe)		(Yes/No)
			billion has been allocated for the Moloto Road Project.	
			c. The estimated number of job opportunities to be created over 5-	
			year period is 12 500 and has been staggered as follows:	
			i. Gauteng Province: 6250	
			ii. Mpumalanga Province: 3250	
			iii. Limpopo Province: 3000	
			To date, all the necessary engineering and related service providers were appointed and the following progress can be reported:	
			Mpumalanga:	
			i. Scope – 4 intersections in Mpumalanga (priority works).	
			ii. Main Contractor – Raubex Moloto JV - R106 m (incl. VAT),	
			works now completed.	
			iii. Next phase is at the tender stage for road works (upgrades)	
			in the Mpumalanga section.	
			Limpopo:	
			i. Scope – Reconstruction of 24.5 km up to Marble Hall.	
			ii. Main contractor – KPMM JV, R244 m (incl. VAT) for 28	
			months (Commenced on 09 January 2017).	
			,	
			iii. Delays in upgrade of the Moloto road (Mpumalanga and	
			Limpopo) - the Limpopo section leading to Marble hall in the	

Resolution	Subject	Details (Timeframe)	Response by the department	Resolved
No.		(Timeframe)	Elias Motsoaledi Municipality which was part of Phase 2 has	(Yes/No)
			been put on hold due to the Company being liquidated and is	
			in the process of going through the business rescue.	
			Gauteng:	
			i. This section of the Road was officially handed over by the	
			Gauteng Province to SANRAL during June 2020.	
			ii. The process is underway with the detailed planning designs	
			for the upgrade of this portion of the Roads.	
			iii. In the meantime, a Route Road Maintenance Contract is in	
			place to address day-to-day maintenance needs.	
			Next Steps (work in progress)	
			a) For the two sections (Mpumalanga) and (Limpopo): the work	
			package projects have been advertised and are currently under	
			the adjudication process.	
			b) The biggest challenge with the potential for further delays in the	
			awarding of the tenders is the land acquisition process that	
			required SANRAL to first obtain a community resolution through	
			a mass community meeting which is not possible under the	
			current lockdown restrictions.

			Agency championed the establishment of the Cross-Border Road	

Resolution	Subject	Details (Timeframe)	Re	esponse by the department	Resolved
No.		(Timeframe)	f) g)	Transport Regulators Forum (CBRT-RF), a forum of all cross-border regulators in SADC. South Africa was re-elected secretariat of the Forum in March 2022. The CBRT-RF adopted an annual work/action plan, which is a regional work plan with activities agreed upon by the road transport regulators of twelve (12) SADC member states. The activities focus on specific areas of chapters 5 and 6 of the SADC Protocol on Transport, Communication and Meteorology which once implemented would contribute immensely towards the harmonisation of road transport policies. For the current financial year, C-BRTA is responsible for three activities in the CBRT-RF action plan. At the end of the current financial year, the Agency should have achieved 100% implementation of the CBRT-RF work plan linked to the C-BRTA implementation plan, which would contribute towards harmonisation of cross-border road transport policies in the SADC region. The CBRT-RF submitted its funding strategy to the meeting of SADC Ministers in July 2021. The funding strategy of the forum is still under deliberation by member states. Work is currently underway to implement the other activities.	(Yes/No)

			2011.	
			d) A Panel was constituted, which comprised of Judge Thokozile	
			Masipa as the Chairperson of the Panel, and two aviation	
			experts: Mr. Seboseso Machobane and Ms. Refilwe Ledwaba.	
			The Appeal Panel analysed the final accident report from the	
			EAAIB and assessed the documents and information presented	
			to them in arriving at the conclusion. The Panel presented a	
			recommendation "that the Minister reopen the investigation and	
			order that new information be submitted to an entity that will	
			proceed afresh with the investigation."	
			e) It is against this background that the Ministry is exploring	
			reopening the investigation. Further update will be provided once	
			investigation has been concluded.	

8. SCOPA RESOLUTIONS

Resolution No.	Subject	Details	Response by the department	Resolved (Yes/No)	
1.	Feedback from the Road Accident Fund (RAF) on matters raised	Pending judgement between the RAF and the Auditor-General.	RAF requested an extension to conclude this matter with external stakeholders.	No	
	at SCOPA and a briefing on challenges at the entity that require the Committees assistance.	briefing on challenges at the entity that require the Committees	Non-tabling of the 2021/22 financial statements and annual report	The Minister of Transport said the non-tabling of the 2021/22 financial statements and annual report had been given attention. The RAF had submitted the report to the Department, but there were clarity-seeking matters that needed to be considered.	No
		Litigation Matters	The RAF board admitted that the matter was critical and complex in the sense that it involved legalities. The new board will review the information presented to the previous board and requested SCOPA to give it until the end of January to consider the matter and all the relevant information, to see if it would come to the same conclusion as the previous board concerning the litigation with the AGSA. The Committee agreed to this proposal.	No	
		Issues related to the invoices	The Special Investigating Unit (SIU) informed the Members that after its meeting with the Committee, they had a discussion with the RAF board chairperson over the issue involving invoices. It appeared that the RAF had not received the invoices in question. A letter with attached invoices and supporting documents had already been signed and submitted to the chairperson of the board and the Chief Executive Officer of RAF. Confirmation had been received that everything had gone through. Other issues related to the invoices would be raised outside of Parliament.	Yes	

9. PRIOR MODIFICATIONS TO AUDIT REPORTS

Include a discussion on mechanisms put in place by the Accounting Officer to resolve the matters reported by the AGSA in the previous financial year. This should include all matters in the audit report and those noted as important in the management report.

The discussion should be limited to all matters that gave rise to a qualification, disclaimer, adverse opinion and matters of non-compliance only. The department may include the information in a table as follows:

Nature of qualification, disclaimer, adverse opinion and matters of non-compliance	Financial year in which it first arose	Progress made in clearing / resolving the matter
Material misstatements in the reported	2022 - 2023	Revised the 2023-2024 Annual
performance information in the annual		Performance Plan
performance report against the Annual		
Performance Plan- Roads Branch was		
qualified.		

10. INTERNAL CONTROL UNIT

During the 2023/24 financial year, the Internal Control Unit developed Action Plan Implementation reports to address deficiencies identified during the regularity audit conducted by the Auditor-General South Africa (AGSA) and followed-up with management on progress regarding implementation of the action plans. Progress reports on implementation of action plans were presented to EXCO and the Audit Committee.

Internal Control Unit also conducted compliance reviews focusing on PFMA and Treasury Regulations. Any non-compliance identified during the review was reported to the affected Directorates and Chief Directorates. Internal Control Unit was also responsible for maintaining and safekeeping of financial documents and ensured that all requested financial documents by the AGSA are provided timeously. The Unit also conducted post checking reviews of payments effected to identify any irregularities and non-compliance to prescripts, any non-compliance was reported to the affected Directorates.

11. INTERNAL AUDIT AND AUDIT COMMITTEES

11.1 Key activities and objectives of the Internal Audit Function:

The strategic objective of Internal Audit is to provide an independent and objective assurance and advisory services in order to add value and improve the Department's operations through evaluation of risk management, internal control and governance processes.

During the 2023/24 financial year, internal audit conducted quality assurance reviews as required by the IIA standards and received a **General Conformance (GC)**.

There are four specialist areas of internal audit in the department, which include, Performance Audit, IT Audit, Operational Audits and Forensic Investigations. The following core Internal Audit Activities were undertaken in order to achieve the above strategic objective:

- a) The review of compliance with laws, regulations, institutional instructions and standard operational procedures;
- b) The review of effectiveness of operations;
- c) The review of reliability and integrity of financial and operational information;
- d) The review of safeguarding of assets;
- e) Risk review and assessments;
- f) Performance reviews (economical, efficient and effective use of resources);
- g) Review of Information systems environment;
- h) Special assignments (management requests);
- i) Fraud Prevention; and
- j) Forensic Investigations.

11.2 Summary of audit work done

The coverage of the Internal Audit activities was in accordance with the strategic and operational risks identified in the department. This also included the review of quarterly and annual performance information of all seven (7) branches within the department, quarterly and annual financial statements and IT Governance review. The reviews conducted under Assurance, Performance or IT Audits are as follows:

- a) Annual Performance Information Review
- b) Annual Financial Statements Review
- c) Transfers Review
- d) IT Project Management Review
- e) Conditional Grants Review (PRMG)
- f) Public Entity Oversight
- g) Quarterly Performance Reviews (4th quarter 2022/23 and 3 Quarters of 2023/24)
- h) Quarterly Interim Financial Statements Reviews (3 Quarters of 2023/24)
- i) Revised Taxi Recapitalisation Programme
- j) DORA Review
- k) Maritime Transport Safety and Security
- I) Cyber Security
- m) Contract and Project Management
- n) SCM Review
- o) IT General Controls Review
- p) Review of compliance with International Maritime Organization (IMO) Requirements

q) Review of compliance with International Civil Aviation Organization (ICAO) Requirements

r) Scholar Transport Review: Follow-Up

s) IT Governance Review: Follow-Up

t) Recruitment of senior managers: Follow-Up

u) Training of Employees: Follow-Up

v) IT Life Cycle: Follow-Up

w) Probity Audits (All bids with value of more than R3 million)

11.3 Key activities and objectives of the audit committee

The audit committee operates in terms of its approved written terms of reference and reviews the following:

a) The effectiveness of the internal control systems;

- b) The effectiveness of the internal audit function;
- c) The risk areas of the department to be covered in the scope of internal and external audits;
- d) The adequacy, reliability and accuracy of the financial information provided by management;
- e) Any accounting and auditing concerns identified as a result of internal and external audits;
- f) The department's compliance with laws, regulations, institutional instructions and standard operational procedures; and
- g) The activities of the internal audit function, including its annual work programme, coordination with external auditors, the reports of significant investigations and the responses of management to specific recommendations.

The Audit Committee constitutes of five (5) independent members, who possess sufficient qualifications and experience to enable the provision of the services expected of the Audit Committee functions, as per the approved Committee Charter. The term of the current audit committee is three (3) years and it expires in February 2026. Two (2) members were reappointed from the previous committee and the other three members are new appointments. The members are appointed strategically to cover all the critical areas required of the audit committee collectively. These skills include, accounting, risk management, auditing, information technology, governance and legal compliance. The During the year, eight (8) audit committee meetings were held.

11.4 Attendance of audit committee meetings by audit committee members

12. AUDIT COMMITTEE REPORT

We are pleased to present our report for the financial year ended 31 March 2024.

12.1 Audit Committee Responsibility

The Audit Committee provided the department with effective oversight to assist the department to achieve its strategic objectives. The Audit Committee reports that it complied with its responsibilities as per Section 38(1)(a)(ii) of the Public Finance Management Act (PFMA) and Treasury Regulations 3.1. The Committee has adopted appropriate formal Terms of Reference and has regulated its affairs in compliance with this Charter. The Charter is reviewed annually to ensure its relevance.

12.2 The Effectiveness of Internal Control

Our review of the findings of the Internal Audit work, which was based on the risk assessments conducted in the department, revealed certain weaknesses which were then raised with the management.

Below are some of the internal audits which were completed during the year under review:

- a) Maritime transport safety and security
- b) Maritime transport and environment
- c) Annual Performance Information Review
- d) Annual Financial Statements Review
- e) Strategic Planning and APP development
- f) Cyber Security Review
- g) Contract and Project Management Review
- h) IMO Audit Search & Rescue Inspectorate
- i) Information Technology (IT) General Controls Review
- j) ICAO SAR Inspectorate
- k) Supply Chain Management
- I) Public Entity Oversight
- m) Revised Taxi Recapitalisation Programme
- n) IT Project Management
- o) Conditional Grants (PRMG)
- p) Scholar Transport
- q) Recruitment of Senior Management

Internal Audit was able to complete all audits planned for the year, a 100% achievement.

For the year under review, the Audit Committee is satisfied that Internal Audit operated independently and objectively and was effective in providing the required level of assurance based on the approved audit plan.

12.3 Activities of the Audit Committee

During the period under review, the following activities were undertaken which demonstrate the commitment of the Audit Committee to achieving its mandate:

- a) Reviewed quarterly management reports
- b) Considered the effectiveness of the risk management process
- c) Considered the Internal Audit plans and reports and made recommendations as appropriate
- d) Monitored progress with the Internal Audit coverage plans as well as management's follow-up on matters requiring attention
- e) Monitored compliance with the department's policies and applicable legislation
- f) Considered the effectiveness of the fraud prevention measures
- g) Conducted separate informal meetings with management, internal and external audit
- h) Reviewed External Audit plans and reports for consideration
- i) Considered the effectiveness of management action plans in response to key audit findings raised by internal and external audit
- j) Provided guidance to the department on ICT governance issues and alignment to applicable legislations and ICT governance Frameworks.

12.4 Audit Committee Membership and Attendance

Name	Qualifications	Internal/ External	Date Appointed	Date Term Expired/Resigned	Meetings attended

12.5 In-Year Management and Monthly/Quarterly Report

The department has reported monthly and quarterly to the National Treasury as required by the PFMA.

12.6 Evaluation of Financial Statements

We reviewed the annual financial statements prepared by the department. This included:

- Reviewing and discussing with the external auditors the audited annual financial statements to be included in the Annual Integrated Report;
- b) Reviewing the reported performance against the predetermined objectives;
- c) Reviewing the external auditor's management letter and management's response thereof;
- d) Reviewing adjustments resulting from the audit;
- e) Reviewing and discussing the external auditor's report; and
- f) Reviewing and confirming the independence of external auditors

12.7 Auditor General's Report

Management developed, implemented and reported on a quarterly basis the progress made in addressing AGSA findings from previous years. We reviewed the action plans and noted progress made, however more effort is needed to resolve all findings timeously.

In the previous year, the department experienced challenges with the smartness of its performance information, but with these challenges addressed during the year, the Audit Committee is confident that the department will experience the benefits of much improved audit outcomes next year.

The Audit Committee concurs and accepts the conclusions of the Auditor-General on the annual financial statements, performance information and compliance with applicable laws and regulations and is of the view that these be accepted and read together with the report of the Auditor-General.

Luyanda M. Mangquku, CA (SA)

Chairperson of the Audit Committee

Department of Transport 31 July, 2024

13. B-BBEE COMPLIANCE PERFORMANCE INFORMATION

Compliance with Broad Based Black Economic Empowerment (B-BBEE)

a) 2020/21 Compliance

The BEE verification company that was appointed for the BEE verification process is Ardent Business Partners. All the required documents were sent to Ardent for the calculation of points. Calculations were made and points were allocated. Upon completion of the process, FORM: B-BBEE 1 and other required documents were submitted to BEE Commission. BEE Commission responded with a compliance letter. Following that, BEE Commission advised the Department to work on a plan to improve the Management Control points.

b) 2021/22 Compliance

For the 2021/22 financial year, halting of procurement by National Treasury delayed the department to appoint the independent verification Agency, subsequent to recent National Treasury's advice to can procure, endeavours to procure the Agency has been re-initiated.

c) 2022/23 Compliance

For the 2022/23 financial year, BEE Online was appointed for the department's B-BBEE Verification. Completing the BEE Online checklist was challenging, and incomplete information from the employees who were sampled for verification also contributed to the challenge. As a result, the B-BBEE certificate was issued with an overall B-BBEE status of level 8. Form: B-BBEE 1 and its accompanying documents were completed and sent to the B-BBEE Commission. The Directorate BEE has appointed a Senior Admin Officer responsible for BEE to help prepare the department to submit all the relevant information required for the B-BBEE verification of the department.

The following table has been completed in accordance with the compliance to the BBBEE requirements of the BBBEE Act of 2013 and as determined by the Department of Trade, Industry and Competition.

Has the Department / Public Entity applied any relevant Code of Good Practice (B-BBEE Certificate
Levels 1 – 8) with regards to the following:

Criteria	Response Yes / No	Discussion (include a discussion on your response and indicate what measures have been taken to comply)
Determining qualification criteria for	Yes	The BEE Team and the Integrated Transport Sector B-
the issuing of licences, concessions		BBEE Charter Council are continuously engaging with
or other authorisations in respect of		the Air Licensing Council and NPTR on using B-BBEE
economic activity in terms of any law?		as a criterion in issuing licenses/permits.

Has the Department / Public Entity applied any relevant Code of Good Practice (B-BBEE Certificate Levels 1-8) with regards to the following:

Criteria	Response Yes / No	Discussion (include a discussion on your response and indicate what measures have been taken to comply)
Developing and implementing a preferential procurement policy?	Yes	The department has implemented the Preferential Procurement Policy, which is used when appointing a company to provide goods or services to the Department.
Determining qualification criteria for the sale of state-owned enterprises?	No	
Developing criteria for entering into partnerships with the private sector?	No	
Determining criteria for the awarding of incentives, grants and investment schemes in support of Broad Based Black Economic Empowerment?	No	

PART D: HUMAN RESOURCE MANAGEMENT

1. INTRODUCTION

The Department's Human Resource Management and Development approach has to comply with the Constitution of the Republic of South Africa of 1996, Public Service Act of 1994 as amended, Public Service Regulations, 2016 as amended, Labour Relations Act, 1995 (Act 66 of 1995) as amended, Basic Conditions of Employment, 1997 (Act 75 of 1997), Skills Development Act, 1998 (Act 97 of 1998), Skills Development Act, 1998 (Act 97 of 1998), Skills Development Levies Act, 1999 (Act 9 of 1999), OHS Act, 1993, (Act 85 of 1993), National Skills Development Strategy and the collective agreements signed in the Public Service Coordinating Bargaining Council (PSCBC) and General Public Service Sectoral Bargaining Council (GPSSBC).

The Department's ability to attract and retain the right skilled personnel and retain its talent is critical factor towards the achievement of its strategic goals. The Department has developed the Human Resource Plan which is aligned with the strategic goals of the department. The Plan focuses on:

- a) Recruitment and retention of suitably qualified and skilled workforce
- b) Promoting the Employment Equity plan
- c) Promotion of ethical behaviour and integrity;
- d) Promoting sound labour relations and maintain fair employee relation process

2. OVERVIEW OF HUMAN RESOURCES

2.1 The status of human resources in the department

The total establishment of the department consist of 889 posts and 708 of these posts were filled in the 2023/24 financial year. The department spent 81.90% (R449 833 million) of the Compensation of Employees budget as of 31 March 2024. The department's vacancy rate remains high, however the vacancy rate is at top management level. Progress was made with the filling of 11 SMS positions during the 2023/24 financial year. Internal appointments/ promotions for the financial year in 2023/24 was twenty (20).

The turnover rate of permanent employees decreased from 6.96% in the financial year 2022/23 to 6.06% in the financial year 2023/24. The majority of terminations were due to resignation of sixteen (16) employees (39.02%). The department lost three (03) (7.32%) employees due to death and other reasons for staff leaving the department were retirement of four (04) employees (9.76%), transfer of six (06) (14.63%) employees to other government departments and contract expiry of twelve (12) (29.27%) employees.

The Employment Equity status as at 31 March 2024 in the department was as follows: African Males (42.2%), African females (52.2%), White males (0.8%), White females (1.8%), Indian males (0.4%), Indian females (0.8%), Coloured males (0.5%) and Coloured females (0.9%). The percentage of employees with disabilities remains at (2.2%).

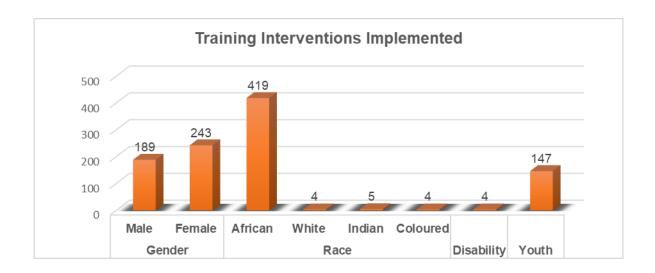

During the leave cycle 1 January 2023 to 31 December 2023, a total number of 4 583 of days were used as sick leave compared to 4237 days used for sick leave during the 2022 leave cycle. The number of employees who utilised sick leave were 585 in 2023 compared to 416 in 2022.

The number of employees that have utilised incapacity leave during the 2023 leave cycle increased from 8 to 22 employees. Employees utilising the incapacity leave are on salary levels 12 and below were 21 and 1 at Senior Management level.

In compliance with the Public Service Regulations, 2016 and the DPSA Directives, 100% of all Senior Management employees disclosed their financial interests.

2.2 Human resource priorities for the year under review and the impact of these

In terms of skills development specifically for the serving employees, a Workplace Skills Plan (WSP) for 2023/24 was developed, approved, submitted to Public Service Sector Education and Training Authority (PSETA) and implemented successfully. In implementing the 2023/24 Workplace Skills Plan, a total of five hundred and seventy-six (576) training interventions were coordinated and implemented, with actual head count of four hundred and thirty-two (432). The actual head count trained translates to 63.6% of the total workforce of the six hundred and seventy-nine (679) staff component. The achievement exceeded the 2023/24 Annual Performance Plan target of 30% for the reporting period. The trained employees are currently transferring their learnt skills to their respective job responsibilities.

In addition, twelve (12) officials successfully completed their Public Administration NQF level 5 Learnership Programme and five (05) completed National Diploma in Public Administration, NQF Level 6 through a Recognition of Prior Learning Programme (RPL). The RPL Programme is aimed to assist employees who has long work experience in their field and has acquired knowledge through formal, non-formal and informal means to get qualifications.

2.3 Workforce planning and key strategies to attract and recruit a skilled and capable workforce

The key skills development priorities for the reporting period i.e. 2023/24 financial year were amongst other things, monitoring the provision of skills development opportunities for youth in various transport sub-sectors. A total number of 221 610 both employed and unemployed people, mostly the youths benefited from skills development initiatives during this period.

In terms of skills development specifically for the serving employees, a Workplace Skills Plan (WSP) for 2023/24 was collated, approved, submitted to Public Service Sector Education and Training Authority (PSETA) and implemented successfully. In implementing the 2023/24 Workplace Skills Plan, a total of five hundred and seventy-six (576) training interventions were coordinated and implemented, with actual head count of four hundred and thirty-two (432). The actual head count trained translates to 63.6% of the total workforce of the six hundred and seventy-nine (679) staff component. The achievement exceeded the 2023/24 Annual Performance Plan target of 30% for the reporting period. A total of 205 bursaries for the employed was managed in which eighty new bursaries were awarded during the financial year. The trained employees are currently transferring their learnt skills to their respective job responsibilities.

In addition, twelve (12) officials successfully completed their Public Administration NQF level 5 Learnership Programme and five (05) completed National Diploma in Public Administration, NQF Level 6 through a Recognition of Prior Learning Programme (RPL). The RPL Programme aimed to assist employees who has long work experience in their field and has acquired knowledge through formal, non-formal and informal means to get qualifications.

2.4 Employee performance management

a) Compliance with submission of the 2023/24 Performance Agreements

- i. Employees at salary level 12 & below: 603 out of 607 submitted = 99%
- ii. Members of the Senior Management Services: 109 out of 113 submitted = 97%

b) Submission of Half-Yearly Performance Reviews (2023/24)

- i. Employees at salary level 12 & below: 548 out of 568 submitted = 96%
- ii. Members of the Senior Management Services: 93 out of 102 submitted = 91%

c) Submission of 2022/23 Annual Performance Assessments

- i. Employees at salary level 12 & below: 544 out of 553 submitted = 98%
- ii. Members of the Senior Management Services: 97 out of 103 submitted = 94%

All categories of employees' Annual Performance Assessments reports were moderated and pay progression were awarded successfully to the qualifying employees.

2.5 Employee wellness programmes

The Employee Health and Wellness Sub-Directorate is charged with the responsibility of promoting health and wellbeing of employees as well as ensuring that there is a safe working environment in the workplace. This is achieved through the implementation of the four functional pillars of the Employee Health and Wellness Strategic Framework. These pillars are; HIV, TB and STIs management, Health and Productivity Management, Wellness Management, Safety, Health, Environment, Risk and Quality Management. The aim of the program is to assist employees to deal with their personal or work-related problems that adversely affect their performance in order to improve their productivity and thus increase the overall productivity of the organization. The Sub-Directorate consist of a Deputy Director, Assistant Director: SHERQ, Wellness Officer and Admin assistant as staff complement. There is a service provider who is contracted to render Employee Health and Wellness Services to DOT employees in the name of Maeko Social Work Services.

2.6 Highlight achievements and challenges faced by the department, as well as future human resource plans /goals.

Ninety-four (94) posts were filled, disciplinary cases were dealt with as prescribed by the disciplinary code, however there are delays with finalisation of disciplinary cases due to unavailability of the presiding officer. The changing of the Presiding Officer is being considered. All mandatory reports are sent to the relevant stakeholders. Grievance cases were dealt with as prescribed by the grievance code. Grievance statistics were also sent to the DPSA. Training was conducted for staff in Supply Chain Management, Information Technology and Chief Audit Executive on the grievance procedure and harassment to empower them. New DoT EE Forum Chairperson and Deputy Chairperson were elected and appointed. New EE Forum members were also appointed and seven (7) working groups for different areas were also formed. EE status and targets are presented to the selection committee members during shortlisting and interviews. The mandator annual Employment Equity report was submitted to the Department of Employment and Labour before 15 January 2024. Females representativity at SMS increased

from 43% to 46.2% and the figure for Persons with Disability increased from 1.8% to 2.2% during the reporting cycle.

30% of the staff establishment trained in line with the approved Workplace Skills Plan. Fifty (50) interns were appointed and placed; 205 bursaries are being managed. Tranche payment paid to universities as per signed MoU. Disbursement of grants funds in tranche payment on quarterly basis to the thirteen universities. The MOAs are active for a period of 5 years and it gets renewed to accommodate students until completion. 99% Performance Agreements SR1 – SR12 and 96% Performance Agreements submitted by SMS.

External EHW Service provider- service are monitored through quarterly meetings, Sport and recreation programme is implemented and departmental soccer team participated national tournaments. Wellness Centre is managed and staff is using the GYM facility and membership increased from 103 to 158, EHW pillars are fully implemented as per calendar of evets. And four policies were developed and approved. Occupational hygiene survey was conducted, Ergonomics Risk Assessment conducted Emergency evacuation drill conducted, contingency plan reviewed and approved, twenty (20) First Aiders trained and appointed, twenty (20) Fire Fighters trained and appointed, four (4) quarterly OHS committee meetings held, OHS inspections conducted. Appointed fifteen (15) Change Agents, a draft Culture Audit report available and Public Service month report.

Budget/cost containment in the filling of vacant post, the current organizational structure was last reviewed and approved in 2011. The structure does not adequately cater for the needs of the Department. To appoint, develop and retain the right employees, in the right position for the department throughout the recruitment planning period. All vacant and funded posts are filled timeously, effectively and by the relevant people with the relevant skills. Implement retention strategies to retain key employees and reduce staff turnover. Empower and support serving employees to achieve their work outputs. Set realistic, achievable goals and coordinates appropriate skills development interventions. The employee performance and development system effectively and efficiently managed. Provide employee health and wellness programmes to support and assist employees in the work by a qualified health and wellness practitioner. Effective and efficient management of all employee relations matters. Implementation of the affirmative action measures to ensure equitable representation in the department.

The review of the Department's Organisational Structure to be aligned with departmental mandate; recruitment and placement of 50 interns across all Branches for 2025/2027 period; conducting tracer study project for the graduates who benefited from DOT bursary scheme during the 2014/19 and 2019/2024 MTSF and implementation of Public Service Professionalization project.

3 HUMAN RESOURCES OVERSIGHT STATISTICS

3.1 Personnel related expenditure

The following tables summarises the final audited personnel related expenditure by programme and by salary bands. In particular, it provides an indication of the following:

- a) amount spent on personnel
- b) amount spent on salaries, overtime, homeowner's allowances and medical aid.

Table 3.1.1 Personnel expenditure by programme for the period 1 April 2023 and 31 March 2024

Programme	Total expenditure (R'000)	Personnel expenditure (R'000)	Training expenditure (R'000)	Professional and special services expenditure (R'000)	Personnel expenditure as a % of total expenditure	Average personnel cost per employee (R'000)

3.2 Employment and Vacancies

Departments have identified critical occupations that need to be monitored. In terms of current regulations, it is possible to create a post on the establishment that can be occupied by more than one employee. Therefore, the vacancy rate reflects the percentage of posts that are not filled.

Table 3.2.1 Employment and vacancies by programme as on 31 March 2024

Programme	Number of posts on approved establishment	Number of posts filled	Vacancy Rate	Number of employees additional to the establishment
DTR: ADMINISTRATION	435	348	20%	2
DTR: INTEGRATED TRANSPORT PLANNNING	83	71	14.46%	0
DTR: RAIL TRANSPORT	36	29	19.44%	0
DTR: ROAD TRANSPORT	120	93	22.50%	0
DTR: CIVIL AVIATION	73	56	23.29%	0
DTR: MARITIME TRANSPORT	45	34	24.44%	0
DTR: PUBLIC TRANSPORT	97	77	20.62%	0
Total	889	708	20.36%	2

Table 3.2.2 Employment and vacancies by salary band as on 31 March 2024

Salary band	Number of posts on approved establishment	Number of posts filled	Vacancy Rate	Number of employees additional to the establishment
Lower skilled (1-2)	0	0	0%	0
Skilled (3-5)	73	67	8.22%	0
Highly skilled production (6-8)	316	263	16.77%	1
Highly skilled supervision (9-12)	358	269	24.86%	1
Senior management (13-16)	142	109	23.24%	0
Total	889	708	20.36%	2

Table 3.2.3 Employment and vacancies by critical occupations as on 31 March 2024

Critical occupation	Number of posts on approved establishment	Number of posts filled	Vacancy Rate	Number of employees additional to the establishment
Not applicable	n/a	n/a	n/a	n/a
Total	n/a	n/a	n/a	n/a

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation:
 - (a) in which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - (b) for which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - (c) where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - (d) in respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees.

3.3 Filling of SMS Posts

The tables in this section provide information on employment and vacancies as it relates to members of the Senior Management Service by salary level. It also provides information on advertising and filling of SMS posts, reasons for not complying with prescribed timeframes and disciplinary steps taken.

Table 3.3.1 SMS post information as on 31 March 2024

SMS Level	Total number of funded SMS posts	Total number of SMS posts filled	% of SMS posts filled	Total number of SMS posts vacant	% of SMS posts vacant
Director-General/ Head of Department	1	1	100%	0	0%
Salary Level 16	0	0	0%	0	0%
Salary Level 15	8	6	75%	2	25%
Salary Level 14	35	28	80%	7	20%

Reasons for vacancies not advertised within six months

Unavailability of the Selection Committee members

Reasons for vacancies not filled within twelve months

Delegations were reverted back to Director-General

Notes

 In terms of the Public Service Regulations Chapter 1, Part VII C.1A.3, departments must indicate good cause or reason for not having complied with the filling of SMS posts within the prescribed timeframes.

Table 3.3.5 Disciplinary steps taken for not complying with the prescribed timeframes for filling SMS posts within 12 months for the period 1 April 2023 and 31 March 2024

Reasons for vacancies not advertised within six months

None

Reasons for vacancies not filled within six months

None

Notes

In terms of the Public Service Regulations Chapter 1, Part VII C.1A.2, departments must indicate good cause or reason for not having complied with the filling of SMS posts within the prescribed timeframes. In the event of non-compliance with this regulation, the relevant executive authority or head of department must take appropriate disciplinary steps in terms of section 16A (1) or (2) of the Public Service Act.

3.4 Job Evaluation

With regards to Job Evaluation, there is nothing to report on, there is no Job Evaluation system in the Public Service as the contract with the previous Service Provider for the Job Evaluation system was terminated. In the absence of the JE system the Department of Public service and Administration issued Circular 31 of 2020, signed 08 September 2020, on the deviation in terms of Regulation 40 © of the Public Service Regulations, 2016. In terms of the deviation, the Department may fill posts that were previously evaluated, even if the JE results are older than 60 months. The deviation shall apply for the duration of the Directive.

The following table summarises the number of cases where remuneration bands exceeded the grade determined by job evaluation. Reasons for the deviation are provided in each case.

Table 3.4.3 Employees with salary levels higher than those determined by job evaluation by occupation for the period 1 April 2023 and 31 March 2024

Occupation	Number of employees	Job evaluation level	Remuneration level	Reason for deviation
N/A	0	N/A	0	N/A
N/A	0	N/A	0	N/A
N/A	0	N/A	0	N/A
N/A	0	N/A	0	N/A
Total number of emplo	N/A			
Percentage of total em	N/A			

The following table summarises the beneficiaries of the above in terms of race, gender, and disability.

Table 3.4.4 Profile of employees who have salary levels higher than those determined by job evaluation for the period 1 April 2023 and 31 March 2024

Gender	African	Asian	Coloured	White	Total
Female	0	0	0	0	0
Male	0	0	0	0	0
Total	0	0	0	0	0

Employees with a disability	0	0	0	0	0

Notes

• If there were no cases where the salary levels were higher than those determined by job evaluation, keep the heading and replace the table with the following:

Total number of Employees whose salaries exceeded the grades determine by job	None
evaluation	

3.5 Employment Changes

This section provides information on changes in employment over the financial year. Turnover rates provide an indication of trends in the employment profile of the department. The following tables provide a summary of turnover rates by salary band and critical occupations (see definition in notes below).

Table 3.5.1 Annual turnover rates by salary band for the period 1 April 2023 and 31 March 2024

Salary band	Number of employees at beginning of period-1 April 2023	Appointments and transfers into the department	Terminations and transfers out of the department	Turnover rate
Lower skilled (Levels 1-2)	0	0	0	0
Skilled (Levels3-5)	56	17	2	3.57%
Highly skilled production (Levels 6-8)	248	29	6	2.42%
Highly skilled supervision (Levels 9-12)	266	15	10	3.76%
Senior Management Service Bands A	66	9	3	4.54%
Senior Management Service Bands B	27	2	0	0%
Senior Management Service Bands C	7	0	1	14.28%
Senior Management Service Bands D	1	0	0	0%
Contracts	5	0	0	0%
Total	676	72	22	3.25%

Table 3.5.2 Annual turnover rates by critical occupation for the period 1 April 2023 and 31 March 2024

Critical occupation	Number of employees at beginning of period-April 2023	Appointments and transfers into the department	Terminations and transfers out of the department	Turnover rate
Not applicable	0	0	0	0
Total	0	0	0	0

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation
 - in which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - (b) for which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - (c) where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - (d) in respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees.

The table below identifies the major reasons why staff left the department.

Table 3.5.3 Reasons why staff left the department for the period 1 April 2023 and 31 March 2024

Termination Type	Number	% of Total Resignations
Death	3	7.32%
Resignation	16	39.02%
Expiry of contract	12	29.27%
Dismissal – operational changes	0	0%
Dismissal – misconduct	0	0%
Dismissal – inefficiency	0	0%
Discharged due to ill-health	0	0%
Retirement	4	9.76%
Transfer to other Public Service Departments	6	14.63%
Other	0	0%
Total	41	6.06%

3.7 Signing of Performance Agreements by SMS Members

All members of the SMS must conclude and sign performance agreements within specific timeframes. Information regarding the signing of performance agreements by SMS members, the reasons for not complying within the prescribed timeframes and disciplinary steps taken is presented here.

Table 3.7.1 Signing of Performance Agreements by SMS members as on 31 May 2024

SMS Level	Total number of funded SMS posts	Total number of SMS members	Total number of signed performance agreements	Signed performance agreements as % of total number of SMS members
Director-General/ Head of Department	1	1	0	0%
Salary Level 16	1	1	1	100%
Salary Level 15	6	6	6	100%
Salary Level 14	30	29	28	96%
Salary Level 13	73	73	71	97%
Total	111	110	106	96%

Notes

In the event of a National or Provincial election occurring within the first three months of a financial year all members of the SMS must conclude and sign their performance agreements for that financial year within three months following the month in which the elections took place. For example, if elections took place in April, the reporting date in the heading of the table above should change to 31 July 2024.

Table 3.7.2 Reasons for not having concluded Performance agreements for all SMS members as on 31 March 2024

Reasons

Reasons for not concluding Performance Agreements were not provided to the Directorate: HRD&PMDS. In the event no valid/good reason(s) provided, it is regarded as non-compliance in terms of the DPSA prescripts.

Notes

The reporting date in the heading of this table should be aligned with that of Table 3.7.1.

Table 3.7.3 Disciplinary steps taken against SMS members for not having concluded Performance agreements as on 31 March 2024

Reasons

All non-compliant SMS members forfeited their respective performance incentives as consequence management, in line with the PMDS Directives.

HR released letters to respective Heads of Departments (DDGs) to institute disciplinary measures against SMS members who failed to comply.

Notes

The reporting date in the heading of this table should be aligned with that of Table 3.7.1.

3.8 Performance Rewards

To encourage good performance, the department has granted the following performance rewards during the year under review. The information is presented in terms of race, gender, disability, salary bands and critical occupations (see definition in notes below).

Performance rewards/ bonuses are no-longer applicable, in line with DPSA Directive 01 of 2019 on reduction of performance bonuses percentages.

Table 3.8.1 Performance Rewards by race, gender and disability for the period 1 April 2023 to 31 March 2024

	Beneficiary Prof	ile		Cost		
Race and Gender	Number of beneficiaries	Number of employees	% of total within group	Cost (R'000)	Average cost per employee

Critical occupation	Beneficiary Pr	ofile	Cost		
	Number of beneficiaries	Number of employees	% of total within occupation	Total Cost (R'000)	Average cost per employee
Total	0	0	0	0	0

Notes

- The CORE classification, as prescribed by the DPSA, should be used for completion of this table.
- Critical occupations are defined as occupations or sub-categories within an occupation
 - in which there is a scarcity of qualified and experienced persons currently or anticipated in the future, either because such skilled persons are not available or they are available but do not meet the applicable employment criteria;
 - (b) for which persons require advanced knowledge in a specified subject area or science or learning field and such knowledge is acquired by a prolonged course or study and/or specialised instruction;
 - (c) where the inherent nature of the occupation requires consistent exercise of discretion and is predominantly intellectual in nature; and
 - in respect of which a department experiences a high degree of difficulty to recruit or retain the services of employees;

Performance bonuses are no-longer applicable, in line with DPSA Directive 01 of 2019 on reduction of performance bonuses.

3.11 HIV/AIDS & Health Promotion Programmes

Table 3.11.1 Steps taken to reduce the risk of occupational exposure

Units/categories of employees identified to be at high risk of contracting HIV & related diseases (if any)	Key steps taken to reduce the risk		
All employees are classified as being at high risk of contracting HIV/AIDS and related diseases. All staff irrespective of their employment level are therefore provided	The HIV/AIDS and TB Policy and operational plan is being implemented in the Transport sector.		
with Employee Health and Wellness cards to access counselling services.	Employees and Peer Counsellors have been trained of the HIV/AIDS and TB Management Programme Confidentiality underpins the HIV/AIDS and T programme through policy and its implementation.		
Information dissemination and awareness arranged for all categories of employees indiscriminately. HCT, TB and other Health Risk Assessments are conducted on site.	Information is circulated via e- mail, lift news, e-care website, posters and education sessions to dispel myths and misconceptions about HIV/AIDS and TB.		
Participants are then advised on their health and referred for further intervention as per the need.			

Table 3.11.2 Details of Health Promotion and HIV/AIDS Programmes (tick the applicable boxes and provide the required information)

Question	Yes	No	Details, if yes	
1. Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2001? If so, provide her/his name and position.	Yes		Ms Vivian Sibeko: Director: Employee Health and Wellness, Organisational Development and Change Management.	
2. Does the department have a dedicated unit or has it designated specific staff members to promote the health and well-being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.	Yes		Deputy Director, Assistant Director, Wellness officer and Wellness Assistant Annual Budget = R1 935 429	
3. Has the department introduced an Employee Assistance or Health Promotion Programme for your employees? If so, indicate the key elements/services of this Programme.	Yes		Psychosocial support: Sports and recreation. Occupational Health and Safety Health Promotion. Health risk assessments	
4. Has the department established (a) committee(s) as contemplated in Part VI E.5 (e) of Chapter 1 of the Public Service Regulations, 2001? If so, please provide the names of the members of the committee and the stakeholder(s) that they represent.	Yes		Transport Sector HIV/AIDS Committee has been established. a) Ms V. Sibeko, Mr I. Modipane, Ms D. Bohlolo, Ms T Morabe, and Ms N. Mofokeng - Department of Transport b) Mr J. Phiri- SAMSA c) Ms M. Van Biljong- WrHI d) Mr L. Malaka- SANAC e) Mr T. 3.15 Utilisation of Consultants

The following tables relates information on the utilisation of consultants in the department. In terms of the Public Service Regulations "consultant' means a natural or juristic person or a partnership who or which provides in terms of a specific contract on an ad hoc basis any of the following professional services to a department against remuneration received from any source:

- (a) The rendering of expert advice;
- (b) The drafting of proposals for the execution of specific tasks; and
- (c) The execution of a specific task which is of a technical or intellectual nature, but excludes an employee of a department.

Table 3.15.1 Report on consultant appointments using appropriated funds for the period 1 April 2023 and 31 March 2024

⁸ Group similar items

⁹ Total unconfirmed unauthorised expenditure (assessment), losses (determination), and criminal conduct (investigation)

2. LATE AND/OR NON-PAYMENT OF SUPPLIERS

Description	Number of invoices	Consolidated Value	
		R'000	
Valid invoices received	18,945	253,011	
Invoices paid within 30 days or agreed period	17,669	245,231	
Invoices paid after 30 days or agreed period	1,276	7,780	
Invoices older than 30 days or agreed period (<i>unpaid and without dispute</i>)	1,974	30,649	
Invoices older than 30 days or agreed period (<i>unpaid and in dispute</i>)	1,523	13,210	

Payments were processed late, due to internal processes and the unavailability of the delegated official to sign-off on the invoices. Disputed invoices are invoices where the supplier charged the incorrect agreed rates, or the supporting documents were insufficient.

3. SUPPLY CHAIN MANAGEMENT

3.1 Procurement by other means: Bids - 2023/2024 financial year

Nr	Project description Name of supplier Type of procurement by other means		Contract number	Value of contract	
					R'000
1.	Disbursement and administration of Taxi Relief Fund	Anthus Services 84	Deviation from Normal procurement processes. Closed Bid. Cabinet approved an extension of the disbursement of taxi relief funds. The extension is only 12 months. It would be impractical to follow an open bid process, as well as to allow a new service provider access to the eNatis and operating license system. Instead of re-appointing the previous contractor, the Department decided on a limited bidding approach to benchmark cost. The service providers approached already have access to the required systems via other engagements.	DOT/19/2023/PT	R 37,869
2.	Conduct Feasibility Study of Tug Building Project in Preparation of Public Private Partnership	J Maynard South Africa	Deviation from Normal procurement processes. Single Source appointment via Natural Continuation. The required services present a natural continuation of previous work carried out by the service provider and continuity of downstream work is considered essential. The company was appointed to conduct the feasibility study on the PPP. The feasibility study has to be updated to accommodate inputs from National Treasury, in order to resubmit 3for TA1. Impractical to restart process via open tender process.	DOT/22/2015/MT	R 9,033

Nr	Project description	Name of supplier	Type of procurement by other means	Contract number	Value of contract
3.	Implementation Plan for the Establishment of a Private Sector Participation (PSP) unit	Government Technical Advisory Centre (GTAC	Deviation from normal procurement process. Single source appointment of a Government Entity, as well as Natural Continuation. The required services present a natural continuation of previous work carried out by GTAC. GTAC was appointed by the Department in June 2022 to conduct a technical review of the draft PSP Framework in preparation for Cabinet submission in the 4th quarter of the 2022/23 financial year. The additional services required is to draft an implementation plan based on the technical review of the Framework. Impractical to restart process via open tender process.	DOT/06/2022/RT	R 1,883
4	Establishment of Single Transport Economic Regulator	Government Technical Advisory Centre (GTAC)	Deviation from normal procurement process. Single source appointment of a Government Entity. GTAC has a panel of experts appointed through an open tender process and they will be appointed as an implementing agency for the Department to provide support for the STER project. Due to the technical nature of the project and the services provided by GTAC as part of their mandate, appointing GTAC is deemed the most viable solution.	DOT/28/2023/ITP	R 1,996

3.2 Procurement by other means: Quotes – 2023/2024 financial year

Nr	Project description	Name of supplier	Type of procurement by other means	Value of contract R'000
1.	Microfocus licence renewal	AXIS	Single source appointment of accredited supplier by OEM. Annual license renewal through SITA Framework Agreement.	R 1,536
2.	Catering	Hlomani	30 Suppliers were approached from CSD only two responded. Impractical to restart.	R 5
3.	Catering for SAR Communication working group/ JC Pre-meeting	Sijukwano Investments/ t/a Sijukwano Security and Cleaning Services	Thirty-four (34) suppliers were approached one responded with a quotation, it is a challenge to get quotations from suppliers outside of Gauteng, they think it is a scam. Impractical to restart.	R 11

					R'000	R'000	R'000
13.	Marine Pollution and Salvage Operation Services	AMSOL	Expansion of time. The extension is required to allow enough time for the bid to be concluded and a new service provider appointed. Extended for 4 months until 31/03/2024.	DOT/02/2016/MT	R 275,880	R 42,262	R 31,096
14.	Security Services	Mushoma Security Services and Projects CC	Price Adjustment. Approval of price increase as per amended Statutory PSIRA Rates published by Department of Labour.	DOT/15/2022/COO	R11,897	N/A	R706
15.	Marine Safety Information (MSI) and the Global Maritime Distress Safety System (GMDSS) for a period of 12 Months	Telkom	Expansion of time. The delay in advertising the tender was impacted by the ongoing delays in the commissioning of ATNS as South Africa's mission control. It is believed that the commissioning of ATNS would be undertaken during the 2024 financial year, and as such the branch is requesting another extension to allow services to continue. 12 months extension.	DOT/12/2017/CA	R157,852	Adjustment of R18,228	R70,062

PART F: FINANCIAL INFORMATION

1. REPORT OF THE AUDITOR-GENERAL ON VOTE NO.4: DEPARTMENT OF TRANSPORT

Report on the audit of the financial statements

Opinion

- I have audited the financial statements of the Department of Transport set out on pages 443 to 529, which comprise the appropriation statement, statement of financial position as at 31 March 2024, statement of financial performance, statement of changes in net assets, and cash flow statement for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
- 2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Department of Transport as at 31 March 2024, and its financial performance and cash flows for the year then ended in accordance with the Modified Cash Standard (MCS) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and Division of Revenue Act 5 of 2023 (Dora).

Basis for opinion

- I conducted my audit in accordance with the International Standards on Auditing (ISAs). My
 responsibilities under those standards are further described in the responsibilities of the auditorgeneral for the audit of the financial statements section of my report.
- 4. I am independent of the Department of Transport in accordance with the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants* (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
- 5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matter

6. I draw attention to the matter below. My opinion is not modified in respect of this matter.

Unaudited supplementary schedules

7. The supplementary information set out on pages 508 to 529 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion on them.

Responsibilities of the accounting officer for the financial statements

- 8. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the MCS and the requirements of the PFMA and Dora; and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- 9. In preparing the financial statements, the accounting officer is responsible for assessing the department's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the department or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the auditor-general for the audit of the financial statements

- 10. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- 11. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report. This description, which is located at page [440], forms part of our auditor's report.

Report on the audit of the annual performance report

- 12. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for the selected programmes presented in the annual performance report. The accounting officer is responsible for the preparation of the annual performance report.
- 13. I selected the following programmes presented in the annual performance report for the year ended 31 March 2024 for auditing. I selected programmes that measures the department 's performance on its primary mandated functions and that are of significant national, community or public interest.

Programme	Page numbers	Purpose
Programme 3 – Rail Transport	[162 - 188]	The programme exists to facilitate and coordinate the development of sustainable rail transport policies, rail

Programme	Page numbers	Purpose
		economic and safety regulation, infrastructure development strategies; and systems that reduce system costs and improve customer service; and the implementation of integrated rail services planned through the lowest competent sphere of government and improve customer service; and the implementation of integrated rail services planned through the lowest competent sphere of government.
Programme 4- Road Transport	[189 - 226]	The programme exists to develop and manage an integrated road infrastructure network, regulate road transport, ensure safer roads, and oversee road agencies.
Programme 7- Public Transport	[266 - 300]	The programme exists to ensure the provision and regulation of safe, secure, reliable, cost-effective, and sustainable public transport services in South Africa through legislation, policies, and strategies.

14. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the department's planning and delivery on its mandate and objectives.

15. I performed procedures to test whether:

- a) the indicators used for planning and reporting on performance can be linked directly to the department's mandate and the achievement of its planned objectives.
- b) all the indicators relevant for measuring the department's performance against its primary mandated and prioritised functions and planned objectives are included.
- c) the indicators are well defined to ensure that they are easy to understand and can be applied consistently, as well as verifiable so that I can confirm the methods and processes to be used for measuring achievements.
- d) the targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
- e) the indicators and targets reported on in the annual performance report are the same as those committed to in the approved initial or revised planning documents.
- f) the reported performance information is presented in the annual performance report in the prescribed manner and is comparable and understandable.

- g) there is adequate supporting evidence for the achievements reported and for the reasons provided for any over- or underachievement of targets.
- 16. I performed the procedures for the purpose of reporting material findings only; and not to express an assurance opinion or conclusion.
- 17. The material findings on the reported performance information for the selected programmes are as follows:

Rail Transport

Various indicators

18. The reported achievements in the annual performance report were inconsistent with the commitments made in the approved planning documents. These discrepancies highlight misalignment between approved plans and operations, while the incorrect reporting undermines transparency and accountability. These discrepancies were identified against the original approved annual performance plan before revision.

Indicator	Target	Reported achievement
Number of correctly configured train sets (old and new)	Annual Monitoring Report on the General Overhaul Programme 215 configured train sets	The bi-annual monitoring report on the General Overhaul Programme was developed as targeted.
Number of jobs created through PRASA Infrastructure Programmes	Annual Monitoring Report on jobs created through PRASA Infrastructure Programmes 3 000 direct jobs	The bi-annual monitoring report was developed as targeted.
Number of new electric multiple unit (EMU) train sets manufactured	Annual Monitoring Report on the Rolling Stock Fleet Renewal Programme 52 EMU train sets manufactured.	The bi-annual monitoring report on the Rolling Stock Fleet Renewal Programme was developed as targeted.
Number of new electric multiple unit (EMU) train sets deployed to priority corridors	Annual Monitoring Report on the Rolling Stock Fleet Renewal Programme Additional 52 EMU train sets deployed in priority corridors.	The bi-annual monitoring report on the Rolling Stock Fleet Renewal Programme was developed as targeted.

through the Integrated Public Transport Network Programme	jobs created through the IPTN Programme 2 000 jobs	one, two and three.
Transport Appeal Tribunal (TAT) Regulations approved	Draft Regulations for the Transport Appeal Tribunal Amendment Act developed	The Annual (2022/23) status report on appeals processed and finalised in terms of the Transport Appeal Tribunal (TAT) Act was developed as targeted.
Number of Appeal cases processed in terms of the Transport Appeal Tribunal (TAT) Act.	Annual Status Report on Appeal Cases processed in terms of the TAT Act.	The Annual (2022/23) status report on appeals processed and finalised in terms of the Transport Appeal Tribunal (TAT) Act was developed as targeted.
Number of Provinces with dedicated public transport law enforcement capacity	Dedicated Public Transport Law Enforcement Model approved. Dedicated public transport law enforcement capacity established in nine (9) provinces	Bi-annual status report on the establishment of dedicated public transport law enforcement capacity in provinces was developed as targeted.

Other matters

21. I draw attention to the matters below.

Achievement of planned targets

- 22. The annual performance report includes information on reported achievements against planned targets and provides explanations for over- or under achievements. This information should be considered in the context of the material findings on the reported performance information.
- 23. The tables that follow provides information on the achievement of planned targets and lists the key service delivery indicators that were not achieved as reported in the annual performance report. The reasons for any underachievement of targets are included in the annual performance report on pages [86 to 300].

Programme 3 – Rail Transport

Targets achieved: 92%		
Budget spent: 100%		
Key service delivery indicator not achieved	Planned target	Reported achievement
National Rail Bill approved by Parliament	National Rail Bill approved for submission to Cabinet.	The National Rail Bill was not approved for submission to Cabinet

Programme 4 – Road Transport

Targets achieved: 94%		
Budget spent: 99,8%		
Key service delivery indicator not achieved	Planned target	Reported achievement
Road Infrastructure Funding Policy approved by Cabinet.	Road Infrastructure Funding Policy approved for submission to Cabinet.	The Road Infrastructure Funding Policy was not approved for submission to Cabinet.

Material misstatements

24. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were in the reported performance information for Programme 3 – Rail Transport, Programme 4 – Road Transport and Programme 7 – Public Transport. Management did not correct all the misstatements and I reported material findings in this regard.

Report on compliance with legislation

- 25. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting officer is responsible for the department's compliance with legislation.
- 26. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
- 27. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the department, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
- 28. I did not identify any material non-compliance with the selected legislative requirements.

Other information in the annual report

29. The accounting officer is responsible for the other information included in the annual report. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.

- 30. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
- 31. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 32. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

- 33. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
- 34. The matters reported below are limited to the significant internal control deficiencies that resulted in the material findings on the annual performance report.
- 35. The review of the annual performance report by management was inadequate which led to misalignment between the original approved annual performance plan before revision and the annual performance report. As a result, material misstatements were noted.

Auditor General.

Pretoria

31 July 2024

Auditing to build public confidence

Annexure to the auditor's report

The annexure includes the following:

- The auditor-general's responsibility for the audit
- The selected legislative requirements for compliance testing

Auditor-general's responsibility for the audit

Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the department's compliance with selected requirements in key legislation.

Financial statements

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- a) identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- b) obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the department's internal control.
- c) evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.
- d) conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the department to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a department to cease operating as a going concern.

e) evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Communication with those charged with governance

I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting officer with a statement that I have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

Compliance with legislation – selected legislative requirements

The selected legislative requirements are as follows:

Legislation	Sections or regulations
Public Finance Management Act No.1 of 1999 (PFMA)	Section 1; 38(1)(b); 38(1)(c)(i); 38(1)(c)(ii); 38(1)(d);38(1)(h)(iii); 38(1)(j); 39(1)(a); 39(2)(a);40(1)(a); 40(1)(b); 40(1)(c)(i); 43(1); 43(4); 44(1); 44(2) and 45(b);

1 Detail of transfers and subsidies as per Appropriation Act (after Virement):

Detail of these transactions can be viewed in the note on Transfers and subsidies and Annexure 1 (A-H) to the Annual Financial Statements.

Detail of specifically and exclusively appropriated amounts voted (after Virement):

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

3 Detail on payments for financial assets

Detail of these transactions per programme can be viewed in the note to Payments for financial assets to the Annual Financial Statements.

4 Explanations of material variances from Amounts Voted (after virement):

4.1	Programme	Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget	
		R'000	R'000	R'000	%	
	Programme name					
	Administration	550,129	538,189	11,940	2%	

The programme underspent by R11.9 million on compensations of employees and transfers and subsidies. The underspending on compensation of employees was due to posts that could not be filled, on transfers and subsidies as a result of bursaries to non-employees due to lower intake of students in universities. A total amount of R22,8 million was reprioritized to this programme, from goods and services in other programmes to augment the overspending on office accommodation, software licenses, and communication services as well as to fund payment for capital assets due to invoices not paid from the previous financial year relating to the procurement of bulk desktop and laptop purchases and x-ray machines for security services and departmental servers. Funds were also shifted from compensation of employees in this programme to augment personnel expenditure in other programmes.

Programme name
Integrated Transport Planning 98,343 98,343 0 0%

In total an amount of R7.3 million was reprioritised to this programme in order to cover the shortfall realised under compensation of employees and on goods and services due to payments made for the BEE charter council project as well as invoices from the 2022/23 financial year pertaining to the SANWIT women empowerment project which was paid in the 2023/24 financial year.

DEPARTMENT OF TRANSPORT VOTF 40

NOTES TO THE APPROPRIATION STATEMENT for the year ended 31 March 2024

Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget
R'000	R'000	R'000	%

Programme name

Rail Transport 20,591,355 20,582,677 8,678 0%

The programme underspent by R8.7 million on compensation of employees and goods and services. The underspending on compensation of employees was due to posts that could not be filled and on goods and services due to the establishment of the rail economic regulator which has been put on hold. A total amount of R1,6 million has been shifted from goods and services in this programme to defray excess expenditure in other programmes.

Programme name

Road Transport 42,047,327 41,964,119 83,208 0%

In total the programme underspend by R83,2 million on goods and services, transfers and subsidies and machinery and equipment. The underspending on goods and services was due to earmarked funds allocated for the central data repository for roads, and on transfers and subsidies as a result of the outstanding transfer payment to the Road Traffic Infringement Agency (RTIA) for the AARTO rollout as the bill still needed to be proclaimed and the process for the appointment of the tribunal had to be restarted which resulted in the postponement of the rollout. The programme also underspent on machinery and equipment due to delayed invoices from service providers for procurement of office furniture and laptops. Roll-over for the unspent funds on the RTIA AARTO roll-out has been requested.

Programme name

Civil Aviation 317,491 305,436 12,055 4%

The programme underspent on goods and services and transfers and subsidies by a total amount of R12 million. The underspending on goods and services was as a result of non-spending on a number of projects which have been deferred to the 2024/25 financial year such as the Single African Air Transport Market Pilot Implementation Project (SAATM-PIP) and the development of regulations permission for ACSA and ATNS and on transfers and subsidies due to less funds paid to international organisations for membership fees as per the agreements with the member states. Further contributing to the underspending is the Marine Rescue Coordination Centre invoice which was captured in March 2024 but the expenditure reflected in the month of April of the 2024/25 financial year. A roll-over has been requested for the Marine Rescue Coordination Centre.

DEPARTMENT OF TRANSPORT VOTE 40

NOTES TO THE APPROPRIATION STATEMENT for the year ended 31 March 2024

Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget
R'000	R'000	R'000	%

Programme name Maritime Transport

263,638 184,623 79,015 30%

The programme underspent by a total of R79 million mainly on the compensation of employees, goods and services, and transfers and subsidies. Compensation of employees underspent due to posts that could not be filled, good and services due to the PPP for tug boat unitary payment whereby a new feasibility study had to be undertaken before the building of the tug boat therefore the project had to be put on hold, the PPP tug boat transaction advisor to undertake the new feasibility study for the boat building and transfers and subsidies due to less funds paid to the international organisations for membership fees. It should be noted that these fees were paid as per the agreements. A rollover for the PPP tug boat transaction advisor for the new feasibility study has been requested.

Programme name

Public Transport 14,414,164 14,286,082 128,082 1%

In total the programme underspent by R128 million on compensation of employees, goods and services and transfers and subsidies. The underspending on compensation of employees was due posts that could not be filled, on goods and services due to a number of projects which has been deferred to the 2024/25 financial year, key amongst them is the panel of expect for the capacity on public transport grant monitoring which is expected to incur expenditure in the 2024/25 financial year as the service provider has been appointed and on transfers and subsidies due to funds for taxi scrapping allowances which were earmarked for taxi empowerment projects. A submission was written to National Treasury (NT) for the creation of a line item for the taxi empowerment projects and the Department is still engaging National Treasury to finalise the creation of the line item. A roll over has been requested for the Taxi Empowerment projects for the money that was earmarked from the taxi scrapping allowances.

An amount of R28.6 million was shifted from goods and services in this programme in order cover shortfall realised in other programmes.

Statutory Appropriations

Direct Charge against the National Revenue Fund

12,564 7,576 4,988 40%

Savings have been realised on the membership fees to the International Oil Pollution Compensation Fund. Payments were processed as agreed with the IOPC Fund governing bodies for the 2023/24 financial year.

4.2	Per economic classification:	Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget
		R'000	R'000	R'000	%
	Current expenditure	1,526,669	1,363,848	162,821	11%
	Compensation of employees	557,528	533,310	24,218	4%
	Goods and services	969,141	830,538	138,603	14%
	Transfers and subsidies	76,746,834	76,582,144	164,690	0%
	Provinces and municipalities	29,029,526	29,029,526	0	0%
	Departmental agencies and accounts	26,702,764	26,631,000	71,764	0%
	Public corporations and private enterprises	20,451,827	20,451,827	0	0%
	Foreign governments and international organisations	35,577	25,236	10,341	29%
	Non-profit institutions	33,467	33,467	0	0%
	Households	493,673	411,088	82,585	17%
	Payments for capital assets	20,606	20,151	455	2%
	Machinery and equipment	20,606	20,151	455	2%
	Payments for financial assets	902	902	0	0%

Compensation of Employees

The underspending was mainly due to posts that could not be filled as a result of frozen posts following the Department of Public Service and Administration (DPSA) circular 49 of 2023 as well as delays in filling of other vacant funded posts. Internal promotions, compounded by recorded resignations, retirements and transfers out of the Department also contributed to the underspending, however, the Department has reached its target on filling vacant positions.

Goods and Services

This economic classification underspent as a result of non-spending on a number of projects across programmes as some projects could not be finalised by the end of the financial year, others were deferred to the 2024/25 financial year. Roll over has been requested for the Marine Rescue Coordination Centre as well as for PPP transaction adviser for the new feasibility study for the tub boat building.

Transfers and subsidies:

Departmental agencies and accounts

Underspent due to the non-payment to the Road Traffic Infringement Agency (RTIA) for the Administrative Adjudication of Road Traffic Offences (AARTO) rollout as the bill still needed to be proclaimed and the process of the appointment of the tribunal had to be restarted, which resulted in the postponement of the rollout. Roll over has been requested.

Foreign governments and international organisations

Savings due to less funds paid to international organisations for membership fees. It should be noted that these fees were paid as per the agreements.

Households

Underspent on household due to funds for taxi scrapping allowances which were earmarked for taxi empowerment projects. A submission was written to National Treasury (NT) for the creation of a line item for the taxi empowerment projects and the Department is still engaging National Treasury to finalise the creation of the line item. Other contributing factors includes less funds paid for bursaries to non-employees a result of low number of student intake. Roll over has been requested for the taxi empowerment projects from the taxi scrapping allowances.

Payments for capital assets:

Machinery and Equipment

Underspent due to delayed invoices from service providers for the procurement of office furniture and laptops.

4.3	Per conditional grant:	Final Budget	Actual Expenditure	Variance	Variance as a % of Final Budget
		R'000	R'000	R'000	%
	Rural Roads Asset Management Grant	115,461	115,461	-	0%
	Provincial Roads Maintenance Grant	15,317,086	15,317,086	-	0%
	Public Transport Operations Grant	7,402,934	7,402,934	-	0%
	Public Transport Network Grant	6,194,045	6,194,045	-	0%

All payments were transferred into the approved primary bank accounts as stated in the DORA section 10 (1) (b) (iii) for municipalities and section 9 (1) (a) (i) for provinces schedule 4. All transfers were in accordance with the approved payment schedules as stated in the DORA, Section 22 and 23.

PART A: ACCOUNTING POLICIES

Summary of significant accounting policies

The financial statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. Management has concluded that the financial statements present fairly the department's primary and secondary information.

The historical cost convention has been used, except where otherwise indicated. Management has used assessments and estimates in preparing the annual financial statements. These are based on the best information available at the time of preparation.

Where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the financial statements and to comply with the statutory requirements of the Public Finance Management Act (PFMA), Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the PFMA and the annual Division of Revenue Act.

1	Basis of preparation
	The financial statements have been prepared in accordance with the Modified Cash Standard.
2	Going concern
	The financial statements have been prepared on a going concern basis.
3	Presentation currency
	Amounts have been presented in the currency of the South African Rand (R) which is also the functional currency of the department.
4	Rounding
	Unless otherwise stated financial figures have been rounded to the nearest one thousand Rand (R'000).
5	Foreign currency translation
	Cash flows arising from foreign currency transactions are translated into South African Rands using the spot exchange rates prevailing at the date of payment / receipt.
6	Comparative information
6.1	Prior period comparative information
	Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.
6.2	Current year comparison with budget
	A comparison between the approved, final budget and actual amounts for each programme and economic classification is included in the appropriation statement.

7	Revenue
7.1	Appropriated funds
	Appropriated funds comprises of departmental allocations as well as direct charges against the revenue fund (i.e. statutory appropriation).
	Appropriated funds are measured at the amounts receivable.
	Appropriated funds are recognised in the statement of financial performance on the date the appropriation becomes effective. Adjustments made in terms of the adjustments budget process are recognised in the statement of financial performance on the date the adjustments become effective.
	The net amount of any appropriated funds due to / from the relevant revenue fund at the reporting date is recognised as a payable / receivable in the statement of financial position.
7.2	Departmental revenue
	Departmental revenue is recognised in the statement of financial performance when received and is subsequently paid into the relevant revenue fund, unless stated otherwise.
	Departmental revenue is measured at the cash amount received.
	In-kind donations received are recorded in the notes to the financial statements on the date of receipt and are measured at fair value.
	Any amount owing to the relevant revenue fund at the reporting date is recognised as a payable in the statement of financial position.
7.3	Accrued departmental revenue
	Accruals in respect of departmental revenue (excluding tax revenue) are recorded in the notes to the financial statements when:
	it is probable that the economic benefits or service potential associated with the transaction will flow to the department; and
	the amount of revenue can be measured reliably.
	The accrued revenue is measured at the fair value of the consideration receivable.
	Accrued tax revenue (and related interest and / penalties) is measured at amounts receivable from collecting agents.
	Write-offs are made according to the department's debt write-off policy

8	Expenditure
8.1	Compensation of employees
8.1.1	Salaries and wages
	Salaries and wages are recognised in the statement of financial performance on the date of payment.
8.1.2	Social contributions
	Social contributions made by the department in respect of current employees are recognised in the statement of financial performance on the date of payment.
	Social contributions made by the department in respect of ex-employees are classified as transfers to households in the statement of financial performance on the date of payment.
8.2	Other expenditure
	Other expenditure (such as goods and services, transfers and subsidies and payments for capital assets) is recognised in the statement of financial performance on the date of payment. The expense is classified as a capital expense if the total consideration paid is more than the capitalisation threshold.
8.3	Accruals and payables not recognised
	Accruals and payables not recognised are recorded in the notes to the financial statements at cost or fair value at the reporting date.
8.4	Leases
8.4.1	Operating leases
	Operating lease payments made during the reporting period are recognised as current expenditure in the statement of financial performance on the date of payment.
	The operating lease commitments are recorded in the notes to the financial statements.
8.4.2	Finance leases
	Finance lease payments made during the reporting period are recognised as capital expenditure in the statement of financial performance on the date of payment.
	The finance lease commitments are recorded in the notes to the financial statements and are not apportioned between the capital and interest portions.
	Finance lease assets acquired at the end of the lease term are recorded and measured at the lower of:
	cost, being the fair value of the asset; or
	the sum of the minimum lease payments made, including any payments made to acquire ownership at the end of the lease term, excluding interest.
9	Cash and cash equivalents
	Cash and cash equivalents are stated at cost in the statement of financial position.
	Bank overdrafts are shown separately on the face of the statement of financial position as a current liability.
	For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held, other short-term highly liquid investments and bank overdrafts.

10	Prepayments and advances
	Prepayments and advances are recognised in the statement of financial position when the department receives or disburses the cash.
	Prepayments and advances are initially and subsequently measured at cost.
	Prepayments and advances are expensed prior to the receipt of the goods or service if the prepayment or advance is material, was budgeted for as an expense in the year in which the actual
	prepayment or advance was made and when the funds are utilised in accordance with the contractual arrangement.
11	Loans and receivables
	Loans and receivables are recognised in the statement of financial position at cost plus accrued interest, where interest is charged, less amounts already settled or written-off. Write-offs are made according to the department's write-off policy.
12	Investments
	Investments are recognised in the statement of financial position at cost.
13	Financial assets
13.1	Financial assets (not covered elsewhere)
	A financial asset is recognised initially at its cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.
	At the reporting date, a department shall measure its financial assets at cost, less amounts already settled or written-off, except for recognised loans and receivables, which are measured at cost plus accrued interest, where interest is charged, less amounts already settled or written-off.
13.2	Impairment of financial assets
	Where there is an indication of impairment of a financial asset, an estimation of the reduction in the recorded carrying value, to reflect the best estimate of the amount of the future economic benefits expected to be received from that asset, is recorded in the notes to the financial statements.
14	Payables
	Payables recognised in the statement of financial position are recognised at cost.
15	Capital Assets
15.1	Immovable capital assets
	Immovable assets reflected in the asset register of the department are recorded in the notes to the financial statements at cost or fair value where the cost cannot be determined reliably. Immovable assets acquired in a non-exchange transaction are recorded at fair value at the date of acquisition. Immovable assets are subsequently carried in the asset register at cost and are not currently subject to depreciation or impairment.
	Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.
	Additional information on immovable assets not reflected in the assets register is provided in the notes to financial statements.

15.2	Movable capital assets
	Movable capital assets are initially recorded in the notes to the financial statements at cost. Movable capital assets acquired through a non-exchange transaction is measured at fair value as at the date of acquisition.
	Where the cost of movable capital assets cannot be determined reliably, the movable capital assets are measured at fair value and where fair value cannot be determined; the movable assets are measured at R1.
	All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.
	Movable capital assets are subsequently carried at cost and are not subject to depreciation or impairment.
	Subsequent expenditure that is of a capital nature forms part of the cost of the existing asset when ready for use.
15.3.	Intangible capital assets
	Intangible assets are initially recorded in the notes to the financial statements at cost. Intangible assets acquired through a non-exchange transaction are measured at fair value as at the date of acquisition.
	Internally generated intangible assets are recorded in the notes to the financial statements when the department commences the development phase of the project.
	Where the cost of intangible assets cannot be determined reliably, the intangible capital assets are measured at fair value and where fair value cannot be determined; the intangible assets are measured at R1.
	All assets acquired prior to 1 April 2002 (or a later date as approved by the OAG) may be recorded at R1.
	Intangible assets are subsequently carried at cost and are not subject to depreciation or impairment.
	Subsequent expenditure of a capital nature forms part of the cost of the existing asset when ready for use.
16	Provisions and Contingents
16.1	Provisions
	Provisions are recorded in the notes to the financial statements when there is a present legal or constructive obligation to forfeit economic benefits as a result of events in the past and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the obligation can be made. The provision is measured as the best estimate of the funds required to settle the present obligation at the reporting date.
16.2	Contingent liabilities
	Contingent liabilities are recorded in the notes to the financial statements when there is a possible obligation that arises from past events, and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department or when there is a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation or the amount of the obligation cannot be measured reliably.
	<u> </u>

16.3	Contingent assets
	Contingent assets are recorded in the notes to the financial statements when a possible asset arises from past events, and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not within the control of the department.
16.4	Capital Commitments
	Capital commitments are recorded at cost in the notes to the financial statements.
17	Unauthorised expenditure
	Unauthorised expenditure is measured at the amount of the confirmed unauthorised expenditure.
	Unauthorised expenditure is recognised in the statement of changes in net assets until such time as the expenditure is either:
	approved by Parliament with funding and the related funds are received; or
	 approved by Parliament without funding and is written off against the appropriation in the statement of financial performance; or
	transferred to receivables for recovery.
	Unauthorised expenditure recorded in the notes to the financial statements comprise of:
	 unauthorised expenditure that was under assessment in the previous financial year; unauthorised expenditure relating to previous financial year and identified in the current year, and
	 unauthorised expenditure incurred in the current year.
18	Fruitless and wasteful expenditure
	Fruitless and wasteful expenditure receivables are recognised in the statement of financial position when recoverable.
	The receivable is measured at the amount that is expected to be recovered and is de- recognised when settled or subsequently written-off as irrecoverable.
	Fruitless and wasteful expenditure is recorded in the notes to the financial statements when and at amounts confirmed, and comprises of:
	 fruitless and wasteful expenditure that was under assessment in the previous financial year;
	 fruitless and wasteful expenditure relating to previous financial year and identified in the current year, and
	fruitless and wasteful expenditure incurred in the current year.

19	Irregular expenditure
	Losses emanating from irregular expenditure are recognised as a receivable in the statement of financial position when recoverable.
	The receivable is measured at the amount that is expected to be recovered and is de- recognised when settled or subsequently written-off as irrecoverable.
	Irregular expenditure is recorded in the notes to the financial statements when and at amounts confirmed and comprises of:
	irregular expenditure that was under assessment in the previous financial year;
	irregular expenditure relating to previous financial year and identified in the current year, and
	irregular expenditure incurred in the current year.
20	Changes in accounting policies, accounting estimates and errors
	Changes in accounting estimates are applied prospectively in accordance with MCS requirements.
	Correction of errors is applied retrospectively in the period in which the error has occurred in accordance with MCS requirements, except to the extent that it is impracticable to determine the period-specific effects or the cumulative effect of the error. In such cases the department shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practicable.
21	Events after the reporting date
	Events after the reporting date that are classified as adjusting events have been accounted for in the financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the financial statements.
22	Principal-Agent arrangements
	The department is party to principal-agent arrangements for the taxi relief scheme and for municipal services. In terms of the arrangements the department is the principal and is responsible for the taxi relief payments and the cost of municipal services plus a management fee. All related revenues, expenditures, assets and liabilities have been recognised or recorded in terms of the relevant policies listed herein. Additional disclosures have been provided in the notes to the financial statements where appropriate.
23	Capitalisation reserve
	The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are recognised in the capitalisation reserves when identified in the current period and are transferred to the National Revenue Fund when the underlying asset is disposed and the related funds are received.
24	Recoverable revenue
	Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year. Amounts are either transferred to the National Revenue Fund when recovered or are transferred to the statement of financial performance when written-off.

25	Related party transactions
	Related party transactions within the Minister's portfolio are recorded in the notes to the financial statements when the transaction is not at arm's length.
	The full compensation of key management personnel is recorded in the notes to the financial statements.
26	Inventories (Effective from date determined in a Treasury Instruction)
	At the date of acquisition, inventories are recognised at cost in the statement of financial performance.
	Where inventories are acquired as part of a non-exchange transaction, the inventories are measured at fair value as at the date of acquisition.
	Inventories are subsequently measured at the lower of cost and net realisable value or where intended for distribution (or consumed in the production of goods for distribution) at no or a nominal charge, the lower of cost and current replacement value.
	The cost of inventories is assigned by using the weighted average cost basis.
27	Public-Private Partnerships
	Public Private Partnerships are accounted for based on the nature and or the substance of the partnership. The transaction is accounted for in accordance with the relevant accounting policies.
	A summary of the significant terms of the PPP agreement, the parties to the agreement, and the date of commencement thereof together with the description and nature of the concession fees received, the unitary fees paid, rights and obligations of the department are recorded in the notes to the financial statements.
28	Employee benefits
	The value of each major class of employee benefit obligation (accruals, payables not recognised and provisions) is recorded in the Employee benefits note. Accruals and payables not recognised for employee benefits are measured at cost or fair value at the reporting date.
	The provision for employee benefits is measured as the best estimate of the funds required to settle the present obligation at the reporting date.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2024

Major variances:

Advertising: Decrease of R4 million due to less advertising through GCIS.

Communications: Paid R9,5 million more due to an increase in broadcasting services during the 2023/24 year.

Computer services: R13,2 million was paid more on SITA data lines, external computer services and software licences in the 2023/24 year.

Consultants: Increased by R25 million due to payments for the Taxi Scrapping Administration, the National Rail Devolution Strategy and the National Rail Master Plan.

Infrastructure & planning services: Paid R38,4 million more for the oil pollution prevention in the 2023/24 year. The increase in the 2023/24 was as a result of three invoices relating to the 2022/23 financial year which were only paid in the 2023/24 financial year.

Legal services: Paid R3,4 million more to the Department of Justice for legal fees in the 2023/24 year.

Contractors: Decreased by R2,1 million due to payment for search and rescue paid in the 2022/23 year.

Inventory Other Supplies: Increase of R27 million on the Shova Kalula Bicycle project due to the procurement of 16,000 bicycles in the 2023/24 financial year.

Travel and subsistence and Venues and facilities: Increased by R58,6 million due to more travelling to the provinces and the finalization of travel agent invoices for the 2022/23 year.

In the 2020/21 financial year, the Department entered into a principal-agent arrangement with the National Empowerment Fund. Advance payments were made to the National Empowerment Fund to process Covid relief payments to registered taxi operators. An amount of R1,135 billion was made available for the relief payments and an amount of R40 million was paid as a management fee. The full amount of the advance was expensed in the 2020/21 financial year, as the amount was material, was budgeted for as an earmarked expense in the financial year and is being utilised in accordance with the contractual arrangement.

For the 2021/22 financial year, a total of 7,296 taxi license owners were paid, with a total cost of R36,476,575.00 which left a remaining balance of R1,098,523,425.00.

For the 2022/23 financial year, a total of 73,630 taxi license owners were paid, with a total cost of R368,173,820.00 which left a remaining balance of R730,349,605.00.

For the 2023/24 financial year, a total of 4,438 taxi license owners were paid, with a total cost of R22,247,500.00 which left a remaining balance of R708,102,105.00. On the management fee, the total spent was R31,336,811.00, which left a balance of R8,663,189.00 remaining. The NEF refunded the remaining balance of R708,102,105 back to the Department and the Department surrendered the amount into the National Revenue Fund in May 2024. The Department has requested Treasury to re-allocate the amount back to the Department. Cabinet has approved that the Department continues with covid relief payments to the remaining Operators who have not yet received it.

Advance payments to the Department of Statistics South Africa to conduct a National Household Travel Survey totalled R75,828,744.15. The full amount of the advance was expensed in the 2019/20 financial year, as the amount was material, was budgeted for as an earmarked expense in the financial year and is being utilised in accordance with the contractual arrangement.

For the 2020/21 financial year, an amount of R9,220,525.73 was spent with a remaining balance of R25,973,922.79 For the 2021/22 financial year, an amount of R47,426.15 was credited, which left a balance of R26,021,348.94 For the 2022/23 financial year, an amount of R94,344.79 was spent with a remaining balance of R25,927,004.15 For the 2023/24 financial year, an amount of R522,817.68 was spent with a remaining balance of R25,404,186.47

NOTES TO THE ANNUAL FINANCIAL STATEMENTS for the year ended 31 March 2024

21	Contin	gent liabilities and contingent assets	Note	2023/24 R'000	2022/23 R'000
	21.1	Contingent liabilities			
		Liable to			
		Other guarantees	Annex 3A	28,941,628	38,173,817
		Claims against the department	Annex 3B	12,154	136
		Intergovernmental payables (unconfirmed balances)	Annex 5	96,755	63,335
		Total		29,050,537	38,237,288

A brief description on the uncertainties relating to the amount or timing of any outflow:

Guarantees: The potential financial effect amounts to the amount of guarantees issued. The amount and timing of any outflow is uncertain and will depend on whether the South African National Roads Agency (SOC) Ltd. honour the obligations that are guaranteed.

Claims against the Department represent the amounts of litigation against the Department and claims for expenditure that was not substantiated. The amount and timing of any outflow is uncertain and will depend whether legal action against the Department succeeds or whether amounts claimed can be substantiated.

Intergovernmental payables: The amount that was claimed is being disputed. When the dispute will be resolved, the agreed amount will be paid.

A brief discussion on the possibility of any reimbursement: For guarantees issued, there is no possibility of any reimbursement. For claims against the Department, there is a possibility of the reimbursement of legal costs, depending on a court order. For intergovernmental payables, there is a possibility that amounts could be credited, but not reimbursed.

Total lease commitments	3,505	3,505

A general description of the material leasing arrangements: A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. Material leasing arrangements are leases of photocopy machines and cellular telephones. For photocopy machines, the Department has an option to renew the lease after the initial period of 36 months for another 24 months with a 75% reduction in the original lease price. For cellular telephones, a one month notice must be given to end the lease at the end of the lease period of 24 months, after which the cellular telephones become the property of the Department.

Included in Payments for Financial Assets are payments made on behalf of RTIA and the DLCA for seconded staff costs.

In the 2022/23 financial year, R23.7 billion was a special allocation to the South African National Roads Agency Limited (SANRAL) from National Treasury for the debt redemption as a partial payment for the Gauteng Freeway Improvement Project, due to the insufficient generation of toll revenue to service the debts raised for its construction.

An MOA was signed between National Treasury, the National Department of Transport and the Gauteng Province for the GFIP debt, where the National Treasury will be responsible for 70% and the Gauteng Province 30% of the debt.

A description of the nature, circumstances, significant judgment applied, significant terms and conditions, any significant risks and benefits relating to the arrangements with the agents :

Taxi relief scheme - National Empowerment Fund (NEF):

The taxi relief scheme is intended to assist the taxi operators to mitigate the effect of Covid-19. The NEF was appointed to verify qualifying operators and disburse the funds. The contract with NEF ended on 31 May 2023 and a close out report was provided to the Department.

A discussion of the resource or cost implications for the principal if the principal-agent arrangement is terminated:

Taxi relief scheme - National Empowerment Fund Trust:

If the principal-agent agreement is terminated, the department will be responsible to make the payments to the 250,000 plus taxi operators.

The overlapping of financial years between National Government and Local Government should be noted, the first quarter expenditure figures for municipalities are the last quarter of their financial year. PTNG: NT approved the stopping of four cities and reallocations to two cities as per section 18 &19 of the DORA. RRAMS: NT approved the stopping of Joe Gqabi and reallocation to five district municipalities as per section 18 &19 of the DORA.

Closing balance

Expenditure on the redesign of the National Land Transport Information System was capitalised as work in progress, since the research cost, development cost and the cost of the perpetual licence cannot be separated. The system is currently being rolled out to various entities, the National Public Transport Regulator and the Provincial Regulatory Entities. As implementation is a phased approach entities' going live is dependent on their readiness to accept and process new applications on the system.
