A template for requesting confidentiality from ICASA is further provided in these guidelines, in Appendices A and B.
- 1.2 This document provides guidance to ICASA staff and informs the public of ICASA's policies and procedures. These guidelines are not regulations. They are not legally enforceable and do not create any legal rights or impose any legally binding requirements or obligations on ICASA or the public.
- 1.3 Section 4D provides as follows:

**"4D. Confidential information**

- (1)

## **2. Information required to accompany a request for confidentiality**

2.1 The provision in the ICASA Act cited above expressly states that "*(t)he request for confidentiality must be accompanied by a written statement explaining why the specific information should be treated as confidential*" (our emphasis).

- 2.3.1 identify the confidential information; and
- 2.3.2 provide a written statement or explanation justifying why the Authority should treat the identified information as confidential.

## **3. Categories of information that the Authority is required to treat as confidential**

3.1 Section 4D (4) of the ICASA Act identifies the following categories:

The information under this category may include the names of third parties with which the applicant has contracted, the value of such contractual agreements and selling prices.

**3.1.4 *The names of prospective employees***

This category refers to prospective employees of the applicant or licensee or any person who submits confidential information to the Authority. Names of prospective employees must be treated as confidential by the Authority if confidentiality is requested thereon.

Unless if apparent to the Authority, the onus is on the applicant to prove that the names, in relation to those confidentiality is requested, are those of prospective employees, not of those individuals already employed by the applicant.

**3.1.5 *Business plans of a licensee***

Any business plan must be treated as confidential by the Authority if confidentiality is requested thereon. Unless if apparent to the Authority, the onus is on the applicant to prove that the document is a business plan.

In each category above, the onus falls on the applicant to demonstrate and substantiate that such information would be fall within any of the above categories. The written statement that accompanies each information should provide such substantiation.

It is worth noting that all the categories mentioned above are subject to the information not being available in the public domain, the operation of law and an order of court.

It is also worth noting that an applicant can request confidentiality on any information not listed in section 4D (4) of the ICASA Act provided that such information is not in the public domain and the applicant provides reasons as to why specific information must be treated as confidential.

### **3.2 Withdrawal of information by the applicant**

- 3.2.2 Should the applicant withdraw the information, the Authority may continue with whatever process the information was required for, without reference to or relying on the withdrawn information.

### **3.3 Reasons for refusal of confidentiality by the Authority**
