## INTRODUCTION

### 1. Background

Following the Legal Education Forum held in July 2022, and the Legal Education Colloquium held in November 2023, it was resolved that candidate attorneys sitting for the competency-based examinations required an examinations curriculum that would serve as a guide on what to prepare and focus on for the examinations. The curriculum and syllabus document is prepared in terms of Regulation 6(10) of the Legal Practice Act, as well as the approved Norms and Standards guidelines published by the LPC in the Government Gazette on 11 December 2020.

The syllabus and curriculum document have been finalised. They are published below. The syllabus and curriculum will come into effect in 2026. From 2026 all future assessments of candidate attorneys will be subject to the syllabus and curriculum document set out below.

In order to be admitted as an attorney, a candidate will need to complete the PVT contract with their principal (previously called articles); complete the 150-notional or 400-notional hour PVT structured coursework programme through an LPC-accredited training provider; and pass the five competency-based, admission examinations. This document deals with the latter two requirements (being the PVT structured coursework, and the examinations).

#### ***Regulation 6(10) provides that:***

- (10) The programme of structured course work referred to in sub-regulation (1)(a) and (b) must be standardised and uniform throughout the Republic and comprise the following modules:

If a candidate successfully completes all the abovementioned modules (attendance and assessment as required), the candidate will be entitled to receive the certificate confirming their successful completion, and their competence in the abovementioned modules.
