DEPARTMENT OF TRADE, INDUSTRY AND COMPETITION**NOTICE 3907 OF 2026****INTERNATIONAL TRADE ADMINISTRATION COMMISSION****NOTICE OF THE CONCLUSION OF AN INVESTIGATION INTO THE ALLEGED DUMPING OF DUMPING OF FULLY AUTOMATIC TOP LOAD MACHINES, OF A DRY LINEN CAPACITY EXCEEDING 10 KG BUT LESS THAN 17 KG, CLASSIFIABLE UNDER TARIFF SUBHEADING 8450.20.20 ORIGINATING IN OR IMPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA ("CHINA") AND THE KINGDOM OF THAILAND ("THAILAND"): FINAL DETERMINATION**

The International Trade Administration Commission of South Africa ("the Commission") initiated an anti-dumping investigation on top load washing machines, originating in or imported from the People's Republic of ("China") and the Kingdom of Thailand ("Thailand") through Notice No. 2794 of 2024, which was published in *Government Gazette* No. 51431 on 25 October 2024.

The investigation was initiated after the Commission considered that there was *prima facie* evidence indicating that the subject product was being imported into the Southern African Customs Union ("SACU") at dumped prices, thus causing material injury to the SACU industry.

On 22 June 2025, the Commission made a preliminary determination to impose provisional payments as contained in Report No. 752, published through Notice R.6438 in the *Government Gazette* No. 53020 dated 18 July 2025.

After considering all responses and comments received from the interested parties, the Commission issued essential facts letters indicating that it was considering making a final determination that the subject product was being dumped into the SACU market, causing material injury to the SACU industry.

After considering comments on the essential facts letters, the Commission made a final determination that the subject product originating in or imported from China and Thailand was being imported into the SACU market at dumped prices, thereby causing material injury and that there is a causal link between the dumping of the subject product and the material injury suffered by the SACU industry.

Therefore, the Commission made a recommendation to the Minister of Trade, Industry and Competition (“the Minister”):

- To impose definitive anti-dumping duties on the subject product originating in or imported from China and Thailand.
- That definitive anti-dumping duties be imposed on the subject product produced by all the producers in China and Thailand as per recommendation in pages 110-111 of Report No. 772.
- To recommend anti-dumping duties on the subject product be listed on the “rebate item” column in Schedule No.2 to the Customs and Excise Act and therefore may not be imported under rebate of custom duty without payment of anti-dumping, countervailing and safeguards duties without recommendation from the Commission.

The Minister approved the Commission’s recommendation.

The five (5) year period for which the anti-dumping duties may remain in place, unless a sunset review is initiated, will be calculated from the publication date of the notice imposing such duties.
