DEFINITIONS

Definitions

1. In these Regulations, any word or expression to which a meaning has been assigned in the Act, bears the meaning so assigned and, unless the context otherwise indicates—

“Biocultural Community Protocols” means instruments developed by indigenous communities’ that set out clear terms and conditions to third parties for engaging with indigenous communities when accessing their resources and knowledge;

“DSTI” means the Department of Science, Technology and Innovation;

“Legal expert” means an admitted attorney or advocate who has at least 10 years’ experience in dispute resolution, either in patent law, commercial law or Intellectual Property law.

Rights conferred - Biocultural Community Protocol

2. (1) The DSTI shall be responsible for assisting communities in developing their own Biocultural Community Protocols noting that Biological resources are themselves the product or embodiment of knowledge of past and current generations, considering that knowledge and resources are used and transmitted together.

(2) The DSTI must ensure that the Biocultural Community Protocols include the social processes by which indigenous knowledge is acquired and used, which sustain knowledge systems and give traditional knowledge its distinct character,

and are shaped by the unique cultural and spiritual values and beliefs of communities.

(3) The DSTI must ensure that the Biocultural Community Protocols include knowledge, innovations, practices and cultural expressions of indigenous people and local communities that are often held collectively and are linked to indigenous biological resources and territories, including the diversity of genes, varieties, species and ecosystems, cultural and spiritual values, and customary laws shaped within the socio-ecological context of communities.

(4) The DSTI must ensure that the Biocultural Community Protocols consider the leadership structures of the communities as the custodians of the communities and associated resources as the decision makers in conjunction with the trustees.

(5) The DSTI must ensure that the Biocultural Community Protocols consider the following elements:

- (a) Ways of life, including the links between culture, spirituality, and customary laws and values;
- (b) rights, responsibilities, and duties of the community according to customary, national, and international law; and
- (c) conditions set out by the community for granting access to their lands, resources and knowledge, such as procedures for prior and informed consent.

(6) Bio-cultural Heritage Registers and Databases shall be an integral part of the Biocultural Community Protocols in order to ensure that pre-existing data is considered as important information during the research and innovation and in prior art, and the owners of the data are acknowledged after a Prior and Informed Consent has been concluded.

ADVISORY PANEL

Appointment of advisory panel

3. The Minister may appoint Advisory Panel members contemplated in section 7(2) of the Act, through public nominations, consisting of -

- (a) persons recognized as traditional leaders, and who are custodians of the communities and their resources, and demonstrated involvement in cultural preservation, customary law or traditional practices;
- (b) persons who are indigenous community representatives and are recognized by their communities as knowledge holders, elders or practitioners;
- (c) persons who possess expertise in indigenous knowledge systems such as traditional medicine, agriculture and food system, environmental stewardship and biodiversity, language, storytelling or oral history; and
- (d) persons who have experience in policy, research and advisory services to Government departments, Universities or Research councils, Cultural heritage institutions, and are experienced in translating indigenous perspective into policy relevant guidance.

4. Before appointing the Advisory Panel members of the Board referred to in regulation 3, the Minister must—

(1) publish a notice in the *Gazette* and three national newspapers, with due regard to the Use of Official Languages Act, 2012 (Act No. 12 of 2012), calling upon members of the public to nominate persons contemplated in regulation 3 (a) to (d); and

(2) appoint an independent committee, with NIKSO serving as secretariate, which must compile a shortlist of not less than 18 but not more than 22 persons from the

nominees referred to in sub-regulation (1).

5. The notice contemplated in regulation 4(1) must, amongst others, request members of the public to nominate person –

- (a) of good standing and integrity;
- (b) from multiple cultural diversity;
- (c) from rural and urban indigenous communities; and
- (d) including women, youth and people living with disability.

- Indigenous technology
- Indigenous games and sports
- Indigenous music

The Five Categories

The five Indigenous Knowledge categories against which the norms and standards were developed, and which describes the level descriptors were informed by the ten NQF categories as the most relevant to the IKS disciplines: The five categories are as follows:

1. Scope of Knowledge
2. Ethics & professionalism
3. Accountability
4. Problem solving
5. Context & Systems

The indigenous knowledge level descriptors are described as a statement articulating the learning achievement at a particular level of the indigenous knowledge learning acquisition and pathway that provides a broad indication of the types of learning outcomes and assessment criteria that are appropriate to the awarding at that level.¹

¹ In the development of the norms and standards for the RPL IKS Disciplines and in consultations with the IKS knowledge holders and experts, the norms and standards for the IKS categories include three functional categories, namely (i) Business administration, (ii) Communication skills and (iii) leadership and management skills to compliment the NQF categories completing the skills competencies that would provide for effective implementation of designations.
