Are your drawing skills out of this world?

Courses offered at NEMISA

Short Courses	
Animation Drawing	4 weeks skills programme for entry-level Animation Practitioners
Introduction to Graphic Design	2 weeks skills programme for entry-level Design Practitioners
Full time courses	
2D Animation	18 Months
Graphic Design Foundation	12 Months

You can apply for one of the following full time courses:

Graphic Design Foundation

We offer a one year programme that serves as a foundation for both Graphic Design and Animation. The course exposes learners to theoretical, practical and technological components of Graphic Design and Animation production. Aimed at preparing learners for further education and training in the Fields of Animation and Graphic Design, the course equips learners with key skills of conceptualization, and visual communication. Learners are further exposed to: writing for multimedia, digital storytelling, and art direction.

2D Animation

We offer an eighteen month programme that is based on both traditional and digital animation and is designed to cover the entire value chain of animation production (from conception, to production and editing).
The course exposes learners to theoretical, practical and technological components of animation production in the 2D Animation Discipline. Aimed at preparing learners for the competitive market place of animation and digital graphics production, the course equips learners with key skills of interpretation, visualization, conceptualization, production and technical application of Animation projects. The first year we introduce learners to Traditional Animation. In the second year we begin Digital 2D Animation studies. Graduates will acquire the skills necessary to work independently, collaboratively and in studio settings.

Full Time Entrance Requirements:	Matric/Grade 12/NQF Level 4 Related Qualification, Mathematics & English at NQF Level 4, Entrance Exam, and Visual Portfolio. Advantageous: NC(V) level 4: IT, or Marketing
Application Deadline: November 30, 2018	
Commencement Date: January 28, 2019	

Note: Each Application received is put through a Selection Process that includes scoring according to various criteria as prescribed by the institutions and the Qualification.
Portfolio Requirements
Applicants are required to create an Application Portfolio and attach it to their application.
(Please check the Application Form to see what the portfolio requirements are.)
